

PGE Drive Change Fund Electric Vehicle Guide

Vehicle Requirements

All eligible vehicles must be capable of charging from the electric grid. Used vehicles are allowable but new vehicles are preferable due to their increased safety and performance.

Light Duty Electric Vehicles

Looking for a light-duty electric vehicle? Light-duty vehicles are the passenger cars, trucks, and vans many Oregonians own and drive every day.

You can learn about the total cost of ownership for available light-duty electric vehicles on the market now by visiting this interactive [Electric Vehicle Costs & Savings Calculator](#).

Medium- and Heavy-Duty Electric Vehicles

If you're looking for a more substantial vehicle to transport people, goods or for another purpose, you likely need a medium- or heavy-duty electric vehicle.

The [Zero-Emission Technology Inventory](#) is an interactive resource for commercially available offerings of zero-emission medium- and heavy-duty vehicles. This includes:

- Transit Buses
- School Buses
- Shuttle Buses
- Cargo Vans
- Yard Tractors
- MD Trucks
- MD Step Vans
- HD Trucks
- Other
