

How it works

We partner with you to plan and build the appropriate charging infrastructure for your commercial or multifamily site. With a custom incentive and turnkey design and construction services, we help you save money and make it easy for you to offer charging at your property.

Plan	Customer	PGE	Typically 1-3 months
	1 Application <ul style="list-style-type: none"> Fill out and submit an application to PGE 	<ul style="list-style-type: none"> Schedule a kick-off meeting with customer 	
	2 Site assessment <ul style="list-style-type: none"> Select chargers 	<ul style="list-style-type: none"> Recommend charging options 	
	3 Site walk <ul style="list-style-type: none"> Provide input on layout 	<ul style="list-style-type: none"> Walk through site with customer to discuss infrastructure layout Create preliminary site design and cost estimate 	
	4 Site study	<ul style="list-style-type: none"> Present results of site assessment and site walk Provide information on make ready build incentives and requirements 	
Build			Typically 9-18 months
	5 Funds reservation <ul style="list-style-type: none"> Confirm preliminary design Confirm Charger selection and provide price quote for chargers Sign commitment form Pay refundable down payment (if necessary) 		
	6 Final design <ul style="list-style-type: none"> Confirm final design 	<ul style="list-style-type: none"> Create final design 	
	7 Enrollment <ul style="list-style-type: none"> Sign enrollment agreement and easement Make payment (if necessary) 	<ul style="list-style-type: none"> Provide Purchase Order for chargers 	
	8 Construction	<ul style="list-style-type: none"> Pull permits Install make-ready infrastructure Pass inspections 	
	9 Charger installation <ul style="list-style-type: none"> Install all chargers within 12 months of completion
