

By Expo School Programme & Terra

The **Terra Bees**

In 2017 bees were found on the Terra construction site.

They were carefully rehomed off-site and cared for by expert beekeepers.

The Jane Goodall Pollinator Garden

In 2024, the bees were brought back home

Today, approximately 30,000 bees are thriving at the Jane Goodall Pollinator Garden at Terra.

Why bees?

 Pollinators, such as bees, are responsible for 1 in every 3 mouthfuls of the food we eat

• The UAE currently imports around 95% of its bees. Hundred Hives will exclusively use bees raised in the UAE and adapted to the climate.

 Human activities, such as pollution, climate change, and habitat loss are weakening bee populations in the UAE

Hundred Hives aims to:

- Educate students about the importance of pollinators and food security
- Create beekeepers who drive biodiversity efforts by supporting bee populations.
- Build academic interest and real data to help ensure the future of UAE bee populations.

Guiding Schools from Beginners to Expert Beekeepers

Level 1
Beginner
Beekeepers

Terra provides all skills and tools necessary for students and teachers to gain confidence in managing their own beehives Level 2
Novice
Beekeepers

The school begins to play a more active role in hive maintenance with more students and teachers being trained.

Level 3
Experienced
Beekeepers

Students and teachers take ownership of hive management, still with support of Terra.

Schools begin supporting Level 1 beekeepers

Level 4 Expert

Schools are now independent beekeepers, but continue to actively contribute to the Hundred Hives network.

How it works (2025 Launch)

1

May-July 2025

Pre-installation:

Site visit to determine eligibility

2

September 2025

Training:

Teachers and students

3

October 2025

Hive Installation

Co-branded beehives installed in the school

Bee-come a Sponsor

Sponsor a Hive. Support Sustainability. Save Our Bees.

Bee part of the change

Help transform school grounds into living labs of biodiversity Gift unique opportunities to your own staff

Extract your own honey during teambuilding events for your staff.

Get involved in citizen science days

Build Buzz for your Brand

Align with a long term, high impact education initiative and earn authentic visibility Leave a Lasting Legacy

Your support will live on in the minds of future ecoleaders

Sponsor benefits include:

Webpage

Visibility on the Hundred Hives Webpage

Staff Incentives

Unique and impactful teambuilding days for your staff

Media

Acknowledgement on our Social Media channels and press releases

Beekeeper Conference

Delegate tickets and exhibition space at the conference

Co-Branded Hives

Terra Beehives displaying your logo
