Bidder Tracks

Timeline & Steps

RFP Website Resources

Bidder Tracks

What's next?

Pre-issuance

Issuance

Track 1 - complete or near-complete proposal submitted, PGE evaluates and advances proposal to CBIAG consideration and potential commercial negotiation

RFP materials developed

CBIAG collaboration to align on evaluation methodology

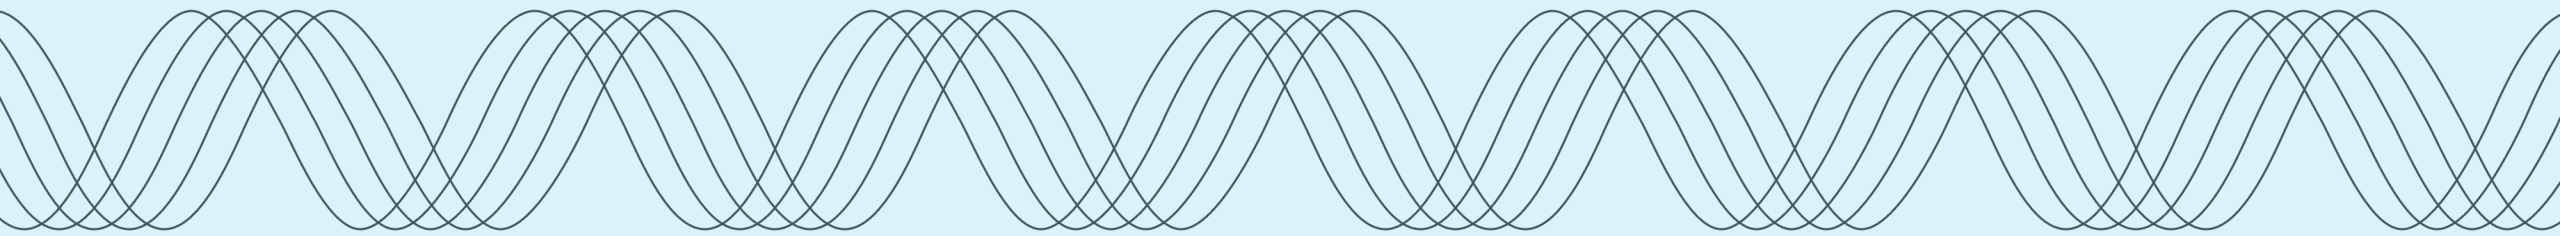

Continued workshops to prepare respondents and allow PGE to answer questions

Regulatory/public outreach

Track 2 - proposal not complete, needs additional info in one or more significant areas, or potentially CBO looking to build capacity. Follow up with these Bidders might include:

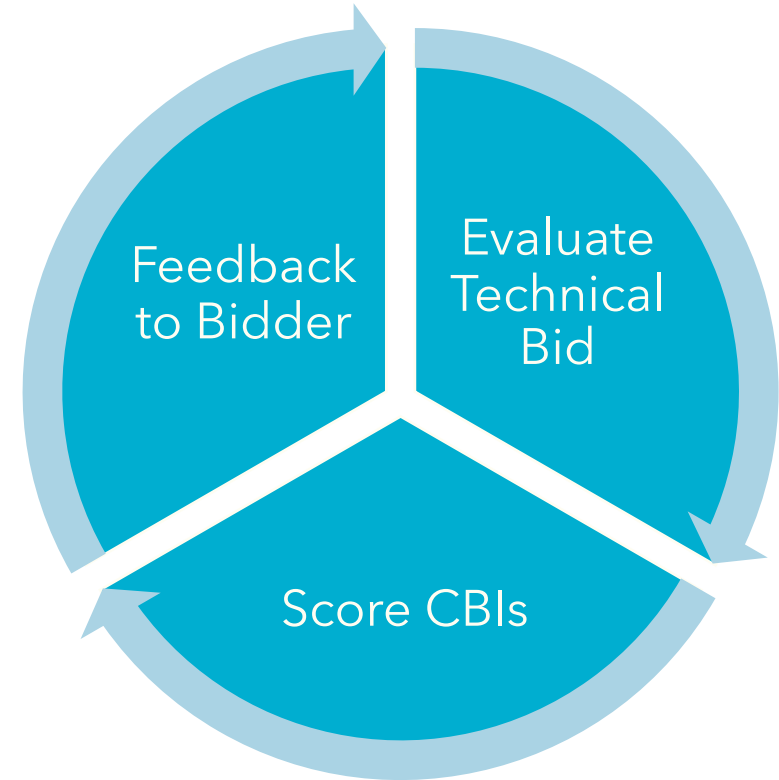

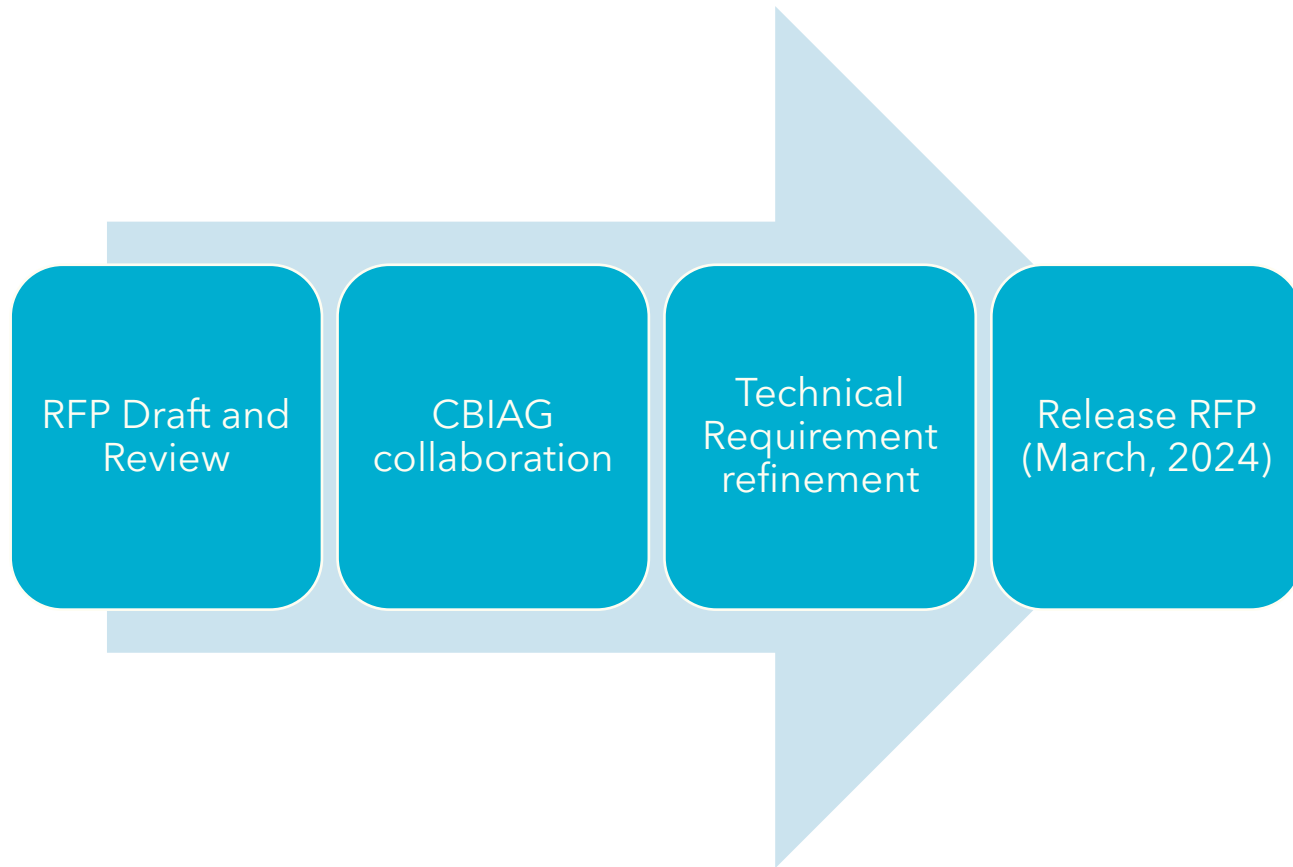

- directing them to funding sources worth pursuing
- providing feedback from CBIAG to Bidders who need additional attention to CBIs
- answering questions and sharing resources to support technical steps related to interconnection and delivery

Timeline / Next Steps

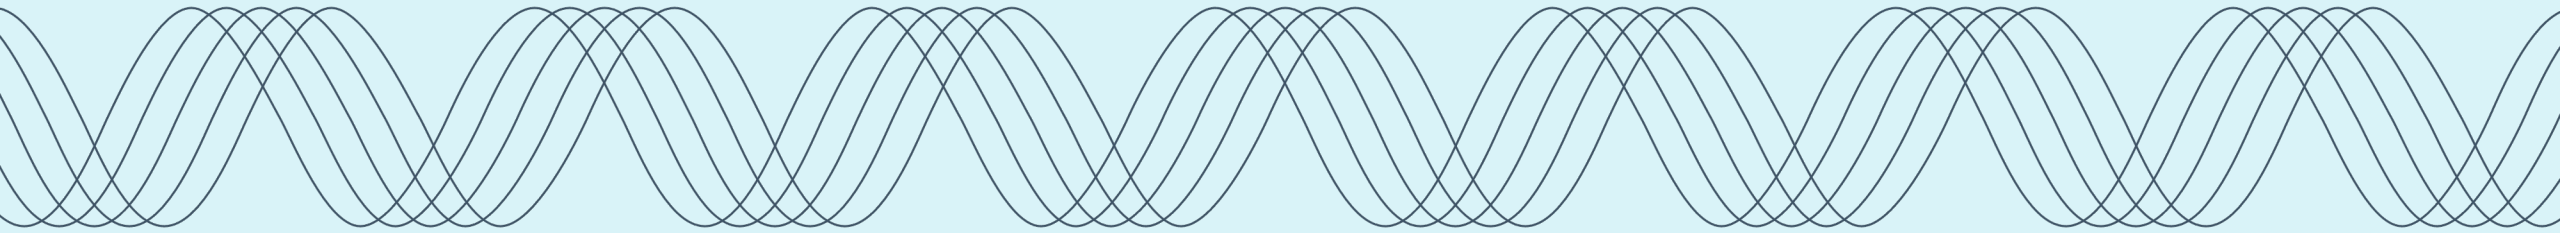

RFP Timeline and Next Steps

Risks to timeline and ongoing activities

- Previous workshop ppt
- Worksheet that provides some idea of where there is capacity on PGE's system. It was last updated in July and does not reflect requests in queue since drafting.
- Interactive map can help to identify which feeder the location you're considering is tied to and is a resource to pair with the PGE Distribution System data worksheet. The map's layers are controlled through the folder icon in the top right-hand corner.
- *Coming soon: PGE 2022 Reliability report*
