

## Quickly deliver key features that improve player engagement and retention

### BENEFITS

PubNub enables you to quickly integrate real-time interactivity into your mobile, PC, or console games, regardless of scale. From game lobbies and player matching to in-game chat, live leaderboards, and push notifications, PubNub can help you to better engage and retain players.

Build community through game lobbies, chat, and social features

Engage players with in-game alerts, challenges, and leaderboards

Keep data from multiple players in the same game room synchronized

### WHY PUBNUB?

Our robust APIs allow you to implement real time functionality fast.
