

Adjustment schedules explained

Schedule No.	Adjustment name	Adjustment description
102	Regional Power Act Exchange Credit (BPA Subscription Power Credit)	Credit designed to give residential customers of investor-owned utilities access to the low-cost power of the Columbia River federally owned hydro-power system. This credit is limited to the first 2,000 kWh's per month for residential customers. PGE gains no additional revenues/profits from the adjustment; the law requires PGE to pass the benefits directly to our customers.
103	Metro Supportive Housing Services Business Income Tax	The schedule is to recover from the Metro Supportive Housing Service Business Income Tax (MSHS) paid by the Company for commercial activity in Metro's jurisdiction. It is applied on a percentage basis of customers' bills within Metro's jurisdiction in Clackamas, Multnomah and Washington Counties.
105	Regulatory Adjustments	Collects/refunds miscellaneous items, such as the fee paid to the Oregon Public Utility Commission, research and development tax credits and other miscellaneous items.
106	Multnomah County Business Income Tax Recovery	To recover from the Multnomah County Business Income Tax (MCBIT) from customers in Multnomah County. This tax is paid by the Company in accordance with Multnomah County Code § 12.610 and OAR 860-022-0045 and to establish an associated Automatic Adjustment Clause and balancing account.
108	Public Purpose Charge	This charge funds energy efficiency, renewable resources, low-income energy efficiency and energy related investments in schools. The public purpose charge is mandated by Oregon statute. PGE collects from customers and then passes the amount collected to various organizations responsible for these programs, such as the Oregon Housing, Community Services Department and the Energy Trust of Oregon. This charge will end on Jan. 1, 2036.
109	Energy Efficiency Funding Adjustment	This adjustment is to fund PGE activities associated with helping customers be more energy efficient. Such activities include project facilitation, technical assistance, education and assistance to support programs administered by the Energy Trust of Oregon.
115	Low Income Assistance	This fee is mandated by Oregon statute. The purpose of this fee is to provide stable funding to the Oregon Department of Housing and Community Services to support low-income customers who cannot pay their electric bills. PGE does not keep this money but passes it on to the Oregon Department of Housing and Community Services. The funds are then distributed to the various local Community Action Program agencies within PGE's service territory.

Schedule No.	Adjustment name	Adjustment description
118	Bill Discount Cost Recovery Mechanism	The purpose of this schedule is to recover the costs associated with PGE's Income-Qualified Bill Discount, an offering to eligible Residential Customers designed to increase bill affordability (operationalized in Schedule 18). This discount is enabled by House Bill 2475 (2021 regular session), which calls for differentiated rates for "low-income customers and other economic, social equity or environmental justice factors that affect affordability for certain classes of utility customers."
122	Renewable Resources Automatic Adjustment Clause	The adjustment recovers the cost of renewable energy resource projects not otherwise included in the energy charge.
123	Decoupling Adjustment	This adjustment has two parts. For Schedules 7 (residential) and 32 (small non-residential), Decoupling tracks and adjusts the fixed portion of revenues (transmission, distribution and fixed generation) associated with variations in energy use not attributable to weather. The Lost Revenue Recovery Adjustment portion of this tariff trues-up forecast and actual energy efficiency for applicable large non-residential customers.
126	Annual Power Cost Variance Mechanism	This adjustment recognizes in rates, part of the difference for a given year between power costs incurred and projected power costs.
128	Short-Term Transition Adjustment	This adjustment applies to large non-residential customers) schedules 515, 532, 538, 549, 575, 583, 585, 589, 591, 592 (Direct Access service)) or others who have selected a PGE daily market pricing option.
129	Long-Term Transition Adjustment	This adjustment applies to large non-residential customers who are on Schedules 485 and 489.
135	Demand Response Cost Recovery Mechanism	This adjustment recovers the costs associated with PGE's Automated Demand Response program.
136	Oregon Community Solar Program Start-Up Cost Recovery Mechanism	To recover costs incurred during and for the development (or modification) of the Oregon Community Solar Program (Oregon CSP) including the costs associated with the State of Oregon's Program Administrator, Low Income Facilitator and the company's prudently incurred costs associated with implementing the Community Solar Program that are not otherwise included in rates.
137	Solar Payment Option Cost Recovery	This adjustment recovers the costs associated with the Solar Payment Option pilot program.

Schedule No.	Adjustment name	Adjustment description
138	Energy Storage Cost Recovery Mechanism	This schedule recovers the expenses associated with HB 2193 energy storage pilots not otherwise included in rates.
139	New Large Load Transition Cost Adjustment	Applicable to Large Nonresidential customers who have selected New Large Load Cost-of-Service Opt-Out service under Schedule 689. Transition adjustment will be paid when the customer begins service under Schedule 689. Adjustment represents 20% of the Company's fixed generation costs and is subject to change annually for the duration the customer is opted out of Cost of Service on Schedule 689.
142	Underground Conversion Cost Recovery Adjustment	To recover costs incurred by the Company to convert electric facilities from overhead to underground from customers within the boundaries of the local government requiring such conversion at the Company's expense, as required by OAR 860-022-0046.
143	Spent Fuel Adjustment	The purpose of this schedule is to implement in rates the amortization of the excess funds previously contained in the Trojan Nuclear Decommissioning Trust Fund and any ongoing refunds from the United States Department of Energy. Also included are pollution control tax credits associated with the Independent Spent Fuel Storage Installation at the Trojan nuclear plant.
145	Boardman Power Plant Operating Life Adjustment	This adjustment establishes the mechanism to implement in rates, the revenue effect of a Public Utility Commission authorized change in the Boardman Power Plant's assumed end of life year of 2040 to and end of life year of 2020.
146	Colstrip Power Plant Operating Life Adjustment	This schedule establishes the mechanism to implement in rates the Company's share of the revenue requirement effect of the change in the Colstrip Power Plant Units 3 and 4 and associated common facilities currently assumed end of depreciable life year from 2024 to 2030 as specified in 2016 Oregon Laws, Chapter 28 (SB 1547), Section 1.
149	Environmental Remediation Cost Recovery Adjustment Automatic Adjustment Plan	This schedule recovers the costs and revenues associated with the Portland Harbor Superfund site (Portland Harbor), the Natural Resource Damage obligation, the Downtown Reach portions of the Willamette River, and the Harborton Restoration Project. This adjustment schedule is implemented as an automatic adjustment clause as provided under Oregon state law (ORS 757.210).
150	Transportation Electrification Cost Recovery	This schedule recovers the costs to support the statewide decarbonization goals and long-term load growth through transportation electrification not otherwise included in base rates.
