

Strengthening the energy grid

WORK AREA NOTICE

Brookwood Substation upgrades coming soon

In April 2020, PGE will begin upgrading our substation and our surrounding property. For safety, our property will remain closed off from the public.

If you use this path to reach the nearby MAX station, you will need to plan a different route, as this path will no longer be open.

To learn more about our project, visit portlandgeneral.com/brookwoodsubstation, scan the QR code, or call us at 503-612-3730.
