

Green FutureSM Solar 2021 historic and 2022 prospective product content label¹

Green Future Solar is a renewable electricity product sold in blocks of 1 kilowatt. When you purchase a block of Green Future Solar, you purchase the renewable energy certificates (RECs) produced by 1 kW of solar panels located at the Steel Bridge Solar project in Willamina, Oregon. A REC represents the environmental benefits of 1 megawatt-hour (MWh) of renewable energy.

GENERATION LOCATION
Solar: Willamina, OR

Here's how that compares to the average mix in the 2021 PGE Basic Service Mix:³

Green Future Solar price, terms and conditions

Portland General Electric	
What is my contract length?	Your Green Future Solar contract is month-to-month.
How will I be billed?	Your Green Future Solar charge will be listed as a separate line item on your monthly PGE bill. This charge is in addition to your regular electricity bill.
How much will Green Future Solar cost?	\$5.00 per block of Green Future Solar. You can purchase as many blocks as you'd like, with a minimum purchase of one block.
Will my rates change over time?	Green Future Solar prices are based on current Oregon Public Utility Commission approved tariffs. Pricing is subject to change. All price changes require approval from the OPUC. You will be notified of any price change in advance.
What other fees might I be charged?	You must also pay all applicable federal, state or local taxes.
Can I cancel my participation?	You can cancel at any time with no fee. There is no minimum contract length.

The average home in the United States uses

893 kWh per month.

1. These figures reflect the renewables delivered to Green Future Solar customers during calendar year 2021 and projected for calendar year 2022.
 2. New renewables come from generation facilities that first began commercial operation within the past 15 years.
 3. Based on energy served to retail customers within the State of Oregon, as required by the Oregon Department of Environmental Quality (ODEQ). Some or all of the renewable energy attributes associated with PGE's Basic Service Mix may be sold, claimed, or not acquired.

Green Future Solar is Green-e[®] Energy certified and meets the environmental and consumer-protection standards set forth by the nonprofit Center for Resource Solutions. Learn more at green-e.org.
