Infinity Labs® Wins Prime Award on \$46B Air Force Life Cycle Management Center (AFLCMC) Contract

Dayton, OH | Eglin Air Force Base, FL – It's another bright day in Gem City and at our operating location on the Emerald Coast as Infinity Labs secures a prime award on the \$46 billion-dollar multiple-award IDIQ Enterprise Wide Agile Acquisition Contract (EWAAC) managed by AFLCMC at Eglin Air Force Base. EWAAC supports the rapid development, acquisition, and modernization of weapons technologies and systems across all phases of the armament lifecycle.

The success of this capture is a testament to our teams' transformative work across operating locations and engineering disciplines. These solutions include Modeling and Simulation, Cyber, Advanced Research and Development (R&D), Digital Engineering, and Test and Evaluation (T&E) proving that small business innovation, commitment to excellence, and relentless pursuit of our customer's needs matter to our valued mission partners. According to Huntsville Operations Lead Kenton Brazelle, "The EWAAC vehicle opens doors for our existing customers and those that have been trying to reach Infinity for some time. Our work in the Digital Engineering and T&E ecosystems nests within our industry-leading modeling and simulation expertise, providing mission partners a technical edge and a return on investment (ROI) advantage over other industry vendors."

As a prime contractor, Infinity will serve Eglin's Armament Enterprise and the numerous mission partners who utilize the EWAAC contract vehicle with the same passion, intensity, and audacity noted in the Weapons and Armament Directorate motto of 'Go Fast, Think Big.' We'll keep that promise to EWAAC customers and look forward to solving tomorrow's challenges today with our new mission partner.

Headquartered in Dayton, OH, Infinity Labs specializes in transforming national defense through elite talent and tailored technology solutions in Modeling, Simulation & Analysis, Cyber, Advanced R&D, Digital Engineering, and Training Solutions. Offices now open in Colorado Springs, CO, and Huntsville, AL.
