

# ENZYME POWDER MASK

PROFESSIONAL USE POWDER ENZYME

SKIN TYPES & CONDITIONS: FOR ALL SKIN TYPES, SENSITIVE, ROSACEA, ACNE-PRONE, DEHYDRATED, AGING, SUN-DAMAGED

## DESCRIPTION

A digestive enzyme for all skin types and conditions. Relieves cellular build up, softens impactions and prepares skin for extractions.

## A FEW KEY INGREDIENTS & BENEFITS

Papain Powder (Carica papaya fruit extract): Papain powder, when activated with water, is a proteolytic enzyme which digests cellular buildup and helps soften sebum in the pores.

Bromelain Powder (Ananas comosus [pineapple] fruit extract): Bromelain Powder is a fruit enzyme effective in exfoliating dead cells on the surface of the skin. Bromelain powder is also rich in carotenoids and vitamin C.

Kaolin: Kaolin powder has excellent absorbent qualities. It helps to draw out impurities in the skin and to clear the skin of excess oil and other debris.

## USAGE INSTRUCTIONS

Professional Use:

Mask Option 1 (all skin types and conditions): Mix (1 TSP) Enzyme Powder with 3 pumps (1 TSP) Gentle Cleansing Milk and (1 ¾ TSP) distilled water and mix to achieve the consistency of pancake batter. Apply to skin with a fan brush and steam for 10 – 15 minutes. Remove with water.
