

2022 Green FutureSM Enterprise – Specified Resources prospective product content label¹

Green Future Enterprise is a Green-e[®] Energy certified Renewable Energy Certificate (REC) product. Renewable Energy Certificates (RECs) do not contain electricity. A REC represents the environmental benefits of 1 megawatt-hour (MWh) of renewable energy that can be paired with electricity. PGE is supplying your electricity. Green-e[®] Energy has only certified the RECs, which may be sourced from outside of your local electricity distribution area. For more information, see green-e.org/rec.

**100% Green-e[®]
Energy certified
new² renewables**

**100% solar, wind,
geothermal, biomass
or low impact hydro.**

GENERATION LOCATION: National

Here's how that compares to the average mix in the 2021 PGE Basic Service Mix:³

40% Natural gas	13% Wind
20% Hydro	7% Coal
18% Other unsepecified	2% Solar

1. These figures reflect the renewables available to customers through this product. The specific mix of geography and resources will be fully defined in each individual contract.
2. New renewables come from generation facilities that first began commercial operation within the past 15 years.
3. Based on energy served to retail customers within the State of Oregon, as required by the Oregon Department of Environmental Quality (ODEQ). Some or all of the renewable energy attributes associated with PGE's Basic Service Mix may be sold, claimed or not acquired.

Green Future Enterprise – Specified Resources is Green-e[®] Energy certified and meets the environmental and consumer-protection standards set forth by the nonprofit Center for Resource Solutions. Learn more at green-e.org.
