PubNub

FOR EDTECH

Create interactive instructional features that improve student focus and engagement

BENEFITS

Whether you offer an online learning, upskilling, or assessment platform, with PubNub, users can build online/offline detection for chat, online whiteboards, live quizzes, and programmable leaderboards with ease. Create seamless conversations and collaboration, ensuring that instructors and students get the most out of their learning experience.

Provide real-time communication & engagement amongst students and between students and teachers

Insure a reliable way for instructors to engage with students that mirrors a traditional classroom

Control visibility into lesson effectiveness

FEATURES

- In-app chat
- Mobile push notifications
- Real-time whiteboard functionality
- Presence & state detection
- Access controls
- Real-time data aggregation
- Interactive dashboards

" *When a teacher gives a feedback point on ClassDojo, it calls PubNub and sends a popup. Since we started, we sent over a billion of those, all through PubNub. PubNub allows us to scale up to hundreds of thousands of concurrent connections with no problems at all.*

Liam Don
Co-founder & CTO, ClassDojo

WHY PUBNUB?
