# Upcoming construction in Charbonneau

## Work to support Wilsonville's stormwater improvements and improve electric reliability

### Overview

The City of Wilsonville's stormwater improvements in the Charbonneau neighborhood require PGE to move underground power lines along portions of French Prairie Road, Village Greens Circle, Edgewater Drive, Edgewater Lane and Fairway Village Loop. PGE will also upgrade the lines that were installed in the 1980s to improve reliability for the neighborhood.

### When will this happen?

Work is expected to begin in mid-November 2026 and continue through February 2027. Work will be limited to daylight hours from 7:30 a.m. to 4:30 p.m. Monday through Saturday.

Work will pause during the holidays.

### What can you expect?

- Customers can expect construction equipment, trucks, noise and dust.
- Some sidewalks, foot paths and traffic lanes may be closed temporarily for safety. Please watch for flaggers and follow posted detour signs.
- Crews may need to trim or remove trees and vegetation. PGE will contact landowners directly in advance if this work occurs on their property.
- Temporary, planned outages are expected so our crews can safely make these improvements. PGE will attempt to notify affected customers by email and/or text message about a week in advance of any planned outages. Log in to your PGE account and make sure your contact information is up to date.

### What is the Charbonneau Consolidated Plan?

The City of Wilsonville's project aims to rehabilitate public water, sanitary sewer and stormwater assets in the area near French Prairie Drive and Edgewater Lane.

Learn more about the City's project at wilsonvilleoregon.gov and search for 'Charbonneau Consolidated Plan.'

## Questions?

**If you have questions or comments, please email CommunityConnect@pgn.com and mention Charbonneau construction. Visit portlandgeneral.com/projects for updates.**
