

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (UK). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (EUWA); or (ii) a customer within the meaning of the Financial Services and Markets Act 2000 (the FSMA) and any rules or regulations under the FSMA to implement Directive (EU) No 2016/97, where that customer would not qualify as a professional client as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Regulation (EU) No 2017/1129 as it forms part of domestic law by virtue of EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (as amended the UK PRIIPs Regulation) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been or will be prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MIFID II PRODUCT GOVERNANCE / RETAIL INVESTORS, PROFESSIONAL INVESTORS AND ELIGIBLE COUNTERPARTIES – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes, taking into account the five categories referred to in item 19 of the Guidelines published by the European Securities and Markets Authority ("ESMA") on 3 August 2023, has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in MiFID II; and (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice, and portfolio management, and non-advised sales and pure execution services, subject to the distributor's suitability and appropriateness obligations under MiFID II. Any person subsequently offering, selling or recommending the Notes (a distributor) should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

UK MIFIR PRODUCT GOVERNANCE /RETAIL INVESTORS, PROFESSIONAL INVESTORS AND ELIGIBLE COUNTERPARTIES ONLY TARGET MARKET – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes, has led to the conclusion that: (i) the target market for the Notes is retail clients, as defined in point 8 of article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("EUWA"), and eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (COBS), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("UK MiFIR"); (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice, portfolio management, non-advised sales and pure execution services, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable. The product is incompatible for any client outside the positive target market identified above. Any distributor should take into consideration the manufacturer's target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the UK MiFIR Product Governance Rules) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable.

Return on the structured notes will be calculated based on the following payoff formula: **Bonus**

The Bonus is a particular type of Conditional Vanilla. It may pay an amount linked to the positive performance of the Selection. This amount may be subject to the fulfilment of a condition on this performance. In cases where such Performance is negative and below a certain barrier level, the Notes may be redeemed below par.

The Final redemption amount per Note is determined by the Calculation Agent in accordance with the following formula:

$$\text{Calculation Amount} \times (100\% + \text{Vanilla}_1 \times \text{UpsideCondition} - \text{Vanilla}_2 \times \text{DownsideCondition})$$

Where:

$$\text{Vanilla}_1 = \text{Coupon}_1 + G_1 \times \text{Min}(\text{Cap}_1, \text{Max}((\text{BasketPerf}_1(T) - K_1), \text{Floor}_1))$$

$$\text{Vanilla}_2 = G_2 \times \text{Min}(\text{Cap}_2, \text{Max}((K_2 - \text{BasketPerf}_2(T)), \text{Floor}_2))$$

The value of each Condition is determined as follows:

$$\begin{aligned}\text{UpsideCondition}_1 &= 1 \text{ if } \text{BasketPerf}_3(T) \geq H \\ &= 0 \text{ if not} \\ \text{DownsideCondition} &= 1 \text{ if } \text{BasketPerf}_4(T) < B \\ &= 0 \text{ if not}\end{aligned}$$

For the purposes of determining **LocalBasketPerf(s)**, **Weighted** means the weighted average of the individual performances of each Underlying in the Selection, as calculated by the Calculation Agent in accordance with the following formula:

$$\text{LocalBasketPerf}(t) = \sum_{i=1}^n \omega^i \times \text{IndivPerf}(i, t)$$

Where: ω^i means 100% and **n** means 1.

In this **Weighted** formula, **IndivPerf(i, t)** means, for the Valuation Date “t”, “t” = 1, the **European Individual Performance** formula.

Most material risk factors pertaining to the Guarantor

The key risks in relation to NATIXIS' structure and operations are set out below:

1. NATIXIS is exposed to the credit and counterparty risks in its activities. Should one or more of its counterparties fail to honor their contractual obligations, NATIXIS could suffer varying degrees of financial loss depending on the concentration of its exposure to said counterparties;
2. A deterioration in the financial markets could adversely affect NATIXIS' capital markets and asset management activities. In recent years, the financial markets have fluctuated significantly in a sometimes exceptionally volatile environment which could recur and potentially result in significant losses in NATIXIS' capital market activities and adversely impact NATIXIS' asset management activities;
3. Should NATIXIS fail to comply with applicable laws and regulations, NATIXIS could be exposed to significant fines and other judicial, administrative, arbitral and disciplinary (including criminal) sanctions that could have a material adverse impact on its financial position, business and reputation; and
4. NATIXIS is exposed to risks related to the economic conditions in which it operates. Its asset & wealth management and corporate & investment banking activities are sensitive to changes in the financial markets and, in general, to economic conditions in France, Europe and worldwide. Adverse market or economic conditions could adversely impact NATIXIS' profitability and financial position.

What are the key risks that are specific to the Notes?

The key risks that are significant for the assessment of the Notes are set out below:

General risk factors

Risk of volatility of the Notes: Noteholders face a risk of volatility, which refers to the risk of changes in the value of a Note, as well as any difference between the valuation level and the sale price of the Notes on the secondary market. Events in France, Europe or elsewhere could cause volatility in the secondary market of the Notes, which could result in a negative impact on the trading or sale price of the Notes.

Risk relating to the NATIXIS Guarantee (which includes reference to resolution or insolvency risk of the Guarantor): Should Natixis (as **Guarantor**) undergo resolution proceedings pursuant to European regulation and French transposition rules establishing a framework for the recovery and resolution of credit institutions and investment firms, it may not be able to fulfil all or part of its payment obligations under the Guarantee, , if it was triggered, and the Noteholders could thus lose all or part of their initial investment.

Risk of early redemption in the event of illegality, changes in taxation or force majeure: In the event of an early redemption of the Notes in the event of illegality or changes in rules on withholding taxes or if the performance of the Issuer's obligations under the Notes is impossible or insurmountable due to the occurrence of force majeure event, the noteholders will receive an amount equal to the fair market value of the Notes. The fair market value of the Notes payable upon early redemption may be lower than the amount that the Noteholders initially anticipated.

Risk of loss of capital for Notes whose redemption amount is determined by reference to a calculation formula and/or linked to an underlying asset: The amounts payable by the Issuer are linked to or make reference to the performance of the underlying asset(s) (the **Underlying(s)**). Such amounts may be determined by the application of a calculation formula and one or more observations or the occurrence of certain events in relation to the Underlying(s). The Underlying is an index and as such, certain factors may entail a different performance from that of its component(s), such as volatility or dividend treatment. If there is an adverse change in the performance of the Underlying(s), exacerbated, if relevant, by the terms of the formula or indexation provisions, the Noteholders may suffer a significantly decreased redemption amount on the Notes or even a total loss of its investment.

Risk of low or no returns The amounts of interest payable by the Issuer are linked to or make reference to changes in the Underlying(s). Such amounts may be determined by the application of a calculation formula and one or more observations or the occurrence of certain events in relation with the Underlying(s). If there is an adverse change in the price, value or level of the Underlying(s), exacerbated, if relevant, by the terms of the above-mentioned formula or indexation provisions, investors may suffer a significantly decreased rate of return on the Notes or even no return whatsoever.

Underlying dedicated risk factors

Risks associated with Notes whose interest amounts and/or redemption amounts are linked to or make reference to a "benchmark": The indices that are considered as "benchmarks" are governed by regulatory guidelines and reform proposals at national and international levels. These reforms

¹ Supervisory Review and Evaluation Process.

could have effects on the methodology of some benchmarks or the continuation of such benchmarks, which may be discontinued. Such changes could have a material adverse effect on the value and the interest amounts and/or redemption amounts due in respect of Notes whose interest amounts and/or redemption amounts are linked to or make reference to that particular benchmark.

Risks relating to the occurrence of an Administrator/Benchmark Event: There is a risk that, upon the determination by the Calculation Agent, an event with respect to the Underlying as a benchmark or the administrator of such benchmark occurs whose effect is that certain fallback provisions shall apply (an **Administrator/Benchmark Event**). Any adjustment decided by the Calculation Agent further to the occurrence of an Administrator/Benchmark Event may not be effective in reducing or eliminating investor losses resulting from the replacement of the Underlying and could affect the performance of the Notes. Investors should also note that Noteholder consent shall not be required for application of any adjustment. If, following the occurrence of an Administrator/Benchmark Event, the Notes are early redeemed at their fair market value, the interest amounts and/or redemption amounts due in respect of the Notes may be less than the amount initially set out in the Final Terms. The above-described elements may affect the Issuer's ability to perform its obligations under the Notes and/or may have a negative impact on the value or liquidity of the Notes.

Risks associated with Notes whose interest amounts and/or redemption amounts are linked to or make reference to an Underlying index: The determination of the interest amounts and/or redemption amounts due in respect of the Notes requires observation of the Underlying's value(s). Certain events may affect the administrator of the Underlying or the Underlying, such as modification of the Underlying formula, cancellation of the Underlying or failure to calculate and announce the Underlying. In such cases, the Calculation Agent may, at its discretion, either (i) calculate the level of the Underlying in accordance with the formula for and method of calculating the Underlying last in effect prior to such event, (ii) replace the Underlying, or (iii) require the Issuer to redeem the Notes at the early redemption amount equal to the fair market value as determined by and at the sole discretion of the Calculation Agent. The adjustment of the terms of the Notes or the replacement of the Underlying may affect the Issuer's ability to perform its obligations under the Notes and/ or may have a negative impact on the value and the interest amounts and/or redemption amounts or liquidity of the Notes. Moreover, the fair market value calculated in case of early redemption may be less than the redemption amount initially set out in the terms of the Notes and consequently investors may lose all or some of their investment.

Risk relating to change in law or the inability to hold hedging positions and/or materially increased cost of hedging: The Issuer enters into hedging agreements to cover the risks related to such Notes and in particular changes in the price, value or level of the relevant Underlying(s). In the event of a change in law or a hedging disruption, increased cost of hedging it may become unlawful or impracticable or materially more costly for the Issuer to hold or otherwise deal with such hedging agreements. In these cases, the Issuer may elect to (i) request the Calculation Agent may, at the request of the Issuer, at its discretion, either to adjust certain terms of the Notes, at its discretion, or (ii) redeem all (but not some only) of the Notes at the early redemption amount equal to the fair market value as determined by and at the sole discretion of the Calculation Agent. The adjustment of the terms of the Notes may have a material impact on the interest amounts and/or redemption amounts due in respect of the Note and on the value of the Notes indexed. Moreover, such fair market value may be less than the redemption amount initially set out in the terms of the Notes and consequently investors may lose all or some of their investment.

Risks relating to inability to observe the price, value or level of the Underlying(s) in the event of market disruption: Determination of the interest amounts and/or redemption amounts due in respect of the Notes requires observation of the value of the Underlying(s) in the relevant market(s) or from a particular source of information. Market disruption events related to these markets may occur and prevent the Calculation Agent from making such determinations. In such cases, the Calculation Agent shall defer the observation of the value level of the Underlying(s). If the market disruption event continues, the Calculation Agent shall determine in good faith the value level of the affected Underlying(s) which may have a material impact on the interest amounts and/or redemption amounts due in respect of the Note and on the value of the Notes indexed. The deferral of the observation of the level of the Underlying(s) affected or the disregarding of the day on which a market disruption event occurred may reduce some or all of amounts due in respect of the Notes and the market value of the Notes.

Why is this Prospectus being produced?

The net proceeds from the issue of the Notes will be used for on-lending by Natixis Structured Issuance SA (as lender) to NATIXIS (as borrower) under the terms of a loan agreement and will be used by NATIXIS for its general corporate purposes, affairs and business development.

Estimated net proceeds mean the aggregate nominal amount multiplied by the Issue Price.

Most material conflicts of interest pertaining to the offer or the admission to trading of the Notes

The dealer and its affiliates may also have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and the Guarantor and their respective affiliates in the ordinary course of business.

Various entities within the BPCE group (including the Issuer and the Guarantor) and affiliates undertake different roles in connection with the Notes, including Issuer of the Notes and may also engage in trading activities (including hedging activities) relating to the Underlying and other instruments or derivative products based on or relating to the Underlying which may give rise to potential conflicts of interest.

NATIXIS, which acts as arranger, permanent dealer and Calculation Agent is an affiliate of the Issuer and the same legal entity as the Guarantor and potential conflicts of interest may exist between it and the Noteholders, including with respect to certain determinations and judgments that the Calculation Agent must make that may influence the amounts payable under the Notes. The economic interests of the Issuer and of NATIXIS as arranger and permanent dealer are potentially adverse to a noteholder's interests as an investor in the Notes.

An up-front commission could be paid of up to 5.00% (all taxes included) of the aggregate nominal amount of the Notes subscribed. This commission can be paid either by an up- front fee or by an appropriate discount on the issue price. The commission is paid on the Issue Date. Other than as mentioned above, so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer, including conflicting interests.

Räntesatsen på Obligationerna beräknas i enlighet med följande betalningsformel: **Bonus**

Bonus är en särskild typ av Villkorad Standard (Conditional Vanilla). Den kan betala ett belopp relaterat till den positiva utvecklingen för Urvalet. Detta belopp kan vara villkorat av uppfyllandet av ett eller flera villkor för denna utveckling. I händelse av att sådan utveckling är negativ och understiger en viss barriärnivå kan obligationerna lösas in till ett värde under par.

Det Slutliga inlösenbeloppet per Obligation fastställs av Beräkningsagenten i enlighet med följande formel:

$$\text{Beräkningsbelopp} \times (100\% + \text{Standard}_1 \times \text{Uppsidsvillkor} - \text{Standard}_2 \times \text{Nedsidesvillkor})$$

Där:

$$\text{Standard}_1 = \text{Kupong}_1 + G_1 \times \text{Min}(\text{Tak}_1, \text{Max}((\text{KorgUtveckl}_1(T) - K_1), \text{Golv}_1))$$

$$\text{Standard}_2 = G_2 \times \text{Min}(\text{Tak}_2, \text{Max}((K_2 - \text{KorgUtveckl}_2(T)), \text{Golv}_2))$$

Värdet för varje Villkor fastställs som följer:

$$\begin{aligned} \text{Uppsidsvillkor}_1 &= 1 \text{ om } \text{KorgUtveckl}_3(T) \geq H \\ &= 0 \text{ om inte} \\ \text{Nedsidesvillkor} &= 1 \text{ om } \text{KorgUtveckl}_4(T) < B \\ &= 0 \text{ om inte} \end{aligned}$$

där:

där:

I syfte att fastställa **LokalKorgUtveckl(s)**, betyder **Viktad** det viktade genomsnittet för de Individuella Utvecklingarna för varje Underliggande i Urvalet, så som beräknat av Beräkningsagenten i enlighet med den följande formeln:

$$\text{LokalKorgUtveckl}(t) = \sum_{i=1}^n \omega^i \times \text{IndivUtveckl}(i, t)$$

där: ω^i betyder 100% och **n** betyder 1.

I denna **Viktade** formel, betyder **IndivUtveckl (i,t)**, för Värderingsdag "t", "t" = 1, formeln för den **Europeiska Individuella Utvecklingen**. **Europeisk Individuell Utveckling** betyder:

Besiktning: Alla betalningar avseende Obligationerna kommer göras utan avdrag för eller innehållande av källskatt beslutad av Luxemburg, om det ej krävs av lag. I fall att något sådant innehållande eller avdrag krävs enligt fransk rätt, kommer Luxemburgsk, spara under vissa begränsade förhållanden, vara skyldig att betala extra belopp för att täcka de belopp som dragits av.

De mest väsentliga riskfaktorerna hänförliga till Garanten

Nyckelriskerna avseende Natixis struktur och verksamhet anges nedan:

1. NATIXIS är exponerad mot kredit- och motpartsrisiker i sin verksamhet. I händelse av att en eller flera av dess motparter misslyckas med att uppfylla sina avtalsenliga förpliktelser, kan NATIXIS drabbas av varierande storlek av ekonomiska förluster beroende på koncentrationen av dess exponering mot sådana motparter;
2. En försämring på de finansiella marknaderna kan leda till betydande förluster för NATIXIS kapitalmarknads- och kapitalförvaltningsverksamhet. Under de senaste åren har de finansiella marknaderna fluktuerat kraftigt i en ibland exceptionellt volatil miljö, vilket kan upprepas och potentiellt leda till betydande förluster för NATIXIS kapitalmarknad och kan ha en negativ inverkan på NATIXIS kapitalförvaltningsverksamhet .
3. Om NATIXIS misslyckas med att följa gällande lagar och förordningar kan NATIXIS utsättas för betydande böter och andra rättsliga, administrativa, skiljedoms- och disciplinära (inklusive straffrättsliga) påföljder som kan få en väsentlig negativ inverkan på dess ekonomiska ställning, affärsverksamhet och rykte; och
4. NATIXIS är exponerat mot risker relaterade till den ekonomiska miljö där NATIXIS verkar. Dess verksamhet inom tillgångs- och förmögenhetsförvaltning samt företags- och investmentbanktjänster är känsliga för förändringar på de finansiella marknaderna och, i allmänhet, för ekonomiska förhållanden i Frankrike, Europa och världen över. Ogynnsamma marknads- eller ekonomiska förhållanden skulle kunna ha en negativ inverkan på NATIXIS lönsamhet och finansiella utveckling.

Vilka nyckelrisker är specifika för Obligationerna?

De huvudsakliga riskerna förknippade med Obligationerna anges nedan:

² Tillsyns- och utvärderingsprocess

Generella riskfaktorer

Risk för volatilitet i Obligationerna: Obligationerna kan möta en risk för volatilitet, vilket hänvisar till risken för värdeförändringar för en Obligation, liksom eventuell skillnad mellan värderingsnivån och försäljningspriset för Obligationerna på andrahandsmarknaden. Händelser i Frankrike, Europa eller någon annanstans kan orsaka volatilitet på andrahandsmarknaden för Obligationerna, och den resulterande volatiliteten kan ha en negativ inverkan på Obligationernas marknads- eller försäljningskurs.

Risker relaterade till NATIXIS-Garantin (vilket inkluderar hänvisning till resolution eller insolvensrisk för Garanten): Om NATIXIS (som **Garant**) skulle bli föremål för ett resolutionsförfarande enligt europeisk reglering och franska övergångsbestämmelser som fastställer en ram för återhämtning och resolution av kreditinstitut och värdepappersföretag, föreligger en risk för att hela eller delar av dess betalningsåtaganden inte kan uppfyllas under Garantin om den utlöses och Obligationsinnehavarna kan därmed förlora hela eller delar av sin ursprungliga investering.

Risk för förtida inlösen i händelse av olaglighet eller skatteförändringar eller force majeure : Vid inlösen av Obligationerna före förfall vid olaglighet eller ändringar i reglerna för källskatt eller om utövandet av Emittentens förpliktelser under Obligationerna är omöjliga eller oöverkomliga på grund av inträffandet av en force majeure-händelse, kommer Obligationsinnehavarna att erhålla ett belopp som är lika med dess rimliga marknadsvärde i händelse av inlösen före förfall. Det rimliga marknadsvärdet som ska betalas vid förtida inlösen kan vara lägre än det belopp som de ursprungligen förväntade sig.

Risk för kapitalförlust för Obligationer vars inlösenbelopp fastställs med hänvisning till en beräkningsformel och/eller relaterad till en underliggande tillgång: Huvudbeloppen som ska betalas av Emittenten indexeras eller relaterad till utvecklingen av de(n) Underliggande. Sådana belopp kan bestämmas genom tillämpning av en beräkningsformel och en eller flera observationer eller förekomsten av vissa händelser i förhållande till de(n) Underliggande. Den underliggande är ett dekrementindex, som periodiskt drar av en syntetisk utdelning och alltid kommer att prestera sämre än ett basindex som inte har sådana avdrag, även om basindexets beståndsdelar ökar. Underliggande är ett index och som sådant kan vissa faktorer medföra en annan utveckling än dess komponenter, såsom volatilitet eller utdelningsbehandling. Om det sker en ogynnsam förändring av utvecklingen hos de(n) Underliggande, förvärras, om relevant, av villkoren i ovan nämnda formel eller indexeringsbestämmelser, kan investerare drabbas av ett betydligt minskat inlösenbelopp för Obligationerna eller till och med en total förlust av deras investering.

Risk för låg eller ingen avkastning: Räntebeloppet som Emittenten ska betala är indexerade på eller relaterade till Underliggande. Sådana belopp får fastställas genom användning av en beräkningsformel och eller flera observationer eller inträffandet av vissa händelser avseende de(n) Underliggande. Om det sker en negativ förändring i kursen, värdet eller nivån för Underliggande, förvärras, om relevant, av villkoren i ovan nämnda formel eller indexeringsbestämmelser, kan investerare drabbas av avsevärt minskad avkastning från Obligationerna eller till och med ingen avkastning alls.

Riskfaktorer dedikerade till Underliggande

Risker förknippade med Obligationer vars räntebelopp och/eller inlösenbelopp är relaterade till eller refererar till ett "referensvärde": Index som anses vara "referensvärden" är underkastade regulatoriska riktlinjer och reformförslag på nationell och internationell nivå. Dessa reformer kan påverka metodiken avseende vissa referensvärden eller den fortsatta användningen av vissa referensvärden, som kanske inte kan fortlöpa. Sådana förändringar kan ha en betydande negativ effekt på värdet och räntebelopp och/eller inlösenbelopp som förfallit avseende Obligationerna vars räntebelopp och/eller inlösenbelopp är relaterade till eller refererar till sådant särskilt referensvärde.

Risker relaterade till förekomsten av en Administratör/Referensvärdeshändelse: Det finns en risk att, vid fastställandet av Beräkningsagenten, en händelse avseende de Underliggande som ett referensvärde eller administratören av ett sådant referensvärde inträffar vars effekt är att vissa reservbestämmelser ska tillämpas (en **Administratör/Referensvärdeshändelse**). Varje justering beslutad av Beräkningsagenten avseende förekomsten av en Administratör/Referensvärdeshändelse kanske inte är effektiv för att minska eller eliminera investerarnas förlust till följd av ersättningen av de Underliggande och kan påverka Obligationernas resultat. Investerarna bör även notera att inget samtycke från Obligationsinnehavare krävs innan någon justering tillämpas. Om, som en följd av förekomsten av en Administratör/Referensvärdeshändelse, Obligationerna inlöses i förtid till sitt rimliga marknadsvärde, räntebeloppet och/eller inlösenbeloppet för Obligationerna kan vara lägre än det ursprungliga belopp som fastställts i de Slutliga Villkoren. Delarna som beskrivs ovan kan påverka Emittentens förmåga att utöva sina förpliktelser enligt Obligationerna och/eller kan ha en negativ påverkan på värdet eller likviditeten för Obligationerna.

Risker förknippade med Obligationer vars räntebelopp eller inlösenbelopp är relaterade till eller refererar till ett Underliggande index: Fastställande av räntebelopp och/eller inlösenbelopp avseende Obligationerna kräver observation av värdet(ena) på de Underliggande. Vissa händelser kan påverka administratören av den Underliggande eller den Underliggande, såsom förändring av den Underliggandes formel, avslutande av den Underliggande eller oförmåga att beräkna och presentera den Underliggande. I sådana fall kan Beräkningsagenten, efter eget gottfinnande, antingen (i) beräkna nivån för den Underliggande i enlighet med den formel och metod för att beräkna den Underliggande som var gällande vid tillfället innan ifrågavarande händelse inträffat, (ii) byta ut den Underliggande eller (iii) kräva att Emittenten löser in Obligationerna till det förtida inlösenbeloppet som motsvarar det rimliga marknadsvärdet såsom fastställt av och efter eget gottfinnande av Beräkningsagenten. Justeringen av villkoren för Obligationerna eller utbytet av den Underliggande kan påverka Emittentens förmåga att utöva sina förpliktelser enligt Obligationerna och/eller kan ha en negativ påverkan på värdet av och räntebelopp och/eller inlösenbelopp eller likviditet för Obligationerna. Vidare kan det rimliga marknadsvärdet beräknat i händelse av förtida inlösen vara mindre än det inlösenbelopp som initialt angavs i villkoren för Obligationerna och som en följd kan investerarna förlora hela eller delar av deras investering.

Risker relaterade till lagändring eller oförmågan att inneha hedgningspositioner och/eller väsentligt ökade kostnader för hedgning: Emittenten ingår hedgningsavtal för att täcka riskerna relaterade till sådana Obligationer och särskilt förändringar i värdet på relevanta Underliggande. I händelse av lagändring eller en hedgningsstörning, ökade kostnader för hedgning kan det bli olagligt eller opraktiskt eller väsentligt mer kostsamt för Emittenten att inneha, förvärva, utöva eller avyttra sådana hedgningsavtal. I dessa fall kan (i) Beräkningsagenten på begäran av Emittenten, efter eget gottfinnande, justera vissa villkor för Obligationerna, eller (ii) lösa in alla (men inte bara några) Obligationer till det förtida inlösenbeloppet lika med det rimliga marknadsvärdet som fastställts av och efter eget gottfinnande av Beräkningsagenten. Justeringen av villkoren för Obligationerna kan ha en väsentlig påverkan på räntebelopp och/eller inlösenbelopp som förfaller med avseende på Obligationerna och på värdet av Obligationerna. Dessutom kan ett sådant rimligt marknadsvärde vara mindre än det inlösenbelopp som ursprungligen anges i villkoren för Obligationerna och följaktligen kan investerare förlora hela eller en del av sin investering.

Risker relaterade till oförmåga att observera kursen, värdet eller nivån på de(n) Underliggande i händelse av marknadsstörningar: Fastställande av räntebelopp och/eller inlösenbelopp med avseende på Obligationerna kräver observation av värdet på de(n) Underliggande på de(n) relevanta marknaderna(en) eller från en viss informationskälla. Marknadsstörande händelser relaterade till dessa marknader kan inträffa och förhindra att Beräkningsagenten gör sådana beslut. I sådana fall ska Beräkningsagenten skjuta upp observationen av värdet på de(n) Underliggande. Om den marknadsstörande händelsen fortsätter ska Beräkningsagenten efter eget gottfinnande fastställa värdet på de(n) drabbade Underliggande som kan ha en väsentlig påverkan på räntebelopp och/eller inlösenbelopp avseende Obligationerna och på värdet på Obligationerna. Uppskjutandet av observationen av värdet på de(n) drabbade Underliggande eller bortseendet av den dag då den marknadsstörande händelsen inträffa kan minska vissa eller samtliga förfallna belopp avseende Obligationerna och Obligationernas marknadsvärde.

I varje sådant fall kommer Emittenten att meddela sådan ändring till Obligationsinnehavarna på NATIXIS webbplats (<https://cib.natixis.com/Home/pims/Prospectus#/prospectusPublic>), men utan att behöva ange skälen för detta.

Ansökan kommer att göras för att Obligationer ska tas upp till handel på den reglerade marknaden Luxembourg Stock Exchange.

Uppskattade totala utgifter för emissionen: med undantag för uppskattningen av noteringsavgifterna (d.v.s. Maximum EUR 1400) och indexlicensavgifterna, kan inga andra utgifter fastställas per Emissionsdagen. Inga utgifter debiteras investerare.

Identifieringskoden för personen som ansöker om upptagande till handel är KX1WK48MPD4Y2NCUIZ63.

Varför upprättas detta prospekt?

Nettointäkterna från emissionen av Obligationerna kommer att användas för utlåning av Natixis Structured Issuance (som långivare) till NATIXIS (som låntagare) enligt villkoren i ett låneavtal och kommer att användas av NATIXIS för dess allmänna företagsändamål, affärer och affärsutveckling.

De mest väsentliga intressekonflikterna avseende erbjudandet eller upptagandet till handel av Obligationerna

Återförsäljaren och dess närstående kan även ha ingått, och kan i framtiden ingå, transaktioner inom investment banking och/eller kommersiell banking med, och kan utföra andra tjänster, för Emittenten och Garanten och den/deras respektive närstående i den ordinarie verksamheten.

Olika enheter inom BPCE-koncernen (inklusive Emittenten och Garanten) och närstående åtar sig olika roller i samband med Obligationerna, inklusive Emittenten av Obligationerna och kan också bedriva handelsaktiviteter (inklusive hedgingaktiviteter) avseende de(n) Underliggande och andra instrument eller derivatprodukter baserade på eller relaterade till de(n) Underliggande, vilket kan ge upphov till potentiella intressekonflikter.

NATIXIS, som fungerar som arrangör, permanent återförsäljare och Beräkningsagent är närstående till Emittenten och samma juridiska person som Garanten och potentiella intressekonflikter kan förekomma mellan det och Obligationsinnehavare, inklusive med avseende på vissa fastställelser och bedömningar som Beräkningsagenten måste göra som kan påverka de belopp som ska betalas enligt Obligationerna. Emittentens och NATIXIS ekonomiska intressen som arranger och permanent återförsäljare är potentiellt negativa för Obligationsinnehavarnas intressen som investerare i Obligationerna.

En förskottsprovision kan komma att utbetalas om upp till 5,00% (all skatt inkluderad) av det nominella beloppet. Denna provision kan utbetalas antingen genom en förskottsbetalning genom att motsvarande belopp dras av i rabatt från Emissionskursen. Provisionen utbetalas på Emissionsdagen. Utöver vad som nämnts ovan, så långt som Emittenten är medveten, har ingen som är inblandad i utgivningen av Obligationerna ett väsentligt intresse i erbjudandet, inklusive motstridiga intressen.
