Portland General Electric
121 SW Salmon St.
Portland, OR 97204

To prepare for Washington County's road-improvement project, we need to trim and remove some trees

Washington County will be widening SW 198th Avenue, which means we'll need to move power lines on the street later this summer. In preparation, the county requested our crews prune and remove some trees along the public right of way in your neighborhood.

Tree-trimming schedule

- Late May through early June
- 7 a.m. to 3:30 p.m., Monday through Friday

This schedule may change based on the needs of the project. While not anticipated, weekend and night hours may be required at times.

If you have a question about how this work may affect you, contact us at 503-612-3730 or visit portlandgeneral.com/sw198th.

What can you expect during this work?

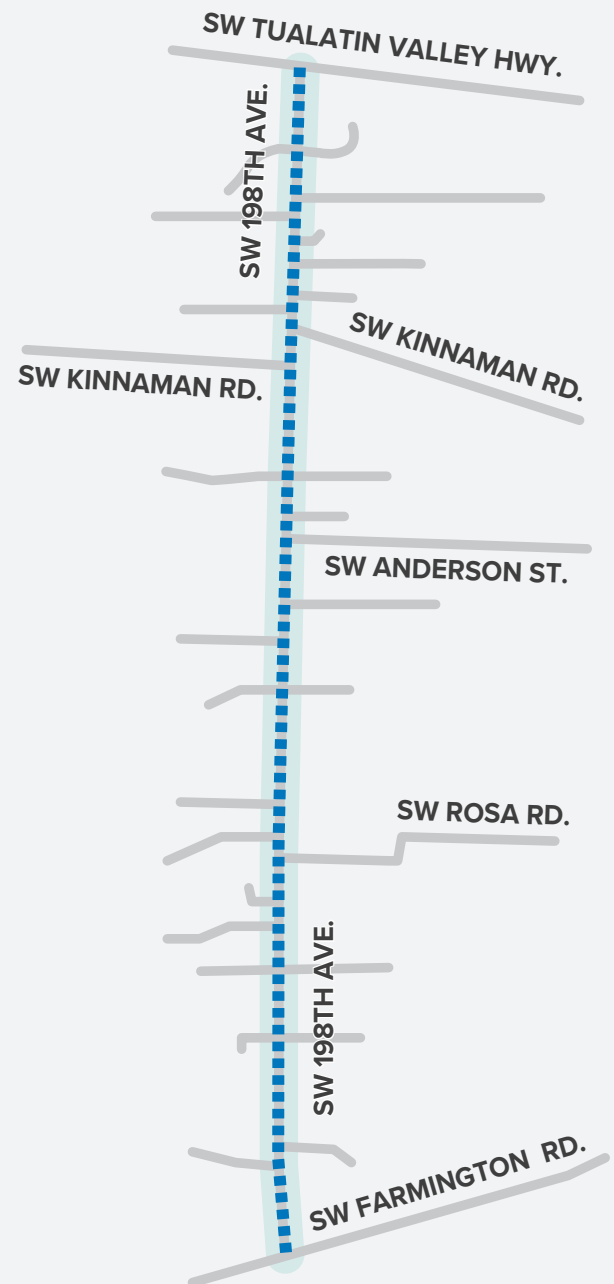

Over the next few weeks, you'll see crews from our contractor, Asplundh Tree Services, working along segments of the street highlighted on this map. They will be working on trees in the public right of way, trimming branches and, in some cases, removing trees to make room for new traffic lanes.

We're taking steps to ensure your safety.

Here's how you can help:

- **Watch for temporary lane closures** and "no parking" signs that may be needed. Allow extra time for commuting through these areas or consider alternate routes.
- **Follow any detours and signs** placed to keep drivers, pedestrians and workers safe.
- **Please avoid all work areas and equipment**, and make sure children know to never touch the equipment.

Thank you for your patience as we help improve street safety in your neighborhood.
