

# Energy Partner On Demand

Your personalized business solution for managing energy costs.

**Earn incentives by participating in Peak Time Events.**

**Get a personalized load reduction plan for your business.**

**Support your sustainability goals.**

PGE's Energy Partner On Demand empowers industrial facilities and municipalities to maximize efficiency and profitability with flexible energy solutions.

Tailored to your unique operations, this program rewards you for optimizing your energy use during peak demand.

## Take action. Earn financial incentives.

There are certain times throughout the year when higher strain is placed on the electricity grid, resulting in what we call "Peak Time Events."

Through Energy Partner On Demand, our experts help you identify ways your business can shift its energy use during these peak times. On Demand is flexible and customizable, allowing you to participate when it makes the most sense for your business. And by partnering with us to help keep power reliable, affordable and sustainable, you'll not only be saving your business money, but you'll be earning some too!

## Ready to take control of your energy costs?

Discover how a free Energy Savings Checkup can uncover customized ways your business can reduce costs and improve efficiency.
