This Base Prospectus

This document is a base prospectus ("**Base Prospectus**") prepared for purposes of Article 8 of Regulation (EU) 2017/1129, as amended (the "**Prospectus Regulation**") for the purpose of the offering of Securities (as described below) other than Exempt Securities (as described below) from time to time. It should be read together with (i) any supplements to it from time to time (available on the website of the Luxembourg Stock Exchange (www.bourse.lu)), (ii) the information incorporated by reference into it (see "*Incorporation by Reference*" below) and (iii) in relation to a Tranche of Securities, the Issue Terms (described below) relating to that Tranche of Securities. This Base Prospectus shall supersede and replace entirely the Base Prospectus dated 16 July 2021. References in this Base Prospectus to "**Exempt Securities**" are to Securities which are: (i) neither admitted to trading on a regulated market in the European Economic Area or the United Kingdom nor offered to the public in the European Economic Area or the United Kingdom or (ii) Securities for which no prospectus is required to be published under the Prospectus Regulation or the Prospectus Regulation as it forms part of "retained EU law", as defined in the European Union (Withdrawal) Act 2018 (the "**EUWA**") (the "**UK Prospectus Regulation**").

The information on any websites referred to herein does not form part of this Base Prospectus unless that information is incorporated by reference into the Base Prospectus and has not been scrutinised or approved by the competent authority.

The Program

Morgan Stanley ("**Morgan Stanley**"), Morgan Stanley & Co. International plc ("**MSI plc**"), Morgan Stanley B.V. ("**MSBV**") and Morgan Stanley Finance LLC ("**MSFL**") established the Regulation S Program for the Issuance of Notes and Certificates, Series A and B, and Warrants (the "**Program**"). Under the Program, Morgan Stanley, MSI plc, MSBV and MSFL may offer from time to time Series A Securities and Series B Securities (together, the "**Securities issued under the Program**") and Warrants (the "**Warrants**"), and together with the Securities issued under the Program, the "**Program Securities**"). Only certain of the Securities issued under the Program are described in this Base Prospectus, being those (i) issued pursuant to the Issue and Paying Agency Agreement (as defined under "General Description of the Securities" below), (ii) issued in dematerialised and uncertificated book-entry form with a Nordic central securities depository (as described under "General Description of the Securities" below) pursuant to the SEB Issuing and Paying Agent Agreement (as defined under "General Description of the Securities" below) or (iii) issued pursuant to the Euroclear Agreement (as defined under "General Description of the Securities" below) (hereafter referred to collectively as the "**Securities**"). For the

avoidance of doubt, this Base Prospectus does not relate to or describe any Program Securities other than Notes and Certificates.

The Securities

Under this Base Prospectus, securities in the form of notes (“**Notes**”) and certificates (“**Certificates**”) may be offered.

Any amounts of principal and/or interest payable under the Securities may be calculated by reference to an index. Relevant disclosure on the index and the administrator is set out in the applicable Issue Terms.

Conditions of the Securities

The terms and conditions applicable to a Tranche of Securities (the “**Conditions**”) are the General Terms and Conditions (set out in the section entitled “*Part 1: General Terms and Conditions*” below), the applicable provisions of the Additional Terms and Conditions (set out in the section entitled “*Part 2: Additional Terms and Conditions*” below) and, if “Supplementary Provisions for Belgian Securities” is specified as applicable in the applicable Issue Terms (described below), the applicable provisions of the Belgian Supplemental Conditions (set out in the section entitled “*Part 3: Supplementary Provisions for Belgian Securities*” below) as completed by the applicable Issue Terms (described below). Alternatively, a Tranche of Securities may be issued on the terms set forth in a separate prospectus specific to such Tranche (a “**Drawdown Prospectus**”).

Final Terms, Pricing Supplements and Drawdown Prospectuses

A “final terms” document (the “**Final Terms**”) may be prepared in respect of each Tranche of Securities other than Exempt Securities. The Final Terms will complete the General Terms and Conditions, specify the Additional Terms and Conditions, if any, applicable in relation to such Securities and specify whether the Belgian Supplemental Conditions are applicable in relation to such Securities. A “pricing supplement” document (the “**Pricing Supplement**”) may be prepared in respect of each Tranche of Exempt Securities. The Pricing Supplement will complete the General Terms and Conditions, specify the Additional Terms and Conditions, if any, applicable in relation to such Securities and specify whether the Belgian Supplemental Conditions are applicable in relation to such Securities. Alternatively, a Drawdown Prospectus may be prepared in respect of each Tranche of Securities (including Exempt Securities). The Drawdown Prospectus will amend and/or replace the Conditions in relation to the relevant Series in the manner as set forth in the Drawdown Prospectus and will also set out or incorporate by reference the necessary information relating to the Issuer and if applicable, the Guarantor. The Final Terms, the Pricing Supplement and the Drawdown Prospectus therefore contain vital information in regard to the Securities. The Final Terms, the Pricing Supplement and the Drawdown Prospectus will be available on the website of the Luxembourg Stock Exchange (www.bourse.lu). References in this Base Prospectus to “**Issue Terms**” are to (i) where the Securities are not Exempt Securities, the applicable Final Terms or (ii) where the Securities are Exempt Securities, the applicable Pricing Supplement.

The Issuers

The issuers (each an “**Issuer**”) of Securities under this Base Prospectus from time to time may be any of Morgan Stanley, MSI plc, MSBV and MSFL. Information on each Issuer is included in this Base Prospectus, including information incorporated by reference.

The Guarantor of MSBV Securities and MSFL Securities

Unless otherwise stated in the applicable Issue Terms, the payment of all amounts due in respect of Securities issued by MSBV (“**MSBV Securities**”) are unconditionally and irrevocably guaranteed by Morgan Stanley (the “**Guarantor**”). The payment of all amounts due in respect of Securities issued by MSFL (“**MSFL Securities**”) are unconditionally and irrevocably guaranteed by the Guarantor. However, the payment of amounts due in respect of Securities issued by MSI plc are **not** guaranteed by Morgan Stanley. In any event, all payments under the Securities are subject to the credit risk of the Issuer and (if applicable) the Guarantor. Information on the Guarantor is included in this Base Prospectus, including information incorporated by reference.

Status of the Securities

The Securities are unsecured and unsubordinated general obligations of the Issuer and not of any affiliate of the Issuer. The Securities are not deposits or savings accounts and are not insured by the United States of America (“**U.S.**”) Federal Deposit Insurance Corporation, the UK Financial Services Compensation

Scheme or any other governmental agency or instrumentality or deposit protection scheme anywhere, nor are they obligations of, or guaranteed by, a bank.

Relevant Underlyings

The return on the Securities may depend on the performance of one or more of any of the following types of underlying reference assets (referred to as the "**Relevant Underlyings**" in the terms and conditions): interest rates, swap rates, shares, equity indices, exchange traded funds, commodities or commodity indices, inflation indices, other indices, currencies, funds, one or more preference shares issued by an entity which is not Morgan Stanley, MSI plc, MSBV or MSFL or any legal entity belonging to the same group as Morgan Stanley, MSI plc, MSBV or MSFL and futures contracts. The Relevant Underlying(s) (if any) in relation to any Securities will be set out in the Issue Terms or Drawdown Prospectus applicable to such Securities.

Securityholders will have no beneficial interest in any Relevant Underlyings.

Benchmark Regulation: Article 29(2) statement on benchmarks

Amounts payable under the Securities may be calculated by reference to: (i) the Euro Interbank Offered Rate ("**EURIBOR**"), (ii) any CMS Reference Rate (as defined in Condition 2, and determined in accordance with Condition 6.7, of Part 1 of the "General Terms and Conditions"), (iii) an index within the MS Dynamic Fund Allocation Index Family (as defined in "*The MS Dynamic Fund Allocation Index Family*"), (iv) SOFR (as defined in Condition 6.8), (v) SOFR Index (as defined in Condition 6.8), (vi) SONIA (as defined in Condition 6.9), (vii) SONIA Index (as defined in Condition 6.9), (viii) €STR (as defined in Condition 6.10), (ix) €STR Index (as defined in Condition 6.10), (x) SARON (as defined in Condition 6.11), (xi) SAION Index (as defined in Condition 6.11), (xii) TONA (as defined in Condition 6.12), (xiii) TONA Index (as defined in Condition 6.12), (xiv) UDI Fixing (as defined in Sub-Section IV of Section 2 of the Additional Conditions) or (xv) one or more other specific indices or price sources or a combination of indices or price sources.

EURIBOR is provided by the European Money Markets Institute ("**EMMI**"). As at the date of this Base Prospectus, EMMI appears on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") pursuant to Article 36 of Regulation (EU) 2016/1011 of the European Parliament and of the Council on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**Benchmark Regulation**").

A CMS Reference Rate is a constant maturity swap rate, calculated on a fixed-to-floating basis by reference to an underlying floating rate that can in itself constitute a "benchmark" for the purposes of the Benchmark Regulation.

Each index within the MS Dynamic Fund Allocation Index Family is provided by MSI plc. As at the date of this Base Prospectus, MSI plc does not appear on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the Benchmark Regulation. As far as the Issuers are aware, the transitional provisions in Article 51 of the Benchmark Regulation apply, such that MSI plc is not currently required to obtain authorisation or registration (or, if located outside the European Union, recognition, endorsement or equivalence).

SOFR and SOFR Index are provided by the Federal Reserve Bank of New York (the "**New York Federal Reserve**"). As at the date of this Base Prospectus, the New York Federal Reserve does not appear on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the Benchmark Regulation.

SONIA and SONIA Index are provided by the Bank of England. As at the date of this Base Prospectus, the Bank of England does not appear on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the Benchmark Regulation.

€STR and €STR Index are provided by the European Central Bank. As at the date of this Base Prospectus, the European Central Bank does not appear on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the Benchmark Regulation.

TONA is provided by the Bank of Japan. As at the date of this Base Prospectus, the Bank of Japan does not appear on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the Benchmark Regulation.

As far as the Issuers are aware the New York Federal Reserve as administrator of SOFR and SOFR Index, the Bank of England as administrator of SONIA and SONIA Index, the European Central Bank as administrator of €STR and €STR Index and the Bank of Japan as administrator of TONA are not required to be registered by virtue of Article 2 of the Benchmark Regulation.

SARON and SAION Index are provided by SIX Index AG and are endorsed for use in the European Union by SIX Financial Information Nordic AB. As at the date of this Base Prospectus, SIX Financial Information Nordic AB appears on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the Benchmark Regulation.

TONA Index is provided by QUICK Corp. As at the date of this Base Prospectus, QUICK Corp. does not appear on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the Benchmark Regulation. As far as the Issuers are aware, the transitional provisions in Article 51 of the Benchmark Regulation apply, such that QUICK Corp. is not currently required to obtain authorisation or registration (or, if located outside the European Union, recognition, endorsement or equivalence).

UDI Fixing is provided by the Central Bank of the United Mexican States (“**Banco de México**”). As at the date of this Base Prospectus, the Banco de México does not appear on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the Benchmark Regulation. As far as the Issuers are aware, the transitional provisions in Article 51 of the Benchmark Regulation apply, such that Banco de México is not currently required to obtain authorisation or registration (or, if located outside the European Union, recognition, endorsement or equivalence).

Similarly, any other index or price source by reference to which amounts payable under the Securities are calculated may also constitute a "benchmark" for the purposes of the Benchmark Regulation.

In cases where amounts payable under the Securities are calculated by reference to a CMS Reference Rate or one or more other indices or price sources that is not one of EURIBOR, SOFR, SOFR Index, SONIA, SONIA Index, €STR, €STR Index, SARON, SAION Index, TONA, TONA Index, an MS Dynamic Fund Allocation Index Family index or UDI Fixing, the relevant Issue Terms will specify:

- the name of each index or price source so referenced (including, in the case of a CMS Reference Rate, the base rate);
- the legal name of the administrator of each such index or price source; and
- whether or not the legal name of the administrator of each such index or price source appears on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the Benchmark Regulation at the date of the relevant Issue Terms.

Not every index or price source will fall within the scope of the Benchmark Regulation. Furthermore, where an index or price source does fall within the scope of the Benchmark Regulation, the transitional provisions in Article 51 or the provision of Article 2 of the Benchmark Regulation may apply, such that the administrator of such index or price source is not at the date of the relevant Issue Terms required to obtain authorisation/registration (or, if located outside the European Union, recognition, endorsement or equivalence).

The registration status of any administrator under the Benchmark Regulation is a matter of public record and, save where required by applicable law, the relevant Issuer does not intend to update the relevant Issue Terms to reflect any change in the registration status of the administrator.

Risk Factors

Securities offered from time to time under this Base Prospectus may not provide for scheduled repayment in full at maturity of the amount paid for them, and you could therefore lose some and up to all of your investment, depending on the performance of the Relevant Underlying(s). Also, in any event, payments under the Securities are subject to the credit risk of the Issuer (and, if applicable, the Guarantor). Investing in the Securities involves risks. Before purchasing the Securities, you should carefully consider, in particular, "*Risk Factors Relating to the Securities*" below.

IMPORTANT NOTICES

Risk Warning

The Securities may not be a suitable investment for all investors

An investment in the Securities entails certain risks, which vary depending on the specification and type or structure of the Securities.

Each potential investor should determine whether an investment in the Securities is appropriate in such potential investor's particular circumstances. An investment in the Securities requires a thorough understanding of the nature of the relevant transaction. Potential investors should be experienced with respect to an investment in the Securities and be aware of the related risks.

An investment in the Securities is only suitable for potential investors who:

- have the requisite knowledge and experience in financial and business matters to evaluate the merits and risks of an investment in the Securities and the information contained in, or incorporated by reference into, this document;
- have access to, and knowledge of, appropriate analytical tools to evaluate such merits and risks in the context of the potential investor's particular financial situation and to evaluate the impact the Securities will have on their overall investment portfolio;
- understand thoroughly the terms of the Securities and are familiar with the behaviour of the Relevant Underlying and financial markets;
- are capable of bearing the economic risk of an investment in the Securities until the maturity date of the Securities;
- recognise that it may not be possible to dispose of the Securities for a substantial period of time, if at all before the maturity date; and
- are familiar with the behaviour of the Relevant Underlying and relevant financial markets and be able to evaluate (either alone or with the help of a financial and legal adviser) possible scenarios for economic, interest rate and other factors that may affect the potential investor's investment and its ability to bear the applicable risks.

The Securities are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in any Securities unless such potential investor has the expertise (either alone or with a financial and legal adviser) to evaluate how the Securities will perform under changing conditions, the resulting effects on the value of the Securities and the impact this investment will have on the potential investor's overall investment portfolio. Each Issuer, The Guarantor and MSI plc as Distribution Agent, disclaims any responsibility to advise prospective investors of any matters arising under the law of the country in which they reside that may affect the purchase of, or holding of, or the receipt of payments or deliveries on, the Securities.

Approvals of the Base Prospectus

This Base Prospectus has been approved by:

- (i) the Luxembourg *Commission de Surveillance du Secteur Financier* ("**CSSF**") in its capacity as the competent authority under the Luxembourg law of 16 July 2019 relating to prospectuses for securities (the "**Luxembourg Law on Prospectuses**") for this document's approval as a base prospectus for the purposes of Article 3 of Regulation (EU) 2017/1129, as amended (the "**Prospectus Regulation**") for the purpose of giving necessary information with regard to the issue of Securities under the Program issued by Morgan Stanley, MSI plc, MSBV and MSFL, as applicable, within 12 months following the date of this document. The CSSF only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of any of the Issuers or the quality of the Securities that are the subject of this Base Prospectus and investors should make their own assessment as to the suitability of

investing in the Securities. Pursuant to Article 6(4) of the Luxembourg Law on Prospectuses for securities, by approving this Base Prospectus, the CSSF gives no undertaking as to, and assumes no responsibility for, the economic and financial characteristics of the Securities or the quality and solvency of any Issuer or the Guarantor; and

- (ii) the Luxembourg Stock Exchange pursuant to the appendices to the Rules and Regulations of the Luxembourg Stock Exchange, to be admitted to trading on the Luxembourg Stock Exchange's Euro MTF market and to the official list (the "**Official List**") of the Luxembourg Stock Exchange. The Luxembourg Stock Exchange's Euro MTF market is not a regulated market for the purposes of Directive 2014/65/EU of the European Parliament and of the Council on markets in financial instruments (as amended, "**MiFID II**") or Article 2(1)(13A) of Regulation (EU) 600/2014 as it forms part of "retained EU law" as defined in the the EUWA. Pursuant to Article 10(2) of Part 2 of the Rules and Regulations of the Luxembourg Stock Exchange, every significant new factor relating to the information contained in this Base Prospectus, which is capable of affecting the assessment of the Securities and arises after the date hereof, shall be covered by a supplement to this Base Prospectus. This Base Prospectus constitutes a Base Prospectus for the purpose of the Luxembourg Law on Prospectuses.

The CSSF has neither approved nor reviewed information contained in this Base Prospectus in connection with Exempt Securities.

Application has been made for the Securities which are "Series A" Securities (including, for the avoidance of doubt, "Series A" Securities that are Exempt Securities) to be admitted to listing on the Official List and, in the case of "Series A" Securities that are not Exempt Securities, trading on the regulated market ("**Luxembourg Regulated Market**") of the Luxembourg Stock Exchange, which is a regulated market for the purposes of MiFID II, or, in the case of "Series A" Securities that are Exempt Securities, the Euro MTF Market of the Luxembourg Stock Exchange, which is not a regulated market for the purposes of MiFID II, as specified in the applicable Issue Terms.

Application may also be made for the Securities which are "Series A" Securities to be admitted to listing and/or trading by such other listing authority, stock exchange or quotation system as may be specified in the applicable Issue Terms. Securities may also be issued which are not admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system. The Securities which are "Series B" Securities will not be admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system.

This Base Prospectus will be valid for offers to the public or admissions to trading on a regulated market by or with the consent of the Issuer for 12 months from its date and will expire on 15 July 2023. The obligation to supplement it in the event of significant new factors, material mistakes or material inaccuracies will not apply after the earlier of the date 12 months from the date of this Base Prospectus and the closing of the offer period for the Securities or the Securities being admitted to trading on a regulated market, whichever occurs later.

This Base Prospectus may be (i) registered in Switzerland with the reviewing body (*Prüfstelle*) SIX Exchange Regulation AG or another reviewing body approved by the Swiss Financial Market Supervisory Authority FINMA as a foreign prospectus that is also deemed to be approved in Switzerland pursuant to Article 54(2) of the Swiss Federal Act on Financial Services ("**FinSA**") for inclusion on the list of approved prospectus pursuant to Article 64(5) FinSA, (ii) deposited with this reviewing body and (iii) published pursuant to Article 64 FinSA.

Secured Overnight Financing Rate

As further described under "*Risk Factors Relating to the Securities*" below, the interest rate on the Securities may be determined by reference to SOFR (as defined in the Terms and Conditions of the Securities).

SOFR is published by the New York Federal Reserve and is intended to be a broad measure of the cost of borrowing cash overnight collateralized by U.S. Treasury securities. The New York Federal Reserve reports that SOFR includes all trades in the Broad General Collateral Rate and bilateral Treasury repurchase agreement (repo) transactions cleared through the delivery-versus-payment service offered by the Fixed Income Clearing Corporation (the "**FICC**"), a subsidiary of the Depository Trust and Clearing Corporation ("**DTCC**"), and SOFR is filtered by the New York Federal Reserve to remove some (but not all) of the foregoing transactions considered to be "specials". According to the New York

Federal Reserve, "specials" are repos for specific-issue collateral, which take place at cash-lending rates below those for general collateral repos because cash providers are willing to accept a lesser return on their cash in order to obtain a particular security.

The New York Federal Reserve reports that SOFR is calculated as a volume-weighted median of transaction-level tri-party repo data collected from The Bank of New York Mellon as well as General Collateral Finance Repo transaction data and data on bilateral Treasury repo transactions cleared through the FICC's delivery-versus-payment service. The New York Federal Reserve also notes that it obtains information from DTCC Solutions LLC, an affiliate of DTCC.

If data for a given market segment were unavailable for any day, then the most recently available data for that segment would be utilized, with the rates on each transaction from that day adjusted to account for any change in the level of market rates in that segment over the intervening period. SOFR would be calculated from this adjusted prior day's data for segments where current data were unavailable, and unadjusted data for any segments where data were available. To determine the change in the level of market rates over the intervening period for the missing market segment, the New York Federal Reserve would use information collected through a daily survey conducted by its Trading Desk of primary dealers' repo borrowing activity. Such daily survey would include information reported by Morgan Stanley & Co. LLC, a wholly owned subsidiary of Morgan Stanley, as a primary dealer.

The New York Federal Reserve notes on its publication page for SOFR that use of SOFR is subject to important limitations, indemnification obligations and disclaimers, including that the New York Federal Reserve may alter the methods of calculation, publication schedule, rate revision practices or availability of SOFR at any time without notice.

Each U.S. government securities business day, the New York Federal Reserve publishes SOFR on its website at approximately 8:00 a.m., New York City time. If errors are discovered in the transaction data provided by The Bank of New York Mellon or DTCC Solutions LLC, or in the calculation process, subsequent to the initial publication of SOFR but on that same day, SOFR and the accompanying summary statistics may be republished at approximately 2:30 p.m., New York City time. Additionally, if transaction data from The Bank of New York Mellon or DTCC Solutions LLC had previously not been available in time for publication, but became available later in the day, the affected rate or rates may be republished at around this time. Rate revisions will only be effected on the same day as initial publication and will only be republished if the change in the rate exceeds one basis point. Any time a rate is revised, a footnote to the New York Federal Reserve's publication would indicate the revision. This revision threshold will be reviewed periodically by the New York Federal Reserve and may be changed based on market conditions.

Because SOFR is published by the New York Federal Reserve based on data received from other sources, the Issuer has no control over its determination, calculation or publication. See "*Risk Factors Relating to the Securities*" below

The information contained in this section "*Secured Overnight Financing Rate*" is based upon the New York Federal Reserve's Website and other U.S. government sources.

Investing in the Securities involves risks. See the section entitled "*Risk Factors Relating to the Securities*" below.

Important U.S. securities and tax law considerations

THE SECURITIES, ANY INTEREST THEREIN AND ANY GUARANTEE IN RESPECT THEREOF, AND THE SECURITIES TO BE DELIVERED ON EXERCISE OR REDEMPTION OF THE SECURITIES (IF ANY), HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), OR THE SECURITIES LAWS OF ANY STATE OR OTHER JURISDICTION OF THE UNITED STATES, ARE SUBJECT TO U.S. TAX LAW REQUIREMENTS AND MAY NOT BE OFFERED, SOLD, PLEDGED, ASSIGNED, DELIVERED OR OTHERWISE TRANSFERRED, EXERCISED OR REDEEMED AT ANY TIME, DIRECTLY OR INDIRECTLY, WITHIN THE UNITED STATES (WHICH TERM INCLUDES THE TERRITORIES, THE POSSESSIONS AND ALL OTHER AREAS SUBJECT

TO THE JURISDICTION OF THE UNITED STATES) OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS (AS DEFINED IN REGULATIONS UNDER THE SECURITIES ACT). SEE "*SUBSCRIPTION AND SALE*" AND "*NO OWNERSHIP BY U.S. PERSONS*".

For payments in respect of a Security issued by Morgan Stanley or MSFL, in order to avoid U.S. withholding taxes, the beneficial owner of the Security that is not a United States person (or a financial institution holding the Security on behalf of the beneficial owner that is not a United States person) is required under current law to comply with certain tax identification and certification requirements, generally by furnishing the appropriate U.S. Internal Revenue Service Form W-8BEN or W-8BEN-E on which the beneficial owner certifies under penalty of perjury that it is not a United States person. Certain tax identification and certification requirements apply as well to holders of Securities of all Issuers with respect to "FATCA" as more fully described under "*United States Federal Taxation*".

Each investor must comply with all applicable laws and regulations in each country or jurisdiction in or from which the investor purchases, offers, sells or delivers the Securities or has in the investor's possession or distributes this Base Prospectus or any accompanying Issue Terms or any Drawdown Prospectus.

No deposits and no deposit protection insurance

THE SECURITIES ARE NOT DEPOSITS OR SAVINGS ACCOUNTS AND ARE NOT INSURED BY THE U.S. FEDERAL DEPOSIT INSURANCE CORPORATION, THE UK FINANCIAL SERVICES COMPENSATION SCHEME, OR ANY OTHER GOVERNMENTAL AGENCY OR INSTRUMENTALITY OR DEPOSIT PROTECTION SCHEME ANYWHERE, NOR ARE THEY OBLIGATIONS OF, OR GUARANTEED BY, A BANK.

No participation in a collective investments scheme

The Securities do not constitute a participation in a collective investment scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes ("*CISA*"). The Securities are neither subject to the authorisation nor to the supervision by the Swiss Financial Market Supervisory Authority FINMA ("*FINMA*") and investors do not benefit from the specific investor protection provided under the CISA. Investors should be aware that they are exposed to the credit risk of the relevant Issuer and, if applicable, of the Guarantor.

MIFID II product governance/target market

The Issue Terms in respect of any Securities may include a legend entitled "**MiFID II Product Governance**" which will outline the target market assessment in respect of the Securities and which channels for distribution of the Securities are appropriate. Any person subsequently offering, selling or recommending the Securities (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any dealer subscribing for any Securities is a manufacturer in respect of such Securities, but otherwise neither dealer(s) nor any of its respective affiliates will be a manufacturer for the purpose of the MIFID Product Governance Rules.

UK MiFIR product governance/target market

The Issue Terms in respect of any Securities may include a legend entitled "**UK MiFIR Product Governance**" which will outline the target market assessment in respect of the Securities and which channels for distribution of the Securities are appropriate. Any person subsequently offering, selling or recommending the Securities (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any dealer subscribing for any Securities is a manufacturer in respect of such Securities, but otherwise neither dealer(s) nor any of its respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

Important – EEA Retail Investors

PRIIPs/IMPORTANT – EEA RETAIL INVESTORS – If the Issue Terms in respect of any Securities includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of:

(A) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU, (as amended, "**MiFID II**");

(B) a customer within the meaning of Directive (EU) 2016/97 where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or

(C) not a qualified investor as defined in the Prospectus Regulation.

Consequently, if the Issue Terms in respect of any Securities include a legend entitled "Prohibition of Sales to EEA Retail Investors", no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the EEA has been or will be prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

Important – UK Retail Investors

UK PRIIPs/IMPORTANT – UK RETAIL INVESTORS – If the Issue Terms in respect of any Securities includes a legend entitled "Prohibition of Sales to UK Retail Investors", the Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of:

(A) a retail client as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of "retained EU law", as defined in the EUWA; or

(B) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 ("**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of "retained EU law", as defined in the EUWA; or

(C) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of "retained EU law", as defined in the EUWA.

Consequently, if the Issue Terms in respect of any Securities include a legend entitled "Prohibition of Sales to UK Retail Investors", no key information document required by Regulation (EU) No 1286/2014 as it forms part of "retained EU law", as defined in the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the UK has been or will be prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

No or limited secondary market

Potential investors should be willing to hold the Securities until maturity. The nature and extent of any secondary market in the Securities cannot be predicted and there may be little or no secondary market in the Securities. If MSI plc or other affiliate of the Issuer does make a market for the Securities, it may cease to do so at any time.

Subordination

Structural subordination; Morgan Stanley's access to assets held by subsidiaries may be restricted: The Securities issued by Morgan Stanley, including the guarantees of the Securities issued by MSBV and MSFL, are Morgan Stanley's unsecured senior obligations, but Morgan Stanley's assets consist primarily of equity in, and receivables from, its subsidiaries.

As a result, Morgan Stanley's ability (i) to make payments on its Securities (ii) to make payments with respect to its guarantee of Securities issued by MSBV and MSFL and (iii) to pay dividends on its preferred stock and common stock, in each case depends upon its receipt of dividends, loan payments and other funds from its subsidiaries. In addition, the direct creditors of any subsidiary will have a prior claim on the subsidiary's assets, if any, and Morgan Stanley's rights and the rights of its creditors, including a Securityholder's rights as an owner of Securities issued by Morgan Stanley or a Securityholder's rights under Morgan Stanley's guarantees of Securities issued by MSBV or MSFL, will be subject to that prior claim, except to the extent that any claims Morgan Stanley may have as a creditor of that subsidiary are paid. This subordination of parent company creditors to prior claims of creditors of subsidiaries over the subsidiaries' assets is referred to as structural subordination.

In addition, various statutes and regulations restrict some of Morgan Stanley's subsidiaries from paying dividends or making loans or advances to Morgan Stanley. These restrictions could prevent those subsidiaries from paying the cash to Morgan Stanley that it needs in order to pay Securityholders. These restrictions include, without limitation:

- **the net capital requirements under the Securities and Exchange Act of 1934, as amended, and the rules of some exchanges and other regulatory bodies, which apply to some of Morgan Stanley's principal subsidiaries, such as Morgan Stanley & Co. LLC and MSI plc, and**
- **banking regulations, which apply to Morgan Stanley Bank, N.A., a national bank, Morgan Stanley Private Bank, National Association (formerly Morgan Stanley Trust FSB), a national bank, and other bank subsidiaries of Morgan Stanley.**

Status of Securities

Status of the MSI plc Securities; relationship with Morgan Stanley securities: The Securities issued by MSI plc are its unsecured obligations and holders of these Securities are direct creditors of MSI plc.

Status of the MSBV Securities; relationship with Morgan Stanley securities: The Securities issued by MSBV are its unsecured obligations and holders of these Securities are direct creditors of MSBV, as well as direct creditors of Morgan Stanley under the

related guarantee. The Morgan Stanley guarantee will rank *pari passu* with all other outstanding unsecured and unsubordinated obligations of Morgan Stanley, present and future, but, in the event of insolvency, only to the extent permitted by laws affecting creditors' rights.

Status of the MSFL Securities; relationship with Morgan Stanley securities: The Securities issued by MSFL are its unsecured obligations and holders of these Securities are direct creditors of MSFL, as well as direct creditors of Morgan Stanley under the related guarantee. As a finance subsidiary, MSFL has no independent operations beyond the issuance and administration of its securities and is expected to have no independent assets available for distributions to holders of MSFL Securities if they make claims in respect of the securities in a bankruptcy, resolution or similar proceeding. Accordingly, any recoveries by such holders will be limited to those available under the related guarantee by Morgan Stanley and that guarantee will rank *pari passu* with all other outstanding unsecured and unsubordinated obligations of Morgan Stanley, present and future, but, in the event of insolvency, only to the extent permitted by laws affecting creditors' rights. Holders of Securities issued by MSFL should accordingly assume that in any such proceedings they would not have any priority over and should be treated *pari passu* with the claims of other unsecured, unsubordinated creditors of Morgan Stanley, including holders of Morgan Stanley-issued securities.

Determinations made by the Determination Agent and the Issuer

Pursuant to "*Terms and Conditions of the Securities*" hereof, upon determination by the Determination Agent, in its reasonable discretion, that certain events have occurred with respect to the Securities including, without limitation, that a Potential Adjustment Event, Merger Event, Tender Offer, De-listing, Nationalisation, Insolvency or Additional Disruption Event has occurred with respect to the relevant Securities, the Issuer will, in its reasonable discretion, determine whether the relevant Securities shall continue or shall be redeemed early. If the Issuer determines that the relevant Securities shall be redeemed early, the Issuer shall provide notice of such early redemption to Securityholders a prescribed number of days prior to the date fixed for redemption.

If the Issuer determines that the relevant Securities shall continue following the occurrence of such an event, the Determination Agent may, in its reasonable discretion, make certain determinations to account for the occurrence of the relevant event, including to make adjustments to the terms of the Securities.

In the event that the Determination Agent determines that an adjustment shall be made to the terms of the relevant Securities following the occurrence of such an event, the Fiscal Agent shall be required to provide Securityholders with notice of such adjustment within a prescribed time period, set out in the applicable Conditions of the Securities relating to the relevant event, following such adjustment becoming effective, provided that any failure to give such notice shall not affect the validity of any such adjustment.

Substitution

Pursuant to Condition 35.1 (*Substitution of Issuer with Morgan Stanley Group entities*), the Issuer may be substituted for Morgan Stanley (if the original Issuer is not Morgan Stanley) or a subsidiary of Morgan Stanley without the consent of the Securityholders.

If the Belgian Supplemental Conditions is specified as not applicable in the applicable Issue Terms, pursuant to Condition 35.2 (*Substitution of Issuer or Guarantor with non Morgan Stanley Group entities*), the Issuer or the Guarantor (in the case of MSBV or MSFL Securities) may, subject to the Conditions set out in Condition 35 (*Substitution*) including the rights of Securityholders under Condition 35.6 (*Right to Redemption in respect of substitutions with non Morgan Stanley Group entities*), but without the consent of Securityholders, upon the occurrence of a Substitution Event (as defined in Condition 35.2 (*Substitution of Issuer or Guarantor with non Morgan Stanley Group entities*)), substitute for itself any entity which is not a Morgan Stanley Group entity, provided that such entity satisfies the requirements set out in Condition 35.2 (*Substitution of Issuer or Guarantor with non Morgan Stanley Group entities*).

Upon a substitution of the Issuer or the Guarantor with a non Morgan Stanley Group entity pursuant to Condition 35.2 (*Substitution of Issuer or Guarantor with non Morgan Stanley Group entities*), Securityholders who object to the substitution will have the right to require the Issuer to redeem their Securities at a price determined in accordance with the provisions of Condition 35.6 (*Right to Redemption in respect of substitutions with non Morgan Stanley Group entities*), by providing notice of their intention to exercise such right in the manner set out in Condition 35.6 (*Right to Redemption in respect of substitutions with non Morgan Stanley Group entities*).

If the Issuer substitutes an entity in place of the Issuer, the tax consequences (including the withholding tax consequences) of holding the Securities may change. Except as provided in Condition 20.1 (*Additional Amounts*), if withholding is required on the Securities, the Issuer will not be required to pay any additional amounts.

RISK FACTORS RELATING TO THE SECURITIES

Prospective investors should read the entire Base Prospectus (and where appropriate, any relevant Issue Terms). Words and expressions defined elsewhere in this Base Prospectus have the same meanings in this section.

Prospective investors should consider the section entitled "Risk Factors" (excluding the Risk Factor headed "As a finance subsidiary, MSFL has no independent operations and is expected to have no independent assets") at pages 3 to 22 of the Registration Document dated 10 December 2021 (the "Registration Document" as amended from time to time), as amended by the section entitled "Amendments to the "Risk Factors" Section" at page 7 of the Second Supplement to the Registration Document dated 3 March 2022 and the section entitled "Amendments to the "Risk Factors" Section" at pages 5 to 19 of the Third Supplement to the Registration Document dated 21 March 2022, in respect of Morgan Stanley, MSI plc, MSBV and MSFL referred to in the section entitled "Incorporation by Reference" in this Base Prospectus and the factors described below and consult with their own professional advisors if they consider it necessary. Each of the Issuers and the Guarantor believe that such factors represent the principal risks inherent in investing in Securities issued under the Program but the inability of an Issuer to pay interest, principal or other amounts on or in connection with any Securities may occur for other reasons, which may not be considered significant risks by such Issuer based on information currently available to it or which it may not currently be able to anticipate.

This section describes generally the most significant risks of investing in Securities linked to one or more Relevant Underlyings such as interest rates, swap rates, shares, equity indices, proprietary indices, exchange traded funds, commodities or commodity indices, inflation indices, other indices, currencies, funds, one or more preference shares, futures contracts or constant maturity swap rates. Each investor should carefully consider whether the Securities, as described herein and in the applicable Issue Terms, are suited to its particular circumstances before deciding to purchase any Securities.

A description of the risks relating to the operation of Morgan Stanley's business activities that may affect the ability of the relevant Issuer to fulfil its obligations under the Securities are set out in the section entitled "*Risks relating to the operation of Morgan Stanley's business activities*" on pages 7-11 of the Registration Document.

3. ***Legal, regulatory and compliance risk***

A description of legal, regulatory and compliance risks that may affect the ability of the relevant Issuer to fulfil its obligations under the Securities are set out in the section entitled "*Legal, regulatory and compliance risk*" on pages 11-15 of the Registration Document.

4. ***Other risks relating to Morgan Stanley's business activities***

A description of other risks relating to Morgan Stanley's business activities that may affect the ability of the relevant Issuer to fulfil its obligations under the Securities are set out in the section entitled "*Other risks relating to Morgan Stanley's business activities*" on pages 15-18 of the Registration Document.

5. ***Risks relating to MSI plc, MSBV and MSFL***

A description of other risks relating to MSI plc, MSBV and MSFL that may affect the ability of the relevant Issuer to fulfil its obligations under the Securities are set out in the section entitled "*Risks relating to MSI plc, MSBV and MSFL*" on pages 18-22 of the Registration Document.

6. ***Risk Factors relating to the Issuers and Guarantor***

6.1 ***Credit risk***

Holders of Securities issued by Morgan Stanley or MSI plc bear the credit risk of the relevant Issuer, that is the risk that the relevant Issuer is not able to meet its obligations under such Securities, irrespective of whether such Securities are referred to as capital or principal protected or how any principal, interest or other payments under such Securities are to be calculated. Holders of Securities issued by MSBV or MSFL bear the credit risk of the relevant Issuer and/or the Guarantor, that is the risk that the relevant Issuer and/or the Guarantor is not able to meet its obligations under such Securities, irrespective of whether such Securities are referred to as capital or principal protected or how any principal, interest or other payments under Securities are to be calculated. If the Issuer and/or the Guarantor is not able to meet its obligations under the Securities, then that would have a significant negative impact on the investor's return on the Securities and an investor may lose up to its entire investment.

6.2 ***Risks in relation to the exercise of potential resolution powers***

MSI plc, as an investment firm for the purposes of the Banking Act 2009 (the "**Banking Act**"), is subject to provisions of that Act which give wide powers in respect of UK banks, their parent and other group companies and investment firms (such as MSI plc) to HM Treasury, the Bank of England, the Prudential Regulation Authority and the United Kingdom Financial Conduct Authority ("**FCA**") (each a "**relevant UK Regulatory Authority**") in circumstances where the relevant UK bank or investment firm (a "**relevant financial institution**") has encountered or is likely to encounter financial difficulties. The Banking Act implemented the provisions of Directive 2014/59/EU (the "**Bank Recovery and Resolution Directive**" or "**BRRD**") and was recently amended by, amongst other statutory instruments, The Bank Recovery and Resolution (Amendment) (EU Exit) Regulations 2020, which implement into UK law certain of the recent amendments to BRRD which were required to be implemented prior to the UK leaving the EU.

These powers include powers to: (a) transfer all or some of the liability in respect of the securities issued by a relevant financial institution, or all or some of the property, rights and liabilities of a relevant financial institution (which could include instruments issued by MSI plc), to a commercial purchaser or, in the case of securities, to HM Treasury or an HM Treasury nominee, or, in the case of property, rights or liabilities, to an entity owned by the Bank of England; (b) override any default provisions in contracts or other agreements, including provisions that would otherwise allow a party to terminate a contract or accelerate the payment of an obligation; (c) commence certain insolvency procedures in relation to a relevant financial institution; and (d) override, vary or impose contractual obligations, for reasonable consideration, between a relevant financial institution or its parent and its group undertakings (including undertakings which have ceased to

be members of the group), in order to enable any transferee or successor of the relevant financial institution to operate effectively. The Banking Act also gives power to HM Treasury to make further amendments to the law for the purpose of enabling it to use the special resolution regime powers effectively, potentially with retrospective effect.

By reason of its group relationship with certain other Morgan Stanley Group companies (including companies incorporated outside the UK) which are banks, investment firms or third-country institutions for the purposes of the Banking Act, MSI plc is a banking group company within the meaning of the Banking Act. Accordingly, the relevant UK Regulatory Authority can exercise substantially similar special resolution powers in respect of MSI plc in its capacity as a banking group company where the Prudential Regulation Authority or third country authority having jurisdiction over the relevant Morgan Stanley Group company is satisfied that such Morgan Stanley Group company meets the relevant conditions for resolution action (including that it is failing or likely to fail, that it is not reasonably likely that other measures would prevent its failure, and that it is in the public interest to exercise those powers) or that it satisfies an equivalent test in the relevant jurisdiction (irrespective of whether at that time MSI plc is failing or likely to fail). Additionally, where a relevant third country Morgan Stanley Group company becomes subject to resolution or similar measures, the relevant UK Regulatory Authority may recognise the application of some of those measures to MSI plc (irrespective of whether at that time MSI plc is failing or likely to fail).

The powers granted to the relevant UK Regulatory Authority include (but are not limited to) a "write-down and conversion of capital instruments and liabilities" power and a "bail-in" power.

The "write-down and conversion of capital instruments and liabilities power" may be used where the relevant UK Regulatory Authority has determined that the institution concerned has reached the point of non-viability, but that no bail-in of instruments other than capital instruments or (where the institution concerned is not a resolution entity) certain internal non-own funds liabilities ("**relevant internal liabilities**") is required (however the use of the write-down and conversion power does not preclude a subsequent use of the bail-in power) or where the conditions to resolution are met. Any write-down or conversion effected using this power must be carried out in a specific order such that common equity must be written off, cancelled or appropriated from the existing shareholders in full before additional tier 1 instruments are affected, additional tier 1 instruments must be written off or converted in full before tier 2 instruments are affected and (in the case of a non-resolution entity) tier 2 instruments must be written off or converted in full before relevant internal liabilities are affected. Where the write-down and conversion of capital instruments and liabilities power is used, the write-down is permanent and investors receive no compensation (save that common equity tier 1 instruments may be required to be issued to holders of written-down instruments). The write-down and conversion of capital instruments and liabilities power is not subject to the "no creditor worse off" safeguard (unlike the bail-in power described below).

The "bail-in" power gives the relevant UK Regulatory Authority the power, in relation to a failing relevant financial institution or a banking group company in respect of a bank, investment firm or third-country institution (whether or not incorporated in the UK) which is failing or likely to fail, to cancel all or a portion of the principal amount of, or interest on, certain unsecured liabilities of a failing financial institution or its holding company, and/or to convert certain debt claims into another security, including ordinary shares of the surviving entity, if any. Under the Banking Act, such power could be utilised in relation to MSI plc were it to be failing or likely to fail, or were a bank, investment firm or third-country institution (whether or not incorporated in the UK) in respect of which MSI plc is a banking group company to be failing or likely to fail. Were such power to be utilised in relation to MSI plc, it could be utilised in relation to securities issued by MSI plc.

The Banking Act requires the relevant UK Regulatory Authority to apply the "bail-in" power in accordance with a specified preference order which differs from the ordinary insolvency order. In particular, the relevant UK Regulatory Authority must write-down or convert debts in the following order: (i) additional tier 1, (ii) tier 2, (iii) other subordinated claims and (iv) certain senior claims. The bail-in power is subject to the "no creditor worse off" safeguard, under which

any shareholder or creditor which receives less favourable treatment than they would have had the institution entered into insolvency may be entitled to compensation.

Although the exercise of the bail-in power under the Banking Act is subject to certain pre-conditions, there remains uncertainty regarding the specific factors (including, but not limited to, factors outside the control of MSI plc or not directly related to MSI plc) which the relevant UK Regulatory Authority would consider in deciding whether to exercise such power with respect to MSI plc and its securities. Moreover, as the relevant UK Regulatory Authority may have considerable discretion in relation to how and when it may exercise such power, holders of securities issued by MSI plc may not be able to refer to publicly available criteria in order to anticipate a potential exercise of such power and consequently its potential effect on MSI plc and securities issued by MSI plc.

As well as a "write-down and conversion of capital instruments and liabilities" power and a "bail-in" power, the powers of the relevant UK Regulatory Authority under the Banking Act include broad powers to (i) direct the sale of the relevant financial institution or the whole or part of its business on commercial terms without requiring the consent of the shareholders or complying with the procedural requirements that would otherwise apply, (ii) transfer all or part of the business of the relevant financial institution to a "bridge institution" (an entity created for such purpose that is wholly or partially in public control) and (iii) separate assets by transferring impaired or problem assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind-down (this can be used together with another resolution tool only). The Bank of England has broad powers to make one or more share transfer instruments (in the case of a transfer to a private sector purchaser described in (i) or a transfer to a "bridge institution" in the case of (ii)) or one or more property transfer instruments (in all three cases). A transfer pursuant to a share transfer instrument or a property transfer instrument will take effect despite any restriction arising by virtue of contract or legislation or in any other way.

In addition, the Banking Act gives the relevant UK Regulatory Authority power to amend the maturity date and/or any interest payment date of debt instruments or other eligible liabilities of the relevant financial institution and/or impose a temporary suspension of payments and/or discontinue the listing and admission to trading of debt instruments.

The exercise by the relevant UK Regulatory Authority of any of the above powers under the Banking Act (including especially the write-down and conversion of capital instruments power and the bail-in power) could lead to the holders of securities issued by MSI plc losing some or all of their investment. Moreover, trading behaviour in relation to the securities issued by MSI plc, including market prices and volatility, may be affected by the use or any suggestion of the use of these powers and accordingly, in such circumstances, such securities are not necessarily expected to follow the trading behaviour associated with other types of securities. There can be no assurance that the taking of any actions under the Banking Act by the relevant UK Regulatory Authority or the manner in which its powers under the Banking Act are exercised will not materially adversely affect the rights of holders of securities issued by MSI plc, the market value of an investment in such securities and/or MSI plc's ability to satisfy its obligations under, or under its guarantee of, such securities.

6.3 ***The Issuer or the Guarantor may be substituted without the consent of the holders of Securities***

The Issuer may, without the consent of Securityholders and provided certain conditions are satisfied, agree to (i) substitute Morgan Stanley (in the case of MSBV Securities, MSFL Securities or MSI plc Securities only) or a subsidiary of Morgan Stanley in place of the Issuer or (ii) if "Supplementary Provisions for Belgian Securities" is specified as not applicable in the applicable Issue Terms, substitute a non-Morgan Stanley Group entity in place of the Issuer or the Guarantor (in the case of MSBV Securities or MSFL Securities) (provided that such non-Morgan Stanley Group entity is of at least the equivalent creditworthiness to the Issuer or Guarantor, as applicable). Any such substitution may result in a reduction in the value of the Securities.

6.4 ***As a finance subsidiary, MSFL has no independent operations and is expected to have no independent assets***

The principal risks with respect to Morgan Stanley will also represent the principal risks with respect to MSFL, either as an individual entity or as part of the Morgan Stanley Group.

MSFL has no independent operations beyond the issuance and administration of its securities and is expected to have no independent assets available for distributions to holders of MSFL Securities if they make claims in respect of the Securities in a bankruptcy, resolution or similar proceeding. Accordingly, any recoveries by such holders will be limited to those available under the related Guarantee by Morgan Stanley and that Guarantee will rank pari passu with all other outstanding unsecured and unsubordinated obligations of Morgan Stanley present and future, but, in the event of insolvency, only to the extent permitted by laws affecting creditors' rights. Holders will have recourse only to a single claim against Morgan Stanley and its assets under the Guarantee. Holders of Securities issued by MSFL should accordingly assume that in any such proceedings they would not have any priority over and should be treated pari passu with the claims of other unsecured, unsubordinated creditors of Morgan Stanley, including holders of Morgan Stanley-issued securities. Holders of the Securities issued by MSFL should therefore be aware that in any such proceedings a Holder's recoveries in respect of its claims under the Guarantee may be less than if it had such priority.

6.5 ***Conflicts of interest***

The Issuer, the Guarantor and their affiliates may act in a number of capacities in connection with the Securities and need not take into account the specific interests of any individual Securityholder. Such a party may also enter into business dealings relating to the Securities or the Relevant Underlying or any asset to which the Securities or Relevant Underlying are exposed, from which such party may derive revenues and profits in addition to any fees stated in the various documents, without any duty to account therefor, or act in a way that is adverse to the interests of the Securityholders generally.

For further information, see the section of this Base Prospectus titled "*Conflicts of Interest*".

7. ***Risk Factors relating to some or all of the Securities***

7.1 ***Investors risk losing all of their investment in the Securities***

Potential investors should be aware that depending on the terms of the relevant Securities (i) they may receive no or a limited amount of interest, (ii) payments may occur at a different time than expected and (iii) **except in the case of Securities which are scheduled to repay 100 per cent. of their principal amount (in the case of Notes) or Specified Unit Value (in the case of Certificates) and where the Issuer (and, where applicable, the Guarantor) does not fail to make such payment, they may lose all or a substantial portion of their investment if the value/performance of the Relevant Underlying does not move in the anticipated direction.**

7.2 ***The Securities are not ordinary debt securities***

The terms of certain Securities differ from those of ordinary debt securities because the Securities may not pay interest and, on maturity, depending on the performance of the Relevant Underlying, may return less than the amount invested or nothing, or may return assets or securities of an issuer that is not affiliated with the Issuer, the value of which is less than the amount invested. **The price of the Securities may fall in value as rapidly as it may rise, and investors in the Securities may potentially lose all of their investment.**

7.3 ***The Securities may be redeemed prior to maturity***

Unless, in the case of any particular Tranche of Securities the relevant Issue Terms specify otherwise, in the event that the relevant Issuer or the Guarantor (if applicable) would be obliged to increase the amounts payable in respect of any Securities due to any withholding or deduction for or on account of, any taxes, duties, assessments or governmental charges of whatever nature

imposed, levied, collected, withheld or assessed by or on behalf of any relevant jurisdiction, the relevant Issuer may redeem all outstanding Securities in accordance with, if "Supplementary Provisions for Belgian Securities" is specified as not applicable in the applicable Issue Terms, the Conditions at the redemption price specified in the applicable Issue Terms or, if "Supplementary Provisions for Belgian Securities" is specified as applicable in the applicable Issue Terms, the Belgian Supplemental Conditions at the redemption amounts specified referred to in "*The Securities may be redeemed prior to maturity (where the Supplementary Provisions for Belgian Securities apply)*" below.

In addition, if, in the case of any particular Tranche of Securities, the relevant Issue Terms specify that the Securities are redeemable at the relevant Issuer's option in certain other circumstances, the relevant Issuer may choose to redeem the Securities at times when prevailing interest rates may be relatively low. In such circumstances, an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the relevant Securities.

In addition, an optional redemption feature in any particular Tranche of Securities is likely to limit their market value. During any period when the relevant Issuer may elect to redeem Securities, the market value of those Securities generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

In the case of certain Securities, if such Securities are redeemed early for any reason, the amount payable by the Issuer may be less than the amount that would have been paid had the Securities been redeemed at maturity.

In addition, in the circumstance of an event of default by the relevant Issuer and acceleration of the Securities, the investor would have an unsecured claim against the Issuer or, if applicable, the Guarantor for the amount due on the early redemption of the Securities.

7.4 ***The value of the Securities may be influenced by unpredictable factors***

The value of the Securities may be influenced by several factors beyond the Issuer's, and/or its Affiliates' and, where applicable, the Guarantor's control, including the following:

- (1) *Valuation of the Relevant Underlying.* The market price or value of a Security at any time is expected to be affected primarily by changes in the level of the Relevant Underlying to which the Securities are linked. It is impossible to predict how the level of the Relevant Underlying will vary over time. The historical performance value (if any) of the Relevant Underlying does not indicate the future performance of the Relevant Underlying. Factors which may have an effect on the value of the Relevant Underlying include the rate of return of the Relevant Underlying and, where relevant, the financial position and prospects of the issuer of the Relevant Underlying, the market price or value of the applicable underlying security, index, ETF, commodity, fund, basket of securities, indices, ETFs, commodities, funds, futures contracts or constant maturity swap rates. In addition, the level of the Relevant Underlying may depend on a number of inter-related factors, including economic, financial and political events and their effect on the capital markets generally and relevant stock exchanges. Potential investors should also note that whilst the market value of the Securities is linked to the Relevant Underlying and will be influenced (positively or negatively) by the Relevant Underlying, any change may not be comparable and may be disproportionate. It is possible that while the Relevant Underlying is increasing in value, the value of the Securities may fall. Further, the Conditions of the Securities will allow the Determination Agent to make adjustments or take any other appropriate action if circumstances occur where the Securities or any exchanges or price sources are affected by market disruption, adjustment events or circumstances affecting normal activities.
- (2) *Volatility.* The term "volatility" refers to the actual and anticipated frequency and magnitude of changes of the market price with respect to a Relevant Underlying. Volatility is affected by a number of factors such as macroeconomic factors (i.e. those economic factors which have broad economic effects), speculative trading and supply and demand in the options, futures and other derivatives markets. Volatility of a Relevant Underlying will

move up and down over time (sometimes more sharply than at other times) and different Relevant Underlyings will most likely have separate volatilities at any particular time.

- (3) *Dividend Rates and other Distributions.* The value of certain Equity-Linked Securities, Fund-Linked Securities and Futures Contract-Linked Securities could, in certain circumstances, be affected by fluctuations in the actual or anticipated rates of dividend (if any) or other distributions on a Relevant Underlying.
- (4) *Interest Rates.* Investments in the Securities may involve interest rate risk. The interest rate level may fluctuate on a daily basis and cause the value of the Securities to change on a daily basis. The interest rate risk is a result of the uncertainty with respect to future changes of the market interest rate level. Even if the Securities are "100% principal protected" (that is, scheduled to pay back 100% of their principal amount (in the case of Notes) or their Specified Unit Value (in the case of Certificates) at maturity), this is subject to the Issuer and, if applicable, the Guarantor not being insolvent and not failing to make its full payment obligations at maturity.
- (5) *Remaining Term.* Generally, the effect of pricing factors over the term of the Securities will decrease as the maturity date approaches. However, this reduction in the effect of pricing factors will not necessarily develop consistently up until the maturity date, but may undergo temporary acceleration and/or deceleration. Even if the price of the Relevant Underlying rises or falls there may be a reduction or increase, as the case may be, in the value of the Securities due to the other value determining factors. Given that the term of the Securities is limited, investors cannot rely on the price of the Relevant Underlying or the value of the Securities recovering again prior to maturity.
- (6) *Creditworthiness.* Any prospective investor who purchases the Securities is relying upon the creditworthiness of the Issuer and/or the Guarantor, if applicable, and has no rights against any other person. If the Issuer and/or the Guarantor, if applicable, becomes insolvent, investors may suffer potential loss of their entire investment irrespective of any favourable development of the other value determining factors, such as a Relevant Underlying.
- (7) *Exchange Rates.* Even where payments in respect of the Securities are not expressly linked to a rate or rates of exchange between currencies, the value of the Securities could, in certain circumstances, be affected by such factors as fluctuations in the rates of exchange between any currency in which any payment in respect of the Securities is to be made and any currency in which a Relevant Underlying is traded, appreciation or depreciation of any such currencies and any existing or future or governmental or other restrictions on the exchangeability of such currencies. There can be no assurance that rates of exchange between any relevant currencies which are current rates at the date of issue of the Securities will be representative of the relevant rates of exchange used in computing the value of the Securities at any time thereafter. Where Securities are described as being "quantoed", the value of the Relevant Underlying will be converted from one currency (the "Relevant Underlying Currency") into a new currency (the "Settlement Currency") on the date and in the manner specified in, or implied by, the Conditions using a fixed exchange rate. The cost to the Issuer of maintaining such a fixing between the Relevant Underlying Currency and the Settlement Currency will affect the payout on the Securities and their value. No assurance can be given as to whether or not, taking into account relative exchange rate and interest rate fluctuations between the Relevant Underlying Currency and the Settlement Currency, a quanto feature in a Security would enhance the return on the Security over a level of a similar security issued without such a quanto feature, and a quanto feature may worsen the return.

Some or all of the above factors will influence the price investors will receive if an investor sells its Securities prior to maturity, which is usually referred to as "secondary market practice". For example, investors may have to sell certain Securities at a substantial discount from the principal amount, unit value, issue price or investment amount of such Securities if the market price or value of the applicable Relevant Underlying is at, below, or not sufficiently above the initial market price or value or if market interest rates rise. The secondary market price may be lower than the market value of the issued Securities as at the Issue Date to take into account, amongst other things,

amounts paid to distributors and other intermediaries relating to the issue and sale of the Securities and amounts relating to the hedging of the Issuer's obligations. As a result of all of these factors, any investor that sells the Securities before the stated expiration or maturity date, may receive an amount in the secondary market which may be less than the then intrinsic market value of the Securities and which may also be less than the amount the investor would have received had the investor held the Securities through to maturity.

7.5 *Notes where denominations involve integral multiples*

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination.

In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system **would not be able to sell the remainder of such holding without first purchasing a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination.**

Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time **may not receive a definitive Security in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination.**

7.6 *Securities issued by MSBV and MSFL will not have the benefit of any cross-default or cross-acceleration with other indebtedness of MSBV, MSFL or Morgan Stanley; A Morgan Stanley covenant default or bankruptcy, insolvency or reorganization event does not constitute an Event of Default with respect to MSBV Securities or MSFL Securities*

Unless otherwise stated in the applicable Issue Terms, the securities issued by MSBV and MSFL will not have the benefit of any cross-default or cross-acceleration with other indebtedness of MSBV, MSFL or Morgan Stanley (as applicable). In addition, a covenant default by Morgan Stanley, as guarantor, or an event of bankruptcy, insolvency or reorganization of Morgan Stanley, as guarantor, does not constitute an Event of Default with respect to any securities issued by MSBV or MSFL. Holders of the Securities should be aware that they will not have the right to request the Issuer to redeem the Securities following a default by MSBV, MSFL or Morgan Stanley (as applicable) under its other indebtedness or following such covenant default or event of bankruptcy or insolvency or reorganization of Morgan Stanley, as Guarantor.

7.7 *Certain considerations regarding the use of the Securities as hedging instruments*

Any person intending to use the Securities as a hedge instrument should recognise the "correlation risk" of doing this. Correlation risk is the potential differences in exposure for a potential investor that may arise from the ownership of more than one financial instrument. The Securities may not hedge exactly a Relevant Underlying or portfolio of which a Relevant Underlying forms a part. In addition, it may not be possible to liquidate the Securities at a level which directly reflects the price of the Relevant Underlying or portfolio of which the Relevant Underlying forms a part. **Potential investors should not rely on the ability to conclude transactions during the term of the Securities to offset or limit the relevant risks. This depends on market conditions and the value and/or performance of the Relevant Underlying. It is possible that such transactions will only be concluded at an unfavourable market price, resulting in a corresponding loss for Securityholders.**

7.8 *Effect on the Securities of hedging transactions by the Issuer*

The Issuer may use a portion of the total proceeds from the sale of the Securities for transactions to hedge the risks of the Issuer relating to the Securities. In such case, the Issuer or any of its

Affiliates may conclude transactions that correspond to the obligations of the Issuer under the Securities. As a rule, such transactions are concluded prior to or on the Issue Date, but it is also possible to conclude such transactions after issue of the Securities. On or before a valuation date the Issuer or any of its Affiliates may take the steps necessary for closing out any hedging transactions. It cannot, however, be ruled out that the price of a Relevant Underlying will be influenced by such transactions. Entering into or closing out these hedging transactions may influence the probability of occurrence or non occurrence of determining events in the case of Securities with a value based on the occurrence of a certain event in relation to a Relevant Underlying. Also, as noted above, these hedging activities could affect the price, rate, level or other value of the Relevant Underlying(s). Accordingly, the hedging activities of the Issuer and its affiliates could have a significant negative (or positive) impact on the investor's return on the Securities.

7.9 *Secondary trading of the Securities may be limited*

Potential investors should be willing to hold the Securities until maturity. The nature and extent of any secondary market in the Securities cannot be predicted and there may be little or no secondary market in the Securities. As a consequence any person intending to hold the Securities should consider liquidity in the Securities as a risk. Where the Securities are listed or quoted on an exchange or quotation system, this does not imply greater or lesser liquidity than if equivalent Securities were not so listed or quoted and the Issuer cannot guarantee that the listing or quotation will be permanently maintained. Where the Securities are not listed or quoted, it becomes more difficult to purchase and sell such Securities and there may also be a lack of transparency with regard to pricing information.

Further, although an Issuer may apply to have certain issuances of Securities admitted to listing on the Official List of the Luxembourg Stock Exchange and to trading on the Luxembourg Regulated Market or on the Luxembourg Stock Exchange's Euro MTF market, or admitted to listing, trading and/or quotation by any other listing authority, stock exchange and/or quotation system, approval for any listing is subject to meeting the relevant listing requirements. Even if there is a secondary market, it may not provide enough liquidity to allow the investor to sell or trade the Securities easily. MSI plc and other affiliates of Morgan Stanley may from time to time, make a market in the Securities, but they are not required to do so, save to the extent required under the rules of any stock exchange on which the Securities are listed and admitted to trading. If MSI plc or one or more of its affiliates does make a market for the Securities, it may cease to do so at any time without notice to investors and it is not obligated to provide any quotation of bid or offer price(s) for the Securities which is favourable to investors. If at any time MSI plc and other affiliates of the Issuers were to cease making a market in the Securities, it is likely that there would be little or no secondary market for the Securities. This may impact the ability of a Securityholder to sell the Securities at any time.

7.10 *Modification and waiver*

The Conditions of the Securities contain provisions for calling meetings of Securityholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all holders of the relevant Securities, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority. Holders of the Securities should be aware that if they are not part of the defined majority, including if such holder did not attend the relevant meeting, they will be bound by the decision of the defined majority on matters which may negatively affect the interests of the such holder.

7.11 *Restricted secondary trading if the electronic trading system is unavailable*

Trading in the Securities may be conducted via one or more electronic trading systems so that "buy" and "sell" prices can be quoted for exchange and off-exchange trading. If an electronic trading system used by the Issuer and/or its Affiliates were to become partially or completely unavailable, such a development would have a corresponding effect on the ability of investors to trade the Securities.

7.12 *Payments on certain Securities may be subject to U.S. withholding tax*

Payments on a Security issued by Morgan Stanley or MSFL that are treated as interest for U.S. federal income tax purposes may be subject to U.S. withholding tax of 30 per cent. if the beneficial owner of the Security does not meet the criteria for being exempt from this withholding tax. These criteria include the requirement that the beneficial owner (or any financial institution holding the Security on behalf of the beneficial owner) comply with certain U.S. tax identification and certification requirements, generally by furnishing the appropriate Internal Revenue Service ("IRS") Form W-8BEN or W-8BEN-E on which the beneficial owner certifies under penalties of perjury that it is not a United States person, as defined in the U.S. Internal Revenue Code of 1986, as amended (the "Code"). In the case of certain other coupon-paying Securities, a non-U.S. investor may be required to establish an exemption under the "other income" provision of a Qualifying Treaty (as defined below) in order to receive payments from Morgan Stanley or MSFL without U.S. withholding tax of 30 per cent. An income tax treaty between a non-U.S. jurisdiction and the United States is a "Qualifying Treaty" if it provides for a 0 per cent. rate of tax on "other income" earned by a resident of the non-U.S. jurisdiction from sources within the United States. Because most income tax treaties contain complex eligibility rules and limitations, a non-U.S. investor should consult its tax advisor about its eligibility for this exemption.

Further, as discussed in "*Taxation – United States Federal Taxation*" below, Sections 1471 through 1474 of the Code and any regulations thereunder or official guidance in connection therewith, an agreement entered into with the IRS pursuant to such sections of the Code, or an intergovernmental agreement (an "IGA") between the United States and another jurisdiction (or local implementing rules) in furtherance of such sections of the Code (collectively referred to as "FATCA") may impose a withholding tax of 30 per cent. on payments made on the Securities (including payments made by financial intermediaries), unless various U.S. information reporting and due diligence requirements have been satisfied.

In addition, as discussed in "*Taxation – United States Federal Taxation*" below, Section 871(m) of the Code and the regulations thereunder require withholding (of up to 30 per cent, subject to the provisions of any applicable income tax treaty) on payments or deemed payments made to non-U.S. persons on certain financial instruments to the extent that such payments are treated, for U.S. federal income tax purposes, as being U.S.-source dividend equivalent amounts.

If U.S. withholding tax is imposed because a beneficial owner (or financial institution holding a Security on behalf of a beneficial owner) does not timely provide the required U.S. tax forms or meet the criteria for exemption from such U.S. withholding tax or if withholding is imposed under FATCA or Section 871(m), none of the Issuers, the Guarantor or any intermediary will be required to pay any additional amounts or otherwise indemnify a holder with respect to the amounts so withheld, unless specified otherwise in the applicable Issue Terms. See "*Taxation – United States Federal Taxation*" below for further discussion of these rules. Prospective investors should therefore be aware that, if U.S. withholding tax is so imposed, investors generally will receive less than the amount that investors would have been entitled to receive under the terms of the Securities if such U.S. withholding tax had not been imposed.

7.13 *Issuer call option risk*

If Call Option is specified in the relevant Issue Terms as being applicable, the Issuer will have the right to terminate the Securities on any Call Option Date. Following the exercise by the Issuer of such Call Option, the investors will be entitled to receive a pre-determined amount which may be less than the amount that the investors would have been entitled to receive under the terms of the Securities if such Call Option had not been exercised.

The determination to terminate the Securities will be made by the Issuer taking into account a number of factors, including the current level of the reference asset and the likelihood that such levels will be maintained, or will increase or decrease, in the future. In making such determination, the Issuer will consider whether the expected performance of the reference asset could imply that a higher amount could be payable in the future under the Securities than Optional Redemption Amount (Call). **As a result, it is likely that the Issuer will exercise the Call Option at a time in which the termination of the Securities is least favourable for the investors. The Issuer shall make such determination without taking into account the interest of the investors. The Call Option therefore can limit the possibility for investors to realise in full the expected returns.**

If the Issuer exercises the Call Option, investors in the Securities will no longer be able to participate in the performance of the reference asset.

An optional termination feature of the Securities is likely to limit their market value. During any period when the Issuer may elect to terminate the Securities, the market value of those Securities generally will not rise substantially above the price at which they can be terminated.

If the Issuer exercises the Call Option, investors generally might not be able to reinvest the termination proceeds rate in the same market environment as it was available at the time in which they invested in the Securities and they might be unable to reinvest at a comparable rate of returns. Investors should consider reinvestment risk in light of other investments available at the time of their investment decision.

7.14 ***The Securities may be redeemed prior to maturity (where the Supplementary Provisions for Belgian Securities apply)***

If "Supplementary Provisions for Belgian Securities" is specified as applicable in the applicable Issue Terms and any outstanding Securities may be redeemed by the Issuer following the occurrence of certain events that significantly alter the economics of the relevant Securities that existed on the relevant Trade Date, the amount payable by the Issuer will depend on whether such event is an event that definitively prevents the performance of the Issuer's or the Determination Agent's obligations under the Securities and for which the Issuer or the Determination Agent is not accountable (a "**Force Majeure Event**").

If the relevant event is a Force Majeure Event, the Issuer will (if and to the extent permitted by applicable law and regulation) pay an amount on the relevant early redemption date which will be equal to the fair market value of the Securities.

If the relevant event is not a Force Majeure Event, then:

- (1) if Minimum Redemption Amount is specified as not applicable in the relevant Issue Terms, the Issuer will pay an amount on the relevant early redemption date which will be equal to the fair market value of the Securities (plus a *pro-rata* reimbursement of the costs of the Issuer paid by the original Securityholder as part of the Issue Price of the Securities, as adjusted to take into account the time remaining until maturity); or
- (2) if Minimum Redemption Amount is specified as applicable in the relevant Issue Terms, the Issuer will pay an amount on the Maturity Date of the Securities equal to the minimum level of the final redemption amount payable on the Maturity Date, plus the sum of the value of the derivative component of such Security, plus a sum representing the reimbursement of costs initially charged to investors by the Issuer for issuing the Security (as adjusted to take into account the time remaining to maturity), compounded at a rate of interest for comparable debt instruments issued by the Issuer (or, in the case of any Securities guaranteed by the Guarantor, the Guarantor) for the remaining term of the Securities. However, the holder of a Security may instead choose to receive payment prior to the Maturity Date by electing to receive an amount equal to the fair market value of the Securities (plus a *pro-rata* reimbursement of the costs of the Issuer paid by the original Securityholder as part of the Issue Price of the Securities, as adjusted to take into account the time remaining until maturity) on the relevant early redemption date.

The Issuer's obligations under the Securities shall be satisfied in full upon payment of such amounts.

The amount payable by the Issuer in the circumstances set out above may be less than the amount that would have been paid had the Securities been redeemed at maturity.

Prospective investors should review the Conditions as amended by the Belgian Supplemental Conditions to ascertain how such provisions apply to the Securities and what may constitute an early redemption event or a force majeure event.

7.15 ***Securities issued at a substantial discount or premium***

The market values of Securities issued at a substantial discount or premium from their principal amount (in the case of Notes) or unit value (in the case of Certificates) tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing Securities. Generally, the longer the remaining term of such Securities, the greater the price volatility as compared to conventional interest-bearing Securities with comparable maturities.

7.16 ***An Issuer may amend the terms and conditions of the Securities, the Guarantee and the applicable Deed of Covenant without Securityholder consent***

Condition 26.2 (*Modification*) of the "*Terms and Conditions of the Securities*" below allows an Issuer to amend the terms and conditions of the Securities, the Guarantee and the Deeds of Covenant without the consent of the Securityholders if, in that Issuers' opinion: (i) the amendment is to correct a manifest or proven error; (ii) where the effect of the amendment is of a formal, minor or technical nature; (iii) the amendment is to cure any ambiguity or is to correct or supplement any defective provisions; (iv) the amendment is to correct an error or omission such that, in the absence of such correction, the terms of the Securities would not otherwise represent the intended terms on which the Securities were sold and have since traded; or (v) the amendment is not materially prejudicial to Securityholders. Prospective investors should be aware that the Issuer is not required to consult with any other party, including the Securityholders, prior to amending the terms and conditions of the Securities, the Guarantee and/or the Deeds of Covenant pursuant to this Condition. An Issuer is entitled to exercise its discretion in making these determinations and Securityholders will be bound by any such amendments made pursuant to Condition 26.2 (*Modification*), notwithstanding that the Securityholder's consent is not required for such amendments.

7.17 ***Settlement risk for Securities that are to be physically settled***

If (with respect to any Securities that are physically settled) prior to the delivery of any specified asset(s), the Determination Agent for the Securities determines that a settlement disruption event (as defined in Condition 19.3 (*Settlement Disruption of Physical Settlement*) of the "*Terms and Conditions of the Securities*" below, a "**Settlement Disruption Event**") is subsisting, then the obligation to deliver such asset(s) shall be postponed to the first following business day on which no Settlement Disruption Event is subsisting. Prospective investors should note that any such determination may affect the value of the Securities and/or may delay settlement in respect of the Securities.

Prospective investors should note that for so long as any delivery of any part of the specified asset(s) is not practicable by reason of a Settlement Disruption Event, then the Issuer may, in its reasonable discretion, satisfy its obligations to deliver such part of the specified asset(s) by payment of a disrupted cash settlement price. Prospective investors should note that the disrupted cash settlement price will reflect the fair market value of the Securities less the cost to the Issuer and/or any of its Affiliates of unwinding any Relevant Underlying related hedging arrangements and that any such determination may adversely affect the value of the Securities.

7.18 ***Eurosystem eligibility for Registered Securities in global form***

Registered Securities in global form which are to be held under the New Safekeeping Structure may be issued with the intention that such Securities be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem, either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria as specified by the European Central Bank. **However, there is no guarantee that such Securities will be recognised as eligible collateral.** Any other Securities are not intended to be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem.

7.19 ***Risks relating to the occurrence of a Regulatory Event***

Securityholders of Securities issued by MSBV should note that if Condition 22 (*Illegality and Regulatory Event*) of the "*Terms and Conditions of the Securities*" below is specified as being applicable in the relevant Issue Terms, the Issuer shall have the right to redeem the Securities early

(at the amount specified in the relevant Issue Terms) if the Issuer has determined that a Regulatory Event has occurred.

Securityholders should note in this regard the circumstances in which a Regulatory Event may be deemed by the Issuer to have occurred pursuant to the definition of "Regulatory Event" under Condition 2.1 (*Definitions*) of the "*Terms and Conditions of the Securities*" below. There can be no assurance that a Regulatory Event will not occur and Securityholders should be aware that, should a Regulatory Event occur, it may lead to an early redemption of the Securities.

8. ***Risk Factors relating to currencies and exchange rates***

8.1 ***Exchange rates and exchange controls may affect the value or return of the Securities***

General Exchange Rate and Exchange Control Risks. An investment in a Security denominated in, or the payment of which is linked to the value of, currencies other than the investor's home currency entails significant risks. These risks include the possibility of significant changes in rates of exchange between its home currency and the other relevant currencies and the possibility of the imposition or modification of exchange controls by the relevant governmental authorities. These risks generally depend on economic and political events over which the Issuers have no control. Such risks may impact the payments due under the Securities and therefore the value or return of the Securities.

Exchange Rates Will Affect the Investor's Investment. In recent years, rates of exchange between some currencies have been highly volatile and this volatility may continue in the future. Fluctuations in any particular exchange rate that have occurred in the past are not necessarily indicative, however, of fluctuations that may occur during the term of any Security. Depreciation against the investor's home currency or the currency in which a Security is payable would result in a decrease in the effective yield of the Security below its coupon rate and could result in an overall loss to an investor on the basis of the investor's home currency. In addition, depending on the specific terms of a Currency-Linked Security, changes in exchange rates relating to any of the relevant currencies could result in a decrease in its effective yield and in the investor's loss of all or a substantial portion of the value of that Security.

The Issuers Have No Control Over Exchange Rates. Currency exchange rates can either float or be fixed. Exchange rates of most economically developed nations are permitted to fluctuate in value relative to each other. However, from time to time governments may use a variety of techniques, such as intervention by a country's central bank, the imposition of regulatory controls or taxes, or changes in interest rate to influence the exchange rates of their currencies. Governments may also issue a new currency to replace an existing currency or alter the exchange rate or relative exchange characteristics by a devaluation or revaluation of a currency. These governmental actions could change or interfere with currency valuations and currency fluctuations that would otherwise occur in response to economic forces, as well as in response to the movement of currencies across borders.

As a consequence, these government actions could adversely affect yields or payouts (i) in the investor's home currency for Securities denominated or payable in currencies other than the investor's home currency and (ii) for Currency-Linked Securities.

The Issuers will not make any adjustment or change in the terms of the Securities in the event that exchange rates should become fixed, or in the event of any devaluation or revaluation or imposition of exchange or other regulatory controls or taxes, or in the event of other developments affecting any currency. Therefore the investor will bear those risks, which may adversely impact the return on and value of the Securities.

Some Currencies May Become Unavailable. Governments have imposed from time to time, and may in the future impose, exchange controls that could also affect the availability of a Specified Currency (as defined herein). Even if there are no actual exchange controls, it is possible that the applicable currency for any security would not be available when payments on that security are due. Prospective investors in Securities should be aware that the Determination Agent may determine that a Currency Disruption Event has occurred or exists on a relevant date of valuation, and any consequential determination of the Settlement Rate by the Determination Agent in

accordance with the Currency Disruption Fallbacks may have an adverse effect on the return on and value of the Securities.

Currency Exchange Information may be provided in the Issue Terms. The applicable Issue Terms or base prospectus supplement, where relevant, may include information with respect to any relevant exchange controls and any relevant historic exchange rate information for any Security. An investor in Securities should not assume that any historic information concerning currency exchange rates will be representative of the range of, or trends in, fluctuations in currency exchange rates that may occur in the future. Future fluctuations in currency exchange rates, the range of such fluctuations or trends in such fluctuations may adversely impact the return on and value of the Securities.

8.2 ***Emerging market currencies***

Where the Securities are denominated in an emerging market currency or linked to one or more emerging market currencies, such emerging market currencies can be significantly more volatile than currencies of more developed markets. Emerging markets currencies are highly exposed to the risk of a currency crisis happening in the future and this could trigger the need for the determination agent (MSI plc or an affiliate) to make adjustments to the terms and conditions of the Securities. Such adjustments may have an adverse affect on the value or return of the Securities.

8.3 ***Risks related to CNY Securities***

In this Risk Factor, references to "**CNY Securities**" are to Securities denominated in CNY or Renminbi deliverable in Hong Kong, or such other CNY Centre as specified in the applicable Issue Terms.

Renminbi is not a freely convertible currency at present. The PRC government continues to regulate conversion between Renminbi and foreign currencies. The People's Bank of China ("**PBOC**") has established Renminbi clearing and settlement systems for certain locations pursuant to settlement agreements relating to the clearing of Renminbi business between PBOC and certain clearing banks. However, the current size of Renminbi and Renminbi denominated financial assets outside the PRC remains limited, and its growth is subject to many constraints which are directly affected by PRC laws and regulations on foreign exchange and may adversely affect the liquidity of CNY Securities.

There is no assurance that the PRC government will continue to gradually liberalise control over cross-border remittance of Renminbi in the future, that any schemes for Renminbi cross-border utilisation will not be discontinued or that new regulations in the PRC will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or outside the PRC. In the event that any regulatory restrictions inhibit the ability of the Issuer to repatriate funds outside the PRC to meet its obligations under CNY Securities, the Issuer will need to source Renminbi offshore to finance such obligations under CNY Securities, and its ability to do so will be subject to the overall availability of Renminbi outside the PRC.

The limited availability of Renminbi outside the PRC may affect the liquidity of the CNY Securities and the Issuer's ability to source Renminbi on satisfactory terms to make payments in respect of the CNY Securities.

Investment in CNY Securities is subject to exchange rate risks

The value of Renminbi against the Hong Kong Dollar and other foreign currencies fluctuates and is affected by developments in or affecting the PRC, PBOC currency exchange policy, international political and economic conditions and many other factors. All payments with respect to the CNY Securities will be made in CNY, except in the case of CNY Inconvertibility, CNY Non-transferability or CNY Illiquidity (as defined in Condition 34 (*CNY Disruption Events*) of the "*Terms and Conditions of the Securities*" below), in which case all payments and settlement in CNY will be made in accordance with the provisions of Condition 34 (*CNY Disruption Events*) if specified in the relevant Issue Terms. As a result, the value of CNY payments may vary with the prevailing exchange rates in the marketplace. If the value of CNY depreciates against the relevant currency, the value of the investment in relevant currency will have declined. In the case of CNY

Inconvertibility, CNY Non-transferability or CNY Illiquidity (as defined in Condition 34 (*CNY Disruption Events*)), such a decline may be very substantial. In August 2015, PBOC changed the way it calculates the mid-point price of Renminbi against the U.S. dollar, requiring the market-makers who submit for the PBOC's reference rates to consider the previous day's closing spot rate, foreign-exchange demand and supply as well as changes in major currency rates. This change, and other changes such as widening the trading band that may be implemented, may increase volatility in the value of the Renminbi against foreign currencies. In May 2017, PBOC further decided to introduce counter-cyclical factors to offset the market pro-cyclicality, so that the midpoint quotes could adequately reflect PRC's actual economic performance. However, the volatility in the value of the Renminbi against other currencies still exists.

Payments for the CNY Securities will only be made to investors in the manner specified in the CNY Securities

All payments to investors in respect of the Securities will be made solely (i) for so long as the CNY Securities are represented by a Registered Security held with the common depository for Clearstream Banking société anonyme and Euroclear Bank S.A./N.V. or any alternative clearing system by transfer to a CNY bank account maintained outside the PRC, or (ii) for so long as the CNY Securities are in definitive form, by transfer to a CNY bank account maintained outside the PRC, in each case in accordance with prevailing rules and regulations. The Issuer cannot be required to make payment by any other means (including in any other currency or by transfer to a bank account in the PRC). In addition, there can be no assurance that access to Renminbi for the purposes of making payments under the CNY Securities or generally may remain or will not become restricted. If it becomes impossible to convert Renminbi from/to another freely convertible currency, or transfer Renminbi between accounts in the relevant offshore CNY centre(s), or the general Renminbi exchange market in the relevant offshore CNY centre(s) becomes illiquid, any payment of Renminbi under the CNY Securities may be delayed or all payments and settlement will be made in accordance with the Disruption Fallbacks described in Condition 34 (*CNY Disruption Events*), if specified in the relevant Issue Terms.

There may be PRC tax consequences with respect to investment in the CNY Securities

In considering whether to invest in the CNY Securities, investors should consult their individual tax advisers with regard to the application of PRC tax laws to their particular situations as well as any tax consequences arising under the laws of any other tax jurisdictions. The value of the holder's investment in the CNY Securities may be materially and adversely affected if the holder is required to pay PRC tax with respect to acquiring, holding or disposing of and receiving payments under those CNY Securities.

8.4 *Exchange rates may affect the value of a judgment*

The Securities and any non-contractual obligations arising out of or in connection with them shall be governed by English law. Although an English court has the power to grant judgment in the currency in which a Security is denominated, it may decline to do so in its discretion. If judgment were granted in a currency other than that in which a Security is denominated, the investor will bear the relevant currency risk.

9. *Risk Factors relating to the Relevant Underlying*

9.1 *Securities linked to one or more securities, indices, commodities, commodity indices, funds, currencies, preference shares (including preference shares of Sienna Finance UK Limited) and/or futures contracts*

The Issuers may issue Securities with principal and/or interest determined by reference to a single security, index, exchange traded fund ("**ETF**") or other funds, to baskets of securities, indices, ETFs or other funds, to commodities, commodity indices, currency prices, interest rates, preference shares, to futures contracts or to a constant maturity swap rate (each, a "**Relevant Underlying**"). In addition, the Issuers may issue Securities with principal or interest payable in one or more currencies which may be different from the currency in which the Securities are denominated. Potential investors should be aware that:

- (a) **they may lose all or a substantial portion of their principal or investment, depending on the performance of each Relevant Underlying;**
- (b) the market price of such Securities may be very volatile;
- (c) investors in Securities may receive no interest;
- (d) payment of principal or interest, if applicable, may occur at a different time or in a different currency than expected;
- (e) a Relevant Underlying may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- (f) if a Relevant Underlying is applied to Securities in conjunction with a multiplier greater than one or such Relevant Underlying or Relevant Factor contains some other leverage factor, the effect of changes in the value of the Relevant Underlying on principal or interest payable on such Securities is likely to be magnified; and
- (g) the timing of changes in a Relevant Underlying may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the value of the Relevant Underlying the greater the effect on yield.

9.2 ***Securities linked to one or more Emerging Market Relevant Underlying(s)***

Fluctuations in the trading prices of the emerging market Relevant Underlying(s) will affect the value of Securities linked to such emerging market Relevant Underlying(s). Changes may result over time from the interaction of many factors directly or indirectly affecting economic and political conditions in the related countries or member nations, including economic and political developments in other countries. **Of particular importance to potential risks are (i) rates of inflation; (ii) interest rate levels; (iii) balance of payments; and (iv) the extent of governmental surpluses or deficits in the relevant country.** All of these factors are, in turn, sensitive to the monetary, fiscal and trade policies pursued by the related countries, the governments of the related countries and member nations (if any), and other countries important to international trade and finance. **Government intervention could materially and adversely affect the value of such Securities.** Governments use a variety of techniques, such as intervention by their central bank or imposition of regulatory controls or taxes to affect the trading of the underlying equity. Thus, a special risk in purchasing such Securities is that their trading value and amount payable at maturity could be affected by the actions of governments, fluctuations in response to other market forces and the movement of currencies across borders. Emerging market Relevant Underlyings may be more volatile than the Relevant Underlyings in more developed markets.

9.3 ***Fluctuations in value of a component of the Relevant Underlying***

Fluctuations in the value of any one component of the Relevant Underlying may, where applicable, be offset or intensified by fluctuations in the value of other components, which could adversely affect the value of the Securities, the return on the Securities and the price at which the Securityholder can sell such Securities.

9.4 ***Exchange rate risk on the components***

Where the value of the components is determined in a different currency to the value of the Relevant Underlying, investors may be exposed to exchange rate risk. In the event that exchange rates should become fixed, or in the event of any devaluation or revaluation or imposition of exchange or other regulatory controls or taxes, or in the event of other developments affecting any currency in connection with the components of the Relevant Underlying, the investor will bear those risks, which may adversely impact the return on and value of the Securities.

9.5 ***Market Disruption Event, Disrupted Day, Adjustments and Early Redemption or termination of Securities***

The Determination Agent may determine that a Market Disruption Event or a failure to open of an Exchange or Related Exchange has occurred or exists on a relevant date of valuation, and any

consequential postponement of such date of valuation may have an adverse effect on the value of the Securities.

In addition, the Determination Agent may make adjustments to the Securities to account for relevant adjustments or events in relation to the Relevant Underlying including, but not limited to, determining a successor to the Relevant Underlying or its sponsor (in the case of an Index). Further, in certain circumstances, the Issuer may redeem the Securities early following any such event. In this case, in relation to each Security, the Issuer will pay an amount, if any, determined as provided in the Conditions.

Prospective investors should review the Conditions to ascertain whether and how such provisions apply to the Securities and what constitutes a Market Disruption Event or relevant adjustment or early redemption event.

In making these determinations, adjustments the Determination Agent is entitled to exercise substantial discretion and may be subject to conflicts of interest. The Determination Agent is not required but has the discretion to make adjustments (or to early redeem the Securities) with respect to each and every corporate action.

9.6 *Securities linked to the performance of funds*

The Issuers may issue Securities where the redemption amount or, if applicable, the interest amount in relation to Fund-Linked Securities or the return, in relation to Fund Securities (together with the Fund-Linked Securities, "**Fund-Linked Securities**") is linked to the performance of a unit, share or other interest in a fund (each, a "**Fund Interest**") or a basket of Fund Interests. Such funds may include mutual funds or any other types of fund in any jurisdiction, or any combination of the foregoing. Investments offering direct or indirect exposure to the performance of funds are generally considered to be particularly risky and may bear similar risks, including but not limited to, market risks to a direct investment in funds.

Prospective investors should note that payments on redemption or termination of Fund-Linked Securities at maturity, expiration, early redemption or early termination may be postponed, in accordance with the Conditions, up to any specified long stop date. If the specified long stop date is reached, for the purposes of determining the Redemption Amount or any other such payment amounts, as applicable, the affected fund interests may be deemed to have a zero value. Prospective investors should also be aware that if one or more events occurs in relation to the Fund or any Fund Service Provider, including insolvency of the Fund or Fund Service Provider, then where "Fund Event Unscheduled Redemption" is specified in the applicable Issue Terms, the relevant Issuer may, in its reasonable discretion, determine whether the Fund-Linked Securities will continue or whether they will be redeemed or terminated on a date other than the scheduled Maturity Date. If the Issuer determines that the Fund-Linked Securities will continue, this may result in the substitution of the affected Fund Interest with other Fund Interests with similar characteristics or adjustments to the Conditions of the Securities to account for the occurrence of the relevant event. These actions may have an adverse effect on the return and risk profile of the relevant Fund-Linked Securities, and consequently, the value of such Fund-Linked Securities and if the Fund-Linked Securities are redeemed or terminated early the amount investors receive may be considerably less than their original investment and may even be zero.

Neither the Issuer nor the Determination Agent has any obligation to monitor and/or determine if a Fund Event has occurred at any time or to take any action in respect thereof. In certain circumstances, it may be the case that if action were taken by the Issuer or the Determination Agent at a different time or at all, amounts due to holders or the terms of any other adjustment made to the Securities would have resulted in a higher return to investors.

The risks associated with investing in Fund-Linked Securities are similar to the risks attached to a direct investment in the underlying fund or funds. There are substantial risks in directly or indirectly investing in funds including, without limitation, the risks set out below. Prospective investors should note that references to funds below can refer both to the funds referenced in any Fund-Linked Securities and also to any funds in which any of those funds invests its assets from time to time.

Investment risks that prospective investors should be aware of include the following:

- (1) different types of funds are subject to differing levels of regulatory supervision;
- (2) funds may have varying restrictions on leverage. Leverage presents the potential for a higher rate of return but also increases the volatility of the fund and increases the risk of a total loss of the amount invested;
- (3) funds may have differing investment restrictions and some funds may invest in assets which are illiquid or difficult to transfer. This may have an effect on the realisation of such assets and in turn, the value and performance of the fund. In addition, a fund's assets or investments may be concentrated in a few markets, countries, industries, commodities, sectors of an economy or issuers. If so, adverse movements in a particular market, country, industry, commodity, economy or industry or in the value of the securities of a particular issuer could have a severely negative effect on the value of such a fund. In addition, a fund may use a single advisor or employ a single strategy, which could mean a lack of diversification and higher risk;
- (4) substantial redemptions by holders of Fund Interests in a fund within a short period of time could require the fund's investment manager(s) and/or adviser(s) to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the value of the fund's assets; and
- (5) the performance of a fund will be heavily dependent on the performance of investments selected by its advisers or investment managers and the skill and expertise of such fund service providers in making successful and profitable investment decisions. Such skill and expertise may be concentrated in a number of the adviser's or investment manager's key personnel. Should these key personnel leave or become no longer associated with the fund's adviser or investment manager, the value or profitability of the fund's investments may be adversely affected as a result.

9.7 Risks relating to Index-Linked Securities

(a) Factors affecting the performance of Indices may adversely affect the value of the Securities

Indices are comprised of a synthetic portfolio of shares, bonds, currency exchange rates, commodities, property or other assets, and as such, the performance of an Index is dependent upon the performance of components of such Index, which may include interest rates, currency developments, political factors, market factors such as the general trends in capital markets or broad based indices and (in the case of shares) company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy. If an Index does not perform as expected, this will materially and adversely affect the value of Index-Linked Securities.

(b) Returns on the Securities do not reflect a direct investment in underlying shares or other assets comprising the Index

The return payable on Securities that reference Indices may not reflect the return a potential investor would realise if it actually owned the relevant assets comprising the components of the Index or owned a different form of interest in the relevant Index. For example, if the components of the Indices are shares, Holders will not receive any dividends paid or distributions made on those shares and will not participate in the return on those dividends or distributions unless the relevant Index takes such dividends into account for purposes of calculating the relevant level. Similarly, Holders will not have any voting rights in the underlying shares or any other assets which may comprise the components of the relevant Index. Accordingly, Holders of Securities that reference Indices as Relevant Underlying may receive a lower payment upon redemption/settlement of such Securities than such Holder would have received if it had invested in the components of the Index directly or other comparable instruments linked to the Index.

(c) ***A change in the composition or discontinuance of an Index could adversely affect the market value of the Securities***

The sponsor of any Index can add, delete or substitute the components of such Index or make other methodological changes that could change the level of one or more components. The changing of components of any Index may affect the level of such Index as a newly added component may perform significantly worse or better than the component it replaces, which in turn may affect the payments made by the relevant Issuer to the Holders of the Index-Linked Securities. The sponsor of any such Index may also alter, discontinue or suspend calculation or dissemination of such Index. Except where an Index is a Proprietary Index (see also the risk factor entitled "*Risk Factors—Securities linked to proprietary indices*"), the sponsor of an Index will have no involvement in the offer and sale of the Index-Linked Securities and will have no obligation to any Holder of such Securities. Accordingly, the sponsor of an Index may take any actions in respect of such Index without regard to the interests of the Holder of the Securities, and any of these actions could adversely affect the market value of the Index-Linked Securities.

(d) ***Exposure to Index Modification, Index Cancellation, Index Disruption, Administrator/Benchmark Event and correction of Index levels***

The Determination Agent may in its reasonable discretion make certain determinations and adjustments, to replace the original Relevant Underlying with another and/or to cause early redemption/settlement of the Securities, any of which may be adverse to Holders in connection with Index Modification, Index Cancellation, Index Disruption and Administrator/ Benchmark Event. The Determination Agent may determine that the consequence of any such event is to make adjustments to the amounts payable by the Issuer under the Securities, to make adjustments to the other terms and conditions of the Securities, or to replace such Index with another or to cause early redemption/settlement of the Securities. The Determination Agent may (subject to the terms and conditions of the relevant Securities) also amend the relevant Index level due to corrections in the level reported by the Index Sponsor. The consequences of such amendments could adversely affect the market value of the Index-Linked Securities.

9.8 ***Risks relating to "benchmark" rates***

(a) ***The regulation and reform of "benchmarks" may adversely affect the value of and return on Securities linked to or referencing such "benchmarks"***

Regulation (EU) 2016/1011 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**EU Benchmark Regulation**") is a key element of the ongoing regulatory reform of benchmarks in the EU and has applied since 1 January 2018. The EU Benchmark Regulation has been amended by Regulation (EU) 2019/2089 as regards EU Climate Transition Benchmarks, EU Paris-aligned Benchmarks and sustainability-related disclosures, by Regulation (EU) 2019/2175 and by Regulation (EU) 2021/168, the latter of which introduced new powers for regulators to mandate one or more replacement rates for critical or systemically important benchmarks in certain limited circumstances and a limited exemption for certain foreign exchange rates.

Following the end of the Brexit transitional period at 11.00p.m (London time) on 31 December 2020, the EU Benchmark Regulation in its then current form was saved into UK domestic law subject to a number of modifications (the "**UK Benchmark Regulation**" and, together with the EU Benchmark Regulation, the "**Benchmark Regulations**").

In addition to so-called "critical benchmarks", other interest rates, foreign exchange rates and certain indices will in most cases be within scope of the Benchmark Regulations as "benchmarks" where they are used to determine the amount payable under, or the value of, certain financial instruments (including Securities listed on an EU (in the case of the EU Benchmark Regulation) or UK (in the case of the UK Benchmark Regulation) regulated market or multilateral trading facility ("**MTF**")), and in a number of other circumstances.

Each Benchmark Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU (in the case of the EU Benchmark Regulation) or the UK (in the case of the UK Benchmark Regulation). Among other things, each

Benchmark Regulation (i) requires benchmark administrators to be authorised or registered (or, if not based in the EU (in the case of the EU Benchmark Regulation) or UK (in the case of the UK Benchmark Regulation), to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by supervised entities of "benchmarks" provided by administrators that are not authorised or registered (or, if not based in the EU (in the case of the EU Benchmark Regulation) or UK (in the case of the UK Benchmark Regulation), not deemed equivalent or recognised or endorsed), subject in each case to transitional provisions for benchmarks provided by third-country benchmark administrators.

The Benchmark Regulations could have a material impact on any Securities linked to or referencing a "benchmark". For example:

- a rate or index which is a "benchmark" may not be used in certain ways by a supervised entity if (subject to applicable transitional provisions) its administrator does not obtain authorisation or registration (or, if a non-EU or non-UK (as the case may be) entity, does not satisfy the "equivalence" conditions and is not "recognised" pending an equivalence decision). If the benchmark administrator does not obtain or maintain (as applicable) such authorisation or registration or, if a non-EU entity, "equivalence" is not available and it is not recognised, then the Securities may be redeemed prior to maturity; and
- the methodology or other terms of the "benchmark" could be changed in order to comply with the requirements of the relevant Benchmark Regulation, and such changes could reduce or increase the rate or level or affect the volatility of the published rate or level, and (depending on the terms of the particular Securities) could lead to adjustments to the terms of the Securities as the Determination Agent deems necessary or appropriate.

Any of the international or national reforms, or the general increased regulatory scrutiny of "benchmarks", could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements. Such factors may have the following effects on certain "benchmarks": (i) discourage market participants from continuing to administer or contribute to the "benchmark"; (ii) trigger changes in the rules or methodologies used in the "benchmark"; and/or (iii) lead to the disappearance of the "benchmark". Any of the above changes or any other consequential changes as a result of international or national reforms, or other initiatives or investigations, could have a material adverse effect on the value of and return on any Securities linked to or referencing a "benchmark" and the Determination Agent may be entitled to make corresponding adjustments to the conditions of the Securities.

(b) ***Reform of EURIBOR and Other Interest Rate Index and Equity, Commodity and Foreign Exchange Rate Index "Benchmarks"***

The Euro Interbank Offered Rate ("EURIBOR") and other indices which are deemed "benchmarks" are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause such "benchmarks" to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Securities linked to a "benchmark."

Any of the international, national or other proposals for reform or the general increased regulatory scrutiny of "benchmarks" could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain "benchmarks," trigger changes in the rules or methodologies used in certain "benchmarks" or lead to the disappearance of certain "benchmarks". The disappearance of a "benchmark" or changes in the manner of administration of a "benchmark" could have materially adverse consequences in relation to Securities linked to such "benchmark."

(c) ***Swap Rates may be materially amended or discontinued***

EURIBOR and other "IBORs" are used as the floating leg in the calculation of the EUR Swap Rate and other swap rates (collectively, the "Swap Rates", and each a "Swap Rate") and these may be used as the base rate for CMS Reference Rates, or other Relevant Rates Benchmarks, for the

Securities. Consequently, if EURIBOR and/or other relevant "IBORs" are discontinued, it may not be possible to calculate the relevant Swap Rate(s), and the Swap Rate may be discontinued. The occurrence of these events may trigger the applicable fallbacks that are contained in Conditions 6.20 (*Relevant Rates Benchmark Discontinuance or Prohibition on Use*) to 6.22 (*General Fallback Arrangements*) having the consequences and risks described below.

- (d) ***EURIBOR, CMS Reference Rates, SOFR, SONIA, €STR, SARON, TONA and other benchmark rate discontinuance or prohibition on use may lead to adjustments to the terms of the Securities or an early redemption of the Securities***

Fallback arrangements where (i) the Relevant Rates Benchmark is other than SOFR or a CMS Reference Rate and (ii) the provisions of Condition 6.20 (Relevant Rates Benchmark Discontinuance or Prohibition on Use) are applicable

Where any variable by reference to which interest is payable under the Securities is an index, benchmark, rate or price source which is specified in the Conditions as a "Relevant Rates Benchmark", the administrator or sponsor (or the Relevant Rates Benchmark) may be required to be authorised, registered, recognised, endorsed or otherwise included in an official register in order for the Issuer, the Determination Agent or the Calculation Agent to be permitted to use the Relevant Rates Benchmark and perform their respective obligations under the Securities. If the Determination Agent determines that such a requirement applies to the administrator or sponsor (or the Relevant Rates Benchmark) but it has not been satisfied, and if the applicable Issue Terms specifies that the provisions of Condition 6.20 (*Relevant Rates Benchmark Discontinuance or Prohibition on Use*) are applicable, then an "Administrator/Benchmark Event" will occur.

In order to address the risk of an Administrator/Benchmark Event occurring and the risk of discontinuance of reference rates, the Conditions include certain fallback provisions. These provisions apply to "Relevant Rates Benchmarks" (which will include EURIBOR, SONIA, €STR, SARON and TONA and other similar interbank rates). Unless otherwise specified in the Issue Terms, where ISDA Determination is specified in the applicable Issue Terms as the manner in which the Floating Interest Rate is to be determined, the fallbacks described below will only apply after application of any ISDA Bespoke Fallbacks specified in the relevant Floating Rate Option to apply and the application of such ISDA Bespoke Fallbacks fails to provide a means of determining the relevant Floating Rate. The fallback provisions will be triggered if the Determination Agent determines that (i) the administrator or regulatory supervisor (or other applicable regulatory body) in connection with such Relevant Rates Benchmark announces that the administrator has ceased or will cease permanently or indefinitely to provide such Relevant Rates Benchmark and there is no successor administrator that will continue to provide the Relevant Rates Benchmark, or (ii) unless otherwise specified in the applicable Issue Terms, an Administrator/Benchmark Event occurs in relation to such Relevant Rates Benchmark.

Following the occurrence of any of these events the Determination Agent may replace the Relevant Rates Benchmark with any "Alternative Pre-nominated Reference Rate" which has been specified in the applicable Issue Terms or, if no Alternative Pre-nominated Reference Rate is specified in the applicable Issue Terms, with an alternative rate that is consistent with accepted market practice (the Alternative Pre-nominated Reference Rate or any such other alternative rate, the "**Alternative Rate**"). If an Alternative Rate is used then the Determination Agent may also make other adjustments to the Securities, including to the Alternative Rate and to the Margin, which are consistent with accepted market practice for the use of such Alternative Rate with debt obligations such as the Note. If the Determination Agent is unable to identify an Alternative Rate and determine the necessary adjustments to the terms of the Securities then the Issuer may redeem the Securities. The replacement of the Relevant Rates Benchmark by an Alternative Rate and the making of other adjustments to the Securities and other determinations, decisions or elections that may be made under the terms of the Securities in connection with the replacement of a Relevant Rates Benchmark could adversely affect the value of the Securities, the return on the Securities and the price at which the Securityholder can sell such Securities. Any early redemption of the Securities will result in the Securityholder losing any future return on the Securities and may result in the Securityholder incurring a loss on its investment in the Securities.

Any determination or decision of the Determination Agent described above will be made in the Determination Agent's discretion (in some cases after consultation with the Issuer).

Potential investors in any Securities that reference a Relevant Rates Benchmark (other than SOFR for the purposes of this risk factor (d)) should be aware that (i) the composition and characteristics of the Alternative Rate will not be the same as those of the Relevant Rates Benchmark which it replaces, the Alternative Rate will not be the economic equivalent of the Relevant Rates Benchmark that it replaces, there can be no assurance that the Alternative Rate will perform in the same way as the Relevant Rates Benchmark that it replaces would have at any time and there is no guarantee that the Alternative Rate will be a comparable substitute for the Relevant Rates Benchmark which it replaces, (each of which means that the replacement of the Relevant Rates Benchmark by the Alternative Rate could adversely affect the value of the Securities, the return on the Securities and the price at which the Securityholder can sell such Securities), (ii) any failure of the Alternative Rate to gain market acceptance could adversely affect the Securities, (iii) the Alternative Rate may have a very limited history and the future performance of the Alternative Rate cannot be predicted based on historical performance, (iv) the secondary trading market for Securities linked to the Alternative Rate may be limited and (v) the administrator of the Alternative Rate may make changes that could change the value of the Alternative Rate or discontinue the Alternative Rate and has no obligation to consider the Securityholder's interests in doing so.

Fallback arrangements where the Relevant Rates Benchmark is SOFR: If SOFR is discontinued, any Floating Rate Securities referencing SOFR will bear interest by reference to a different base rate, which could adversely affect the value of the Securities, the return on the Securities and the price at which the Securityholder can sell such Securities; there is no guarantee that any Benchmark Replacement will be a comparable substitute for SOFR.

If the Issuer or its designee determines that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred in respect of SOFR (in the case of Securities referencing SOFR), then the interest rate on the Securities will no longer be determined by reference to SOFR, but instead will be determined by reference to a different base rate, which will be a different benchmark than SOFR, plus a spread adjustment, which is referred to as a "Benchmark Replacement," as further described in the relevant terms and conditions.

If a particular Benchmark Replacement or Benchmark Replacement Adjustment cannot be determined, then the next-available Benchmark Replacement or Benchmark Replacement Adjustment will apply. These replacement rates and adjustments may be selected, recommended or formulated by (i) the Relevant Governmental Body, (ii) ISDA or (iii) in certain circumstances, the Issuer or its designee. In addition, the terms of the Securities expressly authorise the Issuer or its designee to make Benchmark Replacement Conforming Changes with respect to, among other things, changes to the definition of "interest period," timing and frequency of determining rates and making payments of interest and other administrative matters. The determination of a Benchmark Replacement, the calculation of the interest rate on the Securities by reference to a Benchmark Replacement (including the application of a Benchmark Replacement Adjustment), any implementation of Benchmark Replacement Conforming Changes and any other determinations, decisions or elections that may be made under the terms of the Securities in connection with a Benchmark Transition Event could adversely affect the value of the Securities, the return on the Securities and the price at which the Securityholder can sell such Securities.

Any determination, decision or election described above will be made in the Issuer's or its designee's sole discretion.

Potential investors in any Securities that reference SOFR should be aware that (i) the composition and characteristics of the Benchmark Replacement will not be the same as those of SOFR, the Benchmark Replacement will not be the economic equivalent of SOFR, there can be no assurance that the Benchmark Replacement will perform in the same way as SOFR would have at any time and there is no guarantee that the Benchmark Replacement will be a comparable substitute for SOFR (each of which means that a Benchmark Transition Event could adversely affect the value of the Securities, the return on the Securities and the price at which the Securityholder can sell such Securities), (ii) any failure of the Benchmark Replacement to gain market acceptance could adversely affect the Securities, (iii) the Benchmark Replacement may have a very limited history and the future performance of the Benchmark Replacement cannot be predicted based on historical performance, (iv) the secondary trading market for Securities linked to the Benchmark Replacement may be limited and (v) the administrator of the Benchmark Replacement may make

changes that could change the value of the Benchmark Replacement or discontinue the Benchmark Replacement and has no obligation to consider the Securityholder's interests in doing so.

See also the risk factors entitled "*Risk Factors — Risk Factors Relating to the Relevant Underlying — Risks relating to "benchmark rates" — EURIBOR, CMS Reference Rates, SOFR, SONIA, €STR, SARON, TONA and other benchmark rate discontinuance or prohibition on use may lead to adjustments to the terms of the Securities or an early redemption of the Securities*" above.

Fallback arrangements where the Relevant Rates Benchmark is a CMS Reference Rate: If the CMS Reference Rate is discontinued, any Floating Rate Securities referencing that CMS Reference Rate will bear interest by reference to a different base rate, which could adversely affect the value of the Securities, the return on the Securities and the price at which the Securityholder can sell such Securities; there is no guarantee that any Benchmark Replacement will be a comparable substitute for the current CMS Reference Rate

If the Issue Terms specify that the provisions of Condition 6.20 (*Relevant Rates Benchmark Discontinuance or Prohibition on Use*) are not applicable to the Securities and an Index Cessation Event and its related Index Cessation Effective Date (as each term is defined in Condition 6.21 (*CMS Reference Rate - Effect of Index Cessation Event*)) have occurred with respect to the applicable tenor of the CMS Reference Rate, then the interest rate on the Securities will no longer be determined by reference to the CMS Reference Rate. Instead, the interest rate will be determined by reference to a different base rate, which will be a different benchmark than the initial or then current CMS Reference Rate, which is referred to as a "Benchmark Replacement," plus any adjustment spread (which may be positive, negative or zero), all as further described Condition 6.21 (*CMS Reference Rate - Effect of Index Cessation Event*). In such a case, in the first instance, the interest on the Securities will be determined based on any alternative reference rate, index or benchmark that is specified for such purpose in the applicable Issue Terms (an "**Alternative Pre-nominated Reference Rate**"). In the absence of an Alternative Pre-nominated Reference Rate, the interest rate will be determined based on (1) the alternate rate of interest that has been selected or recommended by the relevant governmental body or agency with jurisdiction over the then current CMS Reference Rate for the applicable index maturity, or (2) if no such rate of interest has been selected or recommended by such a governmental body or agency, the alternate rate of interest that has been selected by the Determination Agent as the replacement for the then-current CMS Reference Rate for the applicable index maturity giving due consideration to any industry-accepted rate of interest as a replacement for the then-current CMS Reference Rate for floating rate notes denominated in the Index Currency at such time, including any alternate rate of interest recommended by the International Swaps and Derivatives Association, Inc. or any successor thereto. There can be no assurance that an alternate rate of interest to the CMS Reference Rate will be selected or recommended by a governmental body or agency with the consequence that the replacement rate will be selected by the Determination Agent.

In addition, the terms of the Securities expressly authorise the Determination Agent or its designee to make Benchmark Replacement Conforming Changes with respect to, among other things, changes to the definition of "interest period," timing and frequency of determining rates and making payments of interest and other administrative matters. The determination of a Benchmark Replacement, the calculation of the interest rate or other payment in respect of the Securities by reference to a Benchmark Replacement (including the determination by the Determination Agent of any "adjustment spread" that will be added or subtracted from the Benchmark Replacement), any implementation of Benchmark Replacement Conforming Changes and any other determinations, decisions, selections or elections that may be made under the terms of the Securities in connection with a Benchmark Transition Event could adversely affect the value of the Securities, the return on the Securities and the price at which the Securityholder can sell such Securities.

Potential investors in any Securities that reference one or more CMS Reference Rates should be aware that (i) the composition and characteristics of the Benchmark Replacement will not be the same as those of the initial or then current CMS Reference Rate, the Benchmark Replacement will not be the economic equivalent of the initial or then current CMS Reference Rate, there can be no assurance that the Benchmark Replacement will perform in the same way as the initial or then current CMS Reference Rate would have at any time and there is no guarantee that the Benchmark Replacement will be a comparable substitute for the initial or then current CMS Reference Rate

(each of which means that an Index Cessation Event could adversely affect the value of the Securities, the return on the Securities and the price at which the Securityholder can sell such Securities), (ii) any failure of the Benchmark Replacement to gain market acceptance could adversely affect the Securities, (iii) the Benchmark Replacement may have a very limited history and the future performance of the Benchmark Replacement cannot be predicted based on historical performance, (iv) the secondary trading market for Securities linked to the Benchmark Replacement may be limited and (v) the administrator of the Benchmark Replacement may make changes that could change the value of the Benchmark Replacement or discontinue the Benchmark Replacement and has no obligation to consider the Securityholder's interests in doing so. If the implementation of any Benchmark Replacement or Benchmark Replacement Conforming Changes results in a calculation of the CMS Reference Rate that is not consistent with market practice as determined by the Determination Agent, the Issuer may, in its reasonable discretion, redeem the Securities as of any later date.

Any determination, decision, selection or election described above that may be made by the Issuer, the Determination Agent or their respective designees will be made in such person's sole discretion.

See also the risk factors entitled "*Risk Factors — Risk Factors Relating to the Relevant Underlying — Risks relating to "benchmark rates" — EURIBOR, CMS Reference Rates, SOFR, SONIA, €STR, SARON, TONA and other benchmark rate discontinuance or prohibition on use may lead to adjustments to the terms of the Securities or an early redemption of the Securities*" above.

Fallback arrangements - general

The application of any of these fallbacks may adversely affect the value of the Securityholder's investment in the Securities.

If (a) none of the fallbacks described above in (1) "*Fallback arrangements where (i) the Relevant Rates Benchmark is other than SOFR or a CMS Reference Rate and (ii) the provisions of Condition 6.20 (Relevant Rates Benchmark Discontinuance or Prohibition on Use) are applicable*" or (2) "*Fallback arrangements where the Relevant Rates Benchmark is SOFR: If SOFR is discontinued, any Floating Rate Securities referencing SOFR will bear interest by reference to a different base rate, which could adversely affect the value of the Securities, the return on the Securities and the price at which the Securityholder can sell such Securities; there is no guarantee that any Benchmark Replacement will be a comparable substitute for SOFR*" or (3) "*Fallback arrangements where the Relevant Rates Benchmark is a CMS Reference Rate: If the CMS Reference Rate is discontinued, any Floating Rate Securities referencing that CMS Reference Rate will bear interest by reference to a different base rate, which could adversely affect the value of the Securities, the return on the Securities and the price at which the Securityholder can sell such Securities; there is no guarantee that any Benchmark Replacement will be a comparable substitute for the current CMS Reference Rate*" applies, and (b) EURIBOR, SONIA, €STR, SARON or TONA has been permanently discontinued, the Determination Agent will use, as a substitute for EURIBOR, SONIA, €STR, SARON or TONA (as the case may be), and for each future Interest Determination Date, the alternative reference rate selected by the central bank, reserve bank, monetary authority or any similar institution (including any committee or working group thereof) in the jurisdiction of the applicable index currency that is consistent with accepted market practice. The Determination Agent will also make other adjustments to the Securities, including to the new rate and to the Margin or Spread, which are consistent with accepted market practice for the use of such alternative rate for debt obligations such as the Securities. However, in the case of EURIBOR only, if the Determination Agent determines that no such alternative rate exists on the relevant date, it will make a determination of an alternative rate as a substitute for EURIBOR, for debt obligations such as the Securities, as well as other adjustments to the Securities, including to the new rate and to the Margin or Spread, that is consistent with accepted market practice.

Unless otherwise specified in the Issue Terms, where ISDA Determination is specified in the applicable Issue Terms as the manner in which the Floating Interest Rate is to be determined, the fallbacks described above will only apply after application of any ISDA Bespoke Fallbacks specified in the relevant Floating Rate Option to apply and the application of such ISDA Bespoke Fallbacks fails to provide a means of determining the relevant Floating Rate.

The replacement of EURIBOR, SONIA, €STR, SARON or TONA by an alternative rate and the making of other adjustments to the Securities and other determinations, decisions or elections that may be made under the terms of the Securities in connection with the replacement of EURIBOR, SONIA, €STR, SARON or TONA could adversely affect the value of the Securities, the return on the Securities and the price at which the Securityholder can sell such Securities.

Any determination or decision described above will be made in the Determination Agent's discretion (after consultation with the Issuer).

Potential investors in any Securities that reference EURIBOR, SONIA, €STR, SARON or TONA should be aware that (i) the composition and characteristics of the alternative rate will not be the same as those of the Relevant Rates Benchmark which it replaces, the alternative rate will not be the economic equivalent of the Relevant Rates Benchmark that it replaces, there can be no assurance that the alternative rate will perform in the same way as the Relevant Rates Benchmark that it replaces would have at any time and there is no guarantee that the alternative rate will be a comparable substitute for the Relevant Rates Benchmark which it replaces, (each of which means that the replacement of the Relevant Rates Benchmark by the alternative rate could adversely affect the value of the Securities, the return on the Securities and the price at which the Securityholder can sell such Securities), (ii) any failure of the alternative rate to gain market acceptance could adversely affect the Securities, (iii) the alternative rate may have a very limited history and the future performance of the alternative rate cannot be predicted based on historical performance, (iv) the secondary trading market for Securities linked to the alternative rate may be limited and (v) the administrator of the alternative rate may make changes that could change the value of the alternative rate or discontinue the alternative rate and has no obligation to consider the Securityholder's interests in doing so.

(e) ***ISDA Determination and Fallbacks***

In the case where ISDA Determination is specified in the applicable Issue Terms as the manner in which the Floating Interest Rate is to be determined, and the application of any ISDA Bespoke Fallbacks specified in the relevant Floating Rate Option results in a replacement of, modification to, or change in the method of calculating, the Floating Rate (or the index, benchmark or other price source that is referred to in the Floating Rate Option), the Determination Agent may, after consultation with the Issuer, determine any adjustments to the Floating Rate and the Margin (including any adjustment spread) as well as the applicable Business Day Convention, Interest Determination Dates (or any other rate fixing dates) and related provisions and definitions of the Securities, in each case that are consistent with accepted market practice for the use of such replacement or modified Floating Rate for debt obligations such as the Securities. The making of such adjustments to the Securities and other determinations could adversely affect the value of the Securities, the return on the Securities and the price at which the Securityholder can sell such Securities.

(f) ***Specific risks relating to Securities referencing SOFR, SONIA, €STR, SARON or TONA***

The following sets out a number of additional risks specific to Securities that reference SOFR, SONIA, €STR, SARON or TONA (each of which is referred to as a (nearly) risk free rate or an "RFR").

Certain RFRs have limited histories; the future performance of SOFR or SONIA cannot be predicted based on historical performance.

The publication of €STR began on 2 October 2019 and publication of SOFR began on 3 April 2018 and these RFRs therefore have very limited histories. The publication of SONIA on the basis of its present methodology began on 24 April 2018. The publication of SARON began on 25 August 2009. In addition, the future performance of RFRs cannot be predicted based on the limited historical performance. The level of an RFR during the term of the Securities may bear little or no relation to its historical level. Prior observed patterns, if any, in the behaviour of market variables and their relation to an RFR, such as correlations, may change in the future. In the case of SOFR, while some pre-publication historical data have been released by the Federal Reserve Bank of New York (the "**New York Federal Reserve**"), such analysis inherently involves assumptions, estimates and approximations. The future performance of an RFR is impossible to predict and

therefore no future performance of an RFR or the Securities may be inferred from any of the historical performance or historical simulations. Hypothetical or historical performance data are not indicative of, and have no bearing on, the potential performance of an RFR or the Securities. Changes in the levels of the relevant RFR referenced by the Securities will affect the return on the Securities and the trading price of such Securities, but it is impossible to predict whether such levels will rise or fall. There can be no assurance that the relevant RFR referenced by the Securities will be positive.

The composition and characteristics of an RFR are not the same as those of LIBOR and there is no guarantee that an RFR is a comparable substitute for LIBOR.

In December 2016, the Japanese Study Group on Risk-Free Reference Rates announced TONA as its preferred risk free rate for Japanese yen. In April 2017, the Working Group on Sterling Risk-Free Reference Rates announced SONIA as its preferred risk free rate for sterling. In June 2017, the ARRC announced SOFR as its recommended alternative to U.S. dollar LIBOR. In October 2017, the Swiss National Working Group on Swiss Franc Reference Rates recommended SARON as the alternative to Swiss franc LIBOR. In September 2018, the Working Group on euro risk free rates recommended €STR as the euro risk free rate. However, the composition and characteristics of each of these RFRs are not the same as those of LIBOR.

SOFR is a broad Treasury repo financing rate that represents overnight secured funding transactions. SARON represents the overnight interest rate of the secured money market for Swiss francs. This means that each of SOFR and SARON is fundamentally different from LIBOR for two key reasons. First, each of SOFR and SARON is a secured rate, while LIBOR is an unsecured rate. Second, each of SOFR and SARON is an overnight rate, while LIBOR represents interbank funding over different maturities.

SONIA is a measure of the rate at which interest is paid on sterling short-term wholesale funds in circumstances where credit, liquidity and other risks are minimal. €STR is a rate which reflects the wholesale euro unsecured overnight borrowing costs of euro area banks. TONA represents the weighted average of call rates for uncollateralised overnight transactions in Japanese yen. While SONIA, €STR, TONA and LIBOR are all unsecured rates, SONIA, €STR and TONA are solely an overnight rates unlike LIBOR which represents interbank funding over different maturities.

As a result, there can be no assurance that an RFR will perform in the same way as LIBOR would have at any time, including, without limitation, as a result of changes in interest and yield rates in the market, market volatility or global, national or regional economic, financial, political, regulatory, judicial or other events. For example, since publication of SOFR began on April 3, 2018, daily changes in SOFR have, on occasion, been more volatile than daily changes in comparable benchmark or other market rates. For additional information regarding SOFR, see "Secured Overnight Financing Rate" above.

The secondary trading market for Securities linked to an RFR may be limited.

Since some of the RFRs are relatively new market rates or have only recently been adopted as a benchmark rate for bonds, the trading market in debt securities such as the Securities may not develop or may not be very liquid. Market terms for debt securities linked to an RFR (such as the Securities) may evolve over time and, as a result, trading prices of the Securities may be lower than those of later-issued debt securities that are linked to the same RFR. Similarly, if an RFR does not prove to be widely used in debt securities similar to the Securities, the trading price of the Securities may be lower than that of debt securities linked to rates that are more widely used. Investors in the Securities may not be able to sell such Securities at all or may not be able to sell such Securities at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. Further, investors wishing to sell the Securities in the secondary market will have to make assumptions as to the future performance of the relevant RFR. As a result, investors may suffer from increased pricing volatility and market risk.

The administrator of the relevant RFR may make changes that could change the value of the benchmark or discontinue the benchmark and has no obligation to consider Securityholders' interests in doing so.

The New York Federal Reserve (or a successor), as administrator of SOFR, the Bank of England (or a successor), as administrator of SONIA, the European Central Bank (or a successor) as administrator of €STR, SIX Index AG (or a successor) as administrator of SARON or the Bank of Japan (or a successor) as administrator of TONA may make methodological or other changes that could change the value of the relevant RFR, including changes related to the method by which the relevant rate is calculated, eligibility criteria applicable to the transactions used to calculate the relevant rate, or timing related to the publication of the relevant rate. In addition, the administrator may alter, discontinue or suspend calculation or dissemination of the relevant RFR (in which case a fallback method of determining the interest rate on the Securities will apply). The administrator has no obligation to consider Securityholders' interests in calculating, adjusting, converting, revising or discontinuing the relevant rate and any such calculations, adjustments, conversion, revision or discontinuation could adversely affect the return on the Securities, the value of the Securities and the price at which the Securityholder can sell such Securities.

The interest rate on the Securities is based on a daily compounded RFR, which is relatively new in the marketplace; different conventions exist for calculating interest on RFR-linked Securities

For each Interest Period for Securities linked to an RFR, the interest rate on the Securities is based on a daily compounded RFR calculated using the specific formula specified in the Conditions and the Issue Terms, or the specified ISDA Rate not the RFR published on or in respect of a particular date during such Interest Period, or an average of the relevant RFRs during such period. For this and other reasons, the interest rate on the Securities during any Interest Period will not be the same as the interest rate on other investments linked to the same RFR that use an alternative basis to determine the applicable interest rate. Further, unless in the case of an ISDA Rate "Daily Floored Rate" is specified as applicable in the relevant Issue Terms and the Daily Floored Rate is zero or above, if the relevant RFR in respect of a particular date during an Interest Period is negative, the portion of the accrued compounded interest compounding factor specifically attributable to such date will be less than one, resulting in a reduction to the accrued interest compounding factor used to calculate the interest payable on the Securities on the Interest Payment Date for such Interest Period.

Limited market precedent exists for securities that use SOFR and certain other RFRs as the interest rate and, in addition, for each RFR, different market conventions exist for calculating interest on debt securities. Accordingly, the specific formula for the daily compounded RFR used in the Securities may not be widely adopted by other market participants, if at all. If the market adopts a different convention for calculating interest, that would likely adversely affect the market value of such Securities.

The amount of interest payable with respect to each Interest Period will be determined near the end of the Interest Period.

The amount of interest payable with respect to such Interest Period will be determined on a date near the end of such Interest Period, Securityholders will not know the amount of interest payable with respect to each such Interest Period until shortly prior to the related Interest Payment Date and it may be difficult for Securityholders to reliably estimate the amount of interest that will be payable on each such Interest Payment Date.

The Issuer, its subsidiaries or affiliates may publish research that could affect the market value of the Securities. They also may hedge the Issuer's obligations under such Securities.

The Issuer or one or more of its affiliates may, at present or in the future, publish research reports with respect to movements in interest rates generally, the LIBOR transition or any of the RFRs specifically. This research is modified from time to time without notice and may express opinions or provide recommendations that are inconsistent with purchasing or holding the Securities. Any of these activities may affect the market value of such Securities. In addition, the issuer's subsidiaries may hedge the Issuer's obligations under the Securities and they may realize a profit from that hedging activity even if investors do not receive a favourable investment return under the terms of such Securities or in any secondary market transaction.

Reliance on third parties

Each RFR is published and calculated by third parties based on data received from other sources and none of the Issuer, the Determination Agent or the Calculation Agent has any control over the determinations, calculations or publications of any such third parties.

Market Adoption

The market or a significant part thereof may adopt an application of the relevant RFR (one using a different convention to calculating interest including using an RFR screen based rate) that differs significantly from that set out in the Conditions and used in relation to Securities that reference a risk-free rate issued under this Base Prospectus and this may adversely affect the value of the Securities.

Potential investors in the Securities should carefully consider how any mismatch between the adoption of such reference rates in the bond, loan and derivatives markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of any Securities.

Where "Payment Delay" applies, in determining the compounded RFR for the final Interest Period, the level of the relevant RFR for any day from and including the relevant SOFR/SONIA/€STR/SARON/TONA Rate Cut-Off Date to but excluding the Maturity Date or redemption date, as applicable, will be the level of the relevant RFR in respect of such Rate Cut-off Date.

Where "Payment Delay" applies, for the final Interest Period, because the level of the relevant RFR for any day from and including the SOFR/SONIA/€STR/SARON/TONA Rate Cut-off Date to but excluding the Maturity Date or redemption date, as applicable, will be the level of the relevant RFR in respect of such Rate Cut-Off Date, Securityholders will not receive the benefit of any increase in the level in respect of the relevant RFR beyond the level for such date in connection with the determination of the interest payable with respect to such Interest Period, which could adversely impact the amount of interest payable with respect to that Interest Period.

(g) ***Additional Risk relating to SOFR-linked Securities***

Any failure of SOFR to gain market acceptance could adversely affect Securities linked to SOFR.

SOFR may fail to gain market acceptance. SOFR was developed for use in certain U.S. dollar derivatives and other financial contracts as an alternative to U.S. dollar LIBOR in part because it is considered a good representation of general funding conditions in the overnight Treasury repo market. However, as a rate based on transactions secured by U.S. Treasury securities, it does not measure bank-specific credit risk and, as a result, is less likely to correlate with the unsecured short-term funding costs of banks. This may mean that market participants would not consider SOFR a suitable substitute or successor for all of the purposes for which LIBOR historically has been used (including, without limitation, as a representation of the unsecured short-term funding costs of banks), which may, in turn, lessen market acceptance of SOFR. Any failure of SOFR to gain market acceptance could adversely affect the return on the Securities and the price at which the Securityholder can sell such Securities.

(h) ***Securities linked to proprietary indices***

The Issuers may issue Securities with principal and/or interest determined by reference to a "proprietary index", where Morgan Stanley or a Morgan Stanley affiliate is the owner and sponsor of such an index.

A proprietary index is a notional, rules-based index comprising its component(s) and the level of such index may go down as well as up, depending on the performance of the components and their effect on the strategy that the proprietary index has been developed to reflect. There can be no assurance as to the future performance of any such index, and the index level on any day may not reflect either its past performance or its future performance. The strategy that any such index has been developed to reflect may not be successful, and other strategies using the components and alternative indices and benchmarks may perform better than such index. Any past performance of a proprietary index (actual or simulated) is not an indication of its future performance.

Prospective investors in any Securities linked to a proprietary index should review, in addition to the following Risk Factors and any bespoke risk factors contained in the relevant Index Rules.

An investor in Securities linked to a proprietary index will have no rights in respect of the proprietary index or any components of such proprietary index

The investment exposure provided by any proprietary index is notional or synthetic. Investors in Securities will (i) have no legal or beneficial ownership interest in any proprietary index or any component comprising a proprietary index (or components thereof) and therefore have no recourse to any such component; (ii) have no right to take delivery of any such component; (iii) have no rights generally with respect to any such component (where in relation to voting or otherwise); and (iv) have no right to receive dividends, distributions or other payments with respect to any such component.

A proprietary index may have a limited operating history and may perform in unanticipated ways

A proprietary index may be a relatively new strategy. Where limited historical performance data exists with respect to the components referenced by such index and/or the index itself, any investment in respect of which returns are linked to the performance of such an index or its components may involve greater risk than an investment linked to returns generated by an investment strategy with a proven track record. While a longer history of actual performance could provide more reliable information on which to assess the validity of a strategy that a proprietary index is intended to reflect and on which to base an investment decision, the fact that such an index and/or the relevant components are relatively new would not allow this. There can be no guarantee or assurance that a proprietary index or its components will operate in a manner consistent with the data available.

(i) ***Securities linked to proprietary indices within the MS Dynamic Fund Allocation Index Family***

If any of "MS Dynamic Fund Allocation Index", "MS Dynamic Fund Allocation Series 2 Index", "MS Dynamic Fund Allocation Series 3 Index" or "MS Dynamic Fund Allocation Series 4 Index" is specified in the applicable Issue Terms as the applicable Index, prospective investors in such Securities should also review, in addition to the general Risk Factors above, the following risk factors in respect of such Index. For the purposes of such risk factors, any capitalised terms not defined therein shall have the meanings given to them in "*The MS Dynamic Fund Allocation Index Family*". Prospective investors should also refer to "*The MS Dynamic Fund Allocation Index Family*".

The Index performance is subject to fluctuations

The performance of the Index is dependent on many factors, including the general trends of the markets for the underlying Index Components. The Index performance can go up as well as down, and can register significant losses, including catastrophic losses, if the Index falls to zero. Any past performance recorded by the Index is not an indication of its future performance. The performance of the Index may adversely affect the value of the Securities.

The Index is not an investment in the underlying Index Components

The Index is designed to reflect the value of the underlying Index Components, however the formulas embedded in the Index means that any return might be higher or lower than the performance of the individual underlying Index Components.

The Index Sponsor could make adjustments to the calculation methodology of the Index in certain circumstances

The Index Sponsor may make adjustments to the calculation of the Index in circumstances where a disruption event has occurred which prevents the determination of the value of underlying Index Components or that would lead to an erroneous calculation of the Index. In such circumstances the Index Sponsor may make a determination which could include, but is not limited to: adjusting the Index by determining the level of the underlying Index Components, or replacing or removing the underlying Index Components, or adjusting the weighting of the underlying Index Components, or postponing the publication of the Index Level or, otherwise, suspending or cancelling the Index.

All such decisions may affect the value of the Index level and will be taken on a discretionary basis, taking into account the objective to ensure that the Index reflects the underlying interest it is designed to capture.

No active management

The Index is quantitative and rules-based and is not managed actively by Morgan Stanley or its affiliates (the "**Morgan Stanley Group**") or any third party. Consequently, the Morgan Stanley Group does not have discretion to change the Rules if there are significant changes in the volatility that cause the Index to decline significantly or underperform. In addition, the Morgan Stanley Group does not act as a fiduciary for, nor an advisor to, any investor in respect of the Index.

No fiduciary duties

The Index Sponsor and the Index Calculation Agent can, in certain circumstances, exercise discretion. In exercising such discretions, the Index Sponsor and the Index Calculation Agent have no obligations to consider the interests of any other person including (but not limited to) counterparties to transactions linked to the performance of the Index.

Reliance on Information

Calculations related to the Index rely on information obtained from various publicly available sources. When using such information, the Morgan Stanley Group and the Calculation Agent have relied on and will rely on these sources. In addition, the Morgan Stanley Group and the Calculation Agent have not verified independently and will not verify independently the information extracted from these sources.

Simulated calculations

The calculation of the Index for the period from the Index Base Date to the Index Live Date has been simulated and does not represent actual performance. All prospective investors should be aware that a retrospective calculation of an Index means that no actual investment which allowed a tracking of the performance of the Index existed at any time. The performance of the Index during such period has been calculated retrospectively by the Index Calculation Agent on a hypothetical basis and should not be considered as an indicator of future performance.

Tax Considerations

In 2015, the U.S. Treasury Department and the IRS released a notice designating certain "basket contracts" and substantially similar transactions as "transactions of interest," subject to information reporting requirements as "reportable transactions" under Section 6011 of the Code. The scope of this notice is unclear, and it is therefore possible that the instruments linked to the Index could be subject to the notice. In that case, holders of such instruments that are otherwise required to file U.S. tax returns would also be required to report certain information to the IRS, as set forth in the applicable Treasury regulations regarding "reportable transactions". If the IRS determines such a transaction is a "transaction of interest" and you fail to disclose the transaction, you could be subject to penalties. Holders should consult their tax advisers regarding the potential application of this notice to instruments linked to the Index. In addition, the Issuer may be required to report these transactions directly to the IRS.

Index specific risk considerations

The Index performance is subject to market risk and to significant declines including catastrophic loss (i.e. Index falls to or below zero).

The Index ranks the underlying Index Components according to their historical performance. The historical window used may not be optimal and a different window may give higher returns.

The weight applied to each underlying contract for each underlying Index Component in each asset class is determined by a rules based algorithm. The correlation between the Index and the underlying Index Components, and the correlation between the underlying Index Components, may vary over time and may increase or decrease by reference to a variety of factors which may

include macroeconomic factors and speculation. The weights applied may not be the optimal weights.

The Index is quantitative and rules-based and can produce both positive and negative returns. The methodology provides long exposure to underlying Index Components with their position selected based on their historical performance. However, there can be no assurances that the methodology can yield positive performance in all economic conditions. In certain conditions such as those detailed above, the Index may return a significant negative performance and may even fall to or below zero.

The sum of the weights in the Index Components can be greater or less than 100% but no greater than 200% in order to target volatility effectively. When the weight is greater than 100% the leveraged nature of the Index will magnify the adverse impact of adverse performance in the Index Components.

The actual volatility of the Index can be higher or lower than the Target Volatility of 4%.

The Index provides exposure to a basket of Funds. Notwithstanding the fact that the methodology is designed to rebalance the exposure to each Fund based of such Fund's Performance and Realised Volatility, prospective investors should be aware that each Fund has a different level of embedded risk. They should therefore familiarise themselves with the Fund Documents and the synthetic risk reward indicator which each Fund Provider calculates and publishes for the Fund, in accordance with Commission Regulation (EU) 583/2010 implementing UCITS Directive with regards to the Key Investor Information Document (KIID).

Fees

Funding Costs associated with the Fund Index Components and an Index Fee are debited from the Index. Such costs and fees will reduce the performance of the Index. The Index Fee will be specified in the applicable Issue Terms in respect of the Securities.

Considerations in respect of funds

The performance of a fund will be heavily dependent on the performance of investments selected by its advisers or investment managers and the skill and expertise of such fund service providers in making successful and profitable investment decisions. Such skill and expertise may be concentrated in a number of the adviser's or investment manager's key personnel. Should these key personnel leave or become no longer associated with the fund's adviser or investment manager, the value or profitability of the fund's investments may be adversely affected as a result.

Funds may have differing investment restrictions and some funds may invest in assets which are illiquid or difficult to transfer. This may have an effect on the realisation of such assets and in turn, the value and performance of the fund. In addition, a fund's assets or investments may be concentrated in a few markets, countries, industries, commodities, sectors of an economy or issuers. If so, adverse movements in a particular market, country, industry, commodity, economy or industry or in the value of the securities of a particular issuer could have a severely negative effect on the value of such a fund. In addition, a fund may use a single advisor or employ a single strategy, which could mean a lack of diversification and higher risk.

Funds may have varying restrictions on leverage. Leverage presents the potential for a higher rate of return but also increases the volatility of the fund and increases the risk of a total loss of the amount invested.

Substantial redemptions by holders of fund units in a fund within a short period of time could require the fund's investment manager(s) and/or adviser(s) to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the value of the fund's assets.

Further information in relation to the risks of an investment in the Component (and its constituent asset(s)) are set out in the Fund Documents. The Fund Documents and the websites detailed in the table below do not form part of this Base Prospectus. As of the Initial Publication of this document, relevant Fund Documents are publicly provided for Each Index component by the fund's investment manager(s) and/or adviser(s) as detailed in the table below:

9.9 ***Risks relating to Share-Linked Securities***

(a) ***Factors affecting the performance of Shares may adversely affect the value of the Share-Linked Securities***

The performance of Shares is dependent upon macroeconomic factors, such as interest and price levels on the capital markets, currency developments, political factors and company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy. These factors are not within the relevant Issuer, Morgan Stanley or any of Morgan Stanley's affiliates' control and may result in a decline in the value of the Securities.

(b) ***Holders have no claim against the Share Issuer(s) or recourse to the Shares***

Share-Linked Securities do not represent a claim against or an investment in any Share Issuer(s) and investors will not have any right of recourse under the Share-Linked Securities to any such company or the Shares. Share-Linked Securities are not in any way sponsored, endorsed or promoted by any Share Issuer(s) and such companies have no obligation to take into account the consequences of their actions for any Holders. Accordingly, the Share Issuer(s) may take any actions in respect of such Share without regard to the interests of the investors in the Share-Linked

Securities, and any of these actions could adversely affect the market value of the Share-Linked Securities.

(c) ***Determinations made by the Issuer and the Determination Agent in respect of Potential Adjustment Events, Merger Events, Tender Offers, De-listing, Nationalisations, Insolvencies and Additional Disruption Events may have an adverse effect on the value of the Share-Linked Securities***

Upon the determination by the Determination Agent, in its reasonable discretion, that a Potential Adjustment Event, Merger Event, Tender Offer, De-listing, Nationalisation, Insolvency or Additional Disruption Event has occurred in relation to an underlying Share or Share Company, the Issuer (in the case of a Merger Event, Tender Offer, De-listing, Nationalisation, Insolvency or an Additional Disruption Event) will, in its reasonable discretion, determine whether the relevant Share-Linked Securities shall continue or shall be redeemed early, any of which determinations may have an adverse effect on the value of the Share-Linked Securities and, in the case of a Potential Adjustment Event, the Determination Agent may, in its reasonable discretion, make certain determinations to account for the occurrence of the relevant event, including to make adjustments to the terms of the Share-Linked Securities. In particular, in the event that the Share-Linked Securities are early settled/redeemed, the amount payable to Holders may be significantly less than the investor's initial investment, and may be as low as zero. If the Issuer determines that the relevant Share-Linked Securities shall be redeemed early, the Issuer shall provide notice of such early redemption to Securityholders a prescribed number of days prior to the date fixed for redemption.

If the Issuer determines that the relevant Share-Linked Securities shall continue following the occurrence of such an event, the Determination Agent may, in its reasonable discretion, make certain determinations to account for the occurrence of the relevant event, including to make adjustments to the terms of the Share-Linked Securities.

Potential Adjustment Events include (a) a sub-division, consolidation or re-classification of the Shares, (b) an extraordinary dividend, (c) a call of the Shares that are not fully paid, (d) a repurchase by the Share Company, or an affiliate thereof, of the Shares, (e) a separation of rights from the Shares or (f) any event having a dilutive or concentrative effect on the value of the Shares. Additional Disruption Events include, if "Supplementary Provisions for Belgian Securities" is specified as not applicable in the applicable Issue Terms, (1) a change in applicable law since the Trade Date that makes it illegal to hold, acquire or dispose of the Shares or more expensive for the relevant Issuer to hedge its obligations under the relevant Share-Linked Securities, (2) an insolvency filing by or on behalf of any issuer of the relevant Share(s), (3) Increased Cost of Hedging and (4) Hedging Disruption or, if "Supplementary Provisions for Belgian Securities" is specified as applicable in the applicable Issue Terms, (1) a change in applicable law since the Trade Date that makes it illegal to hold, acquire or dispose of the Shares, (2) an insolvency filing by or on behalf of any issuer of the relevant Share(s).

9.10 ***Risks relating to Commodity-Linked Securities***

Commodity markets are influenced by, among other things, changing supply and demand relationships, weather, governmental, agricultural, commercial and trade programs and policies designed to influence commodity prices, world political and economic events, changes in interest rates and factors affecting the exchange(s) or quotation system(s) on which any such commodities may be traded.

Where a Security linked to a commodity references a futures contract, this reference should be taken as if the futures contract had the specified commodity as the underlying commodity. Investments in futures and options contracts involve additional risks including, without limitation, leverage (margin is usually a percentage of the face value of the contract and exposure can be nearly unlimited).

A holder of a futures position may find such positions become illiquid because certain commodity exchanges limit fluctuations in certain futures contract prices during a single day by regulations referred to as "daily price fluctuation limits" or "daily limits". Under such daily limits during a single trading day no trades may be executed at prices beyond the daily limits. Once the price of a

contract for a particular future has increased or decreased by an amount equal to the daily limit, positions in the future can neither be taken nor liquidated unless traders are willing to effect trades at or within the limit. This could prevent a holder from promptly liquidating unfavourable positions and subject it to substantial losses. Futures contract prices in various commodities occasionally have exceeded the daily limit for several consecutive days with little or no trading. Similar occurrences could prevent the liquidation of unfavourable positions and subject an investor in a Security linked to such contract prices to substantial losses.

Commodity future prices reflect the expectations of the market players as to the future value of the commodity and may not be consistent with the current prices of the relevant commodity.

9.11 ***Brent Commodity Reference Prices***

If the Commodity Reference Price with respect to a Series of Commodity-Linked Securities a Commodity Reference Price set out under the titles "Oil-Brent" in Section 6 of the Additional Terms and Conditions (*Commodity Reference Price*), the Determination Agent may be permitted to substitute the Commodity Reference Price for another Commodity Reference Price and/or to make certain adjustments to the terms of such Series as it deems appropriate, including to the formula or other provisions for determining the Final Redemption Amount, any Interest Amount and/or the Relevant Underlying Value and any other variable relevant to the exercise, settlement, payment or other terms of the relevant Commodity-Linked Securities. Any such substitution or adjustments may result in Securityholders receiving a lesser amount than they would have received but for such substitution and may adversely affect the value of the Commodity-Linked Securities of the relevant Series.

9.12 ***Risks relating to Currency-Linked Securities***

See 'Risk Factors relating to currencies and exchange rates' above.

9.13 ***Securities linked to Preference Shares***

(a) ***General Risks relating to Securities linked to Preference Shares***

Morgan Stanley, MSBV and MSFL may issue Securities with principal (and interest, if any) determined by reference to the changes in the value of the preference shares ("**Preference Shares**"), which may fluctuate up or down depending on the performance of the relevant underlying asset(s) or basis of reference to which Preference Shares are linked (the "**Preference Share Underlying**") as set out in the terms and conditions of the Preference Shares (the "**Terms of the Preference Shares**"). If, as a result of the performance of the Preference Share Underlying, the performance of the Preference Shares is negative the value of the Preference Share-Linked Securities will be adversely affected. Purchasers of Preference Share-Linked Securities risk losing all or a part of their investment if the value of the Preference Shares falls.

If the Preference Shares incorporate an "underlying determination event" mechanism as described below and the Preference Shares become subject to redemption pursuant thereto, the Maturity Date of the Securities and thereby valuation of the Preference Shares, will be brought forward and fall earlier than would otherwise have been the case.

As set out below, Preference Share-Linked Securities will be subject to early redemption if an Extraordinary Event or, if applicable, an Additional Disruption Event occurs or if an Early Redemption Event occurs. In these circumstances the Issuer may redeem the Securities at the Early Redemption Amount or the Early Share Redemption Security Amount, as applicable. **The Early Redemption Amount or Early Preference Share Redemption Security Amount may be less (and in certain circumstances, significantly less) than investors' initial investment.**

(b) ***Exposure to the Preference Share Underlying***

The Preference Share Underlying may be a specified index or basket of indices, a specified equity or basket of equities, a specified currency or basket of currencies, a specified fund share or unit or basket of fund shares or units or such other underlying instruments, bases of reference or factors as may be determined by the issuer of the relevant Preference Shares (the "**Preference Share Issuer**") and specified in the terms and conditions of the relevant series of Preference Shares.

Consequently potential investors should also consider the risk factors entitled "Securities linked to the performance of funds", "Risks relating to Index-Linked Securities" and "Risks relating to Share-Linked Securities" set out above in respect of the risks involved in investing in Securities (in this case the Preference Shares) linked to certain Relevant Underlying(s).

The Terms of the Preference Shares provide that the Preference Shares will be redeemable on their final redemption date (or otherwise in accordance with the Terms of the Preference Shares). On redemption, the Preference Shares will carry preferred rights to receive an amount calculated by reference to the Preference Share Underlying. The Preference Shares may also incorporate an "underlying determination event" mechanism, which may be triggered by certain annual changes in the value of the Preference Share Underlying. On the occurrence of such underlying determination event, the Preference Shares will cease to be exposed to the Preference Share Underlying and will be redeemed at a redemption amount equal to the issue price multiplied by the relevant percentage specified in the Terms of the Preference Shares for the year in which the underlying determination event has occurred.

Investors should review the Terms of the Preference Shares and consult with their own professional advisers if they consider it necessary.

(c) ***Credit and Fraud Risk of Preference Share Issuer***

Preference Share-Linked Securities are linked to the performance of the relevant Preference Shares. Investors bear the risk of an investment in the Preference Share Issuer. The value of the Preference Share-Linked Securities is dependent on the value of the Preference Shares, which will depend in part on the creditworthiness of Preference Share Issuer, which may vary over the term of the Preference Share-Linked Securities. The Preference Share Issuer is not an operating company. Its sole business activity is the issue of redeemable preference shares. The Preference Share Issuer does not have any trading assets and does not generate any significant net income. As its funds are limited any misappropriation of funds or other fraudulent action by the Preference Share Issuer or person acting on its behalf would have a significant adverse effect on the value of the Preference Shares and will adversely affect the value of the Preference Share-Linked Securities.

(d) ***Determination of Extraordinary Events and Additional Disruption Events***

The Determination Agent may determine the occurrence of a Merger Event, Tender Offer, Insolvency or Additional Disruption Event in relation to the Preference Share-Linked Securities. Upon such determination, the relevant Issuer may, at its option redeem the Preference Share-Linked Securities in whole at the Early Redemption Amount which may be less than the amount invested in the Preference Share-Linked Securities. Securityholders will not benefit from any appreciation of the Preference Shares that may occur following such redemption.

(e) ***No ownership rights***

An investment in Preference Share-Linked Securities is not the same as an investment in the Preference Shares and does not confer any legal or beneficial interest in the Preference Shares or any Preference Share Underlying or any voting rights, right to receive dividends or other rights that a holder of the Preference Shares or any Preference Share Underlying may have. The Preference Share-Linked Securities are unsubordinated and unsecured obligations of the Issuer.

(f) ***Hedging activities of the Issuer and affiliates***

The Issuer or its affiliates may carry out hedging activities related to the Preference Share-Linked Securities, including purchasing the Preference Shares and/or the Preference Share Underlying, but will not be obliged to do so. Certain of the Issuer's affiliates may also purchase and sell the Preference Shares and/or purchase and sell the Preference Share Underlying on a regular basis as part of their securities businesses. Any of these activities could potentially affect the value of the Preference Share Underlying and, accordingly, the value of the Preference Shares and the Preference Share-Linked Securities.

9.14 *Risks Relating to Futures Contract-Linked Securities*

The Issuers may issue Securities where the redemption amount or, if applicable, the interest amount is linked to the performance of a futures contract (a "**Futures Contract**") or a basket of Futures Contracts. The underlying of such Futures Contracts may include equity indices (including equity indices giving exposure to dividends paid by the constituent companies or the volatility of those constituent companies), single stocks, foreign exchange rates, bonds, or other types of underlying asset(s), contracts or property. It is important that an investor in Securities linked to the performance of futures contracts understands the contract specification of the relevant Futures Contract(s), including the applicable underlying(s) and term for which exposure is given.

The risks associated with investing in Futures Contract-Linked Securities are similar to the risks attached to a direct investment in the relevant futures contract(s). There are substantial risks in directly or indirectly investing in futures contracts including, without limitation, the risks set out below.

Investment risks that prospective investors should be aware of include the following:

- (1) The value of the futures contract(s) underlying the Securities may vary over time and may increase or decrease by reference to a variety of factors which include the factors affecting any underlying of the futures contract(s) such as:
 - the expectations of performance in relation to the underlying of the futures contract or the constituent assets of any index or indices underlying the Futures Contract from time to time;
 - in the case of an index underlying the Futures Contract, any changes in the constituents of that index;
 - market interest and yield rates;
 - economic, political, structural supply and demand and macro-economic factors;
 - changes in applicable law and regulation; and
 - in the case of Securities linked to dividend futures contracts (the value of which typically tracks dividends paid by the constituent companies of the underlying equity index during a specified time period), the dividend policy of the relevant constituent companies of the related underlying index and the terms as to which dividends are relevant realised dividends (which often exclude special or extraordinary dividends). Investors should be aware that such constituent companies may pay reduced relevant dividends or no such dividends in respect of the relevant contract period or dividends that may bear no relation to dividends paid during a prior contract period.

In addition, the value of future contract(s) also depends on factors relating to the relevant futures contract itself, such as the time remaining to the final settlement date, and the liquidity of such futures contract(s), the contract specification and the terms of the relevant underlying(s).

- (2) The Securities give rise to obligations of the Issuer and will not give rise to any obligations or rights in respect of the Futures Contract(s) or any underlying(s) of the Futures Contract(s). The return on investment may have been higher if made in the Futures Contract(s) or underlying(s) of the Futures Contract(s) rather than by purchasing the Securities.
- (3) The performance of a similar futures contract or its underlying(s) over a prior contract period will not necessarily be indicative of the performance of the relevant Futures Contract(s) to which the Securities relate.

9.15 ***Risks associated with Relevant Underlying comprised of a Basket***

(a) ***Exposure to performance of Basket and its components***

Where the Securities are linked to or reference a Basket of assets, the investors in such Securities are exposed to the performance of such Basket. The investors will bear the risk of the performance of each of the Basket Components.

(b) ***A high correlation of Basket Components may have a significant effect on amounts payable***

Some Securities are linked to Baskets of Relevant Underlying where the performance of such Relevant Underlying tends to move in the same direction, or correlate, as a result of changes in market conditions, such as a change in interest rates. Correlation of Basket Components indicates the level of interdependence among the individual Basket Components with respect to their performance. If, for example, all of the Basket Components originate from the same sector and the same country, a high positive correlation may generally be assumed. Past rates of correlation may not be determinative of future rates of correlation: investors should be aware that, though Basket Components may not appear to be correlated based on past performance, it may be that they suffer the same adverse performance following a general downturn or other economic or political event. Where the Basket Components are subject to high correlation, any move in the performance of the Basket Components will exaggerate the performance of the Securities.

(c) ***The negative performance of a single Basket Component may outweigh a positive performance of one or more other Basket Components***

Investors in Securities must be aware that even in the case of a positive performance of one or more Basket Components, the performance of the Basket as a whole may be negative if the performance of the other Basket Components is negative to a greater extent, subject to the terms and conditions of the relevant Securities.

(d) ***A small Basket, or an unequally weighted Basket, will generally leave the Basket more vulnerable to changes in the value of any particular Relevant Underlying***

The performance of a Basket that includes a smaller number of Relevant Underlying will generally, subject to the terms and conditions of the relevant Securities, be more affected by changes in the value of any particular Relevant Underlying included therein than a Basket that includes a greater number of Relevant Underlying.

The performance of a Basket that gives greater weight to some Relevant Underlying will generally, subject to the terms and conditions of the relevant Securities, be more affected by changes in the value of any such particular Relevant Underlying included therein than a Basket that gives relatively equal weight to each Relevant Underlying.

(e) ***A change in composition of a Basket may have an adverse effect on Basket performance***

Where the Securities grant the Determination Agent the right, in certain circumstances, to adjust the composition of the Basket, investors should be aware that any replacement Basket Component may perform differently from the original Basket Component, which may have an adverse effect on the performance of the Basket which will in turn have an adverse effect on the value of the Securities.

9.16 ***Effect of the liquidity of the Relevant Underlying on Security pricing***

An Issuer's and/or its Affiliates' hedging costs tend to be higher the less liquidity the Relevant Underlying has or the greater the difference between the "buy" and "sell" prices for the Relevant Underlying or derivatives contracts referenced to the Relevant Underlying. When quoting prices for the Securities, the Issuer and/or its Affiliates will factor in such hedging costs and will pass them on to the Securityholders by incorporating them into the "buy" and "sell" prices. Thus, Securityholders selling their Securities on an exchange or on the over-the-counter market may be doing so at a price that is substantially lower than the actual value of the Securities at the time of sale.

9.17 ***Historical value of the Relevant Underlying***

The historical value (if any) of the Relevant Underlying or the components of the Relevant Underlying does not indicate their future performance. Holders of the Securities should be aware that the Relevant Underlying or the components of the Relevant Underlying may perform differently than they have historically, which could adversely affect the value of the Securities, the return on the Securities and the price at which the Securityholder can sell such Securities.

9.18 ***Investors have no shareholder rights***

As an owner of Securities, investors shall be aware that they will not have voting rights or rights to receive dividends, interest or other distributions, as applicable, or any other rights with respect to any underlying security, preference share, ETF, other fund or index.

9.19 ***Risk associated with estimating the price of the Relevant Underlying if its domestic market is closed while secondary trading in the Securities is open***

If the Relevant Underlying is traded on its domestic market during the opening hours for secondary trading in the Securities by the Issuer or its Affiliates or any stock exchange on which the Securities are listed, the price of the Relevant Underlying is incorporated into the price calculation for the Securities. In certain cases, however, the price of the Relevant Underlying may need to be estimated if the Securities are traded at a time when the market for the Relevant Underlying is closed. In general, this problem could apply to the Securities irrespective of the time at which they are traded because the Issuer and/or its Affiliates currently offer off-exchange trading in the Securities at times when the Relevant Underlying is not traded on the local markets or stock exchanges. This problem applies in particular to a Relevant Underlying that is traded in time zones different from European time zones. The same problem arises if the Securities are traded on days on which the domestic market for the Relevant Underlying is closed because of a public holiday. If the Issuer and/or any of its Affiliates estimates the price of the Relevant Underlying when the domestic market is closed, its estimate may prove to be accurate, too high or too low within just a few hours of the domestic market re-opening for trade in the Relevant Underlying. Correspondingly, the prices used by the Issuer and/or any of its Affiliates for the Securities prior to the opening of business on the domestic market may subsequently prove to be too high or too low. Holders of the Securities should be aware that where the estimated price of the Relevant Underlying is too low, the secondary trading price of the Securities may be less than if the price of the Relevant Underlying had not been estimated.

9.20 ***Administrator/ Benchmark Events***

Where the Relevant Underlying or otherwise any variable by reference to which interest, principal or other amounts payable under the Securities is a "Relevant Benchmark" for the purposes of the Conditions, the administrator or sponsor (or the Relevant Benchmark) may be required to be authorised, registered, recognised, endorsed or otherwise included in an official register in order for the Issuer, the Determination Agent or the Calculation Agent to be permitted to use the Relevant Benchmark and perform their respective obligations under the Securities. If the Determination Agent determines that such a requirement applies to the administrator or sponsor (or the Relevant Benchmark) but it has not been satisfied then an "Administrator/Benchmark Event" will occur and the Determination Agent or the Issuer may then apply certain fallbacks.

In the case where the Securities reference a Relevant Equity Index Benchmark or a Relevant Commodity Benchmark that is a Commodity Index these fallbacks may include one or more of the Determination Agent replacing the Relevant Equity Index Benchmark or the Relevant Commodity Benchmark with any "Alternative Pre-nominated Index" which has been specified in the applicable Issue Terms, making adjustments to the amounts payable by the Issuer under the Securities, adjusting the other terms and conditions of the Securities or the Issuer redeeming the Securities.

In the case where the Securities reference a Relevant Commodity Benchmark (other than a Commodity Index) the fallbacks may include the Determination Agent making a determination of the Relevant Underlying Value by reference to a fallback reference price, postponing the Pricing Date, determining the Relevant Underlying Value on the basis of quotations provided to the

Determination Agent by each of the Reference Dealers, the Determination Agent otherwise determining, in its reasonable discretion, the Relevant Underlying Value (or a method for determining the Relevant Underlying Value), taking into consideration the latest available quotation for the relevant Commodity Reference Price and any other information that it deems relevant, or the Issuer redeeming the Securities.

In the case where the Securities reference a Relevant FX Benchmark the fallbacks may include the Determination Agent making a determination of the Settlement Rate or using a fallback reference price to determine the Settlement Rate, or the Issuer redeeming the Securities.

In the case where the Securities reference a Relevant Rates Benchmark, the fallbacks summarised in the risk factor entitled "*EURIBOR, CMS Reference Rates, SONIA, €STR, SARON, TONA and other benchmark rate discontinuance or prohibition on use may lead to adjustments to the terms of the Securities or an early redemption of the Securities*" above will apply. Holders of the Securities should be aware that such adjustments to the terms of the Securities or early redemption of the Securities may adversely impact the return on and value of the Securities.

10. ***Risk Factors relating to Securities that include certain features***

10.1 ***Structured Rate Linked Securities***

The rate of interest payable on certain Structured Rate Linked Securities may be calculated from a formula set out in the provisions of the Additional Terms and Conditions specified to be applicable in the relevant Issue Terms (for instance, where Paragraphs 1.10 (*Steeper Securities*), 1.11 (*Digital Option Securities*) and 1.12 (*Inverse Floater Securities*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*). The formula may reference a number of underlying reference rates, which may be fixed rates or floating interest rates (including swap rates or difference between two swap rates), as specified in the relevant Issue Terms. An underlying reference rate may be subject to an addition (or subtraction) of a margin, and further multiplied by a leverage or interest participation factor, as specified in the relevant Issue Terms.

Structured Rate Linked Securities can therefore be volatile instruments as they are linked to a number of interest rates, and may be structured to include multipliers or other leverage factors, margins, caps and/or floors (See "*Caps and floors*" above for a description of this feature).

10.2 ***Basket Securities - "Best of" Average/"Worst of" Average/"Selection" Average***

Determinations of amounts payable under Securities linked to the value and/or performance of a basket of Relevant Underlyings may take into account the average value and/or performance of only a limited number of the components of the relevant basket, identified by reference to their value and/or performance relative to the other components of the basket as of one or more relevant dates. For the purpose of such determinations, the Determination Agent will order the values and/or performances of the components, high to low, and the relevant determination will be based on an average of the values (or performances) of an identified number of components having the highest values or performances (in the case of Securities in respect of which "Best of Average" applies), or having the lowest values or performances (in the case of Securities in respect of which "Worst of Average" applies) or which are otherwise identified by reference to such order (in the case of Securities in respect of which "Selected Average" applies).

10.3 ***Worst-of Basket Performance feature***

Determinations of the Final Redemption Amount payable in respect of Securities linked to the value and/or performance of a basket of Relevant Underlyings **may be made solely by reference to the worst performing Basket Component if "Worst-of Basket Performance" feature is applicable in respect of the Securities** (for instance, where Paragraph 3.11(b)(ii) (*Single Barrier Final Redemption – Worst-of Basket Performance-Linked Redemption 1*) or Paragraph 3.11(b)(iii) (*Single Barrier Final Redemption – Worst-of Basket Performance-Linked Redemption 2*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) of the Additional Terms and Conditions is applicable). Accordingly, in relation to such Securities, the Final Redemption Amount payable may be linked to the value/performance of the worst performing Basket Component, irrespective of the value/performance of any other Basket Component.

Further, where Physical Settlement will apply in respect of the Securities, upon the condition for the relevant section to be applicable being satisfied and pursuant to any "Worst-of Basket Performance" feature being applicable (for instance, where Paragraph 3.11(c)(ii) (*Single Barrier Final Redemption – Worst of Basket Performance Linked Redemption*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) of the Additional Terms and Conditions is applicable), the Underlying Securities which will comprise the Physical Delivery Amount shall be the worst performing Basket Component. None of the other Basket Components will comprise the Underlying Securities delivered to the Securityholder.

10.4 *Averaging features*

Determinations of amounts payable under Securities linked to the value and/or performance of a single Relevant Underlying or a basket of Relevant Underlyings may be determined based on the arithmetic mean of values determined as of a series of Averaging Dates. This will limit the extent to which a sudden increase or decrease in value and/or performance of the Relevant Underlying on a single date affects the relevant determination.

10.5 *Participation feature (Final Redemption Amount)*

Where "participation" is used to identify the terms for determining the Final Redemption Amount payable on any Securities (for instance, where Paragraph 3.21 (*Participation and Performance-Linked Redemption*), Paragraph 3.8 (*Barrier Redemption 2*) or Paragraph 3.9 (*Barrier and Participation Redemption*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) of the Additional Terms and Conditions is applicable), the formula for determining such Final Redemption Amount may include a percentage multiplication factor (or "**Participation Rate**") applied to the calculation of the performance of the Relevant Underlying. The Participation Rate shall be a percentage rate between 0 per cent. and 100 per cent., and where such percentage is less than 100 per cent., the Final Redemption Amount will accordingly be linked to part only of such performance and may be less than the amount that would have been payable if linked to the full value of such performance, and may be less than par.

The formula for determining the Final Redemption Amount may also apply an amount which is 100 per cent. minus such a percentage (or Participation Factor) as a multiplication factor to a fixed amount in determining the Final Redemption Amount, in which case the deduction of such percentage will reduce the Final Redemption Amount that would otherwise be payable in respect of the Securities.

10.6 *Barrier (including Dual Barrier) feature (Interest and Final Redemption Amount)*

Interest - Where "barrier" is used to identify the terms for determining interest payable on any Securities (for instance, where Paragraph 1.9 (*Barrier Securities*) of Section 2 (*Additional Terms: Interest and Redemption Terms*), Paragraph 1.16 (*Barrier Conditional Coupon*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*), Paragraph 1.16 (*Barrier Conditional Coupon*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) of the Additional Terms and Conditions is applicable), each such payment of interest on the Securities will be conditional on the value or performance of the Relevant Underlying, as determined in accordance with the applicable Conditions as of the relevant Interest Determination Date, being (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) less than or equal to, as specified in the applicable Issue Terms, a specified barrier value, and if such condition (referred to as a "**barrier condition**") is not satisfied, **then the amount of interest payable may be zero.**

Where "dual barrier" is used to identify the terms for determining the interest payable on any Securities (for instance, where Paragraph 1.18 (*Dual Barrier Conditional Coupon*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) of the Additional Terms and Conditions is applicable), the interest amount payable will be conditional on two barriers, and a different interest amount may be payable depending on which of the two barrier conditions is satisfied. If neither barrier condition is satisfied, **then the amount of interest payable may be zero.**

Redemption - Where "barrier" is used to identify the terms for determining the Final Redemption Amount payable on any Securities (for instance, where Paragraph 3.11 (*Single Barrier Final*

Redemption) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*), Sub-Section III (*Redemption at Maturity*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*), Paragraph 3.6 (*Performance-Linked Redemption*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*), Paragraph 3.8 (*Barrier Redemption 2*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*), Paragraph 3.10 (*Barrier and Participation Redemption – FX Performance Adjustment*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) or Paragraph 3.23 (*Lock In Ladder Barrier Redemption*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) of the Additional Terms and Conditions is applicable), the redemption amount payable may be par if the value or performance of the Relevant Underlying, as determined in accordance with the applicable Conditions as of the relevant Determination Date, is (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) less than or equal to, as specified in the applicable Issue Terms, a specified barrier value, **and if such condition is not satisfied, an amount determined by reference to the performance of the Relevant Underlying, which may be less than par.**

Where "dual barrier" is used to identify the terms for determining the Final Redemption Amount payable on any Securities (for instance, where Paragraph 3.12 (*Dual Barrier Final Redemption 1*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) or Paragraph 3.18 (*Dual Barrier Redemption – Twin Win*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) of the Additional Terms and Conditions is applicable), **the Final Redemption Amount payable will be conditional on two barriers, and a different Final Redemption Amount may be payable depending on which of the two barrier conditions is satisfied, or if neither is satisfied.**

10.7 ***"Worst Performance" variation of "barrier" feature***

Interest - Where the determination of interest payable on the Securities includes a "Worst Performance" feature (i.e., where "Worst Performance" is specified as being applicable in the applicable Issue Terms in relation to Paragraph 1.16 (*Barrier Conditional Coupon*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) of the Additional Terms and Conditions, payment of interest will be conditional on the value/performance of the worst performing Basket Component as determined in accordance with the applicable Conditions as of the relevant Interest Determination Date, being (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) less than or equal to, as specified in the applicable Issue Terms, a specified barrier value, and if such condition is not satisfied, then the amount of interest payable will be zero. **Accordingly, if the "Worst Performance" feature is specified as being applicable, the interest payable may be zero even if the value/performance of the other Basket Components satisfy the specified barrier condition.**

10.8 ***"Twin Win" variation of the "dual barrier" feature***

Where "Twin Win" is used to identify the terms for determining the Final Redemption Amount payable on any Securities (for instance, where Paragraph 3.18 (*Dual Barrier Redemption – Twin Win*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) of the Additional Terms and Conditions is applicable), the Final Redemption Amount payable where the first barrier condition is satisfied shall be an amount linked to the value/performance of the Relevant Underlying and the Final Redemption Amount where the second barrier condition is satisfied shall be amount linked to the performance of the Relevant Underlying, but on the basis that "Put Performance" feature is applicable. See "Put Performance" below for a description of this feature.

10.9 ***Automatic Early Redemption (Autocall)***

Where "Automatic Early Redemption (Autocall)", as provided for in Sub-Section II (*Automatic Early Redemption (Autocall)*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*), is applicable, and the value of the Relevant Underlying, as of any Automatic Early Redemption Determination Date specified in the applicable Issue Terms, is (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) less than or equal to, as specified in the applicable Issue Terms, the applicable Autocall Barrier Value, then an Automatic Early Redemption Event shall be deemed to have occurred and the Issuer shall redeem the Securities on the immediately

following Automatic Early Redemption Date at an amount specified in the applicable Issue Terms. Security also the risks described in paragraph entitled "*The Securities may be redeemed prior to maturity*" above.

10.10 ***"Worst Performance" variation of Automatic Early Redemption (Autocall)***

Where the determination of whether an automatic early redemption event has occurred includes a "Worst Performance" feature (i.e., where "Worst Performance" is specified as being applicable in the relevant Issue Terms in relation to Paragraph 2.1 (*Autocall 1*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) of the Additional Terms and Conditions), whether or not an automatic early redemption event has occurred (and therefore whether or not the relevant Securities would be redeemed before their scheduled maturity date) will be conditional on the value/performance of the worst performing Basket Component as determined in accordance with the applicable Conditions as of the relevant Interest Determination Date, being (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) less than or equal to, as specified in the relevant Issue Terms. Accordingly, if the "Worst Performance" feature is specified as being applicable, such automatic early redemption event may be triggered by a single Basket Component (being the worst performance such Basket Component) irrespective of the value/performance of the other components of the basket.

10.11 ***Reset Initial Reference Value (Autocall)***

Where "Reset Initial Reference Value" is specified as being applicable in respect of a Series of Securities, the Initial Reference Value will not be a fixed value throughout the life of the Securities and may instead be reset on any Reset Observation Date. If the Final Reference Value on such a Reset Observation Date is less than the Reset Barrier Value, the Initial Reference Value in respect of such Reset Observation Date will be the Relevant Underlying Value as of the Strike Date. However, if the Final Reference Value is equal to or greater than the Reset Barrier Value, then the Initial Reference Value will be the Relevant Underlying Value as of the Strike Date, multiplied by a Reset Rate (such value the "**Reset Initial Reference Value**"). Therefore, if (i) an amount payable under the Securities is determined by reference to a fraction equal to the Final Reference Value divided by the Reset Initial Reference Value and (ii) the Reset Rate is in excess of 100 per cent., then such amount payable under the Securities will be lower than if the amount payable under the Securities were determined by reference to a fraction equal to the Final Reference Value divided by the Initial Reference Value.

10.12 ***Range Accrual feature***

Where the determination of interest payable on the Securities includes a "**range**" accrual feature (for instance, where Paragraph 1.8 (*Range Accrual Securities*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*), Paragraph 1.19 (*Range Barrier Conditional Coupon*) or Paragraph 1.20 (*Range Accrual Coupon*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) of the Additional Terms and Conditions is applicable), the interest payable on the Securities will be calculated by reference to (A) the number of days (Scheduled Trading Days or Business Days or specified Observation Dates, as applicable) in a specified period on which the reference rate or the value/performance of the Relevant Underlying (as applicable) is greater than a specified rate or value (B) divided by the total number of days (Scheduled Trading Days, Business Days or specified Observation Dates, as applicable) in such specified period. For certain Securities, the reference rate may be (i) a single underlying interest rate, (ii) the sum of two underlying interest rates, or (iii) the difference between two underlying interest rates. An underlying interest rate may be a fixed rate or a floating interest rate (which includes a swap rate or difference between two swap rates).

10.13 ***Put Performance***

Where "Put Performance" is specified as being applicable when determining the performance of the Relevant Underlying, the performance of the Relevant Underlying will be determined by the Determination Agent by reference to the value obtained by subtracting from one the value which is the Final Reference Value divided by the Applicable Initial Reference Value. Unlike where the performance of the Relevant Underlying is determined without reference to Put Performance, this value will always be lower than 1. Accordingly, where "Put Performance" is applicable, the value

determined as the performance of the Relevant Underlying will be lower than if Put Performance had not been applied in respect of the same Relevant Underlying.

10.14 ***Multiple features i.e. different combinations of payout features***

Investors should note that a series of Securities issued under the Program may contain one or more of the features described in this section entitled "*Feature-specific risk factors*" in various different combinations. A series of Securities may have more than one type of interest applying to different interest periods and/or interest payment dates. As a result, the risks highlighted in respect of each such feature above may be compounded where a number of features apply to a single Series of Securities. Depending on the features that apply to a Series of Securities, an investor may bear the risk that no interest is payable throughout the life of the Securities and that the redemption amount in respect of the Securities may be less than par and, in certain circumstances, may be zero.

10.15 ***Caps and floors***

Caps on value/performance of the Relevant Underlying. The formula or other basis for determining the value and/or performance of the Relevant Underlying in respect of a Series of Securities (or of individual Basket Components comprised in a Relevant Underlying which is a Basket) **may provide for a maximum value, or cap, such that any value and/or performance of the Relevant Underlying (or individual Basket Components) in excess of the applicable cap will not be taken into account for the purposes of the relevant determination.** Amounts payable on the Securities linked to such capped value and/or performance will be limited accordingly.

Floors on value/performance of the Relevant Underlying. The formula or other basis for determining the value and/or performance of the Relevant Underlying in respect of a Series of Securities (or of individual Basket Components comprised in a Relevant Underlying which is a Basket) may alternatively, or additionally, be subject to a minimum value, or floor, such that any value and/or performance of the Relevant Underlying (or individual Basket Components) below the applicable floor will not be taken into account for the purposes of the relevant determination. Amounts payable on the Securities linked to such floored value and/or performance will be limited accordingly. However, depending on the relevant formula or other basis for determination, such a floor may entitle holders to receive payment(s) greater than they would have received if the relevant determination had not been subject to the floor.

Caps and floors on interest rates. In addition, the rate of interest payable on certain Floating Rate Securities and certain Structured Rate Linked Securities may be subject to a maximum rate of interest or a minimum rate of interest specified in the applicable Issue Terms. If a maximum rate of interest is specified, the rate of interest payable on such Floating Rates Securities and such Structured Rate Linked Securities will be limited to such maximum rate. However, if a floor or a minimum rate of interest is specified in respect of any Floating Rate Securities or any Structured Rate Linked Securities, the rate of interest payable on such Securities may entitle holders to receive payment(s) greater than they would have received if the relevant rate of interest had not been subject to the floor. If the applicable Issue Terms specify "Curve Cap" to be applicable in respect of any Structured Rate Linked Securities, then the rate of interest payable on such Securities will be limited to a maximum rate calculated by reference to (i) the product of a reference rate and a leverage factor (which may have a value equal to one (1)), plus (ii) a spread amount (which may be negative).

10.16 ***Weighting of Basket Components***

Determinations of amounts payable under Securities linked to the value and/or performance of a basket of Relevant Underlyings may be determined by reference to the arithmetic mean of the values and/or performances of all (or some only, in the case of "Best of Average", "Worst of Average" or "Selected Average") of the Basket Components, which may be equally-weighted or, if so specified in the applicable Issue Terms, given different weightings. The higher the weighting applicable to a particular Basket Component, the more Securityholders will be exposed to the value and/or performance of that Basket Component in comparison with the remaining Basket Components.

10.17 ***Highest Performance***

Where "Highest Performance" is applicable (for instance where Paragraph 3.11(a)(iv) (*Single Barrier Final Redemption – Highest Performance Redemption*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) of the Additional Terms and Conditions is applicable), determinations of amounts payable under Securities linked to the value and/or performance of a single Relevant Underlying, or a basket of Relevant Underlyings may be determined based on the highest of the values determined as of a series of Final Redemption Observation Dates. This will limit the extent to which a sudden increase or decrease in value and/or performance of the Relevant Underlying on a single date affects the relevant determination and, in addition, the investor will have the benefit of the highest of the observed values across such dates.

10.18 ***Top Rank Underlying Performance***

Where "Top Rank Underlying Performance" is applicable (for instance, where Paragraph 3.25 (*Ranked Underlying Redemption*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) of the Additional Terms and Conditions is applicable), determinations of the Final Redemption Amount payable in respect of Securities may be made by reference to (i) the performance of "top ranked" Basket Components and (ii) a specified value which is to be applied as the performance of Basket Components other than "top ranked" Basket Components. The "top ranked" Basket Components are selected by the Determination Agent by (A) determining the performance of each of the Basket Components, (B) ordering them by value, high to low, and (C) by selecting such number of the Basket Components, starting with the first, as are specified in the applicable Issue Terms. Where "Top Rank Underlying Performance" applies, because the Final Redemption Amount is linked to the performance of the better performing Basket Components, the Final Redemption Amount may be higher than if the Final Redemption Amount had been linked to the performance of all the Basket Components.

10.19 ***Memory feature (Interest, Automatic Early Redemption Amount or Final Redemption Amount)***

Interest - Where the determination of interest payable on the Securities includes a "Memory" feature (for instance, where Paragraph 1.16(B) (*Barrier Conditional Coupon – Memory Barrier Conditional Coupon*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) of the Additional Terms and Conditions is applicable) the interest accrued with respect to each Interest Determination Date will be conditional on the value or performance of the Relevant Underlying determined as of such Interest Determination Date being (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) **less than or equal to, as specified in the applicable Issue Terms, a specified barrier value, and the interest so accrued will therefore be zero if the condition (referred to herein as a "barrier condition") is not satisfied.** However, the amount of interest to be accrued if such barrier condition is satisfied will be an amount which is increased on each successive Interest Determination Date but from which is deducted the sum of all interest accrued in respect of prior Interest Determination Dates. Accordingly, if the interest accrued in respect of an Interest Determination Date (two or more successive Interest Determination Dates) is zero, the interest accrued in respect of the next following Interest Determination Date (if any) where such condition is satisfied will be in an increased amount which will typically equal the sum of the amounts which would have accrued had such condition been satisfied in respect of both (or all) such Interest Determination Dates, but without any interest or other allowance for the deferred accrual.

Automatic Early Redemption Amount – where the determination of Automatic Early Redemption Amount includes a "Memory" feature (for instance, where Paragraph 2.1(B) (*Autocall 1 – Memory Redemption*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) of the Additional Terms and Conditions is applicable), the Automatic Early Redemption Amount payable will include all interest amounts which would have been paid on each Interest Determination Date before (and including) the relevant Automatic Early Redemption Determination Date as if the barrier condition been satisfied on each such date (but without any interest or other allowance for the deferred accrual) but from which is deducted the sum of all interest previously paid on the Securities.

Final Redemption Amount - where the determination of the Final Redemption Amount includes a "Memory" feature (for instance, where Paragraph 3.11(a)(iii) (*Single Barrier Final Redemption – Capitalised Memory Redemption*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) of the Additional Terms and Conditions is applicable), the Final Redemption Amount payable will include all interest amounts which would have been paid on each Interest Determination Date as if the barrier condition had been satisfied on each such date (but without any interest or other allowance for the deferred accrual) but from which is deducted the sum of all interest previously paid on the Securities.

10.20 ***Capitalised Redemption feature***

Where "capitalised" is used to identify the terms for determining the Final Redemption Amount in respect of any Securities (for instance, where Paragraph 3.11(a)(ii) (*Single Barrier Final Redemption – Capitalised Non-Memory Redemption*) and/or Paragraph 3.11(a)(iii) (*Single Barrier Final Redemption – Capitalised Memory Redemption*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) of the Additional Terms and Conditions is applicable), the Final Redemption Amount will include a component which will typically be equal to all interest accruing in respect of the Securities, which will be payable only on the Maturity Date and by a single payment. Therefore, an investor may not receive any periodic or other payment of interest on such Securities prior to the Maturity Date.

10.21 ***Specified Rate (interest, Automatic Early Redemption Amount and Final Redemption Amount)***

Where the formula for calculating the interest, Automatic Early Redemption Amount or Final Redemption Amount includes reference to a Specified Rate, such interest, Automatic Early Redemption Amount or Final Redemption Amount may be calculated, amongst other factors, by reference to a percentage multiplication factor (or "**Specified Rate**"). The Specified Rate shall be a percentage rate between 0 and 100 per cent., and where the Specified Rate is less than 100 per cent., the interest, Automatic Early Redemption Amount or Final Redemption Amount may be less than the amount that would have been payable if linked to 100 per cent., and, in the case of the early or final redemption amount, may be less than par.

10.22 ***Lock in Ladder feature (Final Redemption Amount)***

Where "lock in ladder" is used to identify the terms for determination of the Final Redemption Amount payable with respect to any Securities (for instance, where Paragraph 3.23 (*Lock In Ladder Redemption*) or 3.24 (*Lock In Ladder Barrier Redemption*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) of the Additional Terms and Conditions is applicable), the Final Redemption Amount may be determined by reference to the *greater of* (A) the "**Maximum Lock in Step**" and (B) the performance of the Relevant Underlying. "Maximum Lock in Step" is the highest of the specified levels which may be included in the value which determined as the performance of the Relevant Underlying, observed across a set of Lock in Observation Dates. Where "lock in ladder" applies, therefore, the investor may receive a Final Redemption Amount which is higher than if the Final Redemption Amount only referenced the performance of the Relevant Underlying rather than also having regard to the Maximum Lock In Step.

10.23 ***Step-Up and Step-Down features***

Where the determination of interest payable on the Securities includes a "**Step-Up**" feature (for instance, where Paragraph 1.2(a) (*Step-Up Securities*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) of the Additional Terms and Conditions is applicable), or includes a "**Step-Down**" feature (for instance, where Paragraph 1.2(b) (*Step-Down Securities*) of Section 2 (*Additional Terms and Conditions: Interest and Redemption Terms*) of the Additional Terms and Conditions is applicable), the rate of interest at which interest is calculated will increase (in the of the "Step-Up" feature) or will decrease (in the case of the "Step-Down" feature), as applicable, in respect of each Interest Payment Date as specified in the applicable Issue Terms.

10.24 ***Optimised Performance***

Where "Optimised Performance (Type 1)" or "Optimised Performance (Type 2)" is specified as being applicable when determining the performance of the Relevant Underlying, the performance of the Relevant Underlying will be determined by the Determination Agent by reference to, as specified in the applicable Issue Terms, either (A) the highest or (B) the lowest of the Initial Reference Values observed on each of the Optimised Observation Dates. If the applicable Issue Terms specify that the highest of the Initial Reference Values will be used, then the performance of the Relevant Underlying will be (and any payments on the Securities which reference such performance) lower than if the lowest of the Initial Reference Values was used.

10.25 ***Change of interest basis at the Issuer's option or automatically***

Securities shall have (where the applicable Issue Terms specify "Automatic Change of Interest Basis" to be applicable), or may have at the Issuer's option (where the applicable Issue Terms specify "Switchable Securities" to be applicable), more than one interest basis applicable to different interest periods and/or interest payment dates. These Securities may be Fixed Rate Securities, Floating Rate Securities or Structured Rate Linked Securities (or any combination of the foregoing).

If the applicable Issue Terms specify "Switchable Securities" to be applicable, the Securities may bear interest at a rate that converts, at the option of the Issuer, from one specified rate to another specified rate. If the Issuer exercises its conversion option to convert a fixed rate of interest to a floating rate of interest or to convert a floating rate of interest to a fixed rate of interest, after such conversion, the Securities may bear interest at a rate of interest which is less favourable than prevailing spreads on comparable Securities.

The Issuer's right to effect such a conversion may affect the secondary market and the market value of the Securities as the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing.

10.26 ***Exposure to MXN and UDI fixings***

Where the Securities are denominated in "*Unidad de Inversión*" ("**UDI**"), a unit of account that reflects the purchasing power of Mexican pesos ("**MXN**") and is not a deliverable currency, all payments under the Securities will be made in MXN. Securityholders should therefore understand that their return will always be an amount denominated in MXN.

Interest and/or principal under the Securities may be calculated by reference to a UDI fixing, which is the MXN/UDI rate expressed as the amount of MXN per one UDI as reported by the Banco de México on www.banxico.org.mx (or such successor website as may apply). If, at the relevant time of determination of the amount of interest or principal payable under the Securities, either (i) the MXN/UDI rate is not calculated and/or announced in a timely manner by the Banco de México, (ii) UDI is replaced or has been replaced by a successor unit of value, (iii) the Banco de México makes or has made a material change in the method of calculating the MXN/UDI rate, (iv) the Banco de México has in any way materially modified or restated the MXN/UDI rate, (v) the MXN/UDI rate is no longer published and has not been replaced by a successor unit of value or (vi) by means of any law, regulation, ruling, directive or interpretation, whether or not having the force of law, the United Mexican States or any of its agencies, instrumentalities or entities (including, without limitation, the Banco de México) takes any action which legally or de facto prevents, or has the effect of restricting or limiting, the calculation or announcement of the MXN/UDI rate or any of the values used to determine the MXN/UDI rate (each, an "**Index Event**"), then the UDI fixing to be used for the purposes of determining such amount of interest or principal payable under the Securities will be determined by the Determination Agent in its sole discretion.

Securityholders should be aware that the return on their Securities is therefore subject to fluctuations in the UDI fixing and, potentially, the determination of the Determination Agent following the occurrence of any Index Event, and the amount of interest or principal payable under the Securities at any time may be significantly less than that which would have been expected if using the UDI fixing as at the Issue Date.

10.27 ***Particular risks in relation to Dividend Adjusted Performance Feature of the Securities***

Where Securities are linked to a Share (in accordance with Condition 9 (*Provisions Relating to Equity-Linked Securities*)), with no dividend adjusted performance feature, the performance of the Share is determined by reference to the market price of the relevant Share with no reinvestment of the value of the dividend paid by the issuer of such Share (i.e. on any ex-dividend date the market price of the Share is reduced by the amount of the dividend).

However, if the applicable Issue Terms specify that “Strategy Price” and "Closing Value with Dividend Adjusted Performance" (as defined in Sub-Section IV (Strategy Price Value Determination Terms) of Section 4 (Value Determination Terms) of the Additional Terms and Conditions) are applicable, this means that the Securities reference the performance of the relevant Share(s) as adjusted so as to reflect a predetermined amount specified in the applicable Issue Terms (the Pre-Defined Dividend) being deducted periodically in lieu of the actual dividend paid by the relevant issuer of such Share.

If the Pre-Defined Dividend in a relevant period is higher than the actual declared dividend during the same period, then the price or performance of the relevant Share will be adjusted downward and will, underperform the Share which is not so adjusted. Such underperformance will increase as the price of the relevant Share decreases, due to the fact that the Pre-Defined Dividend is a fixed amount set out in the applicable Issue Terms and not a percentage of the relevant Share price. If the Pre-Defined Dividend in a relevant period is lower than the actual declared dividend during the same period, then the price or performance of the relevant Share will be adjusted upward. Accordingly, due to the “Pre-Defined Dividend” feature, the Securities may perform differently in comparison to Securities linked to the same Share(s) but without such dividend adjusted performance feature.

10.28 ***Particular risks in relation to Strategy Level***

Where Securities are linked to a Share (in accordance with Condition 9 (*Provisions Relating to Equity-Linked Securities*)), if the applicable Issue Terms of the Securities specify that “Strategy Price” and "Strategy Calculation (Closing Value)", "Strategy Calculation (Opening Value)" or "Strategy Calculation (Intraday Value)" (as defined in Sub-Section IV (Strategy Price Value Determination Terms) of Section 4 (Value Determination Terms) of the Additional Terms and Conditions) is applicable, this means that the Securities reference the performance of the Relevant Underlying(s) adjusted so as to reflect a predetermined amount being deducted periodically (the Pre-Defined Dividend).

Therefore, the performance of the Relevant Underlying(s) will be adjusted downward and will, underperform the Relevant Underlying(s) which is not so adjusted. Accordingly, due to the “Strategy Level” feature, the Securities will perform differently in comparison to Securities linked to the same Relevant Underlying(s) but without such feature.

DISCLAIMERS

The Issuers, the Guarantor and MSI plc as Distribution Agent, disclaim any responsibility to advise prospective purchasers of any matters arising under the laws of the country in which they reside that may affect the purchase of, or holding of, or the receipt of payments on the Securities. These persons should consult their own legal and financial advisors concerning these matters.

1. *General Disclaimers*

1.1 *Issuer's credit ratings may not reflect all risks*

One or more independent credit rating agencies may assign credit ratings to the Issuer and/or the Guarantor (if applicable). The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Securities. A credit rating is not a recommendation to buy, sell or hold Securities and may be revised or withdrawn by the rating agency at any time.

1.2 *Change of law*

The Conditions of the Securities are based on English law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice in England after the date of this Base Prospectus.

1.3 *Independent review and advice*

Each prospective investor must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Securities is (i) fully consistent with its (or if it is acquiring the Securities in a fiduciary capacity, the beneficiary's) financial needs, objectives and condition, (ii) complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it (whether acquiring the Securities as principal or in a fiduciary capacity) and (iii) is a fit, proper and suitable investment for it (or if it is acquiring the Securities in a fiduciary capacity, for the beneficiary), notwithstanding the clear and substantial risks inherent in investing in or holding the Securities. **Each of the Issuer, the Guarantor (if applicable) and the Distribution Agent disclaims any responsibility to advise prospective investors of any matters arising under the law of the country in which such prospective investors reside that may affect the purchase of, or holding of, or the receipt of payments or deliveries on the Securities.**

1.4 *Selling Agent remuneration*

The Issuer may enter into distribution agreements with various financial institutions and other intermediaries as determined by the Issuer (each a "**Selling Agent**"). Each Selling Agent will agree, subject to the satisfaction of certain conditions, to subscribe for the Securities at a price equivalent to or below the Issue Price. Any difference between the price at which the Selling Agent subscribes the Securities and the price at which the Selling Agent sells the Securities to investors will be a remuneration of the Selling Agent. In addition, subject to compliance with all applicable laws, an upfront fee and/or a periodic fee may also be payable to the Selling Agents in respect of all outstanding Securities up to and including the maturity date at a rate determined by the Issuer and which may vary from time to time. Any remuneration received by the Selling Agent, including any periodic payments, may influence the Selling Agent's recommendation of the Securities to potential investors and may also increase the purchase price to be paid by the investor. Each Selling Agent will agree to comply with the selling restrictions set out in the document as amended and supplemented by the additional selling restrictions set out in the relevant distribution agreements.

1.5 *Registered Securities in Global Form*

Because the Global Security Certificates (as defined below) may be held by or on behalf of Euroclear Bank S.A./N.V. ("**Euroclear**") and Clearstream Banking, société anonyme ("**Clearstream, Luxembourg**"), and/or any other clearing system as may be specified in the applicable Issue Terms (such system or systems hereinafter referred to as the "**Relevant Clearing**"),

System"), investors will have to rely on their procedures for transfer, payment and communication with the relevant Issuer.

Securities (other than Uncertificated Securities) issued under the Program may be represented by, in the case of Registered Securities, interests in a global security certificate (a "**Global Security Certificate**" or "**Global Instrument**"). Such Global Instruments may be deposited with a common depository or common safekeeper for the Relevant Clearing System. Except in the circumstances described in the relevant Global Instrument, investors will not be entitled to receive definitive Securities. The Relevant Clearing System will maintain records of the beneficial interests in the Global Instruments. While the Securities are represented by one or more Global Instruments, investors will be able to trade their beneficial interests only through the Relevant Clearing System.

While the Securities are represented by one or more Global Instruments, the Issuer will discharge its payment obligations under the Securities by making payments through the Relevant Clearing System for distribution to their account holders. A holder of an interest in a Global Instrument must rely on the procedures of the Relevant Clearing System to receive payments under the relevant Securities. Neither the relevant Issuer nor the Guarantor has responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Instruments.

Holders of beneficial interests in the Global Instruments will not have a direct right to vote in respect of the relevant Securities. Instead, such holders will be permitted to act only to the extent that they are enabled by the Relevant Clearing System to appoint appropriate proxies.

1.6 ***Legal investment considerations may restrict certain investments***

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Securities are appropriate legal investments for it, (ii) Securities can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Securities. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Securities under any applicable risk based capital or similar rules.

1.7 ***Securities denominated or payable in a currency other than investor's home currency***

Investors should consult their financial and legal advisors as to any specific risks entailed by an investment in Securities that are denominated or payable in, or the payment of which is linked to the value of, a currency other than the currency of the country in which such investor resides or in which such investor conducts its business, which is referred to as their home currency. Such Securities are not appropriate investments for investors who are not sophisticated in foreign currency transactions.

1.8 ***Subscription periods***

The Issuer has the right to close the offering of the Securities prior to the end of the subscription period in its reasonable discretion. Prospective investors should be aware that if the Issuer exercises such right, prospective investors will no longer have the right to purchase any Securities.

1.9 ***Cancellation of the offer***

The Issuer has the right to withdraw the offering of the Securities and cancel the issuance of the Securities prior to the end of the subscription period for any reason. Reasons for the cancellation of the offer include, in particular and without limitation: (i) adverse market conditions, as determined by the Issuer in its reasonable discretion (such as, for example, increased equity market volatility and increased currency exchange rate volatility); or (ii) that the number of applications received at that time is insufficient, in the Issuer's opinion, to make an economically viable issuance.

1.10 *Provision of notices*

Pursuant to the Conditions, the Issuer, the Determination Agent or the Calculation Agent, as applicable, in certain circumstances have obligations to provide Securityholders with notice of the occurrence of particular events with respect to the Securities including, without limitation, (i) notice of the occurrence of an event which the Issuer has determined shall lead to the early redemption of the Securities, or (ii) notice of a determination by the Determination Agent that certain adjustments are to be made to the terms of the Securities following the occurrence of a particular event in respect of which the Issuer has determined that the Securities shall continue. Securityholders should be aware that, notwithstanding any such obligation to provide notice, in accordance with Condition 28 (*Notices*) of the "*Terms and Conditions of the Securities*" below, any failure by the Issuer, the Calculation Agent, the Determination Agent or any other party to provide Securityholders with any notice due to be given to Securityholders in accordance with the Conditions shall not of itself affect the validity of the determination, adjustment, event or any other occurrence to which such notice relates.

2. *Disclaimers linked with the Relevant Underlying*

2.1 *No affiliation with underlying companies*

The underlying issuer, sponsor, or other responsibility for a Relevant Underlying will not be an affiliate of Morgan Stanley, MSI plc, MSBV or MSFL, unless otherwise specified in the applicable Issue Terms. Morgan Stanley or its subsidiaries may presently or from time to time engage in business with any underlying company, fund, sponsor or any specified entity, including entering into loans with, or making equity investments in, the underlying company, fund, sponsor or specified entity, or its affiliates or subsidiaries or providing investment advisory services to the underlying company, fund, sponsor or specified entity, including merger and acquisition advisory services. Moreover, no Issuer has the ability to control or predict the actions of the underlying company, fund, sponsor, or specified entity, including any actions, or reconstitution of index components, of the type that would require the Determination Agent to adjust the payout to the investor. No underlying company, fund or Fund Adviser, sponsor, or specified entity, for any issuance of Securities is involved in the offering of the Securities in any way or has any obligation to consider the investor's interest as an owner of the Securities in taking any corporate actions that might affect the value of the Securities. None of the money an investor pays for the Securities will go to the underlying company, fund or Fund Adviser, sponsor or specified entity, for such Securities. However, the Issuer or any affiliate may purchase the Relevant Underlying(s) (or any securities or other assets comprising the Relevant Underlying(s)) for hedging purposes.

2.2 *Provision of information*

None of the Issuer or any of its Affiliates makes any representation as to the issuer for any single security or basket of securities, any preference share, fund or Fund Service Provider, or the publisher of an underlying index. Any of such persons may have acquired, or during the term of the Securities may acquire, non public information with respect to any such issuer, publisher or specified entity, their respective affiliates or any guarantors that is or may be material in the context of the Securities. The issue of Securities will not create any obligation on the part of any such persons to disclose to the Securityholders or any other party such information (whether or not confidential).

2.3 *Disclosure*

Neither the issuer of any single security or basket security, an ETF, other fund, any Fund Service Provider nor the publisher of an underlying index (except where Morgan Stanley or any of its affiliates where such Morgan Stanley entity is the sponsor of any proprietary index) has participated in the preparation of this document or in establishing the Conditions of the Securities and neither the Issuers nor any of their Affiliates will make any investigation or enquiry in connection with such offering with respect to any information concerning any such issuer, ETF, other fund, Fund Service Provider, publisher, or specified entity contained in this document or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the issue date (including events that would affect the accuracy or completeness of any publicly available information described in this document) that

would affect the trading price and/or level of the Relevant Underlying will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an issuer, ETF, other fund, Fund Service Provider, publisher or specified entity could affect the trading price and/or level of the Relevant Underlying and therefore the trading price of the Securities.

3. ***Disclaimers for Index-Linked Securities***

3.1 ***Securities linked to an Index are not sold or promoted by an Index or the sponsor of such Index***

Except where an Index is a Proprietary Index (see also the risk factor entitled "*Risk Factors—Securities linked to proprietary indices*"), Securities linked to an Index are not sponsored, endorsed, sold, or promoted by such Index or the sponsor of such Index. The sponsor of an Index makes no representation whatsoever, whether express or implied, either as to the results to be obtained from the use of such Index or the levels at which such Index stands at any particular time on any particular date. Neither an Index nor sponsor of such Index shall be liable (whether in negligence or otherwise) to any person for any error in such Index. A sponsor of an Index is under no obligation to advise any person of any error in such Index. A sponsor of an Index does not make any representation whatsoever, whether express or implied, as to the advisability of investing or assuming any risk in connection with the Securities linked to such Index.

3.2 ***Suitability of Index-Linked Securities***

Prospective investors in any Securities linked to a proprietary index should be familiar with investments in the global financial and commodity markets, financial instruments and indices generally.

3.3 ***The relevant Issuer, Morgan Stanley or any of Morgan Stanley's affiliates are not liable for the actions or omissions of the sponsor of an Index, any information concerning an Index, the performance of such Index or use thereof in connection with the Securities***

The relevant Issuer, Morgan Stanley or any of Morgan Stanley's affiliates are not liable to the Holders of Securities for any act or failure to act by a sponsor of an Index in connection with the calculation, adjustment, or maintenance of such Index. Although the Determination Agent, as applicable, will obtain information concerning an Index from publicly available sources it believes reliable, it will not independently verify this information. Accordingly, no representation, warranty, or undertaking (express or implied) is made and **no responsibility is accepted by the relevant Issuer, Morgan Stanley or any of Morgan Stanley's affiliates, or the Determination Agent as to the accuracy, completeness, and timeliness of information concerning such Index.** In addition, the relevant Issuer, Morgan Stanley or any of Morgan Stanley's affiliates, or the Determination Agent makes no representation whatsoever, whether express or implied, as to the performance of any Index which is linked to the Securities, any data included in, or omitted from, such Index, or the use of such Index in connection with the Index-Linked Securities.

4. ***Disclaimers for Securities linked to proprietary indices within the MS Dynamic Fund Allocation Index Family***

4.1 ***Morgan Stanley research***

Morgan Stanley may issue research reports on securities or other financial instruments that are, or may become, constituents of the Index. These reports are independent of the obligations of the Index Sponsor and the Index Calculation Agents hereunder.

4.2 ***The Index Sponsor's determinations are final and conclusive***

The Index Calculation Agent is responsible for compiling and calculating the Index pursuant to the Rules. The Index Sponsor retains the discretion to appoint an alternative Index Calculation Agent. The Index Sponsor retains the final discretion as to the manner in which the Index is calculated and constructed. Furthermore, the Index Sponsor has the final authority on the Index and the interpretation and application of the Rules. The Index Calculation Agent also has certain discretions relating to the Index. The Index Sponsor makes no representation (implied or

otherwise) as to the performance of any underlying Index Component of the Index and/or the Index.

4.3 ***Index Calculation Agent's determinations***

The Index Calculation Agent's calculations and determinations in relation to the Index shall be binding on all parties in the absence of manifest error. No party (whether the holder of any product linked to an Index or otherwise) will be entitled to proceed (and agreed to waive proceedings) against the Index Calculation Agent in connection with any such calculations or determinations or any failure to make any calculations or determinations in relation to an Index. For so long as the Index Calculation Agent constitutes and calculates an Index, calculations and determinations by the Calculation Agent does not accept any liability for loss or damage of any kind arising from the use of such information in any such calculation or determination. The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any underlying Index Component of the Index and/or the Index itself.

5. ***Disclaimer for Futures-Contract Linked Securities***

Prior to purchasing Futures Contract-Linked Securities, prospective investors should ensure they are familiar with investments in global capital markets and with derivatives generally, and carefully consider such factors, as the value of the Futures Contract(s) will affect the return on the Securities.

6. ***Disclaimer for Share-Linked Securities: No Share Issuer will have participated in the preparation of the applicable Issue Terms or in establishing the terms of the Share-Linked Securities***

No Share Issuer(s) will have participated in the preparation of the applicable Issue Terms or in establishing the terms of the Share-Linked Securities and none of the relevant Issuer, Morgan Stanley or any of Morgan Stanley's affiliates will make any investigation or enquiry in connection with such offering with respect to any information concerning any such Share Issuer(s) contained in such Issue Terms or in the documents from which such information was extracted. Neither the relevant Issuer, Morgan Stanley or any of Morgan Stanley's affiliates controls any Share Issuer(s) and are not responsible for any disclosure made by any Share Issuer(s). Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the adequacy, accuracy or completeness of the publicly available information described in this paragraph or in any applicable Issue Terms) that would affect the trading price of the relevant Share(s) will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such Share Issuer(s) could affect the trading price of the Share(s) and therefore the trading price of the Securities.

7. ***Representations and acknowledgments by Securityholders***

Each Securityholder shall be deemed to represent and acknowledge to the relevant Issuer and, if applicable, the Guarantor on acquiring any Security that:

- (1) none of the Issuer, (if applicable) the Guarantor or any Affiliate or any of their respective agents is acting as a fiduciary for it or provides investment, tax, accounting, legal or other advice in respect of the Securities and that such holder and its advisors are not relying on any communication (written or oral and including, without limitation, opinions of third party advisors) of the Issuer or any Affiliate as (a) legal, regulatory, tax, business, investment, financial, accounting or other advice, (b) a recommendation to invest in any Securities or (c) an assurance or guarantee as to the expected results of an investment in the Securities (it being understood that information and explanations related to the terms and conditions of the Securities shall not be considered to be any such advice, recommendation, assurance or guarantee and should be independently confirmed by the recipient and its advisors prior to making any such investment);
- (2) such Securityholder (a) has consulted with its own legal, regulatory, tax, business, investments, financial and accounting advisors to the extent that it has deemed necessary, and has made its own investment, hedging, and trading decisions based upon its own

judgement and upon any advice from such advisors as it has deemed necessary and not upon any view expressed by the Issuer, (if applicable) the Guarantor or any Affiliate or any of their respective agents and (b) is acquiring Securities with an understanding of the terms, conditions and risks thereof and it is capable of and willing to assume those risks; and

- (3) the Issuer, (if applicable) the Guarantor and/or any Affiliates may have banking or other commercial relationships with issuers of any securities or other Relevant Underlyings to which the Securities relate and may engage in proprietary trading in any equity securities, indices or other Relevant Underlyings to which the Securities relate or options, futures, derivatives or other instruments relating thereto (including such trading as the Issuer, (if applicable) the Guarantor and/or any Affiliate deem appropriate in their reasonable discretion to hedge the market risk on the Securities and other transactions between the Issuer, (if applicable) the Guarantor and/or any Affiliates and any third parties), and that such trading (a) may affect the price or level thereof and consequently the amounts payable under the Securities and (b) may be effected at any time.

CONFLICTS OF INTEREST**1. *Potential conflicts of interest between the investor and the Determination Agent due to the hedging and trading activities of Morgan Stanley Group***

Potential conflicts of interest may exist between the investor and the Determination Agent, which may be an affiliate of the relevant Issuer and the Guarantor, if applicable. Certain determinations made by the Determination Agent may require it to exercise discretion and make subjective judgments. As Determination Agent for Securities linked to one or more Relevant Underlyings, MSI plc (or an affiliate) may make determinations under the Securities based on its determination of the performance of the Relevant Underlying(s) or of the impact of certain events in relation to the Relevant Underlying(s), including potential adjustments to the terms and conditions, potential early redemption, and the determination of the payout on the Securities. MSI plc (and other affiliates) may also carry out hedging activities related to any Securities linked to one or more Relevant Underlyings. MSI plc (and certain of Morgan Stanley's other subsidiaries) may also trade in the Relevant Underlying(s) (or the applicable underlying securities or other assets comprised in the relevant index or other Relevant Underlying) on a regular basis as part of their general broker dealer and other businesses. Any of these hedging or trading activities could influence the Determination Agent's potentially subjective determination of whether and/or which adjustments should be made to the Securities, and any such hedging or trading activities could potentially affect the price, rate, level or other value of the Relevant Underlying(s), and, accordingly, could have a significant negative (or positive) impact on the investor's return on the Securities.

2. *Conflicts of index specific to Securities linked to proprietary indices: Where Morgan Stanley or an affiliate of Morgan Stanley is the sponsor or calculation agent in respect of a proprietary index, Morgan Stanley has the authority to make determinations that could materially affect such an index and create conflicts of interest*

Where Morgan Stanley or an affiliate of Morgan Stanley is the sponsor of the proprietary index and/or, if applicable, the calculation agent of such an index, Morgan Stanley does not generally exercise any discretion in relation to the operation of the index. Morgan Stanley owes no fiduciary duties in respect of such index. Morgan Stanley may, however, exercise discretion in certain limited situations including, but not limited to, those situations described in any description of the relevant index. Determinations made by Morgan Stanley as the sponsor and, if applicable, calculation agent of such a proprietary index could adversely affect the level of such index and the exercise by Morgan Stanley of its discretion could present it with a conflict of interest. Subject as provided in the Index Rules in respect of a Proprietary Index, in making those determinations, the sponsor and/or the calculation agent, as applicable, of such index will not be required to, and will not, take the interests of any investor of any product that references such index into account or consider the effect its determinations will have on the value of such a product. All determinations made by relevant sponsor and/or the index calculation agent shall be (including, without limitation, any Securities) conclusive for all purposes and will bind all holders of any products linked to such an index. The sponsor and/or the Calculation Agent shall not have any liability for such determinations.

3. *Conflicts of interest specific to Securities linked to proprietary indices within the MS Dynamic Fund Allocation Index Family: Where Morgan Stanley or an affiliate of Morgan Stanley engages in transactions involving underlying Index Components for their own account, this could create a conflict of interest*

Morgan Stanley and its affiliates (including the Index Calculation Agent and the Index Sponsor) may from time to time engage in transactions involving the underlying Index Components for their own account and/or for the account of their clients and may act as market-maker in such underlying Index Components. Such activities may not be for the benefit of the holders of financial products linked to the Index and may have an effect on the value of the Index and, consequently, on the value and performance of any financial products linked to the Index. In addition, Morgan Stanley and its affiliates may from time to time act in other capacities such as the issuer of investments or the advisor thereof. The Morgan Stanley Group also may issue financial instruments and/or enter into derivative contracts in respect of the underlying Index Components and the use of such instruments and/or derivatives may affect the value of the underlying Index Components. Morgan Stanley or its affiliates may enter into hedging transactions in respect of the underlying Index

Components which may affect the value of such components or of any instruments, contract or investment product linked to Index. In addition, the unwinding of such hedging transactions may affect the value of such components or instruments which may affect the value of the Index. Morgan Stanley or its affiliates may make gains and/or losses from such hedging activity. In acting in any of these capacities, Morgan Stanley or its affiliates are not obliged to take into account the interests of any person including (but not limited to) investors in products linked to the Index.

4. ***Conflicts of interest specific to Preference Share-Linked Securities: Potential conflicts of interest in relation to the Preference Share Calculation Agent***

The calculation agent in respect of the Preference Shares (the "**Preference Share Calculation Agent**") is a member of Morgan Stanley Group of companies. As a result, potential conflicts of interest may arise in acting in its capacity as Preference Share Calculation Agent and other capacities in which it acts under the Preference Share-Linked Securities. Subject to any relevant regulatory obligations, the Preference Share Calculation Agent owes no duty or responsibility to any Securityholder to avoid any conflict or to act in the interests of any Securityholder. Preference Share Issuer may also rely on members of Morgan Stanley (including the Preference Share Calculation Agent) or other service providers to perform its operational requirements. In the event any relevant Morgan Stanley entities or other service providers fail to perform any obligations, this may adversely affect the value of the Preference Shares and potentially the amounts payable under the Preference Share-Linked Securities. In addition to providing calculation agency services to Preference Share Issuer, Morgan Stanley or any of its affiliates may perform further or alternative roles relating to Preference Share Issuer and any series of Preference Shares including, but not limited to, for example, being involved in arrangements relating to any of the underlying reference assets (for example as a calculation agent). Further, Morgan Stanley or any of its affiliates may contract with Preference Share Issuer and/or enter into transactions, including hedging transactions, which relate to Preference Share Issuer or the Preference Shares and as a result Morgan Stanley may face a conflict between its obligations as Preference Share Calculation Agent and its and/or its affiliates' interests in other capacities.

In the context of any offer of Securities that is not made within an exemption from the requirement to publish a prospectus under the Prospectus Regulation (a "**Non-exempt Offer**"), in relation to any person (an "**Investor**") to whom an offer of any Securities is made by any financial intermediary to whom the Responsible Persons (as defined below) have given their consent to use this Base Prospectus (an "**Authorised Offeror**"), where the offer is made during the period for which that consent is given and where the offer is made in the Member State for which that consent was given and is in compliance with all other conditions attached to the giving of the consent, all as mentioned in this Base Prospectus, each of Morgan Stanley, MSI plc, MSBV and MSFL (together the "**Responsible Persons**") accepts responsibility in each such Member State for the information relating to itself in this Base Prospectus. Unless otherwise specified, none of the Issuers, the Guarantor and the Distribution Agent has authorised the making of any Non-exempt Offer of any Securities by any person in any circumstances and such person is not permitted to use this Base Prospectus in connection with its offer of any Securities. None of the Issuers and the Guarantor will be a party to any such arrangements with Investors (other than the Distribution Agent) in connection with the

offer or sale of the Securities and, accordingly, this Base Prospectus and any Final Terms will not contain such information.

In the event of a Non-exempt Offer being made by an Authorised Offeror, the Terms and Conditions of the Non-exempt Offer shall be provided to Investors by that Authorised Offeror at the time the offer is made. OVERVIEW OF THE POTENTIAL FOR DISCRETIONARY DETERMINATIONS BY THE DETERMINATION AGENT AND THE ISSUER

Under the Conditions of the Securities, following the occurrence of certain events outside of its control, the Determination Agent or the Issuer (as applicable) may exercise discretion to take one or more actions available to it in order to deal with the impact of such events on the Securities or the Issuer's hedging arrangements. **Any such discretionary determination by the Determination Agent or the Issuer could have a negative impact on the value of and return on the Securities and (amongst other things) could result in their early redemption.**

Below is an overview of the types of events that could give rise to a discretionary determination by the Determination Agent or the Issuer and the actions available to them to deal with the impact of such events.

The specific events and available actions will vary depending on the particular issue of Securities. Investors should also read the Conditions of the Securities (set out in "*Terms and Conditions of the Securities*" of this Base Prospectus below) together with the relevant Issue Terms, which sets out in full the terms summarised below. This section is qualified in its entirety by the detailed provisions set out in the Conditions of the Securities.

1. **Types of events that could give rise to a discretionary determination by the Determination Agent or the Issuer**

There are three broad types of external events which could trigger a discretionary determination to be made by the Determination Agent or the Issuer (as applicable):

- (i) external events affecting Floating Rate Securities – see paragraph 4 below;
- (ii) external events affecting the Relevant Underlying(s) – see paragraph 5 below; and
- (iii) external events affecting the Issuer's hedging arrangements - see paragraph 6 below.

Under the Conditions of the Securities, there are also other types of events which could give rise to a discretionary determination by the Determination Agent or the Issuer.

For example:

- (I) if the performance of the Issuer's obligations under the Conditions or, if applicable, the Guarantor's under the Guarantee, becomes or will become unlawful (in whole or in part) or certain taxation events occur, the Determination Agent may determine that the Securities shall redeem early. See Condition 16.2 (*Tax Redemption – Morgan Stanley and MSFL Securities*), Condition 16.3 (*Tax Redemption – MSI plc and MSBV Securities*) and Condition 22 (*Illegality and Regulatory Event*) in ("Part 1: General Terms and Conditions" in "*Terms and Conditions of the Securities*"); or
- (II) if an event or circumstance occurs which makes it impossible, unlawful or impracticable for the Issuer, the Determination Agent or any of their affiliates for any reason beyond their reasonable control to, amongst other things, (i) convert the relevant currency into a specified currency (ii) determine the exchange rate in respect of such currencies or (iii) transfer the relevant currency and the Securities are not Commodity-Linked Securities, the Issuer may elect to (a) continue to make payments under the Securities in the specified currency determined at an exchange rate to be determined by the Determination Agent, (b) redeem the Securities early or (c) suspend payments under the Securities until such event or circumstance has ceased or is no longer in effect (See Condition 33 (*Inconvertibility Events*)).

Some of the events will only apply to certain types of Relevant Underlying(s) and/or may only apply in relation to any particular issuance of Securities if specified to be applicable in the relevant Issue Terms.

2. **If such an event occurs, what are the discretionary determinations that the Determination Agent or Issuer may take?**

Broadly, depending on the terms of the particular issue of Securities (with consideration to the fact that different terms may apply to different types of Relevant Underlying(s) and where specified to be applicable in the relevant Issue Terms), the Determination Agent or the Issuer (as applicable) may take one or more of the following actions in order to deal with the effect of the events outlined above:

2.1 **Adjustments: In respect of Equity-Linked Securities, Commodity-Linked Securities, Fund-Linked Securities, Currency-Linked Securities and Inflation-Linked Securities**, the Determination Agent may adjust the terms and conditions of the Securities to account for the economic effect of the external event in respect of the Relevant Underlying(s) on the Securities or to preserve as nearly as practicable the economic equivalence of the Securities before and after the external event in respect of the Relevant Underlying(s) or may make any adjustment to the terms and conditions of the Securities that the Determination Agent considers appropriate to any variable relevant to the redemption, settlement or payment terms of the Securities or, if applicable, any other adjustment, as applicable depending on the type of Securities and the relevant external event. This may include adjustments to the amount(s) payable and/or any variable relevant to payment or delivery under the Securities.

2.2 **Substitution: In respect of:**

- (a) **Equity-Linked Securities where the Relevant Underlying is an ETF Interest.** Following an Extraordinary ETF Event (as described below) or an Extraordinary Event, the Determination Agent may, within a certain period, substitute the Relevant Underlying(s) with a replacement asset satisfying the criteria set out in Condition 9 (*Provisions relating to Equity-Linked Securities*); and
- (b) **Fund-Linked Securities.** Following a Fund Event (as described below), the Issuer may, within a certain period, direct the Determination Agent to substitute the Relevant Underlying(s) with a replacement asset satisfying the criteria set out in Condition 13 (*Provisions relating to Fund-Linked Securities*).
- (c) **Equity-Linked Securities where the Relevant Underlying is a Share.** Following an Extraordinary Event (as described below), the Determination Agent may, within a certain period, substitute the Relevant Underlying(s) with a replacement asset satisfying the criteria set out in Condition 9 (*Provisions relating to Equity-Linked Securities*);

2.3 **Early Redemption**

The Issuer may redeem the Securities early by payment of the applicable early redemption amount following such determination by the Issuer. See Risk Factor 7.3 (*The Securities may be redeemed prior to maturity*).

In addition, if the Determination Agent determines that a market disruption event or a failure to open of an Exchange or Related Exchange has occurred or exists on a relevant date of valuation, the Determination Agent may have the discretion to defer such valuation.

3. **Why is it necessary for the Determination Agent and the Issuer to make such discretionary determinations following the occurrence of such events?**

In general, such discretion is necessary as such events and circumstances may not be foreseen at the trade date of the Securities but impact the economic or other terms of the Securities. For example, it may not be reasonably practicable or appropriate for certain valuations to be carried out in relation to the Securities without the exercise of such discretion. Furthermore, such events and circumstances may not be reflected in the pricing of the Securities and/or any arrangements entered into by the Issuer and/or any of its affiliates to hedge obligations under the Securities and, accordingly, without such discretion to, for example, adjust the terms of the Securities, the Issuer may not have been able to issue the Securities on the terms applicable on the Issue Date or at all.

Given that the Securities are linked to one or more Relevant Underlying(s), the investment objective of the Securities is to allow an investor to gain an economic exposure to the Relevant

Underlying(s). If a Relevant Underlying is materially impacted by an unexpected event (e.g. a company merges and the original share that constituted a Relevant Underlying is restructured or changed, or the rules of an index that is a Relevant Underlying are materially modified) then it may not be possible to achieve the investment objective of the Securities based on the original terms and conditions of the Securities. The Issuer or the Determination Agent may need to make certain discretionary determinations in order to preserve the original economic objective and rationale of the Securities.

Further, the Issuer and/or its affiliates may enter into hedging arrangements in order to manage its exposure in relation to its payment obligations under the Securities and to enable it to issue the Securities at the relevant price and on the relevant terms. If the amount(s) payable by the Issuer under the Securities depends on the performance of the Relevant Underlying(s) or an interest rate, the hedging arrangements may involve (a) holding the Relevant Underlying(s) directly; or (b) entering into derivative contracts with counterparties to receive a corresponding economic exposure to the Relevant Underlying(s) or the relevant interest rate, or to hedge the interest rate, currency rate or price risk in relation to the Relevant Underlying(s) or the Securities. The exercise of the Issuer's or Determination Agent's discretion is necessary if an external event occurs subsequent to the issuance of the Securities which negatively impacts the Issuer's hedging arrangements or the costs of maintaining such hedging arrangements. Such external events are unlikely to have been reflected in the original pricing of the Securities.

The Issuer cannot continue to perform its obligations under the Securities if they become or will become illegal. In that case, the Issuer may need to redeem the Securities early. It may also be illegal or impracticable for the Issuer to perform its obligations under the Securities following events which have withholding tax implications.

4. **What are the types of external events affecting Floating Rate Securities which could trigger discretionary determinations, and what type of determinations may be made?**

One of the external events that may affect Floating Rate Securities are (i) the administrator or regulatory supervisor (or other applicable regulatory body) in connection with the relevant benchmark rate referenced by the Securities announces that the administrator has ceased or will cease permanently or indefinitely to provide such relevant benchmark rate and there is no successor administrator that will continue to provide the relevant benchmark rate; or (ii) unless otherwise specified in the relevant Issue Terms, the relevant benchmark rate may not be used by the Issuer, the Determination Agent or the Calculation Agent under applicable law to perform its or their respective obligations in respect of the Securities (as a result of any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of the relevant benchmark rate or the administrator or sponsor of the relevant benchmark rate has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant official body).

Following the occurrence of any of these events the Determination Agent may replace the relevant benchmark rate with any "Alternative Pre-nominated Reference Rate" which has been specified in the applicable Issue Terms or if no Alternative Pre-nominated Reference Rate is specified in the applicable Issue Terms, with an alternative rate that is consistent with accepted market practice for debt obligations such as the Securities. If an Alternative Pre-nominated Reference Rate or other alternative rate is used then the Determination Agent may also make other adjustments to the Securities, including to the new rate and to the Margin, which are consistent with accepted market practice. If the Determination Agent is unable to identify an alternative rate and determine the necessary adjustments to the terms of the Securities then the Issuer may redeem the Securities.

External events that may affect Floating Rate Securities referencing a CMS Reference are if (a) the administrator or regulatory supervisor (or other applicable regulatory body) in connection with the CMS Reference Rate announces that the administrator has ceased or will cease permanently or indefinitely to provide such rate and there is no successor administrator that will continue to provide such rate or (b) unless otherwise specified in the relevant Issue Terms, the CMS Reference Rate may not be used by the Issuer, the Determination Agent or the Calculation Agent under applicable law to perform its or their respective obligations in respect of the Securities (as a result of any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of the CMS Reference Rate or the administrator or

sponsor of the CMS Reference Rate has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant official body), then the interest rate on the Securities will no longer be determined by reference to the CMS Reference Rate, but instead will be determined by reference to a different base rate, which will be a different benchmark than the initial or then current CMS Reference Rate which is referred to as a "Benchmark Replacement," plus any adjustment spread (which may be positive, negative, or zero) as further described in the relevant terms and conditions. Such determinations will be made by the Issuer in its or its designee's sole discretion. The determination of the Benchmark Replacement and any adjustment spread will be made by the Determination Agent. In connection with the implementation of a Benchmark Replacement, changes as the Determination Agent or its designee determines may be appropriate to reflect the adoption of such Benchmark Replacement in a manner substantially consistent with market practice (or if adoption of any portion of such market practice is not administratively feasible or no market practice for use of the Benchmark Replacement exists, in such other manner as the Determination Agent or its designee determines is reasonably necessary) may be made to the terms and conditions of the Securities. If the implementation of any Benchmark Replacement or Benchmark Replacement Conforming Changes results in a calculation of the CMS Reference Rate that is not consistent with market practice as determined by the Determination Agent, the Issuer may, in its reasonable discretion, determine that the Securities shall be redeemed as of any later date.

External events that may affect Floating Rate Securities referencing SOFR are if (a) the administrator or regulatory supervisor (or other applicable regulatory body) in connection with SOFR announces that the administrator has ceased or will cease permanently or indefinitely to provide such rate and there is no successor administrator that will continue to provide such rate or (b) the regulatory supervisor in connection with SOFR has made a public statement or publication of information announcing that SOFR is no longer representative, then the interest rate on the Securities will no longer be determined by reference to SOFR, but instead will be determined by reference to a different base rate, which will be a different benchmark than the initial or then current rate of SOFR which is referred to as a "Benchmark Replacement". In connection with the implementation of a Benchmark Replacement, changes as the Issuer or its designee determines may be appropriate to reflect the adoption of such Benchmark Replacement in a manner substantially consistent with market practice (or if adoption of any portion of such market practice is not administratively feasible or no market practice for use of the Benchmark Replacement exists, in such other manner as the Issuer or its designee determines is reasonably necessary) may be made to the terms and conditions of the Securities. All such determinations referred to above will be made in the Issuer or the Issuer or its designee's sole discretion.

5. **What are the types of external events affecting the Relevant Underlying(s) which could give rise to discretionary determinations, and what type of determinations may be made?**

The external events that may affect a Relevant Underlying will vary depending on the type of Relevant Underlying and are summarised in the table below.

7. **How will the Determination Agent and the Issuer make discretionary determinations?**

Unless the relevant discretionary term provides otherwise, all discretionary determinations by the Issuer under the Conditions of the Securities shall be made in good faith and in a commercially reasonable manner. Unless the relevant discretionary term provides otherwise (and the Determination Agent is, in certain circumstances, required to act in good faith and in a commercially reasonable manner or in its reasonable discretion), discretionary determinations by the Determination Agent under the Conditions of the Securities shall be made in its discretion (and it shall have no liability in relation to such determinations except in the case of its wilful default or bad faith).

8. **When making discretionary determinations, are the Determination Agent and the Issuer obliged to consider the interests of Securityholders?**

No, the Determination Agent acts as an expert and not as an agent of the Issuer and the Securityholders and does not assume any obligations or duty to, or relationship of agency or trust for or with, any Securityholder. In making any determination or exercising any discretion, neither the Issuer nor the Determination Agent is obliged to (and shall not) consider the individual interests or circumstances of any particular investor.

9. **What is the effect of such event and/or action taken by the Determination Agent or the Issuer on the Securities?**

Any of the above actions, if taken by the Issuer or the Determination Agent, may result in a reduced return on the Securities and/or have a material adverse impact on the value of the Securities. For example, the early redemption amount in respect of the Securities could be less than such investor's initial investment and may be reduced to zero.

Further, if the Securities are redeemed or settled early prior to their scheduled maturity, an investor may be unable to reinvest the redemption proceeds in another investment at the time that provides an equivalent return.

10. **Will the Issuer notify me if such an event occurs and/or if it takes any of the above actions?**

Yes, the Issuer will generally give notice to Securityholders as soon as practicable upon making any adjustments to the terms and conditions of the Securities, or if it substitutes a Relevant Underlying with a replacement asset, or if the Issuer determines to redeem the Securities early.

- (a) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Screen Rate will be the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date in respect of such Interest Period or such Relevant Day, as determined by the Determination Agent;
- (b) in any other case, the Screen Rate will be the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date in respect of such Interest Period or such Relevant Day, as determined by the Determination Agent;
- (c) if, in the case of Condition 6.5(a) above, such rate does not appear on that page or, in the case of Condition 6.5(b) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Determination Agent will:
 - (i) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date in respect of such Interest Period or such Relevant Day to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and
 - (ii) determine the arithmetic mean of such quotations; and
- (d) if fewer than two such quotations are provided as requested, the Determination Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Determination Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Determination Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the Specified Currency to leading European banks for a period equal to the relevant Interest Period or for a Relevant Day and in an amount that is representative for a single transaction in that market at that time,

provided, however, that if the Determination Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period or any Relevant Day, the Screen Rate applicable to the Securities in respect of such Interest Period or such Relevant Day will be the rate (or as the case may be) the arithmetic mean last determined in relation to the Securities in respect of a preceding Interest Period or Relevant Day.

- 6.6 **ISDA Determination:** Subject to the provisions of Condition 6.20 (*Relevant Rates Benchmark Discontinuance or Prohibition on Use*), where such provisions are specified to apply in the applicable Issue Terms, Condition 6.21 (*CMS Reference Rate – Effect of Index Cessation Event*), or Condition 6.22 (*General Fallback Arrangements*), if ISDA Determination is specified in the applicable Issue Terms as the manner in which a Floating Interest Rate is to be determined, the Floating Interest Rate applicable to the Securities for each Interest Period will be the relevant ISDA Rate, plus or minus (as indicated in the applicable Issue Terms) the Margin (if any is specified in the applicable Issue Terms in relation to such ISDA Rate), and multiplied by the Interest Participation Rate (if any is specified in the applicable Issue Terms in relation to such ISDA Rate). The "**ISDA Rate**" in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Determination Agent under an interest rate swap transaction if the Determination Agent were acting as Calculation Agent for that

interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

6.7 **CMS Rate Determination:** Subject to the provisions of Condition 6.21 (*CMS Reference Rate – Effect of Index Cessation Event*), if CMS Rate Determination is specified in the applicable Issue Terms as the manner in which a Floating Interest Rate is to be determined, the Floating Interest Rate applicable to the Securities for each Interest Period will be the relevant CMS Interest Rate determined in accordance with paragraphs (a) or (b) below, as applicable.

(a) **Single CMS Rate**

If the CMS Interest Rate is specified in the applicable Issue Terms to be "**Single CMS Rate**", the CMS Interest Rate in respect of an Interest Period or any relevant day will be equal to the CMS Reference Rate for such Interest Period or such relevant day, plus or minus (as indicated in the applicable Issue Terms) the Margin (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate), and multiplied by the Interest Participation Rate (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate).

(b) **Spread CMS Rate**

If the CMS Interest Rate is specified in the applicable Issue Terms to be "**Spread CMS Rate**", the CMS Interest Rate in respect of an Interest Period or any relevant day will be equal to the difference between (1) CMS Reference Rate 1 for such Interest Period or such relevant day, plus or minus (as specified in the applicable Issue Terms) Margin 1 (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate 1), and multiplied by Interest Participation Rate 1 (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate 1), minus (2) CMS Reference Rate 2 for such Interest Period or such relevant day, plus or minus (as specified in the applicable Issue Terms) Margin 2 (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate 2), and multiplied by Interest Participation Rate 2 (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate 2).

(c) **Determination of CMS Reference Rate**

The CMS Reference Rate in respect of an Interest Period or any relevant day (as applicable) will be the Specified Swap Rate for swap transactions in the Reference Currency with a maturity of the Designated Maturity (expressed as a percentage rate per annum) (the "**Relevant Swap Rate**") which appears on the Relevant Screen Page as at the Relevant Time on the Interest Determination Date in respect of such Interest Period or such relevant day, all as determined by the Determination Agent. If the Relevant Swap Rate does not appear on the Relevant Screen Page at the Relevant Time, the CMS Reference Rate in respect of an Interest Period or a relevant day (as applicable) will be determined by the Determination Agent in accordance with the first applicable Fallback Rate Determination that provides a CMS Reference Rate, and if the applicable Issue Terms specify:

- (i) "**Fallback Screen Page**" to be applicable, the Determination Agent will, acting in good faith and in a commercially reasonable manner, determine an alternative or successor page or publication to the Relevant Screen Page for the Relevant Swap Rate;
- (ii) "**Mid-Market Quotations**" to be applicable, the Determination Agent will determine the CMS Reference Rate on the basis of the arithmetic mean of the Mid-Market Quotations provided by the Reference Banks at approximately the Relevant Time on the Interest Determination Date in respect of such Interest Period or such day by requesting the principal Relevant Financial Centre office of each of the Reference Banks to provide Mid-Market Quotations. If at least five Mid-Market Quotations are provided, the Determination Agent will determine the arithmetic mean of such Mid-Market Quotations provided by discarding the highest of such Mid-Market Quotations (or in event of equality, one of the highest) and lowest of such Mid-Market Quotations (or in event of equality, one of the lowest). If four Mid-Market Quotations are provided, the Determination Agent will determine the arithmetic mean of such Mid-Market Quotations provided. If less than four Mid-Market Quotations are provided, the next Fallback Rate Determination specified in the applicable Issue Terms will apply, or if none is specified, Determination Agent Fallback will apply. All calculations of the arithmetic mean of the relevant number of Mid-Market

Quotations provided pursuant to this paragraph will be rounded to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards; and

- (iii) "**Determination Agent Fallback**" to be applicable, the Determination Agent will, acting in good faith and in a commercially reasonable manner, determine the CMS Reference Rate by using available and relevant public information and having regard to comparable benchmarks available.

If any Fallback Rate Determination(s) are specified in the relevant Issue Terms, then only that or those (as the case may be) Fallback Rate Determinations shall apply and if two or more Fallback Rate Determinations are specified, those Fallback Rate Determinations shall apply in the order as specified in the applicable Issue Terms, such that if the Determination Agent determines that the CMS Reference Rate cannot be determined by applying a Fallback Rate Determination, then the next Fallback Rate Determination specified shall apply.

6.8 *Provisions specific to SOFR as Reference Rate*

- (i) If Screen Rate Determination is specified in the applicable Issue Terms as the manner in which a Floating Interest Rate is to be determined and SOFR is specified in the relevant Issue Terms as the Reference Rate, the Floating Interest Rate for an Interest Period will be the relevant SOFR Benchmark plus or minus (as indicated in the applicable Issue Terms) the Margin (as specified in the relevant Issue Terms), subject to a minimum of zero per cent.
- (ii) The "**SOFR Benchmark**" will be determined based on SOFR Compound with Lookback, SOFR Compound with Observation Period Shift, SOFR Compound with Payment Delay or SOFR Index Average, as follows:

Business Days falling a number of U.S. Government Securities Business Days prior to that day "i" equal to the number of Lookback Days.

- (2) if SOFR Compound with Observation Period Shift ("**SOFR Compound with Observation Period Shift**") is specified as applicable in the relevant Issue Terms, the SOFR Benchmark for each Interest Period shall be equal to the rate of return of a daily compound SOFR interest investment calculated in accordance with the following formula (with the resulting percentage rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards to 0.00001):

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SOFR_i \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

where:

"d" means the number of calendar days in the relevant Observation Period.

"**Observation Shift Days**" means the number of U.S. Government Securities Business Days specified in the relevant Issue Terms (which number shall not be specified as less than five without the prior agreement of the Calculation Agent).

"SOFR_i", for any U.S. Government Securities Business Day "i" in the relevant Observation Period, is equal to SOFR in respect of that day.

- (3) if SOFR Compound with Payment Delay ("**SOFR Compound with Payment Delay**") is specified as applicable in the relevant Issue Terms, the SOFR Benchmark for each Interest Period shall be equal to the rate of return of a daily compound SOFR interest investment calculated in accordance with the following formula (with the resulting percentage rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards to 0.00001):

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SOFR_i \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

where:

Where "SOFR Compound with Payment Delay" applies, for the purposes of calculating the SOFR Benchmark with respect to the final Interest Period, the level of SOFR for each U.S. Government Securities Business Day in the period from (and including) the SOFR Rate Cut-Off Date to (but excluding) the Maturity Date or the redemption date, as applicable, shall be the level of SOFR in respect of such SOFR Rate Cut-Off Date.

- (4) if SOFR Index Average ("**SOFR Index Average**") is specified as applicable in the relevant Issue Terms, the SOFR Benchmark for each Interest Period shall be equal to the rate of return of the SOFR Index calculated in accordance with the following formula (with the resulting percentage rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards to 0.00001):

$$\left(\frac{SONIA Index_{End}}{SONIA Index_{Start}} - 1 \right) \times \left(\frac{360}{d_c} \right)$$

"**Lookback Days**" means the number of Tokyo Banking Days specified in the relevant Issue Terms (which number shall not be specified as less than five without the prior agreement of the Calculation Agent);

"**n_i**" for any Tokyo Banking Day "i" in the relevant Interest Period, means the number of calendar days from, and including, such day "i" up to, but excluding, the following Tokyo Banking Day ("**i+1**");

"**TONA_{i-pTBD}**" for any Tokyo Banking Day "i" in the relevant Interest Period, is equal to TONA in respect of the Tokyo Banking Day falling a number of Tokyo Banking Days prior to that day "i" equal to the number of Lookback Days.

- (2) if TONA Compound with Observation Period Shift ("**TONA Compound with Observation Period Shift**") is specified as applicable in the relevant Issue Terms, the TONA Benchmark for each Interest Period shall be equal to the rate of return of a daily compound TONA interest investment calculated in accordance with the following formula (with the resulting percentage rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards to 0.00001):

$$\left(\prod_{i=1}^{d_0} \left(1 + \frac{\text{TONA}_i \times n_i}{365} \right) - 1 \right) \times \frac{365}{d}$$

where:

"**d**" means the number of calendar days in the relevant Observation Period;

"**d₀**" for any Observation Period, means the number of Tokyo Banking Days in the relevant Observation Period;

"i" is a series of whole numbers from one to d_0 , each representing the relevant Tokyo Banking Day in chronological order from, and including, the first Tokyo Banking Day in the relevant Observation Period;

" n_i " for any Tokyo Banking Day "i" in the relevant Observation Period, means the number of calendar days from, and including, such day "i" up to, but excluding, the following Tokyo Banking Day (" $i+1$ ");

"**Observation Period**" means, in respect of each Interest Period, the period from, and including, the date falling a number of Tokyo Banking Days equal to the Observation Shift Days preceding the first day of such Interest Period to, but excluding, the date falling a number of Tokyo Banking Days equal to the Observation Shift Days preceding the Interest Period End Date for such Interest Period;

"**Observation Shift Days**" means the number of Tokyo Banking Days specified in the relevant Issue Terms (which number shall not be specified as less than five without the prior agreement of the Calculation Agent); and

" $TONA_i$ " for any Tokyo Banking Day "i" in the relevant Observation Period, is equal to TONA in respect of that day "i".

- (3) if TONA Compound with Payment Delay ("**TONA Compound with Payment Delay**") is specified as applicable in the relevant Issue Terms, the TONA Benchmark for each Interest Period shall be equal to the rate of return of a daily compound TONA interest investment calculated in accordance with the following formula (with the resulting percentage rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards to 0.00001):

$$\left(\prod_{i=1}^{d_0} \left(1 + \frac{TONA_i \times n_i}{365} \right) - 1 \right) \times \frac{365}{d}$$

where:

" d " means the number of calendar days in the relevant Interest Period;

" d_0 " for any Interest Period, means the number of Tokyo Banking Days in the relevant Interest Period;

"i" is a series of whole numbers from one to d_0 , each representing the relevant Tokyo Banking Day in chronological order from, and including, the first Tokyo Banking Day in the relevant Interest Period;

" n_i " for any Tokyo Banking Day "i" in the relevant Interest Period, means the number of calendar days from, and including, such day "i" up to, but excluding, the following Tokyo Banking Day (" $i+1$ ");

" $TONA_i$ " for any Tokyo Banking Day "i" in the relevant Interest Period, is equal to TONA in respect of that day "i".

Where "TONA Compound with Payment Delay" applies, for the purposes of calculating TONA with respect to the final Interest Period, the level of TONA for each Tokyo Banking Day in the period from (and including) the TONA Rate Cut-Off Date to (but excluding) the Maturity Date or the redemption date, as applicable, shall be the level of TONA in respect of such TONA Rate Cut-Off Date.

- (4) if TONA Index Average ("**TONA Index Average**") is specified as applicable in the relevant Issue Terms, the TONA Benchmark for each Interest Period shall be equal to the rate of return of the TONA Index calculated in accordance with the following formula (with the resulting percentage rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards to 0.00001):

$$\left(\frac{TONA Index_{End}}{TONA Index_{Start}} - 1 \right) \times \left(\frac{365}{d} \right)$$

where:

"d" means the number of calendar days from, and including, the TONA Index_{Start} to, but excluding, the TONA Index_{End}.

"**Relevant Number**" means the number specified as such in the applicable Issue Terms (which number shall not be specified as less than five without the prior agreement of the Calculation Agent).

"**TONA Index**" means, in respect of any Tokyo Banking Day, the TONA Index in relation to such Tokyo Banking Day as provided by QUICK Corp (or any successor administrator) and published on the Relevant Screen Page, or if the Relevant Screen Page is unavailable, as otherwise published by QUICK Corp. (or successor administrator), in each case on such Tokyo Banking Day.

If the value of either or both of TONA Index_{Start} or TONA Index_{End} is not published or displayed on the Relevant Screen Page by the administrator of the TONA Index or other information service by 5.00 p.m. (Tokyo time) (or, if later, by the time falling one hour after the customary or scheduled time for publication thereof in accordance with the then-prevailing operational procedures of the administrator of the TONA Index or of such other information service, as the case may be) on the relevant Interest Determination Date, the TONA Benchmark for the applicable Interest Period for which the TONA Index is not available shall be determined as set out under Condition 6.12(ii)(2) (*TONA Compound with Observation Period Shift*) above as if TONA Compound with Observation Period Shift were specified as applicable in the relevant Issue Terms, and for these purposes: the Observation Shift Days in respect of the applicable Interest Period for which the TONA Index is not available shall be deemed to be equal to the Relevant Number of Tokyo Banking Days plus one (or such other number of Tokyo Banking Days as is specified for this purpose in the applicable Issue Terms), as if such alternative elections had been made in the applicable Issue Terms.

"**TONA Index_{End}**" means, with respect to an Interest Period, the TONA Index value on the date that is the Relevant Number of Tokyo Banking Days preceding (a) the Interest Payment Date relating to such Interest Period or (b) such other date on which the relevant payment of interest falls due (but which by its definition or the operation of the relevant provisions is excluded from such Interest Period).

"**TONA Index_{Start}**" means, with respect to an Interest Period, the TONA Index value on the date that is the Relevant Number of Tokyo Banking Days preceding the first date of the relevant Interest Period.

For the purposes of this Condition 6.12 (*Provisions specific to TONA as Reference Rate*), if TONA in respect of any Tokyo Banking Day (the "**Relevant Tokyo Banking Day**") is not published on the Relevant Screen Page or by an authorised distributor, and is not otherwise provided by the administrator of TONA, by either (A) the immediately following Tokyo Banking Day (or any amended publication day for TONA as specified by the administrator of TONA in the TONA benchmark methodology) or (B) such other date and time on which TONA for the Relevant Tokyo Banking Day is required for the purpose of any determination pursuant to the Conditions and, in either case, none of the events triggering the fallbacks specified in Conditions 6.20 (*Relevant Rates Benchmark Discontinuance or Prohibition on Use*) or 6.22 (*General Fallback Arrangements*) (as applicable) have occurred, TONA for the Relevant Tokyo Banking Day shall be deemed to be the rate equal to TONA for the most recent Tokyo Banking Day in respect of which TONA was so published or provided.

- 6.13 ***Equity-Linked, Commodity-Linked, Currency-Linked, Inflation-Linked, Fund-Linked Interest Provisions and Futures Contract-Linked Interest Provisions:*** If one of more of the Equity-Linked, Commodity-Linked, Currency-Linked, Inflation-Linked, Fund-Linked or Futures Contract-Linked Interest Provisions are specified in the applicable Issue Terms as being applicable, the interest payable in respect of the Securities for each Interest Period will be determined in accordance with such provisions of the Additional Terms and Conditions as are specified as being applicable in the applicable Issue Terms.

- 6.14 **Maximum or Minimum Rate of Interest:** If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the applicable Issue Terms, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.
- 6.15 **Calculation of Interest Amount:** In respect of Floating Rate Securities and in respect of Securities for which one or more of the Equity-Linked, Commodity-Linked, Currency-Linked, Inflation-Linked, Fund-Linked or Futures Contract-Linked Interest Provisions are specified in the applicable Issue Terms as being applicable ("**Other Underlying Interest Linked Securities**"), the Determination Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Floating Rate Security or, as the case may be, Other Underlying Interest Linked Security for such Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination (in the case of Notes) or Specified Unit Value (in the case of Certificates) of the relevant Security divided by the Calculation Amount. For this purpose a "**sub-unit**" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.
- 6.16 **Publication:** The Determination Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Paying Agents and each listing authority, stock exchange and/or quotation system (if any) by which the Securities have been admitted to listing, trading and/or quotation as soon as practicable after such determination and in any event not later than 15 Business Days after such determination. Notice thereof shall also be given to the Securityholders as soon as practicable after such determination and in any event not later than 15 Business Days after such determination. The Determination Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) in the event of an extension or shortening of the relevant Interest Period and shall be required to notify the Securityholders, the Paying Agents and each listing authority, stock exchange and/or quotation system (if any) by which the Securities have been admitted to listing, trading and/or quotation as soon as practicable after such recalculation and in any event not more than 15 Business Days after such recalculation has been made.
- 6.17 **Notifications etc.:** All notifications, certificates, calculations given, expressed, made or obtained for the purposes of this Condition 6 (*Floating Rate Security, Equity-Linked, Commodity-Linked, Currency-Linked, Inflation-Linked, Fund-Linked and Futures Contract-Linked Interest Provisions*) by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Paying Agents, the Securityholders and (subject as aforesaid) no liability to any such Person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers and duties for such purposes.
- 6.18 **Interest on Swedish Securities:** For the purposes of calculation of any amount of interest on Swedish Securities, the provisions of this Condition 6 (*Floating Rate Security, Equity-Linked, Commodity-Linked, Currency-Linked, Inflation-Linked, Fund-Linked and Futures Contract-Linked Interest Provisions*) shall be amended so that all periods shall consist of the period from (but excluding) the first day of the relevant period up to (and including) the last day of the relevant period.
- 6.19 **Interest on Structured Rate Linked Securities:** This Condition 6 (*Floating Rate Security, Equity-Linked, Commodity-Linked, Currency-Linked, Inflation-Linked, Fund-Linked and Futures Contract-Linked Interest Provisions*) shall apply to Floating to Fixed Rate Securities, Steepener Securities, Digital Option Securities, Inverse Floater Securities and Switchable Securities (collectively, the "**Structured Rate Linked Securities**"). Structured Rate Linked Securities (other than Fixed to Floating Switchable Securities) shall be deemed Floating Rate Securities for the purposes hereof and interest shall accrue and be payable on Structured Rate Linked Securities (other than Fixed to Floating Switchable Securities) in respect of each Interest Period at the Rate of Interest in accordance with Condition 6.3 (*Accrual of Interest*).

6.20 **Relevant Rates Benchmark Discontinuance or Prohibition on Use:** If (i) Condition 6.8 (*Effect of Benchmark Transition Event*) and Condition 6.21 (*CMS Reference Rate – Effect of Index Cessation Event*) do not apply and (ii) unless otherwise specified in the Issue Terms, where ISDA Determination is specified in the applicable Issue Terms as the manner in which the Floating Interest Rate is to be determined, after application of any ISDA Bespoke Fallbacks specified in the relevant Floating Rate Option (as defined in the ISDA Definitions) to apply following the occurrence of any of the following events and the application of such ISDA Bespoke Fallbacks fails to provide a means of determining the relevant Floating Rate (as defined in the ISDA Definitions), then, notwithstanding the terms set forth elsewhere in these Base Conditions, if the Determination Agent determines that any of the following events has occurred:

- (a) a public statement or publication of information by or on behalf of the administrator of the Relevant Rates Benchmark announcing that it has ceased or will cease to provide the Relevant Rates Benchmark permanently or indefinitely, provided that, at the time of statement or publication, there is no successor administrator that will continue to provide the Relevant Rates Benchmark; or
- (b) a public statement or publication of information by the regulatory supervisor for the administrator of the Relevant Rates Benchmark, the central bank for the currency of the Relevant Rates Benchmark, an insolvency official with jurisdiction over the administrator of the Relevant Rates Benchmark, a resolution authority with jurisdiction over the administrator of the Relevant Rates Benchmark or a court or an entity with similar insolvency or resolution authority over the administrator of the Relevant Rates Benchmark, which states that the administrator of the Relevant Rates Benchmark has ceased or will cease to provide the Relevant Rates Benchmark permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide the Relevant Rates Benchmark; or
- (c) unless otherwise specified in the Issue Terms, an Administrator/Benchmark Event occurs in relation to a Relevant Rates Benchmark,

then the Determination Agent may use, as a substitute for the Relevant Rates Benchmark, and for each future Interest Determination Date (or other rate fixing date), the alternative rates benchmark determined in accordance with the following provisions:

- (i) if an alternative reference rate, index or benchmark is specified in the Issue Terms for this purpose (an "**Alternative Pre-nominated Reference Rate**"), such Alternative Pre-nominated Reference Rate; or
- (ii) if an Alternative Pre-nominated Reference Rate is not specified in the Issue Terms, the alternative reference rate, index or benchmark selected by the central bank, reserve bank, monetary authority or any similar institution (including any committee or working group thereof) in the jurisdiction of the applicable index currency that is consistent with accepted market practice (the rate determined under sub-paragraph (i) above or this sub-paragraph (ii), the "**Alternative Rate**").

The Determination Agent may, after consultation with the Issuer, determine any adjustments to the Alternative Rate or the Margin (which may include the addition of an adjustment spread, which may be positive or negative, in order to reduce or eliminate, to the extent reasonably practicable, any transfer of economic value to or from the Issuer as a result of the replacement of the Relevant Rates Benchmark with the Alternative Rate), as well as the applicable Business Day Convention, Interest Determination Dates (or any other rate fixing dates) and related provisions and definitions of the Securities, in each case that are consistent with accepted market practice for the use of such Alternative Rate for debt obligations such as the Securities.

If the Determination Agent determines, after consultation with the Issuer, that no such Alternative Rate exists on the relevant date, it may, after consultation with the Issuer, determine an alternative rate to be used as a substitute for the Relevant Rates Benchmark (which shall be the "Alternative Rate" for the purposes of these provisions), as well as any adjustments to the Margin (including any adjustment spread), the Business Day Convention, the Interest Determination Dates (or any other rate fixing dates) and related provisions and definitions in respect of the Securities, in each

case, that are consistent with accepted market practice for the use of such Alternative Rate for debt obligations such as the Securities.

The Issuer will then provide a notice, in accordance with Condition 28 (*Notices*), to Securityholders to inform them of the occurrence of any of events listed in Conditions 6.20(a) to 6.20(c) (*the Relevant Rates Benchmark Discontinuance or Prohibition of Use*) above, the Alternative Rate and any adjustment determinations which will apply to the Securities. The notice shall also confirm the effective date of the Alternative Rate and any adjustments.

Notwithstanding anything else in this Condition 6.20 (*Relevant Rates Benchmark Discontinuance or Prohibition on Use*), if the Determination Agent determines that the selection of a particular index, benchmark or other price as an "Alternative Rate" (taking into account any necessary adjustments that would need to be made in accordance with this Condition 6.20 (*Relevant Rates Benchmark Discontinuance or Prohibition on Use*)) (1) is or would be unlawful under any applicable law or regulation; or (2) would contravene any applicable licensing requirements; or (3) would result in the Determination Agent, the Issuer or the Calculation Agent being considered to be administering a benchmark, index or other price source whose production, publication, methodology or governance would subject the Determination Agent, the Issuer or the Calculation Agent to material additional regulatory obligations which it is unwilling to undertake, then the Determination Agent shall not select such index, benchmark or price source as the Alternative Rate).

If the Determination Agent is unable to identify an Alternative Rate and determine the necessary adjustments to the terms of the Securities, then the Issuer may, in its reasonable discretion, determine that the Securities shall be redeemed as of any later date. If the Issuer so determines that the Securities shall be redeemed, then the Issuer shall give not less than five Business Days' notice to the Securityholders to redeem the Securities and upon redemption the Issuer will pay in respect of each Security an amount equal to either:

- (A) If "Early Redemption Amount (Benchmark Trigger Event) – Fixed Redemption" is specified in the applicable Issue Terms, an amount per Calculation Amount (expressed as a percentage) as specified in the applicable Issue Terms;
- (B) If "Early Redemption Amount (Benchmark Trigger Event) – Fixed Redemption Less Costs" is specified in the applicable Issue Terms, an amount per Calculation Amount (expressed as a percentage) as specified in the applicable Issue Terms less the reasonable cost to and/or the loss realised by, the Issuer and/or any Affiliate on unwinding any related hedging arrangements, in each case as calculated by the Determination Agent in its reasonable discretion;
- (C) If "Early Redemption Amount (Benchmark Trigger Event) – Fair Market Value Less Costs" is specified in the Issue Terms, the fair market value of such Security, on such date as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Security), less the proportion attributable to that Security of the reasonable cost to the Issuer and/ or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on unwinding any related hedging arrangements, all as calculated by the Determination Agent in its reasonable discretion; or
- (D) If "Early Redemption Amount (Benchmark Trigger Event) – Fair Market Value" is specified in the Issue Terms, the fair market value of such Security, on such day as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Security), as calculated by the Determination Agent in its reasonable discretion.

The Issuer's obligations under the Securities shall be satisfied in full upon payment of such amount.

In the case where ISDA Determination is specified in the applicable Issue Terms as the manner in which the Floating Interest Rate is to be determined, and the application of any ISDA Bespoke Fallbacks specified in the relevant Floating Rate Option results in a replacement of, modification to, or change in the method of calculating, the Floating Rate (or the index, benchmark or other

price source that is referred to in the Floating Rate Option), the Determination Agent may, after consultation with the Issuer, determine any adjustments to the Floating Rate and the Margin (including any adjustment spread) as well as the applicable Business Day Convention, Interest Determination Dates (or any other rate fixing dates) and related provisions and definitions of the Securities, in each case that are consistent with accepted market practice for the use of such replacement or modified Floating Rate for debt obligations such as the Securities. The Issuer will provide a notice, in accordance with Condition 28 (*Notices*), to Securityholders to inform them of any adjustment determinations which will apply to the Securities. The notice shall also confirm the effective date of any adjustments.

6.21 *CMS Reference Rate – Effect of Index Cessation Event*

This Condition 6.21 (*CMS Reference Rate – Effect of Index Cessation Event*) applies where (i) the Relevant Rates Benchmark is a CMS Reference Rate and (ii) the applicable Issue Terms specifies that the provisions of this Condition 6.21 (*CMS Reference Rate – Effect of Index Cessation Event*) are applicable.

- (a) *Index Cessation.* If, as of an Interest Determination Date or any other relevant day on which a CMS Reference Rate is to be determined, an Index Cessation Effective Date with respect to the applicable tenor of the then-current CMS Reference Rate has occurred, then the CMS Reference Rate in respect of such Interest Determination Date or other relevant day (as applicable) and each subsequent Interest Determination Date or other relevant day (as applicable) shall be the sum of (i) the Benchmark Replacement; and (ii) any adjustment spread (which may be a positive or negative value or zero), in each case determined on that Interest Determination Date or other relevant day (as applicable) by the Determination Agent acting in good faith and in a commercially reasonable manner. Following the occurrence of an Index Cessation Effective Date in respect of one or more Index Cessation Events, the determination of the Benchmark Replacement and any adjustment spread will be a one-time process and will apply to each following Interest Determination Date or other relevant day (as applicable).
- (b) *Early Redemption.* If the implementation of any Benchmark Replacement or Benchmark Replacement Conforming Changes results in a calculation of the CMS Reference Rate that is not consistent with market practice as determined by the Determination Agent, the Issuer may, in its reasonable discretion, determine that the Securities shall be redeemed as of any later date. If the Issuer so determines that the Securities shall be redeemed, then the Issuer shall give not less than five Business Days' notice to the Securityholders to redeem the Securities and upon redemption the Issuer will pay in respect of each Security an amount equal to:
- (i) if "Early Redemption Amount (CMS Reference Rate) – Fixed Redemption" is specified in the applicable Issue Terms, an amount per Calculation Amount (expressed as a percentage) as specified in the applicable Issue Terms;
 - (ii) if "Early Redemption Amount (CMS Reference Rate) – Fixed Redemption Less Costs" is specified in the applicable Issue Terms, an amount per Calculation Amount (expressed as a percentage) as specified in the applicable Issue Terms less the reasonable cost to and/or the loss realised by, the Issuer and/or any Affiliate on unwinding any related hedging arrangements, in each case as calculated by the Determination Agent in its reasonable discretion;
 - (iii) if "Early Redemption Amount (CMS Reference Rate) – Fair Market Value Less Costs" is specified in the applicable Issue Terms, an amount equal to the fair market value of such Security, on such day as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Security), less the proportion attributable to that Security of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on unwinding any related hedging arrangements, in each case as calculated by the Determination Agent in its reasonable discretion; or
 - (iv) if "Early Redemption Amount (CMS Reference Rate) - Fair Market Value" is specified in the Issue Terms, the fair market value of such Security, on such day as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15

days before the date fixed for redemption of the Security), as calculated by the Determination Agent in its reasonable discretion.

The Issuer's obligation under the Securities shall be satisfied in full upon payment of such amount.

- (c) *Decisions and Determinations.* Any determination, decision, selection or election that may be made by the Issuer, the Determination Agent or their respective designees, pursuant to this Condition 6.21 (*CMS Reference Rate – Effect of Index Cessation Event*), including any determination with respect to a tenor, rate, spread or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any determination, decision, selection or election:
- (i) will be conclusive and binding absent manifest error;
 - (ii) will be made in such person's sole discretion; and
 - (iii) notwithstanding anything to the contrary in the documentation relating to the Securities, shall become effective without consent from the holders of the Securities or any other party.
- (d) For the purposes of this Condition 6.21 (*CMS Reference Rate – Effect of Index Cessation Event*), the following terms shall bear the following meanings:

"Benchmark Replacement" means the first alternative benchmark set forth in the order below that can be determined by the Determination Agent as of the Interest Determination Date or other relevant day on which a CMS Reference Rate is to be determined, in each case next succeeding the relevant Index Cessation Effective Date (or, if the Index Cessation Effective Date occurs on the Interest Determination Date or other relevant day, that Interest Determination Date or other relevant day (as applicable)):

- (i) if an alternative reference rate, index or benchmark is specified in the Issue Terms for this purpose (an **"Alternative Pre-nominated Reference Rate"**), such Alternative Pre-nominated Reference Rate;
- (ii) the alternate rate of interest that has been selected or recommended by the relevant governmental body or agency with jurisdiction over the then-current CMS Reference Rate or the administrator thereof as the replacement for the then-current CMS Reference Rate for the applicable index maturity; or
- (iii) the alternate rate of interest that has been selected by the Determination Agent as the replacement for the then-current CMS Reference Rate for the applicable index maturity giving due consideration to any industry-accepted replacement rate for the then-current CMS Reference Rate for floating rate notes denominated in the Index Currency at such time, including any alternate rate recommended by the International Swaps and Derivatives Association, Inc. or any successor thereto.

In connection with the implementation of a Benchmark Replacement, the Determination Agent or its designee will have the right to make Benchmark Replacement Conforming Changes from time to time.

"Benchmark Replacement Conforming Changes" means, with respect to any Benchmark Replacement, any changes (including changes to the definition of "Interest Period", the timing and frequency of determining rates and making payments of interest, and other administrative matters) that the Determination Agent or its designee determines may be appropriate to reflect the adoption of such Benchmark Replacement in a manner substantially consistent with market practice (or, if the Determination Agent or its designee determines that adoption of any portion of such market practice is not administratively feasible or if the Determination Agent or its designee determines that no market practice for use of the Benchmark Replacement exists, in such other manner as the Determination Agent or its designee determines is reasonably necessary).

"CMS Reference Rate" means, initially, the CMS Reference Rate specified in the applicable Issue Terms; provided that if an Index Cessation Effective Date has occurred with respect to such rate

or the then-current CMS Reference Rate, then "CMS Reference Rate" means the applicable Benchmark Replacement. For the avoidance of doubt, such Benchmark Replacement will replace the then-current CMS Reference Rate for all purposes relating to the Securities.

"Index Cessation Effective Date" means, in respect of the then-current CMS Reference Rate and one or more Index Cessation Events, the first date on which the CMS Reference Rate would ordinarily have been published or provided and is no longer published or provided. If the CMS Reference Rate ceases to be provided on an Interest Determination Date or other relevant day, but it was provided at the time at which it is to be observed pursuant to these Conditions, then the Index Cessation Effective Date will be the next day on which the rate would ordinarily have been published or provided.

"Index Cessation Event" means, in respect of the then-current CMS Reference Rate:

- (i) a public statement or publication of information by or on behalf of the administrator of the CMS Reference Rate announcing that it has ceased or will cease to provide the CMS Reference Rate, permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator or provider, as applicable, that will continue to provide the CMS Reference Rate;
- (ii) a public statement or publication of information by the regulatory supervisor for the administrator of the CMS Reference Rate, the central bank for the currency of the CMS Reference Rate, an insolvency official with jurisdiction over the administrator for the CMS Reference Rate, a resolution authority with jurisdiction over the administrator for the CMS Reference Rate or a court or an entity with similar insolvency or resolution authority over the administrator for the CMS Reference Rate, which states that the administrator of the CMS Reference Rate has ceased or will cease to provide the CMS Reference Rate permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide the CMS Reference Rate;
- (iii) unless otherwise specified in the applicable Issue Terms, an Administrator/Benchmark Event occurs with respect to the CMS Reference Rate (with the CMS Reference Rate being the Relevant Rates Benchmark for the purpose of the definition of "Administrator/Benchmark Event").

"Index Currency" means the currency in respect of which the relevant CMS Reference Rate is calculated or expressed, as determined by the Determination Agent.

(e) *Application to multiple CMS Reference Rates.* If either:

- (i) the CMS Interest Rate is specified in the applicable Issue Terms to be "Spread CMS Rate"; or
- (ii) the Securities otherwise reference more than one CMS Reference Rate,

the foregoing provisions of this Condition 6.21 (*CMS Reference Rate – Effect of Index Cessation Event*) shall apply separately for each of CMS Reference Rate so referenced (including each of CMS Reference Rate 1 and CMS Reference Rate 2 in the case where the CMS Interest Rate is a "Spread CMS Rate" and for the purpose of construing such provisions, each of CMS Reference Rate 1 and CMS Reference Rate 2 shall be the "CMS Reference Rate"). However, if an Index Cessation Effective Date has occurred in respect of one or more CMS Reference Rate(s) (the **"Impacted CMS Reference Rate(s)"**) but not all of the CMS Reference Rate(s) referenced by the Securities (the **"Non-Impacted CMS Reference Rate(s)"**), the Issuer or its designee may elect to treat each of the Non-Impacted CMS Reference Rate(s) as if an Index Cessation Effective Date had occurred in respect of such Non-Impacted CMS Reference Rate and apply the foregoing provisions accordingly.

6.22 *General Fallback Arrangements*

The following provisions of this Condition 6.22 (*General Fallback Arrangements*) shall apply where:

- (i) the Relevant Rates Benchmark is EURIBOR, SONIA, €STR, SARON or TONA;
- (ii) such Relevant Rates Benchmark has been permanently discontinued;
- (iii) the applicable Issue Terms do not specify that the provisions of Condition 6.20 (*Relevant Rates Benchmark Discontinuance or Prohibition on Use*) are applicable; and
- (iv) unless otherwise specified in the Issue Terms, where ISDA Determination is specified in the applicable Issue Terms as the manner in which the Floating Interest Rate is to be determined, application of any ISDA Bespoke Fallbacks specified in the relevant Floating Rate Option (as defined in the ISDA Definitions) following the permanent discontinuation of the Relevant Rates Benchmark fails to provide a means of determining the relevant Floating Rate (as defined in the ISDA Definitions).

If this Condition 6.22 (*General Fallback Arrangements*) applies, then notwithstanding the terms set forth elsewhere in these Conditions; the Determination Agent will use, as a substitute for such Relevant Rates Benchmark, and for each future Interest Determination Date, the alternative reference rate selected by the central bank, reserve bank, monetary authority or any similar institution (including any committee or working group thereof) in the jurisdiction of the applicable index currency that is consistent with accepted market practice (the "Alternative Rate"). The Determination Agent will, after consultation with the Issuer, make such adjustments to the Alternative Rate or the Margin (or Margin 1 or Margin 2, as applicable), as well as the applicable Business Day Convention, Interest Determination Dates and related provisions and definitions of the Securities, in each case that are consistent with accepted market practice for the use of such Alternative Rate for debt obligations such as the Securities. However, in the case of EURIBOR only, if the Determination Agent determines, after consultation with the Issuer, that no such Alternative Rate exists on the relevant date, it shall make a determination, after consultation with the Issuer, of an alternative rate as a substitute for EURIBOR, for debt obligations such as the Securities, as well as the Margin, the Business Day Convention and the Interest Determination Dates in respect of the Securities, that is consistent with accepted market practice.

In the case where ISDA Determination is specified in the applicable Issue Terms as the manner in which the Floating Interest Rate is to be determined, and the application of any ISDA Bespoke Fallbacks specified in the relevant Floating Rate Option results in a replacement of, modification to, or change in the method of calculating, the Floating Rate (or the index, benchmark or other price source that is referred to in the Floating Rate Option), the Determination Agent may, after consultation with the Issuer, determine any adjustments to the Floating Rate and the Margin (or Margin 1 or Margin 2, as applicable), (including any adjustment spread) as well as the applicable Business Day Convention, Interest Determination Dates (or any other rate fixing dates) and related provisions and definitions of the Securities, in each case that are consistent with accepted market practice for the use of such replacement or modified Floating Rate for debt obligations such as the Securities. The Issuer will provide a notice, in accordance with Condition 28 (*Notices*), to Securityholders to inform them of any adjustment determinations which will apply to the Securities. The notice shall also confirm the effective date of any adjustments.

7. ZERO COUPON SECURITY PROVISIONS

7.1 **Application:** This Condition 7 (*Zero Coupon Security Provisions*) is applicable to the Securities only if the Zero Coupon Security Provisions are specified in the applicable Issue Terms as being applicable.

9.1 **Market Disruption, Reference Dates and Averaging Dates**

- (a) If a Reference Date is not a Scheduled Trading Day, the relevant Reference Date shall be the next succeeding Scheduled Trading Day or, if either "Common Scheduled Trading Days and Common Disrupted Days" or "Common Scheduled Trading Days and Individual Disrupted Days" is specified to be applicable in the applicable Issue Terms, the next succeeding Common Scheduled Trading Day.
- (b) If any Scheduled Reference Date is a Disrupted Day, then:
- (i) in the case of a Single Index Security, Single Share Security or Single ETF Security, the relevant Reference Date shall be the earlier of (i) the first succeeding Scheduled Trading Day that is not in the determination of the Determination Agent a Disrupted Day and (ii) the Reference Cut-Off Date (notwithstanding that such Scheduled Trading Day is a Disrupted Day).

- (A) where "Individual Scheduled Trading Days and Individual Disrupted Days" is specified to be applicable in the relevant Issue Terms, if the Determination Agent determines that any Scheduled Reference Date is a Disrupted Day in respect of any Basket Component, then:

- (B) "Postponement", then Condition 9.1(b) will apply for the purposes of determining the Relevant Underlying Value on that date as if such date were a Reference Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date in respect of the Reference Date; or
- (C) "Modified Postponement", then the Averaging Date shall be the earlier of (I) the first Valid Date following the Scheduled Averaging Date and (II) the Averaging Cut-Off Date, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Date.

(2) if, in relation to "**Averaging Date Disruption**", the consequence specified in the relevant Issue Terms is "Postponement":

- (a) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Date; and
- (b) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is a Disrupted Day (each such Basket Component, an "**Affected Basket Component**") shall be the earlier of (I) the first Scheduled Trading Day following the Scheduled Averaging Date that is not a Disrupted Day in respect of such Affected

Any day (including, for the avoidance of doubt, the Averaging Cut-Off Date) determined to be an Averaging Date as a result of the operation of this Condition 9.1(c)(ii)(A)(2)(b) shall be an Averaging Date, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Date; or

 - (a) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Date; and
 - (b) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is a Disrupted Day (each such Basket Component, an "**Affected Basket Component**") shall be the earlier of (I) the first Valid Date following the Scheduled Averaging Date in respect of such Affected Basket Component and (II) the Averaging Cut-Off Date for such Affected Basket Component, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Date;

(B) where "Common Scheduled Trading Days and Common Disrupted Days" is specified to be applicable in the relevant Issue Terms:

- (1) if, in relation to "**Averaging Date Disruption**", the consequence specified in the relevant Issue Terms is "Omission", such date will be deemed not to be a relevant Averaging Date in respect of any Basket Component for the purposes of determining the Relevant Underlying Value, as applicable **provided that**, if through the operation of this provision there would be no Averaging Date in respect of such Reference Date, then the sole Averaging Date for each Basket Component shall be the earlier of (A) the first Common Scheduled Trading Day following the Scheduled Averaging Date that is not a Disrupted Day for any Basket Component and (B) the Averaging Cut-Off Date (notwithstanding the fact that such Averaging Cut-Off Date may not be a Common Scheduled Trading Day);
- (2) if, in relation to "**Averaging Date Disruption**", the consequence specified in the relevant Issue Terms is "Postponement", then the Averaging Date for each Basket Component shall be the earlier of (A) the first Common Scheduled Trading Day following the Scheduled Averaging Date that is not a Disrupted Day in respect of any Basket Component and (B) the Averaging Cut-Off Date (notwithstanding the fact that such Averaging Cut-Off Date may not be a Common Scheduled Trading Day). Any day (including, for the avoidance of doubt, the Averaging Cut-Off Date) determined to be an Averaging Date as a result of the operation of this Condition 9.1(c)(ii)(B)(2) shall be an Averaging Date, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Date; or
- (3) if, in relation to "**Averaging Date Disruption**", the consequence specified in the relevant Issue Terms is "Modified Postponement", then the Averaging Date for each Basket Component shall be the earlier of (A) the first Common Valid Date following the Scheduled Averaging Date and (II) the Averaging Cut-Off Date (notwithstanding the fact that such Averaging Cut-Off Date may not be a Common Scheduled Trading Day), irrespective of whether it falls on a day that already is or is deemed to be an Averaging Date;

- (C) where "Common Scheduled Trading Days and Individual Disrupted Days" is specified to be applicable in the relevant Issue Terms:
- (1) if, in relation to "**Averaging Date Disruption**", the consequence specified in the relevant Issue Terms is "Omission":
 - (a) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Date; and
 - (b) such date shall not be an Averaging Date in respect of such Reference Date for any Basket Component in respect of which the Scheduled Averaging Date is a Disrupted Day (each such Basket Component, an "**Affected Basket Component**"), provided that if through the operation of this provision there would not be any Averaging Date in respect of such Reference Date for the Affected Basket Component, then the sole Averaging Date for such Affected Basket Component shall be the earlier of (I) the first Scheduled Trading Day following the final Scheduled Averaging Date that is not a Disrupted Day in respect of such Affected Basket Component and (II) the Averaging Cut-Off Date for such Affected Basket Component (notwithstanding the fact that such day may not be a Common Scheduled Trading Day);
 - (2) if, in relation to "**Averaging Date Disruption**", the consequence specified in the relevant Issue Terms is "Postponement":
 - (a) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Date; and
 - (b) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is a Disrupted Day (each such Basket Component, an "**Affected Basket Component**") shall be the earlier of (I) the first Scheduled Trading Day following the Scheduled Averaging Date that is not a Disrupted Day in respect of such Affected Basket Component and (II) the Averaging Cut-Off Date for such Affected Basket Component (notwithstanding the fact that such day not be a Common Scheduled Trading Day). Any day (including, for the avoidance of doubt, the Averaging Cut-Off Date) determined to be an Averaging Date as a result of the operation of this Condition 9.1(c)(ii)(C)(2)(b) shall be an Averaging Date, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Date; or
 - (3) if, in relation to "**Averaging Date Disruption**", the consequence specified in the relevant Issue Terms is "Modified Postponement":
 - (a) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Date; and
 - (b) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is a Disrupted Day (each such Basket Component, an "**Affected Basket Component**") shall be the earlier of (I) the first Valid Date (that is a Scheduled Trading Day) following the Scheduled Averaging Date in respect of such Affected Basket Component and (II) the Averaging Cut-Off Date for such Affected Basket Component, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Date;

- (iii) If, in respect of any Single Index Security, Single Share Security, Single ETF Security, Index Basket Security, Share Basket Security or ETF Basket Security (as the case may be), an Averaging Date falls on the relevant Averaging Cut-Off Date pursuant to this Condition 9.1(c)(iii):
 - (A) if such Averaging Cut-Off Date is not a Disrupted Day for such Single Index Security, Single Share Security, Single ETF Security, Index Basket Security, Share Basket Security or ETF Basket Security (as the case may be), the Determination Agent shall determine the level of such Index or the value of such Share or ETF Interest (as the case may be) as at the Determination Time on such Averaging Cut-Off Date; or
 - (B) if such Averaging Cut-Off Date is a Disrupted Day:
 - (1) in respect of Single Index Securities and Index Basket Securities, the Determination Agent shall determine, in its reasonable discretion, the level of such Index as of the Determination Time on such date in accordance with the formula for and method of calculating such Index last in effect prior to the occurrence of the first Disrupted Day using (x) except in respect of a Proprietary Index, the Exchange traded or quoted price as of the Determination Time on such Averaging Cut-Off Date of each security comprised in that Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on such Averaging Cut-Off Date, its estimate of the value for the relevant security as of the Determination Time on such Averaging Cut-Off Date, acting in good faith and a commercially reasonable manner)) and (y) in respect of a Proprietary Index, such levels or values as the Determination Agent determines to be appropriate as of the Determination Time on or in respect of such Averaging Cut-Off Date of each Component comprised in such Proprietary Index in respect of such Averaging Cut-off Date; and

- (iv) If any Averaging Dates in relation to a Reference Date occur after that Reference Date as a result of the occurrence of a Disrupted Day, then (i) the relevant Interest Payment Date, Maturity Date, Automatic Early Redemption Date or, as the case may be, the relevant Physical Settlement Date or (ii) the occurrence of an Extraordinary Event, an Extraordinary ETF Event, an Index Adjustment Event, a Potential Adjustment Event or an Additional Disruption Event shall be determined by reference to the last such Averaging Date as though it were that Reference Date.

9.2 Adjustments to Indices

This Condition 9.2 (*Adjustments to Indices*) is applicable only in relation to Securities specified in the relevant Issue Terms as being Single Index Securities or Index Basket Securities.

(a) Successor Index

If a relevant Index is (a) not calculated and announced by the Index Sponsor, but is calculated and announced by a successor sponsor acceptable to the Determination Agent in its reasonable discretion or (b) replaced by a Successor Index using, in the determination of the Determination Agent (such determination to be at the Determination Agent's reasonable discretion), the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the "**Successor Index**") will be deemed to be the Index.

(b) Index Cancellation or Administrator/ Benchmark Event Date

If on or prior to any Reference Date either (1) the Index Sponsor permanently cancels the Index and no Successor Index exists (an "**Index Cancellation**") or (2) the applicable Issue Terms specify that the Benchmark Trigger Provisions are applicable and an Administrator/ Benchmark Event and an Administrator/ Benchmark Event Date occurs in respect of such Index, then:

(i) If the applicable Issue Terms specify that the Benchmark Trigger Provisions are applicable and if an Alternative Pre-nominated Index has been specified in relation to such Index in the applicable Issue Terms, then:

(A) the Determination Agent shall attempt to determine an Adjustment Payment;

(B) if the Determination Agent determines an Adjustment Payment,

(aa) it shall notify the Issuer of the Adjustment Payment and if the Adjustment Payment is an amount that the Securityholder would (but for Condition 9.2(b)(i)(B)(cc)(b)) be required to pay to the Issuer in respect of each Security, request the Issuer to notify the Determination Agent whether it intends to redeem the Securities pursuant to Condition 9.2(d). If the Issuer does not intend to redeem the Securities pursuant to Condition 9.2(d) then the following provisions of this Condition 9.2(b)(i) shall apply;

(bb) the terms of the Securities shall be amended so that references to the Index are replaced by references to the Alternative Pre-nominated Index;

(cc) the Conditions shall be adjusted to implement the Adjustment Payment as follows:

(a) if the Adjustment Payment is an amount that the Issuer is required to pay in respect of each Security, the Determination Agent shall adjust the Conditions to provide for the payment of the Adjustment Payment on the immediately succeeding Interest Payment Date or if there is no such immediately succeeding Interest Payment Date, on the Maturity Date or other date when the Securities are redeemed in full; or

(b) if the Adjustment Payment is an amount that the Securityholder would (but for this Condition 9.2(b)(i)(B)(cc)(b)) be required to pay to the Issuer in respect of each Security, the Determination Agent shall adjust the Conditions to provide for the reduction of the amounts due by the Issuer until the aggregate amount of such reductions is equal to the Adjustment Payment, (subject, in the determination of the Determination Agent, to any minimum redemption amount of the Securities which the Determination Agent determines is required pursuant to any applicable law or regulation (including, without limitation, any tax law) and the rules of each listing authority, stock exchange and/or quotation system by which the Securities have then been admitted to listing, trading and/or quotation);

(dd) the Determination Agent shall make such other adjustments to the Conditions as it determines necessary or appropriate in order to account for the effect of the replacement of the Index with the Alternative Pre-nominated Index and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the replacement of the Index with the Alternative Pre-nominated Index; and

(ee) the Determination Agent shall notify the Issuer and the Fiscal Agent of any the replacement of the Index by the Alternative Pre-nominated Index, the Adjustment Payment and any other adjustments to the Conditions. The Fiscal Agent shall provide notice to the Securityholders of the replacement of the Index by the Alternative Pre-nominated Index, the Adjustment Payment and

any other adjustments to the Conditions in accordance with Condition 28.6 (*Notices*), giving summary details of the adjustment, provided that any failure to give such notice shall not affect the validity of the foregoing.

(C) If the Determination Agent is unable to determine an Adjustment Payment then Condition 9.2(d) shall apply.

(ii) If the applicable Issue Terms do not specify that the Benchmark Trigger Provisions are applicable or, if the Issue Terms specify that the Benchmark Trigger Provisions are applicable but do not specify an Alternative Pre-nominated Index in relation to the Relevant Equity Benchmark, then Condition 9.2(d) shall apply.

(c) Index Modification and Index Disruption:

If (i) on or prior to any Reference Date or Averaging Date, a relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituents and capitalisation and other routine events) (an "**Index Modification**") or (ii) on any Reference Date or Averaging Date, the Index Sponsor fails to calculate and announce a relevant Index (**provided that** the Determination Agent may, in its reasonable discretion, determine that, in respect of a Multi exchange Index or a Proprietary Index, such failure to calculate and announce such Index shall instead be a Disrupted Day in respect of such Index) (an "**Index Disruption**") then the Determination Agent shall determine if such Index Modification or Index Disruption has a material effect on the Securities and, if so, subject to Condition 9.2(d), shall calculate in its reasonable discretion the Relevant Underlying Value using, in lieu of a published level for that Index, the level for that Index as at that Reference Date or, as the case may be, that Averaging Date as determined by the Determination Agent in its reasonable discretion in accordance with the formula for and method of calculating that Index last in effect prior to that change, failure or cancellation, but using only those securities that comprised that Index immediately prior to that Index Adjustment Event.

(d) Redemption for Index Adjustment Event:

If:

- (i) an Index Cancellation occurs and the Issue Terms do not specify that the Benchmark Trigger Provisions are applicable;
- (ii) an Index Cancellation or an Administrator/Benchmark Event Date occurs, the Issue Terms specify that the Benchmark Trigger Provisions are applicable but do not specify an Alternative Pre-nominated Index;
- (iii) an Index Cancellation or an Administrator/ Benchmark Event Date occurs, the Issue Terms specify that the Benchmark Trigger Provisions are applicable and specify an Alternative Pre-nominated Index but the Determination Agent is unable to determine the Adjustment Payment;
- (iv) an Index Cancellation or an Administrator/ Benchmark Event Date occurs, the Issue Terms specify that the Benchmark Trigger Provisions are applicable and specify an Alternative Pre-nominated Index and the Determination Agent determines that the Adjustment Payment would be an amount that the Securityholder would (but for Condition 9.2(b)(i)(B)(cc)(b)) be required to pay to the Issuer in respect of each Security; or
- (v) an Index Modification or an Index Disruption occurs and it (a) would be unlawful at any time under any applicable law or regulation or (b) would contravene any applicable licensing requirements, in each case for the Determination Agent to calculate the Relevant Underlying Value in accordance with Condition 9.2(c),

then the Issuer may, at any time thereafter and in its reasonable discretion, determine that the Securities shall be redeemed as of any later date. If the Issuer so determines that the Securities shall be redeemed, then the Issuer shall give not less than five Business Days' notice to the Securityholders to redeem the Securities and upon redemption the Issuer will pay in respect of each Security an amount equal to either:

- (i) if "Early Redemption Amount (Index Cancellation) – Fair Market Value Less Costs" is specified in the Issue Terms, the fair market value of such Security, on such day as is selected by the Determination Agent in its reasonable discretion (**provided that** such day is not more than 15 days before the date fixed for redemption of the Security), less the proportion attributable to that Security of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its reasonable discretion; or
- (ii) if "Early Redemption Amount (Index Cancellation) – Fair Market Value" is specified in the Issue Terms, the fair market value of such Security, on such day as is selected by the Determination Agent in its reasonable discretion (**provided that** such day is not more than 15 days before the date fixed for redemption of the Security), as calculated by the Determination Agent in its reasonable discretion.

The Issuer's obligations under the Securities shall be satisfied in full upon payment of such amount.

- (e) If the Issuer determines that the relevant Securities shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its reasonable discretion, considers appropriate, if any, to the formula and other provisions for determining the Final Redemption Amount, any Interest Amount or the Relevant Underlying Value (as defined in Section 4 (*Value Determination Terms*) of the Additional Terms and Conditions) set out in these General Conditions and such provisions of the Additional Terms and Conditions as are specified as being applicable in the applicable Issue Terms, and any other variable relevant to the settlement or payment terms of the Securities, which change or adjustment shall be effective on such date as the Determination Agent shall determine. The Fiscal Agent shall provide notice to the Securityholders of any such change or adjustment, giving summary details of the relevant change or adjustment, in accordance with Condition 28.6 (*Notices*), provided that any failure to give such notice shall not affect the validity of any such change or adjustment.
- (f) Correction of Index Levels

If the level of an Index published by the Index Sponsor and which is utilised by the Determination Agent for any calculation or determination (the "**Original Determination**") under the Securities is subsequently corrected and the correction (the "**Corrected Value**") is published by the Index Sponsor by such time (the "**Correction Cut Off Time**") as may be specified in the relevant Issue Terms (or, if none is so specified, within one Settlement Cycle after the original publication and prior to the relevant Interest Payment Date, Automatic Early Redemption Date, Early Redemption Date or Maturity Date), then the Determination Agent will notify the Issuer and the Fiscal Agent of the Corrected Value as soon as reasonably practicable and shall determine the relevant value (the "**Replacement Determination**") using the Corrected Value. If the result of the Replacement Determination is different from the result of the Original Determination, to the extent that it determines to be necessary and practicable, the Determination Agent may, acting in good faith and a commercially reasonable manner, adjust any relevant terms accordingly. The Fiscal Agent shall provide notice to the Securityholders of any such adjustment in accordance with Condition 28.6 (*Notices*), giving summary details of the adjustment, provided that any failure to give such notice shall not affect the validity of any such adjustment.

9.3 Adjustments affecting Shares and ETF Interests

This Condition 9.3 (*Adjustments affecting Shares and ETF Interests*) is applicable only in relation to Single Share Securities, Single ETF Securities, Share Basket Securities and ETF Basket Securities.

(a) Adjustments for Potential Adjustment Events

Following the declaration by the Underlying Issuer, the relevant ETF or an ETF Service Provider of the terms of a Potential Adjustment Event, the Determination Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Shares or ETF Interests and, if so, will (i) make such adjustment as it in its reasonable discretion considers appropriate, if any, to the formula or other provisions for determining the Final Redemption Amount, any Interest Amount and/or the Relevant Underlying Value set out in these General Conditions or such provisions of the Additional Terms and Conditions as are specified as being applicable in the applicable Issue Terms, the number of Shares or ETF Interests to which each Security relates, the number of Shares or ETF Interests comprised in a Basket of Shares or Basket of ETF Interests, the amount, the number of or type of shares, fund interests or other securities which may be delivered in respect of such Securities and/or any other adjustment and, in any case, to any other variable relevant to the exercise, settlement, payment or other terms of the relevant Securities as the Determination Agent determines, in its reasonable discretion, to be appropriate to account for that diluting or concentrative effect, including, in respect of any Single Share Securities or Single ETF Securities, adjustments that result in the payment of interest and/or principal in respect of the Securities to cease to be linked to the Shares or ETF Interests, as applicable, of a single entity and instead become linked to a basket of shares or ETF interests, as applicable, of entities (with the respective weightings in respect of each entity being determined by the Determination Agent in its reasonable discretion) (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate, or liquidity relative to such Shares or ETF Interests) and (ii) determine, in its reasonable discretion, the effective date(s) of such adjustment(s). The Determination Agent may (but need not) determine the appropriate adjustment(s) by reference to the adjustment(s) in respect of such Potential Adjustment Event made by an options exchange to options on the relevant Shares or ETF Interests, as the case may be, traded on such options exchange. The Fiscal Agent shall provide notice to the Securityholders of any such adjustment in accordance with Condition 28.6 (*Notices*), giving summary details of the adjustment, provided that any failure to give such notice shall not affect the validity of any such adjustment.

(b) Correction of Share and ETF Interest Prices

If any price published on the Exchange and which is utilised by the Determination Agent for any calculation or determination (the "**Original Determination**") under the Securities is subsequently corrected and the correction (the "**Corrected Value**") is published by the Exchange by such time as may be specified in the relevant Issue Terms (the "**Correction Cut Off Time**") (or, if none is so specified, within one Settlement Cycle after the original publication and prior to the relevant Interest Payment Date, Automatic Early Redemption Date, Early Redemption Date or Maturity Date), then the Determination Agent will notify the Issuer and the Fiscal Agent of the Corrected Value as soon as reasonably practicable and shall determine the relevant value (the "**Replacement Determination**") using the Corrected Value. If the result of the Replacement Determination is different from the result of the Original Determination, to the extent that it determines to be necessary and practicable, the Determination Agent may, acting in good faith and a commercially reasonable manner, adjust any relevant terms accordingly. The Fiscal Agent shall provide notice to the Securityholders of any such adjustment in accordance with Condition 28.6 (*Notices*), giving summary details of the adjustment, provided that any failure to give such notice shall not affect the validity of any such adjustment.

The relevant adjustments may include, without limitation, adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or ETF Interests or to the Securities.
- (iii) The Fiscal Agent shall provide notice to the Securityholders of (a) any Successor Share/ETF Interest identified in accordance with sub-paragraph (A) above and (b) any adjustment made in accordance with sub-paragraph (B) above, in each case, in accordance with Condition 28.6 (*Notices*), giving summary details of the adjustment, if applicable, provided that any failure to give such notice shall not affect the validity of any such adjustment.

- (iv) The Issuer shall as soon as reasonably practicable under the circumstances notify the Fiscal Agent of the Determination Agent's determination of the occurrence of an Extraordinary Event.
- (v) If the Issuer determines that the relevant Securities shall be redeemed early, then the Issuer shall give not less than five Business Days' notice to redeem the Securities. - (b) If the applicable Issue Terms for a Series of Commodity-Linked Securities specifies that any Commodity Disruption Event shall be applicable to such Series, then, where the Determination Agent determines, acting in a commercially reasonable manner, that such Commodity Disruption Event has occurred and is continuing in respect of such Series on a Pricing Date in respect of such Series (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the Price Source), or on any other day as may be specified for this purpose in the relevant Issue Terms, then the Relevant Underlying Value will be determined in accordance with the terms of the Commodity Disruption Fallback applicable pursuant to Condition 10.3 (*Commodity Disruption Fallbacks*).

In that case, the next Disruption Fallback (if any) specified in the relevant Issue Terms will apply;
- (iii) **"Commodity Fallback Value"** means the arithmetic mean of the quotations provided to the Determination Agent by each of the Reference Dealers as its Commodity Reference Price for the relevant Pricing Date of the relevant Commodity, provided that if only three such quotations are so provided, the Commodity Fallback Value shall be the Commodity Reference Price remaining after disregarding the Commodity Reference Prices having the highest and lowest values (or if more than one such highest or lowest, one only of them). If the Benchmark Trigger Provisions are specified in the applicable Issue Terms as being applicable and an Administrator/Benchmark Event Date occurs in respect of any Relevant Commodity Benchmark:

provisions of these Conditions shall be deemed to be references to the "Relevant Commodity Benchmark";

- (b) if it (i) is or would be unlawful at any time under any applicable law or regulation or (ii) would contravene any applicable licensing requirements, in each case for the Issuer, the Determination Agent or the Calculation Agent to perform the actions prescribed in an applicable Commodity Disruption Fallback (or it would be unlawful or would contravene those licensing requirements were a determination to be made at such time), the next applicable Commodity Disruption Fallback will apply; and
- (c) if the Determination Agent determines that the last applicable Commodity Disruption Fallback does not provide the Relevant Underlying Value (including due to the applicability of paragraph (b) above in relation to the last applicable Commodity Disruption Fallback), then the Issuer shall give not less than five Business Days' notice to redeem the Securities and the Issuer's obligations under the Securities shall be satisfied in full upon payment in respect of each Security of an amount equal to either:
 - (i) if "Early Redemption Amount (Administrator/Benchmark Event) – Fair Market Value Less Costs" is specified in the Issue Terms, the fair market value of such Security, on such day as is selected by the Determination Agent in its reasonable discretion (**provided that** such day is not more than 15 days before the date fixed for redemption of the Security), less the proportion attributable to that Security of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its reasonable discretion; or
 - (ii) if "Early Redemption Amount (Administrator/Benchmark Event) – Fair Market Value" is specified in the Issue Terms, the fair market value of such Security, on such day as is selected by the Determination Agent in its reasonable discretion (**provided that** such day is not more than 15 days before the date fixed for redemption of the Security), as calculated by the Determination Agent in its reasonable discretion.

 - (iii) subject to paragraph (d) below, the Determination Agent shall determine the Relevant Underlying Value by reference to the closing prices determined in paragraphs (a) and (b) above using the then current method for calculating the relevant Commodity Index; and
 - (iv) where a Commodity Index Disruption Event with respect to one or more Components continues to exist (measured from and including the first day following the applicable determination date) for five consecutive Trading Days, the Determination Agent shall determine the Relevant Underlying Value acting in good faith and in a commercially reasonable manner. In calculating the Relevant Underlying Value as set out in this paragraph, the Determination Agent shall use the formula for calculating the relevant Commodity Index last in effect prior to the Commodity Index Disruption Event.
- (c) If it (a) is or would be unlawful at any time under any applicable law or regulation or (b) would contravene any applicable licensing requirements, for the Determination Agent to perform the actions prescribed in Condition 10.6(b) above then the Issuer shall give not less than five Business Days' notice to redeem the Securities and the Issuer's obligations under the Securities shall be satisfied in full upon payment in respect of each Security of an amount equal to either:

 - (ii) if "Early Redemption Amount (Commodity Index Disruption Event) – Fair Market Value" is specified in the Issue Terms, the fair market value of such Security, on such day as is selected by the Determination Agent in its reasonable discretion (**provided that** such day is not more than 15 days before the date fixed for redemption of the Security), as calculated by the Determination Agent in its reasonable discretion.

- (b) Commodity Index Cancellation or Administrator/ Benchmark Event Date

If, for a Commodity Index with respect to a Commodity Reference Price, on or prior to the Maturity Date or Early Redemption Date, either (1) the Sponsor permanently cancels the Commodity Index and no Successor Index exists (a "**Commodity Index Cancellation**") or (2) the applicable Issue Terms specify that the Benchmark Trigger Provisions are applicable and an Administrator/ Benchmark Event and an Administrator/ Benchmark Event Date occurs in respect of such Commodity Index, then:

(b) if the Adjustment Payment is an amount that the Securityholder would (but for this Condition 10.7(b)(i)(B)(cc)(b)) be required to pay to the Issuer in respect of each Security, the Determination Agent shall adjust the Conditions to provide for the reduction of the amounts due by the Issuer until the aggregate amount of such reductions is equal to the Adjustment Payment, (subject, in the determination of the

Determination Agent, to any minimum redemption amount of the Securities which the Determination Agent determines is required pursuant to any applicable law or regulation (including, without limitation, any tax law) and the rules of each listing authority, stock exchange and/or quotation system by which the Securities have then been admitted to listing, trading and/or quotation);

- (dd) the Determination Agent shall make such other adjustments to the Conditions as it determines necessary or appropriate in order to account for the effect of the replacement of the Commodity Index with the Alternative Pre-nominated Index and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the replacement of the Commodity Index with the Alternative Pre-nominated Index; and
 - (ee) the Determination Agent shall notify the Issuer and the Fiscal Agent of any such Adjustment Payment and adjustments to the Conditions.
- (C) If the Determination Agent is unable to determine an Adjustment Payment then Condition 10.7(d) shall apply.
- (ii) If the applicable Issue Terms do not specify that the Benchmark Trigger Provisions are applicable or, if the Issue Terms specify that the Benchmark Trigger Provisions are applicable but do not specify an Alternative Pre-nominated Index in relation to the Relevant Equity Benchmark, then Condition 10.7(d) shall apply.
- (c) If, for a Commodity Index with respect to a Commodity Reference Price, on or prior to the Maturity Date or Early Redemption Date, (i) the Sponsor makes a material change in the formula for or the method of calculating such Commodity Index or in any other way materially modifies such Commodity Index (other than a modification prescribed in that formula or method to maintain the Commodity Index in the event of changes in constituent commodities and weightings and other routine events) (a "**Commodity Index Modification**") or, (ii) the Sponsor fails to calculate and announce the Commodity Index for a continuous period of three Trading Days and the Determination Agent determines that there is no Successor Sponsor or Successor Index (a "**Commodity Index Disruption**"), then the Determination Agent may at its option (in the case of (i)) and shall (in the case of (ii)) calculate the Relevant Underlying Value using in lieu of the published level for that Commodity Index (if any), the level for that Commodity Index as at the relevant determination date as determined by the Determination Agent in accordance with the formula for and method of calculating that Commodity Index last in effect prior to the relevant Index Adjustment Event, but using only those Futures Contracts that comprised that Index immediately prior to the relevant Index Adjustment Event (other than those futures contracts that have ceased to be listed on any relevant exchange).
- (d) Redemption for Commodity Index Adjustment Event:
If:
 - (i) a Commodity Index Cancellation occurs and the Issue Terms do not specify that the Benchmark Trigger Provisions are applicable;

 - (iii) a Commodity Index Cancellation or an Administrator/ Benchmark Event Date occurs in respect of a Commodity Index, the Issue Terms specify that the Benchmark Trigger Provisions are applicable and specify an Alternative Pre-nominated Index but the Determination Agent is unable to determine the Adjustment Payment;
 - (iv) a Commodity Index Cancellation or an Administrator/ Benchmark Event Date occurs in respect of a Commodity Index, the Issue Terms specify that the Benchmark Trigger Provisions are applicable and specify an Alternative Pre-nominated Index and the

Determination Agent determines that the Adjustment Payment would be an amount that the Securityholder would (but for Condition 10.7(b)(i)(B)(cc)(b)) be required to pay to the Issuer in respect of each Security; or

- (v) a Commodity Index Modification or a Commodity Index Disruption occurs and it (a) would be unlawful at any time under any applicable law or regulation or (b) would contravene any applicable licensing requirements, in each case for the Determination Agent to calculate the Relevant Underlying Value in accordance with Condition 10.7(c),

then the Issuer may, at any time thereafter and in its reasonable discretion, determine that the Securities shall be redeemed as of any later date. If the Issuer so determines that the Securities shall be redeemed, then the Issuer shall give not less than five Business Days' notice to the Securityholders to redeem the Securities and upon redemption the Issuer will pay in respect of each Security an amount equal to either:

- (i) if "Early Redemption Amount (Commodity Index Adjustment Event) – Fair Market Value Less Costs" is specified in the Issue Terms, the fair market value of such Security, on such day as is selected by the Determination Agent in its reasonable discretion (**provided that** such day is not more than 15 days before the date fixed for redemption of the Security), less the proportion attributable to that Security of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its reasonable discretion; or

The Issuer's obligations under the Securities shall be satisfied in full upon payment of such amount.

The Fiscal Agent shall provide notice to the Securityholders of any such change or adjustment, giving summary details of the relevant change or adjustment, in accordance with Condition 28.6 (*Notices*), provided that any failure to give such notice shall not affect the validity of any such change or adjustment.

relevant Securities and/or any other adjustment which change or adjustment shall be effective on such date as the Determination Agent shall determine. The Fiscal Agent shall provide notice to the Securityholders of any such adjustment, giving summary details of the adjustment in accordance with Condition 28.6 (*Notices*), provided that any failure to give such notice shall not affect the validity of any such adjustment.

- (c) If the Issuer determines that the relevant Securities shall be redeemed early, then the Issuer shall give not less than five Business Days' notice to redeem the Securities and the Issuer's obligations under the Securities shall be satisfied in full upon payment in respect of each Security of an amount equal to either:
- (i) if "Early Redemption Amount (Additional Disruption Event) – Fair Market Value Less Costs" is specified in the Issue Terms, the fair market value of such Security, on such day as is selected by the Determination Agent in its reasonable discretion (**provided that** such day is not more than 15 days before the date fixed for redemption of the Security), less the proportion attributable to that Security of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its reasonable discretion; or
 - (ii) if "Early Redemption Amount (Additional Disruption Event) – Fair Market Value" is specified in the Issue Terms, the fair market value of such Security, on such day as is selected by the Determination Agent in its reasonable discretion (**provided that** such day is not more than 15 days before the date fixed for redemption of the Security), as calculated by the Determination Agent in its reasonable discretion.

If the Inconvertibility Specified Currency is unavailable because it has been replaced by the Euro, the Issuer may at its option (or will, if required by applicable law) without the consent of the holders of the affected Securities, pay any amount in respect of the Securities in Euro instead of the Inconvertibility Specified Currency, in conformity with legally applicable measures taken

pursuant to, or by virtue of, the Treaty establishing the European Community. Any payment made in Euro where the required payment is in an unavailable Inconvertibility Specified Currency, will not constitute an Event of Default.

A quotation of MSI plc or its affiliate may be included in the calculation described above.

Determination Agent to perform the actions prescribed in an applicable Currency Disruption Fallback (or it would be unlawful or would contravene those licensing requirements were a determination to be made at such time), the next applicable Currency Disruption Fallback will apply; and

- (iii) if the Issuer determines that the last applicable Currency Disruption Fallback does not provide a Settlement Rate (including due to the applicability of paragraph (ii) above in relation to the last applicable Currency Disruption Fallback), then the Issuer shall give not less than five Business Days' notice to redeem the Securities and the Issuer's obligations under the Securities shall be satisfied in full upon payment in respect of each Security of an amount equal to either:

The Fiscal Agent shall provide notice to the Securityholders of any such adjustment, giving summary details of the adjustment in accordance with Condition 28.6 (*Notices*), provided that any failure to give such notice shall not affect the validity of any such adjustment.

The Determination Agent will request each

of the Reference Dealers to provide a firm quotation of its Specified Rate for a transaction where the amount of Reference Currency equals the Specified Amount. For this purpose, if more than one quotation has the same highest value or lowest value, then the Specified Rate of one of such quotations shall be disregarded. "Price Materiality Percentage" means the percentage specified as such in the applicable Issue Terms;

"Primary Rate" means the rate determined using the Settlement Rate Option specified for such purpose in the applicable Issue Terms;

"**Secondary Rate**" means the rate determined using the Settlement Rate Option specified for such purpose in the applicable Issue Terms;

"**Settlement Currency**" means the currency specified as such in the applicable Issue Terms;

12. PROVISIONS RELATING TO INFLATION-LINKED SECURITIES

This Condition 12 (*Provisions relating to Inflation-Linked Securities*) is applicable only in relation to Securities specified in the relevant Issue Terms as being Inflation Linked Securities, Provided that Conditions 12.1 to 12.6 are applicable where the Inflation Index is an index other than UDI Fixing and Condition 12.7 (*UDI Index Events*) is applicable only where the Inflation Index is UDI Fixing.

- 12.1 **Delay of Publication:** If any level of an Inflation Index for a Reference Month which is relevant to the calculation of a payment under the Securities (a "**Relevant Level**") has not been published or announced by the day that is five Business Days prior to the next Specified Interest Payment Date, Automatic Early Redemption Date or Maturity Date under the Securities or other relevant payment date as may be specified in the applicable Issue Terms in relation to the Securities, the Determination Agent shall determine a Substitute Inflation Index Level (in place of such Relevant

Level) in a commercially reasonable manner in its reasonable discretion. If a Relevant Level is published or announced at any time after the day that is five Business Days prior to the next Specified Interest Payment Date, Automatic Early Redemption Date, Maturity Date or other relevant payment date as may be specified in the applicable Issue Terms, such Relevant Level will not be used in any calculations. The Substitute Inflation Index Level so determined pursuant to this Condition 12.1 (*Delay of Publication*), will be the definitive level for that Reference Month.

- 12.2 **Cessation of Publication:** If a level for the Inflation Index has not been published or announced for two consecutive months or the Inflation Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index then the Determination Agent shall determine a Successor Inflation Index (in lieu of any previously applicable Inflation Index) for the purposes of the Securities by using the following methodology:
- (a) If at any time a Successor Inflation Index has been designated by the index calculation agent pursuant to the terms and conditions of the Related Bond, such Successor Inflation Index shall be designated a "**Successor Inflation Index**" for the purposes of all subsequent Specified Interest Payment Dates or other relevant payment date as may be specified in the applicable Issue Terms in relation to the Securities, notwithstanding that any other Successor Inflation Index may previously have been determined under Condition 12.2(b), 12.2(c) or 12.2(d) below; or
 - (b) If a Successor Inflation Index has not been determined under Condition 12.2(a) above and a notice has been given or an announcement has been made by the Inflation Index Sponsor, specifying that the Inflation Index will be superseded by a replacement index specified by the Inflation Index Sponsor, and the Determination Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, such replacement index shall be the Inflation Index for purposes of the Securities from the date that such replacement index comes into effect; or
 - (c) If a Successor Inflation Index has not been determined under Condition 12.2(a) or 12.2(b) above, the Determination Agent shall ask five leading independent dealers to state what the replacement Inflation Index for the Inflation Index should be. If between four and five responses are received, and of those four or five responses, three or more leading independent dealers state the same Inflation Index, this Inflation Index will be deemed the "**Successor Inflation Index**". If three responses are received, and two or more leading independent dealers state the same Inflation Index, this Inflation Index will be deemed the "**Successor Inflation Index**". If fewer than three responses are received, the Determination Agent will proceed to Condition 12.2(d) below; or
 - (d) If no Successor Inflation Index has been determined under Condition 12.2(a), 12.2(b) or 12.2(c) above by the fifth Business Day prior to the next Affected Payment Date the Determination Agent will determine an appropriate alternative index for such Affected Payment Date, and such index will be deemed a "**Successor Inflation Index**"; or
 - (e) If the Determination Agent determines that there is no appropriate alternative index, the Issuer shall give not less than five Business Days' notice to redeem the Securities and the Issuer's obligations under the Securities shall be satisfied in full upon payment in respect of each Security of an amount equal to either:
 - (i) if "Early Redemption Amount (Inflation Index Cessation) – Fair Market Value Less Costs" is specified in the Issue Terms, the fair market value of such Security, on such day as is selected by the Determination Agent in its reasonable discretion (**provided that** such day is not more than 15 days before the date fixed for redemption of the Security), less the proportion attributable to that Security of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its reasonable discretion; or
 - (ii) if "Early Redemption Amount (Inflation Index Cessation) – Fair Market Value" is specified in the Issue Terms, the fair market value of such Security, on such day as is selected by the Determination Agent in its reasonable discretion (**provided that** such day is not more than 15 days before the date fixed for

redemption of the Security), as calculated by the Determination Agent in its reasonable discretion.

- 12.3 **Rebasing of the Inflation Index:** If the Determination Agent determines that an Inflation Index has been or will be rebased at any time, the Inflation Index as so rebased (the "**Rebased Inflation Index**") will be used for purposes of determining the level of such Inflation Index from the date of such rebasing; provided, however, that the Determination Agent shall make such adjustments as are made by the calculation agent pursuant to the terms and conditions of the Related Bond, if any, to the levels of the Rebased Inflation Index so that the Rebased Inflation Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. If there is no Related Bond, the Determination Agent shall make adjustments to the levels of the Rebased Inflation Index so that the Rebased Inflation Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Securities.
- 12.4 **Material Modification Prior to Payment Date:** If, on or prior to the day that is five Business Days before an Interest Payment Date, Automatic Early Redemption Date, Maturity Date or other relevant payment date in relation to the Securities, an Inflation Index Sponsor announces that it will make a material change to an Inflation Index then the Determination Agent shall make any such adjustments to the Inflation Index consistent with adjustments made to the Related Bond, or, if there is no Related Bond, only those adjustments necessary for the modified Inflation Index to continue as the Inflation Index.
- 12.5 **Manifest Error in Publication:** If, within thirty days of publication and prior to the redemption of the Securities or payments in respect of any relevant Interest Payment Date, Automatic Early Redemption Date, Maturity Date or other relevant payment date in relation to the Securities, the Determination Agent determines that the Inflation Index Sponsor has corrected the level of the Inflation Index to remedy a manifest error in its original publication, the Determination Agent will notify the holders of the Securities in accordance with Condition 28 (*Notices*) of (i) that correction, (ii) the adjusted amount that is then payable under the Securities as a result of that correction and (iii) take such other action as it may deem necessary to give effect to such correction, provided that any amount payable pursuant to sub-paragraph (ii) above shall be paid (with no interest accruing thereon) (a) in connection with an Inflation Index Sponsor's correction to remedy a manifest error in the level of an Inflation Index for a Reference Month for which such Interest Payment Date, Automatic Early Redemption Date, Maturity Date or other relevant payment date in relation to the Securities has occurred, within 15 Business Days after notice of such amount payable by the Determination Agent, (b) in connection with an Inflation Index Sponsor's correction to remedy a manifest error in the level of an Inflation Index for a Reference Month for which such Interest Payment Date, Automatic Early Redemption Date, Maturity Date or other relevant payment date in relation to the Securities has not occurred, as an adjustment to the payment obligation on the next Specified Interest Payment Date or (c) if there is no further Interest Payment Date, Automatic Early Redemption Date, Maturity Date or other relevant payment date in relation to the Securities, within 15 Business Days after notice of such amount payable by the Determination Agent.
- 12.6 **Index Level Adjustment Correction:** In relation to any Inflation Index, as specified in the Issue Terms, either (i) the first publication or announcement of the level of the Inflation Index (disregarding estimates) by the relevant Inflation Index Sponsor for any Reference Month shall be final and conclusive and, subject to this Condition 12 (*Provisions relating to Inflation-Linked Securities*), later revisions to the level of the Inflation Index for such Reference Month will not be used in any calculations; or (ii) the first publication or announcement of a level of the Inflation Index (disregarding estimates) published by the relevant Index Sponsor or, if revised, any subsequent revision of such level for a Reference Month shall be final and conclusive for such Reference Month, provided that such revisions are published or announced up to and including the day that is two Business Days prior to any relevant Interest Payment Date, Maturity Date or any other payment in respect of the Securities. The Issuer shall give notice to holders of Inflation Linked Securities of any valid revision in accordance with Condition 28 (*Notices*) within 15 Business Days of the publication or announcement of such revision.
- 12.7 **UDI Index Events**

Following the occurrence of a UDI Index Event, the level of such Inflation Index shall be as determined by the Determination Agent in good faith and in a commercially reasonable manner.

12.8 Additional Disruption Events

- (a) Following the occurrence of an Additional Disruption Event, the Issuer will, in its reasonable discretion, determine whether or not the relevant Securities shall continue or be redeemed early.
- (b) If the Issuer determines that the relevant Securities shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its reasonable discretion, considers appropriate, if any, to any variable relevant to the interest, redemption, settlement, or payment terms of the relevant Securities and/or any other adjustment which change or adjustment shall be effective on such date as the Determination Agent shall determine. The Fiscal Agent shall provide notice to the Securityholders of any such adjustment in accordance with Condition 28.6 (*Notices*), giving summary details of the adjustment, provided that any failure to give such notice shall not affect the validity of any such adjustment.
- (c) If the Issuer determines that the relevant Securities shall be redeemed early, then the Issuer shall give not less than five Business Days' notice to redeem the Securities and the Issuer's obligations under the Securities shall be satisfied in full upon payment in respect of each Security of an amount equal to either:

- (i) if "Early Redemption Amount (Additional Disruption Event) – Fair Market Value Less Costs" is specified in the Issue Terms, the fair market value of such Security, on such day as is selected by the Determination Agent in its reasonable discretion (**provided that** such day is not more than 15 days before the date fixed for redemption of the Security), less the proportion attributable to that Security of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its reasonable discretion; or
- (ii) if "Early Redemption Amount (Additional Disruption Event) – Fair Market Value" is specified in the Issue Terms, the fair market value of such Security, on such day as is selected by the Determination Agent in its reasonable discretion (**provided that** such day is not more than 15 days before the date fixed for redemption of the Security), as calculated by the Determination Agent in its reasonable discretion;
- (iii) if "Early Redemption Amount (Additional Disruption Event) – MXN Denominated UDI Linked Redemption" is specified in the Issue Terms, an amount per Calculation Amount determined by the Determination Agent in accordance with the following formula (provided that if the value determined by the Determination Agent in accordance with such formula is a negative number, zero):

$$\text{Calculation Amount} \times \left[\text{Specified Rate} + \left(\text{Participation Rate} \times \left(\frac{\text{UDI}_{\text{Final}}}{\text{UDI}_{\text{Initial}}} - 1 \right) \right) \right]$$

and further provided that if the applicable Issue Terms specify:

- (a) a Redemption Cap, the amount calculated in accordance with the above formula shall not exceed the Redemption Cap;
- (b) a Redemption Floor, the amount calculated in accordance with the above formula shall not be less than the Redemption Floor; or
- (c) a Redemption Cap and a Redemption Floor, the amount calculated in accordance with the above formula shall not exceed the Redemption Cap and shall not be less than the Redemption Floor,

on such day as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Security); or

- (iv) if "Early Redemption Amount (Additional Disruption Event) – UDI Final Linked Redemption" is specified in the Issue Terms, an amount per Calculation Amount determined by the Determination Agent in accordance with the following formula (provided that if the value determined by the Determination Agent in accordance with such formula is a negative number, zero):

$$\text{Calculation Amount} \times \text{Specified Rate} \times \text{UDI}_{\text{Final}}$$

and further provided that if the applicable Issue Terms specify:

- (a) a Redemption Cap, the amount calculated in accordance with the above formula shall not exceed the Redemption Cap;
- (b) a Redemption Floor, the amount calculated in accordance with the above formula shall not be less than the Redemption Floor; or
- (c) a Redemption Cap and a Redemption Floor, the amount calculated in accordance with the above formula shall not exceed the Redemption Cap and shall not be less than the Redemption Floor,

on such day as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Security).

- (d) The Issuer shall as soon as reasonably practicable under the circumstances notify the Fiscal Agent and the Determination Agent of the occurrence of an Additional Disruption Event.

12.9 Definitions Applicable to Inflation-Linked Securities

In relation to Inflation Linked Securities, the following expressions have the meanings set out below:

"Additional Disruption Event" means, with respect to any Series of Inflation-Linked Securities, such of Change in Law, Hedging Disruption and/or Increased Cost of Hedging as are applicable as specified in the applicable Issue Terms.

"Change in Law" means that, on or after the Trade Date (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Issuer determines that (x) it has become illegal to hold, acquire or dispose of Hedge Positions or (y) it will incur a materially increased cost in performing its obligations with respect to the Securities (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position);

"Fallback Bond" means an inflation linked bond selected by the Determination Agent and issued by the government of a country to whose level of inflation the Inflation Index relates and which pays a coupon or redemption amount which is calculated by reference to the Inflation Index, with a maturity date which falls on (a) the same date as the Maturity Date, or (b) if no such bond as described in (a) can be determined, the next longest maturity after the Maturity Date, or (c) if no such bond as described in either (a) or (b) can be determined, the next shortest maturity before the Maturity Date. If the Inflation Index relates to the level of inflation across the European Monetary Union, the Determination Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Determination Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Settlement Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall

be selected by the Determination Agent from those bonds. If the Fallback Bond redeems the Determination Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged);

"Increased Cost of Hedging" means that the Issuer would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the risk of entering into and performing its obligations with respect to the Securities or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s) **provided that** any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer shall not be deemed an Increased Cost of Hedging;

"Inflation Index" means any index specified as such in the applicable Issue Terms;

"Inflation Index Sponsor" means, in respect of an Inflation Index, the entity specified as such in the relevant Issue Terms or, if no entity is specified, the entity that publishes or announces (directly or through an agent) the level of the relevant Inflation Index;

If the period for which the Inflation Index level was reported is a period other than a month, the Reference Month will be the period for which the Inflation Index level was reported;

"Related Bond" means the bond specified in the applicable Issue Terms, or if no bond is so specified, the Fallback Bond. If the Related Bond is "Fallback Bond", then for any Related Bond determination under the Conditions, the Determination Agent shall use the Fallback Bond (as that term is defined in this Condition 12.9 (*Definitions Applicable to Inflation-Linked Securities*)). If no bond is specified in the applicable Issue Terms as the Related Bond and "Fallback Bond: Not applicable" is specified in the applicable Issue Terms there will be no Related Bond. If a bond is selected as the Related Bond in the applicable Issue Terms, and that bond redeems or matures before the relevant Maturity Date, unless "Fallback Bond: Not applicable" is specified in the applicable Issue Terms, the Determination Agent shall use the Fallback Bond for any Related Bond determination;

"Substitute Inflation Index Level" means an Inflation Index level, determined by the Determination Agent pursuant to the provisions of Condition 12.1 (*Delay of Publication*), in respect of an Affected Payment Date; and

"Successor Inflation Index" has the meaning specified in Condition 12.2 (*Cessation of Publication*).

"UDI Index Event" means, with respect to any Series of Inflation-Linked Securities, the occurrence of one or more of the following events: (a) the Inflation Index is not calculated and/or published in a timely manner by the Central Bank of the United Mexican States (*Banco de México*) (the "**Central Bank**"); or (b) the Central Bank ceases to publish the Inflation Index or publishes a

13. **PROVISIONS RELATING TO FUND-LINKED SECURITIES**

This Condition 13 (*Provisions Relating to Fund-Linked Securities*) shall apply only to Securities specified in the applicable Issue Terms as being Single Fund Securities or Fund Basket Securities.

13.1 **Market Disruption, Reference Dates and Averaging Dates**

- (a) If a Reference Date is not a Fund Business Day, the relevant Reference Date shall be the next succeeding Fund Business Day or, if either "Common Fund Business Days and Common Disrupted Days" or "Common Fund Business Days and Individual Disrupted Days" is specified to be applicable in the applicable Issue Terms, the next succeeding Common Fund Business Day.
- (b) The Determination Agent shall as soon as reasonably practicable under the circumstances notify the Issuer of the occurrence of a Disrupted Day on any day that, but for the occurrence or continuance of a Disrupted Day, would have been a Reference Date.
- (c) If any Reference Date is a Disrupted Day, then:
 - (i) in the case of Single Fund Securities, the relevant Reference Date shall be the next succeeding Fund Business Day that is not in the determination of the Determination Agent a Disrupted Day, unless no Fund Business Day that is not a Disrupted Day has occurred prior to the last Fund Business Day of one Cut-off Period following the Scheduled Reference Date. In that case, (i) the last Fund Business Day of such Cut-off Period shall be deemed to be the Reference Date, notwithstanding the fact that such Fund Business Day is a Disrupted Day, and (ii) the Determination Agent shall determine its estimate of the value for the Fund Interest as of the Valuation Time on that deemed Reference Date, acting in good faith and a commercially reasonable manner; or
 - (ii) in the case of Fund Basket Securities:
 - (A) where "Individual Fund Business Days and Individual Disrupted Days" is specified to be applicable in the relevant Issue Terms, if the Determination Agent determines that any Scheduled Reference Date is a Disrupted Day in respect of any Basket Component, then:
 - (aa) the Reference Date for each Basket Component in respect of which the Scheduled Reference Date is not a Disrupted Day shall be the Scheduled Reference Date for such Basket Component; and
 - (bb) the Reference Date for any Basket Component in respect of which the Scheduled Reference Date is a Disrupted Day (each an "**Affected Basket Component**") shall be the first Fund Business Day following the relevant Scheduled Reference Date that is not a Disrupted Day in respect of such Affected Basket Component, unless no Fund Business Day that is not a Disrupted Day has occurred prior to the last Fund Business Day of one Cut-off Period following the Scheduled Reference Date. In that case, (i) the last Fund Business Day of such Cut-off Period shall be deemed to be the Reference Date, notwithstanding the fact that such Fund Business Day is a Disrupted Day, and (ii) the Determination Agent shall determine its estimate of the value for that Affected Basket Component as of the Valuation Time on that deemed Reference Date, acting in good faith and a commercially reasonable manner;

- (B) where "Common Fund Business Days and Common Disrupted Days" is specified to be applicable in the relevant Issue Terms, then if the Determination Agent determines that any Scheduled Reference Date is a Disrupted Day in respect of any Basket Component, the Reference Date for each such Basket Component shall be the first Common Fund Business Day following the relevant Scheduled Reference Date that is not a Disrupted Day in respect of any Basket Component, unless no Common Fund Business Day that is not a Disrupted Day has occurred prior to the last Fund Business Day of one Cut-off Period following the Scheduled Reference Date. In that case, (i) the last Fund Business Day of such Cut-off Period shall be deemed to be the Reference Date, notwithstanding the fact that such Fund Business Day is a Disrupted Day, and (ii) the Determination Agent shall determine its estimate of the value for each Basket Component as of the Valuation Time on that deemed Reference Date, acting in good faith and a commercially reasonable manner;
- (C) where "Common Fund Business Days and Individual Disrupted Days" is specified to be applicable in the relevant Issue Terms, if the Determination Agent determines that any Scheduled Reference Date is a Disrupted Day in respect of any Basket Component, then:
 - (aa) the Reference Date for each Basket Component in respect of which the Scheduled Reference Date is not a Disrupted Day shall be the Scheduled Reference Date for such Basket Component; and
 - (bb) the Reference Date for each Basket Component in respect of which the Scheduled Reference Date is a Disrupted Day (each an "**Affected Basket Component**") shall be the first Fund Business Day following the relevant Scheduled Reference Date that is not a Disrupted Day in respect of such Affected Basket Component, unless no Fund Business Day for such Basket Component that is not a Disrupted Day has occurred prior to the last Fund Business Day of one Cut-off Period following the Scheduled Reference Date. In that case, (i) the last Fund Business Day of such Cut-off Period shall be deemed to be the Reference Date, notwithstanding the fact that such Fund Business Day is a Disrupted Day, and (ii) the Determination Agent shall determine its estimate of the value for that Affected Basket Component as of the Valuation Time on that deemed Reference Date, acting in good faith and a commercially reasonable manner;
- (d) If Averaging Dates are specified in the applicable Issue Terms with respect to a Reference Date then, notwithstanding any other provisions of the Conditions, the following provisions will apply to the valuation of the relevant Fund Interest or Basket of Fund Interests in relation to the relevant Reference Date:
 - (i) If, in respect of Single Fund Securities, any Averaging Date in respect of a Reference Date is a Disrupted Day, then the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred prior to the Cut-off Period following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Reference Date, then (1) the last day of such Cut-off Period shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (2) the Determination Agent shall determine its estimate of the value for the Fund Interest as of the Valuation Time on that deemed Averaging Date, acting in good faith and a commercially reasonable manner; and
 - (ii) If, in the case of Fund Basket Securities, a Scheduled Averaging Date in respect of a Reference Date is determined by the Determination Agent to be a Disrupted Day in respect of any Basket Component, then:
- (A) where "Individual Fund Business Days and Individual Disrupted Days" is specified to be applicable in the relevant Issue Terms:

- (1) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Date; and
 - (2) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is a Disrupted Day (each such Basket Component, an "**Affected Basket Component**") shall be the first succeeding Valid Date in relation to such Affected Basket Component. If the first succeeding Valid Date has not occurred prior to the Cut-off Period following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Reference Date, then (1) the last day of such Cut-off Period shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date notwithstanding the fact that such day may not be a Valid Date), and (2) the Determination Agent shall determine its estimate of the value for that Affected Basket Component as of the Valuation Time on that deemed Averaging Date, acting in good faith and a commercially reasonable manner;
- (B) where "Common Fund Business Days and Common Disrupted Days" is specified to be applicable in the relevant Issue Terms, then the Averaging Date for each Basket Component shall be the first succeeding Common Valid Date. If the first succeeding Common Valid Date has not occurred prior to one Cut-off Period following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Reference Date, then (1) the last day of such Cut-off Period shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date and notwithstanding the fact that such day may not be a Common Valid Date), and (2) the Determination Agent shall determine its estimate of the value for each Basket Component as of the Valuation Time on that deemed Averaging Date, acting in good faith and a commercially reasonable manner;
- (C) where "Common Fund Business Days and Individual Disrupted Days" is specified to be applicable in the relevant Issue Terms:
- (1) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Date; and
 - (2) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is a Disrupted Day (each such Basket Component, an "**Affected Basket Component**") shall be the first succeeding Valid Date in relation to such Affected Basket Component. If the first succeeding Valid Date has not occurred prior to the Cut-off Period following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Reference Date, then (1) the last day of such Cut-off Period shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date and notwithstanding the fact that such day may not be a Valid Date), and (2) the Determination Agent shall determine its estimate of the value for that Affected Basket Component as of the Valuation Time on that deemed Averaging Date, acting in good faith and a commercially reasonable manner;

13.2 Potential Adjustment Events

Following the declaration by any Fund or Fund Service Provider of the terms of any Potential Adjustment Event, the Determination Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Fund Interest or amount of Fund Interest and, if so, will (i) make the corresponding adjustment(s), if any, to any one or more of the Redemption Amount and/or any such other amounts payable under the Securities, the Reference Price and, in any case, any other variable relevant to the calculation,

valuation, payment or other terms of Securities as the Determination Agent determines appropriate to account for that diluting or concentrative effect (**provided that** no adjustments will be made to account solely for changes in volatility, expected dividends or liquidity relative to the relevant Fund Interest) and (ii) determine the effective date(s) of the adjustment(s).

13.3 **Corrections**

Unless occurring after the day falling three Business Days prior to a due date for any payment or delivery under the Securities calculated by reference to the value of, or proceeds received from, any Fund Interest, if the Determination Agent determines that a Fund or a Fund Administrator adjusts any relevant value of the Fund Interest, including the Reference Price or the Redemption Proceeds that would have been paid to a Hypothetical Investor redeeming the relevant number of Fund Interests that are subject to valuation used for determining amounts and/or assets due under the Securities, then the Determination Agent shall make such adjustments to the terms of the Securities as it determines necessary and practicable to reflect that the relevant value of the Fund Interest to be used shall be the value of, or proceeds received from, the relevant Fund Interest as so adjusted.

13.4 **Fund Events**

- (a) If at any time the Determination Agent determines that a Fund Event has occurred and/or is continuing then the Determination Agent shall provide written notice thereof to the Issuer (a "**Fund Event Notice**"). The Determination Agent shall not have any obligation to monitor the occurrence of a Fund Event nor shall it have any obligation to make a determination that a Fund Event has occurred or is continuing.
- (b) The Issuer will, in its reasonable discretion, determine:
- (i) where Fund Event Unscheduled Redemption is specified as applicable in the applicable Issue Terms, whether the relevant Securities shall be redeemed other than on the Scheduled Maturity Date. If the Issuer determines that the relevant Securities shall be so redeemed, then the Issuer shall redeem each Security at an amount equal to the Early Redemption Amount on such date as the Issuer may notify to Securityholders in accordance with Condition 28 (*Notices*), provided that not less than five Business Days' notice of such date, other than the Scheduled Maturity Date, is given to Securityholders:
 - (ii) whether to substitute any Affected Fund Interest with the Successor Fund Interest relating to such Affected Fund Interest; and/or
 - (iii) whether to make such adjustment to account for such Fund Event as it considers appropriate which may include, without limitation:
 - (A) making an adjustment to the calculation of the Redemption Amount and/or any such other amounts due under the Securities (which may include calculating a valuation (which may be zero) for the Affected Fund Interest and/or adjusting the weighting of the Affected Fund Interest in a Basket of Funds and/or deferring any relevant Determination Date until the circumstances giving rise to the relevant Fund Event are no longer continuing), all in the determination of the Determination Agent, acting in good faith and a commercially reasonable manner, and/or
 - (B) adjustments to any amount due in respect of the Securities to reflect (I) the Removal Value of the Affected Fund Interest instead of the Reference Price of the Affected Fund Interest and (II) an amount determined by the Determination Agent in respect of interest (compounded on a daily basis) of the Removal Value of such Affected Fund Interest accrued at an overnight rate relating to the Specified Currency selected by the Determination Agent during the period from (and including) the date on which the replacement of the Affected Fund Interest is effective to (but excluding) the Maturity Date.

Where it is required to determine a valuation of the Affected Fund Interest for the purposes of this Condition 13.4(b) (*Fund Events*) other than by reference to the Reference Price, the Determination Agent shall determine the mechanics for calculating such valuation of the

Affected Fund Interest (which valuation may be zero) by reference to such sources as it considers appropriate including, but not limited to, by reference to the value it may obtain from a third party on arms' length terms for the transfer to it of any hedging arrangements relating to the Securities in so far as they relate to such Affected Fund Interest. Any payments under the Securities determined by reference to the value of the Affected Fund Interest shall be suspended until payment of the Early Redemption Amount or, as the case may be, determination of the valuation of the Affected Fund Interest. The date of payment of the Early Redemption Amount (or the proportion thereof relating to the valuation of the Affected Fund Interest), or other relevant amount determined by reference to the Affected Fund Interest may fall on such commercially reasonable date after the Scheduled Maturity Date as the Determination Agent considers necessary or appropriate to enable it to determine the relevant valuation subject to any Final Cut-off Date and provided that, if the Determination Agent is not able to determine such a value by reference to a Reference Price for an applicable deferred Determination Date or for such a transfer of any hedging arrangements to a third party by the Scheduled Maturity Date or, if later, any Final Cut-off Date, it may deem the valuation to be zero.

The Fiscal Agent shall provide notice to the Securityholders of any such adjustment in accordance with Condition 28.6 (*Notices*), giving summary details of the adjustment, provided that any failure to give such notice shall not affect the validity of any such adjustment.

- (v) The Affected Fund Interest shall be replaced by a number of units of the Successor Fund Interest with a combined value (as determined by the Determination Agent) equal to the relevant Removal Value of the applicable number of units of the Affected Fund Interest. Such replacement shall be effected, from time to time whenever the Removal Value changes, on the date, as determined by the Determination Agent, on which the Fund issuing the Successor Fund Interest would admit a Hypothetical Investor who, on the Fund Business Day next following the date on which any Removal Value not

previously applied toward any Successor Fund Interest would be received by such Hypothetical Investor redeeming out of the relevant amount of Affected Fund Interest, had submitted a valid order to purchase such amount of the Successor Fund Interest.

- (vi) If necessary, the Determination Agent will adjust any relevant terms, including, but not limited to adjustments to account for changes in the Fund Interest Currency, the Frequency of Fund Interest Valuations, volatility, investment strategy or liquidity relevant to such Fund Interests or the Securities.

 - (1) if, in relation to "**Averaging Date Disruption**", the consequence specified in the relevant Issue Terms is "Omission":

- (B) where "Common Scheduled Trading Days and Common Disrupted Days" is specified to be applicable in the relevant Issue Terms:
- (1) if, in relation to "**Averaging Date Disruption**", the consequence specified in the relevant Issue Terms is "Omission", such date will be deemed not to be a relevant Averaging Date in respect of any Basket Component for the purposes of determining the level, price, value or amount provided that, if through the operation of this provision there would be no Averaging Date in respect of such Reference Date, then the sole Averaging Date for each Basket Component shall be the earlier of (A) the first Common Scheduled Trading

Day following the Scheduled Averaging Date that is not a Disrupted Day for any Basket Component and (B) the Averaging Cut-Off Date (notwithstanding the fact that such Averaging Cut-Off Date may not be a Common Scheduled Trading Day);

 - (B) if such Averaging Cut-Off Date is a Disrupted Day in respect of Single Futures Contract-Linked Security or Futures Contract Basket-Linked Security (as the case may be), the Determination Agent shall determine its estimate of the value for such Futures Contract as of the Determination Time on such Averaging Cut-Off Date, acting in good faith and a commercially reasonable manner.

- (d) If in respect of a Futures Contract and a Reference Date, a Scheduled Reference Date or Scheduled Averaging Date is specified to be the "Expiry Date" in the relevant Issue Terms and due to the Scheduled Reference Date or Scheduled Averaging Date (as the case may be) being a Disrupted Day (or for any other reason), the final settlement price has been announced and published on or prior to the Scheduled Reference Date or Scheduled Averaging Date (as the case may be), then the Reference Date or Averaging Date (as the case may be) for such Futures Contract shall fall on the Expiry Date and the provisions of Conditions 15.1(b) and (c) above shall not apply to such Futures Contract and Scheduled Reference Date or Scheduled Averaging Date (as the case may be).
- (e) If an event or circumstance that would otherwise constitute or give rise to a Disrupted Day also constitutes a Futures Contract Adjustment Event, the Determination Agent shall determine whether such event or circumstance shall be treated as a Disrupted Day or a Futures Contract Adjustment Event.

15.2 **Administrator/Benchmark Event or Disappearance or Non-commencement of Futures Contract or Settlement Price**

If the relevant Issue Terms specifies that the Benchmark Trigger Provisions are applicable and, on or prior to any Reference Date, (i) an Administrator/Benchmark Event and an Administrator/Benchmark Event Date occurs or (ii) a Disappearance or Non-commencement of Futures Contract or Settlement Price occurs, in each case in respect of a relevant Futures Contract, then:

(ii) if the Determination Agent determines an Adjustment Payment,

(A) it shall notify the Issuer of the Adjustment Payment and if the Adjustment Payment is an amount that the Securityholder would (but for Condition 15.2(a)(ii)(C)(2)) be required to pay to the Issuer in respect of each Security, request the Issuer to notify the Determination Agent whether it intends to redeem the Securities pursuant to Condition 15.4(b) (*Redemption*). If the Issuer does not intend to redeem the Securities pursuant to Condition 15.4(b) (*Redemption*) then the following provisions of this Condition 15.2(a) (*Administrator/Benchmark Event or Disappearance or Non-commencement of Futures Contract or Settlement Price*) shall apply;

(2) if the Adjustment Payment is an amount that the Securityholder would (but for this Condition 15.2(a)(ii)(C)(2)) be required to pay to the Issuer in respect of each Security, the Determination Agent shall adjust the Conditions to provide for the reduction of the amounts due by the Issuer until the aggregate amount of such reductions is equal to the Adjustment Payment, (subject, in the determination of the Determination Agent, to any minimum redemption amount of the Securities which the Determination Agent determines is required pursuant to any applicable law or regulation (including, without limitation, any tax law) and the rules of each listing authority, stock exchange and/or quotation system by which the Securities have then been admitted to listing, trading and/or quotation);

(D) the Determination Agent shall, acting in good faith and a commercially reasonable manner, make such other adjustments to the Conditions as

it determines necessary or appropriate in order to account for the effect of the replacement of the Futures Contract with the Alternative Pre-nominated Futures Contract and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the replacement of the Futures Contract with the Alternative Pre-nominated Futures Contract; and

- (E) the Determination Agent shall notify the Issuer, the Fiscal Agent and the Securityholders of any the replacement of the Futures Contract by the Alternative Pre-nominated Futures Contract, the Adjustment Payment and any other adjustments to the Conditions, giving summary details of the adjustment(s), provided that any failure to give such notice shall not affect the validity of the foregoing.
- (iii) If the Determination Agent is unable to determine an Adjustment Payment then Condition 15.4(b) (*Redemption*) shall apply.
- (b) If the relevant Issue Terms does not specify that the Benchmark Trigger Provisions are applicable or, if the Pricing Supplement specifies that the Benchmark Trigger Provisions are applicable but does not specify an Alternative Pre-nominated Futures Contract in relation to the relevant Futures Contract, then Condition 15.4(b) (*Redemption*) shall apply.
- (c) If it (i) is or would be unlawful at any time under any applicable law or regulation or (ii) would contravene any applicable licensing requirements, in each case for the Issuer, the Determination Agent or the Calculation Agent to perform the actions prescribed in this Condition 15.2 (*Administrator/Benchmark Event or Disappearance or Non-commencement of Futures Contract or Settlement Price*) (or it would be unlawful or would contravene those licensing requirements were a determination to be made at such time), then Condition 15.4(b) (*Redemption*) shall apply.

- (g) "**Change of Exchange**", which means that the Futures Contract is no longer negotiated on the Exchange and/or under a market-standard format as of the Trade Date but is negotiated on an exchange and/or under a format that is not acceptable to the Determination Agent.
- (h) "**Illiquidity Event**", which means that in the determination of the Determination Agent, the liquidity of the Futures Contract has decreased significantly since the Trade Date, such decrease of liquidity being likely to have a material impact on any hedging arrangements of the Issuer and/or any of its Affiliates in connection with the Securities.

15.4 Adjustments for Futures Contract Adjustment Events

- (a) *Adjustment:*

If a Futures Contract Adjustment Event which is a Price Source Disruption, a Trading Disruption, a Material Change in Formula, a Material Change in Content, a Tax Disruption, a Change of Exchange or an Illiquidity Event occurs, the Determination Agent shall determine if such Futures Contract Adjustment Event has a material effect on the Securities and, if so, subject to Condition 15.4(b) (*Redemption*), shall, acting in good faith and a commercially reasonable manner:

- (i) make such adjustments to the Conditions and/or the relevant Issue Terms as the Determination Agent determines necessary or appropriate to account for the effect of such Futures Contract Adjustment Event and determine the effective date of each such adjustment; and/or
- (ii) substitute such Futures Contract with a new Futures Contract selected by the Determination Agent (which shall be a replacement futures contract using, in the determination of the Determination Agent, the same or a substantially similar formula and method of calculation as used in the calculation of the Futures Contract or a replacement futures contract selected by the Determination Agent in accordance with any other criteria specified in the relevant Issue Terms) and make such adjustments (if any) to the Conditions and/or the relevant Issue Terms as it deems necessary or appropriate in relation to such substitution. Such new futures contract shall be deemed to be a Futures Contract in place of the Futures Contract the subject of the Futures Contract Adjustment Event.

The Fiscal Agent shall provide notice to the Securityholders of any such adjustment in accordance with Condition 28.6 (*Notices*), giving summary details of the adjustment, provided that any failure to give such notice shall not affect the validity of any such adjustment.

If the Determination Agent determines that no calculation, adjustment and/or substitution can reasonably be made pursuant to the above, Condition 15.4(b) (*Redemption*) shall apply.

(b) *Redemption:*

If either:

- (i) a Futures Contract Adjustment Event which is a Disappearance of or Non-commencement of Futures Contract or Settlement Price occurs or an Administrator/Benchmark Event and an Administrator/Benchmark Event Date occurs and:
 - (A) the Issue Terms do not specify that the Benchmark Trigger Provisions are applicable;
 - (B) the Issue Terms specify that the Benchmark Trigger Provisions are applicable but does not specify an Alternative Pre-nominated Futures Contract;
 - (C) the Issue Terms specify that the Benchmark Trigger Provisions are applicable and specifies an Alternative Pre-nominated Futures Contract but the Determination Agent is unable to determine the Adjustment Payment;
 - (D) the Issue Terms specify that the Benchmark Trigger Provisions are applicable and specifies an Alternative Pre-nominated Futures Contract and the Determination Agent determines that the Adjustment Payment would be an amount that the Securityholder would (but for Condition 15.2(a)(ii)(C)(2)) be required to pay to the Issuer in respect of each Security; or
 - (E) it (a) would be unlawful at any time under any applicable law or regulation or (b) would contravene any applicable licensing requirements, in each case for the Determination Agent to calculate the level, price, value or amount in accordance with Condition 15.4(a) (*Adjustment*); or
- (ii) any Futures Contract Adjustment Event (other than a Disappearance or Non-commencement of Futures Contract or Settlement Price) occurs and the Determination Agent determines that no calculation, adjustment and/or substitution can reasonably be made pursuant to Condition 15.4(a) (*Adjustment*),

then the Issuer may, at any time thereafter and in its reasonable discretion, determine that the Securities shall be redeemed as of any later date. If the Issuer so determines that the Securities shall be redeemed, then the Issuer shall give not less than five Business Days' notice to the Securityholders to redeem the Securities and upon redemption the Issuer will pay in respect of each Security an amount equal to either:

- (x) if "Early Redemption Amount (Futures Contract Adjustment Event – Fair Market Value Less Costs" is specified in the Issue Terms, the fair market value of such Security, on such day as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Security), less the proportion attributable to that Security of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its reasonable discretion; or

- (y) if "Early Redemption Amount (Futures Contract Adjustment Event – Fair Market Value)" is specified in the Issue Terms, the fair market value of such Security, on such day as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Security) as calculated by the Determination Agent in its reasonable discretion.

The Issuer's obligations under the Securities shall be satisfied in full upon payment of such amount.

If the Issuer determines that the relevant Securities shall continue, the Determination Agent may make such adjustment as the Determination Agent considers appropriate, if any, to any variable relevant to the redemption, settlement or payment terms of the relevant Securities and/or any other adjustment, which change or adjustment shall be effective on such date as the Determination Agent shall determine. The Fiscal Agent shall provide notice to the Securityholders of any such change or adjustment, giving summary details of the relevant change or adjustment in accordance with Condition 28.6 (*Notices*) provided that any failure to give such notice shall not affect the validity of any such change or adjustment.

15.5 Correction of Futures Contract Prices:

If any settlement price announced by the Futures Contract Sponsor or published by the Exchange and which is utilised by the Determination Agent for any calculation or determination (the "**Original Determination**") under the Securities is subsequently corrected and the correction (the "**Corrected Value**") is published by the Futures Contract Sponsor by such time (the "**Correction Cut Off Time**") as may be specified in the relevant Issue Terms (or, if none is so specified, at least 3 Business Days prior to the relevant Interest Payment Date, Maturity Date or any early redemption date of the Futures Contract-Linked Securities), then the Determination Agent will notify the Issuer and the Fiscal Agent of the Corrected Value as soon as reasonably practicable and shall determine the relevant value (the "**Replacement Determination**") using the Corrected Value. If the result of the Replacement Determination is different from the result of the Original Determination, to the extent that it determines to be necessary and practicable, the Determination Agent may adjust any relevant terms accordingly.

In the event there is any discrepancy between any settlement price published or announced by the Futures Contract Sponsor and the Exchange any which is used by the Determination Agent for any calculation or determination under the Securities and that is not otherwise corrected pursuant to this Condition 15.5, the settlement price selected by the Determination Agent acting in good faith and a commercially reasonable manner shall prevail for the relevant day.

- (a) Following the occurrence of an Additional Disruption Event, the Issuer will, in its reasonable discretion, determine whether or not the relevant Securities shall continue or shall be redeemed early.
- (b) If the Issuer determines that the relevant Securities shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its reasonable discretion, considers appropriate, if any, to the formula for the Final Redemption Amount, any Interest Amount and/or the level, price, value or amount set out in the relevant Issue Terms, the number of Futures Contracts to which each Security relates, the number of Futures Contracts comprised in a Basket of Futures Contracts, the amount, the number of or type of shares, futures contracts or other securities which may be delivered under such Securities and, in any case, any other variable relevant to the redemption, settlement, or payment terms of the relevant Securities and/or any other adjustment (including without limitation, in relation to Futures Contract Basket-Linked Securities, the cancellation of terms applicable in respect of any Futures Contracts affected by the relevant Additional Disruption Event), to account for the economic effect on the Securities of such Additional Disruption Event, which change or adjustment shall be effective on such date as the Determination Agent shall determine.

- (c) If the Issuer determines that the relevant Securities shall be redeemed early, then the Issuer shall give not less than five Business Days' notice to redeem the Securities and the Issuer's obligations under the Securities shall be satisfied in full upon payment in respect of each Security of an amount equal to either:
- (i) if "Early Redemption Amount (Additional Disruption Event – Fair Market Value Less Costs)" is specified in the Issue Terms, the fair market value of such Security, on such day as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Security), less the proportion attributable to that Security of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its reasonable discretion; or
 - (ii) if "Early Redemption Amount (Additional Disruption Event – Fair Market Value)" is specified in the Issue Terms, the fair market value of such Security, on such day as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Security), as calculated by the Determination Agent in its reasonable discretion.

- 18.2 **Interest:** Payments of interest (if any) in respect of Uncertificated Securities will be discharged by payment (as shown in the records of the Operator) to the cash account of the relevant Securityholder.
- 18.3 **General:** Each of the persons shown in the Operator register of eligible debt securities as the holder of a particular principal amount (in the case of Notes) or number (in the case of Certificates) of Uncertificated Securities must look solely to the settlement bank or institution at which its cash account is held for his share of each such payment so made by or on behalf of the Issuer.
- 18.4 **Payments Subject to Fiscal Laws:** All payments in respect of the Uncertificated Securities are subject in all cases (i) to any applicable fiscal or other laws and regulations, but without prejudice to the provisions of Condition 20 (*Taxation*) and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the United States Internal Revenue Code of 1986 (the "Code") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law, regulation or official guidance implementing an intergovernmental approach thereto (in each case without prejudice to the provisions of Condition 20 (*Taxation*)). No commissions or expenses shall be charged to the Securityholders in respect of such payments.
- 18.5 **Payments on Payment Business Days:** Payment instructions (for value the due date, or, if the due date is not a Payment Business Day, for value the next succeeding Payment Business Day) will be initiated on the due date for payment. A holder of an Uncertificated Security shall not be entitled to any interest or other payment in respect of any delay in payment resulting from the due date for a payment not being a Payment Business Day.

19. PHYSICAL SETTLEMENT

19.1 Delivery Notice

- (a) Each Securityholder in respect of Physical Settlement Securities, shall, on or before the scheduled date for redemption thereof (or such earlier date as the Issuer shall notify to the Fiscal Agent and/or Euroclear Registrar and the Securityholders is, in its determination, necessary for the Issuer, the Fiscal Agent and/or the Relevant Clearing System(s) and/or the Euroclear Registrar to perform their respective obligations hereunder) send to the Relevant Clearing System(s) (in accordance with the relevant operating procedures) or, in the case of Uncertificated Securities, the Euroclear Registrar, and the Fiscal Agent an irrevocable notice (the "**Delivery Notice**") in the form from time to time approved by the Issuer, which must:
- (i) specify the name and address of the Securityholder;
 - (ii) specify the number of Securities in respect of which he is the Securityholder;
 - (iii) except in the case of Uncertificated Securities, specify the number of the Securityholder's account at the Relevant Clearing System(s) to be debited with such Securities;
 - (iv) except in the case of Uncertificated Securities, irrevocably instruct and authorise the Relevant Clearing System(s) (A) to debit the Securityholder's account with such Securities on the Physical Settlement Date and (B) that no further transfers of the Securities specified in the Delivery Notice may be made;
 - (v) contain a representation and warranty from the Securityholder to the effect that the Securities to which the Delivery Notice relates are free from all liens, charges, encumbrances and other third party rights;
 - (vi) specify the number and account name of the account at the Clearing System(s) to be credited with the Physical Delivery Amount if Physical Settlement is applicable;
 - (vii) contain an irrevocable undertaking to pay the Redemption Expenses and (to the extent payable but unpaid) Taxes (if any) which, in each case, are determined by

the Issuer to be payable and an irrevocable instruction to the Relevant Clearing System(s) to debit on or after the Physical Settlement Date the cash or other account of the Securityholder with the Relevant Clearing System(s) specified in the Delivery Notice with such Redemption Expenses and Taxes;

- (viii) authorise the production of the Delivery Notice in any applicable administrative or legal proceedings; and
 - (ix) in the case of Uncertificated Securities, specify the cash memorandum account of the Securityholder as shown in the records of the Operator from which the Redemption Expenses and Taxes in respect of such Securities will be paid to the Euroclear Registrar's account with the Operator against delivery of the Physical Delivery Amount and irrevocably agree to deliver such instructions to the Operator as may be requested by the Euroclear Registrar to give effect to the delivery and payments described above.
- (b) A Delivery Notice, once delivered to the Relevant Clearing System(s) or the Euroclear Registrar shall be irrevocable and may not be withdrawn without the consent in writing of the Issuer. A Securityholder may not transfer any Security which is the subject of a Delivery Notice following delivery of such Delivery Notice to the Relevant Clearing System(s) or the Euroclear Registrar, as the case may be. A Delivery Notice shall only be valid to the extent that the Relevant Clearing System(s) or the Euroclear Registrar, as the case may be, has not received conflicting prior instructions in respect of the Securities which are the subject of the Delivery Notice.
- (c) Failure to properly complete and deliver a Delivery Notice may result in such notice being treated as null and void. Any determination as to whether such notice has been properly completed and delivered as provided shall be made by the Relevant Clearing System(s) or the Euroclear Registrar, as the case may be, after consultation with the Fiscal Agent and shall be conclusive and binding on the Issuer and the Securityholder.
- (d) The Fiscal Agent shall promptly, on the Business Day following receipt of such notice, send a copy of the Delivery Notice to the Issuer or such person as the Issuer may previously have specified.

19.2 Delivery Obligation

- (a) Subject to the other provisions of this Condition 19.2 (*Delivery Obligation*), the Issuer shall discharge its obligation to deliver the Physical Delivery Amount in respect of any Securities by delivering, or procuring the delivery of, the relevant Underlying Securities on the Physical Settlement Date to the Clearing System for credit to the account with the Clearing System specified in the Delivery Notice of the relevant Securityholder.
- (b) The number of Underlying Securities to be delivered to or for the account of each Securityholder on redemption of any Physical Settlement Securities shall be as determined in accordance with such provisions of the Additional Terms and Conditions as are specified as being applicable in the applicable Issue Terms. The Issuer may pay a residual cash amount to each Securityholder representing any fractions of Underlying Securities comprising the Physical Delivery Amount.
- (c) After delivery to or for the account of a Securityholder of the relevant Physical Delivery Amount and for such period of time as the transferor or its agent or nominee shall continue to be registered in any clearing system as the owner of the Underlying Securities comprised in such Physical Delivery Amount (the "**Intervening Period**"), none of such transferor or any agent or nominee for the Issuer or such transferor shall (i) be under any obligation to deliver to such Securityholder or any other person any letter, certificate, notice, circular, dividend or any other document or payment whatsoever received by the Issuer or such transferor, agent or nominee in its capacity as holder of such Underlying Securities, (ii) be under any obligation to exercise any rights (including voting rights) attaching to such Underlying Securities during the Intervening Period, or (iii) be under any liability to such Securityholder or any other person in respect of any loss or damage which the Securityholder or any other person may sustain or suffer as a result, whether directly or indirectly, of the Issuer or such transferor, agent or nominee being registered in the Clearing System during such Intervening Period as legal owner of such Underlying Securities.

- (d) Any amounts in respect of dividends and interest on the Underlying Securities comprising the Physical Delivery Amount to be delivered will be payable to the party that would receive such amounts according to market practice for a sale of such Underlying Securities executed on the Exchange Business Day following the Determination Date in respect of the Securities. Any such amounts will be paid to or for credit to the account specified by the Securityholder in the relevant Delivery Notice. No right to dividends or interest on the Underlying Securities will accrue to Securityholders prior to the Determination Date.

19.3 Settlement Disruption of Physical Settlement

- (a) This Condition 19.3 (*Settlement Disruption of Physical Settlement*) shall apply only where Physical Settlement is applicable.
- (b) The Determination Agent shall determine, acting in good faith and a commercially reasonable manner, whether or not at any time a Settlement Disruption Event has occurred in respect of Underlying Securities comprised in the Physical Delivery Amount (the "**Affected Securities**") and where it determines such an event has occurred and so has prevented delivery of such Affected Securities on the original day that but for such Settlement Disruption Event would have been the Physical Settlement Date, then the Physical Settlement Date will be the first succeeding day on which delivery of such Affected Securities can take place through the Clearing System unless a Settlement Disruption Event prevents settlement on each of the 10 Clearing System Business Days immediately following the original date that, but for the Settlement Disruption Event, would have been the Physical Settlement Date. In that case, (a) if such Affected Securities can be delivered in any other commercially reasonable manner, then the Physical Settlement Date will be the first day on which settlement of a sale of such Affected Securities executed on that 10th Clearing System Business Day customarily would take place using such other commercially reasonable manner of delivery (which other manner of delivery will be deemed the Clearing System for the purposes of delivery of such Affected Securities), and (b) if such Affected Securities cannot be delivered in any other commercially reasonable manner, then the Physical Settlement Date will be postponed until delivery can be effected through the Clearing System or in any other commercially reasonable manner.
- (c) For the purposes hereof "**Settlement Disruption Event**" means, as determined by the Determination Agent acting in good faith and a commercially reasonable manner, an event which is beyond the control of the Issuer or the transferor of any relevant Underlying Securities and as a result of which the Clearing System cannot receive or clear the transfer of such Underlying Securities.

19.4 Delivery Disruption of Physical Settlement

- (a) This Condition 19.4 (*Delivery Disruption of Physical Settlement*) shall apply only where Physical Settlement is applicable.
- (b) If the Determination Agent determines, acting in good faith and a commercially reasonable manner, that a Delivery Disruption Event has occurred, the Determination Agent shall notify the Issuer who shall promptly, and in any event not more than 15 Business Days after the Issuer has received such notification from the Determination Agent, notify the Securityholders, and the Issuer will then deliver, or procure the delivery of, on the Physical Settlement Date such number of Underlying Securities comprised in the Physical Delivery Amount (if any) as it can deliver, or procure the delivery of, on that date and pay such amount as in the opinion of the Determination Agent is appropriate in the circumstances by way of compensation for the non-delivery of the remainder of the Underlying Securities comprised in the Physical Delivery Amount (assuming satisfaction of each applicable condition precedent) to which the Securityholders would have been entitled under the Securities but for the occurrence of such Delivery Disruption Event, in which event the entitlements of the respective Securityholders to receive Underlying Securities on redemption shall cease and the Issuer's obligations under the Securities shall be satisfied in full upon delivery of such number of Underlying Securities and payment of such amount.
- (c) Where this Condition 19.4 (*Delivery Disruption of Physical Settlement*) is applicable in accordance with its terms, insofar as the Determination Agent determines to be practical, acting in good faith and a commercially reasonable manner, the same shall be applied as between the

Securityholders on a *pro rata* basis, but subject to such rounding down (whether of the amount of a payment or of a number of Underlying Securities to be delivered) and also to such other adjustments as the Determination Agent, acting in good faith and a commercially reasonable manner, determines to be appropriate to give practical effect to such provisions.

- (d) For the purposes hereof "**Delivery Disruption Event**" means, as determined by the Determination Agent, acting in good faith and a commercially reasonable manner, the failure or inability, due to illiquidity in the market for the Underlying Securities comprised in the Physical Delivery Amount, by or of the Issuer to deliver, or procure the delivery of, on the Physical Settlement Date all the Underlying Securities comprised in the Physical Delivery Amount to be delivered on that date.

19.5 **Additional Definitions:**

For the purposes of this Condition 19 (*Physical Settlement*):

"**Clearing System**" means, in respect of an Underlying Security relating to a Physical Settlement Security, the clearing system specified as such for such security in the applicable Issue Terms or any successor to such clearing system as determined by the Determination Agent. If the Issue Terms do not specify a clearing system, the Clearing System will be the principal domestic system customarily used for settling trades in the relevant Underlying Securities. If the Clearing System ceases to settle trades in such Underlying Securities, the Determination Agent will, acting in good faith and in a commercially reasonable manner, select another method of delivery;

"**Clearing System Business Day**" means, in respect of a Clearing System, any day on which such Clearing System is (or, but for the occurrence of a Settlement Disruption Event, would have been) open for the acceptance and execution of settlement instructions;

"**Physical Delivery Amount**" means in respect of any Series of Physical Settlement Securities, the Underlying Securities to be delivered by the Issuer to Securityholders on redemption of each Security, as provided in the applicable Issue Terms, or determined in accordance with such provisions of the Additional Terms and Conditions as are specified as being applicable in the applicable Issue Terms;

"**Physical Settlement Date**" means, in relation to Underlying Securities to be delivered, subject to Condition 19.3 (*Settlement Disruption of Physical Settlement*), in respect of any Securities, the date following the Maturity Date or any other applicable redemption date, as the case may be, which is the first day on which settlement of a sale of such Underlying Securities executed on that Maturity Date or other redemption date, as the case may be, customarily would take place through the applicable Clearing System, unless otherwise specified in the applicable Issue Terms; and

"**Settlement Disruption Event**" has the meaning given to it in Condition 19.3 (*Settlement Disruption of Physical Settlement*).

20. **TAXATION**

- 20.1 **Additional Amounts:** If the applicable Issue Terms specify "**Additional Amounts**" as being applicable in respect of any Series of Securities, the relevant Issuer or Guarantor, if applicable, will, subject to certain exceptions and limitations set forth below, pay those additional amounts (the "**Additional Amounts**") to any Securityholder who is a U.S. Alien as may be necessary in order that every net payment of the principal of and interest on the Security and any other amounts payable by or on behalf of the relevant Issuer or the Guarantor on the Security after withholding for or on account of any tax, assessment or governmental charge imposed upon or as a result of that payment by the United States or any political subdivision or taxing authority thereof or therein, will not be less than the amount provided for in the Security to be then due and payable. For the avoidance of doubt, if not so provided in the applicable Issue Terms, Additional Amounts as provided in this Condition 20.1 (*Additional Amounts*) shall not be payable.

The relevant Issuer or Guarantor, if applicable, will not, however, be required to make any payment of Additional Amounts to any Securityholder for or on account of:

- (a) any tax, assessment or other governmental charge that would not have been so imposed but for:
- (i) the existence of any present or former connection between the holder or beneficial owner, or between a fiduciary, settlor, beneficiary, member or

shareholder of the holder or beneficial owner, if the holder or beneficial owner is an estate, a trust, a partnership or a corporation, and the United States and its possessions, including, without limitation, the holder or beneficial owner, or such fiduciary, settlor, beneficiary, member or shareholder, being or having been a citizen or resident of the United States or being or having been engaged in the conduct of a trade or business or present in the United States or having, or having had, a permanent establishment in the United States; or

- (ii) the presentation by the Securityholder for payment on a date more than 15 days after the date on which payment became due and payable or the date on which payment thereof is duly provided for, whichever occurs later;
- (b) any estate, inheritance, gift, sales, transfer, capital gains, corporation, income or personal property tax or any similar tax, assessment or governmental charge;
- (c) any tax, assessment or other governmental charge imposed by reason of the holder's or beneficial owner's past or present status as a personal holding company or controlled foreign corporation or passive foreign investment company with respect to the United States or as a corporation that accumulates earnings to avoid U.S. federal income tax or as a private foundation or other tax exempt organisation;
- (d) any tax, assessment or other governmental charge that is payable otherwise than by withholding from payments on or in respect of any Security;
- (e) any tax, assessment or other governmental charge that would not have been imposed but for the failure to comply with certification, information or other reporting requirements concerning the nationality, residence or identity of the holder or beneficial owner of that Security, if compliance is required by statute or by regulation of the United States or of any political subdivision or taxing authority thereof or therein as a precondition to relief or exemption from the tax, assessment or other governmental charge;
- (f) any withholding tax imposed under Sections 1471 through 1474 of the Code or any agreement with the IRS pursuant to these Code sections, any applicable U.S. Treasury regulations promulgated thereunder or published administrative guidance implementing such sections and any analogous provisions of non-U.S. laws (including withholding resulting from any inter-governmental agreement or an individual agreement with a taxing authority in connection with such sections of the Code, regulations, guidance or laws);
- (g) any tax, assessment or other governmental charge imposed by reason of Section 871(m) of the Code, and any applicable U.S. Treasury regulations promulgated thereunder or published administrative guidance implementing such section;
- (h) any tax, assessment or other governmental charge imposed by reason of the holder or beneficial owner not qualifying for an exemption with respect to coupon payments under the "other income" provision of a Qualifying Treaty; and for this purpose a "Qualifying Treaty" means an income tax treaty between a non-U.S. jurisdiction and the United States of America that provides for a zero per cent. rate of tax on "other income" earned by a resident of the non-U.S. jurisdiction from sources within the United States of America;
- (i) any tax, assessment or other governmental charge imposed by reason of the holder's or beneficial owner's past or present status as the actual or constructive owner of 10 per cent. or more of the total combined voting power of all classes of stock entitled to vote of Morgan Stanley; or
- (j) any combination of the items listed above.

In addition, the relevant Issuer or Guarantor, if applicable, will not be required to make any payment of Additional Amounts with respect to any Security presented for payment by or on behalf of a holder or beneficial owner who would have been able to avoid such withholding or deduction by presenting the relevant Security to another paying agent in a Member State of the European Union, or the United Kingdom.

Nor will Additional Amounts be paid with respect to any payment on a Security to a U.S. Alien who is a fiduciary or partnership or other than the sole beneficial owner of that payment to the extent that payment would be required by the laws of the United States (or any political subdivision thereof) to be included in the income, for tax purposes, of a beneficiary or settlor with respect to the fiduciary or a member of that partnership or a beneficial owner who would not have been entitled to the Additional Amounts had that beneficiary, settlor, member or beneficial owner been the Securityholder.

The term "**U.S. Alien**" means any person who, for U.S. federal income tax purposes, is a foreign corporation, a nonresident alien individual, a nonresident alien fiduciary of a foreign estate or trust, or a foreign partnership one or more of the members of which is a foreign corporation, a nonresident alien individual or a nonresident alien fiduciary of a foreign estate or trust.

20.2 **Withholding Taxes.** All payments of principal and interest by Morgan Stanley, MSI plc, MSBV, MSFL and the Guarantor in respect of Morgan Stanley, MSI plc, MSBV or MSFL Securities shall be made free and clear of, and without withholding or deduction for, any present or future taxes, duties, assessments or governmental charges of whatsoever nature imposed, levied, collected, withheld or assessed by (i) in the case where the Issuer is MSI plc, the United Kingdom; (ii) in the case where the Issuer is MSBV, the Netherlands; (iii) in the case where the Issuer is Morgan Stanley or MSFL, the United States of America; or (iv) in the case of the Guarantor, the United States of America, in each case, including any political subdivision or any authority thereof or therein having power to tax, unless such withholding or deduction is required by law. None of Morgan Stanley, MSI plc, MSBV, MSFL or (in respect of MSBV and MSFL Securities) the Guarantor shall be required to make any additional payments on account of any such withholding or deductions, except if the applicable Issue Terms specify "Additional Amounts" in respect of and subject as set out in Condition 20.1 (*Additional Amounts*) above.

20.3 **Implementation of Financial Transaction Tax.** If "Implementation of Financial Transaction Tax Event" is specified in the applicable Issue Terms to be applicable to any Series of Securities, then upon the occurrence of an Implementation of Financial Transaction Tax Event, the Issuer may (i) in its reasonable discretion, with immediate effect amend the Conditions of the Securities by adjusting downward any amount payable and/or any other value or term of the Conditions to account for the economic impact of the Implementation of Financial Transaction Tax on the Issuer and its Affiliates in relation to the Securities, and (ii) to the extent that at any time thereafter the Issuer determines (acting in good faith and in a commercially reasonable manner) that it (including its Affiliates) has incurred additional loss as a result of the Implementation of Financial Transaction Tax Event that has not been accounted for through the adjustment made pursuant to sub-paragraph (i) (such amount, "**Additional Increased Tax**"), it may reduce the amount otherwise payable on the Securities on the next payment date (and any payment date thereafter) by an amount up to the Additional Increased Tax amount. Any such adjustments shall be notified to Securityholders as soon as reasonably practicable and in any event within 15 Business Days of such adjustments having been made. If an event or circumstance which would otherwise constitute a Change in Law or Increased Cost of Hedging (where applicable) also constitutes an Implementation of Financial Transaction Tax Event, it will be treated as an Implementation of Financial Transaction Tax Event.

21. EVENTS OF DEFAULT

21.1 **If any of the following events (each, an "Event of Default") occurs and is continuing:**

- (a) **Non-payment:** failure to pay any amount of principal in respect of the Securities within thirty days of the due date for payment thereof or failure to pay any amount of interest in respect of the Securities within thirty days of the due date for payment thereof; or
- (b) **Insolvency, etc.:** (i) the Issuer becomes insolvent or is unable to pay its debts as they fall due, (ii) an administrator or liquidator of the Issuer or the whole or a substantial part of the undertaking, assets and revenues of the Issuer is appointed (otherwise than for the purposes of or pursuant to an amalgamation, reorganisation or restructuring whilst solvent), (iii) the Issuer takes any action for a composition with or for the benefit of its creditors generally, or (iv) an order is made or an effective resolution is passed for the winding up, liquidation or dissolution of the Issuer (otherwise than for the purposes of or pursuant to an amalgamation, reorganisation or restructuring whilst solvent), and such order or effective resolution has remained in force and has not been rescinded,

revoked or set aside for sixty days after the date on which such order is made or effective resolution is passed,

then Securityholders of not less than 25 per cent. in aggregate principal amount of the Securities may, by written notice addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent, declare the Securities to be immediately (or, in the case of Nordic Securities, on such later date on which the relevant Nordic Securities have been transferred to the account designated by the relevant Nordic Issuing Agent and blocked for further transfer by such Agent) due and payable, whereupon they shall become so due and payable at their Early Redemption Amount (or in accordance with any other provisions specified in the applicable Issue Terms) without further action or formality. Notice of any such declaration shall promptly, and in any event not more than 10 Business Days after such declaration is made, be given to the Securityholders.

In the case of MSBV Securities and MSFL Securities, nothing herein contained shall be deemed to authorise any Securityholder to exercise any remedy against the applicable Issuer or the Guarantor solely as a result of, or because it is related directly or indirectly to, the insolvency of the Guarantor or the commencement of any proceedings relative to the Guarantor under Title 11 of the United States Bankruptcy Code, or the appointment of a receiver for the Guarantor under Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 or the commencement of any other applicable federal or state bankruptcy, insolvency, resolution or other similar law, or solely as a result of, or because it is related directly or indirectly to, a receiver, assignee or trustee in bankruptcy or reorganization, liquidator, sequestrator or similar official having been appointed for or having taken possession of the Guarantor or its property, or solely as a result of, or because it is related directly or indirectly to, the institution of any other comparable judicial or regulatory proceedings relative to the Guarantor, or to the creditors or property of the Guarantor. Notwithstanding the foregoing, Securityholders are authorised to exercise any remedy against the relevant Issuer as a result of an Event of Default described in Condition 21.1(b).

- 21.2 **Annulment of Acceleration and Waiver of Defaults.** In some circumstances, if any or all Events of Default, other than the non-payment of the principal of the Securities of a Series that has become due as a result of an acceleration, have been cured, waived or otherwise remedied, then the holders of a majority in principal amount of such Series of Securities (voting as one class) may annul past declarations of acceleration of or waive past defaults of the Securities. However, any continuing default in payment of principal of or any premium or interest on those Securities may not be waived.

22. ILLEGALITY AND REGULATORY EVENT

- 22.1 If this Condition 22 (*Illegality and Regulatory Event*) is specified in the Issue Terms to be applicable to a Series of Securities, the Issuer shall have the right to redeem the Securities early (at the amount specified in the applicable Issue Terms), if it shall have determined that:

- (a) its performance thereunder, or, if applicable, the Guarantor's performance of its obligation under the Guarantee, shall have become or will be unlawful in whole or in part as a result of compliance in good faith by the Issuer, or, if applicable, the Guarantor, with any applicable present or future law, rule, regulation, judgment, order or directive of any governmental, administrative, legislative or judicial authority or power ("**applicable law**") (an "**Illegality Event**"); or
- (b) in respect of Securities issued by MSBV only, a Regulatory Event has occurred.

- 22.2 If Condition 22 (*Illegality and Regulatory Event*) is specified in the Issue Terms to be applicable to a Series of Securities and, subject to the conditions set out in Condition 22.1 above, the Issuer determines that the Securities shall be redeemed early in accordance with this Condition 22, the Issuer shall give not less than five Business Days' notice to the Securityholders informing them that either an Illegality Event or, in respect of Securities issued by MSBV only, a Regulatory Event, as applicable, has occurred, as a result of which the Securities shall be redeemed early on the date specified for redemption in such notice. In such circumstances the Issuer will, if and to the extent permitted by applicable law, pay to each Securityholder in respect of each Security held by such Securityholder an amount determined by the Determination Agent, in its reasonable discretion, as representing either:

- (i) the fair market value of such Security immediately prior to such redemption (ignoring such Illegality Event or Regulatory Event) less the cost to the Issuer (or its Affiliates) of, or the loss realised by the Issuer (or its Affiliates) on, unwinding any related underlying hedging arrangements, the amount of such cost or loss being as determined by the Determination Agent in its reasonable discretion, if "Early Redemption Amount (Illegality and Regulatory Event) – Fair Market Value Less Costs" is specified in the Issue Terms;
- (ii) the fair market value of such Security immediately prior to such redemption (ignoring such Illegality Event or Regulatory Event), if "Early Redemption Amount (Illegality and Regulatory Event) – Fair Market Value" is specified in the Issue Terms; or
- (iii) the Calculation Amount of such Security, if "Early Redemption Amount (Illegality and Regulatory Event) – Par" is specified in the Issue Terms. The Issuer's obligations under the Securities shall be satisfied in full upon payment in respect of each Security of the amount determined by the Determination Agent to be payable in accordance with the provisions above, based on the elections made in the applicable Issue Terms,

or, if a formula is specified in the applicable Issue Terms for the calculation of such early redemption amount, an amount calculated in accordance with such formula.

22.3 The Issuer shall also, as soon as reasonably practicable under the circumstances and in any event within 15 Business Days of such event occurring, notify the Fiscal Agent and the Determination Agent of the occurrence of an Illegality Event or, in respect of Securities issued by MSBV only, a Regulatory Event, as applicable.

23. PRESCRIPTION

23.1 **Prescription in Respect of Registered Securities:** Claims for principal and interest on redemption in respect of Registered Securities shall become void unless the relevant Security Certificates are surrendered for payment within 10 years of the appropriate Relevant Date.

23.2 **Prescription in Respect of Nordic Securities:** Claims for principal in respect of the Swedish Securities shall become void unless made within a period of 10 years after the appropriate Relevant Date. Claims for interest in respect of the Swedish Securities shall become void unless made within a period of three years after the appropriate Relevant Date. Claims for principal and/or interest in respect of Finnish Securities shall become void unless made within a period of three years after the appropriate Relevant Date.

23.3 **Prescription in Respect of Uncertificated Securities:** Claims for principal and interest in respect of Uncertificated Securities shall become void unless made within a period of 10 years after the appropriate Relevant Date.

24. REPLACEMENT OF SECURITIES

If any Security or Security Certificate is lost, stolen, mutilated, defaced or destroyed, it may be replaced at the Specified Office of the Registrar, during normal business hours (and, if the Securities are then admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system which requires the appointment of a Paying Agent or Transfer Agent in any particular place, the Paying Agent or Transfer Agent having its Specified Office in the place required by such listing authority, stock exchange and/or quotation system), subject to all applicable laws and stock exchange requirements, upon payment by the claimant of the expenses incurred in connection with such replacement and on such terms as to evidence, security, indemnity and otherwise as the Issuer may reasonably require. Mutilated or defaced Securities or Security Certificates must be surrendered before replacements will be issued.

25. AGENTS

25.1 In acting under the Issue and Paying Agency Agreement and in connection with the Securities, the Agents act solely as agents of the Issuer and do not assume any obligations towards or relationship

of agency or trust for or with any of the Securityholders. All calculation functions required of the relevant Agent may be delegated to such persons as the relevant Agent may decide and all notifications, opinions, determinations, certificates and calculations given, expressed, made or obtained for the purposes of the Securities by the Agents or the Issuer shall (in the absence of manifest error or wilful misconduct) be binding on the Issuer and the Securityholders and (subject as aforesaid) no liability to the Securityholders (or any of them) shall attach to the Agents or the Issuer in connection with the exercise or non-exercise by any of them of their powers, duties and discretions for such purposes.

- 25.2 In acting under the SEB Issuing and Paying Agent Agreement, the Nordic Issuing Agent acts solely as agent of the Issuer and does not assume any obligations towards or relationship of agency or trust for or with any of the Securityholders.
- 25.3 In acting under the Euroclear Agreement, the Euroclear Registrar acts solely as agent of the Issuer and does not assume any obligations towards or relationship of agency or trust for or with any of the Securityholders.
- 25.4 The initial Agents, the Nordic Issuing Agent and the Euroclear Registrar and their initial Specified Office are listed below on the inside back cover of this Base Prospectus. The initial Calculation Agent is The Bank of New York Mellon, London Branch. The Issuer reserves the right at any time to vary or terminate the appointment of any Agent, the Nordic Issuing Agent and the Euroclear Registrar and to appoint a successor Fiscal Agent or Registrar or Calculation Agent or Nordic Issuing Agent or Euroclear Registrar and additional or successor paying agents; provided, however, that:
- (a) there shall at all times be a Registrar and, in the case of Uncertificated Securities, a Euroclear Registrar appointed in respect of the Securities;
 - (b) if a Calculation Agent is specified in the applicable Issue Terms, the Issuer shall at all times maintain a Calculation Agent;
 - (c) if a Determination Agent is specified in the applicable Issue Terms, the Issuer shall at all times maintain a Determination Agent;
 - (d) if and for so long as the Securities are admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system which requires the appointment of a Paying Agent and/or a Transfer Agent in any particular place, the Issuer shall maintain a Paying Agent and/or a Transfer Agent having its Specified Office in the place required by such listing authority, stock exchange and/or quotation system; and
 - (e) so long as there is any Tranche of Nordic Securities outstanding, there will at all times be an NCSD duly authorised as a central securities depository under the relevant NCSD Rules and a Nordic Issuing Agent in respect of the relevant Tranche of Nordic Securities.
- 25.5 Notice of any change in any of the Paying Agents or in their Specified Offices shall promptly, and in any event not more than 15 Business Days after any such change has been confirmed, be given to the Securityholders in accordance with Condition 28 (*Notices*).
- 25.6 Notwithstanding any provision to the contrary, the Determination Agent shall act as an expert and not as an agent for the Issuer or the Securityholders and all determinations, considerations and decisions made by the Determination Agent shall, in the absence of manifest error, wilful default or bad faith, be final and conclusive and the Determination Agent shall have no liability in relation to such determinations except in the case of its wilful default or bad faith.
- 25.7 Notwithstanding any provision to the contrary, the Calculation Agent shall act as an agent for the Issuer and all calculations made by the Calculation Agent shall, in the absence of manifest error,

wilful default or bad faith, be final and conclusive and the Calculation Agent shall have no liability in relation to such determinations except in the case of its wilful default or bad faith.

26. MEETINGS OF SECURITYHOLDERS AND MODIFICATION

26.1 **Meetings of Securityholders:** The Issue and Paying Agency Agreement (or in the case of Uncertificated Securities, the Euroclear Agreement) contains provisions for convening meetings of Securityholders to consider matters relating to the Securities, including the modification of any provision of the Conditions. Any such modification may be made if sanctioned by an Extraordinary Resolution. Such a meeting may be convened by the Issuer and shall be convened by it upon the request in writing of Securityholders holding not less than one-tenth of the aggregate principal amount of the outstanding Securities. The quorum at any meeting convened to vote on an Extraordinary Resolution will be two or more Persons holding or representing one more than half of the aggregate principal amount of the outstanding Securities or, at any adjourned meeting, two or more Persons being or representing Securityholders whatever the principal amount of the Securities held or represented, provided, however, that Reserved Matters may only be sanctioned by an Extraordinary Resolution passed at a meeting of Securityholders at which two or more Persons holding or representing not less than three-quarters or, at any adjourned meeting, one quarter of the aggregate principal amount of the outstanding Securities form a quorum. Any Extraordinary Resolution duly passed at any such meeting shall be binding on all the Securityholders, whether present or not.

In addition, a resolution in writing signed by or on behalf of all Securityholders who for the time being are entitled to receive notice of a meeting of Securityholders will take effect as if it were an Extraordinary Resolution. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Securityholders.

26.2 Modification

(a) The Securities, the Conditions, the Guarantee and the Deeds of Covenant may be amended without the consent of the Securityholders where, in the reasonable opinion of the Issuer:

- (i) the amendment is to correct a manifest or proven error;
- (ii) the amendment is to effect a modification which is of a formal, minor or technical nature;
- (iii) the amendment is to cure any ambiguity or is to correct or supplement any defective provisions;
- (iv) the amendment is to correct an error or omission such that, in the absence of such correction, the terms of the Securities would not otherwise represent the intended terms of the Securities on which the Securities were sold and have since traded; or
- (v) the amendment is not materially prejudicial to the interest of the Securityholders.

(b) The parties to the Issue and Paying Agency Agreement may agree to modify any provision thereof, but the Issuer shall not agree, without the consent of the Securityholders, to any such modification unless it is of a type contemplated by 26.2(a) above.

26.3 **Interests of Securityholders:** In connection with the Conditions, the Issuer and the Fiscal Agent shall have regard to the interests of the Securityholders as a class. In particular, but without limitation, the Issuer and the Fiscal Agent shall not have regard to the consequences for individual Securityholders resulting from such individual Securityholders being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory.

26.4 **Severance:** Should any of the provisions contained in the Conditions be or become invalid, the validity of the remaining provisions shall not be affected in any way.

27. **FURTHER ISSUES**

Any of the Issuers may from time to time, without the consent of the Securityholders, create and issue further securities having the same terms and conditions as the Securities in all respects (or in all respects except for the first payment of interest) so as to form a single series with the Securities.

28. **NOTICES**

28.1 Registered Securities: Notices to holders of Registered Securities in definitive form shall be sent to them by first class mail (or its equivalent) or (if posted to an overseas address) by airmail at their respective addresses on the Register. Notices to holders of Registered Securities in global form shall be sent to them by delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg and/or any other Relevant Clearing System for communication by them to the holders of the Securities. To the extent the Registered Securities are admitted to listing on the Official List of the Luxembourg Stock Exchange and to trading on the Luxembourg Regulated Market or the Euro MTF Market, notices to holders will be published in accordance with the rules of the Luxembourg Stock Exchange, and, if permitted by the rules and regulations of the Luxembourg Stock Exchange, on the Issuer's website at <http://sp.morganstanley.com/EU/Documents>.

28.2 Nordic Securities: All notices to holders of Nordic Securities shall be valid if so published or mailed to their registered addresses appearing on the relevant NCS D Register.

28.3 Uncertificated Securities: Notices to holders of Uncertificated Securities shall be sent to the address of the Securityholder appearing in the Record on the second Business Day immediately prior to despatch of such notice, by first class post or, if such address is not in the United Kingdom, by airmail post (any such notice to be delivered or sent at the risk of the relevant Securityholder).

28.4 Unlisted Securities: Notices to Securityholders of non-listed Securities may be published, as specified in the applicable Issue Terms, in newspapers, on the Issuer's website at <http://sp.morganstanley.com/EU/Documents>, or otherwise.

28.5 Notwithstanding any other provision in the Conditions, any failure by the Issuer, the Calculation Agent, the Determination Agent or any other party to provide Securityholders with any notice due to be given to Securityholders in accordance with the Conditions shall not of itself affect the validity of the determination, adjustment, event or any other occurrence to which such notice relates.

28.6 If an adjustment is made, or any other action is taken, by the Determination Agent under any one or more of the following Conditions: 9.2(b), 9.2(c), 9.2(e), 9.2(f), 9.3(a), 9.3(b), 9.4(a)(ii), 9.4(b)(ii), 9.5(b), 9.6(b), 9.7(c), 9.8(c), 10.1, 10.4(d), 10.6(d), 10.7(e), 10.8(b), 10.10, 11.5(b), 11.6(b), 12.8(b) or 13.4, the Determination Agent shall notify the Issuer and the Fiscal Agent of such adjustment. The Fiscal Agent shall, on behalf of and on instruction of the Issuer, provide notice (which notice shall, for the avoidance of doubt, be in the form provided to it by or on behalf of the Issuer) to the Securityholders of the relevant adjustment within 15 Business Days of receipt of such notification from the Determination Agent.

29. **LOSSES**

In no event shall the Issuer, the Guarantor (if applicable) or the Agents have any liability for indirect, incidental, consequential or other damages (whether or not it may have been advised of the possibility of such damages) other than interest until the date of payment on sums not paid when due in respect of any Securities or assets not delivered when due. Securityholders are entitled to damages only and are not entitled to the remedy of specific performance in respect of any Security.

30. **CURRENCY INDEMNITY**

30.1 If any sum due from the Issuer in respect of the Securities or any order or judgment given or made in relation thereto has to be converted from the currency (the "**first currency**") in which the same is payable under the Conditions or such order or judgment into another currency (the "**second currency**") for the purpose of (a) making or filing a claim or proof against the Issuer, (b) obtaining an order or judgment in any court or other tribunal or (c) enforcing any order or judgment given

or made in relation to the Securities, the Issuer shall indemnify each Securityholder, on the written demand of such Securityholder addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent, against any loss suffered as a result of any discrepancy between (i) the rate of exchange used for such purpose to convert the sum in question from the first currency into the second currency and (ii) the rate or rates of exchange at which such Securityholder may in the ordinary course of business purchase the first currency with the second currency upon receipt of a sum paid to it in satisfaction, in whole or in part, of any such order, judgment, claim or proof.

30.2 This indemnity constitutes a separate and independent obligation of the Issuer and shall give rise to a separate and independent cause of action.

31. **ROUNDING**

For the purposes of any calculations referred to in the Conditions (unless otherwise specified in the Conditions or the applicable Issue Terms), (a) all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 per cent. rounded up to 0.00001 per cent.), (b) all U.S. Dollars amounts used in or resulting from such calculations will be rounded to the nearest cent (with one-half cent rounded upward), (c) all Japanese Yen amounts used in or resulting from such calculations will be rounded downward to the next lower whole Japanese Yen amount and (d) all amounts denominated in any other currency used in or resulting from such calculations will be rounded to the nearest two decimal places in such currency (with 0.005 rounded up to 0.01).

32. **REDENOMINATION, RENOMINALISATION AND RECONVENTIONING**

32.1 **Application:** This Condition 32 (*Redenomination, Renominalisation and Reconventioning*) is applicable to the Securities only if it is specified in the applicable Issue Terms as being applicable.

32.2 **Notice of redenomination:** If the country of the Specified Currency becomes, or announces its intention to become, a Participating Member State, the Issuer may, without the consent of the Securityholders, on giving at least 15 Business Days' prior notice to the Securityholders and the Paying Agents (or, in the case of Uncertificated Securities, the Euroclear Registrar), designate a date (the "**Redenomination Date**"), being an Interest Payment Date under the Securities falling on or after the date on which such country becomes a Participating Member State.

32.3 **Redenomination:** Notwithstanding the other provisions of the Conditions, with effect from the Redenomination Date the Securities shall be deemed to be redenominated into euro in the denomination of euro 0.01 with a principal amount for each Security equal to the principal amount of that Security in the Specified Currency, converted into euro at the rate for conversion of such currency into euro established by the Council of the European Union pursuant to the Treaty (including compliance with rules relating to rounding in accordance with European Community regulations); provided, however, that, if the Issuer determines, with the agreement of the Fiscal Agent that the then market practice in respect of the redenomination into euro 0.01 of internationally offered securities is different from that specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly, and in any event within not more than 15 Business Days of the Issuer making such determination, notify the Securityholders, each listing authority, stock exchange and/or quotation system (if any) by which the Securities have been admitted to listing, trading and/or quotation and the Paying Agents of such deemed amendments.

32.4 **Interest:** Following redenomination of the Securities pursuant to this Condition 32 (*Redenomination, Renominalisation and Reconventioning*), where Securities have been issued in definitive form, the amount of interest due in respect of such Securities will be calculated by reference to the aggregate principal amount of the Securities presented for payment by the relevant holder.

32.5 **Interest Determination Date:** If the Floating Rate Security Provisions are specified in the applicable Issue Terms as being applicable and Screen Rate Determination is specified in the applicable Issue Terms as the manner in which the Floating Interest Rate(s) is/are to be determined, with effect from the Redenomination Date the Interest Determination Date shall be deemed to be the second TARGET Settlement Day before the first day of the relevant Interest Period.

33. **INCONVERTIBILITY EVENTS**

33.1 If, in respect of any Series of Securities, the applicable Issue Terms specifies that "Inconvertibility Event Provisions" are applicable, this Condition 33 (*Inconvertibility Events*) shall apply in respect of such Securities.

33.2 If, at any time during the term of such Series of Securities, the Determination Agent determines, acting in good faith and a commercially reasonable manner, that an Inconvertibility Event has occurred, it will inform the Issuer of the occurrence of such event. Following the determination by the Determination Agent of the occurrence of an Inconvertibility Event, the Issuer shall, not more than 15 Business Days after the occurrence of such an event, provide a notice (a "**Notice of Inconvertibility**") of the occurrence of such an event of inconvertibility to the holders of the Securities in accordance with Condition 28 (*Notices*) electing either:

- (a) If "**Converted Payment**" is specified in the applicable Issue Terms: to continue making any payments due under such Securities until the Maturity Date, in which case, any amount due under such Securities shall be converted from the Relevant Currency into the Inconvertibility Specified Currency at the Fallback FX Spot Rate determined by the Determination Agent in its reasonable discretion; or
- (b) If "**Early Redemption**" is specified in the applicable Issue Terms: to early terminate the Securities on a specified date (such date, the "**Inconvertibility Early Redemption Date**"), in which case the Securities shall early redeem at the Inconvertibility Early Redemption Amount on such Inconvertibility Early Redemption Date. The Issuer's obligations under the Securities shall be satisfied in full upon payment of such amount; or
- (c) If "**Suspended Payment**" is specified in the applicable Issue Terms: to suspend the payment until such number of Business Days as are specified in the applicable Issue Terms after the Determination Agent has notified the Issuer that, in the Determination Agent's reasonable discretion, the Inconvertibility Event has ceased or is no longer in effect.

provided that the Issuer may, at any time from and including the Trade Date to and including the Maturity Date, subsequent to the despatch of a notice electing one of the selected options other than "Early Redemption", dispatch a second notice electing "Early Redemption", **provided that** such option was specified as applicable in the applicable Issue Terms, in which case the Securities will be redeemed in accordance with the terms of "Early Redemption" above and the date specified in such notice will be the Inconvertibility Early Redemption Date.

For the avoidance of doubt, failure to deliver such notice or the failure of the recipient to receive such notice will not affect the Issuer's ability to make payments according to the option it selected.

33.3 Definitions:

An "**Inconvertibility Event**" shall be deemed to have occurred if from (and including) the Trade Date to (and including) the Maturity Date, any event or circumstance occurs that generally makes it, in the reasonable discretion of the Determination Agent, impossible, unlawful or impracticable for the Issuer, the Determination Agent or any of its Affiliates for any reason beyond their reasonable control:

- (i) to convert the Relevant Currency into the Inconvertibility Specified Currency or the Inconvertibility Specified Currency into the Relevant Currency (whether directly or through a cross exchange rate) through customary legal channels; or
- (ii) to determine the rate of conversion of the Inconvertibility Specified Currency into the Relevant Currency or the Relevant Currency into the Inconvertibility Specified Currency or
- (iii) to transfer, or make a payment in, or delivery of, the Relevant Currency from or to, outside, or inside, of the Relevant Jurisdiction, in each case under (i), (ii) or (iii), in an amount up to the total amount of payment due to be made by the Issuer under the Securities; or
- (iv) to determine a rate at which any Relevant Currency can be lawfully exchanged for U.S. Dollars; or

- (v) to convert any Relevant Currency into U.S. Dollars; or
- (vi) to exchange or repatriate any funds outside of any jurisdiction in which any of the Relevant Underlying, or each Basket Component, is issued; or
- (vii) for the Issuer or any of its Affiliates to hold, purchase, sell or otherwise deal in any Securities, or any other property in order for the Issuer or any of its Affiliates to perform any related hedging arrangement, or for the purposes of the Issuer or the Issuer's obligations in respect of any Securities;

"Basket Component" has the meaning given to such term in Section 1 (*General*) of the Additional Terms and Conditions;

"Inconvertibility Early Redemption Amount" means in respect of any Security:

- (i) an amount specified as such in the applicable Issue Terms;
- (ii) if **"Early Redemption Amount Less Costs"** is specified in the applicable Issue Terms, an amount equal to (i), the Early Redemption Amount (as defined in Condition 2.1 (*Definitions*)), (ii) converted from the Relevant Currency into the Inconvertibility Specified Currency at the exchange rate (expressed as a number of the Relevant Currency per one unit of the Inconvertibility Specified Currency) determined by the Determination Agent in its reasonable discretion for settlement on or about the relevant payment date and (iii) less the reasonable cost to and/or the loss realised by, the Issuer and/or any Affiliate in respect of break funding costs for the Issuer term financing associated with such early redemption of the Securities, in each case as calculated by the Determination Agent in its reasonable discretion;
- (iii) if **"Early Redemption Amount"** is specified in the applicable Issue Terms, an amount equal to the Early Redemption Amount (as defined in Condition 2.1 (*Definitions*)) converted from the Relevant Currency into the Inconvertibility Specified Currency at the exchange rate (expressed as a number of the Relevant Currency per one unit of the Inconvertibility Specified Currency) determined by the Determination Agent in its reasonable discretion for settlement on or about the relevant payment date, as calculated by the Determination Agent in its reasonable discretion;
- (iv) if **"Fair Market Value Less Costs"** is specified in the applicable Issue Terms, an amount, in the Inconvertibility Specified Currency, equal to the fair market value of such Securities, on such day as is selected by the Determination Agent in its reasonable discretion (**provided that** such day is not more than 15 days before the Inconvertibility Early Redemption Date), less the proportion attributable to that Security of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements or in respect of break funding costs for the Issuer's term financing associated with such early redemption of the Securities, in each case as calculated by the Determination Agent in its reasonable discretion; or
- (v) if **"Fair Market Value"** is specified in the applicable Issue Terms, an amount, in the Inconvertibility Specified Currency, equal to the fair market value of such Securities, on such day as is selected by the Determination Agent in its reasonable discretion (**provided that** such day is not more than 15 days before the Inconvertibility Early Redemption Date), as calculated by the Determination Agent in its reasonable discretion.

"Fallback FX Spot Rate" means the relevant currency exchange rate determined in accordance with the applicable Settlement Rate Option and, if a Settlement Rate Option is not applicable, the currency exchange rate at the time at which such rate is to be determined for foreign exchange transactions in the Specified Currency or the Inconvertibility Specified Currency for value on the relevant Inconvertibility Early Redemption Date, as determined in good faith and in a commercially reasonable manner by the Determination Agent;

"Inconvertibility Specified Currency" means the currency specified in the applicable Issue Terms;

"Relevant Currency" means the currency as specified in the applicable Issue Terms, and, if none is specified, the currency in (i) if the Relevant Underlying is an Index or a Basket of Indices, a Currency in which any of the securities which comprise any such Index is denominated, or (ii) in all other cases, the currency in which the Relevant Underlying (or any Basket Component) is denominated;

"Relevant Jurisdiction" means the jurisdiction as specified in the applicable Issue Terms; and

"Relevant Underlying" has the meaning given to such term in Section 1 (*General*) the Additional Terms and Conditions.

34. **CNY DISRUPTION EVENTS**

34.1 If this Condition 34.1 (*CNY Disruption Events*) is specified as applicable in the applicable Issue Terms, in the event that a CNY Disruption Event, as determined by the Determination Agent in its reasonable discretion, occurs on or prior to any date on which a payment is scheduled to be made under a CNY Security (including, but not limited to, an Interest Payment Date or the Maturity Date) and such CNY Disruption Event is continuing on such date (any such CNY Security so affected, an **"Affected CNY Security"**), the following terms will apply:

- (a) first, payments under the Affected CNY Security shall be postponed to two Hong Kong Business Days after the date on which the CNY Disruption Event ceases to exist, unless that CNY Disruption Event continues to exist for 14 consecutive calendar days from the original date that, but for the occurrence of the CNY Disruption Event, would have been the date for such payments (which payment date may be, but is not limited to, an Interest Payment Date or the Maturity Date). In that case, the provisions of sub-paragraph (b) below will apply on the day immediately following the lapse of such 14 calendar day period; and
- (b) second, the relevant payment obligations under the Affected CNY Security shall be replaced by an obligation to pay an amount equal to the amount that would be due in CNY under the Affected CNY Security converted into an amount in USD as calculated by the Determination Agent in its reasonable discretion. All the payments hereunder shall be made in USD on the relevant Non-Deliverable Substitute Settlement Date. For the avoidance of doubt, this sub-paragraph (b) shall only apply to any payment which is scheduled to occur on a date (which may be, but is not limited to, the Maturity Date or an Interest Payment Date) that is affected by the CNY Disruption Event and shall not affect any payments falling due on any other dates.

34.2 For the purpose of this Condition 34 (*CNY Disruption Events*):

"CNY Disruption Event" means any of CNY Illiquidity, CNY Inconvertibility or CNY Non-Transferability.

"CNY Illiquidity" means, as determined by the Determination Agent in its reasonable discretion, the occurrence of any event that makes it impossible (where it had previously been possible) for the Issuer to obtain a firm quote of an offer price in respect of an amount in CNY equal to the then aggregate outstanding principal amount (in the case of Notes) or aggregate outstanding Specified Unit Value (in the case of Certificates) of the relevant Affected CNY Securities, any interest or any other amount to be paid under such Securities (the **"Relevant Disrupted Amount"**), during the term of such Securities, either in one transaction or a commercially reasonable number of transactions that, when taken together, is no less than such Relevant Disrupted Amount, in the general CNY exchange market in each Offshore CNY Centre in order to perform its obligations under the Affected CNY Securities.

"CNY Inconvertibility" means, as determined by the Determination Agent in its reasonable discretion, the occurrence of any event that makes it impossible (where it had previously been possible) for the Issuer to convert an amount of CNY no less than the Relevant Disrupted Amount into or from USD in the general CNY exchange market in each Offshore CNY Centre.

"CNY Non-Transferability" means, as determined by the Determination Agent in its reasonable discretion, the occurrence in each Offshore CNY Centre of any event that makes it impossible (where it had previously been possible) for the Issuer to transfer CNY (a) between accounts inside

the Offshore CNY Centre, (b) from an account inside the Offshore CNY Centre to an account outside such Offshore CNY Centre and outside mainland China, or (c) from an account outside an Offshore CNY Centre and outside mainland China to an account inside the Offshore CNY Centre. For the purpose of CNY Non-Transferability and Hong Kong as an Offshore CNY Centre only, a segregated Chinese Renminbi fiduciary cash account with the People's Bank of China and operated by Bank of China (Hong Kong) Limited shall be deemed to be an account inside Hong Kong.

"Hong Kong Business Day" means any day, other than a Saturday or a Sunday, that is neither a legal holiday nor a day on which banking institutions are authorised or required by law or regulation to close in Hong Kong.

"Non-Deliverable Substitute Settlement Date" means, subject to adjustment in accordance with the provisions of Condition 34.1(b) and/or any Business Day Convention applicable to the terms of an Affected CNY Security, the day determined by the Determination Agent which shall be as soon as practicable following the date on which the relevant payment was scheduled to be made in respect of such Affected CNY Security, and which shall be in no event later than two (2) Hong Kong Business Days after the date on which the amount payable in USD in respect of such Affected CNY Security is determined by the Determination Agent pursuant to Condition 34.1(b).

"Offshore CNY Centre" means Hong Kong, or such other CNY Centre as specified in the applicable Issue Terms.

For the avoidance of doubt, references to "general CNY exchange market in each Offshore CNY Centre" in the definitions of CNY Illiquidity and CNY Inconvertibility refers to purchase, sale, lending or borrowing of CNY for general purpose (including, but not limited to, funding), and therefore any purchase or sale of CNY where such CNY is required by relevant laws or regulations for settlement of any cross-border trade transaction with an entity in mainland China, or any purchase or sale of CNY for personal customers residing in each such Offshore CNY Centre, would not be purchase or sale made in such general CNY exchange market.

35. SUBSTITUTION

35.1 *Substitution of Issuer with Morgan Stanley Group entities*

Subject to the conditions set out in this Condition 35 (*Substitution*), but without the consent of Securityholders, each Issuer may, where the Issuer is:

- (a) Morgan Stanley, substitute a subsidiary of Morgan Stanley in place of Morgan Stanley as principal debtor under the Securities, provided that any Securities in respect of which such a substitution is effected will be fully, unconditionally and irrevocably guaranteed pursuant to a guarantee of Morgan Stanley as to the payment of principal of, premium, interest and supplemental amounts, if any, and any Additional Amounts on those Securities when and as the same will become due and payable, whether at maturity or otherwise, and provided further that under the terms of the guarantee, Securityholders will not be required to exercise their remedies against the substitute prior to proceeding directly against Morgan Stanley (as guarantor);
- (b) MSI plc, substitute Morgan Stanley or a subsidiary of Morgan Stanley in place of MSI plc as principal debtor under the Securities, provided that, unless Morgan Stanley is the substitute issuer, any Securities in respect of which such a substitution is effected will be fully, unconditionally and irrevocably guaranteed pursuant to a guarantee of MSI plc as to the payment of principal of, premium, interest and supplemental amounts, if any, and any Additional Amounts on those Securities when and as the same will become due and payable, whether at maturity or otherwise, and provided further that under the terms of the guarantee, Securityholders will not be required to exercise their remedies against the substitute prior to proceeding directly against MSI plc (as guarantor);
- (c) MSBV, substitute Morgan Stanley or a subsidiary of Morgan Stanley in place of MSBV as principal debtor under the Securities, provided that, unless Morgan Stanley is the substitute issuer, any Securities in respect of which such a substitution is effected will be fully, unconditionally and irrevocably guaranteed pursuant to a guarantee of Morgan Stanley as to the payment of principal of, premium, interest and supplemental amounts, if any, and any Additional Amounts on those Securities when and as the same will become due and payable, whether at maturity or otherwise, and provided further that under the terms of the guarantee, Securityholders will not be required to

exercise their remedies against the substitute prior to proceeding directly against Morgan Stanley (as guarantor); or

- (d) MSFL, substitute Morgan Stanley or a subsidiary of Morgan Stanley in place of MSFL as principal debtor under the Securities, provided that, unless Morgan Stanley is the substitute issuer, any Securities in respect of which such a substitution is effected will be fully, unconditionally and irrevocably guaranteed pursuant to a guarantee of Morgan Stanley as to the payment of principal of, premium, interest and supplemental amounts, if any, and any Additional Amounts on those Securities when and as the same will become due and payable, whether at maturity or otherwise, and provided further that under the terms of the guarantee, Securityholders will not be required to exercise their remedies against the substitute prior to proceeding directly against Morgan Stanley (as guarantor).

35.2 *Substitution of Issuer or Guarantor with non Morgan Stanley Group entities*

If this Condition 35.2 is specified in the Issue Terms to be applicable to a Series of Securities, subject to the conditions set out in this Condition 35, including the rights of Securityholders under Condition 35.6 (*Right to Redemption in respect of substitutions with non Morgan Stanley Group entities*), but without the consent of Securityholders, the Issuer or the Guarantor (in the case of MSBV or MSFL Securities) may, in the event that the Issuer or the Guarantor (as the case may be) has determined that any of the following events has occurred in respect of the Issuer or the Guarantor (as the case may be): an insolvency, receivership or equivalent event under the jurisdiction of the Issuer or the Guarantor (as the case may be); a divestment mandated for regulatory reasons; any action being required to satisfy any regulatory licensing requirements; or a change of control (each a "**Substitution Event**"), substitute for itself any entity which is not a Morgan Stanley Group entity, provided that such entity has a long term credit rating from at least one rating agency of standard application on the international capital markets (including but not limited to S&P, Moody's and Fitch) which is at least as high as the long term credit rating of the relevant Issuer or Guarantor (as the case may be) being substituted immediately prior to the occurrence of the relevant Substitution Event). Notwithstanding the foregoing, for any Series of Securities in respect of which Morgan Stanley is the Issuer, Morgan Stanley may not be substituted as Issuer with any entity which is not a Morgan Stanley Group entity within one year of the Issue Date of such Securities.

35.3 *Conditions to substitution*

Substitution of an Issuer or Guarantor for another entity (the "**Substitute**") as provided in Condition 35.1 (*Substitution of Issuer with Morgan Stanley Group entities*) or 35.2 (*Substitution of Issuer or Guarantor with non Morgan Stanley Group entities*) above (as applicable) are subject to the following conditions:

- (a) the Substitute becoming party to the Issue and Paying Agency Agreement with any appropriate consequential amendments, as if it had been an original party to it in place of the relevant Issuer or the Guarantor (as the case may be);
- (b) the Substitute is validly existing under the laws under which it is established or incorporated, has capacity to assume all rights, obligations and liabilities under the Securities, receipts, coupons and Guarantee, as applicable, and has obtained all necessary corporate authorisations to assume all such rights, obligations and liabilities under the Securities or Guarantee (as applicable);
- (c) the Substitute has obtained all necessary governmental or regulatory approvals and consents for the performance by it of its obligations in connection with the Securities or Guarantee (as applicable) and that all such approvals and consents are in full force and effect and that the Substitute and the Securities comply with all applicable requirements of the Securities Act;
- (d) in the case of substitution of an Issuer or Guarantor pursuant to Condition 35.2 (*Substitution of Issuer or Guarantor with non Morgan Stanley Group entities*) above only:
- (i) the Substitute and the relevant Issuer having obtained (a) legal opinions from independent legal advisers of recognised standing in the country of incorporation of the Substitute and in England that the obligations of the Substitute, in the case of a substitution of an Issuer, under the Securities and the relevant Deed of Covenant, or, in New York in the case of a

substitution of the Guarantor under the Deed of Guarantee, are legal, valid and binding obligations of the Substitute and (b) in the case of the substitution of the Issuer which is MSBV or MSFL (or any substitute thereof), a legal opinion from an independent legal adviser in New York of recognised standing, that the Deed of Guarantee will apply to the Substitute *mutatis mutandis* as it applies to the Issuer prior to the substitution and will constitute legal, valid and binding obligations of the Guarantor, in respect of the Substitute, provided that no opinion as referred to in this sub paragraph (d) shall be required where the Substitute is the Guarantor with respect to MSBV Securities or MSFL Securities; and

- (ii) if the relevant Securities are rated at the relevant time, the Substitute has obtained, prior to the substitution date, acknowledgement from the relevant rating agencies that the substitution will not result in whole or in part in a withdrawal, downgrading, placement in creditwatch or negative outlook of the Securities;
- (e) the Fiscal Agent has confirmed to the relevant Issuer or Guarantor (as the case may be) that it has completed its relevant "know your customer" requirements on the proposed Substitute;
- (f) such substitution being permitted by the rules of any stock exchange on which the Securities are listed and each such stock exchange confirming that, following the proposed substitution of the Substitute, the Securities will continue to be listed on such stock exchange;
- (g) no payment in respect of the Securities, receipts and coupons is overdue at the relevant time;
- (h) at the time of any such substitution, the Substitute is in a position to fulfil all payment obligations arising from or in connection with the Securities in freely convertible and transferable lawful money without the necessity of any taxes or duties to be withheld at source, and to transfer all amounts which are required therefor to the Fiscal Agent without any restrictions;
- (i) if appropriate, the Substitute appointing a process agent as its agent in England to receive service of process on its behalf in relation to any legal action or proceedings arising out of or in connection with the Securities;
- (j) in respect of Securities which benefit from the Guarantee, such Securities shall continue to benefit from the Guarantee following substitution of the Issuer and/or the Guarantor (as the case may be), pursuant to this Condition 35; and
- (k) in respect of Nordic Securities, the relevant NCSD has given its consent to the substitution.

35.4 *Reference in the Conditions to the Issuer or the Guarantor (as the case may be)*

In the event of a substitution pursuant to this Condition 35, any reference in the Conditions to the relevant Issuer or the Guarantor (as the case may be) shall be construed as a reference to the entity substituted.

35.5 *Notification to Securityholders of substitutions with Morgan Stanley Group entities*

The relevant Issuer shall as soon as reasonably practicable, and in any event not more than 15 Business Days after the date on which a substitution pursuant to Condition 35.1 (*Substitution of Issuer with Morgan Stanley Group entities*) has taken place, notify Securityholders of such substitution in accordance with Condition 28 (*Notices*).

35.6 *Right to Redemption in respect of substitutions with non Morgan Stanley Group entities*

- (a) With respect to the right of substitution referred to in Condition 35.2 (*Substitution of Issuer or Guarantor with non Morgan Stanley Group entities*), the Issuer shall provide at least 60 calendar days' notice of any substitution under such Condition to Securityholders in accordance with Condition 28 (*Notices*). Securityholders who object to the substitution will have the right to require the Issuer to redeem their Securities at a price determined in accordance with the provisions of this Condition 35.6, by providing notice of their intention to exercise such right in the manner set out in this Condition 35.6 (the "**Right to Redemption**").

- (b) The redemption of any Securities in respect of which the Right to Redemption has been exercised by Securityholders shall take place 10 Business Days prior to the relevant substitution becoming effective (the "**Substitution Redemption Date**"). The Issuer shall redeem any Securities in respect of which the Right to Redemption has been exercised at a price equal to (i) in the case of Securities the terms of which provide for the repayment in full of principal at maturity, the Replacement Value of such Securities or (ii) in every other case, the fair market value of such Securities on the day on which the relevant Right to Redemption Notice is deposited, in accordance with the provisions of this Condition 35.6, as determined by the Determination Agent in its reasonable discretion, together with interest (if any) accrued to such date (to the extent that such interest is not otherwise taken into account in determining the fair market value of such Securities).

For the purpose of this Condition 35.6, "**Replacement Value**" means an amount determined by the Determination Agent, acting in good faith and in a commercially reasonable manner, as at the day on which the relevant Right to Redemption Notice is deposited in accordance with the provisions of this Condition 35.6 to be the amount that a Qualified Financial Institution would charge to assume all of the Issuer's payment and other obligations with respect to the Securities as if the relevant Substitution Event described in Condition 35.2 (*Substitution of Issuer or Guarantor with non Morgan Stanley Group entities*) and the substitution described in this Condition 35 had not occurred or to undertake obligations that would have the effect of preserving the economic equivalent of any payment by the Issuer to the Securityholder with respect to the Securities.

- (c) In order to exercise the option contained in this Condition 35.6 the holder of a Security (other than an Uncertificated Security) must, not less than 15 Business Days before the date on which the substitution is due to take place (the "**Substitution Date**"), deposit such Security (together with all unmatured Coupons relating thereto) with the Registrar, and a duly completed Right to Redemption Notice in the form obtainable from any Paying Agent. The Paying Agent with which a Security is so deposited shall deliver a duly completed Right to Redemption Receipt to the depositing Securityholder. In respect of Nordic Securities, the Right to Redemption Notice shall not take effect against the Issuer before the date on which the relevant Nordic Securities have been transferred to the account designated by the Nordic Issuing Agent and blocked for further transfer by the relevant Nordic Issuing Agent. No Security, once deposited with a duly completed Right to Redemption Notice in accordance with this Condition 35.6, may be withdrawn; provided, however, that if, prior to the relevant Substitution Redemption Date, any such Security becomes due and payable or, upon due presentation of any such Security on the relevant Substitution Redemption Date, payment of the redemption moneys is improperly withheld or refused, the relevant Paying Agent shall mail notification thereof to the depositing Securityholder at such address as may have been given by such Securityholder in the relevant Right to Redemption Notice and shall hold such Security at its Specified Office for collection by the depositing Securityholder against surrender of the relevant Right to Redemption Receipt. For so long as any outstanding Security is held by a Paying Agent in accordance with this Condition 35.6, the depositor of such Security and not such Paying Agent shall be deemed to be the holder of such Security for all purposes.
- (d) In order to exercise the option contained in this Condition 35.6 the holder of an Uncertificated Security must, not less than 15 Business Days before the relevant Substitution Date, deposit with the Euroclear Registrar a duly completed Right to Redemption Notice in the form obtainable from the Euroclear Registrar. The Euroclear Registrar with which a Right to Redemption Notice is so deposited shall deliver a duly completed Right to Redemption Receipt to the depositing Securityholder. Once deposited a duly completed Right to Redemption Notice may not be withdrawn; provided, however, that if, prior to the relevant Substitution Redemption Date, the related Security becomes due and payable or, upon the relevant Substitution Redemption Date, payment of the redemption moneys is improperly withheld or refused, the Euroclear Registrar shall mail notification thereof to the depositing Securityholder at such address as may have been given by such Securityholder in the relevant Right to Redemption Notice and the relevant depositing Securityholder and not the Euroclear Registrar shall be deemed to be the holder of such Security for all purposes in such case.
- (e) Notwithstanding the foregoing, in respect of any Series of Securities for which Morgan Stanley is the Issuer, Securityholders shall only have the right to submit a Right to Redemption Notice from the date which is one calendar year after the Issue Date of such Securities.

- (f) Any payments made to Securityholders in accordance with this Condition 35.6 shall be made in accordance with the provisions of Condition 17 (*Payments – Registered Securities*) or Condition 18 (*Payments – Uncertificated Securities*), as applicable.

35.7 *Tax Consequences of substitution*

If the Issuer substitutes an entity in place of the Issuer as principal debtor under the Securities, the tax consequences (including the withholding tax consequences) of holding the Securities may change. Except as provided in Condition 20.1 (*Additional Amounts*), if withholding is required on the Securities, no additional amounts will be required to be paid.

36. **REPRESENTATIONS AND ACKNOWLEDGEMENTS BY SECURITYHOLDERS**

Each Securityholder shall be deemed to represent and acknowledge to the Issuer on acquiring any Securities that:

- 36.1 neither the Issuer nor any Affiliate or any of their agents is acting as a fiduciary for it or provides investment, tax, accounting, legal or other advice in respect of the Securities and that such Securityholder and its advisors are not relying on any communication (written or oral and including, without limitation, opinions of third party advisors) of the Issuer or any Affiliate as (i) legal, regulatory, tax, business, investment, financial, accounting or other advice, (ii) a recommendation to invest in any Securities or (iii) an assurance or guarantee as to the expected results of an investment in the Securities (it being understood that information and explanations related to the terms and conditions of the Securities shall not be considered to be any such advice, recommendation, assurance or guarantee and should be independently confirmed by the recipient and its advisors prior to making any such investment);
- 36.2 such Securityholder (i) has consulted with its own legal, regulatory, tax, business, investments, financial and accounting advisors to the extent that it has deemed necessary, and has made its own investment, hedging, and trading decisions based upon its own judgment and upon any advice from such advisors as it has deemed necessary and not upon any view expressed by the Issuer or any Affiliate or any of their agents and (ii) is acquiring the Securities with a full understanding of the terms, conditions and risks thereof and it is capable of and willing to assume those risks; and
- 36.3 the Issuer and/or any Affiliates may have banking or other commercial relationships with issuers of any securities to which the Securities relate and may engage in proprietary trading in any securities, indices, fund interests or other property to which the Securities relate or options, futures, derivatives or other instruments relating thereto (including such trading as the Issuer and/or any Affiliate deem appropriate in their reasonable discretion to hedge the market risk on the Securities and other transactions between the Issuer and/or any Affiliates and any third parties), and that such trading (i) may affect the price or level thereof and consequently the amounts payable under the Securities and (ii) may be effected at any time, including on or near any Valuation Date, Observation Date, Interest Determination Date, Determination Date or Averaging Date.

37. **GOVERNING LAW AND JURISDICTION**

- 37.1 **Governing Law:** The Securities and any non-contractual obligations arising out of or in connection with them shall be governed by and construed in accordance with English law.
- 37.2 **Jurisdiction:** Each of Morgan Stanley, MSI plc, MSBV and MSFL agrees for the benefit of the Securityholders that the courts of England shall have jurisdiction to hear and determine any suit, action or proceedings, and to settle any disputes, which may arise out of or in connection with the Securities (respectively, "**Proceedings**" and "**Disputes**") and, for such purposes, irrevocably submits to the jurisdiction of such courts.
- 37.3 **Appropriate Forum:** Each of Morgan Stanley, MSBV and MSFL irrevocably waives any objection which it might now or hereafter have to the courts of England being nominated as the forum to hear and determine any Proceedings and to settle any Disputes, and agrees not to claim that any such court is not a convenient or appropriate forum.

Process Agent: Each of Morgan Stanley, MSBV and MSFL agrees that the process by which any Proceedings in England are begun may be served on it by being delivered to (i) in the case of

Morgan Stanley and MSBV, Morgan Stanley & Co. International plc, 25 Cabot Square, Canary Wharf, London E14 4QA or, if different, its registered office for the time being and (ii) in the case of MSFL, Morgan Stanley (UK) Limited, 25 Cabot Square, Canary Wharf, London E14 4QA or, if different, its registered office for the time being or (iii) at any address of the relevant Issuer in Great Britain at which process may be served on it in accordance with Part 34 of the Companies Act 2006. If such Person is not or ceases to be effectively appointed to accept service of process on behalf of any Issuer, such Issuer shall, on the written demand of any Securityholder addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent, appoint another Person in England to accept service of process on its behalf and, failing such appointment within 15 days, any Securityholder shall be entitled to appoint such a Person by written notice addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent. Nothing in this paragraph shall affect the right of any Securityholder to serve process in any other manner permitted by law.

38. **RIGHTS OF THIRD PARTIES**

This discussion is limited to the U.S. federal tax issues addressed below. Additional issues may exist that are not addressed in this discussion and that could affect the federal tax treatment of an investment in the Securities. Investors should seek their own advice based upon their particular circumstances from an independent tax advisor.

A non-U.S. investor should review carefully the section entitled "*United States Federal Taxation*" in the Base Prospectus.

³⁸⁵ [Withholding on "Other Income" Coupon Payments]

The following discussion applies to Securities issued by Morgan Stanley or MSFL that pay periodic coupons and provide for a payment at maturity or upon early settlement (other than the stated coupon) that is determined by reference to the performance of a Relevant Underlying and thus may be lower or higher than their issue price. The U.S. federal tax treatment of the Securities is unclear due to the absence of statutory, judicial or administrative authorities that directly address the Securities or similar securities, and no ruling is being requested from the Internal Revenue Service ("IRS") with respect to the Securities. Significant aspects of the U.S. federal income tax consequences of an investment in the Securities are uncertain, and no assurance can be given that the IRS or a court will agree with the tax treatment described

³⁸⁴ Delete for Securities with a denomination per Note or Unit Value per Certificate of EUR 100,000 or more.

³⁸⁵ Insert for "other income" Securities issued by MS or MSFL that pay periodic coupons and provide for a payment at maturity or early settlement based on the value of the underlying securities (and thus it is possible that the final payment could be significantly lower than the Note's issue price), excluding Securities that pay periodic coupons at a fixed rate with no possible upside payment at maturity or upon early settlement.

herein. Accordingly, investors should consult their tax adviser regarding the U.S. federal income tax consequences of an investment in the Securities (including possible alternative treatment thereof).

A non-U.S. investor should expect that a withholding agent will treat any coupon payments as subject to U.S. federal withholding tax at a rate of 30 per cent., unless the non-U.S. investor establishes an exemption under the "other income" provision of a Qualifying Treaty (as defined below) or, to the extent that any portion of a coupon payment is treated as interest for U.S. federal income tax purposes, an exemption under the "portfolio interest exemption" rules as described below.

An income tax treaty between a non-U.S. jurisdiction and the United States is a "Qualifying Treaty" if it provides for a 0 per cent. rate of tax on "other income" earned by a resident of the non-U.S. jurisdiction from sources within the United States. Accordingly, if a non-U.S. investor is a resident of a non-U.S. jurisdiction that qualifies for benefits under such a Qualifying Treaty, it should generally be eligible for an exemption under the "other income" provision referred to above if the non-U.S. investor complies with the certification requirement described in the section entitled "*United States Federal Taxation—Tax Treatment of the Securities—Other Income Coupons*" in the Base Prospectus. However, because most income tax treaties contain complex eligibility rules and limitations, a non-U.S. investor should consult its tax advisor about its eligibility for this exemption. To demonstrate eligibility for the "other income" exemption to the Issuer or an applicable withholding agent, a non-U.S. investor generally will be required to provide a properly completed Internal Revenue Service ("IRS") Form W-8BEN or W-8BEN-E certifying that it is not a U.S. person and that it is eligible for the benefits of the "other income" article of a Qualifying Treaty (or, if the non-U.S. investor holds its Securities through certain intermediaries, it may be permitted to provide alternative documentation in lieu of the appropriate Form W-8BEN or W-8BEN-E to establish that it is not a U.S. person and that it is eligible for the benefits of the "other income" article of a Qualifying Treaty) as discussed in the section entitled "*United States Federal Taxation—Tax Treatment of the Securities—Other Income Coupons*" in the Base Prospectus.

Notwithstanding the discussion above, because the U.S. federal income tax treatment of the Securities is unclear, any coupon payments on such Securities could alternatively be treated in whole or part as payments of interest. Nonetheless, even if the coupon payments are treated in whole or in part as interest and thus not eligible for the "other income" exemption described above, under current law and administrative practice a non-U.S. investor may qualify for the "portfolio interest exemption" with respect to the coupon payments if the investor has timely provided certifications to establish that it is not a U.S. person and certain other conditions are met, as discussed in the section entitled "*United States Federal Taxation—Tax Treatment of the Securities—Interest*" in the Base Prospectus.

As described in "*United States Federal Taxation*" in the Base Prospectus, U.S. withholding may also be imposed in other circumstances, such as under FATCA, the U.S. backup withholding rules or Section 871(m) of the Internal Revenue Code.

If withholding is so required, the relevant Issuer will not be required to pay any additional amounts with respect to the amounts so withheld.]

United States Taxation

This discussion is limited to the U.S. federal tax issues addressed below. Additional issues may exist that are not addressed in this discussion and that could affect the federal tax treatment of an investment in the Securities. Investors should seek their own advice based upon their particular circumstances from an independent tax advisor.

A non-U.S. investor should review carefully the section entitled "*United States Federal Taxation*" in the Base Prospectus.

¹⁷ [Withholding on "Other Income" Coupon Payments

The following discussion applies to Securities issued by Morgan Stanley or MSFL that pay periodic coupons and provide for a payment at maturity or upon early settlement (other than the stated coupon) that is determined by reference to the performance of a Relevant Underlying and thus may be lower or higher than their issue price. The U.S. federal tax treatment of the Securities is unclear due to the absence of statutory, judicial or administrative authorities that directly address the Securities or similar securities, and no ruling is being requested from the Internal Revenue Service ("IRS") with respect to the Securities. Significant aspects of the U.S. federal income tax consequences of an investment in the Securities are uncertain, and no assurance can be given that the IRS or a court will agree with the tax treatment described herein. Accordingly, investors should consult their tax adviser regarding the U.S. federal income tax consequences of an investment in the Securities (including possible alternative treatment thereof).

A non-U.S. investor should expect that a withholding agent will treat any coupon payments as subject to U.S. federal withholding tax at a rate of 30 per cent., unless the non-U.S. investor establishes an exemption under the "other income" provision of a Qualifying Treaty (as defined below) or, to the extent that any portion of a coupon payment is treated as interest for U.S. federal income tax purposes, an exemption under the "portfolio interest exemption" rules as described below.

An income tax treaty between a non-U.S. jurisdiction and the United States is a "Qualifying Treaty" if it provides for a 0 per cent. rate of tax on "other income" earned by a resident of the non-U.S. jurisdiction from sources within the United States. Accordingly, if a non-U.S. investor is a resident of a non-U.S. jurisdiction that qualifies for benefits under such a Qualifying Treaty, it should generally be eligible for an exemption under the "other income" provision referred to above if the non-U.S. investor complies with the certification requirement described in the section entitled "*United States Federal Taxation—Tax Treatment of the Securities—Other Income Coupons*" in the Base Prospectus. However, because most income tax treaties contain complex eligibility rules and limitations, a non-U.S. investor should consult its tax advisor about its eligibility for this exemption. To demonstrate eligibility for the "other income" exemption to the Issuer or an applicable withholding agent, a non-U.S. investor generally will be required to provide a properly completed Internal Revenue Service ("IRS") Form W-8BEN or W-8BEN-E certifying that it is not a U.S. person and that it is eligible for the benefits of the "other income" article of a Qualifying Treaty (or, if the non-U.S. investor holds its Securities through certain intermediaries, it may be permitted to provide alternative documentation in lieu of the appropriate Form W-8BEN or W-8BEN-E to establish that it is not a U.S. person and that it is eligible for the benefits of the "other income" article of a Qualifying Treaty) as discussed in the section entitled "*United States Federal Taxation—Tax Treatment of the Securities—Other Income Coupons*" in the Base Prospectus.

Notwithstanding the discussion above, because the U.S. federal income tax treatment of the Securities is unclear, any coupon payments on such Securities could alternatively be treated in whole or part as payments of interest. Nonetheless, even if the coupon payments are treated in whole or in part as interest and thus not eligible for the "other income" exemption described above, under current law and administrative practice a

¹⁷ Insert for "other income" Securities issued by MS or MSFL that pay periodic coupons and provide for a payment at maturity or early settlement based on the value of the underlying securities (and thus it is possible that the final payment could be significantly lower than the Note's issue price), excluding Securities that pay periodic coupons at a fixed rate with no possible upside payment at maturity or upon early settlement.

non-U.S. investor may qualify for the "portfolio interest exemption" with respect to the coupon payments if the investor has timely provided certifications to establish that it is not a U.S. person and certain other conditions are met, as discussed in the section entitled "*United States Federal Taxation—Tax Treatment of the Securities—Interest*" in the Base Prospectus.

As described in "*United States Federal Taxation*" in the Base Prospectus, U.S. withholding may also be imposed in other circumstances, such as under FATCA, the U.S. backup withholding rules or Section 871(m) of the Internal Revenue Code.

If withholding is so required, the relevant Issuer will not be required to pay any additional amounts with respect to the amounts so withheld.]

ISSUE TERMS AND DRAWDOWN PROSPECTUSES

In this section the expression "necessary information" means, in relation to any Tranche of Securities, the information with regard to the Issuer and the Securities, which according to the particular nature and circumstances of the Issuer and the type of Securities, is material to investors for making an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuer and, if applicable, the Guarantor and of the rights attaching to the Securities and the reasons for the issuance and its impact on the Issuer. In relation to the different types of Securities which may be issued under the Program, the Issuer and the Guarantor have included in this Base Prospectus all of the necessary information except for information relating to the Securities which is not known at the date of this Base Prospectus and which can only be determined at the time of an individual issue of a Tranche of Securities.

Any information relating to the Securities which is not included in this Base Prospectus and which is required in order to complete the necessary information in relation to a Tranche of Securities will be contained in the relevant Issue Terms.

For a Tranche of Securities which is the subject of Issue Terms, those Issue Terms will, for the purposes of that Tranche only, complete this Base Prospectus and must be read in conjunction with this Base Prospectus. The terms and conditions applicable to any particular Tranche of Securities which is the subject of Issue Terms are the Conditions described in the relevant Issue Terms as completed to the extent described in the relevant Issue Terms.

The terms and conditions applicable to any particular Tranche of Securities which is the subject of a Drawdown Prospectus will be the Conditions as completed, amended and/or replaced to the extent described in the relevant Drawdown Prospectus. In the case of a Tranche of Securities which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the relevant Issue Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise.

Each Drawdown Prospectus will be constituted either (1) by a single document containing the necessary information relating to the Issuer and the Guarantor and the relevant Securities or (2) by a Registration Document containing the necessary information relating to the Issuer and the Guarantor, a securities note (the "**Securities Note**") containing the necessary information relating to the relevant Securities and, if necessary, a summary note.

FORMS OF SECURITIES

Morgan Stanley, MSI plc, MSBV and MSFL may issue Securities in registered form ("**Registered Securities**"). Registered Securities may be in either individual certificate form or global certificate form. In addition (i) MSBV and MSI plc may also issue Securities in dematerialised and uncertificated book-entry form with a Nordic central securities depository ("**Nordic Securities**"), and (ii) MSBV and MSI plc may also issue Securities in uncertificated registered form ("**Uncertificated Securities**").

Registered Securities

Registered Securities will be in the form of either individual Security Certificates in registered form ("**Individual Security Certificates**") or a global Security in registered form (a "**Global Security Certificate**"), in each case as specified in the relevant Issue Terms. Each Global Security Certificate will either be: (a) in the case of a Registered Security which is not to be held under the New Safekeeping Structure (defined below), registered in the name of a common depository (or its nominee) for the Relevant Clearing System and the relevant Global Security Certificate will be deposited on or about the issue date with the common depository and will be exchangeable in accordance with its terms; or (b) in the case of a Registered Security to be held under the new safekeeping structure ("**New Safekeeping Structure**" or "**NSS**"), be registered in the name of a common safekeeper (or its nominee) for the Relevant Clearing System and the relevant Global Security Certificate will be deposited on or about the issue date with the common safekeeper for the Relevant Clearing System and will be exchangeable for Individual Security Certificates in accordance with its terms.

If the relevant Issue Terms specify the form of Securities as being "Individual Security Certificates", then the Securities will at all times be in the form of Individual Security Certificates issued to each Securityholder in respect of their respective holdings.

If the relevant Issue Terms specify the form of Registered Securities as being "**Global Security Certificate exchangeable for Individual Security Certificates**", then the Securities will initially be in the form of a Global Security Certificate which will be exchangeable in whole, but not in part, for Individual Security Certificates:

- (a) on the expiry of such period of notice as may be specified in the relevant Issue Terms; or
- (b) at any time, if so specified in the relevant Issue Terms; or
- (c) if the relevant Issue Terms specify "in the limited circumstances described in the Global Security Certificate", then if (a) the Relevant Clearing System is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) any of the circumstances described in Condition 21 (*Events of Default*) occurs.

Whenever the Global Security Certificate is to be exchanged for Individual Security Certificates, the Issuer shall procure that Individual Security Certificates will be issued (i) in an aggregate principal amount equal to the principal amount of the Global Security Certificate (in the case of Notes) or (ii) for an aggregate number of Securities equal to the number of Securities represented by the Global Security Certificate (in the case of Certificates) within five business days of the delivery, by or on behalf of the registered holder of the Global Security Certificate to the Registrar of such information as is required to complete and deliver such Individual Security Certificates (including, without limitation, the names and addresses of the persons in whose names the Individual Security Certificates are to be registered and the principal amount (in the case of Notes) or the number of Securities (in the case of Certificates) of each such person's holding) against the surrender of the Global Security Certificate at the specified office of the Registrar.

Such exchange will be effected in accordance with the provisions of the Issue and Paying Agency Agreement and the regulations concerning the transfer and registration of Securities scheduled thereto and, in particular, shall be effected without charge to any holder, but against such indemnity as the Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

Terms and Conditions applicable to the Registered Securities

The terms and conditions applicable to any Individual Security Certificate will be endorsed on that Individual Security Certificate and will consist of the terms and conditions set out under "*Terms and Conditions of the Securities*" above and the provisions of the relevant Issue Terms which complete those terms and conditions. The terms and conditions applicable to any Global Security Certificate that represents a Security will differ from those terms and conditions which would apply to the Security were it in

individual form to the extent described under "*Summary of Provisions relating to the Securities while in Global Form*" below.

Nordic Securities

Securities issued by MSBV or MSI plc and designated as "Finnish Securities" or "Swedish Securities" in the applicable Issue Terms will be issued in uncertificated and dematerialised book-entry form in accordance with the Finnish or, as applicable, Swedish legislation and all other applicable local laws, regulations and operating procedures applicable to and/or issued by the Finnish or, as applicable, Swedish central securities depository from time to time (the "**NCS D Rules**") designated as registrar for the Nordic Securities in the relevant Issue Terms (the "**NCS D**"). Payments of principal, interest (if any) or any other amounts on any Nordic Security will be made through the relevant NCS D in accordance with the NCS D Rules.

Uncertificated Securities

Uncertificated Securities will be held in uncertificated form in accordance with the Uncertificated Securities Regulations 2001, including any modification or re-enactment thereof for the time being in force (the "**Regulations**"). The Uncertificated Securities are participating securities for the purposes of the Regulations. Title to the Uncertificated Securities is recorded on the relevant Operator register of eligible debt securities (as defined in the Regulations) and the relevant "**Operator**" (as such term is used in the Regulations) in Euroclear UK & Ireland Limited or any additional or alternative operator from time to time approved by the Issuer and the Registrar and in accordance with the Regulations. Securities in definitive registered form will not be issued (either upon issue or in exchange for Uncertificated Securities).

The Euroclear Registrar will make all payments in respect of Uncertificated Securities.

Eurosystem Eligibility

Registered Securities in global form which are to be held under the New Safekeeping Structure may be issued with the intention that such Securities be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem, either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria as specified by the European Central Bank. However, there is no guarantee that such Securities will be recognised as eligible collateral. Any other Securities are not intended to be recognised as eligible collateral for Eurosystem monetary policy and intraday credit operations by the Eurosystem.

SUMMARY OF PROVISIONS RELATING TO THE SECURITIES WHILE IN GLOBAL FORM

Clearing System Accountholders

In relation to any Registered Securities (or any Tranche thereof) represented by a Global Security Certificate, references in the "*Terms and Conditions of the Securities*" above to "**Securityholder**" are references to the person in whose name such Global Security Certificate is for the time being registered in the Register which, for so long as the Global Security Certificate is held by or on behalf of a depositary or a common depositary for the Relevant Clearing System, will be that depositary or common depositary or a nominee for that depositary or common depositary.

Each of the persons shown in the records of the Relevant Clearing System as being entitled to an interest in a Global Security Certificate (each an "**Accountholder**") must look solely to the Relevant Clearing System (as the case may be) for such Accountholder's share of each payment made by the relevant Issuer to the holder of such Global Security Certificate and in relation to all other rights arising under such Global Security Certificate, including any right to exchange any exchangeable Securities or any right to require the relevant Issuer to repurchase such Securities. The respective rules and procedures of the Relevant Clearing System from time to time will determine the extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Security Certificate and the timing requirements for meeting any deadlines for the exercise of those rights. For so long as the relevant Securities are represented by a Global Security Certificate, Accountholders shall have no claim directly against the relevant Issuer in respect of payments due under the Securities and such obligations of the relevant Issuer will be discharged by payment to the holder of such Global Security Certificate.

Exchange of Global Security Certificates

Whenever a Global Security Certificate is to be exchanged for Individual Security Certificates, the Issuer shall procure that Individual Security Certificates will be issued (i) in an aggregate principal amount equal to the principal amount of the Global Security Certificate (in the case of Notes) or (ii) for an aggregate number of Securities equal to the number of Securities represented by the Global Security Certificate (in the case of Certificates) within five business days of the delivery, by or on behalf of the holder of the Global Security Certificate to the Registrar of such information as is required to complete and deliver such Individual Security Certificates (including, without limitation, the names and addresses of the persons in whose names the Individual Security Certificates are to be registered and the principal amount (in the case of Notes) or number of Securities (in the case of Certificates) of each such person's holding) against the surrender of the Global Security Certificate at the specified office of the Registrar. Such exchange will be effected in accordance with the provisions of the Issue and Paying Agency Agreement and the regulations concerning the transfer and registration of Securities scheduled thereto and, in particular, shall be effected without charge to any holder, but against such indemnity as the Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

If:

- (a) Individual Security Certificates have not been delivered by 5.00 p.m. (London time) on the thirtieth day after they are due to be issued and delivered in accordance with the terms of the Global Security Certificate; or
- (b) any of the Securities represented by a Global Security Certificate (or any part of it) has become due and payable in accordance with the Terms and Conditions of the Securities or the date for final redemption of the Securities has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the holder of the Global Security Certificate in accordance with the terms of the Global Security Certificate on the due date for payment,

then at 5.00 p.m. (London time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (London time) on such due date (in the case of (b) above) each Accountholder shall acquire the right under the Morgan Stanley Deed of Covenant, the MSI plc Deed of Covenant, the MSBV Deed of Covenant and the MSFL Deed of Covenant (the "**Deeds of Covenant**"), as the case may be, or any Additional Deed of Covenant to enforce against the Issuer, the Issuer's obligations to the Securityholder in respect of the Securities represented by the Global Security Certificate, including the obligation of the Issuer to make all payments and deliveries when due at any time in respect of such Securities as if such Securities had been duly presented and (where required by the Conditions) surrendered on the due date in accordance with the Conditions. Each Accountholder shall acquire such right without prejudice to any other rights which the Securityholder may have under the Global Security Certificate and the Deeds of Covenant.

Notwithstanding the rights that each Accountholder may acquire under the Deeds of Covenant, payment or delivery to the Securityholder in respect of any Securities represented by the Global Security Certificate shall constitute a discharge of the Issuer's obligations to the extent of any such payment or delivery and nothing in the Deed of Covenant shall oblige the Issuer to make any payment or delivery under the Securities to or to the order of any person other than the Securityholder.

Conditions Applicable to Global Securities

Each Global Security Certificate will contain provisions which modify the terms and conditions set out in "*Terms and Conditions of the Securities*" as they apply to the Global Security Certificate. The following is a summary of certain of those provisions:

Payments: All payments in respect of the Global Security Certificate, which, according to the Terms and Conditions of the Securities, require presentation and/or surrender of a Security Certificate will be made against presentation and (in the case of payment of principal in full with all interest accrued thereon) surrender of the Global Security Certificate at the Specified Office or to the order of any paying agent and will be effective to satisfy and discharge the corresponding liabilities of the relevant Issuer in respect of the Securities.

Exercise of Put Option: In order to exercise the Securityholder's put option set out in Condition 16.7 (*Redemption at the Option of Securityholders*) of the Terms and Conditions of the Securities, the holder of a Global Security Certificate must, within the period specified therein for the deposit of the relevant Security and put notice, give written notice of such exercise to the Fiscal Agent and/or such other person as is specified in the relevant Issue Terms specifying the principal amount (in the case of Notes) or number (in the case of Certificates) of Securities in respect of which such option is being exercised. Any such notice will be irrevocable and may not be withdrawn.

Partial Exercise of Call Option: In connection with an exercise of the option contained in Condition 16.5 (*Redemption at the Option of the Issuer*) of the Terms and Conditions of the Securities in relation to some but not all of the Securities, the Global Security Certificate may be redeemed in part in the principal amount (in the case of Notes) or number of Securities (in the case of Certificates) specified by the Issuer in accordance with the Conditions and the Securities to be redeemed will not be selected as provided in the Conditions but in accordance with the rules and procedures of Euroclear and/or Clearstream, Luxembourg (to be reflected in the records of Euroclear and/or Clearstream, Luxembourg as either a pool factor or a reduction in principal amount (in the case of Notes) or number of Securities (in the case of Certificates), at their discretion).

Notices: Notwithstanding Condition 28 (*Notices*) of the Terms and Conditions of the Securities while all the Securities are represented by a Global Security Certificate and the Global Security Certificate is deposited with a common depository for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system or a common safekeeper, notices to Securityholders may be given by delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and, in any case, such notices shall be deemed to have been given to the Securityholders in accordance with Condition 28 (*Notices*) of the Terms and Conditions of the Securities, on the date of delivery to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, except that, for so long as the Securities are listed on any stock exchange or are admitted to trading by another relevant authority, any notice to Securityholders shall be published in accordance with the rules and regulations of each such stock exchange or other relevant authority.

Payment Business Day: Notwithstanding Condition 2 (*Interpretation*), the definition of "Payment Business Day" in relation to any Global Security Certificate shall be as follows:

"**Payment Business Day**" means:

- (a) if the currency of payment is euro, any day which is a TARGET Settlement Day and a day on which dealings in foreign currencies may be carried on in each (if any) Additional Business Centre;
- (b) if the currency of payment is CNY, any day on which banks and foreign exchange markets are open for business and settlement of CNY payments in the Relevant Financial Centre, the place of payment and each (if any) Additional Business Centre; or
- (c) in any other case, any day which is a day on which dealings in foreign currencies may be carried on in the Principal Financial Centre of the currency of payment and in each (if any) Additional Business Centre.

Registered Securities

Notwithstanding Condition 17 (*Payments – Registered Securities*), each payment in respect of any Global Security Certificate shall be made to the person shown in the Register as the registered holder of the Securities represented by such Global Security Certificate at the close of business (in the relevant clearing system) on the Clearing System Business Day before the due date for such payment (the "**Record Date**") where the "**Clearing System Business Day**" means a day on which each clearing system for which the Global Security Certificate is being held is open for business.

1. *Overview*

This Index Description sets out a description of the essential characteristics of the rules and procedures applicable to the determination of the value of the Index. Prospective investors should read the entire Index Description and Risk Factor 9.8(h) (*Securities linked to proprietary indices*) before making any investment decisions. Defined terms used in the summary are defined in sections 2, 3 and 5 below.

General Overview

The Index is a quantitative and rules-based multi-asset index, representing exposure to the performance of eight Index Components across Fixed Income, and Equities. The eight Index Components are "Ashmore SICAV - Emerging Markets Short Duration" Fund, "BlueBay Investment Grade Bond" Fund, "Allianz Strategy 50" Fund, "Morgan Stanley Investment Funds - US Advantage" Fund, "Nordea 1 SICAV - Alpha 15 MA" Fund, "PIMCO GIS US High Yield Bond" Fund, "Robeco Capital Growth Funds - Robeco Global Consumer Trends Equities" Fund, and "Merian Global Investors Series PLC - Merian Global Equity Absolute Return" Fund (each an "**Index Component**" or "**Asset**"). On each business day, the level of the Index reflects the return of the eight Index Components less fees and costs associated with the Index.

The weightings of each Index Component are rebalanced weekly with reference to performance and realised volatility of each Index Component and correlation of the Index Components. The target volatility level for the combined portfolio is 4%. The combined maximum weight of all Index Components is capped in order to limit the overall leverage when volatility has been particularly low.

Volatility refers to the degree of variance in the price level of a particular asset (in this case an Index Component) over a given time period. The greater the range of fluctuations in the price over the relevant period the higher the volatility. Realised volatility refers to the actual observed volatility of an asset (in this case an Index Component) over a given time period.

Key features of the Index

The Index provides exposure to the performance of a notional portfolio consisting of the eight Index Components. The Index allocation takes into account the diverse risk/return profiles of the eight Index Components by risk and performance-based weighting each Index Component based on the 3-month performance (the "**Performance**") and the 3-month realised volatility levels (the "**Realised Volatility**") of each Index Component and correlation between the Index Components. By risk-weighting each Index Component the Index aims to target an overall volatility of 4%. Risk and performance-based weighting means the strategy tends to reduce exposure to the more volatile and historically worse performing Index Components and increase exposure to the less volatile and historically better performing Index Components. In general, all other things being equal, this means that as an Index Component experiences a declining historical volatility and increasing historical performance with respect to the other Index Components it will tend to have an increased weight in the Index. Section 5.3 describes the Index calculation and weighting mechanism in full detail.

Index performance

The Index Level is calculated on each Index Calculation Day. The change in Index Level on each Index Calculation Day represents the return of the Index Components since the previous Index Calculation Day.

The weighting of each Index Component is rebalanced weekly based on Performance and Realised Volatility of each Index Component. Therefore an Index Component with a relatively high Realised Volatility will have a lower allocation at the Rebalance Date compared to an Index Component with a relatively low Realised Volatility if they have the same volatility target. An Index Component with a relatively low Performance will have a lower volatility target at the Rebalance Date compared to an Index Component with a relatively high Performance. However, as the levels of both Performance and Realised Volatility are subject to changes, it is expected that the allocation of the individual Index Component will also be subject to changes during the life of the Index.

The Index volatility that occurs after a Rebalancing Date may not be exactly matching the Target Volatility, since the future Realised Volatility for each Index Component and the correlation between Index Components will not necessarily exactly match the historic volatility used when determining the weights. Additionally, the level of Realised Volatility does not represent the expected return for that Index Component. As such, the weight of an Index Component could increase (decrease) since the previous weekly

rebalance, resulting from falling (rising) volatility but in either case can have a positive or negative effect on the performance of the Index.

The Index performance reflects the positive and negative performance of each Index Component. In general if an Index Component has a positive performance it will contribute to a positive Index performance, whereas negative performance of an Index Component will contribute to a negative Index performance.

4. *Index data*

The Index is calculated on the basis of publicly available third party data. In particular, the Index will utilise the official levels for the following reference underlying assets referenced in section 5.2, as published on Bloomberg.

5. ***Index Composition and Calculation***

This section outlines the key steps in constructing and calculating the Index, including weighting, scheduled review timetable and timing of the daily Index level publication.

5.1 ***Index Calculation Days, Rebalancing and Rolling***

Index Calculation Days

The initial Index Level was set at 100 on the Index Base Date, which was also the first Rebalance Date. Following the Index Base Date, the Index Level is calculated on each Index Calculation Day. An Index Calculation Day is a weekday that is also a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in London, New York, Luxembourg, Frankfurt and Dublin.

Rebalancing

The Index rebalances weekly every Wednesday. If a Wednesday is not an Index Calculation Day, then the Index rebalances on the following Index Calculation Day.

5.2 ***Inputs***

For the Index Level calculation which is described in section 5.3, several input numbers are required. This section explains and states these input numbers.

Asset Prices

The Index consists of *Assets* $i = 1, \dots, n$.

The variable $p_i(t)$ refers to the level of the relevant Index Component i at time t . For all Index Components, a daily published NAV is used, provided that the Index Calculation Agent may determine the level at a different time on such Index Calculation Day if, acting in good faith, the Index Calculation Agent determines that the daily published NAV is not indicative of the prevailing market level.

Below are the Bloomberg tickers used to obtain input data:

$p_1(t)$: Ashmore SICAV - Emerging Markets Short Duration Fund (Bloomberg Ticker: AEMSRAE LX Index)

$p_2(t)$: BlueBay Investment Grade Bond Fund (Bloomberg Ticker: BBGRABF LX Index)

$p_3(t)$: Allianz Strategy 50 Fund (Bloomberg Ticker: ALSFFCT LX Index)

$p_4(t)$: Morgan Stanley Investment Funds - US Advantage Fund (Bloomberg Ticker: MORAMAH LX Index)

$p_5(t)$: Nordea 1 SICAV - Alpha 15 MA Fund (Bloomberg Ticker: NMAPBPE LX Index)

$p_6(t)$: PIMCO GIS US High Yield Bond Fund (Bloomberg Ticker: PIMHEHD ID Index)

$p_7(t)$: Robeco Capital Growth Funds - Robeco Global Consumer Trends Equities Fund (Bloomberg Ticker: RGCCGED LX Index)

$p_8(t)$: Merian Global Investors Series PLC - Merian Global Equity Absolute Return Fund (Bloomberg Ticker: OMEAEHA ID Index)

Index Target Volatility

The Index has a Target Volatility of:

$$\text{targetVol} = 4\%$$

Target Volatility Contribution

Each Asset is targeted to contribute a certain proportion to the overall Index volatility, which is determined by its past performance. The Volatility Contributions for the Assets with performance ranked 1,...,8 are:

$$\omega_{RANK=1} = 0.30$$

$$\omega_{RANK=2} = 0.25$$

$$\omega_{RANK=3} = 0.20$$

$$\omega_{RANK=4} = 0.15$$

$$\omega_{RANK=5} = 0.10$$

$$\omega_{RANK=6} = 0.00$$

$$\omega_{RANK=7} = 0.00$$

$$\omega_{RANK=8} = 0.00$$

Index Fee

The Index includes an annualised Index Fee m which is deducted from the Index Level on a daily basis. The level of the Index Fee will be specific for each Index in the MS Dynamic Fund Index Family. The Index Fee will be specified in the applicable Issue Terms in respect of the Securities.

Overall Weight Cap

The sum of weights of all Asset is capped to prevent position sizes growing too large in low volatility environments. The cap for the sum of overall weights is:

$$\text{leverageCap} = 2.0$$

Funding Cost Adjustments

Returns of the Assets are adjusted by an interest rate plus a spread due to funding requirements. Funds typically require cash to purchase. The rate plus any spread for each Index Component are specified below, provided that the Index Calculation Agent may determine a different spread if, acting in good faith, the Index Calculation Agent determines that the levels below are not sustainable given prevailing market circumstances:

rate₁ (t) : EUR 3-Month EURIBOR (Bloomberg Ticker: EUR003M Index) +65bps

rate₂ (t) : EUR 3-Month EURIBOR (Bloomberg Ticker: EUR003M Index) +65bps

rate₃ (t) : EUR 3-Month EURIBOR (Bloomberg Ticker: EUR003M Index) +65bps

rate₄ (t) : EUR 3-Month EURIBOR (Bloomberg Ticker: EUR003M Index) +65bps

rate₅ (t) : EUR 3-Month EURIBOR (Bloomberg Ticker: EUR003M Index) +65bps

rate₆ (t) : EUR 3-Month EURIBOR (Bloomberg Ticker: EUR003M Index) +65bps

rate₇ (t) : EUR 3-Month EURIBOR (Bloomberg Ticker: EUR003M Index) +65bps

(b) **Index Level Calculation**

The Index Level on an Index Calculation Day is determined by adding the weighted returns since last Rebalance Date of each Index Component to the Index Level from the previous Rebalance Date and deducting the Index Fee. Thus, the Index Level is calculated as:

- The Index Level on the previous Rebalance Date
- *multiplied by*
1 *plus* the sum over each Assets' product of Effective Weight and Return since last Rebalance Date
- *minus* the Index Fee since last Rebalance Date
- rounded to 9 decimal places

As a formula:

$$Index(t) = ROUND \left(Index(PRD(t)) \times \left(1 + \sum_{i=1}^n EW_i(t) \times R_i(t) \right) - IF(t), 9 \right)$$

For the avoidance of doubt, 64 Index Calculation Days are required for the Effective Weights $EW_i(t)$ to be determined. As such, the Initial Index Level of 100 is determined on the Index Base Date, which is the 65th Index Calculation Date.

(c) **Calculation of Asset Returns**

For the calculation of the Index Level above, it is necessary to compute the return of each Asset since last Rebalance Date, $R_i(t)$. The return can take into account a number of factors including price movements and funding costs. The first step is to determine the Daily Asset Returns DAR_i for each Asset.

Daily Asset Return

The Daily Asset Return calculates the change in asset prices since the previous Index Calculation Day. It is calculated as:

- The current asset price *divided by* previous Index Calculation Day's asset price
- *minus* 1

As a formula:

$$DAR_i(t) = \frac{p_i(t)}{p_i(t-1)} - 1$$

Asset Return since last Rebalance Date

From the Daily Asset Return, the Asset Return since last Rebalance Date $AR_i(t)$ can be calculated. If the last Index Calculation Day was a Rebalance Date then the Asset Return since last Rebalance Date is the Daily Asset Return $DAR_i(t)$, otherwise it is calculated as:

- 1 *plus* the Asset Return since last Rebalance Date of the previous Index Calculation Day
- *multiplied by*
1 *plus* the Daily Asset Return

As a formula:

$$AR_i = \begin{cases} DAR_i(t), & \text{if } t-1 = PRD(t) \\ (1 + AR_i(t-1)) \times (1 + DAR_i(t)) - 1, & \text{otherwise} \end{cases}$$

Return since last Rebalance Date

To get to the Return since last Rebalance Date $R_i(t)$, the Asset Returns since last Rebalance Date $AR_i(t)$ may need to be adjusted by a Funding Cost. The funding cost adjustment is relevant for Fund Assets as a Fund Asset requires cash to purchase. The Return since last Rebalance Date $R_i(t)$ is calculated as:

- The Asset Return since last Rebalance Date *minus* the Funding Costs since last Rebalance Date

As a formula:

$$R_i(t) = (AR_i(t) - FC_i(t))$$

Funding Costs since last Rebalance Date

To take into account the effect of funded investments a funding cost adjustment is required. The Funding Costs are based on the interest rates stated in section 5.2 under the heading Funding Cost Adjustments. If the

last Index Calculation Day was a Rebalance Date, Funding Costs since last Rebalance Date $FC_i(t)$ are calculated as:

- The interest rate at previous Index Calculation Day
- *multiplied by* the number of accrued days between current and previous Index Calculation Day *divided by* 360

and if the last Index Calculation Day was not a Rebalance Date:

- The interest rate at previous Index Calculation Day
- *multiplied by* the number of accrued days between current and previous Index Calculation Day *divided by* 360
- *multiplied by*
 - 1 *plus* the Asset Return since last Rebalance Date on the previous Index Calculation Day
 - plus* the Funding Cost since last Rebalance Date on the previous Index Calculation Day
- *plus* the Funding Cost since last Rebalance Date on the last Index Calculation Day

As a formula:

$$FC_i(t) = \begin{cases} rate_i(t-1) \times \frac{ACCR(t, t-1)}{360}, & \text{if } t-1 = PRD(t) \\ FC_i(t-1) + (1 + AR_i(t-1) + FC_i(t-1)) \times rate_i(t-1) \times \frac{ACCR(t, t-1)}{360}, & \text{otherwise} \end{cases}$$

(d) **Calculation of Asset Weights**

Apart from the Returns since last Rebalance Date, the Effective Weights $EW_i(t)$ for each Asset is required to calculate the Index Level. The Effective Weights change on a weekly basis as part of the rebalancing process. To calculate the Effective Weights there are several steps including consideration of the performance, volatility and correlation of the Index Components. Firstly, the Volatility Contributions $VC_i(t)$ are calculated based on the past performance of Asset i .

Volatility Contributions

Each Asset is targeted to contribute a certain proportion $VC_i(t)$ to the overall Index volatility, which is determined by its performance over a fixed past observation period.

As the Returns of the Fund Assets are on a funded basis, the return from the funding rate needs to be deducted. The performance of a Fund Asset is calculated over an observation period N. The observation period N will be specific for each Index in the MS Dynamic Fund Allocation Index Family.

- The sum over the most recent N values of:
 - The Daily Asset Return
 - minus

The interest rate at previous Index Calculation Day *multiplied by* the number of accrued days between current and previous Index Calculation Day *divided by* 360

As a formula:

$$PERF_i(t) = \sum_{j=1}^N \left(DAR_i(t-j) - rate_i(t-1-j) \times \frac{ACCR(t-j, t-1-j)}{360} \right)$$

for $i = 1,2,3,4,5,6,7,8$.

The performance numbers from all assets can then be ranked. The volatility contribution $VC_i(t)$ of Asset i is then the weight according to its rank (see 4.2 under Target Volatility Contribution):

$$VC_i(t) = \omega_{RANK(PERF_i(t))}$$

Initial Weights

As a next step, the Initial Weights $IW_i(t)$ are calculated, which do not yet take into account correlations between the Assets.

- The Target Volatility of the Index
- *multiplied* by the volatility proportion of the relevant Asset w_i (see section 5.2)
- *divided* by the Asset price volatility of the last 63 Index Calculation Days

As a formula:

$$IW_i(t) = \frac{\text{targetVol} \times VC_i(t)}{VOL63_i(t)}$$

Scale Factor

If Asset Returns among the portfolio are not perfectly positively correlated, then the Portfolio Volatility calculated from the Initial Weights will be less than the Index Target Volatility. Hence, the Initial Weights are scaled by the Scale Factor $SF(t)$ in order to reach the Index Target Volatility. To constrain leverage below the desired Overall Weight Cap, the Scale Factor is constrained by the ratio of leverage cap to the sum of the Initial Weights. The Scale Factor is calculated as the minimum of:

- The Target Volatility of the Index divided by the maximum of (i) the 21-day Portfolio Volatility and (ii) the 63-day Portfolio Volatility
- *Overall Weight Cap leverageCap divided by the sum of Initial Weights*

As a formula:

$$SF(t) = \min \left(\frac{\text{targetVol}}{\max(PVOL21(t), PVOL63(t))}, \frac{\text{leverageCap}}{\sum_i IW_i(t)} \right)$$

The consideration of two different lookback periods (21 and 63 days) for the Portfolio Volatility is intended to make the weight allocation more conservative and decrease the likelihood that the Index Volatility Target will be exceeded.

Effective Weights

From the Initial Weights and the Scale Factor, the Effective Weight for each Asset can be calculated. The Effective Weight is the product of Scale Factor and Initial Weight, capped if the weight exceeds the limit defined for each Index Component. If the last Index Calculation Day was a Rebalance Date, then the Effective Weight is calculated as:

- The product of the Scaling Factor at the previous Rebalance Date and the Initial Weight at previous Rebalance Date
- rounded to 3 decimal places

and if the last Index Calculation Day was not a Rebalance Date, then the Effective Weight at the current Index Calculation Day equals the Effective Weight from the previous Index Calculation Day.

As a formula:

$$EW_i(t) = \begin{cases} ROUND(SF(t-3) \times IW_i(t-3), 3), & \text{if } t-1 = PRD(t) \\ EW_i(t-1), & \text{otherwise} \end{cases}$$

Asset Volatility Calculations

This section describes the calculation of the asset volatilities that are used in the calculation of the Initial Weights and the Scaling Factor.

$VOL63_i(t)$ is the volatility of Asset i 's previous 62 daily returns $DAR_i(t)$ (which are calculated from the last 63 prices on Index Calculation Days). It is calculated as the annualised standard deviation of the previous 62 Daily Asset Returns. In the theoretical case that prices have not moved in the last 63 Index Calculation Days the volatility would be zero. As a zero volatility would cause an error in calculating the Initial Weights, the volatility is set to 0.01% in that case.

As a formula:

$$VOL63'_i(t) = \sqrt{\frac{1}{61} \sum_{j=1}^{62} (DAR_i(t-j) - \mu_{63,i})^2 \times \sqrt{252}}$$

and

$$VOL63_i(t) = \begin{cases} VOL63'_i(t), & \text{if } VOL63'_i(t) > 0 \\ 0.0001, & \text{otherwise} \end{cases}$$

where $\mu_{63,i}$ is the mean of the last 62 Daily Asset Returns, calculated as:

$$\mu_{63,i} = \frac{1}{62} \sum_{k=1}^{62} (DAR_i(t-k))$$

The 21-day volatility is defined as the annualised standard deviation of the last 20 Daily Asset Returns, similar to the 63-day volatility:

$$VOL21'_i(t) = \sqrt{\frac{1}{19} \sum_{j=1}^{20} (DAR_i(t-j) - \mu_{21,i})^2 \times \sqrt{252}}$$

and

$$VOL21_i(t) = \begin{cases} VOL21'_i(t), & \text{if } VOL21'_i(t) > 0 \\ 0.0001, & \text{otherwise} \end{cases}$$

where $\mu_{21,i}$ is the mean of the last 20 Daily Asset Returns, calculated as:

$$\mu_{21,i} = \frac{1}{20} \sum_{k=1}^{20} (DAR_i(t-k))$$

Portfolio Volatility Calculations

To calculate the volatility of the portfolio of Assets the volatility of each Asset and the correlations between the Assets are required. For the purposes of calculating the Effective Weights both the 21 day and 63 day Portfolio Volatility is required.

The mathematical rules for matrix multiplication are applied to determine the Portfolio Volatilities. The 21-day portfolio volatility is calculated as the square root of the product of vector (a), matrix (c) and vector

(b). The 63-day Portfolio Volatility is calculated as the square root of the product of vector (a), matrix (d) and vector (b), where

- (a) is a row vector that includes the Initial Weight for each Asset
- (b) is a column vector that includes the Initial Weight for each Asset
- (c) is the covariance matrix for the last 21 Index Calculation Days. The matrix has n rows and n columns, where n is the number of assets. The item in row i and column j in the matrix is the product of (i), (ii) and (iii), where:
 - (i) equals the price volatility of Asset i of the last 21 days
 - (ii) equals the price volatility of Asset j of the last 21 days
 - (iii) equals the correlation between Asset i and Asset j of the last 21 days
- (d) is the covariance matrix for the last 63 Index Calculation Days. The matrix has n rows and n columns, where n is the number of assets. The item in row i and column j in the matrix is the product of (i), (ii) and (iii), where:
 - (i) equals the price volatility of Asset i of the last 63 days
 - (ii) equals the price volatility of Asset j of the last 63 days
 - (iii) equals the correlation between Asset i and Asset j of the last 63 days

Expressed as formulas, the Portfolio Volatilities are calculated as follows:

$$PVOL21(t) = \sqrt{x'Ax}$$

and

$$PVOL63(t) = \sqrt{x'Bx}$$

where x is a $n \times 1$ vector consisting of the initial weights:

$$x = \begin{bmatrix} IW_1(t) \\ \vdots \\ IW_n(t) \end{bmatrix}$$

and x' is the transposed vector of x . A and B are the covariance matrices for 21 and 63 days respectively, with dimension $n \times n$:

$$A = \begin{bmatrix} CORR21_{11}(t) \times VOL21_1(t) \times VOL21_1(t) & \cdots & CORR21_{1n}(t) \times VOL21_1(t) \times VOL21_n(t) \\ \vdots & \ddots & \vdots \\ CORR21_{n1}(t) \times VOL21_n(t) \times VOL21_1(t) & \cdots & CORR21_{nn}(t) \times VOL21_n(t) \times VOL21_n(t) \end{bmatrix}$$

and

$$B = \begin{bmatrix} CORR63_{11}(t) \times VOL63_1(t) \times VOL63_1(t) & \cdots & CORR63_{1n}(t) \times VOL63_1(t) \times VOL63_n(t) \\ \vdots & \ddots & \vdots \\ CORR63_{n1}(t) \times VOL63_n(t) \times VOL63_1(t) & \cdots & CORR63_{nn}(t) \times VOL63_n(t) \times VOL63_n(t) \end{bmatrix}$$

Correlations between Asset i and Asset j for 21 days and 63 days are calculated as:

$$CORR21_{ij}(t) = \frac{252 \times \sum_{k=1}^{20} (DAR_i(t-k) - \mu_{21,i}) \times (DAR_j(t-k) - \mu_{21,j})}{19 \times VOL21_i(t) \times VOL21_j(t)}$$

and

$$CORR63_{ij}(t) = \frac{252 \times \sum_{k=1}^{62} (DAR_i(t-k) - \mu_{63,i}) \times (DAR_j(t-k) - \mu_{63,j})}{61 \times VOL63_i(t) \times VOL63_j(t)}$$

(e) **Index Fee**

An Index Fee is deducted from the Index Level on a daily basis. $IF(t)$ is the Index Fee that has accrued since last Rebalance Date. It is calculated as:

- The annual Index Fee m
- *multiplied by* the number of days accrued since last Index Calculation Day divided by 365
- *multiplied by* the Index Level on the previous Index Calculation Day
- *plus* the Index Fee at previous Index Calculation Date, if the previous Index Calculation Day was not a Rebalance Day, and 0 otherwise

As a formula:

$$IF(t) = \begin{cases} m \times \frac{ACCR(t, t-1)}{365} \times Index(t-1), & \text{if } t-1 = PRD(t) \\ m \times \frac{ACCR(t, t-1)}{365} \times Index(t-1) + IF(t-1), & \text{otherwise} \end{cases}$$

6. **Calculation Time and Precision**

The Index Level is typically disseminated by the Index Calculation Agent on the next Index Calculation Day. The published Index Levels are rounded to 3 decimal places.

7. **Adjustment and Disruption Provisions**

The Index is calculated on the basis of algorithmic formulas and therefore no discretion can be exercised by the Index Sponsor or the Index Calculation Agent in the calculation of the Index.

However, on occasions, there may be situations requiring adjustments to the Index that are outside the scheduled adjustments and rebalances. Such adjustments might be made by Index Sponsor or the Index Calculation Agent by having recourse to discretionary decisions. Any discretion will be used in a commercially reasonable manner and exclusively in order to ensure that the Index continues to reflect, as closely as possible, the value of the Index Components in the sole determination of the Index Sponsor.

Adjustment Events

The Index Calculation Agent will determine whether a circumstance relating to any underlying Index Component has a dilutive, concentrative or other effect on the theoretical value of the underlying Index Components and, if so, will (1) make the corresponding adjustment, if any, to the weights or Asset Price for such underlying Index Components and/or any of the other provisions hereof as the Index Calculation Agent determines appropriate to account for that dilutive, concentrative or other effect; and (2) determine the effective date of that adjustment. As a result of the foregoing adjustments, the total number of underlying Index Components may, on a given Index Calculation Day, increase or decrease.

In respect of a Fund, the occurrence of any event below will also constitute an Adjustment Event:

- (i) A subdivision, consolidation or reclassification of the relevant number of Fund Units, or a free distribution or dividend of any such Fund Units to existing holders by way of bonus, capitalisation or similar issue; or
- (ii) Any distribution, issue or dividend (other than an ordinary cash dividend) to existing holdings of Fund Units of:
 - (a) an additional amount of such Fund Units;

- (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Fund equally or proportionately with such payments to holders of such Fund Units;
- (c) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Fund as a result of a spin-off or other similar transaction, or
- (d) any other type of securities, rights or warrants or other assets,
in any case for payment (cash or other consideration) at less than the prevailing market price (as determined by the Index Calculation Agent in its sole discretion); or
- (iii) Any extraordinary or bonus dividend or other cash distribution which is not an ordinary cash dividend of any Fund; or
- (iv) A repurchase by the Fund of relevant Fund Units whether the consideration for such repurchase is cash, securities or otherwise; or
- (v) Any other event that may have a dilutive or concentrative effect on the theoretical value of the relevant Fund Units.

In calculating the dilutive, concentrative or other effect of any Adjustment Event, the Index Calculation Agent will adjust the amount or value of the potential adjustment event by such amount as it determines appropriate to take account of any tax, duty, withholding, deduction or other charge whatsoever arising as a result of the Adjustment Event (including but not limited to any tax, duty, withholding, deduction or other charge sustained or incurred by Morgan Stanley and/or any of its affiliates as the hypothetical holder of the relevant Component(s), or which would be sustained or incurred by Morgan Stanley and/or any of its affiliates were any of them the holder of the relevant Index Component(s)).

Disruption Events

Each of the following is a "**Disruption Event**":

- (i) A **Material Change in Index Component Methodology** occurs if the Index Sponsor determines that there has been a material change to the methodology used to calculate an Index Component or there has been a material change in the constituents of an Index Component, including change of listed issuance schedule, hours of continuous market trading and publication of bid and ask prices.
- (ii) A **Termination of Data License** occurs if the Index Sponsor determines there has been a termination, revocation or suspension of any third-party license agreement or permission pursuant to which data are supplied to compile or calculate the Index or an Index Component.
- (iii) A **Price Source Disruption** occurs if the Index Sponsor or the Index Calculation Agent determines that any of the source data required to calculate the Index (a "**Source Data**") is not available. This may include the published level of an underlying Index Component or data provided by a third party vendor. A Price Source Disruption may also include any permanent cancellation or prolonged suspension of any underlying Index Component.

For the avoidance of doubt, a Price Source Disruption will occur if:

- any person fails to announce or publish any Source Data (or the information necessary for determining any Source Data), including where previously such Source Data was published on or by more than one price source or data provider, and is not published on all such sources for such day and the Index Calculation Agent determines any such non-publication(s) material; or
 - any Source Data is discontinued or becomes unavailable (whether temporarily or permanently).
- (iv) A **Disappearance of Price** occurs if the Index Sponsor or the Index Calculation Agent determines the:
 - disappearance of, or trading in, the relevant Index Component; or

- the disappearance or permanent discontinuance or unavailability of a price, notwithstanding the availability of the related price source or the status of trading in the relevant Index Component.
- (v) A **Change in Law** occurs if there has been a change in applicable law or regulation that prevents the Index Sponsor and/or the Index Calculation Agent from calculating, publishing or hedging the Index.
- (vi) A **Hedging Disruption** occurs if the Index Sponsor determines that Morgan Stanley or any of its affiliates would be unable after using commercially reasonable efforts to: a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transactions or instruments deemed necessary to hedge its position in relation to any relevant transactions relating to or calculated by reference to the Index; or b) realise, recover or remit the proceeds of any such transactions or instruments.
- (vii) A **Force Majeure Event** occurs if the Index Sponsor determines that an event or circumstance has occurred that is beyond the reasonable control of the Index Sponsor and, as a result of which, the Index Sponsor or the Index Calculation Agent is unable to calculate, publish or take any other necessary action in relation to the Index. Such event or circumstance may include (without limitation) a systems failure, fire, building evacuation, natural or man-made disaster, act of state, armed conflict, act of terrorism, riot or labour disruption.
- (viii) **FX Event:** (a)(i) The declaration of a banking moratorium or the suspension of payments by banks, in either case, in the country of any currency underlying the Index or (ii) the declaration of capital and/or currency control (including, without limitation, any restriction placed on assets in or transactions through any account through which a non-resident of the country of any currency used to determine the currency exchange rate may hold assets or transfer monies outside the country of that currency, and any restriction on the transfer of funds, securities or other assets of market participants from, within or outside of the country of any currency used to determine the applicable exchange rate); (b) the method of calculating the value of any currency underlying the Index is changed in a material respect, or is in any other way modified so that the conventional market quotation does not, in the opinion of the Index Sponsor, fairly represent the value of such currency; or (c) the Index Sponsor determines that there is a material difference in the exchange rate for a currency underlying the Index, as determined by reference to the rate source for the relevant currency and any other market source.

Fund Extraordinary Events:

Fund Extraordinary Events have the meaning of the events defined below:

- (i) **Fund Change in Law:** Means that (i) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Index Calculation Agent determines in good faith, after instruction from the Index Sponsor, that: (A) it has become illegal for a Hypothetical Replicating Party to hold, acquire or dispose of the Hypothetical Hedge Positions (including the relevant Fund Units) or it has become illegal to maintain the agreement entered into by Morgan Stanley and/or one of its affiliates with the Fund or a Fund Service Provider mentioned in item "Breach or Termination of Agreement" below or (B) Morgan Stanley and/or one of its affiliates will incur a materially increased cost in performing its obligations (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position);

- (ix) **Holding Ratio:** Means the reduction of the Fund's aggregate Net Asset Value under an amount that, in the reasonable opinion of the Index Calculation Agent, after instruction from the Index Sponsor, has, or is likely to have, a significant effect on the management conditions of the Fund and/or its operating expenses or would increase the proportion of Fund Units held, or likely to be held, by a Hypothetical Replicating Party, to such extent that the full redemption in one single Valid Order the Fund Units notionally held by a Hypothetical Replicating Party or funds managed by the same, is likely to be impaired;
- (x) **Delisting:** Means, in respect of a Fund, where there is or was intended to be an exchange in respect of such Fund that such exchange announces that pursuant to the rules of such exchange, such Fund cease (or will cease or will never) being listed or publicly quoted on the exchange for any reason and are not immediately re listed or re quoted on an exchange or quotation system located in the same country as the exchange (or, where the exchange is within the European Union, in any Member State of the European Union);

- (xii) **Fund Settlement Disruption:** Means a failure by the Fund to pay in cash the full amount of the redemption proceeds on the date by which the Fund was scheduled to have paid such amount, or the suspension or restriction of subscription orders in the Fund, and which, in the determination of the Index Calculation Agent, after instruction from the Index Sponsor, makes it impossible or impracticable to determine the Net Asset Value of such Fund, including without limitation due to (i) the transfer of all illiquid assets of such Fund to a dedicated fund, account or structure pending the liquidation of such assets for the benefit of existing holders of the Fund Units (side pocket), (ii) the restriction on the amount or number of redemption orders that the Fund (or the Fund Service Provider generally in charge of accepting redemption orders) will accept in relation to a single date on which such Fund normally accepts redemption orders (a gate), (iii) the suspension or restrictions for any reason of the subscription or redemption orders by the Fund (or the Fund Service Provider generally in charge of accepting subscription and redemption orders) or (iv) the postponement of the payment of the balance of redemption proceeds to a date occurring after the financial statements of the Fund have been reviewed by its statutory auditors (holdback), in each case whether these events are imposed by the Fund without being envisaged in the Fund Documents on the Index Live Date, or are so envisaged by the Fund Documents on the Index Live Date and are wholly implemented by the Fund after such date;
- (xiii) **Fund Hedging Disruption:** Means that The Index Sponsor determines that a Hypothetical Replicating Party is unable or it is impractical for a Hypothetical Replicating Party, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any Hypothetical Hedge Positions or (ii) realize, recover or remit the proceeds of any such Hypothetical Hedge Positions, without limitation, where such inability or impracticality has arisen by reason of: (A) the transfer of all illiquid assets of the Fund being all or part of the Hedge Positions to a dedicated fund, account or structure pending the liquidation of such assets for the benefit of existing holders of the Fund Units (side pocket), (B) the restriction on the amount or number of redemptions or subscriptions that the Fund (or the Fund Service Provider generally in charge of accepting the redemption or subscription orders) will accept in relation to a single date on which the Fund normally accepts redemption orders (a gate), (C) the suspension for any reason of the subscription or redemption orders by the Fund (or the Fund Service Provider generally in charge of accepting the subscription and redemption orders), (D) the postponement of the payment

of the balance of redemption proceeds to a date occurring after the financial statements of the Fund have been reviewed by the Fund's statutory auditors (holdback), or increase in charges or fees imposed by the relevant Fund or (E) any mandatory redemption, in whole or in part, of such Fund Unit imposed by the relevant Fund, in each case whether these events are imposed by the Fund without being envisaged in the Fund Documents on the Index Live Date, or are so envisaged by the Fund Documents on the Index Live Date and are wholly implemented by the Fund after such date;

For such purposes and for the avoidance of doubt, it shall not be assumed that a Hypothetical Replicating Party has any control over the Fund Service Provider solely because it is in the same corporate group.
- (xviii) **NAV Determination Disruption Event:** Means the occurrence of any event, beyond the control of a Hypothetical Replicating Party, other than the events mentioned in "Calculation and/or Publication Disruption" or "Fund Settlement Disruption" affecting such Fund which, in the determination of the Index Calculation Agent, after instruction from the Index Sponsor, makes it impossible or impracticable to determine the Net Asset Value of such Fund or net asset value of such Fund underlying such Index.

- (xxi) **Fund Accounting Event:** Means, in respect of a Fund, any (i) change in the currency in which the Fund accounts are denominated; or (ii) material adverse change in the accounting treatment of the

- (xxii) **Reporting Disruption:** Means, in respect of any Fund Unit, any failure of the related Fund to deliver, or cause to be delivered, (i) information that such Fund has agreed to deliver, or cause to be delivered to a Hypothetical Replicating Party or (ii) information that has been previously delivered to a Hypothetical Replicating Party in accordance with such Fund's or its authorized representative's normal practice and that the Index Calculation Agent, after instruction from the Index Sponsor, deems necessary to monitor such Fund's compliance with any investment guidelines, asset allocation methodologies or any other similar policies relating to such Fund Units;
- (xxiii) **Strategy Breach:** Means (i) any breach or violation of any strategy or investment guidelines stated in the related Fund Documents that is reasonably likely to affect the value of the Fund Units or the rights or remedies of any holders thereof, in each case, as determined by the Index Calculation Agent, after instruction from the Index Sponsor or (ii) any material modification, as determined by the Index Calculation Agent, after instruction from the Index Sponsor, of the risk profile of the Fund from its risk profile prevailing on the Index Live Date by reason of, but not limited to, the modification of the proportions, or reduction of diversification, of the type of assets in which the Fund invests or a reduction of the average liquidity of the assets of the Fund.

Potential Actions

In the event that the Index Sponsor determines that a Disruption Event or a Fund Extraordinary Event has occurred, the Index Sponsor may in its sole discretion:

- (i) Substitute the relevant underlying Index Component with a replacement instrument, provided that such replacement is similarly representative of the existing Index Component;
- (ii) Reallocate all or a portion of the Index exposure to cash or cash equivalents;
- (iii) Make such determinations or adjustments to the terms of the Index methodology or the underlying Index Components as it deems necessary including sourcing data from alternative providers;
- (iv) Defer, or direct the Index Calculation Agent to defer, the availability of the Index until the next Index Calculation Day on which there is no Disruption Event;
- (v) Provide or instruct the Index Calculation Agent to use data from alternative public sources (including Reuters, Bloomberg and/or the relevant Fund Service Provider, as the case may be) to determine the relevant price of the relevant Component;
- (vi) Determine the Index Level, the Asset Price of any Component or any Component level affected by the Disruption Event to be, in its sole and absolute discretion, either its estimate of such level or price or the last available level or price for such Component;
- (vii) Direct the Index Calculation Agent to make such determinations and/or adjustments as it considers appropriate to determine the Index Level by reference to the prevailing market conditions and the last available traded or published price of the affected Index Component;
- (viii) Postpone any day on which calculations or valuations were scheduled to be made, as the case may be, to another date as determined by the Index Calculation Agent in its sole and absolute discretion.
- (ix) Trigger an unscheduled Rebalance Date;
- (x) Instruct the Index Calculation Agent to cease to calculate and make available the Index permanently.

Increased costs

If at any time following the Index Live Date, due to the adoption of or any change in any applicable law or regulation (including without limitation any tax law relating to a common system of financial transaction tax in the European Union or otherwise), or any event outside of its control, the Index Sponsor determines in good faith that a party would incur an increased cost in effecting transactions in the underlying Index Components to reflect the notional exposure to the Index Performance, the Index Sponsor retains the right to make any adjustments to the Index methodology outlined herein so that the Index Performance takes account of such increased costs.

Adjustment procedures, notification and consultation process

If any modification or adjustment is made to the calculation of the Index and/or its description in accordance to this paragraph, the Index Sponsor will make such modifications or adjustments based on market conditions and other relevant factors, as in the judgment of the Index Sponsor, are necessary to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it is designed to represent.

Wherever practicable, any adjustments to the calculation of the Index, other than a pre-determined rebalancing, will be announced to the relevant interested parties or investors. Such announcement will be made in a timely fashion and, when reasonably possible, prior to the date in which the changes are due to become effective. Based on the depth and breadth of the use of the Index as well as on the materiality of the change, the Index Sponsor will consider whether a formal or informal consultation is appropriate.

For the purposes of determining the materiality of the change, the Index Sponsor shall consider a change to be material when it may have a potentially material effect on the future level of the Index.

If the Index Sponsor determines that a consultation with the relevant interested parties or investors is appropriate, it will inform them of the procedures applicable to the consultation. The consultation procedures will be designed to ensure that such parties receive advance notice of the consultation and are offered a timeframe sufficient for them to analyse and comment on the proposal.

8. ***Errors***

The Index Sponsor reserves the right to make adjustments to the Index Level to correct any erroneous calculation or publication of the Index Level. The Index Sponsor will determine whether such error requires a change in the composition or calculation of the Index and, if so, the procedures under 7.1 will apply.

9. ***Updates***

This Index Methodology may be updated from time to time, including in accordance with the requirements of the Regulation. The most recent version will be available on request to the Index Sponsor, subject to such distribution restrictions and other requirements as may apply.

10. ***Governance***

Morgan Stanley has adopted the "Principles for Financial Benchmarks" published by the International Organization of Securities Commissions ("**IOSCO**") on 17 July 2013 (the "**Principles**") on a proportionate basis.

The Index and its calculation methodology have been approved in accordance with and are subject to the internal governance procedures implemented by Morgan Stanley in compliance with the Principles and managed by an internal oversight committee (the "**Index Committee**").

The Index Committee will review the Index and its calculation methodology on a regular basis in accordance with Morgan Stanley internal policies applicable to the Index, to ensure that it still continues to reflect the economic interests it intends to measure.

Information on the systems and controls applied by Morgan Stanley in relation to financial benchmarks is available on request.

11. ***Discontinuation***

The Index Sponsor may, in its sole discretion, after consultation with the Index Committee, discontinue calculating and publishing the Index at any time upon the occurrence of, but not limited to, any of the following:

- if as a result of a market disruption event, fund extraordinary event or an adjustment event, an adjustment to and/or calculation of the Index is no longer reasonably possible or practical, in the determination of the Index Sponsor; or
- the Index Sponsor or its successor terminates its Index publication business operations, is declared insolvent or is subject to winding-up proceedings; or
- the Index Sponsor or its successor determines that it is no longer in its commercial interests to continue publishing the Index; or
- any other condition occurs which makes the Index no longer representative of the economic interests it was intended to reflect.

Upon any such discontinuance, the Index Sponsor will use commercially reasonable efforts to publicly announce such discontinuance as soon as is reasonably practicable prior to the effective date.

The Index Sponsor shall determine if a credible alternative Index is available for stakeholders to transfer their investment into and, to the extent reasonably possible, it shall maintain the original Index in existence in order to facilitate an orderly transition of the stakeholders' investment.

If Index Sponsor determines that a consultation with the stakeholders is appropriate based on the depth and breadth of the use of the Index, it will inform the stakeholders of the procedures applicable to the consultation. The consultation procedures will be designed to ensure that the stakeholders receive advance notice of the consultation and are offered a timeframe sufficient for them to analyse and comment on the proposal.

Index Performance Data – Retrospective Index Calculation

All prospective investors should be aware that any retrospective calculation of the Strategy means that no actual investment existed at any time during the period of the retrospective calculation and as such, its performance is purely hypothetical. Past performance (actual or simulated) is not a guide to future performance. The methodology and the Strategy used for the calculation and retrospective calculation of the Strategy have been developed with the advantage of hindsight. In reality, it is not possible to invest with the advantage of hindsight and therefore this past performance is purely theoretical.

Prior to making an investment decision in respect of any instrument or fund, the return on which links to the performance of the Index, prospective investors should understand fully all of the information set out in this document including the Important Information below.

DESCRIPTION OF SIENNA FINANCE UK LIMITED AND THE SIENNA FINANCE UK LIMITED PREFERENCE SHARES

Preference-Share Linked Securities may be issued under the Program, where the Preference Shares are preference shares issued by Sienna Finance UK Limited ("Sienna UK"). Set out below is a description of Sienna UK. References in this section to the "Preference Shares" shall be a reference to preference shares issued by Sienna UK which are specified as being the "Preference Shares" in the applicable Issue Terms relating to the relevant Preference-Share Linked Securities.

Sienna Finance UK Limited

Sienna UK is a private company limited by shares and was incorporated under the Companies Act 2006 on 18 February 2010 (with registered number 07162508). Sienna UK is governed by the laws of England and Wales and has its registered office at 1 Bartholomew Lane, London EC2N 2AX, United Kingdom.

The sole business activity of Sienna UK is to issue redeemable preference shares. Accordingly, Sienna UK does not have any trading assets and does not generate any significant net income.

A copy of Sienna UK's constitutional documents, its non-audited, non-consolidated annual financial statements, when published, and the Terms of the Preference Shares (as defined below) are available (free of charge) from the registered office of Sienna UK.

The Preference Shares

Sienna UK will from time to time issue tranches of 100 redeemable preference shares with a par value of £0.01 each. The preference shares will be issued fully paid to Intertrust Corporate Services Limited and at a premium of £0.99, for total consideration of £1.00 each.

Sienna UK may issue redeemable preference shares of any kind (the "**Preference Shares**"), including but not limited to preference shares linked to a specified index or basket of indices, share or basket of shares, currency or basket of currencies, fund unit or share or basket of fund units or shares or to such other underlying instruments, bases of reference or factors (the "**Preference Share Underlying**") and on such terms as may be determined by Sienna UK and specified in the applicable Specific Terms and Conditions of the relevant series of preference shares (the "**Terms of the Preference Shares**").

The Terms of the Preference Shares also provide that Sienna UK may redeem the Preference Shares early if:

- (a) the calculation agent in respect of the Preference Shares (the "**Preference Shares Calculation Agent**") determines that for reasons beyond Sienna UK's control, the performance of its obligations under the Preference Shares has become illegal or impractical in whole or in part for any reason; or
- (b) any event occurs in respect of which the provisions of the Terms of the Preference Shares relating to any adjustment, delay, modification, cancellation or determination in relation to the Preference Share Underlying, the valuation procedure for the Preference Share Underlying or the Preference Shares provide that the Preference Shares may be redeemed or cancelled; or
- (c) a change in applicable law or regulation occurs that in the determination of the Preference Share Calculation Agent results, or will result, by reason of the Preference Shares being outstanding, in Sienna UK being required to be regulated by any additional regulatory authority, or being subject to any additional legal requirement or regulation or tax considered by Sienna UK to be onerous to it; or
- (d) Sienna UK is notified that the Securities have become subject to early redemption.

The performance of the Preference Shares depends on the performance of the Preference Share Underlying to which the Preference Shares are linked. In determining the value of the Preference Shares, the Determination Agent shall employ the calculation procedure and methodology set out in the applicable Terms of the Preference Shares.

BENEFIT PLAN INVESTORS

The Securities may not be acquired or held by, or acquired with the assets of, any employee benefit plan subject to Title I of the United States Employee Retirement Income Security Act of 1974, as amended ("**ERISA**"), or any individual retirement account or plan subject to Section 4975 of the Code or any entity whose underlying assets include "plan assets" within the meaning of Section 3(42) of ERISA by reason of any such employee benefit plan's account's or plan's investment therein.

The Global Security Certificates and the Individual Security Certificates will bear a legend to the following effect:

THE INVESTOR SHALL BE DEEMED TO REPRESENT BY ITS ACQUISITION AND HOLDING OF AN INTEREST HEREIN THAT IT IS NOT ACQUIRING THE SECURITY WITH THE ASSETS OF ANY EMPLOYEE BENEFIT PLAN SUBJECT TO TITLE I OF THE UNITED STATES EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974, AS AMENDED ("**ERISA**"), ANY INDIVIDUAL RETIREMENT ACCOUNT OR PLAN SUBJECT TO SECTION 4975 OF THE UNITED STATES INTERNAL REVENUE CODE OF 1986, OR ANY ENTITY WHOSE UNDERLYING ASSETS INCLUDE "PLAN ASSETS" WITHIN THE MEANING OF SECTION 3(42) OF ERISA BY REASON OF ANY SUCH EMPLOYEE BENEFIT PLAN'S ACCOUNT'S OR PLAN'S INVESTMENT THEREIN.

TAXATION

HOLDERS OF SECURITIES SHOULD BE AWARE THAT (I) THE TAX LEGISLATION OF A JURISDICTION WHERE A HOLDER IS RESIDENT OR OTHERWISE SUBJECT TO TAXATION (AS WELL AS THE JURISDICTIONS DISCUSSED BELOW) AND (II) THE TYPE OF SECURITIES HELD (BEING NOTES OR CERTIFICATES) MAY HAVE AN IMPACT ON THE TAX CONSEQUENCES OF AN INVESTMENT IN THE SECURITIES, INCLUDING IN RESPECT OF ANY INCOME RECEIVED FROM THE SECURITIES.

UNITED STATES FEDERAL TAXATION

This discussion is limited to the U.S. federal tax issues addressed below. Additional issues may exist that are not addressed in this discussion and that could affect the U.S. federal tax treatment of the Securities or the investors. Investors should seek their own advice based upon their particular circumstances from an independent tax adviser.

The following are certain of the U.S. federal income and estate tax consequences of ownership and disposition of the Securities to Non-U.S. Holders (as defined below). This summary is based on the Internal Revenue Code of 1986, as amended (the "**Code**"), administrative pronouncements, judicial decisions and final, temporary and proposed Treasury regulations, all as of the date hereof, changes to any of which subsequent to the date of this Base Prospectus may affect the tax consequences described herein. As used herein, the term "Non-U.S. Holder" means a beneficial owner of a Security that is for U.S. federal income tax purposes:

- an individual who is classified as a nonresident alien;
- a foreign corporation; or
- a foreign estate or trust.

The term "Non-U.S. Holder" does not include any of the following persons:

- an individual present in the United States for 183 days or more in the taxable year of disposition;
- certain former citizens or residents of the United States;
- a person for whom income or gain in respect of the Securities is effectively connected with the conduct of a trade or business in the United States; or
- a person who has a "tax home" (as defined in Section 911(d)(3) of the Code) or an office or other fixed place of business in the United States.

Special rules may also apply to corporations that for U.S. federal income tax purposes are treated as personal holding companies, controlled foreign corporations, or passive foreign investment companies. Such persons are urged to consult their own tax advisers regarding the U.S. federal income tax consequences of the ownership and disposition of a Security.

If an entity classified as a partnership holds a Security, the tax treatment of a partner generally will depend upon the status of the partner and the activities of the partnership. Partnerships holding Securities and their partners should consult their tax advisers regarding the U.S. federal income tax consequences of owning and disposing of a Security.

Tax Treatment of the Securities

Interest

The following discussion under "*Interest*" applies to Securities treated as indebtedness of the relevant Issuer for U.S. federal income tax purposes. The Issuers intend to treat Securities for which the principal amount (in the case of Notes) or Specified Unit Value (in the case of Certificates) payable in cash at maturity or upon early settlement must equal or exceed the issue price (i.e., the first price at which a substantial amount of the Securities of the relevant series is sold to the public) as indebtedness for U.S. federal income tax purposes. There can be no assurance that the IRS or a court will agree. Except as otherwise discussed below in "*Section 897 of the Code*," "*Dividend Equivalent Amounts*," "*FATCA*" and "*Backup Withholding and Information Reporting*," or otherwise indicated in an applicable Drawdown Prospectus, a Non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax on payments of principal or interest (including original issue discount, if any) on a Security, or on proceeds from the sale

or other disposition of a Security, **provided that**, in the case of a Security issued by Morgan Stanley or MSFL, for U.S. federal income tax purposes:

- the Non-U.S. Holder does not own (directly or by attribution) 10 per cent. or more of the total combined voting power of all classes of stock of Morgan Stanley entitled to vote;
- the Non-U.S. Holder is not a bank holding the Security in the context of an extension of credit made pursuant to a loan agreement entered into in the ordinary course of its trade or business;
- the Non-U.S. Holder is not a controlled foreign corporation related, directly or indirectly, to Morgan Stanley through stock ownership; and
- the Non-U.S. Holder (and any holder through which the Securities are held) have complied with all applicable U.S. tax identification and certification requirements.

The certification requirements referred to in the preceding paragraphs will be fulfilled if the beneficial owner of the Security (or a financial institution holding the Security on behalf of the beneficial owner) furnishes the U.S. Internal Revenue Service ("**IRS**") Form W-8BEN or W-8BEN-E (or with respect to certain holders and beneficial owners, other appropriate forms), on which, among other things, the beneficial owner certifies under penalties of perjury that it is not a United States person, as defined in the Code.

Exchangeable Securities

Except as otherwise discussed below in "*Section 897 of the Code*," "*Dividend Equivalent Amounts*," "*FATCA*" and "*Backup Withholding and Information Reporting*," or otherwise indicated in an applicable Drawdown Prospectus, a Non-U.S. Holder will generally not be subject to U.S. federal income or withholding tax in respect of a Security that pays at redemption or early settlement a Physical Delivery Amount of securities (or the value thereof in cash) in an amount that must equal or exceed the Security's issue price, provided that:

- in the case of a Security issued by Morgan Stanley or MSFL, the requirements for exemption from tax listed above under "*Interest*" are met; and
- in the case of a Security issued by Morgan Stanley or MSFL, the Security is exchangeable only into securities that are actively traded, a basket of securities that are actively traded or an index or indices of securities that are actively traded.

No opinion is expressed herein as to the U.S. federal income or withholding tax consequences of the ownership or disposition of the property received in exchange for the Security.

With regard to the above requirements, the Issuers intend to treat Securities for which the principal amount (in the case of Notes) or Specified Unit Value (in the case of Certificates) payable in cash must equal or exceed the issue price (i.e., the first price at which a substantial amount of the Securities is sold to the public) as indebtedness for U.S. federal income tax purposes. There can be no assurance that the IRS or a court will agree.

Linked Securities

The U.S. federal income tax consequences to a Non-U.S. Holder of the ownership and disposition of Securities that have principal or interest determined by reference to commodity prices, securities of entities not affiliated with the relevant Issuer, baskets of securities or indices, exchange traded funds or other funds, futures contracts, CMS reference rates, currencies or the credit of entities not affiliated with the relevant Issuer may vary depending upon the exact terms of the Securities and related factors. However, the Issuers intend to treat Linked Securities that pay coupons periodically at an unconditional fixed rate and provide for a payment at maturity or early settlement (other than the stated coupon) that is determined by reference to the performance of a Relevant Underlying and thus may be lower than, but cannot exceed, their issue price, as a unit consisting of (i) a put right written by you to us that, upon the occurrence of certain events, requires you to pay to us an amount equal to the deposit (as described in sub-paragraph (ii)), in exchange for a cash amount based on the value of the Relevant Underlying, and (ii) a deposit with us of a fixed amount of cash to secure your obligation under the put right. Based on this treatment, a portion of the periodic payments on the Securities will be treated as interest on the deposit, and the remainder will be attributable to the premium on the put right. Except as otherwise discussed below in "*Section 897 of the Code*," "*Dividend Equivalent Amounts*," "*FATCA*" and "*Backup Withholding and Information*

Reporting," or otherwise indicated in an applicable Pricing Supplement, the Issuers do not expect payments on the Securities to be subject to any U.S. federal withholding tax, provided that, if the Securities are treated in whole or in part as indebtedness (including the deposit described above) issued by Morgan Stanley or MSFL for U.S. federal income tax purposes, the conditions (including the certification requirements) described above under "*Interest*" are met. However, Securities of the type described in this paragraph may be subject to rules that differ from the general rules discussed above.

Other Income Coupons

The following discussion under "*Other Income Coupons*" applies to Securities issued by Morgan Stanley or MSFL that pay periodic coupons and are not described above in "*Interest*," "*Exchangeable Securities*" or "*Linked Securities*." The U.S. federal tax treatment of such Securities is unclear due to the absence of statutory, judicial or administrative authorities that directly address such Securities or similar securities, and no ruling is being requested from the IRS with respect to such Securities. Significant aspects of the U.S. federal income tax consequences of an investment in such Securities are uncertain, and no assurance can be given that the IRS or a court will agree with the tax treatment described herein. Accordingly, investors should consult their tax advisers regarding the U.S. federal income tax consequences of an investment in such Securities (including possible alternative treatment thereof).

A Non-U.S. Holder should expect that a withholding agent will treat any coupon payments made by or on behalf of Morgan Stanley or MSFL as subject to U.S. federal withholding tax at a rate of 30 per cent., unless the Non-U.S. Holder establishes an exemption under the "other income" provision of a Qualifying Treaty (as defined below) or, to the extent that any portion of a coupon payment is treated as interest for U.S. federal income tax purposes, an exemption under the "portfolio interest exemption" rules as described below.

An income tax treaty between a non-U.S. jurisdiction and the United States is a "Qualifying Treaty" if it provides for a 0 per cent. rate of tax on "other income" earned by a resident of the non-U.S. jurisdiction from sources within the United States. For example, under current law, the United States' tax treaties with Japan, Germany and the United Kingdom are Qualifying Treaties. Accordingly, if the Non-U.S. Holder is a resident of a non-U.S. jurisdiction that qualifies for benefits under such a Qualifying Treaty, the Non-U.S. Holder should generally be eligible for an exemption under the "other income" provision referred to above if such Non-U.S. Holder timely complies with the certification requirement described below. However, because most income tax treaties contain complex eligibility rules and limitations, a Non-U.S. Holder should consult its tax adviser about its eligibility for this exemption.

To demonstrate its eligibility for the "other income" exemption to the Issuer or an applicable withholding agent, a Non-U.S. Holder generally will be required to provide a properly completed appropriate IRS Form W-8BEN or W-8BEN-E certifying that it is not a U.S. person and that it is eligible for the benefits of the "other income" provision of the relevant Qualifying Treaty (or, if the Non-U.S. Holder holds its Securities through certain qualified intermediaries, it may be permitted to provide alternative documentation in lieu of the appropriate IRS Form W-8BEN or W-8BEN-E to establish that it is not a U.S. person and that it is eligible for the benefits of the "other income" provision of the relevant Qualifying Treaty). A Non-U.S. Holder providing a properly completed appropriate IRS Form W-8BEN or W-8BEN-E as discussed in this paragraph may provide its foreign taxpayer identifying number issued by its country of residence in lieu of its U.S. taxpayer identifying number.

Notwithstanding the discussion above, because the U.S. federal income tax treatment of the Securities is unclear, any coupon payments on such Securities could alternatively be treated in whole or in part as payments of interest. Nonetheless, even if the coupon payments are treated in whole or in part as interest and thus not eligible for the "other income" exemption described above, under current law and administrative practice a Non-U.S. Holder generally will qualify for the "portfolio interest exemption" with respect to the coupon payments, provided that the conditions for the exemption set forth in "*Interest*" above (including the certification requirement) are met.

Non-U.S. Holders should consult their tax advisers regarding their eligibility for any applicable exemption from withholding in light of their particular circumstances.

Future Withholding

It is possible that any future Treasury regulations or other guidance could materially and adversely affect the withholding tax consequences of ownership and disposition of the Securities, possibly with retroactive effect, and that in the event of a change of law or any formal or informal guidance by the IRS, the U.S. Treasury Department or Congress, we or a withholding agent may decide to withhold on a portion or the entire amount of payments made with respect to the Securities to Non-U.S. Holders and, unless specified otherwise in the applicable Issue Terms, no additional amounts will be payable with respect to any such withholding. Prospective investors should consult their tax advisers regarding all aspects of the U.S. federal income tax consequences of an investment in the Securities.

Section 897 of the Code

No opinion is expressed herein as to whether any issuer of any shares to which a Security relates (such shares hereafter referred to as "Underlying Shares") is treated as a "U.S. real property holding corporation" ("USRPHC") within the meaning of Section 897 of the Code. If any issuer of Underlying Shares were so treated, certain adverse U.S. federal income tax consequences might apply upon the sale, exchange or other disposition of a Security (including potential U.S. withholding tax, notwithstanding the discussions above). Holders should refer to information filed with the Securities and Exchange Commission or other governmental authorities by the issuers of the Underlying Shares and consult their tax advisers regarding the possible consequences to such holders if any such issuer is or becomes a USRPHC.

Dividend Equivalent Amounts

Section 871(m) of the Code imposes a withholding tax of 30 per cent. (or lower treaty rate applicable to dividends) on certain "dividend equivalents" paid or deemed paid with respect to certain financial instruments linked to U.S. equities or indices that include U.S. equities. Subject to the discussion below concerning Securities issued before January 1, 2023, a Security linked to U.S. equities or indices that include U.S. equities (a "U.S. equity linked Security") will be subject to the Section 871(m) withholding regime if at issuance it (i) has a "delta" of 0.80 or higher with respect to the underlying U.S. stock or (ii) substantially replicates the economic performance of the underlying U.S. stock, as determined by a "substantial equivalence" test that, among other factors, takes into account the initial number of shares of the underlying U.S. stock needed to hedge the transaction fully. The tests described above are set forth in the Treasury regulations, and the applicable test will depend on the terms of the relevant U.S. equity linked Security. Under these rules, withholding may apply even where the relevant U.S. equity linked Security does not provide for any payment that is explicitly linked to a dividend. The Treasury regulations provide for certain exceptions to the withholding requirements, in particular for instruments linked to certain broad-based indices (a "qualified index") that meet standards set forth in the Treasury regulations, as well as certain exchange traded funds that track a qualified index.

Pursuant to an IRS Notice, Section 871(m) will not apply to Securities issued before January 1, 2023 that do not have a "delta" of one with respect to any U.S. equity. If the terms of a U.S. equity linked Security are significantly modified (including in the event that the Issuer substitutes another entity in place of the Issuer as principal debtor under the Security) and if such modification or substitution results in a deemed exchange of the Security for U.S. federal income tax purposes, the U.S. equity linked Security will generally be treated as reissued at the time of the significant modification. Under Treasury regulations, certain "benchmark" rate replacements would not give rise to deemed exchanges for U.S. federal income tax purposes, provided that certain conditions set forth in the Treasury regulations are met.

The calculations of "delta" are generally made at the "calculation date," which is the earlier of (i) the time of pricing of the U.S. equity linked Security (i.e., when all material terms have been agreed on) and (ii) the issuance of the U.S. equity linked Security. However, if the time of pricing is more than 14 calendar days before the issuance of the U.S. equity linked Security, the calculation date is the date of the issuance of the U.S. equity linked Security. In those circumstances, information regarding the Issuer's final determinations for purposes of Section 871(m) may be available only after the issuance of the U.S. equity linked Security. As a result, a Non-U.S. Holder should acquire such a U.S. equity linked Security only if it is willing to accept the risk that the U.S. equity linked Security is treated as subject to withholding.

The amount of a "dividend equivalent" is equal to, for a "simple" contract, the product of (a) the per-share dividend amount, (b) the number of shares of the underlying U.S. equity referenced in the U.S. equity linked Security and (c) the delta, and, for a "complex" contract, the product of (a) the per-share dividend amount and (b) the initial hedge.

The dividend equivalent amount will be determined on the earlier of (a) the record date of the dividend and (b) the day prior to the ex-dividend date. The dividend equivalent amount will include the amount of any

actual or, under certain circumstances, estimated dividend. If a U.S. equity linked Security is subject to withholding in respect of dividend equivalents, withholding will, depending on the applicable withholding agents' circumstances, generally be required either (i) on the underlying dividend payment date or (ii) when cash payments are made on the relevant U.S. equity linked Security or upon the date of maturity, lapse or other disposition thereof by the Non-U.S. Holder.

The relevant Issuer will determine whether a U.S. equity linked Security is subject to withholding under Section 871(m). If the Issuer has determined, as specified in the Pricing Supplement, that a U.S. equity linked Security should not be subject to withholding under Section 871(m), the Issuer will be deemed to instruct its agents and withholding agents that no such withholding is required, unless such agent or withholding agent knows or has reason to know otherwise. If withholding is required, the relevant Issuer will not be required to pay any additional amounts with respect to the amounts so withheld.

The relevant Issuer's determination is not binding on the IRS, and the IRS may disagree with its determination. Section 871(m) is complex and its application may depend on the Non-U.S. Holder's particular circumstances. For example, the application of Section 871(m) may be affected if a Non-U.S. Holder enters into another transaction in connection with the acquisition of a U.S. equity linked Security. Accordingly, Non-U.S. Holders should consult their tax advisers regarding the potential application of Section 871(m) to the U.S. equity linked Securities in their particular circumstances.

FATCA

Legislation commonly referred to as "FATCA" generally imposes a withholding tax of 30 per cent. on payments to certain non-U.S. entities (including financial intermediaries) with respect to certain financial instruments, unless various U.S. information reporting and due diligence requirements have been satisfied. An intergovernmental agreement between the United States and the non-U.S. entity's jurisdiction may modify these requirements. FATCA generally applies to certain financial instruments that are treated as paying U.S.-source interest or dividends or other U.S.-source "fixed or determinable annual or periodical" income ("**FDAP income**"). Withholding (if applicable) applies to any payment of amounts treated as U.S.-source interest or dividend equivalents (as discussed above under "*—Dividend Equivalent Amounts*") on the Securities and any payment of gross proceeds of the disposition (including upon retirement) of Securities treated as providing for U.S.-source interest or dividends. However, under proposed Treasury regulations (the preamble to which specifies that taxpayers are permitted to rely on them pending finalization) no withholding will apply to payments of gross proceeds (other than amounts treated as interest or other FDAP income). Although, under current law, withholding under FATCA does not apply to payments of non-U.S. source income, such withholding could apply in the future with respect to certain payments attributable to U.S.-source income ("foreign passthru payments"). Securities that pay only non-U.S. source or foreign passthru payments, are not treated as equity for U.S. federal income tax purposes and have a stated expiration date are generally grandfathered from FATCA withholding if issued prior to the date that is six months after final Treasury regulations that define the term "foreign passthru payments" are published. However, such Securities may become subject to FATCA withholding if they are significantly modified after the grandfathering date (including in the event that the Issuer substitutes another entity in place of the Issuer as principal debtor under the Securities) if such modification or substitution results in a deemed exchange of the Securities for U.S. federal income tax purposes. Under Treasury regulations, certain "benchmark" rate replacements would not give rise to deemed exchanges for U.S. federal income tax purposes, provided that certain conditions set forth in the Treasury regulations are met. If withholding applies to the Securities, the relevant Issuer will not be required to pay any additional amounts with respect to amounts withheld under FATCA. Non-U.S. Holders should consult their tax advisers regarding the potential application of FATCA to the Securities.

Backup Withholding and Information Reporting

Information returns may be filed with the IRS in connection with payments on the Securities as well as in connection with the proceeds from a sale, exchange or other disposition. A Non-U.S. Holder may be subject to backup withholding in respect of amounts paid to the Non-U.S. Holder, unless such Non-U.S. Holder complies with applicable certification procedures to establish that it is not a United States person for U.S. federal income tax purposes or otherwise establishes an exemption. Compliance with the certification procedures described above under "*—Interest*" will satisfy the certification requirements necessary to avoid backup withholding. The amount of any backup withholding from a payment to a Non-U.S. Holder will be allowed as a credit against the Non-U.S. Holder's U.S. federal income tax liability and may entitle the Non-U.S. Holder to a refund, provided that the required information is timely furnished to the IRS.

Estate Tax

Individual Non-U.S. Holders and entities the property of which is potentially includible in such an individual's gross estate for U.S. federal estate tax purposes (for example, a trust funded by such an individual and with respect to which the individual has retained certain interests or powers) should note that, absent an applicable treaty exemption, a Security that is treated as indebtedness for U.S. federal estate tax purposes will be treated as U.S. situs property subject to U.S. federal estate tax if payments on the Security, if received by the decedent at the time of death, would have been subject to U.S. federal withholding tax (even if the IRS Form W-8BEN or W-8BENE certification requirement described above were satisfied and not taking into account an elimination of such U.S. federal withholding tax due to the application of an income tax treaty or withholding under FATCA).

Absent an applicable treaty benefit, a Security that is not treated as indebtedness for U.S. federal estate tax purposes may be treated as U.S. situs property subject to U.S. federal estate tax. Non-U.S. Holders should consult their own tax advisers regarding the U.S. federal estate tax consequences of an investment in the Securities and the availability of benefits provided by an applicable estate tax treaty, if any.

Belgian Supplemental Conditions

If "Supplementary Provisions for Belgian Securities" is specified as applicable in the applicable Issue Terms and if an Early Redemption Event occurs and an Early Redemption Amount (Monetisation) is paid on the Maturity Date, the Securities will likely be treated as debt instruments for U.S. federal income tax purposes after the Early Redemption Date (Put). In that case, subject to the discussions in "*FATCA*" and "*Backup Withholding and Information Reporting*" above, a Non-U.S. Holder should not be subject to U.S. withholding tax on payments on the Maturity Date provided that, in the case of Securities issued by Morgan Stanley or MSFL, the conditions described in "*Interest*" above are met or the Non-U.S. Holder establishes any other exemption from U.S. withholding including under an applicable tax treaty.

UNITED KINGDOM TAXATION

The following disclosure applies only in respect of Securities (as opposed to Warrants) issued by Morgan Stanley, MSI plc, MSBV or MSFL and not in respect of Securities issued by a substitute issuer (notwithstanding that substitution may be permitted by the terms and conditions of the Securities), and references in this section on United Kingdom taxation to "Securities" and references to "Securityholders", should be construed accordingly.

The following is a summary of the United Kingdom withholding taxation treatment at the date hereof in relation to payments of principal and interest in respect of the Securities. The comments do not deal with other United Kingdom tax aspects of acquiring, holding, disposing of, or abandoning Securities. Transactions involving Securities, including the issue and subscription of Securities, any purchase or disposal or settlement of Securities, may have United Kingdom tax consequences for potential purchasers (including but not limited to, transfer taxes and possible withholding or deduction for or on account of United Kingdom tax from payments made in respect of the Securities). The tax consequences may depend, amongst other things, on the status of the potential investor and the terms and conditions of a particular Security as specified in the Issue Terms. The following summary is based on current United Kingdom tax law as applied in England and Wales and published practice of HM Revenue and Customs ("HMRC") (which may not be binding on HMRC), which may be subject to change, sometimes with retrospective effect. The comments relate only to the position of persons who are absolute beneficial owners of the Securities. Prospective holders of the Securities and Securityholders should be aware that the particular terms of issue of any series of Securities as specified in the relevant Issue Terms may affect the tax treatment of that and other series of Securities. The following is a general guide and should be treated with appropriate caution. It is not intended as tax advice and it does not purport to describe all of the tax considerations that may be relevant to a prospective purchaser. Prospective holders of the Securities and Securityholders who are in any doubt as to their tax position should consult their professional advisors about the tax implications of purchasing and holding a Security, any transaction involving a Security, and any transaction involved in the exercise and settlement of a Security. Prospective holders of the Securities and Securityholders who may be liable to taxation in jurisdictions other than the United Kingdom are particularly advised to consult their professional advisors as to whether they are so liable (and if so under the laws of which jurisdictions), since the following comments relate only to certain United Kingdom withholding taxation aspects of payments in respect of the Securities. In particular, prospective holders of the Securities and Securityholders should be aware that the tax legislation of any jurisdiction where they are resident or otherwise subject to taxation (as well as any jurisdictions discussed herein) may have an impact on the tax consequences of an investment in the Securities (including in respect of any income received from the Securities) and, in particular, that they may be liable to taxation under the laws of other jurisdictions in relation to payments in respect of the Securities even if such payments may be made without withholding or deduction for or on account of taxation under the laws of the United Kingdom.

1. ***Securities - UK Withholding Tax on Interest Payments by the Issuers***

Interest on Securities issued for a term of less than one year (and which are not issued with the intention, or under arrangements the effect of which is to render the Securities part of a borrowing with a total term of one year or more) may be paid by the relevant Issuer without withholding or deduction for or on account of United Kingdom income tax.

Interest on Securities issued for a term of one year or more (or under arrangements the effect of which is to render the Securities part of a borrowing with a total term of one year or more) may be paid by the relevant Issuer without withholding or deduction for or on account of United Kingdom income tax except in circumstances where such interest has a United Kingdom source. The location of the source of a payment is a complex matter. It is necessary to have regard to case law and HMRC practice which indicates that in determining the source of interest all relevant factors must be taken into account. HMRC has indicated that the most important factors in determining the source of a payment are those which influence where a creditor would sue for payment and has stated that the place where the Issuer does business and the place where its assets are located are relevant factors in this regard; however, HMRC has also indicated that, depending on the circumstances, other relevant factors may include the place of performance of the contract, the method of payment, the proper law of contract, the competent jurisdiction for any legal action, the location of any security for the debt and the residence of the Guarantor, although other factors may also be relevant.

Interest which has a United Kingdom source ("UK interest") may be paid by the relevant Issuer without withholding or deduction for or on account of United Kingdom income tax if the Securities in respect of which the UK interest is paid constitute "quoted Eurobonds". Securities which carry a right to interest will

constitute "quoted Eurobonds" provided they are and continue to be listed on a "recognised stock exchange" within the meaning of sections 987 and 1005 Income Tax Act 2007 or are admitted to trading on a multilateral trading facility operated by a UK, Gibraltar or EEA regulated recognised stock exchange within the meaning of section 987 Income Tax Act 2007. Securities will be regarded as "listed on a recognised stock exchange" for this purpose if they are admitted to trading on an exchange designated as a recognised stock exchange by an order made by the Commissioners for HMRC and either they are included in the United Kingdom's official list (within the meaning of Part 6 or the Financial Services and Markets Act 2000) or they are officially listed in a country outside the United Kingdom in which there is a recognised stock exchange in accordance with provisions corresponding to those generally applicable in European Economic Area States. The Euro MTF is a multilateral trading facility operated by an EEA regulated recognised stock exchange (Bourse de Luxembourg) for these purposes.

If the Securities do not constitute "quoted Eurobonds", payments of interest on the Securities may still be made without withholding or deduction for or on account of United Kingdom income tax, provided that the relevant Issuer is and continues to be authorised for the purposes of the Financial Services and Markets Act 2000 and its business is and continues to consist wholly or mainly of dealing in financial instruments (within the meaning of section 885 of the Income Tax Act 2007) as principal and that such payments are made in the ordinary course of that business.

In all other cases, UK interest on the Securities may fall to be paid under deduction of United Kingdom income tax at the basic rate (currently 20 per cent.) subject to such relief as may be available following a direction from HMRC pursuant to the provisions of any applicable double taxation treaty or to any other relief which may apply.

2. *Payments under Deed of Covenant*

Any payments made under the Deed of Covenant by the relevant Issuer may not qualify for the exemptions from UK withholding tax described above.

3. *Payments by Guarantor*

The United Kingdom withholding tax treatment of payments by the Guarantor under the terms of the Guarantee in respect of interest on the Securities (or other amounts due under the Securities other than the repayment of amounts subscribed for the Securities) is uncertain. If the Guarantor makes any payments in respect of interest on the Securities (or other amounts due under the Securities other than the repayment of amounts subscribed for the Securities) and such payments have a United Kingdom source, such payments may be subject to United Kingdom withholding tax at the basic rate (currently 20%) subject to such relief as may be available under the provisions of any applicable double taxation treaty or to any other exemption which may apply. Whether such payments made by the Guarantor have a United Kingdom source is a complex matter and is likely to be determined by reference to similar factors to those set out in paragraph 1 above. Such payments by the Guarantor may not be eligible for the exemptions described in 1. above.

4. *Other Rules Relating to United Kingdom Withholding Tax*

Securities may be issued at an issue price of less than 100 per cent. of their principal amount (in the case of Notes) or Specified Unit Value (in the case of Certificates). Whether any discount element on such Securities will be subject to any United Kingdom withholding tax pursuant to the provisions mentioned above, will depend on the precise terms of the Securities.

Where Securities are to be, or may fall to be, redeemed at a premium, as opposed to being issued at a discount, then any such element of premium may constitute a payment of interest. Payments of interest are subject to United Kingdom withholding tax and reporting requirements as outlined above.

Where interest has been paid under deduction of United Kingdom income tax, Securityholders who are not resident in the United Kingdom may be able to recover all or part of the tax deducted if there is an appropriate provision in any applicable double taxation treaty.

The references to "**interest**" above mean amounts that are treated as "interest" for the purposes of United Kingdom tax law. The statements above do not take any account of any different definitions of "interest" or "principal" which may prevail under any other law or which may be created by the terms and conditions of the Securities or any related documentation.

5. *Special tax regimes*

In accordance with Prospectus Regulation (EU 2017/1129) as supplemented by Commission Delegated Regulation (EU) 2019/980, the Issuer notes that certain securities which may be issued under the Base Prospectus that are indexed by reference to movements in the value of shares or certain other assets during the life of the securities could fall within the excluded indexed securities rules contained in the Income Tax (Trading and Other Income) Act 2005. Any gains or losses arising on the disposal of excluded indexed securities (excluding, where a security carries a right to interest payments, any element that represents accrued interest at the date of disposal, which will be liable to income tax) would be treated as capital gains or allowable losses for capital gains tax purposes in the hands of holders who are individuals and within the charge to United Kingdom capital gains tax. Index-linked securities which failed to satisfy these conditions may be treated as deeply discounted securities and where the holder is an individual who is within the charge to United Kingdom income tax, any gains would be treated as income gains and no relief would be available for losses.

Securityholders within the charge to United Kingdom corporation tax (including non-resident Securityholders whose Securities are used, held or acquired for the purposes of a trade carried on in the United Kingdom through a permanent establishment) will be subject to tax as income on all profits and gains from such Securities broadly in accordance with their statutory accounting treatment. Such Securityholders will generally be charged in each accounting period by reference to interest and other amounts which, in accordance with generally accepted accounting practice, are recognised in determining the Securityholder's profit or loss for that period. Fluctuations in value relating to foreign exchange gains and losses in respect of the Securities will be brought into account as income.

The application of any such special tax regime to Securities and the consequences of holding such Securities will depend upon a Securityholder's individual tax status and Securityholders are strongly advised to consult their professional advisers prior to any investment in Securities linked to, or indexed by reference to shares or other assets.

NETHERLANDS TAXATION

The following disclosure applies only in respect of Securities issued by MSBV and not in respect of Securities issued by Morgan Stanley, MSI plc or MSFL. References in this section on Netherlands taxation to "Issuer" refer only to MSBV, reference to "Program Securities" refer only to Securities issued by MSBV and references to holders of Securities should be construed accordingly.

The following general description of certain Dutch taxation matters is based on the laws and practice in force as of the date of this Prospectus and is subject to any changes in law and the interpretation and application thereof, which changes could be made with retroactive effect. The following general description does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or dispose of a Security, and does not purport to deal with the tax consequences applicable to all categories of investors, some of which may be subject to special rules.

For the purpose of this general description it is assumed that no individual or entity holding a Security has or will have a substantial interest, or - in the case of a holder of a Security being an entity - a deemed substantial interest, in the Issuer and that no connected person (verbonden persoon) to the holder of a Security has or will have a substantial interest in the Issuer.

Generally speaking, an individual has a substantial interest in a company if (a) such individual, either alone or together with his partner, directly or indirectly has, or is deemed to have or (b) certain relatives of such individual or his partner directly or indirectly have or are deemed to have (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5 per cent or more of either the total issued and outstanding capital of such company or the issued and outstanding capital of any class of shares of such company, or (ii) the ownership of, or certain rights over, profit participating certificates (winstbewijzen) that relate to 5 per cent or more of either the annual profit or the liquidation proceeds of such company

Generally speaking, an entity has a substantial interest in a company if such entity, directly or indirectly has (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5 per cent or more of either the total issued and outstanding capital of such company or the issued and outstanding capital of any class of shares of such company, or (ii) the ownership of, or certain rights over, profit participating certificates (winstbewijzen) that relate to 5 per cent or more of either the annual profit or the liquidation proceeds of such company. An entity holding a Security has a deemed substantial interest in a company if such entity has disposed of or is deemed to have disposed of all or part of a substantial interest on a non-recognition basis.

This summary does not address the Netherlands tax consequences for a holder of Securities that is considered to be affiliated (gelieerd) to MSBV within the meaning of the Dutch Withholding Tax Act 2021 (Wet bronbelasting 2021). Generally, an entity is regarded as 'affiliated' for these purposes if it, either alone or as part of a collaborating group, can exercise decisive influence on the activities of MSBV (or if MSBV can, either alone or as part of a collaborating group, exercise such influence on the activities of the other entity, or if there is a third party, either alone or as part of a collaborating group, that can exercise such control over both MSBV and such other entity), which is in any event the case if one holds more than 50% of the statutory voting rights.

For the purpose of this general description, the term "entity" means a corporation as well as any other person that is taxable as a corporation for Dutch corporate tax purposes.

Where this general description refers to a holder of a Security, an individual holding a Security or an entity holding a Security, such reference is restricted to an individual or entity holding legal title to as well as an economic interest in such Security or otherwise being regarded as owning a Security for Dutch tax purposes. It is noted that for purposes of Dutch income, corporate, gift and inheritance tax, assets legally owned by a third party such as a trustee, foundation or similar entity, may be treated as assets owned by the (deemed) settlor, grantor or similar originator or the beneficiaries in proportion to their interest in such arrangement.

Where the general description refers to "The Netherlands" or "Dutch" it refers only to the European part of the Kingdom of the Netherlands.

This summary does not address the Netherlands tax consequences for holders of Securities that are a resident of any non-European part of the Kingdom of the Netherlands.

Investors should consult their professional advisers on the tax consequences of their acquiring, holding and disposing of a Security.

1. **Withholding Tax**

All payments under the Securities may be made free of withholding or deduction of any taxes of whatever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein, **provided that** (i) the Securities have a maturity – legally or *de facto* - of not more than 50 years, and (ii) the Securities will not represent, be linked to (the performance of) or be convertible (in part or in whole) into, (rights to purchase) (a) shares, (b) profit certificates (*winstbewijzen*), and/or (c) debt instruments having a maturity – legally or *de facto* – of more than 50 years, issued by MSBV, the Guarantor or any other entity related to MSBV and/or the Guarantor.

2. **Taxes on Income and Capital Gains**

Residents

Resident entities

An entity holding a Security which is, or is deemed to be, resident in the Netherlands for corporate tax purposes and which is not tax exempt, will generally be subject to corporate tax in respect of income or a capital gain derived from a Security at the prevailing statutory rates.

Resident individuals

An individual holding a Security who is, or is deemed to be, resident in the Netherlands for income tax purposes will be subject to income tax in respect of income or a capital gain derived from a Security at rates up to 49.5 per cent if:

- (i) the income or capital gain is attributable to an enterprise from which the holder derives profits (other than as a shareholder); or
- (ii) the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) as defined in the Income Tax Act 2001 (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

If the above-mentioned conditions (i) and (ii) do not apply, a holder of Securities who is an individual, resident or deemed to be resident in the Netherlands for Netherlands tax purposes will not be subject to Dutch taxes on income actually received or gains actually realised. Instead, such individual is generally taxed at a flat rate of 31% on deemed income from "savings and investments" ("*sparen en beleggen*"), which deemed income is determined on the basis of the amount included in the individual's "yield basis" ("*rendementsgrondslag*") at the beginning of the calendar year (minus a tax-free threshold). For the 2021 tax year, the deemed income derived from savings and investments will amount to 1.90% of the individual's yield basis up to and including EUR 50,000 (fifty thousand Euro), 4.50% of the individual's yield basis exceeding EUR 50,000 (fifty thousand Euro) up to and including EUR 950,000 (nine hundred and fifty thousand Euro) and 5.69% of the individual's yield basis in excess of EUR 950,000 (nine hundred and fifty thousand Euro). The tax-free threshold for 2021 is EUR 50,000 (fifty thousand Euro). The percentages to determine the deemed income will be reassessed every year.

Non-residents

A holder of a Security which is not, or is not deemed to be, resident in the Netherlands for the relevant tax purposes will not be subject to taxation on income or a capital gain derived from a Security unless:

- (i) the income or capital gain is attributable to an enterprise or part thereof which is either effectively managed in or carried on through a permanent establishment (*vaste inrichting*) or a permanent representative (*vaste vertegenwoordiger*) in the Netherlands;
- (ii) the holder is entitled to a share in profits of an enterprise that is effectively managed in the Netherlands, and to which enterprise the income or capital gain is attributable, other than by way of securities; or
- (iii) the holder is an individual and the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) in the Netherlands as defined in the Income Tax Act 2001 (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

3. ***Gift and Inheritance Taxes***

Dutch gift or inheritance taxes will not be levied on the occasion of the transfer of a Security by way of gift by, or on the death of, a holder of a Security, unless:

- (i) the holder of a Security is, or is deemed to be, resident in the Netherlands for the purpose of the relevant provisions; or
- (ii) the transfer is construed as an inheritance or gift made by, or on behalf of, a person who, at the time of the gift or death, is or is deemed to be resident in the Netherlands for the purpose of the relevant provisions.

4. ***Value Added Tax***

There is no Dutch value added tax payable by a holder of a Security in respect of payments in consideration for the issue of the Securities or in respect of the payment of interest or principal under the Securities, or the transfer of the Securities.

5. ***Other Taxes and Duties***

There is no Dutch registration tax, stamp duty or any other similar tax or duty, other than court fees, payable in the Netherlands by a holder of a Security in respect of or in connection with the execution, delivery and/or enforcement by legal proceedings (including any foreign judgement in the courts of the Netherlands) of the Securities or the performance of the Issuer's obligations under the Securities.

6. ***Residence***

A holder of a Security will not be and will not be deemed to be resident in the Netherlands for tax purposes and, subject to the exceptions set out above, will not otherwise be subject to Dutch taxation, by reason only of acquiring, holding or disposing of a Security or the execution, performance, delivery and/or enforcement of a Security.

AUSTRIAN TAXATION

This section on taxation contains a brief description of the Issuers' understanding with regard to certain important principles which may be of significance in connection with the purchase, holding or sale of the Securities in the Republic of Austria. This general description does not purport to exhaustively describe all possible tax aspects and does not deal with specific situations which may be of relevance for certain potential investors. The following comments are rather of a general nature and included herein solely for information purposes. These comments are not intended to be, nor should they be construed to be, legal or tax advice. This description furthermore only refers to investors which are subject to unlimited (corporate) income tax liability in Austria. It is based on the currently valid tax legislation, case law and regulations of the tax authorities, as well as their respective interpretation, all of which may be amended from time to time. Such amendments may possibly also be effected with retroactive effect and may negatively impact on the tax consequences described. It is recommended that potential purchasers of the Securities consult with their legal and tax advisors as to the tax consequences of the purchase, holding or sale of the Securities. Tax risks resulting from the Securities (in particular from a potential qualification as a foreign investment fund within the meaning of sec. 188 of the Austrian Investment Funds Act 2011 (Investmentfondsgesetz 2011)) shall in any case be borne by the purchaser. For the purposes of the following it is assumed that the Securities are legally and factually offered to an indefinite number of persons. The Issuer assumes no responsibility with respect to taxes withheld at source.

General remarks

Individuals having a permanent domicile (*Wohnsitz*) and/or their habitual abode (*gewöhnlicher Aufenthalt*) in Austria are subject to income tax (*Einkommensteuer*) in Austria on their worldwide income (unlimited income tax liability; *unbeschränkte Einkommensteuerpflicht*). Individuals having neither a permanent domicile nor their habitual abode in Austria are subject to income tax only on income from certain Austrian sources (limited income tax liability; *beschränkte Einkommensteuerpflicht*).

Corporations having their place of effective management (*Ort der Geschäftsleitung*) and/or their legal seat (*Sitz*) in Austria are subject to corporate income tax (*Körperschaftsteuer*) in Austria on their worldwide income (unlimited corporate income tax liability; *unbeschränkte Körperschaftsteuerpflicht*). Corporations having neither their place of effective management nor their legal seat in Austria are subject to corporate income tax only on income from certain Austrian sources (limited corporate income tax liability; *beschränkte Körperschaftsteuerpflicht*).

Both in case of unlimited and limited (corporate) income tax liability, Austria's right to tax may be restricted by double taxation treaties.

Income taxation of the Securities

Pursuant to sec. 27(1) of the Austrian Income Tax Act (*Einkommensteuergesetz*), the term investment income (*Einkünfte aus Kapitalvermögen*) comprises:

- income from the letting of capital (*Einkünfte aus der Überlassung von Kapital*) pursuant to sec. 27(2) of the Austrian Income Tax Act, including dividends and interest;
- income from realised increases in value (*Einkünfte aus realisierten Wertsteigerungen*) pursuant to sec. 27(3) of the Austrian Income Tax Act, including gains from the sale, redemption and other realisation of assets that lead to income from the letting of capital, zero coupon bonds and also broken-period interest; and
- income from derivatives (*Einkünfte aus Derivat*) pursuant to sec. 27(4) of the Austrian Income Tax Act, including cash settlements, option premiums received and income from the sale or other realisation of forward contracts like options, futures and swaps and other derivatives such as index certificates.

According to the interpretation of the Austrian Ministry of Finance, sec. 27(4) of the Austrian Income Tax Act comprises all kind of certificates, including for example index certificates, alpha certificates, leverage certificates or so-called sport certificates (Income Tax Act Guidelines 2000, "EStR 2000", para 6173). The underlying may be shares, indices, commodities, currencies, bonds, metals, etc. In case of certificates, income from derivatives results from the difference between the acquisition costs and the sales prices or redemption value or settlement amount (all of the latter depending on the development in value of the underlying). Indexed bonds (*indexierte Anleihen*) or bonds with index-linked yield (*Anleihen mit indexorientierter Verzinsung*) are not deemed to be derivatives for purposes of sec. 27(4) of the Austrian Income Tax Act. Interest resulting from these bonds is treated as income from the letting of capital pursuant to sec. 27(2) of the Austrian Income Tax Act; the sale or redemption of these bonds is deemed to lead to

income from realized gains and other increases in value pursuant to sec. 27(3) of the Austrian Income Tax Act (EStR 2000, para 6195 et seq.). In case the Issuer may choose whether to redeem a bond either by handing out cash or by way of transferring (own or third party) shares (so-called cash or share bonds), interest paid on these bonds is deemed to be income from the letting of capital pursuant to sec. 27(2) of the Austrian Income Tax Act. The exercise of the option by the Issuer is not deemed to be an exchange of bonds for stock and does therefore not result in a sale of the bond with a subsequent acquisition of the shares (EStR 2000, para 6183 et seq.). Income from the sale or redemption of cash or share bonds constitutes income from realized increases in value.

The withdrawal of the Securities from a bank deposit (*Depotentnahme*) would generally be considered as a sale. In case certain notification requirements are met, no taxation is triggered. Furthermore, circumstances leading to a loss of Austria's taxation right regarding the Securities vis-à-vis other countries, e.g. a relocation from Austria (*Wegzug*) are in general deemed to constitute a sale (cf. sec. 27(6) of the Austrian Income Tax Act). In case of relocation of an individual to a Member State of the European Union or to Member States of the European Economic Area, a deferral of taxation may be available.

Individuals holding the Securities as non-business assets

Individuals subject to unlimited income tax liability in Austria holding the Securities as a non-business asset are subject to income tax on all resulting investment income pursuant to sec. 27(1) of the Austrian Income Tax Act. In case of investment income with an Austrian nexus (*inländische Einkünfte aus Kapitalvermögen*), basically meaning income that is paid by an Austrian paying agent (*auszahlende Stelle*) or an Austrian custodian agent (*depotführende Stelle*), the income is subject to a withholding tax of 27.5%; no additional income tax is levied over and above the amount of tax withheld (final taxation pursuant to sec. 97(1) of the Austrian Income Tax Act). In case of investment income without an Austrian nexus, the income must be included in the income tax return and is subject to a flat income tax rate of 27.5%. In both cases upon application the option exists to tax all income subject to the tax rate of 27.5% at the lower progressive income tax rate (option to regular taxation pursuant to sec. 27a(5) of the Austrian Income Tax Act).

Sec. 27(8) of the Austrian Income Tax Act, *inter alia*, provides for the following restrictions on the set-off of losses: negative income from realised increases in value and from derivatives may not be set off against interest and other claims against credit institutions as well as certain income pursuant to sec. 27(5)(7) of the Austrian Income Tax Act; income subject to the flat tax rates of 25% or 27.5% may not be set off against income subject to the progressive income tax rate (this equally applies in case of an exercise of the option to regular taxation); negative investment income not already set off against positive investment income may not be set off against other types of income.

Individuals holding the Securities as business assets

Individuals subject to unlimited income tax liability in Austria holding the Securities as a business asset are subject to income tax on all resulting investment income pursuant to sec. 27(1) of the Austrian Income Tax Act. In case of investment income with an Austrian nexus (as described above), the income is subject to a withholding tax of 27.5%. While this withholding tax has the effect of final taxation for income from the letting of capital, income from realised increases in value and income from derivatives must on the other hand be included in the income tax return (nevertheless subject to the flat income tax rate of 27.5%). In case of investment income without an Austrian nexus, the income must always be included in the income tax return (subject to the flat income tax rate of 27.5%). In both cases upon application the option exists to tax all income subject to the tax rate of 27.5% at the lower progressive income tax rate (option to regular taxation pursuant to sec. 27a(5) of the Austrian Income Tax Act). Pursuant to sec. 6(2)(c) of the Austrian Income Tax Act, impairment to the lower fair market value and losses from the sale, redemption and other realisation of financial assets and derivatives in the sense of sec. 27(3) and (4) of the Austrian Income Tax Act, which are subject to the special tax rates of 27.5% or 25%, are primarily to be set off against income from realised increases in value of such financial assets and derivatives and with appreciations in value of such assets within the same business unit (*Wirtschaftsgüter desselben Betriebes*); only 55% of the remaining negative difference may be set off against other types of income (and carried forward).

Corporations and Private Foundations

Corporations subject to unlimited corporate income tax liability in Austria are subject to corporate income tax on interest from the Securities at a rate of 25% (from 1 January 2023: 24% and from 1 January 2024 onwards: 23%). In case of investment income with an Austrian nexus (as described above) the income is subject to a withholding tax of 27.5%, which may be reduced to 25% (from 1 January 2023: 24% and from 1 January 2024 onwards: 23%) in case a corporation is the beneficial recipient of such income. Such

withholding tax can be credited against the corporate income tax liability. However, under the conditions set forth in sec. 94(5) of the Austrian Income Tax Act, no withholding tax is levied in the first place. Income from the sale of the Securities is subject to corporate income tax of 25% (from 1 January 2023: 24% and from 1 January 2024 onwards: 23%). Losses from the sale of the Securities can be set off against other income (and carried forward).

Private foundations pursuant to the Austrian Private Foundations Act fulfilling the prerequisites contained in sec. 13(3) and (6) of the Austrian Corporate Income Tax Act and holding the Securities as a non-business asset are subject to interim taxation at a rate of 25% (from 1 January 2023: 24% and from 1 January 2024 onwards: 23%) on interest income, income from realised increases in value and income from derivatives (*inter alia*, if the latter are in the form of securities; or in case of non-securitized derivatives if the Austrian custodian or paying agent voluntarily withholds the tax at source pursuant to sec. 27a(2)(7) of the Austrian Income Tax Act). Interim tax does not fall due insofar as distributions subject to withholding tax are made to beneficiaries in the tax period. In case of investment income with an Austrian nexus (as described above), income is in general subject to a withholding tax of 27.5%, which may be reduced to 25% (from 1 January 2023: 24% and from 1 January 2024 onwards: 23%) in case a corporation is the beneficial recipient of such income. Such withholding tax can be credited against the tax falling due. Under the conditions set forth in sec. 94(12) of the Austrian Income Tax Act, no withholding tax is levied.

Set-off of losses by an Austrian depository agent

Pursuant to sec. 93(6) of the Austrian Income Tax Act, the Austrian custodian agent is obliged to automatically set off negative investment income against positive investment income, taking into account all of a taxpayer's bank deposits with the same custodian agent. If negative and at the same time or later in the same calendar year positive income is earned, then the negative income is to be set off against the positive income. If positive and later in the same calendar year negative income is earned, then the withholding tax on the positive income is to be credited, with such tax credit being limited to 27.5% of the negative income. In certain cases, the set-off is not permissible. The custodian agent has to issue a written confirmation on the set-off of losses for each bank deposit.

Risk of qualification as units in a non-Austrian investment fund

Pursuant to sec. 188 of the Austrian Investment Funds Act 2011 prior to its amendment by the Austrian Alternative Investment Funds Manager Act (BGBl I 135/2013), a non-Austrian investment fund was defined as any assets subject to a foreign jurisdiction which, irrespective of the legal form they are organised in, are invested according to the principle of risk diversification on the basis either of a statute, of the entity's articles or of customary exercise. Certain collective investment vehicles investing in real estate were exempted. The Austrian tax authorities commented upon the distinction between index certificates of foreign issuers on the one hand and non-Austrian investment funds on the other hand in the Investment Fund Regulations (*Investmentfondsrichtlinien*). Pursuant to these, no non-Austrian investment fund may be assumed if for the purposes of the issuance no predominant actual purchase of the underlying assets by the issuer or a trustee of the issuer, if any, is made and no actively managed assets exist. Directly held bonds shall not be considered as foreign investment funds if the performance of the bonds depends on an index, notwithstanding the fact of whether the index is a well-known one, an individually constructed "fixed" index or an index which is changeable at any time. Special rules applied to hedge-index funds.

In the course of the implementation of the Alternative Investment Funds Managers Directive (EC Directive 2011/61/EU) into domestic law, the definition of the term non-Austrian investment fund significantly changed, but the distinction between index certificates, indexed bonds and non-Austrian investment vehicles may still be important. This topic is not addressed in the current guidelines issued by the Austrian Ministry of Finance (*Investmentfondsrichtlinien* 2018). In this respect it should be noted that the Austrian tax authorities have stated that debt securities may be classified as an Alternative Investment Fund ("AIF") (*InvFR 2018 para 77*). According to these Investment Funds Act Guidelines, this may be so especially if (a) there is an obligation on the investor regarding the investment of the issue proceeds and (b) the possibility of influence by the issuer on the performance of the investment. Therefore, the risk of the qualification of the Securities as units in a non-Austrian investment fund must be assessed on a case-by-case basis.

Austrian inheritance and gift tax

Austria does not levy inheritance or gift tax.

However, it should be noted that certain gratuitous transfers of assets to (Austrian or foreign) private law foundations and comparable legal estates (*privatrechtliche Stiftungen und damit vergleichbare*

Vermögensmassen) are subject to a foundation transfer tax (*Stiftungseingangssteuer*) pursuant to the Austrian Foundation Tax Act (*Stiftungseingangssteuergesetz*). Such tax is triggered if the transferor and/or the transferee at the time of transfer have a domicile, their habitual abode, their legal seat or their place of effective management in Austria. Certain exemptions apply in case of a transfer *mortis causa* of financial assets within the meaning of sec. 27(3) and (4) of the Austrian Income Tax Act (except for participations in corporations) if income from such financial assets is subject to a special tax rate. The tax basis is the fair market value of the assets transferred minus any debts, calculated at the time of transfer. The tax rate is in general 2.5%, with a higher rate of 25% applying in special cases.

In addition, a special notification obligation exists for gifts of money, receivables, shares in corporations, participations in partnerships, businesses, movable tangible assets and intangibles. The notification obligation applies if the donor and/or the donee have a domicile, their habitual abode, their legal seat or their place of effective management in Austria. Not all gifts are covered by the notification obligation: In case of gifts to certain related parties, a threshold of EUR 50,000 per year applies; in all other cases, a notification is obligatory if the value of gifts made exceeds an amount of EUR 15,000 during a period of five years. Furthermore, gratuitous transfers to foundations falling under the Austrian Foundation Tax Act described above are also exempt from the notification obligation. Intentional violation of the notification obligation may lead to the levying of fines of up to 10% of the fair market value of the assets transferred.

Further, it should be noted that gratuitous transfers of the Securities may trigger income tax on the level of the transferor pursuant to sec. 27(6) of the Austrian Income Tax Act (see above).

BELGIAN TAXATION

The following summary describes the principal Belgian tax considerations with respect to the holding of Securities obtained by an investor in Belgium. This information is of a general nature and does not purport to be a comprehensive description of all Belgian tax considerations that may be relevant to a decision to acquire, to hold or to dispose of the Securities. This summary is based on Belgian tax legislation, treaties, rules, and administrative interpretations and similar documentation, in force as of the date of the publication of this Base Prospectus, without prejudice to any amendments introduced at a later date, even if implemented with retroactive effect. This summary does not describe the tax consequences for a holder of Securities that are redeemable in exchange for, or convertible into assets, of the exercise, settlement or redemption of such Securities or any tax consequences after the moment of exercise, settlement or redemption.

Each prospective holder of Securities should consult a professional adviser with respect to the tax consequences of an investment in the Securities, taking into account the influence of each regional, local or national law.

Belgian Withholding Tax

Under Belgian tax law, "interest" income includes: (i) periodic interest income; (ii) any amount paid by the Issuer in excess of the issue price (whether or not on the maturity date); and (iii) if the Securities qualify as "fixed income securities" (in the meaning of article 2, §1, 8° Belgian Income Tax Code 1992), in the case of a realisation of the Securities between two interest payment dates, the interest accrued during the detention period. "Fixed income securities" include Securities where there is a causal link between the amount of interest income and the detention period of the Securities, on the basis of which it is possible to calculate the amount of pro rata interest income at the moment of the sale of the Securities during their lifetime. Further, on 25 January 2013, the Belgian tax authorities issued a circular letter on the tax treatment of income from structured products the return of which is linked to an underlying value (share basket, index, etc.) and the terms and conditions of which include one or more of the following features: (a) a (conditional) minimum return; (b) capital protection; (c) a periodic coupon payment; and (d) determination of income at an intermediary stage using a "ratchet" system. The circular letter takes the position that such structured products qualify as "fixed income securities" and sets out a (somewhat unclear) formula to calculate the pro rata of accrued interest. It is debatable whether the general statements made in the circular letter are in line with Belgian tax legislation.

Payments of interest on the Securities made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium (calculated on the interest received after deduction of any non-Belgian withholding taxes) subject to such reductions or exemptions as may be available under Belgian domestic or treaty law.

Belgian Income Tax rules applicable to natural persons resident in Belgium

For Belgian resident individuals, the 30 per cent. Belgian withholding tax constitutes the final income tax. This means that they do not have to declare any interest obtained on the Securities in their personal income tax return, provided withholding tax was levied on these interest payments. Nevertheless, Belgian resident individuals may elect to declare any interest received on Securities in their personal income tax return. Also, if no Belgian withholding tax has been withheld (e.g. because the interest is paid outside Belgium without the intervention of a Belgian paying agent or because it concerns the pro rata of accrued interest in the case of a sale of the Securities), any interest received (after deduction of any non-Belgian withholding tax) must be declared in the personal income tax return. Interest income which is declared in this way will in principle be taxed at a flat rate of 30 per cent. (or at the relevant progressive personal income tax rate(s), taking into account the taxpayer's other declared income, if this results in lower taxation) and no local surcharges will be due. The Belgian withholding tax levied may be credited against the income tax liability.

Capital gains realised upon the sale of the Securities are in principle tax exempt, except if the capital gains are realised outside the scope of the management of one's private estate or except to the extent that the capital gains qualify as interest (as defined above in the section entitled "Belgian Withholding Tax"). Capital losses are in principle not tax deductible.

Other tax rules apply to Belgian resident individuals holding the Securities not as a private investment but in the framework of their professional activity or when the transactions with respect to the Securities fall outside the scope of the normal management of their own private estate.

Belgian resident corporations

Interest derived by Belgian corporate investors (i.e. corporations subject to Belgian Corporate Income Tax) on the Securities and capital gains realised on the disposal or settlement of the Securities will in principle be subject to Belgian corporate income tax at the rate of in principle 25 per cent.. Subject to certain conditions, small companies (as defined in Article 1:24, § 1 to § 6 of the Belgian Companies and Associations Code) are taxable at the reduced corporate income tax rate of 20% on the first tranche of taxable profits of EUR 100,000.

If non-Belgian withholding tax has been levied on the interest, a foreign tax credit may be applied against the Belgian tax due. The foreign tax credit is determined by reference to a fraction where the numerator is equal to the rate of the foreign tax with a maximum of 15 and the denominator is equal to 100 minus the amount of the numerator (with a number of additional limitations). Capital losses on the Securities are in principle tax deductible.

For Belgian resident corporations, interest payments on the Securities (except for Securities which are zero coupon securities or which provide for the capitalisation of interest) made through a paying agent in Belgium may under certain specific circumstances be exempt from withholding tax, provided a special attestation is delivered. The Belgian withholding tax that has been levied is creditable and refundable in accordance with the applicable legal provisions.

Other tax rules apply to investment companies within the meaning of Article 185bis of the Belgian Income Tax Code 1992.

Organisation for financing pensions

Interest derived on the Securities and capital gains realised on the Securities will not be subject to Belgian Corporate Income Tax in the hands of Belgian Organisations for Financing Pensions ("**OFPs**"). Capital losses incurred by OFPs on the Securities will not be tax deductible. Subject to certain conditions, any Belgian withholding tax that has been levied on the Securities is creditable and refundable in accordance with the applicable legal provisions.

Other Belgian legal entities

Legal entities that are Belgian residents for tax purposes, i.e. that are subject to Belgian tax on legal entities (*Rechtspersonenbelasting/impôt des personnes morales*), are subject to the following tax treatment in Belgium with respect to the Securities.

Payments of interest (as defined in the section entitled "Belgian Withholding Tax") on the Securities made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium and no further tax on legal entities will be due on the interest. However, if no Belgian withholding tax has been withheld (e.g. because the interest is paid outside Belgium without the intervention of a Belgian paying agent or because it concerns the pro rata of accrued interest in the case of a sale of the Securities), the legal entity itself is liable to declare the interest to the Belgian tax administration and to pay the 30 per cent. withholding tax to the Belgian treasury.

Capital gains realised on the Securities are in principle tax exempt, except to the extent the capital gain qualifies as interest (as defined in the section entitled "Belgian Withholding Tax"). Capital losses on the Securities are in principle not tax deductible.

Non-residents of Belgium

The interest income (as defined in the section entitled "Belgian Withholding Tax") on the Securities paid to a Belgian non-resident outside of Belgium, i.e. without the intervention of a professional intermediary in Belgium, is not subject to Belgian withholding tax. Interest income on the Securities paid through a Belgian professional intermediary will in principle be subject to a 30 per cent. Belgian withholding tax, unless the holder is resident in a country with which Belgium has concluded a double taxation agreement and delivers the requested affidavit. Non-resident holders that have not allocated the Securities to business activities in Belgium can also obtain an exemption of Belgian withholding tax on interest if the interest is paid through a Belgian credit institution, a Belgian stock market company or a Belgian clearing or settlement institution and provided that the non-resident; (i) is the owner or usufruct holder of the Securities; (ii) has not allocated

the Securities to business activities in Belgium; and (iii) delivers an affidavit confirming his non-resident status and the fulfilment of conditions (i) and (ii).

Non-resident holders using the Securities to exercise a professional activity in Belgium through a permanent establishment are subject to the same tax rules as the Belgian resident corporations (see above).

Non-resident holders who do not allocate the Securities to a professional activity in Belgium are not subject to Belgian income tax, save, as the case may be, in the form of withholding tax.

Belgian tax on stock exchange transactions and tax on repurchase transactions

The purchase and sale of the Securities on the secondary market that is (i) either entered into or carried out in Belgium through a professional intermediary or (ii) deemed to be carried out in Belgium, which is the case if the order is directly or indirectly made to a professional intermediary established outside of Belgium, either by a private individual with habitual residence in Belgium or by a legal entity for the account of its seat or establishment in Belgium (both referred to as a "**Belgian Investor**"), will be subject to a tax on stock exchange transactions ("*taks op beursverrichtingen*" / "*taxe sur les opérations de bourse*"). The tax is generally due at a rate 0.12 per cent. for transactions in debt instruments and at a rate of 0.35 per cent. for transactions in other securities which are not capitalisation shares, with a maximum amount per transaction and per party of €1,300 for debt instruments and €1,600 for other securities which are not capitalisation shares. The tax is due separately from each of the seller/transferor and the purchaser/transferee and is collected by the professional intermediary.

If the professional intermediary is established outside Belgium, the tax on stock exchange transactions is due by the ordering private individual or legal entity (who will be responsible for the filing of a stock exchange tax return and for the timely payment of the amount of stock exchange tax due) unless that individual or entity can demonstrate that the tax on stock exchange transactions due has already been paid by the professional intermediary established outside Belgium. In the latter case, the foreign professional intermediary also has to provide each client (which gives such intermediary an order) with a qualifying order statement (*borderel/bordereau*), at the latest on the business day after the day on which the relevant transaction was realised. The qualifying order statements must be numbered in series and duplicates must be retained by the financial intermediary. A duplicate can be replaced by a qualifying agent day-today listing, numbered in series. Alternatively, professional intermediaries established outside Belgium have the possibility to appoint a stock exchange tax representative in Belgium, subject to certain conditions and formalities (a "**Stock Exchange Tax Representative**"). Such Stock Exchange Tax Representative will then be liable toward the Belgian Treasury for the tax on stock exchange transactions on behalf of clients that fall within one of the aforementioned categories (provided that these clients do not qualify as exempt persons for stock exchange tax purposes – see below) and to comply with the reporting obligations and the obligations relating to the order statement (*borderel/bordereau*) in that respect. If such a Stock Exchange Tax Representative would have paid the tax on stock exchange transactions due, the Belgian Investor will, as per the above, no longer be the debtor of the tax on stock exchange transactions.

A tax on repurchase transactions ("*taks op de reporten*" / "*taxe sur les reports*") at the rate of 0.085 per cent. will be due from each party to any such transaction entered into or settled in Belgium in which a stockbroker acts for either party, with a maximum amount of €1,300 per transaction and per party.

However, the taxes referred to above will not be payable by exempt persons acting for their own account, including investors who are Belgian non-residents provided they deliver an attestation to the financial intermediary in Belgium confirming their non-resident status, and certain Belgian institutional investors as defined in Articles 126.1 2° and 139 of the Code of various duties and taxes ("*Code des droits et taxes divers*" / "*Wetboek diverse rechten en taksen*").

As indicated in the section relating to the 'Proposed Financial Transactions Tax', the European Commission has published a proposal for a FTT. This proposal currently stipulates that once the FTT enters into force, the participating Member States shall not maintain or introduce taxes on financial transactions other than the FTT (or value added tax as provided in the Council Directive 2006/112/EC of November 28, 2006 on the common system of value added tax). For Belgium, the tax on stock exchange transactions should thus be abolished once the FTT enters into force. The proposal is still subject to negotiation between the participating Member States and therefore may be changed at any time.

Annual tax on securities accounts

Pursuant to the Belgian Law of 17 February 2021 on the introduction of an annual tax on securities accounts, an annual tax is levied on securities accounts with an average value, over a period of twelve consecutive months starting on 1 October and ending on 30 September of the subsequent year, higher than EUR 1 million.

The tax is equal to 0.15 per cent. of the average value of the securities accounts during a reference period. The reference period normally runs from 1 October to 30 September of the subsequent year. The first reference period runs from 26 February 2021 to 30 September 2021. The taxable base is determined based on four reference dates: 31 December, 31 March, 30 June and 30 September. The amount of the tax is limited to 10 per cent. of the difference between the taxable base and the threshold of EUR 1 million.

The tax targets securities accounts held by resident individuals, companies and legal entities, irrespective as to whether these accounts are held with a financial intermediary which is established or located in Belgium or abroad. The tax also applies to securities accounts held by non-resident individuals, companies and legal entities with a financial intermediary established or located in Belgium. Belgian establishments from Belgian non-residents are however treated as Belgian residents for purposes of the annual tax on securities accounts so that both Belgian and foreign securities accounts fall within the scope of this tax. Note that pursuant to certain double tax treaties, Belgium has no right to tax capital. Hence, to the extent the tax on securities accounts is viewed as a tax on capital within the meaning of these double tax treaties, treaty protection may, subject to certain conditions, be claimed.

Each securities account is assessed separately. When multiple holders hold a securities account, each holder is jointly and severally liable for the payment of the tax and each holder may fulfil the declaration requirements for all holders.

There are various exemptions, such as securities accounts held by specific types of regulated entities for their own account.

A financial intermediary is defined as (i) the National Bank of Belgium, the European Central Bank and foreign central banks performing similar functions, (ii) a central securities depository included in Article 198/1, §6, 12° of the Belgian Income Tax Code, (iii) a credit institution or a stockbroking firm as defined by Article 1, §3 of the Law of 25 April 2014 on the status and supervision of credit institutions and investment companies and (iv) the investment companies as defined by Article 3, §1 of the Law of 25 October 2016 on access to the activity of investment services and on the legal status and supervision of portfolio management and investment advice companies, which are, pursuant to national law, admitted to hold financial instruments for the account of customers.

The annual tax on securities accounts is in principle due by the financial intermediary established or located in Belgium. Otherwise, the annual tax on securities accounts needs to be declared and is due by the holder of the securities accounts itself, unless the holder provides evidence that the annual tax on securities accounts has already been withheld, declared and paid by an intermediary which is not established or located in Belgium. In that respect, intermediaries located or established outside of Belgium could appoint an annual tax on securities accounts representative in Belgium. Such a representative is then liable towards the Belgian Treasury (*Trésor/Thesaurie*) for the annual tax on securities accounts due and for complying with certain reporting obligations in that respect. If the holder of the securities accounts itself is liable for reporting obligations (e.g. when a Belgian resident holds a securities account abroad with an average value higher than EUR 1 million), the deadline for filing the tax return for the annual tax on securities accounts corresponds with the deadline for filing the annual tax return for personal income tax purposes electronically, irrespective whether the Belgian resident is an individual or a legal entity. In the latter case, the annual tax on securities accounts must be paid by the taxpayer on 31 August of the year following the year on which the tax was calculated, at the latest.

Anti-abuse provisions, retroactively applying from 30 October 2020, are also introduced: a rebuttable general anti-abuse provision and two irrebuttable specific anti-abuse provisions. The latter cover (i) the splitting of a securities account into multiple securities accounts held at the same intermediary and (ii) the conversion of taxable financial instruments, held on a securities account, into registered financial instruments.

Several requests for annulment of the law introducing the tax on securities accounts have been filed with the Constitutional Court. If the Constitutional Court were to annul the tax on securities accounts without upholding its effects, all taxpayers will be authorised to claim restitution of the tax already paid.

Prospective holders of Securities are advised to follow up and seek their own professional advice in relation to this new annual tax on securities accounts and the possible impact thereof on their own personal tax position.

DANISH TAXATION

The following is a general description of the taxation in Denmark of Securities according to the Danish tax laws in force at the date of this Base Prospectus and is subject to any changes in law and the interpretation and application thereof, which changes could be made with retroactive effect. The following general description does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or dispose of Securities and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as professional dealers in securities) may be subject to special rules. Potential investors are under all circumstances strongly recommended to contact their own tax advisor to clarify the individual consequences of their investment, holding and disposal of Securities. The Issuer makes no representations regarding the tax consequences of purchase, holding or disposal of the Securities.

Taxation at source

Under existing Danish tax laws no general withholding tax or coupon tax will apply to payments of interest or principal or other amounts due on the Securities, other than in certain cases on payments in respect of controlled debt in relation to the Issuer as referred to in The Danish Corporation Tax Act (in Danish "*Selskabsskatteloven*") of 22 February 2021 (as amended). This will not have any impact on Securityholders who are not in a relationship whereby they control, or are controlled by, the Issuer, or where the Securityholders and the Issuer are not controlled by the same group of shareholders.

Moreover, Danish withholding tax on payments of interest or principal or other amounts due on the Securities will not apply where the payment does not have a Danish source.

Resident Securityholders

Private individuals, including persons who are engaged in financial trade, companies and similar enterprises resident in Denmark for tax purposes or receiving interest on the Securities through their permanent establishment in Denmark are liable to pay tax on such interest.

Capital gains are taxable to individuals and corporate entities in accordance with the Danish Capital and Exchange Gains Act (in Danish "*Kursgevinstloven*") of 25 October 2016 (as amended) (the "**Act**"). Gains and losses on Securities held by corporate entities are generally taxed in accordance with a mark-to-market principle (in Danish "*lagerprincippet*"), i.e. on an unrealised basis. Gains and losses on Securities held by individuals are generally taxed on a realised basis and if the annual gains or losses do not exceed DKK 2,000, the gains or losses will be exempt from taxation. The net gains on Securities held by individuals are generally taxed as capital income at a rate of up to 42 per cent in 2022.

A variety of features regarding interest and principal may apply to the Securities. The applicable taxation of capital gains to corporate entities or individuals will depend on the features applicable to the Securities in question.

Structured securities can be designed in many ways and with many different underlying assets or in a way that the yield will depend on various index or currency flows. When structured securities are issued the following tax rules generally apply to the Securities.

Gains and losses on structured securities are generally treated as gains and losses on financial instruments in accordance with section 29(3) of the Act. However, there are exceptions – for example, securities which are adjusted in relation to developments in the consumer prices index (as computed by Statistics Denmark (in Danish "*Danmarks Statistik*")), the net consumer-price index or a similar index within the European Union or any of its member states.

The gains and losses on structured securities are calculated irrespective of the rules applying to the underlying asset.

Gains and losses on structured securities issued to both corporate entities and individuals are predominantly treated as taxable income in accordance with a mark-to-market principle (in Danish "*lagerprincippet*"), i.e. on an unrealised basis.

Corporate entities are generally able to deduct losses on structured securities, but individuals may only deduct losses on structured securities against gains on other financial instruments. However, in both cases, certain restrictions or exceptions apply.

Pension funds and other entities governed by the Danish Act on Taxation of Pension Yield (in Danish "*Pensionsafkastbeskatningsloven*") of 6 March 2020 (as amended) would, irrespective of realisation, be taxed on annual value increase or decrease of the Securities according to a mark-to-market principle (in

Danish "*lagerprincippet*") as specifically laid down in the act. The yield is taxed at a flat rate of 15.3 per cent.

Non-Resident Securityholders

Under existing Danish tax laws, payments of interest or principal amounts to any non-resident Securityholders are not subject to taxation in Denmark, other than in certain cases on payments in respect of controlled debt in relation to the Issuer as referred to under "*Taxation at source*" above. Thus, no Danish withholding tax will be payable with respect to such payments and any capital gain realised upon the sale, exchange or retirement of a Security will not be subject to taxation in Denmark, other than in certain cases on payments in respect of controlled debt in relation to the Issuer as referred to under "*Taxation at source*" above.

This tax treatment applies solely to Securityholders who are not subject to full tax liability in Denmark, nor are included in a Danish joint taxation scheme and do not carry on business in Denmark through a permanent establishment.

FINNISH TAXATION

The following is a general description of certain tax considerations relating to Securities. The following description relates only to payments by the relevant Issuer or Guarantor to beneficial owners of the Securities and may not apply to certain classes of investors, such as tax exempt entities, entities deemed as controlled foreign companies, individuals holding their Securities as business assets and general or limited partnerships. It does not purport to be a complete analysis of all tax considerations relating to the Securities, whether in Finland or elsewhere. Prospective purchasers of Securities should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of Securities and receiving payments of interest, principal and/or other amounts under the Securities and the consequences of such actions under the tax laws of those countries. This description is based upon the law as in effect and applied on the date of this Base Prospectus, as well as on the current tax practice, and is subject to any changes in laws and their interpretation that may take effect after such date, including changes with retroactive effect.

For the purpose of the Finnish tax consequences described herein, it is assumed that the relevant Issuer or Guarantor is neither a resident nor deemed to be a resident of Finland for Finnish tax purposes and that the relevant Issuer or Guarantor is not deemed to have a permanent establishment in Finland for Finnish tax purposes.

General

The scope of taxation in Finland is defined by the tax liability position of a taxpayer. Finnish residents for taxation purposes are subject to taxation in Finland on their worldwide income. Persons that are not resident in Finland for taxation purposes and are not deemed to have a permanent establishment in Finland for Finnish tax purposes are subject to taxation in Finland solely in respect of their Finnish source income.

Generally, an individual is deemed to be a Finnish resident for taxation purposes if the individual continuously stays in Finland for more than six consecutive months or if the permanent home and abode of the individual is in Finland. A citizen of Finland who has moved abroad is regarded as resident for Finnish taxation purposes until three years have passed after the end of the year of emigration, even if the individual would not stay in Finland for six consecutive months and the permanent home and abode would not be located in Finland, if the individual cannot prove that he/she has not had any essential ties to Finland in the tax year in question.

Legal entities established under the laws of Finland are regarded as residents of Finland in accordance with domestic tax law. In addition, as of 2021, foreign entities with their place of effective management in Finland can be deemed as Finnish tax resident corporations.

Double tax treaties may restrict the authority of Finland to tax the foreign source income of an individual or entity deemed as resident of Finland pursuant to Finnish domestic tax law.

In the hands of individuals, earned income is taxed at progressive tax rates, while capital income up to EUR 30,000 per calendar year is taxed at a rate of 30 per cent and capital income exceeding EUR 30,000 per calendar year at a rate of 34 per cent. Corporate entities regarded as residents of Finland are subject to corporate income tax on their worldwide income. The current corporate income tax rate is 20 per cent.

This summary describes the Finnish taxation of certain types of income and is general by nature. The tax treatment applicable to an investor depends on the individual circumstances of such investor. Thus, prospective investors are advised to consult their own tax advisers concerning the overall tax consequences of their ownership of the Securities.

Taxation of Finnish Resident Individuals

Taxation of Capital Gains

Any income from the sale or other disposal of securities that is considered capital gains in the Finnish taxation as well as payment of accrued interest (Fi. *jälkimarkkinahyvitys*) is taxed as capital income in accordance with the Finnish Income Tax Act (Fi. *Tuloverolaki (1535/1992)*), as amended. The capital income tax rate is currently 30 per cent for capital income of up to EUR 30,000 per calendar year and 34 per cent for capital income exceeding EUR 30,000 per calendar year. However, capital gains are exempted from tax if the total amount of the consideration from the disposal of the person's disposed assets does not exceed EUR 1,000 in a tax year. Correspondingly, any loss arising from the sale or other disposal of securities that does not belong to the business activities of the individual is deductible from capital gains and generally also from other capital income arising in the same year or during the subsequent five years.

Capital losses due to disposal will not, however, be tax deductible if the total amount of the acquisition costs of the assets sold by the individual does not exceed EUR 1,000 in a tax year.

Capital gains and losses are calculated as the difference between the consideration from the disposal and the aggregate of the actual acquisition cost and sales-related expenses. Generally, individuals may alternatively choose to apply the presumptive acquisition cost instead of the actual acquisition cost for the assets. The presumptive acquisition cost of 20 per cent is deducted from the consideration from the disposal but, if the shareholder has held the assets for at least 10 years, the presumptive acquisition cost is 40 per cent of the consideration from the disposal. If the presumptive acquisition cost is applied instead of the actual acquisition cost, all expenses arising from acquiring the gains are deemed to be included in the presumptive acquisition cost and, therefore, cannot be deducted separately from the consideration from the disposal.

According to a ruling by the Finnish Supreme Administrative Court, the income from the sale or exercise of non-listed cash settled warrants that are transferable securities and that, even if non-listed, have such qualities that they could be listed, is subject to taxation in Finland as a capital gain. The same tax treatment should apply to listed warrants. It would, furthermore, seem that the income from the sale or exercise of non-listed cash settled warrants that do not fulfil the criteria discussed in the above Supreme Administrative Court ruling, would be taxable as other capital income of the Finnish resident individual investor, and not as a capital gain.

According to the above mentioned ruling, losses arising from the sale or exercise of non-listed cash settled warrants, in cases where the warrants do not qualify for capital gains taxation as discussed above, are non-deductible altogether in the taxation of a Finnish resident individual investor.

The principles of the above discussed ruling should as a starting point apply also with respect to Certificates.

Taxation of Other Capital Income and Withholding Obligations

Other capital income than income classified as capital gains (e.g. interest income, so called secondary market compensation and index compensation) paid to individuals and estates of a deceased person is subject to Finnish capital income tax in accordance with the Income Tax Act. The capital income tax rate is currently 30 per cent and 34 per cent of the capital income exceeding EUR 30,000 per calendar year (including also capital gains).

Assuming that the Issuer (or the Guarantor, as the case may be) is not a Finnish resident for tax purposes and is not deemed to have a permanent establishment in Finland for Finnish tax purposes, it is not under the obligation to perform withholding for any income tax payable in Finland in respect of payments made under the issued securities. Instead, a paying agent or intermediary resident in Finland for tax purposes, when effecting a payment to an individual or estate of a deceased person resident in Finland, is generally under the obligation to withhold the income tax prepayment from any interest and secondary market compensation (but not from capital gains) paid to individuals and estates of a deceased person resident in Finland for tax purposes, where such payment is made through such paying agent or intermediary. However, if the paying agent or intermediary is considered as a substitute payer of the Issuer for Finnish tax purposes, such agent or intermediary is also obliged to withhold the tax prepayment for other capital income payments than interest payments or secondary market compensation. The current rate of tax prepayment is 30 per cent and the withholding shall be made in accordance with the Prepayment Act (Fi. *Ennakkoperintälaki (1118/1996)*), as amended. The Act on Source Tax on Interest Income (Fi. *Laki korkotulon lähdeverosta (1341/1990)*), as amended, is not applicable provided the Issuer does not have a branch in Finland.

Taxation of Finnish Corporate Entities

The following applies to Finnish corporate entities taxed in accordance with the Business Income Tax Act (Fi. *Laki elinkeinotulon verottamisesta (360/1968)*), as amended. As of tax year 2020, most Finnish corporate entities are taxed exclusively in accordance with the Business Income Tax Act.

Finnish corporations are subject to a national corporate income tax on their worldwide income. Corporate income is taxed according to a fixed tax rate which currently is 20 per cent. No tax prepayment is withheld from principal or interest payments made to corporate entities residing in Finland.

The capital gain (as well as the capital loss) is calculated by deducting the total sum of the actual acquisition cost and selling cost from the consideration from the disposal. Confirmed losses can generally be carried forward and deducted from the taxable income for 10 years following the loss-making year, provided that no change in ownership triggering forfeiture of tax loss carry-forwards occur. Specific limitations apply to

the deductibility of any capital losses incurred under the Income Tax Act prior to tax year 2020, as well as capital losses incurred from the transfer of assets belonging to the "other assets" asset class under the Business Income Tax Act, introduced as of tax year 2020.

Taxation of Non-Finnish Residents

Non-Finnish tax residents who do not conduct business through a permanent establishment in Finland, should not be subject to Finnish taxation either on principal or interest payments under securities or gains realized on the redemption, sale or other disposal of securities. If payment is made by a Finnish paying agent or intermediary, the recipient may be obliged to disclose their non-resident investor status to the payer.

No gross-up for Finnish withholding tax

Purchasers of the Securities should note that in accordance with the terms and conditions of the Securities the Issuer, in principle, will neither assume any liability for Finnish withholding taxes withheld from payments under the Securities, nor make any additional payments in regard of these taxes, i.e. no gross-up will apply in case a withholding tax is imposed.

Reporting and Compliance

A Finnish paying agent or intermediary is generally obliged to report to the Finnish Tax Administration any interest payments and comparable yield payments, secondary market compensations and index compensations paid to and received under securities by a Finnish tax resident individual or an estate of a deceased resident individual, or a non-resident recipient of such payment under securities, and any preliminary tax prepayment withheld from such payments. An intermediary as defined in the applicable Finnish tax regulations, also has an obligation to report to the Finnish Tax Administration any transactions in securities brokered or made by it, concerning both resident and non-resident holders of the securities. A Finnish tax resident custodian, and the Finnish branch of a non-resident custodian, furthermore has an obligation to report to the Finnish Tax Administration the information necessary for the calculation of capital gains received by resident and non-resident holders of securities, to the extent the custodian has such information. Resident individuals and estates of a deceased person are required to review the tax information contained in their pre-completed annual tax return and, if necessary, correct or complete the information in the tax return.

Transfer Taxation and Value Added Taxation

Redemption by way of a cash settlement or a transfer of the Securities is not subject to Finnish transfer taxation or VAT. Investors should note that Finnish transfer tax considerations may arise in connection with securities that are settled or redeemed by way of a physical delivery of Finnish shares or other instruments deemed as securities or real estate under the Finnish Transfer Tax Act (Fi. *Varainsiirtoverolaki (931/1996)*), as amended and that Finnish VAT considerations may arise in connection with securities that are settled or redeemed by way of a physical delivery of commodities.

FRENCH TAXATION

The following is limited to a general description of certain French withholding tax considerations relating to the Securities. It does not purport to be a description of general French tax considerations relating to the Securities. Prospective investors are advised to consult their own professional advisors to obtain information about the tax consequences of transactions involving the Securities, including any purchase or disposal of, or other dealings in, the Securities. Only personal advisors are in a position to adequately take into account special tax aspects of the particular Securities in question as well as the investor's personal circumstances and any special tax treatment applicable to the investor. This summary is based on French law as in force when drawing up this Base Prospectus. The laws and their interpretation by the tax authorities may change and such changes may have retroactive effect.

Withholding tax

Payments of interest and principal by the Issuer (acting out of its head offices or one of its non-French branch) under the Securities will not be subject to withholding tax in France, in accordance with the applicable French law.

Individual resident Securityholders

Taxation of interest and bond redemption premium ("Prime de remboursement")

Interest paid to an individual having its tax residence in France is subject to personal income tax at a flat tax rate of 12.8 per cent. or, upon global election of the taxpayer for all its savings income and capital gains, at the standard progressive rate, whose maximum applicable rate is currently 45 per cent..

Interest and other similar revenues received by French tax resident individuals are subject to a 12.8 per cent. non-definitive prepayment, which can be offset from their personal income tax liability in respect of the year in which the payment has been made (prepayment is refunded if in excess of the final personal income tax liability).

Taxpayers whose "reference income" of the penultimate year is less than EUR 25,000 (or EUR 50,000 for a couple taxed on a joint basis) may be exempt from this mandatory payment.

Social contributions (CSG of 9.2 per cent., the CRDS of 0.5 per cent., and the *prélèvement de solidarité* of 7.5 per cent.) are also levied by way of withholding tax at an aggregate rate of 17.2 per cent. (6.8 per cent. being deductible from the taxable income of the year of payment of these contributions where the taxpayer has elected to have its savings income and capital gains being subject to taxation at the standard progressive rate) on interest and other similar revenues paid to French tax resident individuals.

The social contributions and the income tax prepayment must be withheld and reported by the Paying Agent if such agent is established in France. If the Paying Agent is established outside of France, the taxpayer is responsible for paying the social contributions and the income tax prepayment directly to the French tax authorities no later than the 15th day of the month following the payment of interest and other similar revenues. If the Paying Agent is established in an EU or EEA member state, it can however be appointed by the taxpayer to do so.

Bond redemption premiums are treated as interest from a French tax perspective.

Taxation of capital gains

Capital gains derived from the disposal of Securities by French tax resident Securityholders should be subject to personal income tax at flat tax rate of 12.8 per cent. or, upon global election of the taxpayer for all its savings income and capital gains, at the standard progressive rate, whose maximum applicable rate is currently 45 per cent..

In addition, social contributions (as set out above) should be applicable, at a total rate of 17.2 per cent..

If the French tax resident Securityholder dispose of the Securities at a loss, such loss may be offset against capital gains of the same nature made during the year of the loss or the 10 following years, subject to filing obligations.

Exceptional contribution on high income (Contribution exceptionnelle sur les hauts revenus)

An exceptional contribution on high income may be applicable to French tax resident Securityholders where their "reference income" exceeds EUR 250,000 for a single person or EUR 500,000 for a couple taxed on a joint basis. The "reference income" for the relevant fiscal year would include income and gains realised in relation to the Securities.

This contribution is equal to 3 per cent. of the fraction of the "reference income" between EUR 250,000 and EUR 500,000 for a single person (or between EUR 500,000 and EUR 1 million for a couple) and 4 per cent. on the "reference income" over EUR 500,000 for a single person (or EUR 1 million for a couple).

Gift and inheritance taxes

Subject to the provisions of any applicable bilateral tax treaty, French gift or inheritance taxes would be levied on the transfer of the Securities by way of gift by, or on the death of, a French tax resident Securityholder, if:

- the Securityholder is a resident in France; or
- the beneficiary is resident in France at the time of the transfer and has been so resident for at least six years over the 10 preceding years; or
- if both the Securityholder and the beneficiary are non-French residents, the transferred assets are located in France.

Assets considered as located in France would include receivables over a debtor which is established in France.

The amount of tax depends, in particular, on the relationships between the individuals concerned.

Corporate resident Securityholders

Corporate income tax and additional contributions

Income or capital gains in relation to the Securities are subject to corporate income tax at the standard rate of 25 per cent. for fiscal years beginning as from 1 January 2022 (or to a reduced rate applicable to small and medium companies meeting certain requirements).

Moreover, large companies whose corporate income tax liability exceeds €763,000, are subject to a social surcharge of 3.3 per cent. levied on the part of the corporate tax which exceeds €763,000. Thus, the resulting effective rate on that part is 25.83 per cent.. Losses are generally treated as ordinary losses which may be set off against operational profits. The remaining losses may be carried forward indefinitely but limited, for a given year, to EUR 1 million plus 50 per cent. of the taxable profit exceeding this amount. Besides, an option can be made by the Securityholder in order to carry back the losses against its prior taxable result but limited to the lowest amount between the taxable profit of the previous year and EUR 1 million.

Interest payments taxed on an accruals basis

Any redemption premium would be taxed at the above-mentioned standard corporate income tax rate (or to a reduced rate applicable to small and medium companies meeting certain requirements). However, if the estimated value of the redemption premium exceeds the purchase value of the Securities by 10 per cent. and the average issue price of the Securities is less than 90 per cent. of the estimated redemption value, such premium is spread taxed until the maturity on an annual basis.

Capital gains derived from the disposal of the Securities by corporate resident Securityholders should be reduced by the amount of the fraction of interest and redemption premiums taxed under the actuarial method.

Non-resident Securityholders

Income and capital gains derived from the Securities, received by individuals who are not residents for tax purposes in France or corporate investors who have neither their corporate seat nor their effective place of management in France, are not taxable in France unless the Securities form part of the business property of a permanent establishment in France.

Financial Transaction Tax ("FTT")

Please note that the following may be relevant in connection with Securities which are settled, redeemed or otherwise repaid by way of physical delivery of certain French listed shares, or certain assimilated securities as convertible bonds.

Pursuant to article 235 ter ZD of the French tax code ("FTC"), the FTT applies to any acquisition for consideration, resulting in a transfer of ownership, of an equity security within the meaning of Article L.212-1 A of the French monetary code, or of an assimilated equity security (such as convertible bonds in equity, convertible bonds redeemable in equity, shares subscription, etc.), within the meaning of Article L.211-41 of the French monetary code, admitted to trading on a recognised regulated French or foreign

stock exchange when the said security is issued by a company whose registered office is situated in France and whose market capitalisation exceeds €1 billion on 1st December of the year preceding the year in which the acquisition occurs.

The rate of the FTT is 0.3 per cent. of the acquisition value of the securities.

There are a number of exemptions from the FTT and investors shall revert to their counsel to identify whether they can benefit from them.

Transfer Tax

No transfer tax (stamp duties, or any similar taxes) is applicable in France by reason of the subscription or transfer of the Securities.

With respect to listed shares, the French tax administrative doctrine has specified that the conversion of bonds into existing shares shall be subject to the 0.1 per cent. transfer tax under the conditions provided by Article 726 of the FTC, when evidenced by a deed (BOI-ENR-DMTOM-40-10-10 dated 12 September 2012, n°50).

According to Article 726 of the FTC, transfer tax generally applies at a rate of 0.1 per cent. to the sale of shares issued by a company whose registered office is located in France, provided that in case of shares listed on a recognised stock exchange, transfer tax is due only if the transfer is evidenced by a written deed or agreement, subject to certain exceptions and exemptions.

Please note that, if the FTT applies to an acquisition of shares or convertible bonds, this transaction is exempt from transfer tax.

GERMAN TAXATION

The following is a general discussion of certain German tax consequences of the acquisition, ownership and disposal of the Securities. As each Tranche of the Securities may be subject to a different tax treatment due to the specific terms of each Tranche, the following section shall only be regarded as generic description with regard to the possible tax treatment in Germany. It does not purport to be a comprehensive description of all tax considerations that may be relevant to a decision to purchase the Securities, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. This general description is based on the laws of Germany currently in force and as applied on the date of this Base Prospectus, which are subject to change, possibly with retroactive or retrospective effect.

Prospective purchasers of Securities are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposition of Securities, including the effect of any state or local taxes, under the tax laws of Germany and each country of which they are residents.

German tax residents

Persons (individuals and corporate entities) who are tax resident in Germany (in particular, persons having a residence, habitual abode, seat or place of management in Germany) are subject to income taxation (income tax or corporate income tax, as the case may be, plus solidarity surcharge thereon plus church tax and/or trade tax, if applicable) on their worldwide income, regardless of its source, including interest from debt of any kind (such as the Securities) and, in general, capital gains.

Securities held as private assets

In the case of German tax-resident individual investors (*unbeschränkt Steuerpflichtige*) holding the Securities as private assets (*Privatvermögen*), the following applies:

Income

The Securities should qualify as other capital receivables (*sonstige Kapitalforderungen*) in terms of section 20 para 1 no 7 German Income Tax Act ("**ITA**" – *Einkommensteuergesetz*).

Interest paid regarding the Securities, if any, should qualify as taxable savings income (*Einkünfte aus Kapitalvermögen*) pursuant to section 20 para 1 no 7 ITA.

Capital gains/capital losses realised upon disposal of the Securities, computed as the difference between acquisition cost and sales proceeds reduced by expenses directly and factually related to the sale, should qualify as positive or negative savings income in terms of section 20 para 2 sentence 1 no 7 ITA. Where the Securities are acquired and/or sold in a currency other than Euro, the acquisition cost will be converted into Euro at the time of acquisition, the sales proceeds will be converted into Euro at the time of sale and the difference will then be computed in Euro. If the Securities are assigned, redeemed, repaid or contributed into a corporation by way of a hidden contribution (*verdeckte Einlage in eine Kapitalgesellschaft*) rather than sold, as a rule, such transaction is treated like a sale.

Capital losses from the sale or redemption of the Securities held as private assets should generally be tax-recognised irrespective of the holding period of the Securities. Any tax-recognised capital losses may not be used to offset other income like employment or business income but may only be offset against investment income subject to certain limitations. Capital losses not utilised in one annual assessment period may be carried forward into subsequent assessment periods but may not be carried back into preceding assessment periods. The offsetting of losses incurred by an individual investor, if the Securities are held as private assets, is however subject to several restrictions.

Capital losses of individual investors resulting from a bad debt loss (*Forderungsausfall*), a waiver of a receivable (*Forderungsverzicht*), if the Securities expire worthless or from a transfer of worthless Securities can only be set-off against investment income up to an amount of EUR 20,000 per annum. Losses exceeding that threshold can be carried forward and set-off against income derived from capital investments up to an amount of EUR 20,000 per year in subsequent years, subject to certain requirements. Based on a recently updated tax decree issued by the German Federal Ministry of Finance, losses which fall within the scope of the loss offset limitation will in principle not be recognised for withholding tax purposes but need to be claimed by tax assessment (see below).

Provided that Securities qualify as contracts for differences (*Termingeschäfte*), which could be the case in case of certificates, disposal proceeds and other benefits from such Securities qualify as (negative) savings income pursuant to section 20 para 2 sentence 1 no 3 ITA. In such a case, capital losses of private investors can be set-off against investment income from other contracts for differences (*Termingeschäfte*) within the

meaning of section 20 para 2 sentence 1 no 3 ITA and income from option premiums (*Stillhalterprämien*) within the meaning of section 20 para 2 sentence 1 no 11 ITA up to an amount of EUR 20,000 p.a. Losses exceeding this threshold can be carried forward, subject to certain requirements. Based on a recently updated tax decree issued by the German Federal Ministry of Finance losses which fall within the scope of the loss offset limitation pursuant to section 20 para 6 sentence 5 ITA will in principle not be recognised for withholding tax purposes but need to be claimed by way of tax assessment.

If the Securities provide for a physical delivery of bonds, shares, interests in funds, shares in exchange-traded-funds ("**ETF-shares**") or other interests, the Securities may qualify as convertible, exchangeable or similar instruments, subject to the relevant Issue Terms (e. g. whether the Issuers or the investor has the right to opt for a physical delivery). In such a case, the sales proceeds from the Securities and the acquisition costs of the received securities may be deemed to be equal to the initial acquisition costs of the Securities (section 20 para 4a sentence 3 ITA) so that no taxable capital gains would be realised due to the conversion. However, capital gains realised upon an on-sale of the received securities generally qualify as taxable income.

If the relevant Issuer exercises the right to substitute the debtor of the Securities, the substitution might, for German tax purposes, be treated as an exchange of the Securities for new securities issued by the new debtor. Such a substitution could result in the recognition of a taxable gain or loss for the respective investors.

German withholding tax (*Kapitalertragsteuer*)

With regard to savings earnings (*Kapitalerträge*), e.g. interest or capital gains, German income tax is generally levied as a flat income tax (*Abgeltungsteuer*) at a rate of 25% (plus solidarity surcharge in an amount of 5.5% of such tax, resulting in a total tax charge of 26.375% plus, if applicable, church tax (*Kirchensteuer*)).

If the Securities are held in a custodial account which the investor maintains with a German branch of a German or non-German credit or financial services institution (*Kredit- oder Finanzdienstleistungsinstitut*) or with a German domestic securities institution (*inländisches Wertpapierinstitut*) (a "**German Disbursing Agent**") the flat income tax (including solidarity surcharge and, if applicable, church tax) will be levied by way of withholding at the aforementioned rate by the German Disbursing Agent. If no German Disbursing Agent is involved in the payment process or if no or not sufficient withholding tax is withheld by a German Disbursing Agent the investor will have to include the savings earnings, e.g. interest or capital gains, in its tax return and the flat income tax of 25% plus solidarity surcharge and, if applicable, church tax will be collected by way of assessment.

The tax base is, in principle, equal to the taxable gross income as set out above (i.e. prior to withholding). However, in the case of capital gains, if the custodial account has changed since the time of acquisition of the Securities (e.g. if the Securities are transferred from an EU custodial account) and the acquisition costs of the Securities are not proven to the German Disbursing Agent in the form required by law or in the case of over-the-counter transactions, withholding tax is applied to 30% of the proceeds from the redemption or sale of the Securities. The applicable withholding tax rate is in excess of the aforementioned rate if church tax is applicable to the individual investor. In this case the collection of church tax on capital gains from the sale or redemption of the Securities is provided for as a standard procedure unless the securityholder has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*).

No German withholding tax will be levied if the investor has filed a withholding tax exemption certificate (*Freistellungsauftrag*) with the German Disbursing Agent, but only to the extent the savings income does not exceed the saver's lump sum amount (*Sparer-Pauschbetrag*) shown on the withholding tax exemption certificate. Currently, the saver's lump sum amount is EUR 801 (EUR 1,602 in the case of jointly assessed individual investors). Similarly, no withholding tax will be levied if the relevant investor has submitted a certificate of non-assessment (*Nichtveranlagungs-Bescheinigung*) issued by the relevant local tax office to the German Disbursing Agent.

The Issuers are, in general, not obliged to levy German withholding tax in respect of payments on the Securities.

According to the law for the reduction of the solidarity surcharge dated 10 December 2019 (*Gesetz zur Rückführung des Solidaritätszuschlags 1995*) as of the assessment period 2021 onwards, the solidarity surcharge will only be levied for wage tax and income tax purposes, if the individual income tax of the

holder exceeds the threshold of EUR 16,956 (EUR 33,912 for jointly assessed investors). The solidarity surcharge will however continue to be applicable for withholding tax, flat tax and corporate income tax purposes. In the case of a flat tax the income tax burden for an individual is lower than the flat tax of 25% and the holder applies for his/her capital investment income being assessed at his/her individual tariff-based income tax rate (see below) the solidarity surcharge would be refunded.

Tax assessment

The taxation of savings income shall take place mainly by way of levying withholding tax (please see above). If and to the extent German withholding tax has been levied, such withholding tax shall, in principle, become definitive and replace the investor's income taxation. If no or insufficient withholding tax has been levied other than by virtue of a withholding tax exemption certificate (*Freistellungsauftrag*) and in certain other cases, the investor is nevertheless obliged to file a tax return, and the savings income will then be taxed within the assessment procedure.

However, also in the assessment procedure, savings income is principally taxed at a separate tax rate for savings income (*gesonderter Steuertarif für Einkünfte aus Kapitalvermögen*) being identical to the withholding tax rate (26.375% - including solidarity surcharge (*Solidaritätszuschlag*) plus, if applicable, church tax). In certain cases, the investor may apply to be assessed on the basis of its personal tax rate if such rate is lower than the above tax rate. Such application can only be filed consistently for all savings income within the assessment period. In case of jointly assessed individual investors the application can only be filed for savings income of both investors.

When computing the savings income, the saver's lump sum amount (*Sparer-Pauschbetrag*) of EUR 801 (EUR 1,602 in the case of jointly assessed individual investors) will be deducted. The deduction of the actual income related expenses, if any, is excluded.

Securities held as business assets

In the case of German tax-resident corporations or individual investors (*unbeschränkt Steuerpflichtige*) holding the Securities as business assets (*Betriebsvermögen*), interest payments and capital gains will be subject to corporate income tax at a rate of 15% or income tax at a rate of up to 45%, as the case may be, (in each case plus 5.5% solidarity surcharge thereon). In addition, trade tax may be levied, the rate of which depends on the municipality where the business is located (rates basically vary between 7 and approx. 18%). Further, in the case of individuals, church tax may be levied. Business expenses that are connected with the Securities are tax-deductible. Losses realised on the sale or redemption of the Securities may be offset in particular against items of positive income under the general tax rules or deducted as part of losses carried back or forward, although the minimum taxation rules (Section 10d (1), (2) EStG) must be observed. Losses may be subject to ring-fencing rules and, if so, may only be offset against other derivative income. In case the income of the investor is determined based on accrual accounting, interest and capital gains may be taxable before actual payments are received.

If instead of a cash-settlement at maturity of the Securities, a physical delivery of bonds, shares, interests in funds or ETF-shares takes place, such delivery would be regarded as a taxable sale of the Securities and the corresponding capital gain will be taxable.

The provisions regarding German withholding tax (*Kapitalertragsteuer*) apply, in principle, as set out above for private investors. However, investors holding the Securities as business assets cannot file a withholding tax exemption certificate with the German Disbursing Agent. Instead, no withholding tax will be levied on capital gains from the redemption, sale or assignment of the Securities if, for example, (a) the Securities are held by a company satisfying the requirements of section 43 para 2 sentence 3 no 1 ITA or (b) the proceeds from the Securities qualify as income of a domestic business and the investor notifies this to the German Disbursing Agent by use of the officially required form.

Any withholding tax levied is credited as prepayment against the German (corporate) income tax amount. If the tax withheld exceeds the respective (corporate) income tax amount, the difference will be refunded within the tax assessment procedure.

Non-residents

Persons who are not tax resident in Germany are not subject to tax with regard to income from the Securities unless (i) the Securities are held as business assets (*Betriebsvermögen*) of a German permanent establishment (including a permanent representative) which is maintained by the investor or (ii) the income from the Securities qualifies for other reasons as taxable German source income (such as income from letting and leasing of certain property located in Germany) or (iii) the income is paid by a German

Disbursing Agent against presentation of the Securities or interest coupons (so-called over-the-counter transaction, *Tafelgeschäfte*). If a non-resident person is subject to tax with its income from the Securities, in principle, similar rules apply as set out above with regard to German tax resident persons (please see above).

Under certain circumstances, non-residents may benefit from tax reductions or tax exemptions under applicable double tax treaties (*Doppelbesteuerungsabkommen*) entered into with Germany.

Taxation if the Securities qualify as equity or equity-like

If the Securities qualify as equity or equity-like from a German tax perspective, in addition to the rules set out above, income and deemed income may be subject to (corporate) income taxation (including solidarity surcharge) and trade tax. Further, under certain circumstances the German Foreign Tax Act might apply, under which deemed (taxable) income could be allocated to German tax resident investors.

Further, capital gains achieved by an investor holding the Securities as private assets might be re-qualified as business income and, thus, taxable at the investor's personal income tax rate. Capital gains might also be partly tax-exempt according to section 8b German Corporate Income Tax Act (*Körperschaftsteuergesetz*) and section 3 no 40 ITA respectively.

Particularities of Securities with a negative yield

Securityholders will only realise a taxable capital gain if they receive, upon a disposal of the Securities, an amount (after the deduction of actual expenses directly related thereto) in excess of the issue price (or the purchase price they paid for the Securities).

Contrary thereto, Holders who subscribe the Securities at a negative yield upon issue, if applicable, and hold the Securities until their final maturity will realise a loss. The tax treatment of such losses is not entirely clear:

- (a) If the Securities are held by tax residents as private assets, statements of the German tax authorities regarding "*negative interest*" incurred on bank deposits made by private investors arguably imply that such losses cannot be fully deducted. Such losses are rather treated as expenses in connection with capital investment income and, are, consequently not tax-deductible except for an annual lump-sum deduction (*Sparer-Pauschbetrag*) of €801 (€1,602 for individuals filing jointly),
- (b) If the Securities are held by tax residents as business assets, statements of the German tax authorities regarding "*negative interest*" incurred on bank deposits made by business investors arguably imply that such losses are generally tax deductible.

Inheritance and Gift Tax

Inheritance or gift taxes with respect to any Security will, in principle, arise under German law if, in the case of inheritance tax, either the decedent or the beneficiary or, in the case of gift tax, either the donor or the donee is a resident of Germany or if such Security is attributable to a German trade or business for which a permanent establishment is maintained or a permanent representative has been appointed. In addition, certain German expatriates will be subject to inheritance and gift tax.

The few existing double taxation treaties regarding inheritance and gift tax may lead to different results. Special rules apply to certain German citizens that are residing in a foreign country and German expatriates.

Other Taxes

No stamp, issue, registration or similar taxes or duties are payable in Germany in connection with the issuance, delivery or execution of the Securities. Currently, net asset tax (*Vermögensteuer*) is not levied in Germany. It is intended to introduce a financial transaction tax. However, it is unclear if and in what form such tax will be actually introduced.

No gross-up for German withholding tax (Kapitalertragsteuer)

Purchasers of the Securities should note that in accordance with the terms and conditions of the Securities the Issuer, in principle, will neither assume any liability for German withholding taxes (*Kapitalertragsteuer*) withheld from payments under the Securities, nor make any additional payments in regard of these taxes, i.e. no gross-up will apply in case a withholding tax is imposed.

IRISH TAXATION

The following is a summary based on the laws and practices currently in force in Ireland of certain matters regarding the tax position of investors who are the absolute beneficial owners of the Program Securities. Particular rules not discussed below may apply to certain classes of taxpayers holding Program Securities, including dealers in securities and trusts. It is based on the laws and practice of the Revenue Commissioners currently in force in Ireland as at the date hereof and may be subject to change. The summary does not constitute tax or legal advice and the comments below are of a general nature only and it does not discuss all aspects of Irish taxation that may be relevant to any particular holder of Program Securities. Prospective investors in the Program Securities should consult their professional advisers on the tax implications of the purchase, holding, redemption or sale of the Program Securities and the receipt of payments thereon under the laws of their country of residence, citizenship or domicile.

Taxation of holders of Program Securities

Withholding Tax

Tax at the standard rate of income tax (currently 20 per cent.) is required to be withheld from payments of Irish source interest. The relevant Issuer will not be obliged to withhold Irish income tax from payments of interest on the Program Securities so long as such payments do not constitute Irish source income. Interest paid on the Program Securities should not be treated as having an Irish source unless:

- (a) the relevant Issuer is resident in Ireland for tax purposes; or
- (b) the relevant Issuer has a branch or permanent establishment in Ireland, the assets or income of which is used to fund the payments on the Program Securities; or
- (c) the relevant Issuer is not resident in Ireland for tax purposes but the register for the Program Securities is maintained in Ireland or (if the Program Securities are in bearer form) the Program Securities are physically held in Ireland.

It is anticipated that (i) the Issuers are not and will not be resident in Ireland for tax purposes; (ii) the Issuers will not have a branch or permanent establishment in Ireland; (iii) bearer Program Securities will not be physically located in Ireland; and (iv) the Issuers will not maintain a register of any registered Program Securities in Ireland.

If payments of interest on the Program Securities are found to constitute Irish source interest, an Issuer will not be obliged to make a withholding or deduction for or on account of Irish income tax from a payment of interest on an Program Securities so long as the interest paid on the relevant Program Security falls within the following category and meets the relevant conditions:

Interest paid on a quoted Eurobond

A quoted Eurobond is a security which is issued by a company (such as the Issuers), is listed on a recognised stock exchange (such as the Luxembourg Stock Exchange) and carries a right to interest. Provided that the Program Securities (i) carry an amount in respect of interest and (ii) are listed on the Luxembourg Stock Exchange (or any other recognised stock exchange), interest paid on them can be paid free of withholding tax provided the person by or through whom the payment is made is not in Ireland, or if such person is in Ireland, either:

- (a) the Program Security is held in a clearing system recognised by the Irish Revenue Commissioners; (DTC, Euroclear and Clearstream, Luxembourg are, amongst others, so recognised); or
- (b) the person who is the beneficial owner of the Program Security and who is beneficially entitled to the interest payable in respect of a Program Security is not resident in Ireland and has made a declaration to a relevant person (such as a paying agent located in Ireland) in the prescribed form.

Thus, if interest payable on the Program Securities is found to have an Irish source, so long as the Program Securities are interest bearing, continue to be quoted on the Luxembourg Stock Exchange (or any other recognised stock exchange) and are held in a recognised clearing system, interest on the Program Securities can be paid by any paying agent acting on behalf of an Issuer without any withholding or deduction for or on account of Irish income tax. If the Program Securities continue to be quoted but cease to be held in a recognised clearing system, interest on the Program Securities may be paid without any withholding or deduction for or on account of Irish income tax provided such payment is made through a paying agent outside Ireland.

Encashment Tax

Irish tax will be required to be withheld at the rate of 25 per cent. on any interest, dividends or annual payments payable out of or in respect of the stocks, funds, shares or securities of a company not resident in Ireland, where such interest, dividends or annual payments are collected or realised by a bank or encashment agent in Ireland.

Encashment tax will not apply where the beneficial owner of a payment on the Program Securities (i) is not resident in Ireland and has made a declaration in the prescribed form to the encashment agent or bank or (ii) is a company which is within the charge to Irish corporation tax in respect of the payment.

Tax on Capital Gains

A holder of Program Securities will not be subject to Irish tax on capital gains realised on a disposal of Program Securities unless (i) such holder is either resident or ordinarily resident in Ireland; or (ii) such holder carries on a business or a trade in Ireland through a branch or agency in respect of which the Program Securities were used or held or acquired; or (iii) the Program Securities cease to be listed on a stock exchange in circumstances where such Program Securities derive their value or more than 50% of their value from Irish real estate, mineral rights or exploration rights.

Stamp Duty On Transfer Of Securities

As the Issuers are not registered in Ireland, stamp duty will not arise on a document effecting a transfer of the Program Securities so long as the instrument of transfer of the Program Securities does not relate to:

- (a) any immovable property situated in Ireland or any right over or interest in such property; or
- (b) any stocks or marketable Program Securities of a company which is registered in Ireland (other than a company which is (i) an investment undertaking within the meaning of section 739B of the Taxes Consolidation Act, 1997 ("TCA"); or (ii) a qualifying company within the meaning of section 110 of the TCA).

ITALIAN TAXATION

The following is a general description of current Italian law and practise mainly relating to the direct taxation of the Securities. The statements herein are based on the laws in force in Italy as at the date of this Base Prospectus and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following general description does not purport to be a comprehensive description of all the Italian tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities) may be subject to special rules.

Prospective investors are advised to consult their own tax advisers concerning the overall tax consequences of their interest in the Securities.

Tax treatment of the Securities

The Securities may be subject to different tax regimes depending on whether:

- (a) they represent derivative financial instruments or bundles of derivative financial instruments, not entailing a "use of capital" (*impiego di capitale*), through which the Securityholders purchase indirectly underlying financial instruments (please see section 1 below); or
- (b) they represent a debt instrument implying a "use of capital" (*impiego di capitale*), through which the Securityholders transfer to the Issuer a certain amount of capital, for the economic exploitation of the same, subject to the right to obtain a (partial or entire) reimbursement of such amount at maturity. In specific, such Securities representing debt instruments implying a "use of capital" could be divided in: Securities having 100 per cent. capital protection guaranteed by the Issuer (please see section 2 below) and Securities not having 100 per cent. capital protection guaranteed by the Issuer (please see section 3 below).

1. Securities representing derivative financial instruments or bundles of derivative financial instruments

With regard to certain innovative or structured financial instruments, there is limited guidance as to the tax treatment of such financial instruments. Accordingly, it cannot be excluded that the Italian tax authorities will change their current view, as specified below, and courts will adopt a view different from that outlined below.

This description assumes that the Issuer is not a tax resident nor deemed to be a tax resident of Italy and that it has no permanent establishment within the Italian territory.

1.1 Italian resident Securityholders

Taxation of income from derivatives

Provided that the Securities qualify as derivative instruments for the purposes of Italian tax law, the following consequences apply to an Italian resident Securityholder pursuant to Article 67(1)(c-quater) and or (c-quinquies) of Italian Presidential Decree No. 917 of 22 December 1986, as subsequently amended ("**Decree No. 917**"), and according to the Italian tax authorities' Resolution no. 72/E of 12 July 2010.

According to Italian Legislative Decree No. 461 of 21 November 1997 ("**Decree No. 461**"), where an Italian resident Securityholder is (i) an individual not engaged in an entrepreneurial activity to which the Securities are connected; (ii) a non-commercial partnership; (iii) a non-commercial private or public institution; or (iv) an investor exempt from Italian corporate income taxation, derivative income realised on the sale or redemption of the Securities are subject to a 26 per cent. substitute tax ("**imposta sostitutiva**").

In this respect, the above Italian resident Securityholders may opt for three different taxation regimes (*regime della dichiarazione, regime del risparmio amministrato, regime del risparmio gestito*, in this respect please see par. 2.2 "*Italian resident Securityholders – Taxation of Capital Gains*" below). This option may result in certain impacts that the investors should consider with their tax advisers. In particular, provided that the relevant conditions are met, the depository is responsible for accounting for *imposta sostitutiva* and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Securityholder or using funds provided by the Securityholder for this purpose. Under certain conditions, capital losses may be deducted from the above-mentioned capital gains.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals holding the Securities not in connection with an entrepreneurial activity or social security

entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including the imposta sostitutiva, on capital gains relating to the Securities, if the Securities are included in a long-term savings account (*piano di risparmio a lungo termine*) that meets the requirements set forth in Article 1(100-114) of Law No. 232 of 11 December 2016, as subsequently amended and supplemented (the "**Finance Act 2017**"), in Article 1 (210-215) of Law No. 145 of 30 December 2018, as subsequently amended and supplemented (the "**Finance Act 2019**"), in Article 13-bis of Law Decree No. 124 of 26 October 2019, converted into Law No. 157 of 19 December 2019, as subsequently amended and supplemented (the "**Fiscal Decree linked to the Finance Act 2020**"), Article 136 of Law Decree No. 34 of 19 May 2020, converted into Law No. 77 of 17 July 2020, as subsequently amended and supplemented (the "**Decree No. 34**"), Article 1 (219-225) of Law No. 178 of 30 December 2020, as subsequently amended and supplemented (the "**Finance Act 2021**"), and Article 1 (26-27) Law No. 234 of 2021, as subsequently amended and supplemented (the "**Finance Act 2022**").

Where an Italian resident Securityholder is a company or similar commercial entity, or the Italian permanent establishment of a foreign commercial entity to which the Securities are effectively connected, capital gains arising from the Securities will not be subject to imposta sostitutiva, but must be included in the relevant Securityholder's income tax return and are therefore subject to Italian corporate income tax ("**IRES**", currently applicable at a rate of 24 per cent. with a 3,5 per cent. surcharge for banks and financial intermediaries) and, in certain cases, depending on the status of such Securityholder, may also have to be included in its taxable base for regional tax purposes ("**IRAP**", currently applicable at the general rate of 3.9 per cent., though a surcharge up to 0.92% may be applicable from region to region). The IRAP rate may be increased in certain Italian regions; IRAP rate has also been increased by article 23(5) of Italian Law Decree no. 98 of 6 July 2011 to 4.65 per cent. for banks and other financial institutions and to 5.9 per cent. for the insurance companies as indicated, respectively, under article 6 and article 7 of Italian Legislative Decree no. 446 of 15 December 1997).

Capital gains realised by a Securityholder which is an open-ended or closed-ended investment fund (subject to the tax regime provided by Law No. 77 of 23 March 1983) (the "**Investment Fund**") or an open-ended investment company (*società di investimento a capitale variabile* – "**SICAV**") or an close-ended investment company, other than a real estate investment company (*società di investimento a capitale fisso* – "**SICAF**") will not be subject to the imposta sostitutiva. The proceeds distributed by the Investment Fund or the SICAV/SICAF or received by certain categories of unitholders upon redemption or disposal of the units will be taxed in the hands of the investors who subscribe the quotas of the Funds or the shares of the SICAV/SICAF on a cash basis.

Capital gains realised by an investor which is an Italian resident real estate investment fund established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-bis of Law No. 86 of 25 January 1994 or an Italian real estate investment company (the "**Real Estate SICAF**") are subject neither to imposta sostitutiva nor to any other income in the hands of the same real estate investment fund or Real Estate SICAF. Such gains will be taxable or exempt according to the regime applicable to the real estate fund.

Capital gains realised by a Securityholder which is an Italian pension fund (subject to the regime provided by article 17 of the Legislative Decree No. 252 of 5 December 2005) will be included in the value of the relevant portfolio accrued at the end of the tax period, to be subject to the 20 per cent. ad hoc substitute tax on the portfolio's annual net accrued value. Subject to certain conditions (including a minimum holding period requirement) and limitations, capital gains may be excluded from the taxable base of the 20 per cent. substitute tax if the Securities are included in a long-term savings account (*piano di risparmio a lungo termine*) that meets the requirements set forth in Article 1 (100-114) of the Finance Act 2017, in Article 1 (210-215) of the Finance Act 2019, in Article 13-bis of the Fiscal Decree linked to the Finance Act 2020, Article 136 of the Decree No. 34, Article 1 (219-225) of the Finance Act 2021 and Article 1 (26-27) of the Finance Act 2022.

2. Securities representing debt instruments implying a "use of capital"; Securities having 100 per cent. capital protection guaranteed by the Issuer

2.1 Italian resident Securityholders

Taxation of interest

Pursuant to Article 44, paragraph 2, letter (c) of Decree No. 917, Securities qualify as "bonds" or "debentures similar to bonds" for Italian tax purposes if they incorporate an unconditional obligation to pay, at maturity, an amount not less than their nominal value and do not give any right to directly or indirectly participate in the management of the relevant issuer or of the business in relation to which they are issued.

The Italian tax authorities have clarified (please see Circular Letter No. 4/E of 18 January 2006) that bonds may have a maturity which is not scheduled at a specific date, but it is linked to the maturity of the issuing company or to the liquidation thereof, if the company has been set-up with an undetermined maturity pursuant to Article 2328 (2), No. 13, of the Italian Civil Code.

Interest and other proceeds on the Securities (including the difference between the redemption amount and the issue price) ("Interest") received by Italian resident companies, commercial partnerships or individual entrepreneurs within the context of a business enterprise are included in the taxable base for the purposes of IRES or individual income tax (*imposta sul reddito delle persone fisiche*, "IRPEF", at progressive rates), as applicable and – under certain circumstances – of IRAP.

Interest on the Securities is subject to a 26 per cent. substitute tax (*imposta sostitutiva*) if the recipient is included among the following categories of Italian residents: individuals, non-commercial partnerships, non-commercial private or public institution or entities that are exempt from IRES. The *imposta sostitutiva* may not be recovered as a deduction from the income tax due. If the Securityholders are individuals or non-profit organisations engaged in an entrepreneurial activity and the Securities are connected to such entrepreneurial activity, the 26 per cent. *imposta sostitutiva* applies on a provisional basis and may be deducted from the payable income tax.

The 26 per cent. *imposta sostitutiva* does not apply where the Securities are held in a discretionary investment portfolio managed by an Italian authorised financial intermediary and the beneficial owner thereof, where possible, has opted to be taxed at a flat rate of 26 per cent. on the year-end increase in value of the investment portfolio accrued, even if not realised (which increase in value includes any Interest accrued on the Securities), pursuant to the so-called portfolio management tax regime ("*regime del risparmio gestito*") provided for by Decree No. 461.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals holding the Securities not in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income tax, including the *imposta sostitutiva*, on interest, premium and other income relating to the Securities if the Securities are included in a long-term individual savings plan (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1 (100-114) of the Finance Act 2017, in Article 1 (210-215) of the Finance Act 2019, in Article 13-bis of the Fiscal Decree linked to the Finance Act 2020, Article 136 of the Decree No. 34, Article 1 (219-225) of the Finance Act 2021 and Article 1 (26-27) of the Finance Act 2022.

Should the Securities be deemed to qualify as units in foreign investment funds, distributions deriving from the Securities should be included in the taxable income of the Italian resident recipient, as income from capital, and are subject to a 26 per cent. withholding tax applied by Italian resident entities, if any, which intervene in the payment of the relevant proceeds as well as in the repurchase or negotiation of Securities.

2.2 Italian resident Securityholders – Taxation of Capital Gains

Any gain obtained from the sale or redemption of the Securities would be treated as part of the taxable income (and, in certain circumstances, depending on the status of the Securityholder, also as part of the net value of the production for IRAP purposes) if realised by an Italian company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the Securities are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the Securities are connected.

A 26 per cent., *imposta sostitutiva* is applicable on capital gains realised on the disposal of Securities by Securityholders included among the following categories of Italian residents: individuals holding the Securities not in connection with an entrepreneurial activity, non-commercial partnerships, non-profit organisations, the Italian State and public entities or entities that are exempt from IRES.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals holding the Securities not in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from Italian capital gain taxes, including the 26 per cent. *imposta sostitutiva*, on capital gains realised upon sale or redemption of the Securities if the Securities are included in a long-term savings account (*piano di risparmio a lungo termine*) that meets the requirements set forth in Article 1 (100-114) of Finance Act 2017, Article 1 (210-215) of the Finance Act 2019, in Article 13-bis of the Fiscal Decree linked to the Finance Act 2020, Article 136 of the Decree No. 34, Article 1 (219-225) of the Finance Act 2021 and Article 1 (26-27) of the Finance Act 2022. In respect of the application of such substitute tax, taxpayers may opt for one of the three regimes described below.

Under the tax declaration regime (*regime della dichiarazione*), which is the default regime for Italian resident individuals not engaged in an entrepreneurial activity to which the Securities are connected, the imposta sostitutiva on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss, realised by the Italian resident individual holding the Securities not in connection with an entrepreneurial activity pursuant to all sales or redemptions of the Securities carried out during any given tax year. Italian resident individuals holding the Securities not in connection with an entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay imposta sostitutiva on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years.

As an alternative to the tax declaration regime, Italian resident individual Securityholders holding the Securities not in connection with an entrepreneurial activity may elect to pay the imposta sostitutiva separately on capital gains realised on each sale or redemption of the Securities (*regime del risparmio amministrato*). Such separate taxation of capital gains is allowed subject to (i) the Securities being deposited with Italian banks, SIMs (*società di intermediazione mobiliare*) or certain authorised financial intermediaries; and (ii) an express election for the regime del risparmio amministrato being timely made in writing by the relevant Securityholder. The depository is responsible for accounting for imposta sostitutiva in respect of capital gains realised on each sale or redemption of the Securities (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Securityholder or using funds provided by the Securityholder for this purpose. Under the regime del risparmio amministrato, where a sale or redemption of the Securities results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the regime del risparmio amministrato, the Securityholder is not required to declare the capital gains in the annual tax return.

Any capital gains realised by Italian resident individuals holding the Securities not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including the Securities, to an authorised intermediary and have opted for the so-called *regime del risparmio gestito* will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26 per cent. substitute tax, to be paid by the managing authorised intermediary. Under the regime del risparmio gestito, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years.

Capital gains accrued on the Securities held by Italian Investment Funds, SICAVs and SICAFs are included in the annual accrued increase of the net asset value of such Investment Funds, SICAVs and SICAFs. A withholding tax of 26 per cent. will be levied on proceeds distributed by the Investment Funds, SICAV or SICAF or received by certain categories of unitholders upon redemption or disposal of the units.

Any capital gains realised through the transfer for consideration or redemption of the Securities by Pension Funds are included in the calculation of the management result of the fund, accrued in each year, subject to a 20 per cent. substitute tax.

Subject to certain conditions (including minimum holding period requirement) and limitations, capital gains realised through the transfer for consideration or redemption of the Securities may be excluded from the taxable base of the Pension Funds if the Securities are included in a long-term individual savings plan (*piano individuale di risparmio a lungo termine*) pursuant to Article 1 (100-114) of the Finance Act 2017, Article 1 (210-215) of the Finance Act 2019, in Article 13-bis of the Fiscal Decree linked to the Finance Act 2020, Article 136 of the Decree No. 34, Article 1 (219-225) of the Finance Act 2021 and Article 1 (26-27) of the Finance Act 2022. Capital gains on the Securities held by Real Estate Funds or Real Estate SICAFs to which the provisions of Decree No. 351, as subsequently amended, apply will be subject neither to substitute tax nor to any other income tax at the level of the Real Estate Fund or the Real Estate SICAF. A withholding tax may apply in certain circumstances at the rate of up to 26 per cent. on distributions made by the Real Estate Funds or Real Estate SICAFs and, in certain cases, a tax transparency regime may apply in respect of certain categories of investors in the Real Estate Funds or Real Estate SICAFs owning more than 5 per cent. of the fund's units.

3. Securities not having 100 per cent. capital protection guaranteed by the Issuer (Atypical Securities)

3.1 Italian resident Securityholders - Taxation of interest

Interest payments relating to Securities that are not deemed to fall within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) may be subject to a withholding tax (final or on account depending on the "status" and tax residence of the Securityholder), levied at the rate of 26 per cent. by the Italian tax resident financial intermediary intervening in the payment of the Interest.

If the Securities are issued by a non-Italian resident Issuer, the 26 per cent. withholding tax mentioned above does not apply to Interest payments made to an Italian resident Securityholder which is (i) a company or similar commercial entity (including the Italian permanent establishment of foreign entities to which the Securities are effectively connected); (ii) a commercial partnership; or (iii) a commercial private or public institution. According to Italian tax law, in similar cases the withholding tax qualifies as a provisional withholding tax.

Subject to certain limitations and requirements (including a minimum holding period), Interest in respect of Securities received by Italian resident individuals holding the Securities not in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from taxation, including the withholding tax on interest, premium and other income relating to atypical securities, if those Securities are included in a long-term individual savings plan (*piano individuale di risparmio a lungo termine*) pursuant to Article 1 (100–114) of the Finance Act 2017, in Article 1 (210-215) of the Finance Act 2019, in Article 13-bis of the Fiscal Decree linked to the Finance Act 2020, Article 136 of the Decree No. 34, Article 1 (219-225) of the Finance Act 2021 and Article 1 (26-27) of the Finance Act 2022.

3.2 Italian resident Securityholders - Capital gains

Please see paragraph 2.2 above.

4. Stamp duty

The Italian Law Decree No. 201 of 6 December 2011 ("**Decree No. 201**"), converted into law with amendments by Law No. 214 of 22 December 2011, has replaced the paragraphs 2-bis and 2-ter and related Securities (3-bis and 3-ter) of Article 13 of the first part of the Tariff annexed to stamp duty Law approved with Presidential Decree No. 642 of 26 October 1972.

Pursuant to Decree No. 201, statements sent to customers and related to all the financial products and instruments, including those not deposited, are subject to stamp duty at the rate of 0.20 per cent. The maximum amount due is set at euro 14,000 for Securityholders other than individuals.

The tax is applied to each statement, on the total market value, or in its absence, on the face or repayment value of securities and financial products. The statement is considered to be sent at least once a year, even for instruments for which is not mandatory nor the deposit nor the release or the drafting of the statement. In case of reporting periods of less than 12 months, the stamp duty is payable pro rata. Based on the wording of the law and the implementing decree issued by the Italian Ministry of Finance on 24 May 2012, the stamp duty applies to any investor who is a client (as defined in the regulations issued by the Bank of Italy on 20 June 2012 as amended and supplemented from time to time) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory.

5. Wealth tax on securities deposited abroad (IVAFE)

Pursuant to Article 19, paragraphs 18 to 23, of Decree No. 201, Italian resident individuals, non-profit entities and certain partnerships including *società semplici* or similar partnerships in accordance with Article 5 of Decree No. 917 holding the Securities outside the Italian territory are required to pay a wealth tax at a rate of 0.20 per cent.

The tax is calculated on the fair market value of the Securities at the end of the relevant year or, in the case the fair market value cannot be determined, on their nominal values or redemption values or, in the case the face or redemption values cannot be determined, on the purchase value of any financial asset (including banking bonds, obbligazioni and capital adequacy financial instruments) held abroad by Italian resident individuals. A tax credit is granted for any foreign property tax levied abroad on such financial assets.

6. Inheritance and Gift Tax

Pursuant to Italian Law Decree No. 262 of 3 October 2006, as converted with amendments by Law No. 286 of 24 November 2006, inheritance and gift taxes have been re-introduced in Italy, with effect as of 3 October 2006.

Inheritance and gift taxes apply according to the following rates and exclusions:

- (a) if assets (including money) pass to a spouse, as well as to any linear descendent, tax is levied at a rate of 4 per cent. The tax applies to the value of the assets (net of liabilities) left to each heir/beneficiary which exceeded euro 1,000,000;
- (b) assets (including money) pass to a relative within the fourth degree or to a linear relative-in-law, as well as to a collateral relative within the third degree, tax is levied at a rate of 6 per cent. The tax applies to the value of the assets (net of liabilities) exceeding euro 100,000 if assets are left to a brother or sister; and
- (c) 8 per cent. in all other cases.

If the transfer is made in favour of persons affected by a handicap deemed as "critical" pursuant to Law No. 104 of 5 February 1992, inheritance and gift taxes apply only on the value exceeding euro 1,500,000.

Under Article 1 (114) of the Finance Act 2017, as subsequently amended and supplemented, the mortis causa transfer of financial instruments included in a long-term savings account (piano individuale di risparmio a lungo termine) that meets the requirements set forth in Article 1(100-114) of the Finance Act 2017, Article 1 (211-215) of the Finance Act 2019 or Article 13- bis of the Fiscal Decree linked to Finance Act 2020, Article 136 of the Decree No. 34, Article 1 (219-225) of the Finance Act 2021 and Article 1 (26-27) of the Finance Act 2022 are exempt from inheritance and gift taxes.

7. Tax monitoring obligations

Pursuant to Italian Law Decree No. 167 of 28 June 1990, as amended by Law No. 97 of 6 August 2013 and by Law No. 50 of 28 March 2014, individuals, non-profit entities and certain partnerships (in particular, società semplici or similar partnerships in accordance with Article 5 of Decree No. 917) resident in Italy are required to report in their yearly income tax declaration, for tax monitoring purposes, the amount of Securities held abroad during each tax year.

The requirement applies also where the persons above, being not the direct holder of the financial instruments, are the beneficial owner of the instrument for anti-money laundering purposes. The above reporting is not required to be complied with respect to Securities deposited for management with qualified Italian intermediaries and with respect to contracts entered into through their intervention, provided that the financial flows and income derived from the Securities are subject to tax by the same intermediaries.

8. Financial Transaction Tax

Pursuant to Article 1 (491 and ff.) of Law No. 228 of 24 December 2012, an Italian financial transaction tax ("**FTT**") applies to (i) transfers of property rights in shares and other participating securities issued by Italian resident companies (together, the "**Relevant Participating Instruments**"); (ii) transfers of property rights in financial instruments representing any such Relevant Participating Instruments, whether or not such financial instruments are issued by Italian resident issuers (such financial instruments, together the Relevant Participating Instruments, the "**Relevant Instruments**"); and (iii) derivative transactions referencing Relevant Instruments (i.e. derivative transactions or derivative financial instruments and certain equity-linked securities having an underlying mainly represented by one or more of Relevant Instruments or whose value is mainly linked to the Relevant Instruments) including securitised derivatives referencing Relevant Instruments (for example warrants, covered warrants and certificates).

With respect to derivative transactions referencing Relevant Instruments including securitised derivatives the FTT applies regardless of the tax residence of both the counterparties of the transactions and/or where the transaction is executed. The FTT is levied at a fixed amount of between Euro 0.01875 and Euro 200 per transaction, which varies depending on the features and notional value of the securitised derivatives. Where a securitised derivative settled by physical settlement, the FTT is also due upon the transfer of the ownership rights in the underlying Relevant Instruments. A reduced FTT (one fifth of the standard rate) is payable in respect of transactions executed on certain qualifying regulated markets or multilateral trading facilities.

The FTT due in respect of derivative transactions referencing Relevant Instruments including securitised derivatives is payable by both counterparties to a transaction. However, the FTT does not apply where one of the parties to the transaction is the European Union, the ECB (European Central Bank), central banks of the EU Member States, foreign Central Banks or entities which manage the official reserves of a foreign

State, or international bodies or entities set up in accordance with international agreements which have entered into force in Italy. Further specific exemptions exist including, *inter alia*, for (i) subjects who carry on market making activities; (ii) mandatory social security entities and pension funds set up according to Legislative Decree No. 252 of 5 December 2005; and (iii) entities merely interposed in the execution of a transaction.

The FTT is levied by the banks and other financial intermediaries (*società fiduciarie e imprese di investimento abilitate all'esercizio professionale nei confronti del pubblico dei servizi e delle attività di investimento*) ("**Intermediaries**") that are involved, in any way, in the execution of the transaction and subsequently paid to the Italian Revenue. If more than one Intermediary is involved in the execution of the transaction, the FTT is levied by the Intermediary who receives the order of execution by the purchaser of the Relevant Instruments or, in the case of a derivative transaction or securitised derivative referencing a Relevant Instrument, by the counterparty to or purchaser of such derivative. Intermediaries not resident in Italy can appoint an Italian representative for the purposes of the FTT. If no Intermediaries are involved in the execution of the transaction, the relevant FTT must be paid by each relevant party to the transaction themselves.

9. EU Directive on Administrative Cooperation in the field of Taxation

On 9 July 2015, the Italian Parliament adopted Law No. 114 delegating the Italian Government to implement in Italy certain EU Council Directives, including Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU). Such Directive is aimed at broadening the scope of the operational mechanism of intra-EU automatic exchange of information in order to fight cross-border tax fraud and evasion. The Italian government implemented the above-mentioned Council Directive 2014/107/EU in the Ministerial Decree issued by the Ministry of Finance on 28 December 2015, as amended by the Ministerial Decree of 17 January 2017. Following the Ministerial Decree quoted, the Italian tax authorities may communicate to other EU Member States information about interest and other categories of financial income of Italian source, including income from the Securities.

Furthermore, the Italian Government implemented the later changes to the Council Directive 2011/16/EU, including the changes introduced by the Council Directive 2376/2015/EU on the mandatory automatic exchange of information on advance cross-border rulings and advance pricing arrangements, through the issue of the Legislative Decree 15 March 2017, no. 32, and by the Council Directive 2016/2258/EU as regards access to anti-money-laundering information by tax authorities, through the issue of the Legislative Decree 18 May 2018, no. 60.

LUXEMBOURG TAXATION

The following is a general description of certain Luxembourg tax considerations relating to the Securities. It does not purport to be a complete analysis of all tax considerations relating to the Securities, whether in Luxembourg or elsewhere. Prospective purchasers of the Securities should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of the Securities payments of interest, principal and/or other amounts under the Securities and the consequences of such actions under the tax laws of Luxembourg. The following is based upon the law as in effect on the date of this Base Prospectus. Prospective investors should not apply any information set out below to other areas, including (but not limited to) the legality of transactions involving the Securities. Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or other taxes refers to Luxembourg tax law and/or concepts only. A Securityholder may not become resident, or deemed to be resident, in Luxembourg by reason only of the holding of the Securities, or the execution, performance, delivery and/or enforcement of the Securities.

Taxation of the Securityholders

Withholding tax

1. Non-resident Securityholders

Under Luxembourg general tax laws currently in force, there is no withholding tax on payments of principal, premium or interest made to non-resident Securityholders, nor on accrued but unpaid interest in respect of the Securities which are not profit participating, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Securities held by non-resident Securityholders.

2. Resident Securityholders

RELIBI

Pursuant to the Luxembourg law of 23 December 2005 introducing final withholding tax on certain interest deriving from savings income, as amended (the "**RELIBI Law**"), a 20% withholding tax is levied on payments of interest or similar income made by Luxembourg paying agents to (or for the benefit of) Luxembourg resident individuals Securityholders. This withholding tax also applies on accrued interest received upon sale, disposal, redemption or repurchase of the Securities. Such withholding tax is in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth who does not hold the Securities as business assets.

Luxembourg resident individuals beneficial owners of interest payments or similar income made by a paying agent established outside Luxembourg in a Member State of the European Union or a State of the European Economic Area, may opt for a final 20% withholding tax. In such case, the 20% withholding tax is calculated on the same amounts as for the payments made by Luxembourg paying agents. The option for the 20% final withholding tax must cover all interest payments made by paying agents to the beneficial owner during the entire civil year.

Responsibility for the withholding of tax in application of the above-mentioned RELIBI Law is assumed by the Luxembourg paying agent within the meaning of the RELIBI Law.

Income Taxation

(i) Non-resident Securityholders

A non-resident Securityholder, not having a permanent establishment or permanent representative in Luxembourg to which/whom such Securities are attributable, is not subject to Luxembourg income tax on interest accrued or received, redemption premiums or issue discounts, under the Securities. A gain realised by such non-resident Securityholder on the sale or disposal, in any form whatsoever, of the Securities is further not subject to Luxembourg income tax.

A non-resident Securityholder acting in the course of the management of professional or business undertaking, who has a permanent establishment or permanent representative in Luxembourg to which or to whom such Securities are attributable, is subject to Luxembourg income tax on interest accrued or

received, redemption premiums or issue discounts, under the Securities and on any gains realised upon the sale or disposal, in any form whatsoever of the Securities.

(ii) ***Resident Securityholders***

Securityholders who/which are resident of Luxembourg will not be liable for any Luxembourg income tax on repayment of principal.

Luxembourg resident corporate Securityholder

A corporate Securityholder must include any interest accrued or received, any redemption premium or issue discount, as well as any gain realized on the sale or disposal, in any form whatsoever, of the Securities, in its taxable income for Luxembourg income tax assessment purposes.

Luxembourg Securityholders which are companies benefiting from a special tax regime such as (i) family wealth management companies subject to the Luxembourg law of 11 May 2007 on family estate management companies, as amended; (ii) undertakings for collective investment subject to the Luxembourg law of 17 December 2010 on undertakings for collective investment (replacing the law of 20 December 2002), as amended; (iii) specialised investment funds subject to the Luxembourg law of 13 February 2007 on specialised investment funds, as amended; or (iv) a company regulated by the Luxembourg law of 23 July 2016 on reserved alternative investment funds, not investing in risk capital, are not subject to any Luxembourg income tax.

Luxembourg resident individual Securityholder

An individual Securityholder, who acts in the course of the management of his private wealth and who is a resident of Luxembourg for tax purposes, has further to include the portion of the gain corresponding to accrued but unpaid interest in respect of the Securities in his taxable income, except if (i) withholding tax has been levied on such payments in accordance with the RELIBI Law; or (ii) the individual Securityholder has opted for the application of a 20% withholding tax in full discharge of income tax in accordance with the RELIBI Law, which applies if a payment of interest has been made or ascribed by a paying agent established outside Luxembourg in an EU Member State or in a State of the European Economic Area.

The above 20% withholding tax represents the final tax liability on interest received for the Luxembourg resident individuals receiving the interest payments in the course of their private wealth and can be refunded in consideration of foreign withholding tax, based on double tax treaties concluded by Luxembourg.

Under Luxembourg domestic tax law, gains realised by an individual Securityholder, who acts in the course of the management of his private wealth and who is a resident of Luxembourg for tax purposes, on the sale or disposal, in any form whatsoever, of Securities are not subject to Luxembourg income tax, provided this sale or disposal took place six months after the acquisition of the Securities and the Securities do not constitute Zero Coupon Securities.

An individual Securityholder acting in the course of the management of professional or business undertaking must include this interest in its taxable basis. In that event, such 20% withholding tax levied will be credited against their final income tax liability.

(iii) ***Net wealth tax***

A corporate Securityholder, whether it is a resident of Luxembourg for tax purposes or, if not, it maintains a permanent establishment or a permanent representative in Luxembourg to which such Securities are attributable, is subject to Luxembourg net wealth tax on such Securities, except if the Securityholder is governed by (i) the Luxembourg law of 11 May 2007 on family estate management companies, as amended; (ii) the Luxembourg law of 17 December 2010 on undertakings for collective investment (replacing the law of 20 December 2002), as amended; (iii) the Luxembourg law of 13 July 2005 on institutions for occupational retirement provision in the form of pension savings companies with variable capital and pension savings associations, as amended; (iv) the Luxembourg law of 13 February 2007 on specialised investment funds, as amended; (v) the Luxembourg law of 22 March 2004 on securitisation, as amended; (vi) the Luxembourg law of 15 June 2004 on venture capital vehicles; or (vii) it is a company that is subject to the law of 23 July 2016 on reserved alternative investment funds.

Nevertheless, further to the Luxembourg law of 18 December 2015 on net wealth tax aspects, as amended, (i) securitisation companies governed by the Luxembourg law of 22 March 2004, as amended; (ii) risk capital companies governed by the Luxembourg law of 15 June 2004 relating to the investment company in risk capital, as amended; (iii) professional pension institutions in the form of variable capital companies (sociétés d'épargne-pension à capital variable - SEPCAVs) or associations (associations d'épargne-pension - ASSEPs) governed by Luxembourg the law of 13 July 2005 on institutions for occupational retirement provision in the form of pension savings companies with variable capital and pension savings associations, as amended; and (iv) reserved alternative investment funds under the form of corporations which invest in risk capital, subject to the Luxembourg law of 23 July 2016 on reserved alternative investment funds, should be in the scope of the minimum net wealth tax, which may vary depending on the total amount of their balance sheet as well as the type of assets held, and should range from EUR 535 to EUR 32,100.

An individual Securityholder, whether he/she is resident of Luxembourg or not, is not subject to Luxembourg net wealth tax on Securities.

(iv) *Other taxes*

Under present Luxembourg tax law, in the case where a Securityholder is a resident for tax purposes of Luxembourg at the time of his death, the Securities are included in his taxable estate.

Gift tax may be due on a gift or donation of Securities, if the gift or donation is recorded in a Luxembourg deed.

NORWEGIAN TAXATION

The following is a description of certain Norwegian tax consequences for holders of Securities who are resident in Norway for tax purposes. Norwegian tax legislation does not currently include statutory legislation relating specifically to Securities. Instead, taxation treatment must be derived from general tax rules and principles applicable to capital income and capital gains. Norwegian tax law is based on substance over form. If the Securities after an overall assessment have characteristics more similar to those of equity instruments rather than debt, the economic reality might overrule the formalities for income tax purposes. The description below for Securities is based on the assumption that the Securities are considered as debt instruments for Norwegian tax purposes and that the holder is considered beneficial owner of the Securities for tax purposes.

The purpose of this description is to provide a high-level and general overview of the main tax consequences that may arise under Norwegian law and the description does not purport to be a comprehensive description of all tax considerations that may be relevant to a decision to purchase the Securities.

Special rules apply for holder of Securities that cease to be tax resident in Norway or that for some reason are no longer considered taxable to Norway in relation to their holding of Securities.

The description is based on legislation in Norway as it is interpreted and practised as of the date of this document, which may be amended from time to time, possibly with retroactive effect. The tax treatment of each holder partly depends on the holder's specific situation, and the specific instrument issued to the holder. Each investor should consult a tax adviser as to the tax consequences relating to their particular circumstances resulting from holding and disposition of Securities.

Taxation of return on the Securities prior to disposal

Any kind of return received on the Securities prior to the disposal is taxable as "ordinary income" at the hand of the holder of Securities subject to the ordinary income tax rate of 22 per cent.. For financial institutions covered by the Norwegian financial tax (No: "*Finansskatt*"), return of the Securities will be subject to a special tax leading to an effective tax rate of 25%.

Return on the Securities is taxed on accruals basis, i.e. regardless of when the return is actually paid.

Taxation upon disposal or redemption of the Securities

Redemption at the end of the term as well as prior disposal is treated as realization of the Securities and will trigger a capital gain or loss. Capital gains will be taxable as "ordinary income", subject to the flat rate of 22 per cent. (25% for financial institutions covered by the Norwegian financial tax, as referred to in "*Taxation of return on the Securities prior to disposal*" above).

The tax liability applies irrespective of how long the Securities have been owned and the number of Securities that have been redeemed or realised. Losses will be deductible in the Securityholder's "ordinary income", taxed at the same tax rate.

Any capital gain or loss is computed as the difference between the amount received by the Securityholder on realization and the cost price of the Securities. The cost price is equal to the price for which the Securityholder acquired the Securities. Costs incurred in connection with the acquisition and realization of the Securities may be deducted from the Securityholder's taxable income in the year of the realization.

Net wealth taxation

Corporations and companies are not subject to net wealth taxation in Norway.

Individuals tax resident in Norway are subject to net wealth taxation in Norway. The value of the Securities at the end of each income year will be included in the computation of the Securityholder's taxable net wealth for municipal and state net wealth tax purposes. Listed bonds are valued at their quoted value on 1 January in the assessment year, while non-listed bonds are valued at their estimated market value on 1 January in the assessment year. As of January 1 2022, the marginal net wealth tax rate is 0.95% on net wealth exceeding NOK 1,700,000 and up to NOK 19,999,999, and a rate of 1.1% on net wealth of NOK 20,000,000 and above.

VAT and transfer taxes

No VAT, stamp or similar duties are currently imposed in Norway on the transfer or issuance of Securities.

Inheritance tax

Norway currently does not impose inheritance or gift tax.

Under the current rules, the heir acquires the donor's tax input value based on principles of continuity. Thus, the heir will be taxable for any increase in value in the donor's ownership, at the time of the heir's realization. However, the principles of continuity only applies if the donor was taxable in Norway.

PORTUGUESE TAXATION

The following is a general description of current law and practice in Portugal as in effect on the date of this Base Prospectus in relation to certain current relevant aspects to Portuguese taxation of the Securities and is subject to changes in such laws, including changes that could have a retroactive effect. The following description is intended as a general guide only and is not exhaustive. It is not intended to be, nor should it be considered to be, legal or tax advice to any holder of Securities. It does not take into account or discuss the tax laws of any country other than Portugal and relates only to the position of persons who are absolute beneficial owners of the Securities. Prospective investors are advised to consult their own tax advisers as to the Portuguese or other tax consequences of the purchase, ownership and disposal of Securities.

The reference to "**interest**", "**other investment income**" and "**capital gains**" in the paragraphs below means "interest", "other investment income" and "capital gains" as understood in Portuguese tax law. The statements below do not take into account any different definitions of "interest", "other investment income" or "capital gains" which may prevail under any other law or which may be created by the "Terms and Conditions" of the Securities or any related documentation.

Income generated by the holding (distributions) and disposal of Securities should be generally subject to the Portuguese tax regime for debt securities ("*obrigações*").

Interest and other investment income obtained by Portuguese resident individuals on the Securities as well as the remuneration received on the exercise of Certificates that entitle the security holder to receive from the relevant Issuer a predetermined amount higher than the subscription value is subject to individual income tax. If the payment of interest or other investment income on the Securities as well as the remuneration received on the exercise of Certificates that entitle the security holder to receive a predetermined amount higher than the subscription value is made available to Portuguese resident individuals through a Portuguese resident entity or a Portuguese branch of a non-resident entity, withholding tax applies currently at 28% which, if such income is not earned as business or professional income, is the final tax on that income unless the individual elects to include it in his taxable income, subject to tax at progressive rates of up to 48%. A surcharge will apply on the part of the taxable income exceeding €80,000 as follows: (i) 2.5% on the part of the taxable income exceeding €80,000 up to €250,000 and (ii) 5% on the remaining part (if any) of the taxable income exceeding €250,000. In this case (aggregation of income), the tax withheld is deemed a payment on account of the final tax due. If the interest on the Securities or the remuneration received on the exercise of Certificates that entitle the security holder to receive from the relevant Issuer a predetermined amount higher than the subscription value is not received through an entity located in Portugal it is not subject to Portuguese withholding tax, but an autonomous taxation currently of 28% will apply, which is the final tax on that income unless the individual elects to include it in his/her taxable income, subject to tax at the progressive rates mentioned above.

Interest and other investment income paid or made available ("*colocado à disposição*") on the Securities as well as the remuneration on the exercise of Certificates that entitle the security holder to receive from the relevant Issuer a predetermined amount higher than the subscription value, to Portuguese resident individuals, through Portuguese entities mandated by the debtors or the holders or that act on account of ones or the others, and due by non-resident entities without a permanent establishment in the Portuguese territory and that are domiciled in a country included in the "tax havens" list (Order no. 150/2004 of 13 February, as amended by Order no. 292/2011 of 8 November, Law 144/2017 of 29 December and Order no. 309-A/2020 of 31 December) are subject to a final withholding tax rate at 35%. If the interest on the Securities and the remuneration on those Certificates is not paid or made available through the above-referred entities, it is not subject to Portuguese withholding tax, but an autonomous taxation currently of 35% will apply, which is the final tax on that income.

Interest, other investment income and the remuneration on the exercise of Certificates that entitle the security holder to receive from the relevant Issuer a predetermined amount higher than the subscription value paid or made available ("*colocado à disposição*") to accounts in the name of one or more accountholders acting on behalf of undisclosed third parties is subject to a final withholding tax rate of 35%, unless the beneficial owner of the income is disclosed, in which case the general rules will apply.

Gains obtained on the disposal of Securities that entitle the security holder to receive the value of a certain underlying asset with the exception of the remuneration arising from Certificates that guarantee the holder the right to receive a minimum value in excess of the subscription value by an individual resident in Portugal for tax purposes are subject to Portuguese capital gains taxation, whereby the positive difference between such gains and gains on other securities and losses in securities is subject to tax currently at 28%, which, if such income is not earned as business or professional income, is the final tax on that income unless the individual elects to include it in his/her taxable income, subject to tax at progressive rates of up to 48%. A

surcharge will apply on the part of the taxable income exceeding €80,000 as follows: (i) 2.5% on the part of the taxable income exceeding €80,000 up to €250,000 and (ii) 5% on the remaining part (if any) of the taxable income exceeding €250,000.

Financial income (interest and other investment income) and capital gains derived from the Securities by legal persons resident for tax purposes in Portugal and by non-resident legal persons with a permanent establishment in Portugal to which the income or gains are attributable are included in their taxable profits and are subject to corporate income tax at a rate of 21 per cent or 17 per cent if the taxpayer qualifies as a small or medium-sized company, as defined in Decree-Law no. 372/2007, of 6 November, as last amended by Decree-Law no. 13/2020, of 7 April, applicable to taxable profits up to € 15,000 (the excess thereof will be subject to the standard rate of 21 per cent), to which may be added a municipal surcharge ("*derrama*") of up to 1.5% of its taxable profit. A state surcharge ("*derrama estadual*") rate currently of 3% will be due on the part of taxable profits between €1,500,000 up to € 7,500,000, a rate of 5% on the part of the taxable profits between € 7,500,000 up to €35,000,000 and a rate of 9% on the part of the profits exceeding €35,000,000.

Gratuitous transfers of the Program Securities to Portuguese resident individuals would not be liable to Portuguese Stamp Tax, as they fall outside the territorial scope of such tax (i.e., no connection with the Portuguese territory exist as the debtor of the patrimonial or credit rights has its domicile, head office, place of effective management or permanent establishment outside the Portuguese territory). Gratuitous transfers of the Program Securities (i.e., acquisition of the Securities by means of gift or inheritance) in favor of a Portuguese resident corporate entity or non-Portuguese resident corporate entity with a Portuguese permanent establishment to which such transfer is attributable to shall qualify as patrimonial increases, which, although not subject to stamp tax, would be included in the taxpayer taxable income and subject to corporate income tax at a rate of 21 per cent or 17 per cent if the taxpayer qualifies as a small or medium-sized company, as defined in Decree-Law no. 372/2007, of 6 November, as last amended by Decree-Law no. 13/2020, of 7 April, applicable to taxable profits up to € 15,000 (the excess thereof will be subject to the standard rate of 21 per cent), to which may be added a municipal surcharge ("*derrama*") of up to 1.5% of its taxable profit. A state surcharge ("*derrama estadual*") rate currently of 3% will be due on the part of taxable profits between €1,500,000 up to € 7,500,000, a rate of 5% on the part of the taxable profits between €7,500,000 up to €35,000,000 and a rate of 9% on the part of the profits exceeding €35,000,000.

There is neither wealth nor estate tax in Portugal on movable assets.

Payments made by the Issuer of interest, other investment income or principal on Securities issued by it to an individual or legal person non-resident in Portugal for tax purposes without a Portuguese permanent establishment to which income may be attributable are not subject to Portuguese tax.

Capital gains realised on Securities by a holder who is neither resident nor engaged in business through a permanent establishment in Portugal to which that gain is attributable are not subject to Portuguese tax.

SPANISH TAXATION

The information provided below does not purport to be a complete description of tax law and practice currently applicable in the Kingdom of Spain and is subject to any changes in law and the interpretation and application thereof, which could be made with retroactive effect. Furthermore, it is not a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or dispose of the Securities, and does not describe the tax consequences for certain categories of taxpayers including, but not limited to entities falling under the attribution of the income regime, financial institutions, Collective Investment Institutions or Cooperatives, which may be subject to specific rules. Prospective investors who are in any doubt as to their position should consult with their own professional advisors.

The description set out below is based upon Spanish state law in force and is subject to any changes in the laws of Spain that may take effect after such date. This description does not take into account any regional or local legislation that could be of application.

This information has been prepared in accordance with the following Spanish tax legislation:

- (i) for individuals resident for tax purposes in Spain which are subject to Personal Income Tax, Law 35/2006, of 28 November 2006, on Personal Income Tax, as amended (the "**PIT Law**"); Royal Decree 439/2007, of 30 March 2007 promulgating the Personal Income Tax Regulations, as amended (the "**PIT Regulations**"); Law 19/1991, of 6 June 1991 on Wealth Tax as amended most recently by Royal Decree Law 18/2019, of 27 December (the "**Wealth Tax Law**"); and Law 29/1987, of 18 December 1987, on Inheritance and Gift Tax, as amended (the "**Inheritance and Gift Tax Law**");

I. *Taxes on Income and Capital Gains*

- (i) ***Individuals with tax residency in Spain subject to Personal Income Tax (Impuesto sobre la Renta de las Personas Físicas)***

Interest from the Securities obtained by individuals subject to Spanish Personal Income Tax, and also income from the transfer, reimbursement, redemption, exchange or conversion of the Securities would be considered a return on investment obtained from the transfer of funds to third parties according to Article 25.2 of the PIT Law. Such income would be included in the savings taxable base and subject to the rules foreseen in that respect in the PIT Law.

Income included in the savings taxable base are currently taxed (i) at a rate of 19 per cent up to the first €6,000; (ii) at a rate of 21 per cent on the following up to €50,000; (iii) at a rate of 23 per cent on the following up to €200,000; and (iv) at a rate of 26 per cent on any excess over €200,000.

Any income derived from the Securities would be subject to withholding tax, currently at the rate of 19 per cent, on account of the Personal Income Tax of the holder.

On the basis that the Issuers are not resident in Spain for tax purposes and do not operate in Spain through a permanent establishment, branch or agency, all payments of principal and interest in respect of the Securities can be made free of any withholding or deduction for or on account of any taxes in Spain.

Under certain conditions, withholding taxes may apply if the Securities are deposited with a Spanish resident entity acting as depositary or custodian or such Spanish resident entity is in charge of the collection of the income from the Securities, or in charge of the redemption of the securities, or receives from the holder the order to transfer the security, as the case may be.

(ii) ***Legal Entities with tax residency in Spain subject to Corporate Income Tax (Impuesto sobre Sociedades)***

The tax regime for Spanish-resident entity holders of Securities is included in the CIT Law and the CIT Regulations.

According to article 10.3 of the CIT Law, the taxable income derived from the interest generated under the Securities and also income from the transfer, reimbursement, redemption, exchange or conversion of the Securities will be calculated in accordance with the accounting treatment of such income by the relevant entity and generally taxed at the standard rate of 25 per cent. Please note that, as of 1 January 2022, profits obtained by legal entities with tax residency in Spain will be taxed at a minimum effective tax rate of 15% of the taxable base in case that (i) the net turnover of the entity is 20 million euros or more or (ii) the entity is taxed under the consolidated tax regime.

Any income derived from the Securities would be subject to withholding tax of 19 per cent on account of the Corporate Income Tax of the holder.

On the basis that the Issuers are not resident in Spain for tax purposes and do not operate in Spain through a permanent establishment, branch or agency, all payments of principal and interest in respect of the Securities can be made free of any withholding or deduction for or on account of any taxes in Spain.

Under certain conditions, withholding taxes may apply if the Securities are deposited with a Spanish resident entity acting as depositary or custodian or such Spanish resident entity is in charge of the collection of the income from the Securities, or in charge of the redemption of the securities, or receives from the holder the order to transfer the security, as the case may be.

In any case, income derived from the Securities obtained by Corporate Income Tax taxpayers will not be subject to withholding tax on account of Corporate Income Tax, in accordance with the provisions of Article 61.s) of the CIT Regulations **provided that** the Securities are listed on an organised market of an OECD country.

(iii) ***Individuals and Legal Entities not resident in Spain and subject to Non-Resident Income Tax (Impuesto sobre la Renta de no Residentes)***

Interest generated by the Securities or income from the transfer, reimbursement, redemption, exchange or conversion of the Securities obtained by individuals and legal entities not resident for tax purposes in Spain will be taxed pursuant to the NRIT Law.

Income obtained through a permanent establishment

If the Securities form part of the assets of a permanent establishment in Spain of a non-Spanish resident person or entity, income from the Securities will be taxed under the same rules as those previously set out for legal entities subject to Corporate Income Tax.

Income obtained without a permanent establishment

Income obtained by individuals or entities who are not resident in Spain for tax purposes and who do not act, with respect to the Securities, through a permanent establishment in Spain would not be considered as Spanish-source income and, therefore, would not be subject to taxation and withholding tax in Spain under the Non-Residents Income Tax Law.

II. ***Wealth Tax (Impuesto sobre el Patrimonio)***

Only individuals who are holders of Securities would be subject to Wealth Tax. Legal entities are not taxable persons under Spanish Wealth Tax.

(i) ***Individuals with Tax Residency in Spain***

Individuals with tax residency in Spain are subject to Wealth Tax to the extent that their net worth exceeds €700,000 (subject to any exceptions provided under relevant legislation in an autonomous region (*Comunidad Autónoma*)). Therefore, they should take into account the value of the Securities which they hold as at 31 December each year, the applicable rates ranging between 0.2 per cent. and 3.5 per cent.

(ii) ***Individuals with no Tax Residency in Spain***

Non-Spanish residents would not be subject to the Wealth Tax on the holding of the Securities, **provided that** the Securities are not located in Spain and the rights deriving from them cannot be exercised within the Spanish territory.

III. ***Inheritance and Gift Tax (Impuesto sobre Sucesiones y Donaciones)***

(i) ***Individuals with Tax Residency in Spain***

Individuals resident in Spain for tax purposes who acquire ownership or other rights over any Securities by inheritance, gift or legacy will be subject to the Inheritance and Gift Tax in accordance with the applicable Spanish regional or State rules (subject to any regional tax exemptions being available to them). The applicable effective tax rates currently range between 0 per cent. and 81.6 per cent., subject to any specific regional rules, depending on relevant factors.

(ii) ***Legal Entities with Tax Residency in Spain***

Legal entities resident in Spain for tax purposes which acquire ownership or other rights over the Securities by inheritance, gift or legacy are not subject to the Spanish Inheritance and Gift, income obtained will be subject to the Corporate Income Tax.

(iii) ***Individuals and Legal Entities not resident in Spain***

Non-Spanish resident individuals and non-Spanish legal entities without a permanent establishment in Spain that acquire ownership or other rights over the Securities by inheritance, gift or legacy, will not be subject to Inheritance and Gift Tax **provided that** the Securities are not located in Spain and the rights deriving from them cannot be exercised within the Spanish territory.

Non-Resident entities with a permanent establishment within the Spanish territory which acquire the ownership or other rights over the Securities by inheritance, gift or legacy are not subject to the Spanish Inheritance and Gift Tax. Rather, income obtained will be subject to the Non-Residents Income Tax, subject to the application of any relevant double taxation treaty.

IV. ***Value Added Tax, Transfer Tax and Stamp Duty***

The issuance, acquisition and transfer of Securities is not taxable under Transfer Tax and Stamp Duty Tax, in accordance with the Consolidated Text of such tax promulgated by Royal Legislative Decree 1/1993, of 24 September, nor will it be taxable under the Value Added Tax, in accordance with Law 37/1992, of 28 December, regulating such tax.

V. ***Disclosure obligations in connection with assets held abroad by Spanish resident natural and legal persons (Form 720)***

According to Law 7/2012, Spanish resident natural or legal persons holding certain categories of assets abroad (including inter alia all types of debt securities) may be potentially liable to report them to the Spanish tax authorities on a yearly basis (filing in respect of Securities held as of 31 December every year will be due by 31 March of the immediately following year) in certain circumstances. Accordingly, any Spanish resident individual and corporate investors using a non-Spanish resident custodian to hold the Securities may be potentially liable to comply with such reporting obligations in respect of the Securities, if certain conditions are met. Failure to meet this new reporting obligation may trigger significant tax penalties and other tax implications.

Please note that the European Court of Justice delivered a ruling on 27 January 2022 declaring illegal several aspects of the Spain's tax form 720, such as the non-expiration of the debt and the disproportionate sanctions. As a consequence of the above, Law 5/2022 of 9 March 2022 has eliminated the tax debt non-expiration rule and has amended the relevant penalties, so that failure to make the necessary disclosure (including omission, falseness and inaccuracy of the information provided) may still be sanctioned, but the penalties to be imposed will be in accordance with the general regime established in the Spanish General Tax Law.

SWEDISH TAXATION

There is no Swedish withholding tax at source (*källskatt*) applicable on payments made by the Issuer in respect of the Securities. Sweden operates a system of preliminary tax (*preliminärskatt*) to secure payment of taxes. In the context of the Securities a preliminary tax of 30 per cent. will be deducted from all payments of interest (including any compensation deemed to constitute interest for tax purposes) in respect of the Securities made to any individuals or estates that are resident in Sweden for tax purposes, provided the paying entity is subject to reporting obligations. A preliminary tax of 30 per cent. will also be deducted from any other payments in respect of the Securities not treated as capital gains, if such payments are paid out together with payments treated as interest. Depending on the relevant holder's overall tax liability for the relevant fiscal year, the preliminary tax may contribute towards, equal or exceed the holder's overall tax liability with any balance subsequently to be paid by or to the relevant holder, as applicable.

SWISS TAXATION

The following discussion is a summary of certain material Swiss tax considerations relating to (i) Program Securities issued by any of the Issuers where the Holder is tax resident in Switzerland or has a tax presence in Switzerland or (ii) Program Securities where the Paying Agent, custodian or securities dealer is located in Switzerland. The discussion is a summary based on legislation as of the date of this Base Prospectus. It does not aim to be a comprehensive description of all the Swiss tax considerations that may be relevant for a decision to invest in Program Securities. The tax treatment for each investor depends on the particular situation. All investors are advised to consult with their professional tax advisors as to the respective Swiss tax consequences of the purchase, ownership, disposition, lapse, exercise or redemption of Program Securities (or options embedded therein) in light of their particular circumstances.

Swiss Withholding Tax

Payments under the Program Securities will not be subject to Swiss federal withholding tax, provided that the Issuer is at all times resident and managed outside Switzerland for Swiss tax purposes.

On 3 April 2020, the Swiss Federal Council proposed draft legislation and opened the consultation procedure regarding the reform of the Swiss withholding tax regime, which had previously been suspended. A main aspect of the draft legislation is the exemption of Swiss-domiciled legal entities and foreign investors from withholding tax on Swiss domestic interest-based investments. In essence, the draft legislation would replace the current debtor-based regime applicable to interest payments with a paying agent-based regime for Swiss withholding tax. Broadly, this paying agent-based regime would (i) subject all interest payments made through paying agents in Switzerland to individuals resident in Switzerland to Swiss withholding tax and (ii) exempt from Swiss withholding tax interest payments to all other persons, including to Swiss-domiciled legal entities and foreign investors (other than for indirect interest payments via foreign and domestic collective investments vehicles). If such a new paying agent-based regime were to be enacted and were to result in the deduction or withholding of Swiss withholding tax on any interest payments in respect of the Securities, the Securities would not be entitled to receive any additional amounts as a result of such deduction or withholding under the terms of the Program Securities. However, the results of the consultation, which ended on 10 July 2020, were controversial. Consequently, on 15 April 2021, the Swiss Federal Council submitted a new draft on the reform of the Swiss withholding tax system providing for the abolition of Swiss withholding tax on interest payments on bonds for submission to the Swiss Federal Parliament, which legislation was accepted by the Swiss Parliament on 17 December 2021. The entry into force of such legislation is still subject to a referendum which will be held on September 25, 2022. If the legislation will be approved in the referendum, it will enter into force on 1 January 2023. Notwithstanding the foregoing, if a new paying agent-based regime were nevertheless to be enacted as contemplated by the draft legislation published on 3 April 2020 and were to result in the deduction or withholding of Swiss withholding tax on any payment in respect of the Program Securities by any person in Switzerland other than the Issuer, the holder of such Program Securities would not be entitled to any additional amounts with respect to such Program Securities as a result of such deduction or withholding under the Terms and Conditions.

Income Taxation

Program Securities held as Private Assets by a Swiss resident Holder

Structured Securities

If a Program Security classifies as a structured security, i.e. as derivative financial instrument(s) with a bond-like prefunding component embedded therein, its income taxation depends on whether (i) the embedded bond component and the embedded derivative financial instrument(s) are reported separately from each other, or, if the Program Security is a standard product, alternatively the values of the embedded bond component and the embedded derivative financial instrument(s) can at any time be determined analytically by using standard valuation programmes, and (ii) the Program Security classifies as a structured product with or without a predominant one-time interest payment:

Non-transparent derivative financial instruments: If the embedded bond is not recorded separately from the embedded derivative financial instrument(s) and if the conditions for analytical determination of the values of the embedded bond and the embedded derivative financial instrument(s) set forth above do not apply, then the Program Security classifies as non-transparent structured security and any return over the initial investment classifies as a taxable interest payment. Non-transparent derivative financial instruments generally include a predominant one-time interest payment and are taxed in accordance with the principles

set forth below under "*Transparent derivative financial instruments with a predominant one-time interest payment*".

Transparent derivative financial instruments without a predominant one-time interest payment: If the embedded bond is recorded separately from the embedded derivative financial instrument(s) or if the values of the embedded bond and the embedded derivative financial instrument(s) can be determined analytically as set forth above and if the yield-to-maturity predominantly derives from periodic interest payments and not from a one-time-interest-payment such as an original issue discount or a repayment premium (see below "*Transparent derivative financial instruments with a predominant one-time interest payment*"), then a person who is an individual resident in Switzerland holding such a Program Security as a private asset is required to include any periodic and one-time interest payments received on the Program Security, converted in each case into Swiss Francs at the exchange rate prevailing at the time of payment, in his or her personal income tax return for the relevant tax period and will be taxable on any net taxable income (including such amounts) for the relevant tax period. Option premium received, and a gain, including in respect of interest accrued, a loss, respectively, realised on the sale of such a Program Security is a tax-free private capital gain, a non-tax-deductible private capital loss, respectively.

Transparent derivative financial instruments with a predominant one-time interest payment: If the embedded bond is recorded separately from the embedded derivative financial instrument(s) or if the values of the embedded bond and the embedded derivative financial instrument(s) can be determined analytically as set forth above and if the yield-to-maturity predominantly derives from a one-time-interest-payment such as an original issue discount or a repayment premium and not from periodic interest payments, then a person who is an individual resident in Switzerland holding such a Program Security as a private asset, is required to include any periodic interest payments received on the Program Security and, in addition, any amount equal to the difference between the value of the Program Security at redemption or sale, as applicable, and its value at issuance or secondary market purchase, as applicable, and converted in each case into Swiss Francs at the exchange rate prevailing at the time of sale or redemption, issuance or purchase, respectively, in his or her personal income tax return for the relevant tax period and will be taxable on any net taxable income (including such amounts, i.e., including, *inter alia*, any gain in respect of interest accrued or foreign exchange rate) for the relevant tax period. Any compensation received by such a holder for the embedded derivative, i.e., option premium received, and any residual gain, and a loss, respectively, realised on the sale of such a Program Security is a tax-free private capital gain, a non-tax-deductible private capital loss, respectively. However, notwithstanding the foregoing, such a holder may offset any decrease in value realised by him or her within the same taxation period on sale or redemption of such a Program Security against any gain (including periodic interest payments) realised by him or her from other securities with a predominant one-time interest payment.

Bonds

Bonds without a predominant one-time interest payment: If a Program Security classifies as a pure bond without a predominant one-time interest payment (i.e., the yield-to-maturity of which predominantly derives from periodic interest payments and not from a one-time-interest-payment such as an original issue discount or a repayment premium), then a person who is an individual resident in Switzerland holding such a Program Security as a private asset is required to include any periodic and one-time interest payments received on such Program Security, converted into Swiss Francs at the exchange rate prevailing at the time of payment, in his or her personal income tax return for the relevant tax period and will be taxable on any net taxable income (including such amounts) for the relevant tax period. A gain, including, *inter alia*, in respect of interest accrued or foreign exchange rate, a loss, respectively, realised on the sale of such a Program Security is a tax-free private capital gain, a non-tax-deductible private capital loss, respectively.

Bonds with a predominant one-time interest payment: If a Program Security classifies as a pure bond with a predominant one-time interest payment (the yield-to-maturity of which predominantly derives from a one-time-interest-payment such as an original issue discount or a repayment premium and not from periodic interest payments), then a person who is an individual resident in Switzerland holding such a Program Security as a private asset, is required to include any periodic interest payments received on the Program Security and, in addition, any amount equal to the difference between the value of the Program Security at redemption or sale, as applicable, and its value at issuance or secondary market purchase, as applicable, and converted in each case into Swiss Francs at the exchange rate prevailing at the time of sale or redemption, issuance or purchase, respectively, in his or her personal income tax return for the relevant tax period and will be taxable on any net taxable income (including such amounts, i.e., including, *inter alia*, any gain in respect of interest accrued or foreign exchange rate) for the relevant tax period. Such a holder may offset any decrease in value realised by him or her within the same taxation period on sale or

redemption of such a Program Security against any gain (including periodic interest payments) realised by him or her from other securities with a predominant one-time interest payment.

Pure Derivative Financial Instruments

A capital gain realised by an individual on the sale or redemption of a Program Security which classifies as a pure derivative financial instrument (such as pure call and put options, pure futures, static certificates replicating an index or a basket of at least five shares and with a fixed maturity or an annual redemption right and discount certificates with a maturity not exceeding twelve months) and which is held as part of the individual's private assets is a tax-free private capital gain. Conversely, a capital loss realised on the sale or redemption of such a Program Security cannot be set off against taxable income. Dividend equalisation payments on such a Program Security constitute taxable investment income.

Low Exercise Price Warrants

A fully pre-funded call option with a term of not more than one year classifies as pure derivative financial instrument (see taxation treatment above "Pure Derivative Financial Instruments"). If the term of a call option exceeds one year and the instrument underlying the call option is pre-financed by 50 per cent. or more at the time of issuance then the interest component embedded in such an instrument (i.e., issue discount) constitutes taxable interest income (see taxation treatment above "Structured Securities").

Fund-like Securities

A Program Security which is classified as a fund-like instrument will be considered a pass-through instrument for Swiss tax purposes if dividend and interest income (less attributable costs) from, and capital gains and losses (less costs attributable) realised on, the underlying investments, are reported and distributed separately. Under such conditions, an individual holding a fund-like Program Security as part of his or her private assets receives taxable income (which he or she must report annually) over such portion of distributions (in case the fund is distributing the income realised on the underlying investments) or earnings credits (in case the fund is reinvesting the income realised on the underlying investment) as derive from dividends and interest (less attributable costs) on the underlying instruments. Any distributions or credits deriving from capital gains realised on the underlying investments constitute a tax-free private capital gain, and any respective loss is a non-tax-deductible private capital loss. Any gain realised within a taxation period on the sale of a fund-like Program Security (including accrued dividends and interest) is exempt from income taxation as a private capital gain, and, conversely, any loss realised on such a Program Security is a non-tax-deductible capital loss.

Program Securities held as Assets of a Swiss Business

Corporate entities and individuals who hold Program Securities as part of a trade or business in Switzerland, in the case of residents abroad carried on through a permanent establishment or a fixed place of business in Switzerland, are required to recognise any payments on, and any capital gains or losses realised on the sale or redemption of, such Program Securities (irrespective of their classification) in their income statement for the respective taxation period and will be taxed on any net taxable earnings for such period.

The same taxation treatment also applies to Swiss-resident individuals who, for income tax purposes, are classified as "professional securities dealers" for reasons of, *inter alia*, frequent dealing and leveraged investments in securities.

Capital Gains

Program Securities held as Private Assets by a Swiss resident Holder

A gain, a loss, respectively, realised by an individual resident in Switzerland for tax purposes upon the sale or other disposal of a Program Security held as part of his or her private assets is a tax-free private capital gain, or a non-tax deductible capital loss, respectively, unless such individual is classified, for income tax purposes, as a "professional securities dealer" for reasons of, *inter alia*, frequent dealing and leveraged investments in securities. If an individual is classified as "professional securities dealer" he or she will be taxed in accordance with the principles set forth above under "*Income Taxation, —Program Securities held as Assets of a Swiss Business*". Concerning the bifurcation of a tax-exempt capital gain component, or a non-tax deductible capital loss component, respectively, from taxable income components of a Program Security see the bifurcation principles set forth above with regard to the different instruments under "*Income Taxation, —Program Securities held as Private Assets by a Swiss resident Holder*").

Program Securities held as Assets of a Swiss Business

Capital gains realised on Program Securities held as Assets of a Swiss Business are taxed in accordance with the taxation principles set forth above under "*—Income Taxation, —Program Securities held as Assets of a Swiss Business*").

Swiss Federal Stamp Taxes

The issuance of Program Securities on the Issue Date (primary market) is exempt from Swiss federal securities turnover tax (*Umsatzabgabe*), except that the issuance of Program Securities which are classified as fund-like instruments may be subject to Swiss federal securities turnover tax of up to 0.3 per cent. on the offering price, however, only if a Swiss securities dealer (as defined in the Swiss federal stamp tax act) is a party or an intermediary to the transaction and, additionally, if no exemption applies.

Dealings in Program Securities (secondary market) which classify as pure derivative financial instruments (such as pure call and put options, including low exercise price options with a maturity not exceeding twelve months, pure futures with a maximal pre-financing of 25 per cent., fully-funded Program Securities statically replicating an index or a basket of at least five shares and with a fixed maturity or an annual redemption right) are exempt from Swiss federal securities turnover tax. Dealings in other Program Securities may be subject to Swiss federal securities turnover tax of up to 0.3 per cent. on the consideration paid, however, only if a Swiss securities dealer (as defined in the Swiss federal stamp tax act) is a party or an intermediary to the transaction and, additionally, if no exemption applies.

The physical settlement of a security at exercise or redemption to the holder of the Program Security may be subject to Swiss federal securities turnover tax of 0.3 per cent. in case a security issued by an issuer outside Switzerland is delivered and of 0.15 per cent. in case a security issued by a Swiss domestic issuer is delivered, however, in each case, only if a Swiss domestic securities dealer (as defined in the Swiss federal stamp tax act) is a party or an intermediary to the delivery and, additionally, if no exemption applies.

Gift, Inheritance and Estate Taxes

Subject to an applicable tax treaty in an international situation, transfers of Program Securities may be subject to cantonal and/or communal inheritance tax, estate tax or gift tax if the deceased person has had his or her last domicile in Switzerland, the donor is resident in Switzerland, respectively, or in the case of a foreign deceased or resident person the transfer involves an unincorporated business in Switzerland and Program Securities are held as part of such business. No such taxes exist at the federal level. Rates depend upon the existing relationship (i.e. the relationship between the deceased and the heirs, or between the donor and the donee) and the size of the inheritance or gift. Interspousal gifts and gifts to descendants and inheritances collected by the surviving spouse and descendants are frequently exempt or taxed at low rates (up to 6 per cent.). Gifts and inheritances received from unrelated persons attract rates ranging from 20 per cent. to 40 per cent. The taxable base is usually the market value of the property transferred.

Net Worth and Capital Taxes

A holder of Program Securities who is an individual resident in Switzerland for tax purposes or is a non-Swiss resident holding Program Securities as part of a Swiss business operation or a Swiss permanent establishment is required to report Program Securities as part of private wealth or as part of Swiss business assets, as the case may be, and is subject to annual cantonal and/or communal private wealth tax on any net taxable wealth (including the Program Securities), in the case of a non-Swiss resident individual holding Program Securities as part of a Swiss business operation or a Swiss permanent establishment to the extent the aggregate taxable wealth is allocable to Switzerland. Incorporated holders of Program Securities are subject to cantonal and communal capital tax on net taxable equity, in the case of non-Swiss resident person holding Program Securities as part of a Swiss permanent establishment, to the extent the aggregate taxable equity is allocable to Switzerland. No net worth and capital taxes are levied at the federal level.

Non-Swiss resident Holders

A holder of a Program Security who is not resident in Switzerland and who during the taxation year has not engaged in a trade or business carried on through a permanent establishment or fixed place of business in Switzerland will in respect of such Program Security not be subject to income tax in Switzerland.

PROPOSED FINANCIAL TRANSACTION TAX

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a directive for a common financial transactions tax (the "**FTT**") in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are expected to be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Program Securities where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State; or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate. Prospective holders of the Program Securities are advised to seek their own professional advice in relation to the FTT.

If, on or after the Trade Date, due to the implementation of the proposed Financial Transaction Tax or otherwise by the adoption of or any change in any applicable law or regulation (including, without limitation, any law or regulation implementing a system of financial transaction tax in any jurisdiction, including the European Union, relating to any tax payable in respect of the transfer of, or entry into or modification or unwind of, any financial instruments), the Issuer determines that it (directly or through an Affiliate) would incur or has incurred a materially increased amount of tax, transfer tax, duty, stamp duty, stamp duty reserve tax, expense or fee (other than brokerage commissions) in relation to its obligations under the Program Securities or its related hedge positions ("**Additional Tax**"), the Issuer may (if the Conditions of the Program Securities so allow) adjust the Conditions of the Program Securities to reduce the amount otherwise payable under the Program Securities to holders of such securities in order to pass on to the holders of such securities the full amount of such Additional Tax incurred by the Issuer directly or through such Affiliate.

SUBSCRIPTION AND SALE

Each Issuer is offering the Securities on a continuing basis through MSI plc of 25 Cabot Square, Canary Wharf, London E14 4QA (which may act in whole or in part through an affiliate thereof) (Legal Entity Identifier: 4PQUHN3JPF GFNF3BB653) (the "**Distribution Agent**"), who has agreed to use reasonable efforts to solicit, directly or through an affiliate, offers to purchase the Securities. Each Issuer will have the sole right to accept offers to purchase Securities and may reject any offer in whole or in part. The Distribution Agent will have the right to reject any offer to purchase Securities solicited by it in whole or in part. Each Issuer may pay the Distribution Agent, in connection with sales of the Securities resulting from a solicitation the Distribution Agent made or an offer to purchase received by the Distribution Agent, a commission, which may be in the form of a discount from the purchase price if the Distribution Agent is purchasing the Securities for its own account.

Each Issuer may also sell Securities to the Distribution Agent as principal for its own account at a price to be agreed upon at the time of sale. The Distribution Agent may resell any Securities it purchases as principal at prevailing market prices, or at other prices, as the Distribution Agent determines.

The arrangements for the offer and sale of the Securities from time to time are set out in the Regulation S Distribution Agreement dated on or about 17 July 2013, as last modified and restated on 16 July 2021 (as modified and restated from time to time, the "**Distribution Agreement**") among Morgan Stanley, MSI plc, MSBV, MSFL and the Distribution Agent. Pursuant to the Distribution Agreement, Morgan Stanley, MSI plc, MSBV, MSFL and the Distribution Agent have agreed to indemnify each other against certain liabilities, or to contribute payments made in respect thereof. Morgan Stanley, MSI plc, MSBV and MSFL have also agreed to reimburse the Distribution Agent for certain expenses. The Distribution Agreement makes provision for the appointment of additional Distribution Agents who may agree to become bound by its terms (either in relation to the Securities generally or in relation to a particular Series of Securities) in an accession letter provided by each such additional Distribution Agent to the Issuers.

In order to facilitate the offering of the Securities, the Distribution Agent may engage in transactions that stabilise, maintain or otherwise affect the price of the Securities or any other securities the prices of which may be used to determine payments on those Securities. Specifically, the Distribution Agent may over allot in connection with any offering of the Securities, creating a short position in the Securities for their own accounts. In addition, to cover overallocments or to stabilise the price of the Securities or of any other securities, the Distribution Agent may bid for, and purchase, Securities or any other securities in the open market. Finally, in any offering of the Securities through a syndicate of underwriters, the underwriting syndicate may reclaim selling concessions allowed to an underwriter or a dealer for distributing the Securities in the offering if the syndicate repurchases previously distributed Securities in transactions to cover syndicate short positions, in stabilisation transactions or otherwise. Any of these activities may stabilise or maintain the market price of the Securities above independent market levels. The Distribution Agent is not required to engage in these activities and may end any of these activities at any time.

United States of America

The Securities, any interest therein and any Guarantee in respect thereof, and the securities to be delivered on exercise or redemption of the Securities (if any), have not been and will not be registered under the Securities Act or the securities laws of any state or other jurisdiction of the United States and are subject to U.S. tax law requirements. None of the Issuers or the Guarantor are registered or will register under the Investment Company Act of 1940, as amended. Trading in the Securities has not been approved by the U.S. Commodity Futures Trading Commission pursuant to the Commodity Exchange Act of 1936, as amended. The Securities, any interest therein and any Guarantee in respect thereof, and the securities to be delivered on exercise or redemption of the Securities (if any), may not be offered, sold, pledged, assigned, delivered or otherwise transferred, exercised or redeemed at any time, directly or indirectly, within the United States or to, or for the account or benefit of, U.S. Persons (as defined in Regulation S under the Securities Act ("**Regulation S**")). Each Distribution Agent (1) has acknowledged that the Securities, any interest therein and any Guarantee in respect thereof, and the securities to be delivered on exercise or redemption of the Securities (if any), have not been and will not be registered under the Securities Act or the securities laws of any state or other jurisdiction of the United States, and the Securities are not being offered, sold, pledged, assigned, delivered or otherwise transferred, exercised or redeemed and may not be offered, sold, pledged, assigned, delivered or otherwise transferred, exercised or redeemed at any time, directly or indirectly, within the United States or to, or for the account or benefit of, U.S. Persons; (2) has represented, as a condition to acquiring any interest in the Securities, that neither it nor any persons on whose behalf or for whose account or benefit the Securities are being acquired is a U.S. Person, that it is not located in the United States, and was not solicited to purchase Securities while present in the United States; (3) has agreed

not to offer, sell, pledge, assign, deliver or otherwise transfer, exercise or redeem any of the Securities at any time, directly or indirectly, within the United States or to, or for the account or benefit of, any U.S. Person and that hedging transactions involving any "equity securities" of "domestic issuers" (as such terms are defined in the Securities Act and regulations thereunder) may be conducted only in accordance with the Securities Act; (4) has agreed that any hedging transactions involving "equity securities" of "domestic issuers" (as such terms are defined in the Securities Act and regulations thereunder) will be conducted only in accordance with the Securities Act and (5) has agreed that, at or prior to confirmation of sale of any Securities (whether upon original issuance or in any secondary transaction), it will have sent to each distributor, dealer or person receiving a selling concession, fee or other remuneration that purchases Securities from it a written notice containing language substantially the same as the foregoing. As used herein, "**United States**" means the United States of America (including the states and the District of Columbia), its territories and possessions.

In addition, the Distribution Agents have represented and agreed that they have not offered or sold Securities and any Guarantee in respect thereof and will not offer or sell Securities and any Guarantee in respect thereof *at any time* except in accordance with Rule 903 of Regulation S under the Securities Act. Accordingly, the Distribution Agents have represented and agreed that neither they, their affiliates (if any) nor any person acting on behalf of any of them has engaged or will engage in any directed selling efforts with respect to Securities and any Guarantee in respect thereof, and they have all complied and will comply with the offering restrictions requirements of Regulation S. Terms used in this paragraph have the meanings given to them in Regulation S.

An offer or sale of Securities within the United States by any dealer (whether or not participating in the offering of such Securities) may violate the registration requirements of the Securities Act.

European Economic Area

In relation to each Member State of the European Economic Area (each, a "**Relevant Member State**"), the Distribution Agent has represented and agreed, and each further Distribution Agent appointed under the Distribution Agreement will be required to represent and agree, in relation to each Tranche of Securities, that it has not made and will not make an offer of Securities which are the subject of the offering contemplated by this Base Prospectus as completed by the Issue Terms in relation thereto (or are the subject of the offering contemplated by a Drawdown Prospectus, as the case may be) to the public in that Relevant Member State except that it may make an offer of such Securities to the public in that Relevant Member State:
