Infinity Labs® Record Revenue and Growth Solidify Second Consecutive Inc. Regionals® Award as One of the Fastest-Growing Private Companies in the Midwest

Dayton, OH – Infinity Labs has achieved another major corporate milestone as a 2026 Inc. Regionals® national awardee. Ranked #22 on Inc.'s Regional Midwest list of 144 private companies, Infinity Labs demonstrated record revenue growth of 233% over two years. Infinity climbed 16 positions year-over-year and is the only Dayton, OH, company on the nationally ranked list.

An extension of the national Inc. 5000 list, the Regionals list offers a data-driven look at the independent small businesses driving growth across the Midwest economy. Companies on this year's list demonstrate exceptional revenue expansion, resilience, and job creation during a challenging economic period.

According to Inc. editorial director, Bonny Ghosh, "the honorees on this year's Inc. Regionals list achieved exceptional growth at a time when the odds were stacked against them. Amid inflation, supply chain disruptions, and ongoing economic uncertainty, they didn't just persevere – they innovated, adapted, and thrived. Their resilience made them standouts in their industries and true growth engines in their regions."

Jason Molnar, Infinity Labs' Chief Growth and Marketing Officer, attributes the company's continued success to its agile and autonomous management teams and engineers. "The people who work at Infinity are bright, driven, and hungry for a challenge up and down the organization. This award is a team win and the culmination of that drive and success."

Molnar added, "Infinity Labs was built to be a lasting and dependable alternative to traditional defense primes in the defense technology marketplace. Our 233% revenue growth is a direct result of executing our vision, delivering on our mission, and relentlessly pursuing excellence in every aspect of our business."
