

2022 Green FutureSM Enterprise prospective product content label¹

Green Future Enterprise is a Green-e[®] Energy certified Renewable Energy Certificate (REC) product. Renewable Energy Certificates (RECs) do not contain electricity. A REC represents the environmental benefits of 1 megawatt-hour (MWh) of renewable energy that can be paired with electricity. You can purchase RECs up to 100% of your PGE served electricity load, subject to availability, with a minimum purchase of 1,000 kWh per month. PGE is supplying your electricity. Green-e[®] Energy has only certified the RECs, which may be sourced from outside of your local electricity distribution area. For more information, see green-e.org/rec.

GENERATION LOCATION
Local (OR, WA, or ID) and national wind

Here's how that compares to the average mix in the 2021 PGE Basic Service Mix:³

40% Natural gas	13% Wind
20% Hydro	7% Coal
18% Other unspecified	2% Solar

Green Future Enterprise price, terms and conditions

What is my contract length?	Your Green Future Enterprise contract is month-to-month unless otherwise specified in your agreement.
How much will Green Future Enterprise cost?	\$5.90 per MWh (1,000 kWh).
Will my rates change over time?	The price of Green Future Enterprise may change with evolving REC market conditions and program demand. You will be notified of any price change in advance.
What other fees might I be charged?	You must also pay all applicable federal, state or local taxes.
How will I be billed?	Your Green Future Enterprise charge will be listed as a separate line item on your monthly PGE bill, or you can choose to be invoiced separately on a monthly or annual basis. In either case, this charge is in addition to your regular electricity bill.
Can I cancel my participation?	You can cancel at any time with no fee. There is no minimum contract length.

1. These figures reflect the renewables that we have contracted to provide. Actual figures may vary according to resource availability. We will annually report to you before August 1 of next year in the form of a Historic Product Content Label the actual resource mix of the electricity you purchased.
2. New renewables come from generation facilities that first began commercial operation within the past 15 years.
3. Based on energy served to retail customers within the State of Oregon, as required by the Oregon Department of Environmental Quality (ODEQ). Some or all of the renewable energy attributes associated with PGE's Basic Service Mix may be sold, claimed or not acquired.

Green Future Enterprise is Green-e[®] Energy certified and meets the environmental and consumer-protection standards set forth by the nonprofit Center for Resource Solutions. Learn more at green-e.org.
