

Peak Time Rebates Terms & Conditions

BY ENROLLING IN PEAK TIME REBATES (“PTR PROGRAM”), I AGREE TO BE BOUND BY THE TERMS AND CONDITIONS SET FORTH BELOW.

- I agree to these terms and conditions and to the Portlandgeneral.com Website Privacy Statement available at <https://www.portlandgeneral.com/privacy-policy>.
- I understand that as a participant in the Program, I will receive a credit on my bill only if I reduce my energy usage during a Peak Time Rewards Event. PGE will calculate my savings by comparing my actual electricity usage during Peak Time Events with historical vs. forecasted usage on similar days.
- I understand that there is no cost to join the Peak Time Rebates program and no purchase is required to participate.
- I understand that participation in the Program is limited to the first 160,000 residential customers to enroll who are currently on PGE’s Schedule 7 Basic Service rate. Participation in the Program is unlimited to customers who are on PGE’s Schedule 7 Time-of-Use rate.
- I understand that the meter installed at my premises must be set by PGE for automated meter reading (AMR) and that PGE must have unrestricted access to such meter during business hours. PGE needs to be able to communicate with the meter during all hours in PTR summer and winter seasons. This will provide the most accurate rebate.
- I understand that if an outage occurs during a Peak Time Rebate event, an incentive will be calculated only for the period of time the meter was able to provide interval data.
- I understand my post-event Peak Time Rebates incentive calculation (that is sent to me via text or email notification) is an estimate only and the actual Peak Time rebate that I receive will be an on-bill credit that appears on my next billing statement.
- I understand that I may unsubscribe from PTR event notifications at any time. If I unsubscribe, I will receive credit only for those events for which I am enrolled and reduced my energy usage to receive a rebate.
- Customers who are enrolled in PGE’s Smart Thermostat program or Solar Payment Option are not eligible to participate in Peak Time Rebates.
- Customers with interconnected energy storage (battery) are only eligible for Peak Time Rebates if the energy storage system is controlled by PGE and not the customer.
- Customers must reside in the property for which the service agreement (SA) is active. Landlords are not eligible to enroll an SA in the program for properties they own or manage, but which they do not reside in.
