Technical information

Research & Development Corner

Get spotless shine right out of the machine

- **A combination of high alkalinity and surfactants powers through tough deposits.** High alkalinity formula hydrates soils allowing efficient penetration by surfactants which lift them away.
- **Triple limescale prevention technology** helps soften the water, reduce the formation of limescale in the wash and the deposit of minerals on the items/dishwasher.

Technical Description

- **EAN code:**
- **Appearance:** Liquid
- **Smell:** Odorless
- **PH (10%):** 13
- **Density:** 1267 g/l
- **Water solubility:** High

Safety Instructions
