

2025 Green FutureSM Impact historic product content label¹

Green Future Impact is a bundled Renewable Energy Certificate (REC) product² sold in kilowatt-hours (kWh). Renewable Energy Certificates do not contain electricity, which is billed separately. A REC represents the environmental benefits of 1 megawatt-hour (MWh) of renewable energy.

GENERATION LOCATION
Oregon

Here's how that compares to the average mix in the 2025 PGE Basic Service Mix:⁵

40%	Natural gas	13%	Wind
28%	Hydro	6%	Coal
8%	Other and unspecified	5%	Solar

Green Future Impact price, terms and conditions

Pricing and terms vary by customer agreement. Your Green Future Impact charge and credit will be listed as separate line items on your monthly PGE bill.

1. These figures reflect the renewables delivered to Green Future Impact customers during calendar year 2025. For the projected product content in 2026, please see: portlandgeneral.com/greenfuturecontent.

2. New renewables come from generation facilities that first began commercial operation within the past 15 years.

3. In the event that there is a shortfall in electricity generation from program facilities, PGE may provide customers with unbundled renewable energy certificates ("Replacement RECs").

4. We will annually report to you before August 1 of next year in the form of a Historical Product Content Label the actual resource mix of the electricity you purchased.

5. Preliminary amounts based on energy served to retail customers within the State of Oregon, as required by the Oregon Department of Environmental Quality (ODEQ). Some or all of the renewable energy attributes associated with PGE's Basic Service Mix may be sold, claimed or not acquired.
