

2021 Green FutureSM Block prospective product content label¹

Green Future Block is sold in 200 kilowatt-hour (kWh) blocks. This is a Renewable Energy Certificate (REC) product and does not contain electricity, which is billed separately. A REC represents the environmental benefits of 1 megawatt-hour (MWh) of renewable energy.

GENERATION LOCATION
OR, WA, ID, UT, WY or MT

Here's how that compares to the average mix of resources in PGE Basic Services:

41% Natural gas	5% Wind	<1% Biomass
32% Hydro	2% Nuclear	<1% Waste
19% Coal	<1% Solar	<1% Other

This resource mix was prepared in accordance with Oregon Administrative Rule 860-038-0300.

Green Future Block price, terms and conditions

Portland General Electric

What is my contract length?	Your Green Future Block contract is month-to-month.
How much will Green Future Block cost?	\$2.50 per 200 kWh block of Green Future Block. You can purchase as many "blocks" as you'd like, with a minimum purchase of one block.
Will my rates change over time?	Green Future Block prices are based on current Oregon Public Utility Commission approved tariffs. Pricing is subject to change. All price changes require approval from the OPUC. You will be notified of any price change in advance.
What other fees might I be charged?	You must also pay all applicable federal, state or local taxes.
How will I be billed?	Your Green Future Block charge will be listed as a separate line item on your monthly PGE bill. This charge is in addition to your regular electricity bill.
Can I cancel my participation?	You can cancel at any time with no fee. There is no minimum contract length.

The average home in the United States uses

877 kWh per month.

1. These figures reflect the renewables that we have contracted to provide. Actual figures may vary according to resource availability. We will annually report to you before August 1 of next year in the form of a Historic Product Content Label the actual resource mix of the electricity you purchased.
2. New renewables come from generation facilities that first began commercial operation within the past 15 years.
3. PGE's Wheatridge facility is supplying a portion of the RECs projected above.
See portlandgeneral.com/wheatridge for info about this facility.
