

RFP QUESTIONS & ANSWERS SUMMARY PART 1

RFP # PGE01-GID05-SH-017 - Substation Owner's Engineer Services for the Warm Springs Power Pathway Project

RFP QUESTIONS			RFP ANSWERS		
#	Supplier Questions	Question Date	PGE Answers	Answer Date	RFP or SOW Update Required (Y/N)
1	Page 15 of the RFP discusses joint venture qualifications. For a proposed team in which one entity leads commercial and origination activities and a separately identified engineering firm provides the required owner's engineer experience and technical personnel, would PGE permit this structure as either a joint venture or a prime contractor/subconsultant team? If so, please clarify which minimum experience and qualification requirements must be satisfied by the prime contractor and which may be satisfied by a named joint venture member or subconsultant.	9/13/2026	PGE will accept proposals submitted either as a joint venture or as a prime contractor with subconsultants. For joint ventures, the provisions of Section 3.3 apply. A joint venture member may independently satisfy a mandatory requirement on behalf of the joint venture; however, joint venture members may not combine qualifications, experience, or resources to satisfy a single mandatory requirement. For prime contractor/subconsultant teams, the Offeror may rely on the qualifications, experience, and personnel of identified subconsultants to demonstrate compliance with applicable solicitation requirements, provided the proposal clearly identifies the roles, responsibilities, and qualifications of each team member. Accordingly, applicable experience and qualification requirements may be satisfied by either the Offeror, a single joint venture member, or a single identified subconsultant. However, multiple entities may not combine partial qualifications or experience to collectively satisfy a single mandatory requirement.	9/16/2026	Y
