

# 2022 Green Future<sup>SM</sup> Enterprise – Clean Fuels prospective product content label<sup>1</sup>

Green Future Enterprise is a Green-e<sup>®</sup> Energy certified Renewable Energy Certificate (REC) product. RECs do not contain electricity. A REC represents the environmental benefits of 1 megawatt-hour (MWh) of renewable energy that can be paired with electricity. PGE is supplying your electricity. Green-e<sup>®</sup> Energy has only certified the RECs. For more information, see [green-e.org/rec](https://green-e.org/rec).

**100% Green-e<sup>®</sup>  
Energy certified  
new<sup>2</sup> renewables**

**100% solar, wind,  
geothermal, biomass,  
or low impact hydro.**

#### **GENERATION LOCATION**

Western Electric Coordinating Council (WECC)  
region only (OR, WA, ID, CA, NV, UT, MT, WY,  
CO, AZ, or NM)

## **Want to know more about Green Future Enterprise – Clean Fuels?**

Drop us a line and we'll be happy to  
answer your questions.

The RECs purchased under this option shall meet the requirements for generating incremental Clean Fuels Program credits using offsite renewable electricity set forth in OAR 340-253-0470.

## **Here's how that compares to the average mix of resources in PGE Basic Services:**

46% Natural gas	7% Wind	<1% Biomass
24% Coal	<1% Nuclear	<1% Waste
21% Hydro	<1% Solar	<1% Other

This resource mix was prepared in accordance with Oregon Administrative Rule 860-038-0300.

1. These figures reflect the renewables available to customers through this product. The specific mix of geography and resources will be fully defined in each individual contract.
2. New renewables come from generation facilities that first began commercial operation within the past 15 years.

Green Future Enterprise – Clean Fuels is Green-e<sup>®</sup> Energy certified and meets the environmental and consumer-protection standards set forth by the nonprofit Center for Resource Solutions. Learn more at [green-e.org](https://green-e.org).
