Elisa Ossino applies her trademark light touch, bringing natural stone and metal together in elegant contemporary harmony. No detail has been left to chance, with a level of precision usually found in high-end watchmaking evident in effects such as the Spaghetti textured ribbing that encases the handle. Natural stone combines with the sophisticated gunmetal finish. These flourishes can be customised, allowing clients to choose the same stone as that used on the wall, so that the handle is scarcely visible, thus taking the Salvatori Total Look concept to another level. And, for those who want an alternative to stone, the disc can be substituted by a metal insert to blend in with the fitting.

Modelli essenziali, moderni e minimalisti in cui marmo e metallo si mescolano e si completano. Nella rubinetteria Spaghetti, disegnata da Elisa Ossino, tutti i dettagli sono curati alla perfezione: le scanalature tipiche della finitura Spaghetti percorrono il bordo delle manopole, con una lavorazione degna delle opere di alta orologeria, precisa e attenta in tutti i suoi minuscoli particolari. A ornare la rubinetteria, è inserito un disco in pietra altamente personalizzabile, o nello stesso metallo della finitura; in questo modo, le manopole si fondono con l'ambiente circostante per un effetto Total Look curato fin nei minimi dettagli.
