## Part I Asset and Liability Statement

1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. Round off amounts to the nearest dollar. MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

### REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Trustees and Participants
Portland General Electric Company Pension Plan

#### Report on the financial statements

We were engaged to audit the accompanying financial statements of Portland General Electric Company Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

### Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

### Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note C, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of December 31, 2018 and 2017, and for the years then ended, stating that the certified information provided to the Plan administrator is complete and accurate.

#### Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

## **Supplementary information**

The supplemental schedules, Schedule of Assets (Held at End of Year) as of December 31, 2018 and Schedule of Reportable Transactions for the year ended December 31, 2018, are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule schedules.

### Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the certified information described in Note C, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

### NOTES TO FINANCIAL STATEMENTS

December 31, 2018 and 2017

## NOTE A - DESCRIPTION OF PLAN

The following brief description of the Portland General Electric Company Pension Plan (the "Plan" or the "Pension Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General — The Plan is a defined benefit pension plan of Portland General Electric Company ("PGE" or the "Company"). The Plan's traditional benefit formula (Retirement Program A) was closed to Retirement Program B bargaining employees effective December 31, 1998, and these participants receive interest credits under the Plan's cash balance component. The Plan was closed to new non-bargaining employees effective January 31, 2009, and to new bargaining employees at the Coyote Springs and Port Westward plants, effective December 31, 2011. The Company's Board of Directors has established the Benefits Administration Committee (the "BAC") and Investment Committee (the "Investment Committee") for the Plan and assigned them fiduciary responsibility for the Plan. The BAC oversees the administration of the Plan and the Investment Committee is responsible for selection and monitoring of investments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility, Vesting, and Benefits — A participant's benefit becomes fully vested after completing five years of service, except that if any portion of a participant's benefit is determined under the Plan's cash balance component, it is fully vested at all times. Plan benefits are based on a negotiated contract for bargaining employees and a formula that incorporates both credited service and base pay factors for non-bargaining employees. The Plan provides for normal retirement of participants upon reaching age 65. Participants attaining age 55 who are fully vested or participants who become totally and permanently disabled and have completed at least 20 years of benefit service may retire on an early retirement date. Participants may be eligible for several distribution options: lump sum for benefits determined under the Plan's cash balance component or below the small benefit cash-out threshold, straight life annuity, level income, and joint and survivor options. Survivor benefits shall automatically be payable to the eligible beneficiaries of vested employees who die before commencing retirement benefits and (i) while active employees, (ii) after becoming eligible for retirement benefits or (iii) with respect to cash balance accounts, and also to surviving spouses or same-sex domestic partners of terminated vested participants who die before commencing retirement benefits.

## NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Basis of Accounting** — The accompanying financial statements have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

**Use of Estimates** — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein as well as disclosures of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan assets are invested in a variety of investments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the financial statements.

### NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2018 and 2017

## NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

**Investment Valuation and Income Recognition** — Investments are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for description of valuation methods.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Administrative Expenses** — Administrative expenses of the Plan are paid by the Plan as provided in the plan document.

Payment of Benefits — Benefit payments to participants are recorded upon distribution.

### NOTE C - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under this provision of ERISA, investment information and related activity certified as accurate and complete by a qualified institution need not be subjected to independent audit. The Plan administrator has obtained a certification from The Northern Trust Company ("Northern Trust"), the trustee of the Plan, as of and for the years ended December 31, 2018 and 2017 that the following information included in the Plan's financial statements and supplemental schedules is complete and accurate:

- Investments, liabilities due to brokers for securities purchased, and receivables from brokers for securities sold as of December 31, 2018 and 2017
- Plan transactions related to investment income and securities transactions for the years ended December 31, 2018 and 2017
- Schedule H, Part IV, Line 4i Schedule of Assets (Held at End of Year) as of December 31, 2018
- Schedule H, Part IV, Line 4j Schedule of Reportable Transactions for the year ended December 31, 2018

Accordingly, at the request of the Plan administrator, the Plan's independent certified public accountants performed no procedures on investment information and related activity, other than to agree the information to the trust statements certified by the Plan's trustee and provided to them by the Plan administrator.

### NOTE D - FAIR VALUE OF INVESTMENTS

Accounting Standards Codification ("ASC") 820, Fair Value Measurements, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows:

Level 1-refers to securities valued using unadjusted quoted prices from active markets for identical assets;

Level 2-refers to securities not traded on an active market but for which observable market inputs are readily available

#### NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2018 and 2017

## NOTE D - FAIR VALUE OF INVESTMENTS, Continued

Level 3-refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Assets valued at net asset value (NAV) as a practical expedient are excluded from the fair value hierarchy. These assets are listed in the totals of the fair value hierarchy, so the total value of the fund can be reconciled.

The Plan's policy is to recognize significant transfers between levels at the end of the reporting period. For the years ended December 31, 2018 and 2017, there were no transfers in or out of Levels 1, 2 or 3.

**Asset Valuation Techniques** — Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Common stock investments are equity securities classified as Level 1 based on unadjusted prices in an active market. Principal markets for equity prices include published exchanges such as NASDAQ and NYSE. Other plan assets are common stock securities, see above for valuation techniques.

Shares of registered investment companies held include equity and debt securities classified as Level 1. See above for equity security valuation techniques. Debt securities are highly-liquid United States Treasury and corporate credit mutual fund securities to support the investment objectives of the trusts. These securities are classified as Level 1 instruments due to the highly observable nature of pricing in an active market.

Fair values for Level 2 debt securities, including municipal debt and corporate debt securities, mortgage-backed securities and asset-backed securities are determined by evaluating pricing data, such as broker quotes, for similar securities adjusted for observable differences. Significant inputs used in valuation models generally include benchmark yield and issuer spreads. The external credit rating, coupon rate, and maturity of each security are considered in the valuation if applicable.

Collective trust funds include equity, debt and money market securities managed by Mercer Investment Management and Northern Trust. The Company believes the redemption value of the collective funds is likely to be the fair value, which is represented by the net asset value as a practical expedient. There are no redemption restrictions or unfunded cap limits. A majority of the funds provide for daily liquidity with appropriate written notice. Since these funds are valued NAV as a practical expedient they are not classified in the fair value hierarchy. The Plan is invested in short term investment funds that seek to maintain a stable net asset value. These funds invest in high-quality, short-term, diversified money market instruments, short term treasury bills, federal agency securities, certificates of deposit, and commercial paper. Money market funds held in the Plan are valued at NAV as a practical expedient and are not classified in the fair value hierarchy.

The Plan holds private equity investments that are invested in a combination of primary and secondary fund-offunds which hold ownership positions in privately held companies across the major domestic and international private equity sectors, including but not limited to, venture capital, buyout and special situations. Private equity investments are not classified in the fair value hierarchy since the funds are valued at NAV at the practical expedient. PGE's valuation of individual fund performance compares stated fund performance against published benchmarks.

## NOTE D - FAIR VALUE OF INVESTMENTS, Continued

- a. Collective trust funds invest in equity and debt securities. The Company believes the redemption value of these funds is likely to be the fair value, which is represented by the net asset value as a practical expedient. A majority of the funds provide for daily liquidity with appropriate written notice. Mercer Investment Management funds require 15 days written notice, which may be waived by the investment manager. The collective trust managed by Northern Trust is a short-term investment fund that seeks preservation of capital and liquidity and consistent with these, the highest possible current income. The funds invest in high-quality, short-term, diversified money market instruments, short term treasury bills, federal agency securities, certificates of deposit, and commercial paper. Redemption is permitted daily without written notice.
- b. Private equity funds are invested in a combination of primary and secondary fund-of-funds, which hold ownership positions in privately held companies across the major domestic and international private equity sectors, including but not limited to, partnerships, joint ventures, venture capital, buyout, and special situations. Private equity investments are valued at NAV as a practical expedient. Private equity funds are long-term strategies and are illiquid in nature.

## NOTE E – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

The accumulated plan benefits and changes in accumulated plan benefits below have been prepared from actuarial reports prepared as of January 1, 2018. The actuarial present value of accumulated Plan benefits is estimated by the Plan's consulting actuaries, Willis Towers Watson. The actuarial present value is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered as of the valuation date. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation as well as age and years of service. Benefits payable under all circumstances — retirement, death, disability, and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits as of January 1, 2018 is as follows:

	2018
Actuarial present value of accumulated Plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 447,257,964
Other participants	320,508,338
Total vested benefits	767,766,302
Non-vested benefits	12,913,908
	* =
Total actuarial present value of accumulated Plan benefits	\$ 780,680,210

## NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2018 and 2017

## NOTE E - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS, Continued

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended January 1, 2018 are as follows:

	2018
Actuarial present value of accumulated Plan benefits – January 1, 2018	\$ 719,890,883
Increase (decrease) during the year attributable to:	
Accumulated benefits	17,273,716
Actuarial (gains)/losses	3,029,217
Interest	30,002,071
Benefits paid	(35,746,020)
Assumption changes	46,230,343
Net increase	60,789,327
Actuarial present value of accumulated Plan benefits –	
January 1, 2018	\$ 780,680,210

Pension plan calculations include several assumptions which are reviewed annually with the Company's consulting actuaries and updated as appropriate. The actuarial present value of accumulated Plan benefits has been determined using the entry age actuarial cost method. The significant assumptions used in determining the actuarial present value of accumulated Plan benefits as of January 1, 2018 and 2017 are:

	2018	2017
Discount rate	3.65%	4.17%
Mortality	RP-2014, custom	RP-2014, custom
Normal retirement age	63	63

The mortality assumption is the RP-2014 Mortality table, adjusted to 2007, and then projected generationally using a modification of the improvement Scale MP-2014. The modification of the improvement scale reflects lower rates of mortality improvements than the unadjusted Scale MP-2014.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

### NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2018 and 2017

### **NOTE F - PLAN TERMINATION**

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

#### **NOTE G – FUNDING POLICY**

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2018 and 2017.

## NOTE H – EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares in funds managed by Northern Trust and Mercer Investment Management, LLC. Northern Trust is the trustee as defined by the Plan and Mercer Investment Consulting, Ltd. is the Plan's investment advisor, therefore, these investments and investment transactions qualify as party-in-interest transactions. Fees paid during the year by the Plan Sponsor for professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

#### NOTE I – FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated July 14, 2016, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

### NOTES TO FINANCIAL STATEMENTS - CONTINUED

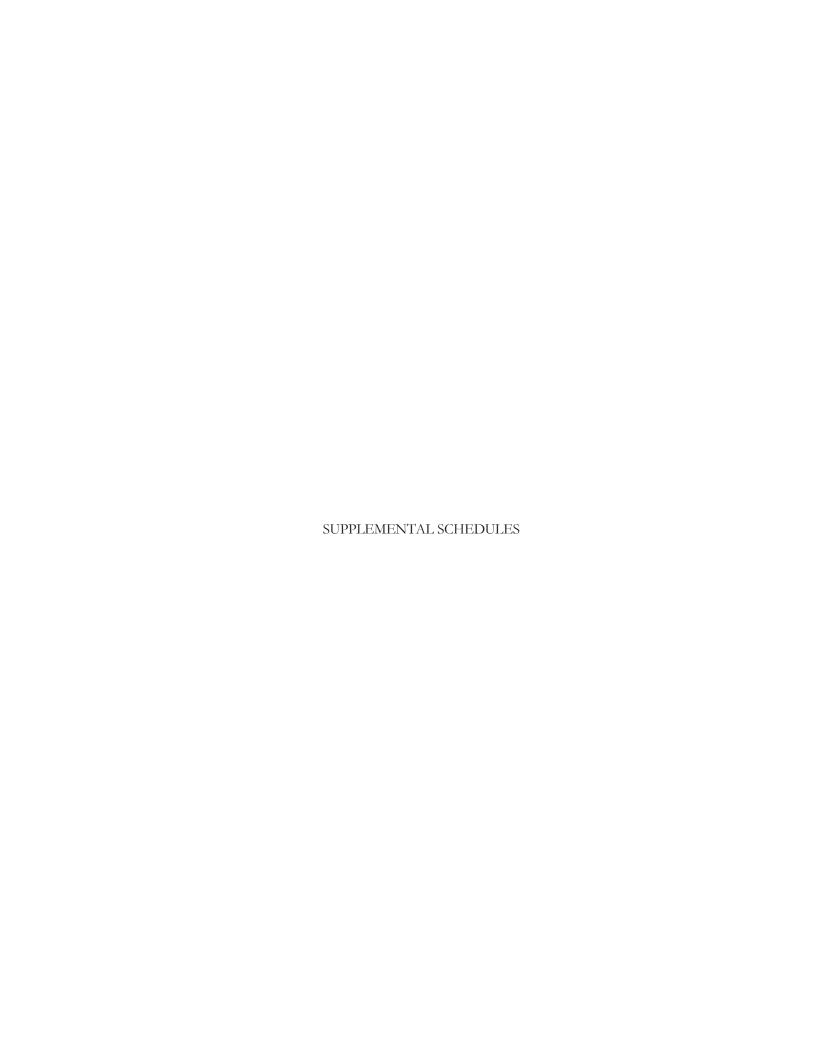

December 31, 2018 and 2017

### NOTE I - FEDERAL INCOME TAX STATUS, Continued

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Company has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

### NOTE J - SUBSEQUENT EVENTS

Through October 10, 2019, which is the date the financial statements were available to be issued, there were no identified events that require consideration for adjustments to, or disclosure in the financial statements.

### Administrative expenses

Based on the prior year's actual administrative expenses (excluding PBGC premiums) plus the estimated PBGC premiums for the current year, rounded to the nearest thousand. The expenses are \$2,484,000 for 2018 (\$2,468,000 for 2017).

### **Cash flows**

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

were valued based on discussions with Portland General Electric Company regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with Portland General Electric Company and, based on that review, is not aware of

any significant benefits required to be valued that were not.

Methods	
Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and then six immediately preceding months, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

### **Assumptions Rationale - Significant Economic Assumptions**

Discount rate The basis chosen was selected by the plan sponsor from

among choices prescribed by law, all of which are based on

observed market data over certain periods of time.

Rates of increase in compensation

Assumed compensation increases are based on plan sponsor expectations reflecting both current conditions and future

expectations.

Pension plan administrative

expenses

Administrative expenses are based on the prior year's actual administrative expenses (excluding PBGC premiums), plus the estimated PBGC premiums for the current year, rounded to the

nearest thousand.

### **Assumptions Rationale - Significant Demographic Assumptions**

Healthy Mortality Assumptions used for funding purposes are as prescribed by

IRC §430(h).

**Disabled Mortality** Assumptions used for funding purposes are as prescribed by

IRC §430(h).

**Termination** Termination rates were based on an experience study

conducted by Willis Towers Watson in 2016, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Assumed termination rates differ by represented and nonrepresented employees, and by age because of observed

differences in retirement rates.

**Retirement** Retirement rates were based on an experience study

conducted by Willis Towers Watson in 2016, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Assumed retirement rates differ by represented and nonrepresented employees, and by age because of observed

differences in retirement rates.

Benefit commencement date

Preretirement death benefit Surviving spouses are assumed to begin benefits at the earliest

permitted commencement date provided under the plan. If the spouse elects to defer, actuarial increases from the earliest

commencement date must be given, so that a later

commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the

benefit as soon as it is available.

Deferred vested benefit Deferred vested participants' assumed commencement age is a

single age intended to capture the average age at

commencement.

### Source of Prescribed Methods

### **Funding methods**

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

### Change since prior valuation

### Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2016 to September 2017 before application of interest rate stabilization.

The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.

The assumed plan-related expenses added to the target normal cost were changed from \$2,468,000 for 2017 to \$2,484,000 for 2018.

### Schedule SB - Statement by Enrolled Actuary

Plan Sponsor Portland General Electric Company

**EIN/PN** 93-0256820/001

Plan Name Portland General Electric Company Pension Plan

Valuation Date January 1, 2018

Enrolled Actuary Holly C. Echeverria

**Enrollment Number** 17-7310

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

### Description of Weighted Average Retirement Age as of January 1, 2018 Schedule SB, Line 22

See Schedule SB, Part V - Statement of Actuarial Assumptions/Methods for retirement rates. The average retirement age for Line 22 was calculated by determining the average age at retirement for those current active participants expected to reach retirement.

### Schedule SB, Part V

### **Summary of Plan Provisions**

### Plan Provisions

The most recent amendment reflected in the following plan provisions was effective May 23, 2014.

### Covered Employees

The following groups of employees are eligible to participate in the plan after completion of one year of service and attainment of age 21:

**Nonunion Employees** (not members of the IBEW Local 125 bargaining unit)

Employees hired or rehired before February 1, 2009.

Union Employees (members of the IBEW Local 125 bargaining unit)

- Employees at Coyote Springs and Port Westward hired or rehired before January 1, 2012.
- Other employees hired before January 1, 1999 and are participating in Retirement Program A or Retirement Program B.

Employees are eligible for Program A if they are:

 Born before January 2, 1957 and has not elected to participate in Retirement Program B

or

Members of Coyote Springs or Port Westward Plants.

Employees are eligible for Program B if they are:

- Not members of Coyote Springs or Port Westward Plants
- Born after January 1, 1957
- Born before January 2, 1957 and has elected to participate in Retirement Program B with such election made on or before February 28, 2009.

An election to participate in program B is irrevocable.

Union employees hired or rehired after December 31, 1998 are automatically in Program B, and are not eligible to participate in the Portland General Electric Company Pension Plan.

The option for Plan A employees to transfer to plan B cash balance plan expired on February 28, 2009.

_	efi		

Benefit Service prior to January 1, 1976, is determined in

accordance with the plan in effect at the time.

For service on or after January 1, 1976, one year of benefit service is granted for each plan year in which 2,000 hours of service are accrued. If less than 2,000 hours of service, but at least 750 hours of service are accrued, a pro-rated amount will be granted.

Hours of service during unpaid leave are not counted towards

benefit service.

Plan B participants receive no further benefit service upon entering

Plan B.

Vesting service One year of vesting service is granted for each year in which 750

hours of service are accrued.

Final Average Earnings Highest 60 consecutive Monthly Earnings during the last 120

months of employment.

Monthly Earnings Monthly base pay including salary reductions for 401(k) or Section

125 plans, but excluding deferrals under nonqualified deferred

compensation plans.

Covered Compensation A 35-year average of the Social Security taxable wage bases,

ending with the wage base in the year in which the participant

terminates, dies or becomes disabled.

Normal Retirement Date (NRD) First of month coinciding with or next following the attainment of

age 65.

Accumulated Cash Balance Opening Cash Balance accumulated with Interest Credits until the

annuity starting date (Program B participants only)

Opening Cash Balance Actuarial Equivalent Lump Sum of Retirement Benefit upon election

to participate in program B. Actuarial equivalence is based on Lump Sum Deferred to Age 62, or the Participant's current age if over age

62, with no mortality discount from 62 to current age.

Interest Credits Monthly interest credit base on a uniform rate with an effective

annual interest rate equal to the average 30 Year Treasury Rate of November of the year preceding the participant's transfer to Plan B.

Monthly Pension Benefit

Nonunion (1) + (2)

1. Sum of (a) + (b)

a. 1.20% of Final Average Earnings multiplied by Benefit Service up to a maximum of 30 years.

b. 0.50% of Final Average Earnings in excess of Covered Compensation, multiplied by Benefit Service up to a

maximum of 30 years.

2. 0.50% of Final Average Earnings multiplied by Benefit Service

in excess of 30 years.

Plan Name: Portland General Electric Company Pension Plan

EIN / PN: 93-0256820/001

Plan Sponsor: Portland General Electric Company

Union A

(1) + (2)

- 1. Benefit Factor multiplied by Final Average Earnings multiplied by Benefit Service up to a maximum of 30 years.
- 2. Excess Benefit Factor multiplied by Final Average Earnings multiplied by Benefit Service in excess of 30 years.

For all service accrued after February 28, 2009, the factors are as follows:

Benefit Factor - 1.42% Excess Benefit Factor - 0.50%

Union participants who are 55 or older, who retire on or after October 1, 1998, who are not CS/PW participants, and have at least 80 points on or prior to February 28, 2009, and remain in this union status until retirement received enhanced Benefit Factors and Excess Benefit Factors for service accrued prior to March 1, 2009. The Benefit Factor and Excess Benefit Factor will be dependent upon a point system. For these purposes, the points are frozen as of February 28, 2009.

The point accumulation is in the following table:

Points at Retirement	Enhanced Benefit Factor	Enhanced Excess Benefit Factor
<80	1.42%	0.50%
80-94	1.46%	0.54%
95+	1.50%	0.58%

Union B

### Payable as Annuity

Greater of (1) and (2):

- 1. Immediate Annuity actuarially equivalent to Accumulated Cash Balance.
- a. The available retirement benefit accrued on the date of conversion to Plan B, if the participant is eligible to receive a distribution under the Plan, as described before January 1, 1999 restatement, or
  - b. The participant's normal retirement benefit accrued to the date of conversion to Plan B, reduced actuarially for early commencement.

Payable as Lump Sum

Greater of (1) and (2):

- 1. Accumulated Cash Balance.
- 2. If the participant is early retirement eligible, the actuarially equivalent lump sum equal to the immediate lump sum value of the early retirement benefit accrued on the date of conversion to Plan B payable under the Plan as stated on December 31, 1998. Otherwise the actuarially equivalent lump sum assumes commencement on the participant's Normal Retirement Date.

### Eligibility for Benefits

### **Nonunion and Union A**

Normal retirement Retirement on NRD

Early retirement Retirement before NRD and on or after both attaining age 55 and

completing five years of vesting service

Postponed retirement Retirement after NRD

Vested termination Termination for reasons other than death or retirement after

completing five years of vesting service

Disability Permanent and total disability on or after age 55 with 5 years of

vesting service, or with 20 years of vesting service if before age 55. However, effective July 1, 2011, only employees with at least five years of vesting service as of the date the employee is eligible for LTD payments, will continue to accrue benefit and

vesting service.

Preretirement death benefit For death of an active participant eligible for early retirement,

50% of the retirement income available if the participant had retired on the date of death and elected a straight life annuity option, payable as a single life annuity to the surviving spouse or SSDP, otherwise payable to a qualified dependent until the dependent is no longer qualified. Payments begin on the first day

of the month following death.

For death of an active participant under age 55, 50% of the retirement income payable as a straight life annuity using benefit service and earnings at date of death, but using the age 55 early retirement reduction factor, payable as a single life annuity to the surviving spouse or SSDP, otherwise payable to a qualified dependent until the dependent is no longer qualified. Payments begin on the first day of the month following death.

For death of a terminated vested participant, the benefit the spouse or SSDP would have received had the participant survived to the later of age 55 and actual date of death. Benefits are payable the later of age 55 or actual date of death.

Dependent benefits are not available for terminated vested

participants

There is a \$50.00 monthly floor for the spouse's benefit.

Union B Program B participants are 100% vested at all times

### Benefits Paid Upon the Following Events

### Nonunion and Union A

Normal retirement The monthly pension benefit determined as of NRD

Early retirement

Nonunion The accrued normal retirement benefit reduced according to the following:

Age at Benefit Commencement	Early Retirement Factor
55	65%
56	70%
57	75%
58	80%
59	85%
60	90%
61	92%
62	94%
63	96%
64	98%
65	100%

Participants born after 1954 and retiring before age 57 are eligible for special early retirement factors which consist of a factor to multiply by the integrated portion of the benefit, and a factor to multiply by the nonintegrated portion of the benefit, according to the following schedule:

Age at Benefit	Early Retiremo	ent Factor
Commencement	Nonintegrated	Integrated
55	65%	63.2%
56	70%	68.8%

For this purpose, the integrated portion of the benefit is 0.5% of Final Average Earnings in excess of Covered Compensation times Benefit Service up to 30 years.

Plan Name: Portland General Electric Company Pension Plan

EIN / PN: 93-0256820/001

Plan Sponsor: Portland General Electric Company

Union A

The accrued normal retirement benefit reduced 5% per year for commencement before age 62.

Union participants who are age 55 or older and who retire on or after October 1, 1998, and who are not Coyote or Port Westward participants, provided the union participant remains in this union status during the period beginning February 28, 2009 and ending on the early retirement date, may receive their accrued normal retirement benefit reduced from age 62, with such reduction based on the participant's points at retirement according to the following schedule:

Points of Retirement	Annual Reduction Factor for Commencement Before Age 62
<70	5%
70-79	4%
80-84	3%
85-89	2%
90+	1%

Postponed retirement

The monthly pension benefit determined as of the actual retirement date

Vested termination

The accrued normal retirement benefit payable at age 65, using Benefit Service, Final Average Earnings and Covered Compensation (nonunion) at termination, reduced according to the following schedule for early commencement:

Age at Benefit Commencement	Early Retirement Factor
55	47%
56	50%
57	54%
58	58%
59	62%
60	67%
61	73%
62	79%
63	85%
64	92%
65	100%

Disablement

The accrued normal retirement benefit payable at age 65, using benefit service up to actual retirement date prior to August 1, 2013, up to a maximum of age 65 effective August 1, 2013 and earnings and covered compensation (nonunion) at date of disability, reduced according to early retirement factors if after age 55. If retirement is before age 55, the benefit is the actuarial equivalent of the benefit payable at age 55.

Employees who become totally and permanently disabled will continue to accrue benefit and vesting service while on LTD up to a maximum of age 65 effective August 1, 2013.

### Preretirement death

For death of an active participant eligible for early retirement, 50% of the retirement income available if the participant had retired on the date of death and elected a straight life annuity option, payable as a single life annuity to the surviving spouse or SSDP, otherwise payable to a qualified dependent until the dependent is no longer qualified. Payments begin on the first day of the month following death.

For death of an active participant under age 55, 50% of the retirement income payable as a straight life annuity using benefit service and earnings at date of death, but using the age 55 early retirement reduction factor, payable as a single life annuity to the surviving spouse or SSDP, otherwise payable to a qualified dependent until the dependent is no longer qualified. Payments begin on the first day of the month following death.

For death of a terminated vested participant, the benefit the spouse or SSDP would have received had the participant survived to the later of age 55 and actual date of death.

Benefits are payable the later of age 55 or actual date of death.

Dependent benefits are not available for terminated vested participants.

There is a \$50.00 monthly floor for the spouse's benefit.

### Union B

Retirement, termination, disability or death

The Accumulated Cash Balance or actuarially equivalent Immediate Annuity

### Other Plan Provisions

Forms of payment

Preretirement death benefits are payable only as described above. Monthly pension benefits described above are paid as a single life annuity (SLA), if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of a 50% joint and survivor annuity (J&S) option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan.

Optional forms are a 100% J&S, a 75% J&S, or (for married participants) an SLA. A level income option is available for early retirement prior to age 62. A lump sum is available for Plan B participants, or for Plan A or nonunion participants with amounts less than \$25,000.

Optional form factors

Lump sum – applicable interest and mortality as defined in IRC section 417(e).

Retirement from active employment:

■ 50% J&S – 94% of the SLA +/-.5% for each year the beneficiary is younger/older, with a maximum of 99%

Plan Name: Portland General Electric Company Pension Plan

EIN / PN: 93-0256820/001

Plan Sponsor: Portland General Electric Company

- 75% J&S 90% of the SLA +/-.75% for each year the beneficiary is younger/older, with a maximum of 99%
- 100% J&S 86% of the SLA +/-1% for each year the beneficiary is younger/older, with a maximum of 99%

Other retirements based on actuarial equivalence as follows:

- Terminations prior January 1, 2007
  - Nonunion: 1971 TPF&C for males, with a one-year age setback for the participant, and a five-year setback for the beneficiary, and an interest rate of 7.50% with a 3.8% load
  - Union: 1971 TPF&C for males, with a six-year setback for the beneficiary, and an interest rate of 5.0%
- Terminations after January 1, 2007
  - 1971 TPF&C for males, with a one-year age setback for the participant, and a five-year setback for the beneficiary, and an interest rate of 7.50% for Nonunion employees and 5.0% for Union employees.

Basis for Opening Cash Balance (Program B participants only)

1994 Group Annuity Reserve Table under Revenue Ruling 2001-62 and an interest rate of the average yield of 30-year Treasury securities for November of the preceding year.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are not assumed.

Pension Lump Sum Offer

Participants who terminated employment before February 26, 2014 with a vested benefit, and have not commenced benefits by July 1, 2014, are eligible to elect to receive their benefits in the form of a lump sum or immediate annuity as of July 1, 2014. Participants that elected the lump sum and were cashed out during July 2014 are no longer participants in the plan.

### Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.

Changes in Benefits Valued Since Prior Year

None.
