

RFI QUESTIONS & ANSWERS

RFI # PGE01-GID02-SH-002/A for Grid Edge Computing ("GEC") Technology Solution Capabilities

RFI QUESTIONS				RFI ANSWERS		
#	Question Category	Supplier Questions	Question Date	PGE Answers	Answer Date	Excel spreadsheet Update Required (Y/N)
14	Technical	In tab 2, "GEC Capability", column G of the Excel spreadsheet, should we answer that question from the perspective of the solution status of "today", the anticipated implementation date for the 10% of meters identified in this RFI (which we currently understand could be in Q4 25 or Q1 26), or when meters are fully deployed across PGE's service area (expected over the next 5 years).	March 18, 2025	Column G in the "GEC Capability" tab should be completed based on the solution status today. However, PGE would appreciate insight into both your solution today, and how the anticipated product/solution roadmap will develop in the next five years. Please specify the capability present now and the capabilities that will be present in the future in the "GEC Capability" tab in both columns D and H. You can cover both current and future solutions separately in those two columns.	March 27, 2025	N
