

The official journal of the Japanese Society for Cutaneous Immunology and Allergy

Welcome Message

Dear Author,

The [Journal of Cutaneous Immunology and Allergy](#) is pleased to share its fourth newsletter with you! This half yearly issue aims to provide the latest updates and news relating to the journal and [The Japanese Society for Cutaneous Immunology and Allergy](#).

Latest news

Exciting News from the JCIA Editorial Team

The JCIA Editorial Board is entering a new chapter, and we're delighted to share some updates with you!

A heartfelt thank you

We would like to express our sincere thanks to the five Associate Editors who have recently stepped down from their roles:

- Prof. Tetsuya Honda
- Prof. Shin Morizane
- Prof. Naoko Okiyama
- Prof. Yutaka Shimomura
- Prof. Yukie Yamaguchi

We are truly grateful for the time, expertise and dedication they have contributed to JCIA. Their work has played an important role in supporting the journal and its development. We thank them for their valuable service and wish them all the very best for the future.

Welcoming new faces to JCIA

We are also excited to welcome six new Associate Editors to the JCIA Editorial Board!

- Prof. Takeya Adachi – Saitama Medical Center, Saitama Medical University
- Prof. Tsuyoshi Fukumoto – Kyoto Prefectural University of Medicine
- Dr. Ryota Hayashi – Niigata University
- Prof. Yu Sawada – University of Occupational and Environmental Health
- Dr. Akihiko Uchiyama – Gunma University
- Dr. Tomoya Watanabe – Yokohama City University

We are delighted to have them on board and look forward to their contributions to JCIA. Please join us in welcoming our new Associate Editors and wishing them every success in their new roles!

World Psoriasis Day: Looking Beyond the Skin

Observed annually on **29 October**, World Psoriasis Day is an important global awareness day dedicated to increasing understanding of psoriasis and recognizing the experiences of people living with this chronic inflammatory condition.

Although psoriasis is often associated with visible changes to the skin, its impact can extend far beyond what can be seen, affecting physical health, emotional wellbeing, self-confidence, social relationships, work, and everyday activities. People with psoriasis may also experience other health conditions associated with the disease, making early recognition, appropriate treatment, and ongoing medical support particularly important.

The 2026 campaign, “**Look Beyond My Skin**,” encourages people to see the individual behind the visible symptoms and to understand that psoriasis is more than a skin condition. The campaign highlights the importance of listening to patients, challenging misconceptions and stigma, supporting mental and emotional wellbeing, and ensuring that people have access to timely diagnosis and comprehensive, patient-centered care.

Join the conversation and be part of the change!

Open Special Issues

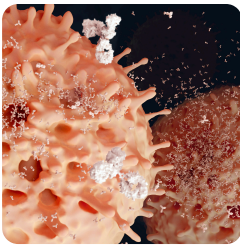

[Results or Reasons: Changes of microbiota in autoimmune and inflammatory dermatoses](#)

This special issue explores the biological and molecular mechanisms of wound healing, from normal tissue repair to complications such as chronic wounds and pathological scarring. Its goal is to advance clinical and scientific understanding and support improved strategies for wound management.

Manuscript Deadline: 31 January 2027

[Prospective in wound healing. What will be the next?](#)

This Special Issue examines skin–microbiome interactions in chronic diseases like atopic dermatitis, aiming to bridge knowledge gaps and advance diagnostics and treatments, focusing on immune mechanisms, biomarkers, therapeutic strategies, and patient outcomes.

Manuscript Deadline: 30 November 2026

Propose a Special Issue

Have an idea that could spark meaningful discussion in the field of cutaneous immunology and allergy?

JCIA welcomes innovative and forward-thinking proposals for Special Issue themes. If you have a concept you'd like to develop or discuss, we'd be delighted to hear from you. Don't hesitate to contact the JCIA Editorial Office at jcia@frontierspartnerships.org with your suggestions.

Help shape future conversations and contribute to the growth of the JCIA community!

Join the editorial board

We invite you to visit our Editorial Board page [here](#) to learn more about the distinguished experts who contribute to our journal's success. If you are interested in becoming a part of our team as an Associate Editor or reviewer, or if you know someone who would be an excellent fit, please do not hesitate to get in touch with us. We welcome all inquiries and referrals and look forward to expanding our community of dedicated professionals.

Become a JCIA Reviewer

We are always looking for new reviewers to join our Editorial Board and widen our community of experts in the field of cutaneous immunology and allergy. **If you are interested in becoming a reviewer, you can register your interest by clicking the button below.** You can find more information about the role on [our website](#) and if you have any questions, please feel free to reach out and we'll be happy to provide assistance.
