

Request Payments and Signatures in One Step

Many businesses need to collect payment and signatures as part of the same agreement process. Today, these two steps are often separate and disjointed, causing businesses to experience payment delays—or a failure to collect altogether. Existing payment and signature collection processes also result in wasted time chasing down money owed, poor customer experience, inaccuracies and errors, and distraction from revenue-generating opportunities.

Docusign Payments is a fast and easy way to request payments and signatures in just one step

- **Get paid instantly** and avoid delays in collecting money owed.
- **Spend time growing your business** rather than manually collecting payments and signed agreements.
- **Prevent inaccuracies** and reduce errors to ensure you get paid the right amount.
- **Deliver a superior customer experience** with the ability to sign and pay anytime, anywhere, on any device.
