Inc. Regionals Recognizes Infinity Labs as One of the Fastest-Growing Private Companies in the Midwest

Dayton, OH – Infinity Labs has achieved a major corporate milestone as a 2025 Inc. Regionals national awardee. Ranked #38 on Inc.'s Regional Midwest list of 139 private companies, Infinity Labs demonstrated an impressive 154% revenue growth from 2021 to 2023.

According to Inc., awardees like Infinity Labs “drive real impact in their home regions, create thousands of jobs, and generate millions in revenue. They are dynamic growth engines on an upward trajectory, and nothing is as compelling as a success story.”

Jason Molnar, Infinity Labs' Chief Growth and Marketing Officer, credits the company's success to its founding vision: creating a workplace worth retiring from. “Our owners group brought nearly a century of combined experience in defense and national security across both government and private sectors. From the beginning, it wasn't a question of if we'd succeed, but when.”

Molnar added, “Infinity Labs was built to be a lasting and dependable alternative to traditional primes in the defense technology marketplace. Our 154% revenue growth is a direct result of executing our vision, delivering on our mission, and relentlessly pursuing excellence in every aspect of our business.”
