

PROHIBITION OF SALES TO EEA RETAIL INVESTORS - Other than with respect to offers of the Notes in Finland during the period from and including 19 May 2026 to and including 18 June 2026, the Notes are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); (ii) a customer within the meaning of Directive (EU) 2016/97 (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the "**Prospectus Regulation**"). Consequently, save as provided above, no key information document required by Regulation (EU) No. 1286/2014 (as amended) (the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to any retail investor in the EEA has been prepared and therefore offering or selling the securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

2. Interests of Natural and Legal Persons involved in the Issue/Offer

Save as discussed in the "*Subscription and Sale*" section of the Base Prospectus and save for any fees that may be payable to the Authorised Offeror (as described in item 6 below), so far as the Issuer is aware, no person involved in the offer of the Notes has an interest material to the offer

3. Reasons for the Offer, Estimated Net Proceeds and Total Expenses

- (i) Reasons for the offer: General Business Purposes

4. Performance of Basket of Underlying Equities, explanation of effect on value of investment and associated risks and other information concerning the Basket of Underlying Equities:

The Notes are Equity-Linked Redemption Notes issued at par and subject to Autocall Early Redemption. Consequently, the return of the Notes is overall linked to the worst performing Underlying Equity and depends on whether the Notes are automatically called (redeemed) before the Maturity Date. If (any of) the Underlying Equities depreciate by more than 30%, as measured from the Initial Valuation Date to the Final Valuation Date, the holder of the Notes may lose some or all of its investment.

If, on the relevant Autocall Valuation Date, the closing price of each Underlying Equity is at or above the Autocall Barrier of 100%, the Notes will automatically call (redeem) and the redemption price of 100% will be paid out on the following Early Redemption Date. If the Notes are not automatically called (redeemed) and (any of) the Underlying Equities depreciate by more than 30%, as measured from the Initial Valuation Date to the Final Valuation Date, then the Final Redemption Amount of the Notes equals the performance of the worst performing Underlying Equity.

If, on the relevant Interest Determination Date, the closing price of each Underlying Equity is at or above 100% of its closing price on the Initial Valuation Date, the coupon (interest) is calculated by the Calculation Agent as the numeric value of the observation date (4, 5, 6... 24) multiplied by INDICATIVELY 4.75% (*to be determined no later than on the Issue Date, subject to a minimum of 4.25%*) minus the sum of interest (if any) paid prior to the relevant Interest Determination Date. The coupon is only paid once if the Notes are automatically called (redeemed), and if the closing price of one or more of the Underlying Equities is below 100%, as measured on the relevant Interest Determination Date, no coupon is paid on that Interest Payment Date.

If the Notes are not automatically called (redeemed) prior to the Final Valuation Date, a coupon is paid out if the performance level is at or above 70% but below 100% of the closing price on the Initial Valuation Date. The amount of such coupon equals 24 times the Specified Rate, divided by 2, meaning that the holder of the Notes receives half of the total accumulated coupons.

2.3 What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

Strategic risk: The risk of not achieving strategic business objectives such as profit or loss targets due to either internal or external factors.

Credit risk: The risk of loss arising from the failure of a borrower or obligor to meet its contractual obligation towards the Group.

Market risk: The risk of loss in on- and off-balance sheet positions arising from adverse movements in market prices.

Liquidity risk: The risk of not having sufficient liquidity or funding which can result in having to issue instruments at excessive costs, inability to pursue the business strategy, or failing payment obligations.

Operational risk: The risk of loss resulting from inadequate or failed internal processes, people and systems or from external events, including legal risks.

Information technology and security risk: Risk of loss due to breach of confidentiality, failure of integrity of systems and data or inappropriateness or unavailability of systems and data. This includes security risks resulting from inadequate or failed internal processes or external events including cyber-attacks.

Financial crime: The risk of internal or external parties using the Group's infrastructure, products and services to move and conceal proceeds of criminal conduct, defraud, manipulate or circumvent established rules, laws and regulations, particularly in the areas of money laundering, terrorist financing, sanction violations as well as bribery and corruption, fraud and tax evasion/facilitation of tax evasion.

3. KEY INFORMATION ON THE SECURITIES

3.1 *What are the main features of the securities?*

The Notes are EUR denominated equity-linked interest Notes and equity-linked redemption Notes (subject to autocall early redemption) due 3 July 2032 (subject to adjustment), with International Securities Identification Number (ISIN) XS3385464758.

The Notes have a specified denomination of EUR 1,000 and the Notes may be subscribed in a minimum lot of 5 Notes.

The rights attached to the Notes

Performance of basket of underlying equities, explanation of effect on value of investment and associated risks and other information concerning the basket of underlying equities:

The Notes are equity-linked redemption Notes issued at par and subject to autocall early redemption. Consequently, the return of the Notes is overall linked to the worst performing underlying equity and depends on whether the Notes are automatically called (redeemed) before the maturity date. If (any of) the underlying equities depreciate by more than 30%, as measured from the initial valuation date to the final valuation date, the holder of the Notes may lose some or all of its investment.

If, on the relevant autocall valuation date, the closing price of each underlying equity is at or above the autocall barrier of 100%, the Notes will automatically call (redeem) and the redemption price of 100% will be paid out on the following early redemption date. If the Notes are not automatically called (redeemed) and (any of) the underlying equities depreciate by more than 30%, as measured from the initial valuation date to the final valuation date, then the final redemption amount of the Notes equals the performance of the worst performing underlying equity.

If, on the relevant interest determination date, the closing price of each underlying equity is at or above 100% of its closing price on the initial valuation date, the coupon (interest) is calculated by the calculation agent as the numeric value of the observation date (4, 5, 6 ... 24) multiplied by INDICATIVELY 4.75% (*to be determined no later than on the issue date, subject to a minimum of 4.25%*) minus the sum of interest (if any) paid prior to the relevant interest determination date. The coupon is only paid once if the Notes are automatically called (redeemed), and if the closing price of one or more of the underlying equities is below 100%, as measured on the relevant interest determination date, no coupon is paid on that interest payment date.

If the Notes are not automatically called (redeemed) prior to the final valuation date, a coupon is paid out if the performance level is at or above 70% but below 100% of the closing price on the initial valuation date. The amount of such coupon equals 24 times the specified rate, divided by 2, meaning that the holder of the Notes receives half of the total accumulated coupons.

Under the terms of the Notes, certain dates may be adjusted if the date specified is either not a business day or not a trading day. Any adjustments may affect the return (if any) received. The terms of the Notes also provide that if certain exceptional events occur (1) adjustments may be made to the Notes and/or (2) the Issuer may terminate the Notes early. These events principally relate to the basket of underlying equities, the Notes and the Issuer. The return (if any) received on such early termination is likely to be different from the scenarios described above and may be less than the amount invested.

Ratings: The Issuer has been rated by each of S&P Global Ratings Europe Limited (“**S&P**”), Fitch Ratings Ireland Limited (“**Fitch**”), Moody’s Investors Service (Nordics) AB (“**Moody’s**”), Scope Ratings GmbH (“**Scope**”) as follows:

long-term Issuer rating	S&P: A+	Fitch: AA	Moody's: A1	Scope: AA-
short-term Issuer rating	S&P: A-1	Fitch: F1	Moody's: P-1	Scope: S-1+

A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Transferability of the Notes: There are no restrictions on the free transferability of the Notes, subject to the offering and selling restrictions of the United States, the EEA, the United Kingdom, Denmark, Finland, Norway and Sweden and the laws of any jurisdiction in which the Notes are offered or sold.

Status (Ranking): The Notes are issued on a senior basis. The Notes will constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer and will rank pari passu without any preference among themselves and at least pari passu with all other ordinary, non-preferred, unsubordinated and unsecured obligations of the Issuer, present and future, save for certain mandatory exceptions provided by law. The Notes may be subject to the power to write down or convert relevant capital instruments and eligible liabilities and the bail-in tool under EU Directive 2014/59/EU (BRRD) and EU Directive 2019/879 (BRRD II) as implemented into Danish law via Act No. 2110 of 22 December 2020, as amended from time to time, which may result in holders losing some or all of their investment.

Taxation: The Issuer shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, presentation and surrender for payment or enforcement of any Note and all payments made by the Issuer shall be made subject to any tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

Negative pledge and cross-default: The terms of the Notes will not have the benefit of a negative pledge or a cross-default.

Events of default: The terms of the Notes will contain, amongst others, the following events of default and following any such event the Notes will be repayable at their early redemption amount: (i) default in payment of any principal or interest due in respect of the Notes, continuing for a period of 5 business days after the date on which notice has been given to the Issuer; (ii) default in the performance or observance of any other obligation of the Issuer under the Notes and such default remains unremedied for 30 days after notice requiring remedy has been given to the Issuer; (iii) a legal process is levied or enforced or sued out upon or against any part of the assets of the Issuer which is material in its effect upon the operation of the Issuer and is not discharged or stayed within 60 days of having been so levied, enforced or sued out; (iv) events relating to the bankruptcy of the Issuer; and (v) the Danish Financial Supervisory Authority files a petition for the suspension of payments of the Issuer.

Meetings: The terms of the Notes will contain provisions for calling meetings of holders (including by way of conference call or videoconference platform) to consider matters affecting their interests generally or to pass resolutions. These provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

Governing law: English law, except that the acknowledgement by the holders of the Danish statutory loss absorption powers shall be governed by Danish law.

Representative of holders: Not Applicable – no representative of noteholders has been appointed by the Issuer.

3.2 Where will the securities be traded?

Application is expected to be made by the Issuer for the Notes to be admitted to trading on the regulated market of Euronext Dublin.

3.3 What are the key risks that are specific to the securities?

Risks associated with the Notes include the following:

Liquidity and secondary market risk: the Notes may have no established trading market when issued, and one may never develop. Investors may not be able to sell their Notes easily or at a price greater than the amount invested.

Risk of losing all or some of the investment: many factors are likely to affect the value of and return on the Notes, including interest rates, exchange rates, performance of the reference items and economic, financial and political factors.

The Notes may be modified: the terms of the Notes may be modified without the consent of the investor in certain circumstances. This will not always require the decision of a meeting of investors.

Exchange rate risks: exchange rate movements may adversely impact an investor where the Notes are not denominated in the investor's own currency and the imposition of exchange controls could result in an investor not receiving payment on the Notes.

Risk of adjustment or early redemption following a disruption or additional disruption event: in this case any adjustments made or an early redemption of the Notes at the early redemption amount may not be a favourable outcome for investors.

Risk of volatility: movements in the price of the basket of equity securities may be subject to significant fluctuations. The timing of this may adversely affect the return to investors, even if the average level is consistent with their expectations.

Investors have no claim against the reference item: investors are exposed to the performance of the relevant reference item but will have no recourse to such reference item or to the issuer or sponsor of the reference item.

Kreditrisk: Risken för förlust som uppstår när en låntagare eller gäldenär inte uppfyller sina avtalsenliga skyldigheter gentemot Koncernen.

Marknadsrisk: Risken för förlust i balans- och utanför balansräkningen som uppstår från ogynnsamma rörelser i marknadspriser.

Likviditetsrisk: Risken att inte ha tillräcklig likviditet eller finansiering vilket kan resultera i att behöva emittera instrument till avsevärt höga kostnader, oförmåga att genomföra affärsstrategin eller att inte uppfylla betalningsskyldigheter.

Operativ risk: Risken för förlust som uppstår från otillräckliga eller misslyckade interna processer, människor och system eller från externa händelser, inklusive legala risker.

Informationsteknologi- och säkerhetsrisk: Risken för förlust på grund av brott mot konfidentialitet, bristande integritet i system och data eller olämplighet eller otillgänglighet av system och data. Detta inkluderar säkerhetsrisker som uppstår från otillräckliga eller misslyckade interna processer eller externa händelser inklusive cyberattacker.

3. NYCKELINFORMATION OM VÄRDEPAPPAREN

3.1 Vilka är värdepapperens viktigaste egenskaper?

Obligationerna är EUR denominerade Obligationer med aktierelaterad ränta och aktierelaterad återbetalning (med förbehåll för autocall förtida inlösen) med förfalldag den 3 juli 2032 (med förbehåll för justeringar) med ISIN-kod XS3385464758.

Obligationerna har en angiven valör om EUR 1 000 och Obligationerna kan tecknas i minsta post om 5 Obligationer.

Rättigheter tillhörande Obligationerna

Utveckling av den underliggande aktiekorgen, förklaring av påverkan på värdet av investeringen och medföljande risker och övrig information rörande den underliggande aktiekorgen:

Obligationerna är Obligationer med aktierelaterad återbetalning som emitteras till par och som är föremål för automatisk inlösen (autocall). Genom detta är avkastningen på Obligationerna övergripande kopplat till den sämst presterande underliggande aktien och beror på om Obligationerna automatiskt löses in före förfalldagen. Om någon av de underliggande aktierna minskar i värde med mer än 30%, mätt från den första värderingsdagen till den sista värderingsdagen, kan innehavaren av Obligationerna förlora delar av eller hela sin investering.

Om stängningskursen på den relevanta värderingsdagen för automatisk inlösen för varje underliggande aktie är på eller över inlösenbarriären på 100%, kommer Obligationerna automatiskt att lösas in och inlösenpriset på 100% betalas ut på den följande förtida inlösendagen. Om Obligationerna inte automatiskt löses in och någon av de underliggande aktierna minskar i värde med mer än 30%, mätt

från den första värderingsdagen till den sista värderingsdagen, kommer det slutliga inlösenbeloppet för Obligationerna att motsvara utvecklingen av den sämst presterande underliggande aktien.

Om stängningskursen på den relevanta räntebestämningdagen för varje underliggande aktie är på eller över 100% av dess stängningskurs på den första värderingsdagen, beräknas kupongen (räntan) av beräkningsagenten som det numeriska värdet av observationsdatumet (4, 5, 6 ... 24) multiplicerat med INDIKATIVT 4,75% (att fastställas senast än på emissionsdagen, med en lägsta nivå på 4.25%) minus summan av kuponger (om några) som betalats före den relevanta räntebestämningdagen. Kupongen betalas endast en gång om Obligationerna blir föremål för automatisk inlösen, och om stängningskursen för en eller flera av de underliggande aktierna är under 100%, mätt på den relevanta räntebestämningdagen, betalas ingen kupong på den räntebetalningsdagen.

Om Obligationerna inte blivit föremål för automatisk inlösen före den slutliga värderingsdagen, betalas en kupong ut om utvecklingen är på eller över 70% men under 100% av stängningskursen på den första värderingsdagen. Beloppet för en sådan kupong motsvarar 24 gånger den angivna räntesatsen, dividerat med 2, vilket innebär att innehavaren av Obligationerna får hälften av de totalt ackumulerade kupongerna.

Enligt villkoren för Obligationerna kan vissa datum justeras för det fall det aktuella datumet antingen inte är en bankdag eller handelsdag. Varje justering kan påverka avkastningen (om någon). Villkoren för Obligationerna anger även att för det fall extraordinära händelser inträffar (1) kan justeringar av Obligationerna göras och/eller (2) kan Emittenten säga upp Obligationerna i förtid. Dessa händelser hänför sig till den underliggande aktien, Obligationerna och Emittenten. Avkastningen (om någon) vid sådan förtida uppsägning kommer troligtvis avvika från de scenarier som beskrivs ovan och kan bli mindre än det investerade beloppet.

Kreditbetyg/rating: Emittenten har åsatts kreditbetyg av var och en av S&P Global Ratings Europe Limited ("S&P"), Fitch Ratings Ireland Limited ("Fitch"), Moody's Investors Service (Nordics) AB ("Moody's") och Scope Ratings GmbH ("Scope") enligt följande:

Emittentens långfristiga kreditbetyg	S&P: A+	Fitch: AA	Moody's: A1	Scope: AA-
Emittentens kortfristiga kreditbetyg	S&P: A-1	Fitch: F1	Moody's: P-1	Scope: S-1+

Ett kreditbetyg är inte en rekommendation av köpa, sälja eller behålla värdepapper och kreditbetyget kan bli föremål för suspension, sänkning eller tillbakadragande vid vilken tidpunkt som helst av aktuellt kreditvärderingsinstitut.

Obligationernas överlåtbarhet: Det finns inga begränsningar avseende Obligationernas överlåtbarhet, med förbehåll för begränsningar av erbjudanden och försäljning i USA, EES, Storbritannien, Danmark, Finland, Norge och Sverige och lagarna i alla jurisdiktioner där Obligationerna erbjuds eller säljs.

Status (Förmånsrätt): Obligationerna ges ut på oprioriterad basis. Obligationerna kommer att utgöra direkta, ovillkorliga, icke-efterställda och icke-säkerställda förpliktelser för Emittenten och kommer att rankas lika sinsemellan (*pari passu*) utan någon preferens sinsemellan och åtminstone *pari passu* med alla andra nuvarande och framtida icke-prioriterade, icke-efterställda och icke-säkerställda förpliktelser för Emittenten, med undantag för vissa obligatoriska undantag enligt lag. 3.2 Var kommer värdepapperen att handlas?

Ansökan förväntas göras av Emittenten för att ta upp Obligationerna till handel på den reglerade marknaden Euronext Dublin.

3.3 Vilka nyckelrisker är specifika för värdepapperen?

Obligationerna är förenade med följande risker:

Likviditets- och andrahandsmarknadsrisk: det finns risk för att det inte finns någon andrahandsmarknad för Obligationerna när dessa emitteras och det är möjligt att en sådan aldrig utvecklas. Det är möjligt att investerare inte på ett enkelt sätt eller till ett pris högre än det investerade kommer att kunna sälja sina Obligationer.

Risk att förlora hela eller delar av investeringen: många faktorer kommer sannolikt att påverka värdet och avkastningen av Obligationen, däribland inkluderat ränta, valutaväxlingskurser, utveckling av referensobjekt och ekonomiska, finansiella och politiska faktorer.

Obligationerna kan ändras: villkoren för Obligationerna kan i vissa fall ändras utan investerarens godkännande. En sådan ändring kommer inte alltid att kräva beslut genom fordringshavarmöte.

Valutakursrisker: valutakursrörelser kan påverka en investerare negativt där Obligationerna inte är denominerade i investerarens egen valuta och införandet av valutakontroller kan leda till att en investerare inte får betalning på dessa Obligationer.

Risk för justering eller förtida inlösen efter en störnings- eller ytterligare störningshändelse: i detta fall kan eventuella justeringar som görs eller en förtida inlösen av Obligationerna till det förtida inlösenbeloppet behöver detta inte ge ett gynnsamt resultat för investerare.

Risk för volatilitet: rörelser i priset på korgen av aktier kan vara föremål för betydande fluktuationer. Tidpunkten för detta kan negativt påverka avkastningen till investerare, även om den genomsnittliga nivån är i linje med deras förväntningar.

Investerare har ingen fordran mot referensobjektet: investerare utsätts för prestandan hos det relevanta referensobjektet men kommer inte att ha någon tillgång till sådant referensobjekt eller till Emittenten eller sponsorn av referensobjektet.
