A. RISK FACTORS RELATING TO GSW

The risk factors listed below are divided into categories. Sections A.I. (Risk of Creditworthiness), A.II. (Business Risks) and A.III. (Operational Risks) each form such a category. If more than one risk factor is included in a category, the most material risk factors shall be mentioned first. The materiality of the risk factors is based on the probability of their occurrence and the expected extent of their negative effects.

Only those risk factors are presented below which are specific to GSW and, in the opinion of GSW, material for taking an informed investment decision. In addition, before buying any securities, investors should carefully read and consider the risk factors described in the securities note for the relevant securities which, in the opinion of GSW, are specific and material to such securities. In addition, they should note and consider all other information contained in the Registration Document, the relevant securities note or the relevant (base) prospectus and, if applicable, the relevant final terms and all relevant supplements and, if applicable, all information incorporated by reference in the relevant (base) prospectus or a relevant supplement. Potential investors should also bear in mind that all the risks described may interact and thereby reinforce each other. If any of the risks described in the following materialize, investors could lose some or all of their investment.

I. RISK OF CREDITWORTHINESS

Investors should take the creditworthiness of GSW (as well as the creditworthiness of The Goldman Sachs Group, Inc. ("**GSG**") or any other Goldman Sachs entity acting as guarantor of securities issued by GSW) into account in their investment decisions. Risk of creditworthiness means the risk of insolvency or illiquidity of GSW, i.e. a potential, temporary or final inability to fulfill its interest and repayment obligations on time. In case of GSW, in this category the subsequent risks can be distinguished. The risks are classified according to their materiality. The most material risks are mentioned first.

1. Risks relating to the creditworthiness of GSW due to the nature of GSW as an issuance vehicle with limited assets

GSW was established only for the purpose of issuing fungible securities and does not carry out any further operating business activity besides that the issued share capital of GSW amounts to EUR 51,129.19 (DM 100,000.00) only. Investors are therefore exposed to a significantly greater credit risk by purchasing the securities compared to an issuer equipped with significantly more capital.

In case insolvency proceedings are opened against GSW, investors can only assert their claims in accordance with the provisions of the German Insolvency Code. investors then receive an amount

of money based on the level of the so-called insolvency rate. This amount of money will regularly not come close to the amount of capital paid by the investor to purchase the securities.

In an extreme case, i.e. in the case of an insolvency of GSW, an investment in a security issued by GSW may mean the complete loss of the invested amount (**risk of total loss**), if the risk cannot be absorbed by a guarantee issued in favor of the investors.

2. Risks relating to the creditworthiness of GSW due to the dependency of GSW on hedging and related lending arrangements

To hedge its claims arising from the issued securities, GSW enters into hedging transactions with Goldman Sachs International ("**GSI**") and potentially going forward with other Goldman Sachs entities. In connection therewith, GSW is exposed to the risk of default of the parties with whom GSW concludes hedging transactions or related lending transactions, i.e. GSW is exposed to the insolvency risk of the hedging or related lending counterparties. Since GSW enters into such hedging and lending transactions primarily with Goldman Sachs entities, GSW is exposed to a so-called cluster risk compared to other issuers with a more widely spread selection of contracting partners. Therefore, an illiquidity or insolvency of companies affiliated with GSW may directly result in an insolvency of GSW.

3. Risks relating to the creditworthiness of GSW as a subsidiary of GSG

As regards the risk of creditworthiness, investors should note that an insolvency of GSW may occur despite of the fact that GSW is a subsidiary of GSG. A potential failure of GSG or a company affiliated with GSG and measures taken in accordance with the U.S. Resolution Regimes may also affect GSW. Under current law, GSW, as a non-U.S. entity, is not itself eligible to be placed into proceedings under the U.S. Special Resolution Regimes. However, GSG's resolution under the U.S. Resolution Regimes could have an impact on GSW as a direct subsidiary of GSG. The strategy described in the resolution plan of GSG is a variant of the single point of entry resolution strategy according to which subsidiaries would be recapitalized and be provided liquidity by the parent company in order to enable subsidiaries to continue to operate their business. Losses at the subsidiary level would be transferred to the parent company in order to avoid the resolution of the subsidiary. However, going forward the strategy may change. In this case, GSG's resolution may affect GSW as its subsidiary and measures under the U.S. Special Resolution Regime may become directly applicable to GSW.

It is to be further noted that except for the guarantee of GSG or another Goldman Sachs entity no further credit enhancement is provided. As a consequence, in case the hedging arrangements prove to be insufficient to satisfy the claims of all holders and the guarantor fails to satisfy the liabilities arising from the guarantee, investors may lose parts of their investment or their entire investment (**risk of total loss**).

4. Risks relating to the lack of a rating of GSW

Investors should furthermore note that a rating is only available in relation to the respective guarantor and not in relation to GSW. As a consequence, investors cannot compare the creditworthiness of GSW with other issuers since there is no rating of the Issuer by renowned rating agencies such as Moody's or Standard and Poor's. Due to the lack of a rating, there is an increased uncertainty in relation to the creditworthiness of GSW.

5. Risks relating due to the lack of a protection by a deposit fund

In respect of GSW's creditworthiness, investors should also note that GSW is not connected to a deposit protection fund or similar safety system, which would cover all or part of the claims of holders of securities in the case of an insolvency of GSW. As a consequence, in case of insolvency of GSW there is no system or mechanism which would protect investors against losses of the capital invested.

II. BUSINESS RISKS

GSW's primary activity is the issuance of securities. The activity of GSW and its annual issuance volume is affected both by positive and by negative developments in the markets where it carries out its business activity and, therefore, the activity of GSW, by its nature, does not produce predictable earnings. The general market development of securities depends particularly on the development of the capital markets, which is in turn affected by the general situation of the world economy as well as the economic and political conditions in the respective countries (so-called market risk), like, for example, the Russian invasion of Ukraine in February 2022. A difficult general economic situation may lead to a lower issuance volume and negatively affect GSW's earnings situation, because e.g. it earns less fee revenues due to lower transaction volumes.

III. OPERATIONAL RISKS

GSW conducts a significant proportion of its operations through other consolidated subsidiaries of GSG, most notably GSI and Goldman Sachs Bank Europe SE, Frankfurt am Main, Germany ("GSBE"). In this respect, finance and operations functions are performed through employees of GSBE. As GSW has no information technology systems of its own, it uses the systems and standard software of its affiliates. A breach in the IT systems of GSI or GSBE, or an operational failure of an affiliate company that provides financial or operational support to GSW, could result in financial losses to GSW and have a material adverse impact on the financial position of GSW.

No credit ratings have been assigned to GSW.

III. BUSINESS OVERVIEW

GSW has been established for the purpose of issuing securities, predominantly warrants, but also certificates and structured bonds. The securities issued by GSW are sold to Goldman Sachs International, London. For issuances in Germany, Goldman Sachs Bank Europe SE, Frankfurt am Main acts as issuing and paying agent, and undertakes the processing of all products issued by

GSW and deposited with Clearstream Banking Frankfurt. For products deposited with other clearing systems Goldman Sachs International undertakes these tasks.

GSW operates its business primarily in Germany and in the Netherlands and, to a lesser extent, in other European countries including Austria, Belgium, France, Switzerland, Luxembourg and the United Kingdom.

The purpose of GSW is to issue fungible securities and to carry out financial transactions and auxiliary transactions for financial transactions. GSW is neither engaged in banking transactions within the meaning of Section 1 of the German Banking Act (*Kreditwesengesetz*) nor in business operations within the meaning of Section 34 c of the German Industrial Code (*Gewerbeordnung*).

During the financial year 2022, GSW issued a total of 22,745 securities (prior year: 525,570), a decrease of 96 per cent. The decrease is primarily driven by the transfer of the issuance function for certain products to GSBE (see section "XI. Material Contracts below"). The new issues consist of share warrants, index warrants, mini future warrants, turbo warrants, FX warrants and commodity warrants as well as discount certificates, bonus certificates and other certificates and structured bonds. The new issues have a significantly higher average notional per issuance than in the prior year

GSW enters into hedging transactions with GSI and potential other affiliated companies to hedge against any market risks in relation to the securities issued by GSW. This places GSW in the position to meet its obligations in accordance with the securities issued. In connection with the hedging transactions, GSW may lend collaterals to other Goldman Sachs entities, including to GSG. Overall, liquidity is secured due to the business structure, cash at banks as well as GSWs integration in the GSG. Liquidity shortages are not expected. Additionally, GSW has the option to refinance itself at any given time through the GSG.

There have not been any material changes in the borrowing and funding structure of GSW since the last financial year (31 December 2022).

GSW conducts a significant proportion of its operations through other consolidated subsidiaries of GSG, most notably GSI and GSBE. In this respect, the finance and operations functions are performed through employees of GSBE. As GSW has no information technology systems of its own, it uses the systems and standard software of its affiliates.

IV. ORGANISATIONAL STRUCTURE

Goldman, Sachs & Co. Wertpapier GmbH is a directly and wholly-owned subsidiary of The Goldman Sachs Group, Inc. and is dependent on the strategic and operational decisions made by GSG.

The Goldman Sachs Group, Inc. together with its affiliated companies is a globally active financial institution. Through its offices in the USA and the leading financial centres of the world The Goldman Sachs Group, Inc. is active in the financial services industry, divided into the segments (i) Investment Banking which includes advice with respect to mergers and acquisitions, divestitures, restructurings and spin-offs as well as public offerings and private placements of a wide range of securities and other financial instruments and also corporate lending, (ii) Global Markets which includes client execution activities related to making markets in credit products, interest rate products, mortgages, currencies, commodities and shares, (iii) Asset Management which includes in particular investments (directly and indirectly through funds) and loans in various asset classes as well as investments by Goldman Sachs in consolidated investment entities and (iv) Consumer & Wealth Management.

As Goldman, Sachs & Co. Wertpapier GmbH conducts a significant proportion of its operations through other consolidated subsidiaries of GSG, most notably GSI and GSBE, Goldman, Sachs & Co. Wertpapier GmbH is, as such, further dependent on the operational functioning of such group entities, e. g. GSW is integrated in GSG's global risk management for operational risks, functions of the finance and operations divisions are performed by employees of GSBE. As GSW has no information technology systems of its own, it uses the systems and standard software of its affiliates.

V. TREND INFORMATION

There has been no material adverse change in the prospects of GSW since 31 December 2022 (date of its last published audited financial statement).

Since the end of the last financial period for which financial information has been published (31 December 2022), there has been no significant change in the financial performance of GSW.

The issuance activity will continue to remain at a low level in 2023. The remaining issuances are expected to generally have higher notionals per issuance.

The Russian invasion of Ukraine in February 2022 has led to significant disruption in financial markets and increased uncertainty in the business environment in which GSW operates. The future impact of the war on GSW's operational and financial performance remains difficult to predict at this time.

VI. MANAGEMENT AND LEGAL REPRESENTATION

The managing director (*Geschäftsführer*) of Goldman, Sachs & Co. Wertpapier GmbH is Michael Schmitz.

As only one managing director has been appointed GSW is represented by this managing director alone. Wertpapier GmbH and his obligations deriving from any activities performed outside Goldman, Sachs & Co. Wertpapier GmbH including his private interests.
