## E-TRIAL PARCOURS

A good sense of balance and a decent portion of courage are needed to safely master the E-Trial Parcours on an electric motorbike for children, young people and adults. In addition to coordination skills, trial riding also requires dexterity and nerves of steel. The E-Trials are powered by an environmentally friendly electric motor and virtually silent.

## MOUNTAIN SCOOTER TOUR

Whether you're a sports enthusiast or just a pleasure-lover - you can hire the knee-friendly MountainScooters without any previous experience and ride the Penken PanoramaTour (see reverse for route). When riding, your feet are centrally located under the body's centre of gravity - unlike when biking. Because of this standing posture, the ride experience feels like skiing.
