

PURIFYING OXYGEN LOTION

DECONGESTING OXYGEN LOTION

SKIN TYPES AND CONDITIONS: OILY, ACNE-PRONE, COMBINATION, DRY, CONGESTED

DESCRIPTION

A lightweight lotion ideal for congested and acne prone skin and very effective in eliminating open and closed comedones. Formulated to promote oxygenation, this refreshing treatment improves skin tone and texture. This lotion exfoliates, detoxifies, helps clear breakouts and removes impurities. With consistent twice daily use it leaves skin smooth, clear and bright. Skin is left looking invigorated and the appearance of pores is minimized. A wonderful alternative for clients who are allergic or overly sensitive to Benzoyl Peroxide.

A FEW KEY INGREDIENTS & BENEFITS

Hydrogen Peroxide: Improves the skin's vitality and oxygenates the skin. Decongests and purifies clogged pores.

Lavender Oil: The most versatile of essential oils. Has antiseptic, analgesic, bactericide and decongestant properties.

Safflower Seed Oil: Plant lipid that has barrier repair and anti-inflammatory properties.

USAGE INSTRUCTIONS

Use AM and PM. Gently massage a small amount into face, neck and décolleté. Allow to penetrate for several minutes before applying other products.

Professional Use:

Exfoliation Option 1 (all skin types and conditions except the most sensitive): Apply a nickel thick layer of Purifying Oxygen Lotion to skin with a fan brush (NO steam). Allow to sit for 10 – 15 minutes. Blot Oxygen Lotion off area just prior to extraction of that area. Purifying Oxygen Lotion will make extractions more rewarding and will brighten the skin in one treatment.
