

Get Green FutureSM Enterprise without paying more

Use the renewables portion of your public purpose charge to purchase Green Future Enterprise, and your company can reduce its carbon footprint without paying an extra penny!

Effective January 1, 2022, every Oregon business pays 1.5% of its electric bill to a fund directed by the Energy Trust of Oregon.* If you use more than 8.7 million kWh (one average megawatt) at your site during the year, you can self-direct 25.5% of your public purpose charge to PGE Green Future Enterprise.

*Before January 1, 2022, Oregon businesses paid 3%.

You make the choice

By self-directing to Green Future Enterprise, you're supporting the type of renewable energy that's important to you, the community and moves us all towards a clean energy future.

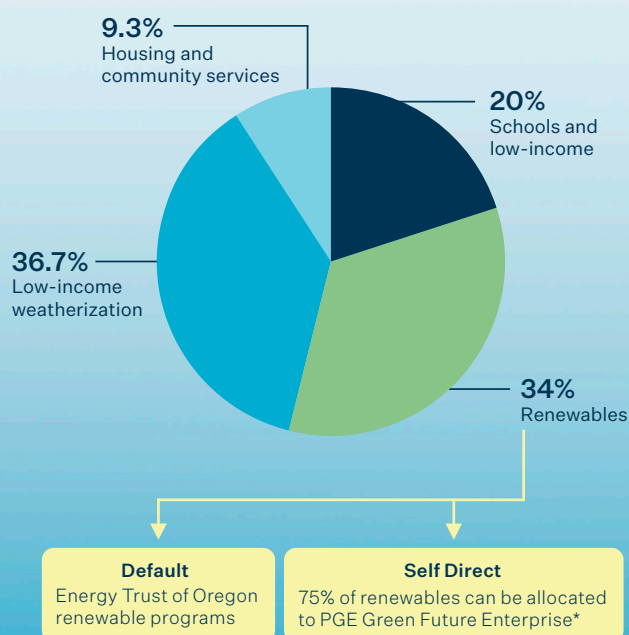

Receive recognition for your leadership

You're already paying a 1.5% public purpose charge on your electricity use. Why not use it to let your customers and employees know that you support renewable energy? When you self-direct your dollars to buy Green Future Enterprise, you receive significant publicity and advertising benefits, such as:

- Inclusion in ads recognizing green businesses
- Turnkey marketing tools like window decals and web graphics
- Sample social media posts
