## **Military Times Names Infinity Labs as a Best for Vets: 2025 Employers; #2 in Defense & Aerospace in Ohio**

Dayton, OH – Military Times® announces its Best for Vets: 2025 Employers rankings, recognizing Infinity Labs® as top national employer demonstrating exceptional dedication to hiring, retaining and supporting America's veterans.

The 2025 rankings reflect an increase from employer submissions last year, underscoring sustained growth and momentum across sectors from defense and manufacturing to technology, healthcare and finance.

“For more than a decade, Best for Vets has set the standard for corporate accountability in veteran employment,” said Jon Simkins, Executive Editor of Military Times and Sightline Media Group. “Every employer that makes this list is doing more than checking a box, they are actively building cultures that value service, skill and leadership.”

Each year, Military Times surveys hundreds of companies and organizations nationwide. The methodology evaluates recruitment and onboarding practices, retention and career advancement programs, and support for veterans and military spouses. Responses are verified and scored to ensure a rigorous, unbiased ranking.

Infinity's Director of Human Resources, Tarren Khoury, knows recognition as a Best for Vets: Employers is an honor worth celebrating. According to Khoury, “supporting veterans isn’t a program for us – it’s part of who we are. A veteran’s resilience, ingenuity and leadership reflect the strength to adapt to changing circumstances, the drive to forge possibilities and new pathways, and the mindset that empowers our teams to thrive together every day. Further, bringing veterans into our workforce strengthens our mission, our culture, and the impact we’re able to make with our mission partners.”

Veterans and engineers alike, to view current employment opportunities, please visit <https://i-labs.tech/join-us> and apply today.
