

*Park explorer guide
and activity book*

This guide belongs to:

Welcome, Junior Ranger!

Is this your first time visiting a Portland General Electric park?

We take care of nine different parks and help our partners like the U.S. Forest Service and Oregon State Parks take care of theirs, too!

Our Timber Park and Trojan Park are best known for their disc golf courses and large picnic shelters. While Timothy Lake, Lake Harriet, Pelton Park, and Promontory Park all have great campgrounds with places for fishing, boating, paddling, or swimming.

You can look for eagles and osprey at Faraday Lake and Round Butte Overlook Park. And we're working on making our newest park, Trout Creek Ranch, into a better place for wildlife.

Ready to explore PGE's parks and recreation areas? Let's go!

Earn your Junior Ranger badge!

Kids 5 years old and older can earn a Junior Ranger badge while exploring PGE's parks. Use this activity book as your guide as you go!

Complete at least four of the six activity book pages, then take your activity book to the Park Attendant at Lake Harriet, Pelton Park, Promontory Park, Round Butte Overlook Park or Timothy Lake to receive your badge.

Campgrounds are closed seasonally. Visit PortlandGeneral.com/Parks for dates and reservations.

Have you met Larry?

Larry the Lightbulb is here to teach us about being safe in parks and around power.

Connect the dots to see what Larry looks like!

Fishing at PGE’s parks

Have you ever gone fishing? At each river and lake, there are different rules for fishing. The rules tell you when you can fish (season), how many fish you can keep (bag limit), and how big the fish have to be to keep them (size limit). The rules help protect the fish.

Create your own fish and rules for fishing it.

Draw your fish.

Name of fish	Bag limit	Size limit	Season
What is your fish called?	How many can we keep?	How big does the fish need to be?	When are we allowed to fish for it?

See DFW.State.OR.US for the most current rules.

How many of our parks have you been to?

Some are in the forests near Mt. Hood, others are in the high deserts of Central Oregon. Depending on what you like to do—fishing, hiking, camping, biking, boating and more—there is a park for you.

Unscramble the letters to name each PGE park.

① _____ PARK
JOTRAN

② _____ PARK
TMBRIE

③ _____ LAKE
FAARYAD

④ _____ PARK
MONTROPROY

⑤ LAKE _____
HARRTIE

⑥ _____ LAKE
TIMYOTH

⑦ TROUT _____ RANCH
REEKC

⑧ _____ PARK
NOTLEP

⑨ ROUND _____
BTTUE

Tip: Can't remember the park names?
Go back to page 2 and read all about them!

Thousands of people come to enjoy our parks

There are hikers, bikers, campers, anglers, picnickers, photographers, dog walkers and more. And it takes every one take care of our parks.

What’s going wrong at this park?

Try to find 15 different activities in this picture that are harmful to the park’s resources—like its benches, roads, wildlife and plants. When you find something, circle it. Then write down your ideas about how the people in the picture could make it better.

Making power

Do you have power at your campsite? How about your home? Along with making power from natural gas, coal, and water (hydro), PGE is one of the best companies at making green, renewable power from the sun and wind. Each is a piece of the PGE power pizza.

Label the pizza with PGE's energy sources

Write the energy source in the pizza slice that shows the amount of power made by that source.

10%
Renewable
wind & solar

27%
Natural gas

15%
Hydro
(water)

32%
Purchased power
(from other companies)

16%
Coal

Did you know? In 2020, PGE will be closing its coal plant in Boardman. Soon the coal slice will get smaller, and the others will get even bigger!

Safety at the dam

Help us tell the story of dam safety. First, choose your own words to fill in each blank. Then read your story out loud!

Hello, Junior Ranger!

Not long ago you were a _____ (adjective) _____ (noun).

But after spending some time at _____ (name of park), you are well on your way to becoming a _____ (adjective) _____ (noun). But first, you must learn to be safe in PGE's parks and around their dams.

Rule #1

Stay a safe distance from warning signs, buoys, and barriers when boating, _____ (activity) or _____ (activity) in lakes or rivers.

Rule #2

Be alert for signs of rising water. Watch for flashing lights, listen for sirens and _____ (verb) for _____ (noun+s). If water turns cloudy or slow water starts moving fast, get yourself and _____ (person) to higher ground!

Rule #3

Never boat or swim above, below or _____ (location) a dam. Currents can pull a boat, a _____ (noun) or a _____ (noun) into a spillway. Don't take chances when boating or _____ (activity) near dams!

Junior Ranger, you've done it!

You deserve a _____! (prize)
