

Appendix C. 2023 IRP public meeting agendas

PGE manages IRP development through a collaborative, interactive process with an active customer and public stakeholder group. All IRP meetings are open to the public and are generally hosted once a month. In addition, PGE continues to engage community-based organizations via the Learning Lab³⁹⁴ venue, originally utilized during DSP development, to share IRP and CEP related analysis and concepts with stakeholders who have less experience participating in technical workshops.

PGE has hosted 30 public meetings and seven Learning Labs during the 2023 IRP development process, makes all meeting materials available on the IRP webpage, and advertises public meeting dates there as well. The comments and suggestions shared with us are incorporated into our thinking and our final IRP, and a summary of the comments we received are posted to our IRP webpage.

This summary of our meeting dates and topics, hosted in support of the 2023 IRP, is a collaboration between PGE and our dedicated stakeholder community who have put in the time to advocate for their communities. A summary of meeting topics is shown in **Table 95**, **Table 96**, **Table 97**, and **Table 98**. We have attempted to incorporate what we have heard and plan to continue to engage and evolve through this 2023 IRP and into future IRP development.
