Technical information

Research & Development Corner

Lenor Professional contains innovative technologies which help deliver a fresh clean scent as well as condition your items making them irresistibly soft.

The continuous release of new diffusive perfume technology drives in laundry bloom and freshness even after tumble drying, enabling a better freshness experience across touchpoints.

Lenor contains softening micro drops which penetrate deep into the fibres during the wash, helping to reduce the friction and protect the fabric from wear and tear.

Safety Instructions

Please make sure your employees read and understood the product label and your COSHH assessment (Chemical Risk Assessment in EU) before using this product. The label contains directions for use and both label and SDS contain hazard warnings, precautionary statements, first aid procedures and storage information. SDS are available on-line at our website www.pgpro-msds.com or can be provided to you via the call center (+33-XXX-XXXX).

Usage & Dosing Instructions

Use in last rinse.

Dose correct amount. Using more than recommended can increase fabric flammability.

Where to Use

- Safe to use on white and colored textiles.
- Can be used at wash temperatures from 20 till 95C.
Always follow the instructions as mentioned on the fabric label.

Where Not to Use

- Should not be used on children's sleepwear or garments labeled as flame resistant as it may reduce flame resistance.
- On garments made with fluffier fabrics (such as fleece, velour, chenille).
