

# JOURNAL OF CUTANEOUS IMMUNOLOGY AND ALLERGY

*The official journal of the Japanese Society for  
Cutaneous Immunology and Allergy*

## Welcome Message

Dear Author,

The [Journal of Cutaneous Immunology and Allergy](#) is pleased to share its second newsletter with you! This half yearly issue aims to provide the latest updates and news relating to the journal and [The Japanese Society for Cutaneous Immunology and Allergy](#).

## Special Issues

### Results or reason: Changes of microbiota in autoimmune and inflammatory dermatoses

This Special Issue examines skin-microbiome interactions in chronic diseases like atopic dermatitis, aiming to bridge knowledge gaps and advance diagnostics and treatments.

[Submit to this Special Issue](#)

## Cutaneous manifestations in Antiphospholipid syndrome (APS)

This special issue aims to explore the early diagnosis and management of Antiphospholipid Syndrome (APS) through its cutaneous manifestations, emphasizing the role of dermatologists in improving patient outcomes.

[Submit to this Special Issue](#)

## Pathogenesis and new treatments of atopic dermatitis

This special issue focuses on the effective use of new systemic and topical therapies for atopic dermatitis, emphasizing the characteristics and side effects of biologics and JAK inhibitors.
