Connecting you with the support and services you need through social prescribing

What is Social Prescribing?

Social prescribing connects people to non-medical support in the community to improve their health and wellbeing. It's a holistic approach that recognizes that health is influenced by a range of social, economic, and environmental factors.

Through social prescribing, youth with special needs and their caregivers can be connected to various community resources such as:

Social Connection

Peer support groups, community events, and social clubs

Skill Development

Workshops, classes, and training opportunities

Creative Activities

Arts, music, and other creative outlets
