

# Upcoming construction

## PGE's work will support Prosper Portland's Broadway Corridor redevelopment

### Overview

PGE is bringing electric service to a new development at the corner of NW 9th Avenue and NW Lovejoy Street. This work will require roadway excavation and repaving on NW 9th Avenue. Traffic, sidewalks, street parking and access to the Lovejoy Station parking garage will be affected during construction.

Approximate location of PGE work

### When will this happen?

Work is expected to begin in September and continue for approximately three months. Construction hours are still being finalized, but some night work is expected. We will share updates with property managers as more information becomes available.

For the latest project information, please visit: [PortlandGeneral.com/Projects](https://PortlandGeneral.com/Projects)

### What can you expect?

- Limited access to the Lovejoy Station parking garage.
- Limited street parking.
- Road and sidewalk closures.
- Machinery, trucks, noise and dust.

### What is the Broadway Corridor Redevelopment?

This urban development project transforms the downtown Portland U.S. Postal Service site into a high-density mixed-use district with employment centers, mixed-income housing, and signature attractions and amenities.
