

Environment Policy

At Asahi Beverages, we acknowledge the strong link between our raw materials and the environment from which they are sourced. Turning natural resources into high quality beverages for the enjoyment of our consumers is what we do. In doing this, we are committed to minimising the impact we have on the environment.

Commitments

Recognising the importance of our environmental responsibilities, we commit to:

Compliance

Comply with all relevant environmental legislation and other relevant obligations

Accountability

• Communicate with the people at our workplaces about their environmental responsibilities, and provide them with the information, training and supervision required to understand and uphold them

Management of Systems

Implement and operate an effective, risk-based environmental management system

Environmental Impact Reduction

Identify the environmental aspects relevant to our business and take action to eliminate, minimise or mitigate their impacts. This will include but not be limited to:

- Reducing our scope 1, 2 and 3 greenhouse gas emissions through improved energy efficiency, utilisation of renewable energy and working with our value chain.
- Improving the efficiency with which we use water, packaging and other resources.
- Moving towards zero waste to landfill by applying circular economy principles to our waste streams wherever practicable.
- Integrating environmental sustainability into strategy, product and packaging design and procurement.
- Protecting ecosystems and biodiversity through the prevention of pollution and promotion of sustainable agricultural practices with key suppliers.
- Collaborating with business partners, suppliers, industry bodies, government agencies, community groups and other concerned organisations to promote and drive environmentally sustainable practices.
- Addressing any environment incidents in a timely manner
- Establish, measure and review objectives and targets to continually reduce our impact on the environment.
