

A well of resources for farmers to ease the essential and challenging work they do every day

American Farmland Trust

Our charitable partner for Farmer Batch, [American Farmland Trust](#) provides resources and offers micro-grants to help dairy farms with succession planning, protecting their land, adopting climate-smart farming practices and generating renewable energy, and business planning.

NY Farm Net

Available to New York farms of any industry, big or small, [NY Farm Net](#) helps with financial and business planning, family strength, and personal well-being.

Cornell University's Pro-Dairy Program

A supporter of Chobani's [Milk Matters™](#) program, Cornell University's [Pro-Dairy Program](#) works with farmers to increase the profitability and competitiveness of the New York dairy industry.

The Chobani Scholars program

Offering multi-year scholarships, [The Chobani Scholars](#) program is for students attending Cornell University and the University of Idaho, that have a family connection to dairy farming and want to pursue their own career in the dairy industry.

The National Farmers Union's Farm Crisis Center

With a variety of resources, The National Farmers Union's [Farm Crisis Center](#) helps farmers through stressful times.

Farm Aid's Hotline

Farm Aid's mission is to listen to family farmers. [Farm Aid's Hotline](#) exists as the only national hotline specifically for family farmers. In addition to providing referrals to financial, legal, and behavioral health resources to farmers in need, Farm Aid works to find solutions that create a strong and vibrant family farm system of agriculture.

Dairy Together

A farmer-led movement, [Dairy Together](#) is working to rebuild a viable dairy economy for family farmers and rural communities by pushing for policy reform and other mechanisms.

The Cooperative Extension System (CES)

A partnership between land-grant colleges and universities and the USDA's National Institute of Food and Agriculture, [The Cooperative Extension System](#) (CES) brings vital, practical information and cutting edge research discoveries to farmers to put into practice.
