How to View Submitted Proposals.....	3

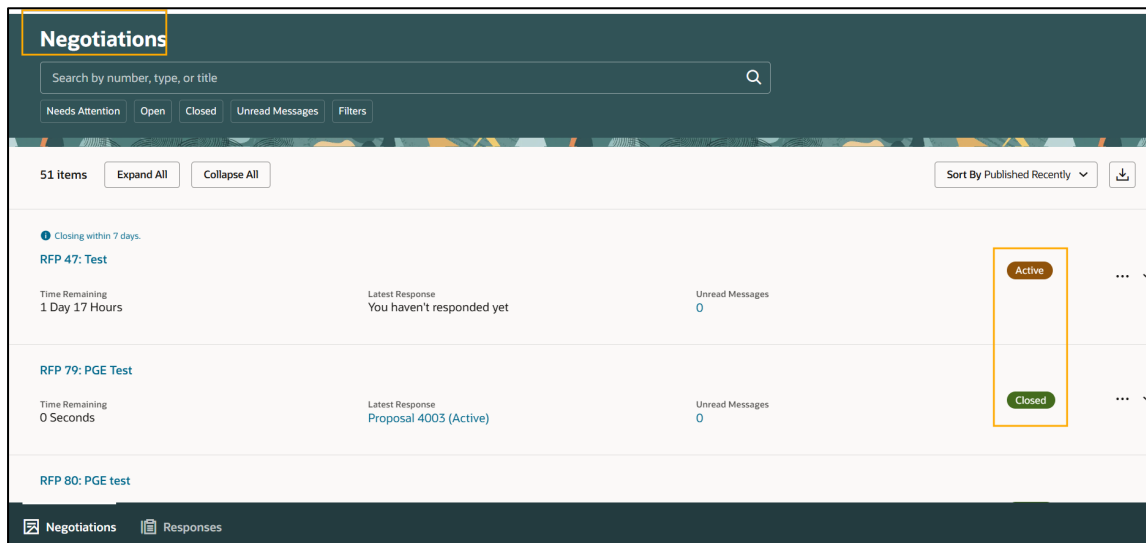

Roles Required
PGE Supplier Portal Sales Representative
PGE Supplier Portal Customer Service Representative
PGE Supplier Portal Bidder

1. Log in to the Oracle Applications Cloud Supplier Portal. Upon successful login, the application displays the Supplier Portal landing page, as shown below.

Click on **“Negotiation”** tile

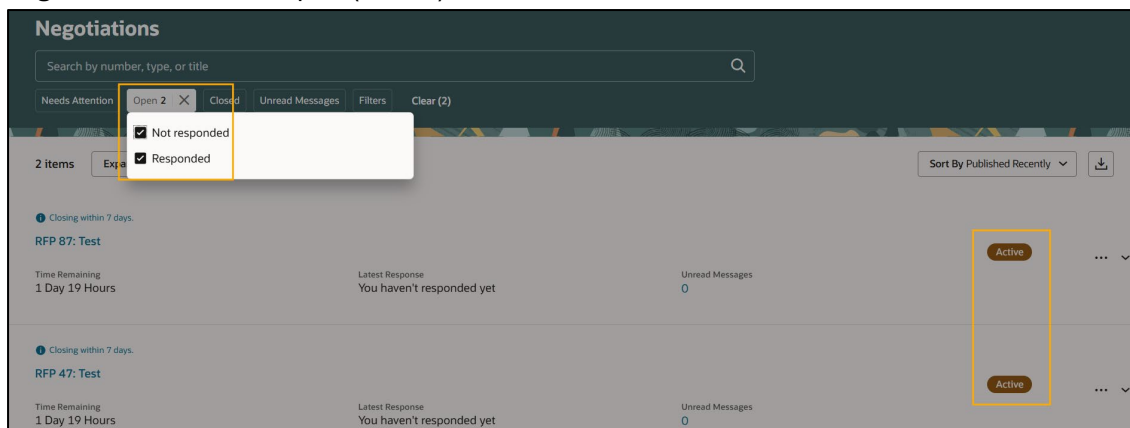

2. The application will display a list of negotiations with all the statuses.

How to View Open Events

Open Status = The negotiations will be in “Active” status when the supplier has either not responded or has responded but has not submitted the proposal.

On the Negotiations page, search using the Open status. The application will display all negotiations with the Open (Active) status.

The application does not generate a response number for negotiations in the Open status.

A response number is generated only after the supplier submits the proposal and the negotiation status changes to Closed.

How to View Submitted Proposals

Once the supplier submits the proposal, it will appear in the "Responses" page, where all submitted proposals are listed.
