

2021 Green FutureSM Choice prospective product content label¹

Green Future Choice is equal to 100% of your electricity usage. This is a Renewable Energy Certificate (REC) product and does not contain electricity, which is billed separately. A REC represents the environmental benefits of 1 megawatt-hour (MWh) of renewable energy.

GENERATION LOCATION

Wind: OR, WA, ID, UT, WY or MT
Solar: OR, WA, ID, UT, WY or MT
Biomass: OR, WA or ID
Geothermal: OR, WA or ID
Low impact hydro: OR, WA or ID

Here's how that compares to the average mix of resources in PGE Basic Services:

41% Natural gas	5% Wind	<1% Biomass
32% Hydro	2% Nuclear	<1% Waste
19% Coal	<1% Solar	<1% Other

This resource mix was prepared in accordance with Oregon Administrative Rule 860-038-0300.

Green Future Choice price, terms and conditions

Portland General Electric

What is my contract length?	Your Green Future Choice contract is month-to-month.
How much will Green Future Choice cost?	Green Future Choice costs \$0.008/kWh in addition to your Basic Service rates.
Will my rates change over time?	Green Future Choice prices are based on current Oregon Public Utility Commission approved tariffs. Pricing is subject to change. All price changes require approval from the OPUC. You will be notified of any price change in advance.
What other fees might I be charged?	You must also pay all applicable federal, state or local taxes.
How will I be billed?	Your Green Future Choice charge will be listed as a separate line item on your monthly PGE bill. This charge is in addition to your regular electricity bill.
Can I cancel my participation?	You can cancel at any time with no fee. There is no minimum contract length.

The average home in the United States uses

877 kWh per month.

1. These figures reflect the renewables that we have contracted to provide. Actual figures may vary according to resource availability. Wind and solar percentages could vary +/- 10%. We will annually report to you before August 1 of next year in the form of a Historic Product Content Label the actual resource mix of the electricity you purchased.
2. New renewables come from generation facilities that first began commercial operation within the past 15 years.
3. Averaged annually.
4. PGE's Wheatridge facility is supplying a portion of the wind and solar RECs projected above. See portlandgeneral.com/wheatridge for info about this facility.
5. Eligible hydroelectric facilities are defined in the Green-e[®] Energy National Standard (green-e.org/getcert_restan.shtml) and include facilities certified by the Low Impact Hydropower Institute (LIHI) (lowimpacthydro.org) or EcoLogo (ecologo.org) and facilities comprised of a turbine in a pipeline or a turbine in an irrigation canal.
