

How am I doing?

I'm looking to gain some feedback to support with my development so I can better understand what I am really good at and where I could improve. Based on our recent experience of working together I'd appreciate your feedback below to help me develop.

We worked together on/I supported you with

*please enter a project/piece of work/example of where you worked together

What was I really good at? (Please provide specific examples where possible)

What can I improve for the future? How would that have helped us get a better outcome for the above?

What specifically can I do to better to develop my skills?

Is there any other feedback which you feel would be useful to my development?
