COMMERCIAL ELECTRICAL BIDDING PROPOSAL

WHAT IS A BIDDING PROPOSAL IS USED FOR?

With a bid, you are expected to submit a document that illustrates the price for performing a specified amount of work at a specific price within a certain amount of time. A bid will be more detailed than an estimate or quote. Bids are more commonly used in government or large corporate projects.

WHAT IT LOOKS LIKE

A bidding proposal template will include:

RESPONSIBILITIES

Detailed description of the contractor's exact responsibilities for the term of the estimate and the location of work.

TIME

Time length of the proposal with provisions written on how the agreement can be terminated early.

PAYMENT

Payment arrangements, including payment terms and amounts.

The above prices, specifications and conditions are satisfactory. You are hereby authorized to do the above work as specified. It is agreed and understood by the parties that all equipment and parts which are sold pursuant hereto shall not become fixtures or part of the real estate where they are placed. Said parts and equipment shall at all times remain personal property and the title thereto shall remain with the seller until payment in full is received. Buyer hereby agrees that all parts and equipment may be repossessed in the event of non-payment.

COMMERCIAL ELECTRICAL JOB COSTING

Material: The material costs include equipment, material (i.e., parts, pieces, copper, piping, tape, insulation, wiring, etc.), and accessories. Remember, material is taxable only if we do not carry a non taxable cert with the supply house.

Labor: Labor costs include installation labor plus any shop labor. The shop labor includes the labor to pull the material, any fabrication, and kitting. Labor is based upon Apprentice/ Installer. Miscellaneous expenses includes subcontracting, material delivery, removal, and disposal charges, and warranty costs. Warranty costs are the direct cost to purchase a manufacturer or third party extended warranty.
