

Africa Languages and Tech Solutions

1500

Africa is a continent that is characterised by its rich cultural heritage and affiliation. There are over 1500 languages in Africa, amongst which these are the most popular:

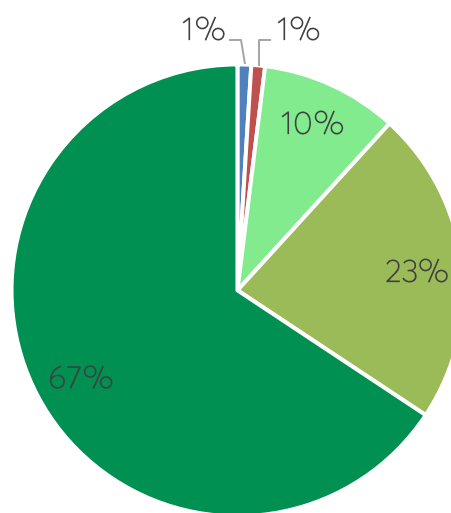

Most Spoken Languages in Africa

Africans living in other parts of the world

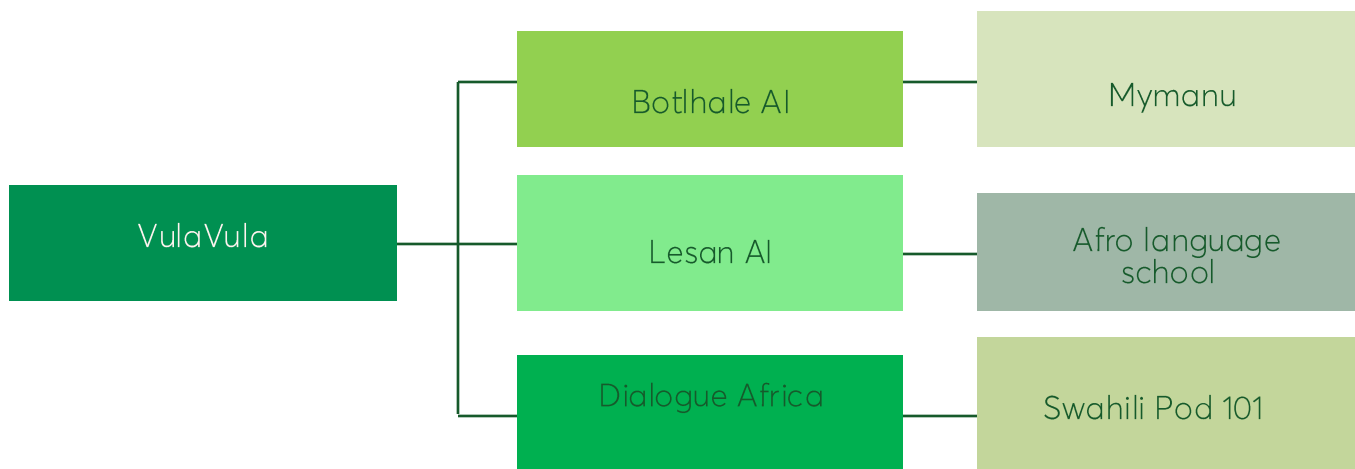

Unfortunately, African languages, a corner piece of African culture, have not been fully integrated into the world system, hence making it quite difficult for Africans to navigate their way around the world.

■ Asia ■ Europe ■ North America ■ South America ■ Caribbean

Out of over 1,200 companies in Africa's tech sector, only about 234, have developed solutions based on African languages that allow Africans to learn African languages. These innovators use AI trained specifically for African tongues creating a more inclusive digital experience for Africa's diverse population.

At Spurt! we tackle the challenges facing small businesses and amplify them from local ventures into regional giants by leveraging the expertise of a pool of consultants.
